Company Overview

We are a commercial-stage diagnostics company committed to addressing the significant unmet need for the accurate diagnosis and monitoring of patients affected by autoimmune rheumatic diseases. These chronic diseases can cause lifelong inflammation in the joints, tissues and internal organs, resulting in serious complications, such as irreversible organ damage. The accurate, timely and differential diagnosis for patients suffering from the approximately 30 autoimmune rheumatic diseases, or ARDs, is critical as treatment for each disease can vary, and inappropriate or delayed therapy may expose patients to unnecessary risks or the hazards of uncontrolled disease activity. Physicians face significant difficulties in making a definitive diagnosis of a specific ARD because patients with different diseases often present with a common set of symptoms.

We currently market three products under our Avise brand to provide an accurate, timely and differential diagnosis and to optimize the treatment of ARDs. We processed approximately 9,300 patient specimens for our lead diagnostic product line, Avise SLE, in 2013 and approximately 4,500 in the first quarter of 2014.

The diagnosis and treatment of ARDs is generally provided by the community rheumatologist, a sub-specialty of internal medicine which includes approximately 3,500 physicians in the United States. Patients often present to a rheumatologist after a lengthy referral process because of the similarity and overlap of symptoms among ARDs, the waxing and waning of these symptoms and the shortcomings of current diagnostic tests. Establishing a definitive diagnosis is often difficult and can take years. Throughout this time, patients may continue to suffer from the debilitating effects of their disease, receive inappropriate treatments and may face a significant financial burden.

Our lead product, Avise SLE+CT, is a proprietary diagnostic test that provides an enhanced solution for patients presenting with symptoms indicative of a wide variety of ARDs such as Systemic Lupus Erythematosus, or SLE, Rheumatoid Arthritis, or RA, Sjögren's syndrome, scleroderma and other disorders that mimic ARDs such as fibromyalgia. Avise SLE+CT allows physicians to more accurately rule-in or rule-out SLE, and inform decisions about the presence of other ARDs, all with the convenience of one blood draw. Differential diagnosis of these diseases is critically important because earlier diagnosis has been shown to improve patient outcomes. Once diagnosed, physicians can tailor therapy to a patient's specific disease and avoid the "trial and error" approach that often takes place when a definitive diagnosis cannot be made.

We have validated the clinical utility of Avise SLE 2.0, the proprietary component of our Avise SLE+CT solution, in a multi-center study in an aggregate of 794 subjects. The results of this study, which were presented at the American College of Rheumatology, or ACR, annual conference in 2013, showed that Avise SLE 2.0 demonstrated superior ability to distinguish SLE from other ARDs. Avise SLE 2.0 is powered by our proprietary CBCAPs technology, which we exclusively license from the University of Pittsburgh. This technology is the result of over a decade of extensive research and development conducted at the Lupus Center of Excellence at the University of Pittsburgh Medical Center.

We intend to develop additional innovative, high value diagnostic solutions for the rheumatologist while continuing to improve the performance characteristics of our currently marketed products. In particular, we are

developing and validating testing solutions that are designed to assist rheumatologists with the monitoring of disease activity in patients with SLE and monitoring the active drug levels of some of the more commonly prescribed pharmaceuticals for the treatment of ARDs. We are conducting validation studies for these products in collaboration with academic centers of excellence and intend to publish the results of these studies in peer-reviewed medical journals.

Market Overview

Autoimmune Rheumatic Diseases

ARDs are a group of approximately 30 chronic disorders which create a significant burden on the healthcare system. These chronic diseases can cause lifelong inflammation in the joints, tissues and internal organs, resulting in serious complications, such as irreversible organ damage. Untreated chronic inflammation can also lead to premature hardening of the arteries, heart attacks and strokes. It is estimated that 11 million patients in the United States suffer from ARDs, and patients afflicted with fibromyalgia have many of the same clinical symptoms as ARDs. Examples of these disorders include:

- *Systemic Lupus Erythematosus (SLE).* A chronic autoimmune disease involving inflammation and destruction of organs such as the brain, kidneys and lungs resulting in irreversible damage and in severe cases death.
- *Rheumatoid Arthritis (RA).* A chronic autoimmune disease involving inflammation and destruction of joints, bone and in some cases organs, including eyes and lungs.
- *Sjögren's Syndrome.* A chronic autoimmune disease involving inflammation and destruction of secretory glands such as salivary glands and tear ducts. This disease can occur with RA and SLE.
- *Fibromyalgia.* A chronic condition characterized by widespread pain and tenderness to touch. Although not an autoimmune disease, this syndrome has been reported to occur in 25% of RA and SLE patients and 50% of Sjögren's patients.

Patients with these disorders often present with a common set of symptoms, which can include joint pain, fatigue, inflammation, stiffness and muscle aches, among others. Additionally, these patients may experience unpredictable periods of disease flares and disease inactivity, which can meaningfully change the patients' symptoms and how they present to the physician. The combination of overlapping symptoms and disease biology can lead these patients to cycle from physician to physician for months or even years before receiving a definitive diagnosis. Due to this, we believe physicians are in critical need of objective tests capable of differentially diagnosing these disorders, especially for potentially life threatening ARDs such as SLE.

Systemic Lupus Erythematosus

SLE is the most common and one of the most serious forms of lupus. It is estimated that over one million people in the United States suffer from some form of lupus. SLE is characterized by unpredictable, intermittent increases and decreases of disease activity.

Diagnosing SLE is difficult due to overlapping symptoms with other ARDs and fibromyalgia. A Lupus Foundation of America survey suggests that more than half of those afflicted with lupus waited at least four years, and saw three or more doctors, before obtaining a correct diagnosis. Earlier diagnosis of SLE allows physicians to initiate therapies sooner in order to help protect the patient from organ damage. Once diagnosed, treatment of SLE generally involves the use of antimalarials, corticosteroids, immunosuppressants and newer biologic agents to prevent or suppress active disease or flares.

There is a significant need for frequent monitoring of disease activity to guide therapeutic choices and optimize drug effectiveness. Physicians and patients are in need of improved, objective testing solutions to help with the diagnosis, prognosis and monitoring of patients with SLE and other ARDs.

Our Solution

We are committed to providing physicians with products that address the significant unmet need for accurate and timely diagnosis, prognosis and monitoring of ARDs. We market three products under our Avise brand, which facilitate the accurate and timely differential diagnosis and prognosis of certain ARDs and drug-level monitoring of one of the most widely prescribed pharmaceuticals in rheumatology. These tests are designed to seamlessly integrate with a rheumatologist's daily workflow and each of our tests are processed in our laboratory in California.

Our differentiated product offering includes:

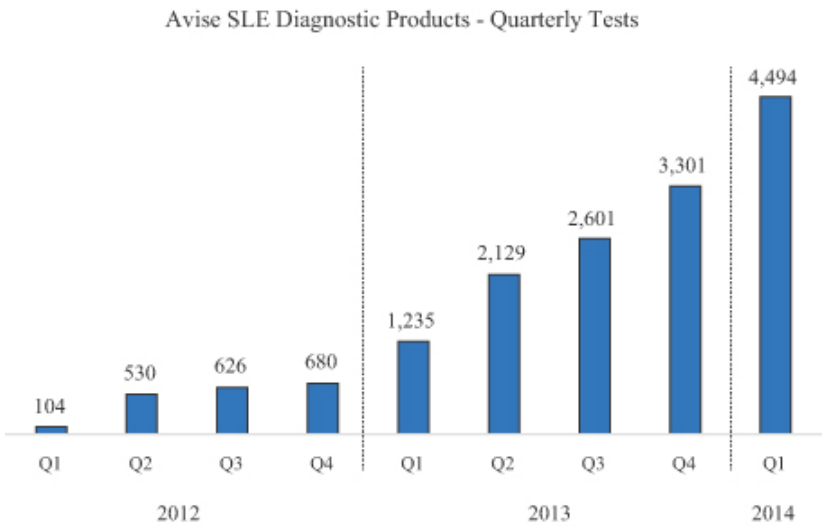
Diagnosis	Prognosis	Monitoring
Diagnostic test incorporating our proprietary CBCAPs technology to rule-in or rule-out SLE from other ARDs, offering improved accuracy compared to currently available tests	Comprehensive SLE prognostic panel to assist in determining risk for lupus nephritis, neuropsychiatric SLE or thrombotic / cardiovascular events	Test to monitor levels of methotrexate polyglutamates, or MTXPG, the active metabolites of methotrexate, a first-line therapy for RA

Avise SLE+CT

Avise SLE+CT is a proprietary diagnostic test that provides an enhanced solution for patients presenting with symptoms indicative of a wide variety of ARDs such as SLE, RA, Sjögren's, scleroderma and other disorders that mimick ARDs such as fibromyalgia. Avise SLE+CT is comprised of two distinct components: our proprietary Avise SLE 2.0 solution and other established biomarkers to diagnose ARDs.

Avise SLE is a ten-marker panel test that includes two biomarkers based on our Cell Bound Complement Activation Products, or CBCAPs, technology, which we exclusively license from the University of Pittsburgh, and a proprietary algorithm to optimize its performance. CBCAPs, measured by flow cytometry, drives the superior performance of our solution versus the existing standards of diagnosis. We added additional established autoantibodies for assisting in the diagnosis of a broader set of ARDs to our proprietary Avise SLE solution. We developed this offering to enhance the clinical utility of our test and respond to our customer's need for a more comprehensive solution to assist in differentially diagnosing ARDs.

We have demonstrated significant growth in demand for our Avise SLE diagnostic products. For example, in the quarter ended March 31, 2014, our quarterly orders for our Avise SLE diagnostic products increased 36% over the prior quarter and increased 264% over the quarter ended March 31, 2013. We believe this strong demand is a reflection of the value proposition we are providing to our physician customers and represents the market need for an enhanced solution to differentially diagnose ARDs.



We validated Avise SLE 2.0 in a multi-center clinical study involving 794 subjects comprised of 304 SLE patients, 285 patients with other ARDs and fibromyalgia, and 205 normal healthy subjects from two cohorts. The study was conducted in collaboration with leading academic centers with expertise in SLE and other ARDs including Albert Einstein College of Medicine, Northwestern University, North Shore-LIJ Health System and NYU College of Medicine, among others, and the preliminary results were presented at the ACR annual conference in 2013. The primary endpoint of the study was the performance characteristics, specifically sensitivity and specificity, of Avise SLE 2.0 compared to common autoantibodies used to diagnose SLE and other ARDs, such as antinuclear antibodies, or ANA, and anti-double stranded DNA, or anti-dsDNA. The final results of this study showed that Avise SLE 2.0:

- demonstrated balanced performance consisting of 86% specificity and 80% sensitivity in distinguishing SLE from other ARDs and fibromyalgia;
- was 33% more specific than ANA; and
- was 48% more sensitive than anti-dsDNA.

Avise SLE Prognostic

Avise SLE Prognostic, which we launched in June 2014, is a blood test that complements Avise SLE+CT by providing results that inform the prognosis of SLE patients and provide physicians with more information to tailor treatment for their patients. This test is a ten-marker panel of autoantibodies that have established predictive value for assessing the potential for complications affecting the brain, cardiovascular system and kidneys. When physicians are ordering Avise SLE+CT, they can also request that we perform our Avise SLE Prognostic test if the initial Avise SLE+CT result suggests that the patient has SLE. This provides additional convenience for ordering physicians and their patient.

Avise MTX

Avise MTX is the first therapeutic drug monitoring test to precisely measure levels of MTXPG, the active form of methotrexate, or MTX, in the patient's blood. MTX is a first-line therapy for RA, and Avise MTX can allow physicians to personalize therapy by targeting the appropriate dose to individual patients. There is large variability in the way patients absorb and metabolize MTX, and several studies have shown that low levels of MTXPG in the blood correlate with a lack of response to MTX therapy. Avise MTX provides crucial information as to whether a patient has achieved MTXPG blood levels consistent with an appropriate response to MTX or if the MTXPG levels are too low to produce adequate effects. The physician can then adjust MTX dosing as necessary to maximize the benefit of MTX therapy.

Our Pipeline

We are focused on delivering meaningful solutions to aid rheumatologists and other physicians in the diagnosis of patients with ARDs and providing physicians with additional tools to determine the most appropriate therapy over time to improve patient care. Our Strategy

Our goal is to establish ourselves as the preeminent provider of testing solutions to rheumatologists by offering a comprehensive set of tools to effectively diagnose and optimize the treatment of patients with ARDs. To achieve this objective, we intend to:

- *Accelerate the adoption of our existing products*. We plan to expand the use of our Avise product suite by adding new physicians to our customer base as well as increasing utilization among our existing customers.
- *Further demonstrate the clinical utility of our products to drive adoption and support reimbursement*. We are conducting additional clinical studies to drive the adoption and reimbursement of our Avise product suite and plan to continue to publish results in peer-reviewed medical journals.
- *Expand our portfolio of high value testing solutions.* We are continuing to develop additional products to address the significant challenges in the diagnosis, prognosis and monitoring of patients with ARDs, and we plan to launch four new products by the end of 2016.
- *Establish ourselves as the trusted partner to the rheumatologist*. Our reputation with our physician customers is built on their confidence in the quality of our testing solutions, the timely delivery of our test reports and the value of our consultative support.
- *Engage in partnerships to access additional market opportunities*. We believe there is meaningful potential for our current and future products beyond the rheumatology specialty, particularly for those physician groups that see patients earlier in the diagnostic process, and we intend to selectively seek complementary partnerships to address these broader markets.

Risks Related to Our Business

Our ability to execute our business strategy is subject to numerous risks, as more fully described in the section entitled “Risk Factors” immediately following this prospectus summary. These risks include, among others:

- We are at an early stage of commercialization with a history of losses, including an accumulated deficit of $77.9 million as of March 31, 2014, and we expect to incur net losses in the future and may never achieve or sustain profitability.
- Our financial results depend solely on sales of our Avise products, and we will need to generate sufficient revenue from these products and other diagnostic, prognostic and monitoring solutions to grow our business.
- We may be unable to manage our future growth effectively, which could make it difficult to execute our business strategy.
- Our commercial success depends upon attaining significant market acceptance of our products among physicians, patients, and third-party payers.
- We rely on sole suppliers for some of the reagents, equipment and other materials used in our Avise products, and we may not be able to find replacements or transition to alternative suppliers.
- If we are unable to support demand for our Avise products or any of our future products or solutions, our business could suffer.
- If third-party payers do not provide coverage and adequate reimbursement, breach, rescind or modify their contracts or reimbursement policies or delay payments for our tests, or if we are unable to successfully negotiate payer contracts, our commercial success could be compromised.

- We conduct business in a heavily regulated industry, and any changes in regulations or the U.S. Food and Drug Administration's enforcement discretion with respect to laboratory developed tests, or any other healthcare policy changes, or violations of healthcare laws and regulations by us that could result in substantial penalties, could adversely affect our business, prospects, results of operations or financial condition.
- Developing new products involves a lengthy and complex process, and we may not be able to commercialize on a timely basis, or at all, other products we are developing.
- If we are unable to maintain intellectual property protection, our competitive position could be harmed.

Implications of Being an Emerging Growth Company

As a company with less than $1.0 billion in revenue during our last fiscal year, we qualify as an "emerging growth company" as defined in the Jumpstart Our Business Startups Act, or JOBS Act, enacted in April 2012. An emerging growth company may take advantage of reduced reporting requirements that are otherwise applicable to public companies. These provisions include, but are not limited to:

- being permitted to present only two years of audited financial statements and only two years of related Management's Discussion & Analysis of Financial Condition and Results of Operations in this prospectus;
- not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, as amended, or the Sarbanes-Oxley Act;
- reduced disclosure obligations regarding executive compensation in our periodic reports, proxy statements and registration statements; and
- exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

We may take advantage of these provisions until the last day of our fiscal year following the fifth anniversary of the date of the first sale of our common equity securities pursuant to an effective registration statement under the Securities Act of 1933, as amended, or the Securities Act, which such fifth anniversary will occur in 2019. However, if certain events occur prior to the end of such five-year period, including if we become a "large accelerated filer," our annual gross revenues exceed $1.0 billion or we issue more than $1.0 billion of non-convertible debt in any three-year period, we will cease to be an emerging growth company prior to the end of such five-year period.

We have elected to take advantage of certain of the reduced disclosure obligations in the registration statement of which this prospectus is a part and may elect to take advantage of other reduced reporting requirements in future filings. As a result, the information that we provide to our stockholders may be different than you might receive from other public reporting companies in which you hold equity interests.

- the issuance of $4.0 million in aggregate principal amount of 2014 Notes in July 2014 and the automatic conversion of the 2014 Notes (including accrued interest thereon) into shares of our common stock in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, and assuming the conversion occurs on , 2014 (the expected closing date of this offering); and
- the issuance of shares of common stock as a result of the expected net exercise of the 2013 Warrants in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which 2013 Warrants will terminate if not exercised prior to the completion of this offering.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should consider carefully the risks and uncertainties described below, together with all of the other information in this prospectus, including our consolidated financial statements and related notes included elsewhere in this prospectus, before making an investment decision. If any of the following risks is realized, our business, financial condition, results of operations and prospects could be materially and adversely affected. In that event, the trading price of our common stock could decline and you could lose part or all of your investment.

Risks Related to Our Business

We are at an early stage of commercialization with a history of losses, and we expect to incur net losses in the future and may never achieve or sustain profitability.

We have incurred net losses since our inception. For the years ended December 31, 2012 and 2013, we had a net loss of $7.3 million and $13.5 million, respectively, and we expect to incur additional losses this year and in future years. As of December 31, 2013 and March 31, 2014, we had an accumulated deficit of $74.3 million and $77.9 million, respectively. Over the next several years, we expect to continue to devote substantially all of our resources to increase adoption of, and reimbursement for, our Avise products and to develop future diagnostic, prognostic and monitoring solutions. To date, we have generated only limited revenue, and we may never achieve or sustain profitability. Our failure to achieve and sustain profitability in the future could cause the market price of our common stock to decline.

Our financial results depend solely on sales of our Avise products, and we will need to generate sufficient revenue from these products and other diagnostic, prognostic and monitoring solutions to grow our business.

The majority of our historical revenue has been derived from the sale of our Avise SLE products, the first of which we commercially launched in January 2012. For the foreseeable future, we expect to derive a majority of our revenue from sales of our existing Avise SLE products. We are in various stages of research and development for other diagnostic, prognostic and monitoring solutions that we may offer, but there can be no assurance that we will be able to commercialize these solutions.

The demand for our Avise products may decrease or may not continue to increase at historical rates for a number of reasons. In addition, at any point in time we may decide to no longer commercialize any of our Avise products for any number of reasons. While we have experienced early revenue growth from the sale of our Avise products, we may not be able to continue revenue growth or maintain existing revenue levels. Further, we cannot ensure the continued availability of our Avise products in commercial quantities at acceptable costs. If we are unable to increase sales of our Avise products, expand reimbursement for our Avise products, or successfully develop and commercialize other solutions, our revenue and our ability to achieve and sustain profitability would be impaired, and the market price of our common stock could decline.

We may experience limits on our revenue if physicians decide not to order our Avise products or if we are otherwise unable to create or maintain demand for our Avise products.

If we are unable to create or maintain demand for our Avise products in sufficient volume, we may not generate sufficient revenue to become profitable. To generate increased demand, we will need to continue to educate physicians about the benefits of our Avise products through publications in peer-reviewed medical journals, presentations at medical conferences and one-on-one education by our sales force. We also plan to focus on educating patients about the benefits of our Avise products, which we believe will generate further demand. In addition, our inability to obtain and maintain coverage and adequate reimbursement from third-party payers may limit physician adoption.

Physicians may rely on guidelines issued by industry groups regarding the diagnosis, treatment and monitoring of autoimmune rheumatic diseases, or ARDs, and the monitoring of the effectiveness of therapeutic

drugs used to treat such diseases before utilizing any diagnostic test or monitoring solution. Although we have a number of company-sponsored clinical trials and clinical trials sponsored by individual physicians underway to demonstrate the clinical utility of our Avise products, our products are not yet, and may never be, listed in any such guidelines.

We may be unable to manage our future growth effectively, which could make it difficult to execute our business strategy.

In addition to the need to scale our testing capacity, future growth will impose significant added responsibilities on management, including the need to identify, recruit, train and integrate additional employees. In addition, rapid and significant growth may strain our administrative and operational infrastructure. Our ability to manage our business and growth will require us to continue to improve our operational, financial and management controls, reporting systems and procedures. The time and resources required to optimize these systems is uncertain, and failure to complete optimization in a timely and efficient manner could adversely affect our operations. If we are unable to manage our growth effectively, it may be difficult for us to execute our business strategy and our business could be harmed.

Our commercial success depends upon attaining significant market acceptance of our products among physicians, patients, and third-party payers.

Any product that we offer may not gain market acceptance among physicians, third-party payers, patients and the medical community. Market acceptance of our products depends on a number of factors, including:

- the perceived accuracy of our test results by physicians and patients;
- the potential and perceived advantages of our products over alternative products;
- the demonstration in clinical studies of the performance and clinical validity of our products, the results of which studies may not replicate the positive results from earlier studies;
- the cost of our products in relation to alternative products;
- the availability of coverage and adequate reimbursement and pricing by third parties and government authorities;
- relative convenience; and
- the effectiveness of our sales and marketing efforts.

If we had to withdraw a product from the market, it could harm our business and could impact market acceptance of our other products.

We rely on sole suppliers for some of the reagents, equipment and other materials used in our Avise products, and we may not be able to find replacements or transition to alternative suppliers.

We rely on sole suppliers for critical supply of reagents, equipment and other materials that we use to perform the tests that comprise our Avise products. We also purchase components used in our Avise product transportation kits from sole-source suppliers. Some of these items are unique to these suppliers and vendors. While we have developed alternate sourcing strategies for many of these materials and vendors, we cannot be certain whether these strategies will be effective or the alternative sources will be available when we need them. We are not a major customer of some of our suppliers, and these suppliers may therefore give other customers' needs higher priority than ours. One of our products in development, Avise Anti-TNF, incorporates iLite technology, the only commercially available cell-based assay that measures anti-TNF levels and drug neutralizing antibodies. Biomonitor A/S is the sole source capable of providing TNF sensitive cells used in such technology. If Biomonitor is unable to meet any of our requirements for such cells, or otherwise completely

ceases producing such cells, we would be unable to develop and potentially commercialize our Avise Anti-TNF product. If our suppliers can no longer provide us with the materials we need to perform the tests that comprise our Avise products, if the materials do not meet our quality specifications, or if we cannot obtain acceptable substitute materials, an interruption in test processing could occur. In addition, if we should encounter delays or difficulties in securing the quality and quantity of equipment we require for our tests, we may need to reconfigure our test processes, which could result in an interruption in sales. Any such interruption may significantly affect our future revenue and harm our customer relations and reputation. In addition, in order to mitigate these risks, we may need to maintain inventories of these supplies at higher levels than would be the case if multiple sources of supply were available.

If we are unable to support demand for our Avise products or any of our future products or solutions, our business could suffer.

As demand for our Avise products or any of our future products or solutions grows, we will need to continue to scale our testing capacity and processing technology, expand customer service, billing and systems processes and enhance our internal quality assurance program. We will also need additional certified laboratory scientists and other scientific and technical personnel to process higher volumes of our tests. We cannot assure you that any increases in scale, related improvements and quality assurance will be successfully implemented or that appropriate personnel will be available. We will also need to purchase additional equipment, some of which can take several months or more to procure, setup and validate, and increase our software and computing capacity to meet increased demand. Failure to implement necessary procedures, transition to new processes, hire the necessary personnel, obtain any necessary additional equipment and increase software and computing capacity could result in higher costs of processing tests or inability to meet demand. There can be no assurance that we will be able to perform our testing on a timely basis at a level consistent with demand, or that our efforts to scale our operations, expand our personnel, equipment, software and computing capacities, or implement process enhancements will be successfully implemented and will not negatively affect the quality of test results. In addition, there can be no assurance that we will have adequate space in our laboratory facility to accommodate such required expansion. If we encounter difficulty meeting market demand or quality standards, our reputation could be harmed and our future prospects and our business could suffer.

If third-party payers do not provide coverage and adequate reimbursement, breach, rescind or modify their contracts or reimbursement policies or delay payments for our tests, or if we are unable to successfully negotiate payer contracts, our commercial success could be compromised.

Reimbursement by third-party payers, including governmental payers such as Medicare and Medicaid, may depend on a number of factors, including the payer’s determination that tests using our technologies are:

- not experimental or investigational;
- medically necessary;
- appropriate for the specific patient;
- cost-effective;
- supported by peer-reviewed medical journals; and
- included in clinical practice guidelines.

There is uncertainty concerning third-party payer coverage and reimbursement of any new products that we may launch. Several entities conduct technology assessments of new medical tests and devices and provide the results of their assessments for informational purposes to other parties. These assessments may be used by third-party payers and health care providers as grounds to deny coverage for a test or procedure. In addition, insurers, including managed care organizations as well as government payers such as Medicare and Medicaid, have increased their efforts to control the cost, utilization and delivery of healthcare services. These measures have resulted in reduced payment rates and decreased utilization for the diagnostics industry.

Effective April 25, 2012, the then-Medicare contractor for California, Palmetto GBA, LLC, assigned the Avise MTX assay a unique identifier and determined that our product met the applicable Medicare coverage criteria. Other payers make their own decisions as to whether to establish a policy to reimburse our tests, however, and because approvals must be sought on a payer by payer basis, establishing broad coverage is a time-consuming and costly process. There are many payers who have not yet established a coverage policy applicable to our tests. Even if we are being reimbursed for our tests, Medicare, Medicaid and private and other payers may withdraw coverage at any time, review and adjust the rate of reimbursement, require co-payments from patients or stop paying for our tests altogether, any of which would reduce our revenues. Further, from time to time payers change processes that may affect timely payment. These changes may result in uneven cash flow or impact the timing of revenue recognized with these payers.

While our tests are reimbursed by a number of governmental and private payers, we do not have contracts with any significant large private payers. If we are unable to obtain or maintain coverage and reimbursement from third-party payers for our existing tests or new tests or test enhancements we may develop in the future, our ability to generate revenues could be limited. We have in the past, and will likely in the future, experience delays and temporary interruptions in the receipt of payments from third-party payers due to changes in their internal processes, documentation requirements and other issues, which could cause our revenues to fluctuate from period to period.

Billing for our products is complex, and we must dedicate substantial time and resources to the billing process to be paid for our tests.

Billing for our products is complex, time consuming and expensive. Depending on the billing arrangement and applicable law, we bill various payers, including Medicare, insurance companies and patients, all of which have different billing requirements. We generally bill third-party payers for our products and pursue reimbursement on a case-by-case basis where pricing contracts are not in place. We may also face increased risk in our collection efforts, including long collection cycles, which could adversely affect our business, results of operations and financial condition.

Several factors make the billing process complex, including:

- differences between the list price for our products and the reimbursement rates of payers;
- compliance with complex federal and state regulations related to billing Medicare;
- disputes among payers as to which party is responsible for payment;
- differences in coverage among payers and the effect of patient co-payments or co-insurance;
- differences in information and billing requirements among payers;
- incorrect or missing billing information; and
- the resources required to manage the billing and claims appeals process.

These billing complexities, and the related uncertainty in obtaining payment for our products could negatively affect our revenue and cash flow, our ability to achieve profitability, and the consistency and comparability of our results of operations.

We rely on a third party for substantially all of our billing and collection processing, and any delay in transmitting and collecting claims could have an adverse effect on our revenue.

We rely on a third-party provider to process and collect our claims. We have previously experienced delays in claims processing when our third-party provider made changes to its invoicing system, and again when it did not submit claims to payers within the timeframe we require. If claims for our products are not submitted to payers on a timely basis, or if we are required to switch to a different provider to handle claim processing it could have an adverse effect on our revenue and our business.

We conduct business in a heavily regulated industry, and any changes in regulations or the U.S. Food and Drug Administration's, or FDA's, enforcement discretion, or violations of regulations by us, could adversely affect our business, prospects, results of operations or financial condition.

The diagnostics industry is highly regulated, and we cannot assure you that the regulatory environment in which we operate will not change significantly and adversely in the future. In particular, the laws and regulations governing the marketing of diagnostic products are extremely complex and in many instances there are no significant regulatory or judicial interpretations of these laws and regulations. The Federal Food, Drug and Cosmetic Act, or FDCA, defines a medical device to include any instrument, apparatus, implement, machine, contrivance, implant, in vitro reagent, or other similar or related article, including a component, part, or accessory, intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in man or other animals. Our in vitro diagnostic products are considered by the FDA to be subject to regulation as medical devices. Among other things, pursuant to the FDCA and its implementing regulations, the FDA regulates the research, testing, manufacturing, safety, labeling, storage, recordkeeping, premarket clearance or approval, marketing and promotion, and sales and distribution of medical devices in the United States to ensure that medical products distributed domestically are safe and effective for their intended uses. In addition, the FDA regulates the import and export of medical devices manufactured between the United States and international markets.

Although the FDA has statutory authority to assure that medical devices are safe and effective for their intended uses, the FDA has generally exercised its enforcement discretion and not enforced applicable regulations with respect to in vitro diagnostics that are developed, validated, and offered within a single laboratory for use only in that laboratory. These tests are referred to as laboratory developed tests, or LDTs. We currently market our diagnostic products as LDTs, although one of the products we market under a license from Orgentec Diagnostika GmbH, or Orgentec, is subject to a 510(k) clearance held by Orgentec and is subject to the FDA's regulations applicable to 510(k)-cleared devices. While we believe that we are currently in material compliance with applicable laws and regulations as historically enforced by the FDA, we cannot assure you that the FDA will agree with our determination, and a determination that we have violated these laws and regulations, or a public announcement that we are being investigated for possible violations, could adversely affect our business, prospects, results of operations or financial condition.

Under the Food and Drug Administration Safety and Innovation Act of 2012, the FDA is prohibited from issuing guidance on the regulation of LDTs unless it provides Congress with details of the proposed action at least 60 days in advance. The FDA provided such notification to Congress on July 31, 2014, and proposed to modify its enforcement discretion on LDTs in a risk-based manner, to start with the publication of a draft Framework Guidance, that when finalized, may subject us to medical device regulations of registration and listing, premarket clearance or approval, and adverse event reporting. Any new FDA enforcement policies affecting LDTs may result in increased regulatory burdens on our ability to continue marketing our products and to develop and introduce new products in the future.

If the FDA begins to actively regulate our diagnostic tests, we may be required to obtain premarket clearance under Section 510(k) of the FDCA or a premarket approval, or PMA. The process for submitting a 510(k) premarket notification and receiving FDA clearance usually takes from three to twelve months, but it can take significantly longer and clearance is never guaranteed. The process for submitting and obtaining FDA approval of a PMA is much more costly, lengthy and uncertain. It generally takes from one to three years or even longer, and approval is not guaranteed. PMA approval typically requires extensive clinical data and can be significantly longer, more expensive and more uncertain than the 510(k) clearance process. Despite the time, effort and expense expended, there can be no assurance that a particular device ultimately will be cleared or approved by the FDA through either the 510(k) clearance process or the PMA process on a timely basis, or at all. Moreover, there can be no assurance that any cleared or approved labeling claims will be consistent with our current claims or adequate to support continued adoption of and reimbursement for our products. If premarket review is required for some or all of our products, the FDA may require that we stop selling our products pending

clearance or approval, which would negatively impact our business. Even if our products are allowed to remain on the market prior to clearance or approval, demand or reimbursement for our products may decline if there is uncertainty about our products, if we are required to label our products as investigational by the FDA, or if the FDA limits the labeling claims we are permitted to make for our products. As a result, we could experience significantly increased development costs and a delay in generating additional revenue from our Avise products, or from other products now in development.

If the FDA imposes significant changes to the regulation of LDTs it could reduce our revenues or increase our costs and adversely affect our business, prospects, results of operations or financial condition.

Our experience in marketing and selling our products is in the early stages, and if we are unable to expand our direct sales and marketing force to adequately address our customers' needs, our business may be adversely affected.

We sell our Avise products through our own sales force. However, we have limited experience in marketing and selling our Avise products, the first of which was commercially launched in January 2012 with a nine-person sales force. Starting in the fourth quarter of 2013, we expanded our sales team to approximately 30 sales professionals. We may not be able to market and sell our Avise products or other products or solutions we may develop effectively enough to support our planned growth.

Our future sales will depend in large part on our ability to maintain and substantially expand our sales force and to increase the scope of our marketing efforts. Rheumatology is a concentrated specialty, and as such, we believe it is necessary to maintain a sales force that includes sales representatives with specific technical backgrounds. We will also need to attract and develop marketing personnel with industry expertise. Competition for such employees is intense. We may not be able to attract and retain personnel or be able to maintain an efficient and effective sales and marketing force, which could negatively impact sales and marketing acceptance of our products and limit our revenue growth and potential profitability.

If we are unable to compete successfully, we may be unable to increase or sustain our revenue or achieve profitability.

Our principal competition for our Avise products comes from traditional methods used by physicians to test patients with rheumatic disease-like symptoms. Such traditional methods include testing for a broad range of diagnostic, immunology and chemistry markers, such as anti-nuclear antibodies, or ANA and anti-double-stranded DNA, or anti-dsDNA, and serum complement, such as C3 and C4. We also face competition from commercial laboratories, such as Laboratory Corporation of America Holdings, Quest Diagnostics Incorporated, ARUP Laboratories, Inc. and Mayo Clinic, all of which have strong infrastructures to support the commercialization of diagnostic services. Large, multispecialty group medical clinics, health systems and academic medical university-based clinics may provide in-house clinical laboratories offering autoimmune rheumatic testing services. Additionally, we compete against regional clinical laboratories providing testing in the autoimmune rheumatic field, such as Rheumatology Diagnostics Laboratories, Inc. Other potential competitors include companies that might develop diagnostic or disease or drug monitoring products, such as Myriad Genetics, Inc. In the future, we may also face competition from companies developing new products or technologies.

To compete successfully we must be able to demonstrate, among other things, that our diagnostic, prognostic and monitoring test results are accurate and cost effective.

Many of our potential competitors have widespread brand recognition and substantially greater financial, technical and research and development resources and selling and marketing capabilities than we do. Others may develop products with prices lower than ours that could be viewed by physicians and payers as functionally equivalent to our solution, or offer solutions at prices designed to promote market penetration, which could force

us to lower the list price of our products and affect our ability to achieve profitability. If we are unable to change clinical practice in a meaningful way or compete successfully against current and future competitors, we may be unable to increase market acceptance and sales of our products, which could prevent us from increasing our revenue or achieving profitability and could cause the market price of our common stock to decline.

Developing new products involves a lengthy and complex process, and we may not be able to commercialize on a timely basis, or at all, other products we are developing.

We are devoting considerable resources to the research and development of our planned future Avise products and enhancements to our current Avise products. We may not be able to develop products with the diagnostic or monitoring performance or accuracy necessary to be clinically useful and commercially successful. We are in the process of developing four additional disease and therapeutic drug monitoring products for rheumatic diseases, which we plan to launch by the end of 2016. These products may not be fully developed and introduced on our expected time line, if at all. Also, there are certain products for which a commercial launch would trigger additional payment obligations to licensors of the technology. In these cases, if the economic projections of the product do not outweigh the additional obligations, we may not launch these products. In order to develop and commercialize diagnostic, prognostic and monitoring products, we need to:

- expend significant funds to conduct substantial research and development;
- conduct successful validation studies;
- develop and scale our laboratory processes to accommodate different tests;
- achieve and maintain required regulatory certifications;
- develop and scale our infrastructure to be able to analyze increasingly large amounts of data; and
- build the commercial infrastructure to market and sell new products.

Our product development process involves a high degree of risk and may take several years. Our product development efforts may fail for many reasons, including:

- failure to identify additional biomarkers to incorporate into our diagnostic products;
- failure or sub-optimal performance of the product at the research or development stage;
- difficulty in accessing archival patient blood specimens, especially specimens with known clinical results; or
- failure of clinical validation studies to support the effectiveness of the test.

Typically, few research and development projects result in commercial products, and success in early clinical studies often is not replicated in later studies. At any point, we may abandon development of a product candidate or we may be required to expend considerable resources repeating clinical studies, which would adversely affect the timing for generating potential revenue from a new product and our ability to invest in other products in our pipeline. In addition, as we develop products, we will have to make significant investments in product development, marketing and selling resources. If a clinical validation study fails to demonstrate the prospectively defined endpoints of the study, we might choose to abandon the development of the product or product feature that was the subject of the clinical study, which could harm our business. Additionally, competitors may develop and commercialize competing products or technologies faster than us or at a lower cost.

We may acquire businesses or assets, form joint ventures or make investments in other companies or technologies that could harm our operating results, dilute our stockholders' ownership, increase our debt or cause us to incur significant expense.

As part of our business strategy, we may pursue acquisitions of complementary businesses or assets, as well as technology licensing arrangements. We also may pursue strategic alliances that leverage our core technology

and industry experience to expand our offerings or distribution, or make investments in other companies. To date, other than our acquisition of the medical diagnostics division of Cypress Biosciences, Inc., we have not acquired other companies and have limited experience with respect to the formation of strategic alliances and joint ventures. If we make any acquisitions, we may not be able to integrate these acquisitions successfully into our existing business, and we could assume unknown or contingent liabilities. Any future acquisitions by us also could result in significant write-offs or the incurrence of debt and contingent liabilities, any of which could harm our operating results. Integration of an acquired company or business also may require management resources that otherwise would be available for ongoing development of our existing business. We may not identify or complete these transactions in a timely manner, on a cost-effective basis, or at all, and we may not realize the anticipated benefits of any acquisition, technology license, strategic alliance, joint venture or investment.

To finance any acquisitions or investments, we may choose to issue shares of our stock as consideration, which would dilute the ownership of our stockholders. Once we become a public company, if the price of our common stock is low or volatile, we may not be able to acquire other companies for stock. Alternatively, it may be necessary for us to raise additional funds for these activities through public or private financings or through the issuance of debt. Additional funds may not be available on terms that are favorable to us, or at all, and any debt financing may involve covenants limiting or restricting our ability to take certain actions.

The diagnostics industry is subject to rapidly changing technology, which could make our Avise products, and other products we develop, obsolete.

Our industry is characterized by rapid technological changes, frequent new product introductions and enhancements and evolving industry standards. These advances require us to continuously develop our technology and work to develop new solutions to keep pace with evolving standards of care. Our products could become obsolete unless we continually innovate and expand our product offerings to include new clinical applications. If we are unable to develop new products or to demonstrate the applicability of our products for other diseases, our sales could decline and our competitive position could be harmed.

Our failure to maintain significant relationships or build new relationships with key opinion leaders could materially adversely impact our business and prospects.

We have developed significant relationships with key opinion leaders who are focused on rheumatology. Our failure to provide quality and timely services to such persons and their patients could impair our relationship, which could result in a loss of existing and future physician customers and therefore materially adversely impact our business and prospects.

If we are sued for errors and omissions or professional liability, we could face substantial liabilities that exceed our resources.

The marketing, sale and use of our Avise products could lead to liability claims if someone were to allege that any such product failed to perform as it was designed. We may also be subject to liability for errors in the results we provide to physicians or for a misunderstanding of, or inappropriate reliance upon, the information we provide. We may also be subject to similar types of claims related to products we may develop in the future. An errors and omissions or professional liability claim could result in substantial damages and be costly and time consuming for us to defend. Although we maintain professional liability insurance, we cannot assure you that our insurance would fully protect us from the financial impact of defending against these types of claims or any judgments, fines or settlement costs arising out of any such claims. Any errors or omissions or professional liability claim brought against us, with or without merit, could increase our insurance rates or prevent us from securing insurance coverage in the future. Additionally, any product liability lawsuit could cause injury to our reputation or cause us to suspend sales of our products and solutions. The occurrence of any of these events could have an adverse effect on our business and results of operations.

The loss of members of our senior management team or our inability to attract and retain highly skilled scientists, technicians and salespeople could adversely affect our business.

Our success depends largely on the skills, experience and performance of key members of our executive management team, including Fortunato Ron Rocca, our President and Chief Executive Officer, and others in key management positions. The efforts of each of these persons will be critical to us as we continue to develop our technologies and test processes and focus on our growth. If we were to lose one or more of these key employees, we may experience difficulties in competing effectively, developing our technologies and implementing our business strategy.

In addition, our research and development programs and commercial laboratory operations depend on our ability to attract and retain highly skilled scientists, including licensed clinical laboratory scientists and biostatisticians. We may not be able to attract or retain qualified scientists and technicians in the future due to the intense competition for qualified personnel among life science businesses, particularly in Southern California. Because it is expected that there will be a shortage of clinical laboratory scientists in coming years, it may become more difficult to hire sufficient numbers of qualified personnel. We also face competition from universities and public and private research institutions in recruiting and retaining highly qualified scientific personnel. Additionally, our success depends on our ability to attract and retain qualified salespeople. We may have difficulties locating, recruiting or retaining qualified salespeople, which could cause a delay or decline in the rate of adoption of our products. If we are not able to attract and retain the necessary personnel to accomplish our business objectives, we may experience constraints that could adversely affect our ability to support our research and development, clinical laboratory and sales efforts. All of our employees are at-will, which means that either we or the employee may terminate their employment at any time. We do not carry key man insurance for any of our employees.

If our sole laboratory facility becomes damaged or inoperable, we are required to vacate our existing facility or we are unable to expand our existing facility as needed, we will be unable to perform our testing services and our business will be harmed.

We currently derive all of our revenue from tests conducted at a single laboratory facility located in Vista, California. Vista is situated on or near earthquake fault lines. Our facility and equipment could be harmed or rendered inoperable by natural or man-made disasters, including earthquake, fire, flood, power loss, communications failure or terrorism. In particular, we store all of our flow cytometers, the instrument we use to detect CBCAPs on cells, at our Vista facility. If all of our flow cytometers were rendered inoperable simultaneously pursuant to a natural or man-made disaster, we would be unable to perform these key tests as we do in the ordinary course of our business. The inability to perform our tests or to reduce the backlog of analyses that could develop if our facility is inoperable, for even a short period of time, may result in the loss of customers or harm to our reputation, and we may be unable to regain those customers or repair our reputation in the future. Additionally, we store our bio-repository of specimens, which were collected in collaboration with leading academic institutions and help us to further validate our Avise products, at our Vista facility. If these specimens were destroyed pursuant to a natural or man-made disaster or otherwise become unavailable, our ability to develop new products may be delayed. Furthermore, our facility and the equipment we use to perform our research and development work could be unavailable or costly and time-consuming to repair or replace. It would be difficult, time-consuming and expensive to rebuild our facility or license or transfer our proprietary technology to a third-party, particularly in light of the licensure and accreditation requirements for a commercial laboratory like ours. Even in the unlikely event we are able to find a third party with such qualifications to enable us to conduct our tests, we may be unable to negotiate commercially reasonable terms.

In order to rely on a third party to perform our tests, we would need to engage another facility with established state licensure and Clinical Laboratory Improvement Amendments of 1988, or CLIA, accreditation under the scope of which tests could be performed following validation and other required procedures. We cannot assure you that we would be able to find another CLIA-certified facility willing to comply with the

required procedures, that any such facility would be willing to perform our tests for us on commercially reasonable terms, or that it would be able to meet our quality standards.

In order to establish an additional clinical reference laboratory facility, we would have to spend considerable time and money securing adequate space, constructing the facility, recruiting and training employees, and establishing the additional operational and administrative infrastructure necessary to support a second facility. We may not be able, or it may take considerable time, to replicate our testing processes or results in a new facility. Additionally, any new clinical reference laboratory facility opened by us would be subject to certification under CLIA and licensing by several states, including California and New York, which could take a significant amount of time and result in delays in our ability to begin operations.

We expanded our laboratory into available space immediately next to our existing laboratory in July 2014. With this expansion, we believe we have the capacity to meet our projected needs for at least the next 12 months, although we may grow at a rate that is faster than we expect. Beyond this time frame, we may need to further expand our laboratory space. Any future expansion could disrupt laboratory operations, resulting in an inability to meet customer turnaround time expectations, and could be delayed, resulting in slower realization of laboratory efficiencies anticipated from the use of the expanded facilities. Adverse consequences resulting from a delay in the laboratory expansion could harm our relationships with our customers and our reputation, and could affect our ability to generate revenue.

We carry insurance for damage to our property and the disruption of our business, but this insurance may not cover all of the risks associated with damage or disruption to our business, provide coverage in amounts sufficient to cover our potential losses or continue to be available to us on acceptable terms, if at all.

Our testing process involves the use of sophisticated state-of-the-art equipment that requires precise calibration, and issues affecting such equipment may delay delivery of the test results to physicians or otherwise adversely affect our operations.

As part of our process of determining CBCAPs, which is part of our Avise SLE products, we utilize a number of flow cytometers that require calibration and performance validation according to the requirements of the College of American Pathologists, or CAP, at specified time intervals. While we believe we have implemented appropriate controls and metrics in our laboratory to meet such requirements, we cannot provide any assurance that our instruments will not fall out of specification, in which case we would be required to re-calibrate them. Patient specimens degrade and become unusable generally within 48 hours of collection. Therefore, if we do not have other sufficient properly functioning flow cytometers due to failure to meet specifications or they otherwise become inoperable, our ability to process patient specimens in the required timeframe would be compromised and our business could be harmed.

If we cannot enter into new clinical study collaborations, our product development and subsequent commercialization could be delayed.

In the past, we have entered into clinical study collaborations, and our success in the future depends in part on our ability to enter into additional collaborations with highly regarded institutions. This can be difficult due to internal and external constraints placed on these organizations. Some organizations may limit the number of collaborations they have with any one company so as to not be perceived as biased or conflicted. Organizations may also have insufficient administrative and related infrastructure to enable collaborations with many companies at once, which can extend the time it takes to develop, negotiate and implement a collaboration. Additionally, organizations often insist on retaining the rights to publish the clinical data resulting from the collaboration. The publication of clinical data in peer-reviewed medical journals is a crucial step in commercializing and obtaining reimbursement for diagnostic products such as our Avise products, and our inability to control when and if results are published may delay or limit our ability to derive sufficient revenue from any solution.

If we use hazardous materials in a manner that causes contamination or injury, we could be liable for resulting damages.

We are subject to federal, state and local laws, rules and regulations governing the use, discharge, storage, handling and disposal of biological material, chemicals and waste. We cannot eliminate the risk of accidental contamination or injury to employees or third parties from the use, storage, handling or disposal of these materials. In the event of contamination or injury, we could be held liable for any resulting damages, remediation costs and any related penalties or fines, and any liability could exceed our resources or any applicable insurance coverage we may have. The cost of compliance with these laws and regulations may become significant, and our failure to comply may result in substantial fines or other consequences, either of which could negatively affect our operating results.

Failure in our information technology, telephone or other systems could significantly disrupt our operations and adversely affect our business and financial condition.

Information technology and telephone systems are used extensively in virtually all aspects of our business, including laboratory testing, sales, billing, customer service, logistics and management of medical data. The success of our business depends on the ability to obtain, process, analyze, maintain and manage this data. Our management relies on our information systems because:

- patient specimens must be received, tracked and processed on a timely basis;
- test results must be reported on a timely basis;
- billings and collections for all customers must be managed efficiently and accurately;
- third party ancillary billing services require proper tracking and reporting;
- pricing and other information related to our services is needed by our sales force and other personnel in a timely manner to conduct business;
- patient-identifiable health information must be securely held and kept confidential;
- regulatory compliance requires proper tracking and reporting; and
- proper recordkeeping is required for operating our business, managing employee compensation and other personnel matters.

Our business, results of operations and financial condition may be adversely affected if, among other things:

- our information technology, telephone or other systems fail or are interrupted for any extended length of time;
- services relating to our information technology, telephone or other systems are not kept current;
- our information technology, telephone or other systems do not have the capacity to support expanded operations and increased levels of business;
- data is lost or unable to be restored or processed; or
- data is corrupted due to a breach of security.

Despite the precautionary measures we have taken to prevent breakdowns in our information technology, telephone and other systems, sustained or repeated system failures that interrupt our ability to process test orders, deliver test results or perform testing in a timely manner or that cause us to inadvertently disclose or lose patient information could adversely affect our business, results of operations and financial condition.

Security breaches, loss of data and other disruptions to us or our third-party service providers could compromise sensitive information related to our business or prevent us from accessing critical information and expose us to liability, which could adversely affect our business and our reputation.

In the ordinary course of our business, we and our third-party service providers collect and store sensitive data, including legally protected health information, personally identifiable information about our patients, credit card information, intellectual property, and our proprietary business and financial information. We manage and maintain our applications and data utilizing a combination of on-site and vendor-owned systems. We face a number of risks related to our protection of, and our service providers' protection of, this critical information, including loss of access, unauthorized disclosure and unauthorized access, as well as risks associated with our ability to identify and audit such events.

The secure processing, storage, maintenance and transmission of this critical information is vital to our operations and business strategy, and we devote significant resources to protecting such information. Although we take measures to protect sensitive information from unauthorized access or disclosure, our information technology and infrastructure may be vulnerable to attacks by hackers or viruses or otherwise breached due to employee error, malfeasance or other activities. While we have not experienced any such attack or breach, if such an event were to occur, our networks would be compromised and the information we store on those networks could be accessed by unauthorized parties, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, such as the Health Insurance Portability and Accountability Act of 1996, or HIPAA, as amended by the Health Information Technology for Economic and Clinical Health Act, or the HITECH Act, and regulatory penalties. Unauthorized access, loss or dissemination could also disrupt our operations, including our ability to process tests, provide test results, bill payers or patients, process claims and appeals, provide customer assistance services, conduct research and development activities, collect, process and prepare company financial information, provide information about our products and other patient and physician education and outreach efforts through our website and manage the administrative aspects of our business and could damage our reputation, any of which could adversely affect our business.

In addition, the interpretation and application of federal and state consumer, health-related and data protection laws in the United States are often uncertain, contradictory and in flux. It is possible that these laws may be interpreted and applied in a manner that is inconsistent with our practices. If so, this could result in government-imposed fines or orders requiring that we change our practices, which could adversely affect our business. Complying with these various laws could cause us to incur substantial costs or require us to change our business practices, systems and compliance procedures in a manner adverse to our business.

Performance issues, service interruptions or price increases by our shipping carrier could adversely affect our business, results of operations and financial condition, and harm our reputation and ability to provide our specialized diagnostic services on a timely basis.

Expedited, reliable shipping is essential to our operations. We rely almost exclusively on a single carrier, Federal Express Corporation, for reliable and secure point-to-point transport of patient specimens to our laboratory and enhanced tracking of these patient specimens. Should Federal Express, or any other carrier we may use in the future, encounter delivery performance issues such as loss, damage or destruction of a specimen, it may be difficult to replace our patient specimens in a timely manner and such occurrences may damage our reputation and lead to decreased utilization from physicians for our specialized diagnostic services and increased cost and expense to our business. In addition, any significant increase in shipping time could adversely affect our ability to receive and process patient specimens on a timely basis.

If we or Federal Express were to terminate our relationship, we would be required to find another party to provide expedited, reliable point-to-point transport of our patient specimens. There are only a few other providers of such nationwide transport services, and there can be no assurance that we will be able to enter into arrangements with such other providers on acceptable terms, if at all. Finding a new provider of transport

services would be time-consuming and costly and result in delays in our ability to provide our specialized diagnostic services. Even if we were to enter into an arrangement with any such provider, there can be no assurance that they will provide the same level of quality in transport services currently provided to us by Federal Express. If any new provider does not provide, or if Federal Express does not continue to provide, the required quality and reliability of transport services at the same or similar costs, it could adversely affect our business, reputation, results of operations and financial condition.

Our ability to utilize our net operating loss carryforwards and certain other tax attributes may be further limited.

Under Section 382 of the Internal Revenue Code of 1986, as amended, if a corporation undergoes an "ownership change" (generally defined as a greater than 50% change (by value) in its equity ownership over a three year period), the corporation's ability to use its pre-change net operating loss carryforwards and other pre-change tax attributes to offset its post-change income may be limited. Our ability to use a portion of our net operating loss carryforwards is subject to limitation under Section 382 as a result of a prior ownership change. If we undergo an ownership change in connection with this offering, or as a result of subsequent shifts in our stock ownership, our ability to utilize our net operating loss carryforwards and other pre-change tax attributes could be further limited by Section 382 and as a result, if we earn net taxable income, our ability to use such pre-change net operating loss carryforwards and other pre-change tax attributes to offset U.S. federal taxable income may be limited.

Our term loan contains restrictions that limit our flexibility in operating our business, and if we fail to comply with the covenants and other obligations under our loan agreement, the lenders may be able to accelerate amounts owed under the facility and may foreclose upon the assets securing our obligations.

In October 2013, we entered into a term loan agreement, or the loan agreement, with Capital Royalty Partners II L.P., Capital Royalty Partners II—Parallel Fund "A" L.P. and Parallel Investment Opportunities Partners II L.P., which we refer to collectively as Capital Royalty. The loan agreement is collateralized by substantially all of our personal property, including our intellectual property. The loan agreement also subjects us to certain affirmative and negative covenants, including limitations on our ability to transfer or dispose of assets, merge with or acquire other companies, make investments, pay dividends, incur additional indebtedness and liens and conduct transactions with affiliates. We are also subject to certain covenants that require us to maintain a minimum liquidity of at least $2.0 million and achieve certain minimum amounts of annual revenue, and are required under certain conditions to make mandatory prepayments of outstanding principal. As a result of these covenants, we have certain limitations on the manner in which we can conduct our business, and we may be restricted from engaging in favorable business activities or financing future operations or capital needs until our current debt obligations are paid in full or we obtain the consent of Capital Royalty, which we may not be able to obtain. As of March 31, 2014, there was $15.0 million in principal outstanding under the term loan. We are required to repay any outstanding principal and capitalized interest in quarterly installments over a two-year period, commencing on December 31, 2016. We cannot be certain that we will be able to generate sufficient cash flow or revenue to meet the financial covenants or pay the principal and accrued interest on our debt.

In addition, upon the occurrence of an event of default, Capital Royalty, among other things, can declare all indebtedness due and payable immediately, which would adversely impact our liquidity and reduce the availability of our cash flows to fund working capital needs, capital expenditures and other general corporate purposes. An event of default includes, but is not limited to, our failure to pay any amount due and payable under the loan agreement, the occurrence of a material adverse change in our business as defined in the loan agreement, our breach of any representation or warranty in the loan agreement, our breach of any covenant in the loan agreement (subject to a cure period in some cases), a change in control as defined in the loan agreement, our default on any debt payments to a third party in an amount exceeding $300,000 or any voluntary or involuntary insolvency proceeding. If an event of default occurs and we are unable to repay amounts due under the loan agreement, Capital Royalty could foreclose on substantially all of our personal property, including our intellectual property. We cannot be certain that future working capital, borrowings or equity financings will be available to repay or refinance our debt to Capital Royalty or any other debt we may incur in the future.

Our inability to raise additional capital on acceptable terms in the future may limit our ability to develop and commercialize new solutions and technologies and expand our operations.

We expect capital expenditures and operating expenses to increase over the next several years as we expand our infrastructure, commercial operations and research and development activities. We believe, based on our current plan, that the net proceeds from this offering, together with our current cash and cash equivalents and anticipated future product revenue, will be sufficient to meet our anticipated cash requirements over at least the next 18 months. However, if our available cash balances, net proceeds from this offering and anticipated future product revenue are insufficient to satisfy our liquidity requirements, including because of lower demand for our products as a result of lower-than-expected rates of reimbursement from commercial third-party payers and government payers or other risks described in this "Risk Factors" section, we may seek to raise additional capital through equity offerings, debt financings, collaborations or licensing arrangements. We may also consider raising additional capital in the future to expand our business, pursue strategic investments, take advantage of financing opportunities, or for other reasons.

Additional funding may not be available to us on acceptable terms, or at all. In addition, our loan agreement restricts our ability to raise funds through additional debt financings. If we raise funds by issuing equity securities, dilution to our stockholders could result, and the market price of our common stock could decline. Any equity securities issued also may provide for rights, preferences or privileges senior to those of holders of our common stock. The incurrence of additional indebtedness or the issuance of certain equity securities could result in increased fixed payment obligations and could also result in restrictive covenants, such as limitations on our ability to incur additional debt or issue additional equity, limitations on our ability to acquire or license intellectual property rights, and other operating restrictions that could adversely affect our ability to conduct our business. In the event that we enter into collaborations or licensing arrangements to raise capital, we may be required to accept unfavorable terms. These agreements may require that we relinquish or license to a third party on unfavorable terms our rights to technologies or product candidates that we otherwise would seek to develop or commercialize ourselves, or reserve certain opportunities for future potential arrangements when we might be able to achieve more favorable terms. If we are not able to secure additional funding when needed, we may have to delay, reduce the scope of or eliminate one or more research and development programs or selling and marketing initiatives. In addition, we may have to work with a partner on one or more of our products or market development programs, which could lower the economic value of those programs to our company.

The FDA has stated its intention to modify its enforcement discretion policy with respect to LDTs in a risk-based manner, and we may become subject to extensive regulatory requirements and may be required to conduct additional clinical trials prior to continuing to sell our existing tests or launching any other tests we may develop, which may increase the cost of conducting, or otherwise harm, our business.

On July 31, 2014, the FDA notified Congress of its intent to modify, in a risk-based manner, its policy of enforcement discretion with respect to LDTs. Our diagnostic products may become subject to FDA regulation, and we may be required to cease commercial sales of our products and conduct additional clinical testing prior to making submissions to the FDA to obtain premarket clearance or approval. If we are required to conduct such clinical trials, delays in the commencement or completion of clinical testing could significantly increase our test development costs and delay commercialization of any currently-marketed tests that we may be required to cease selling or the commercialization of any future tests that we may develop. Many of the factors that may cause or lead to a delay in the commencement or completion of clinical trials may also ultimately lead to delay or denial of regulatory clearance or approval. The commencement of clinical trials may be delayed due to insufficient patient enrollment, which is a function of many factors, including the size of the patient population, the nature of the protocol, the proximity of patients to clinical sites and the eligibility criteria for the clinical trial.

We may find it necessary to engage contract research organizations to perform data collection and analysis and other aspects of our clinical trials, which might increase the cost and complexity of our trials. We may also depend on clinical investigators, medical institutions and contract research organizations to perform the trials, and would control only certain aspects of their activities. Nevertheless, we would be responsible for ensuring that

each of our trials is conducted in accordance with the applicable protocol, legal, regulatory and scientific standards, and our reliance on these third parties would not relieve us of our regulatory responsibilities.

We and our third party contractors are required to comply with good clinical practices, or GCPs, which are regulations and guidelines enforced by the FDA, the Competent Authorities of the Member States of the European Economic Area, or EEA, and comparable foreign regulatory authorities for products in clinical development. Regulatory authorities enforce these GCPs through periodic inspections of trial sponsors, principal investigators and trial sites. If we or any third party contractor fails to comply with applicable GCPs, the clinical data generated in clinical trials may be deemed unreliable and the FDA, Competent Authorities of the Member States of the EEA or comparable foreign regulatory authorities may require us to perform additional clinical trials before clearing or approving our marketing applications. A failure to comply with these regulations may require us to repeat clinical trials, which would delay the regulatory clearance or approval process. In addition, if these parties do not successfully carry out their contractual duties or obligations or meet expected deadlines, or if the quality, completeness or accuracy of the clinical data they obtain is compromised due to the failure to adhere to our clinical protocols or for other reasons, our clinical trials may have to be extended, delayed or terminated. Many of these factors would be beyond our control. We may not be able to enter into replacement arrangements without undue delays or considerable expenditures. If there are delays in testing or clearances or approvals as a result of the failure to perform by third parties, our research and development costs would increase, and we may not be able to obtain regulatory clearance or approval for our tests. In addition, we may not be able to establish or maintain relationships with these parties on favorable terms, if at all. Each of these outcomes would harm our ability to market our tests, or to achieve sustained profitability.

The FDA requires medical device manufacturers to comply with, among other things, current good manufacturing practices for medical devices, known as the Quality System Regulation, which requires manufacturers to follow elaborate design, testing, control, documentation and other quality assurance procedures during the manufacturing process; the medical device reporting regulation, which requires that manufacturers report to the FDA if their device may have caused or contributed to a death or serious injury or malfunctioned in a way that would likely cause or contribute to a death or serious injury if it were to recur; labeling regulations, including the FDA's general prohibition against promoting products for unapproved or "off-label" uses; and the reports of corrections and removals regulation, which requires manufacturers to report to the FDA if a device correction or removal was initiated to reduce a risk to health posed by the device or to remedy a violation of the FDCA caused by the device which may present a risk to health.

Even if we were able to obtain FDA clearance or approval for one or more of our products, if required, a product may be subject to limitations on the indications for which it may be marketed or to other regulatory conditions. In addition, such clearance or approval may contain requirements for costly post-market testing and surveillance to monitor the safety or efficacy of the product. The FDA has broad post-market enforcement powers, and if unanticipated problems with our products arise, or if we or our suppliers fail to comply with regulatory requirements following FDA clearance or approval, we may become subject to enforcement actions such as:

- restrictions on manufacturing processes;
- restrictions on product marketing;
- warning letters;
- withdrawal or recall of products from the market;
- refusal to approve pending PMAs, 510(k)s or supplements to approved PMAs or cleared 510(k)s that we submit;
- fines, restitution or disgorgement of profits or revenue;
- suspension or withdrawal of regulatory clearances or approvals;

- limitation on, or refusal to permit, import or export of our products;
- product seizures;
- injunctions; or
- imposition of civil or criminal penalties.

Risks Related to Regulatory and Compliance Matters

Healthcare policy changes, including recently enacted legislation reforming the U.S. healthcare system, may have a material adverse effect on our financial condition and results of operations.

Reimbursement to healthcare providers, such as specialized diagnostic service providers like us, is subject to continuing change in policies by governmental payers, such as Medicare and Medicaid, private insurers, including managed care organizations, and other private payers, such as hospitals and private medical groups. Statutory and regulatory changes, retroactive rate adjustments and administrative rulings, and other policy changes may be implemented with little or no prior notice, all of which could materially decrease the range of services for which we are reimbursed or the reimbursement rates paid for our Avise products.

For example, on April 1, 2014, the Protecting Access to Medicare Act of 2014, or PAMA, was signed into law, which, among other things, significantly alters the current payment methodology under the Medicare Clinical Laboratory Fee Schedule, or CLFS. Under the new law, starting January 1, 2016 and every three years thereafter (or annually in the case of advanced diagnostic lab tests), clinical laboratories must report laboratory test payment data for each Medicare-covered clinical diagnostic lab test that it furnishes during a time period to be defined by future regulations. The reported data must include the payment rate (reflecting all discounts, rebates, coupons and other price concessions) and the volume of each test that was paid by each private payer (including health insurance issuers, group health plans, Medicare Advantage plans and Medicaid managed care organizations). Beginning in 2017, the Medicare payment rate for each clinical diagnostic lab test will be equal to the weighted median amount for the test from the most recent data collection period. The payment rate will apply to laboratory tests furnished by a hospital laboratory if the test is separately paid under the hospital outpatient prospective payment system. It is too early to predict the impact on reimbursement for our Avise products.

Also under PAMA, the Centers for Medicare & Medicaid Services, or CMS, is required to adopt temporary billing codes to identify new tests and new advanced diagnostic laboratory tests that have been cleared or approved by the FDA. For an existing test that is cleared or approved by the FDA and for which Medicare payment is made as of April 1, 2014, CMS is required to assign a unique billing code if one has not already been assigned by the agency. In addition to assigning the code, CMS must publicly report payment for the tests no later than January 1, 2016. We cannot determine at this time the full impact of the new law on our business, financial condition and results of operations.

Other recent laws make changes impacting clinical laboratories, many of which have already gone into effect. The Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act, collectively, the ACA, enacted in March 2010, includes a reduction in the annual update factor used to adjust payments under the CLFS for inflation. This update factor reflects the consumer price index for all urban consumers, or CPI-U, and the ACA reduces the CPI-U by 1.75% for the years 2011 through 2015. The ACA also imposes a multifactor productivity adjustment in addition to the CPI-U, which may further reduce payment rates. In addition, each medical device manufacturer is required to pay an excise tax in an amount equal to 2.3% of the price for which such manufacturer sells its medical devices that are listed with the FDA. Although the FDA has contended that LDTs, such as our tests, are medical devices, none of our products are currently listed with the FDA. We cannot assure you that the tax will not be extended to services such as ours in the future.

Other significant measures contained in the ACA include, for example, coordination and promotion of research on comparative clinical effectiveness of different technologies and procedures, initiatives to revise

Medicare payment methodologies, such as bundling of payments across the continuum of care by providers and physicians, and initiatives to promote quality indicators in payment methodologies. The ACA also includes significant new fraud and abuse measures, including required disclosures of financial arrangements with physician customers, lower thresholds for violations and increasing potential penalties for such violations. We are monitoring the impact of the ACA in order to enable us to determine the trends and changes that may be necessitated by the legislation and that, in turn, may potentially impact our business over time.

Additionally, the Budget Control Act of 2011, among other things, created measures for spending reductions by Congress. A Joint Select Committee on Deficit Reduction, tasked with recommending a targeted deficit reduction of at least $1.2 trillion for the years 2013 through 2021, was unable to reach required goals, thereby triggering the legislation's automatic reduction (known as sequestration) to several government programs. This includes aggregate reductions to Medicare payments to providers of 2% per fiscal year, beginning April 1, 2013, which will remain in effect through 2024 unless additional congressional action is taken.

In February 2012, the Middle Class Tax Relief and Job Creation Act of 2012 was passed, which, among other things, reduced by 2% the 2013 Medicare CLFS, and rebased payments at the reduced rate for subsequent years. Overall, when adding this 2% reduction to the ACA's 1.75% reduction to the update factor and the productivity adjustment, the payment rates under the CLFS declined by 2.95% and 0.75% for 2013 and 2014, respectively. This reduction does not include the additional sequestration adjustment.

On January 2, 2013, the American Taxpayer Relief Act of 2012 was signed into law, which, among other things, increased the statute of limitations period for the government to recover overpayments to providers from three to five years.

Legislative freezes and updates affect some of our flow cytometry tests, which are reimbursed by the Medicare program under the Medicare Physician Fee Schedule, or MPFS. The schedule, which is updated on an annual basis using a prescribed statutory formula, requires Congressional intervention to avoid significant reductions in reimbursement. In the past, when the application of the statutory formula resulted in lower payments, Congress has passed interim legislation to prevent the reductions. The most recent legislative intervention was passed with PAMA, which provided for a 0.5% update from 2013 MPFS payment rates through 2014 and a 0% update from January 1 until April 1, 2015. If Congress fails to intervene to prevent the negative update factor in future years, the resulting decrease in payment may adversely affect our revenue and results of operations.

Further with respect to the MPFS, CMS also reviews from time to time the relative value units, or RVUs, which are translated to payments rates under the schedule for established billing codes, including flow cytometry codes that describe some of our tests. In developing the RVUs, CMS in 2013 proposed to cap RVUs at rates paid to hospitals under the Medicare hospital outpatient rule, which would have resulted in decreases in payments to independent laboratories. CMS did not adopt the proposal for 2014 and its RVU proposals for 2015 would result in an increase in RVUs for our flow cytometry tests. CMS continues to evaluate its proposals, however, and identified in its proposed 2015 rule at least one flow cytometry billing code as potentially incorrectly valued. We cannot predict how CMS will value RVUs in the future or whether downward changes to the MPFS RVUs, if any, will impact our business. Any change in reimbursement that materially lowers reimbursement for our Avise products could materially affect our business.

Medicare payments are significant to our business, not only because approximately 25% of the total payments we received from payers in 2013 were derived from the Medicare program, but also because other payers often use the MPFS and CLFS amounts as a benchmark to develop their payment rates. We cannot predict whether Medicare and other third-party payer reimbursement rates that mirror Medicare's will be sufficient to make our tests commercially attractive. Moreover, some states have passed or proposed legislation that would revise reimbursement methodology for clinical laboratory payment rates under their respective Medicaid programs. For example, in October 2011, CMS approved California's plan to reduce certain Medi-Cal payments

by 10% retroactive to June 1, 2011. In February 2012, Medi-Cal began the recoupment process, adjusting payments on new claims. According to the California Department of Health Care Services, the cut would apply to various healthcare providers and outpatient services, including laboratory services, with exceptions for certain acute illness and physician specialties. There is currently pending legislation in California to reverse the 10% cut in Medi-Cal provider rates. In addition, the California legislature introduced an amendment to the state Medicaid plan, which if approved by CMS could potentially apply an additional 10% reduction to laboratory payments retroactive to July 1, 2012. CMS has requested additional information from the Medi-Cal program and has not yet issued a response to Medi-Cal's reimbursement reduction recommendation. Although recent changes to reimbursement for laboratory tests in states outside of California have not changed the payment rate for our tests to date, we cannot be certain that state payment rates for our tests will not be affected in the future.

We also cannot predict whether future healthcare initiatives will be implemented at the federal or state level or in countries outside of the United States in which we may do business in the future, or the effect any future legislation or regulation will have on us. Although we cannot predict the full effect of the recent legislative changes discussed above, including taxes imposed by the ACA, cost reduction measures, the expansion in government's role in the U.S. healthcare industry and PAMA's changes to the reimbursement methodology under the CLFS, such changes individually or in the aggregate may result in decreased profits to us and/or lower reimbursement by payers for tests, which may adversely affect our business, financial condition and results of operations.

Complying with numerous regulations pertaining to our business is an expensive and time-consuming process, and any failure to comply could result in substantial penalties.

We are subject to CLIA, a federal law that regulates clinical laboratories that perform testing on specimens derived from humans for the purpose of providing information for the diagnosis, prevention or treatment of disease. CLIA regulations mandate specific standards in the areas of personnel qualifications, administration, and participation in proficiency testing, patient test management, quality control, quality assurance and inspections. We have a current certificate of accreditation under CLIA to perform testing through our accreditation by CAP. To renew this certificate, we are subject to survey and inspection every two years. Moreover, CLIA inspectors may make random inspections of our clinical reference laboratory.

Although we are required to hold a certificate of accreditation or compliance under CLIA that allows us to perform high complexity testing, we are not required to hold a certificate of accreditation through CAP. We could alternatively maintain a certificate of accreditation from another accrediting organization or a certificate of compliance through inspection by surveyors acting on behalf of the CLIA program. If our accreditation under CAP were to terminate, either voluntarily or involuntarily, we would need to convert our certification under CLIA to a certificate of compliance (or to a certificate of accreditation with another accreditation organization) in order to maintain our ability to perform clinical testing and to continue commercial operations. Whether we would be able to successfully maintain operations through either of these alternatives would depend upon the facts and circumstances surrounding termination of our CAP accreditation, such as whether any deficiencies were identified by CAP as the basis for termination and, if so, whether these were addressed to the satisfaction of the surveyors for the CLIA program (or another accrediting organization).

The failure to comply with CLIA requirements can result in enforcement actions, including the revocation, suspension, or limitation of our CLIA certificate of accreditation, as well as a directed plan of correction, state on-site monitoring, civil money penalties, civil injunctive suit and/or criminal penalties. We must maintain CLIA compliance and certification to be eligible to bill for tests provided to Medicare beneficiaries. If we were to be found out of compliance with CLIA program requirements and subjected to sanctions, our business and reputation could be harmed. Even if it were possible for us to bring our laboratory back into compliance, we could incur significant expenses and potentially lose revenue in doing so.

We are also required to maintain a license to conduct testing in California. California laws establish standards for day-to-day operation of our clinical reference laboratory, including the training and skills required

of personnel and quality control. In addition, our clinical reference laboratory is required to be licensed on a product-specific basis by New York as an out of state laboratory and our products, as LDTs, must be approved by the New York State Department of Health, or NYDOH, on a product-by-product basis before they are offered in New York. Once approved, we would also be subject to periodic inspection by the NYDOH and required to demonstrate ongoing compliance with NYDOH regulations and standards. To the extent NYDOH identified any non-compliance and we are unable to implement satisfactory corrective actions to remedy such non-compliance, the State of New York could withdraw approval for our tests. New York law also mandates proficiency testing for laboratories licensed under New York state law, regardless of whether or not such laboratories are located in New York. Moreover, several other states require that we hold licenses to test specimens from patients in those states. Other states may have similar requirements or may adopt similar requirements in the future. Although we have obtained licenses from states where we believe we are required to be licensed, we may become aware of other states that require out-of-state laboratories to obtain licensure in order to accept specimens from the state, and it is possible that other states currently have such requirements or will have such requirements in the future.

If we were to lose our CLIA accreditation or California license, whether as a result of a revocation, suspension or limitation, we would no longer be able to sell our tests, which would limit our revenues and harm our business. If we were to lose our license or fail to obtain or maintain NYDOH approval for our laboratory developed tests in New York or if we were to lose our license in other states where we are required to hold licenses, we would not be able to test specimens from those states which would limit our revenue.

If we fail to comply with healthcare laws and regulations, we could face substantial penalties and our business, operations and financial condition could be adversely affected.

We and our partners, including those with whom we may enter into co-promotion or co-marketing arrangements, are also subject to healthcare fraud and abuse regulation by both the federal government and the states in which we or our partners conduct our business. These laws include, without limitation, state and federal anti-kickback, self-referral, fraud and abuse, false claims, and physician sunshine laws and regulations.

The federal Anti-kickback Statute prohibits, among other things, knowingly and willfully offering, paying, soliciting or receiving any remuneration (including any kickback, bribe or rebate), directly or indirectly, overtly or covertly, in cash or in kind, to induce or in return for purchasing, leasing, ordering or arranging for the purchase, lease or order of any good, facility, item or service, including laboratory services, reimbursable, in whole or in part, under Medicare, Medicaid or other federally financed healthcare programs. The term “remuneration” has been broadly interpreted to include anything of value. The Anti-kickback Statute has been interpreted to apply to arrangements between manufacturers on one hand and prescribers, purchasers and formulary mangers on the other. Although there are a number of statutory exceptions and regulatory safe harbors protecting certain common activities from prosecution, the exceptions and safe harbors are drawn narrowly. Our practices may not in all cases meet all of the criteria for safe harbor protection from anti-kickback liability. Failure to meet all of the requirements of a particular applicable statutory exception or regulatory safe harbor, however, does not make the conduct per se illegal under the Anti-Kickback Statute. Instead, the legality of the arrangement will be evaluated on a case-by-case basis based on a cumulative review of all of its facts and circumstances. Several courts have interpreted the statute’s intent requirement to mean that if any one purpose of an arrangement involving remuneration is to induce referrals of federal healthcare covered business, the Anti-Kickback Statute has been violated. Further, the ACA amends the intent requirement of the Federal Anti-kickback Statute and certain criminal health care fraud statutes. A person or entity no longer needs to have actual knowledge of the statute or specific intent to violate it. In addition, the government may assert that a claim including items or services resulting from a violation of the federal Anti-kickback Statute constitutes a false or fraudulent claim for purposes of the false claims laws.

On June 25, 2014, the Office of Inspector General of the Department of Health and Human Services, or the OIG, released a Special Fraud Alert, expressing concern regarding laboratory payments made to referring physicians and physician group practices for blood specimen collection, processing, and packaging. Specifically,

the OIG expressed concern that such arrangements may implicate the Federal Anti-Kickback Statute when laboratories make payments to physicians for services that are already covered and reimbursed by Medicare, or are not commercially reasonable or exceed fair market value, all in order to induce physicians to order tests from such laboratory. Because the choice of laboratory and the decision to order laboratory tests is made or strongly influenced by the physician, with little or no input from patients, such payment may induce physicians to order more laboratory tests than are medically necessary, particularly when the payments are tied to, or take into account, the volume or value of business generated by the physician. We have entered into certain arrangements with physicians for services related to specimen collection, transporting and handling. To the extent our arrangements are found to be inconsistent with applicable laws, we may be required to restructure or discontinue such arrangements, or be subject to other significant penalties, including criminal penalties and exclusion from participation in U.S. federal or state health care programs.

The Federal civil False Claims Act prohibits, among other things, any person from knowingly presenting or causing to be presented a false claim for payment to the federal government, or knowingly making or causing to be made a false statement to get a false or fraudulent claim paid by the federal government. A claim includes “any request or demand” for money or property presented to the U.S. government. Penalties for a Federal civil False Claims Act violation include three times the actual damages sustained by the government, plus mandatory civil penalties of between $5,500 and $11,000 for each separate false claim, the potential for exclusion from participation in federal healthcare programs and criminal liability. If the government were to allege that we were, or convict us of, violating these false claims laws, we could be subject to a substantial fine and adversely affect our operations. In addition, private individuals have the ability to bring actions under these false claims laws in the name of the government alleging false and fraudulent claims presented to or paid by the government (or other violations of the statutes) and to share in any amounts paid by the entity to the government in fines or settlement. Such suits, known as qui tam actions, have increased significantly in the healthcare industry in recent years. In addition, the federal civil monetary penalties statute imposes penalties against any person or entity that, among other things, is determined to have presented or caused to be presented a claim to a federal health program that the person knows or should know is for an item or service that was not provided as claimed or is false or fraudulent. The majority of states also have statutes or regulations similar to the federal anti-kickback and false claims laws, which apply to items and services reimbursed under Medicaid and other state programs, or, in several states, apply regardless of the payer.

We are also subject to the federal physician self-referral prohibitions, commonly known as the Stark Law, which prohibits, among other things, physicians who have a financial relationship, including an investment, ownership or compensation relationship with an entity, from referring Medicare patients for designated health services, which include clinical laboratory services, unless an exception applies. Similarly, entities may not bill Medicare or any other party for services furnished pursuant to a prohibited referral. Many states have their own self-referral laws as well, which in some cases apply to all third-party payers, not just Medicare and Medicaid.

In addition, a person who offers or transfers to a Medicare or Medicaid beneficiary any remuneration, including waivers of co-payments and deductible amounts (or any part thereof), that the person knows or should know is likely to influence the beneficiary’s selection of a particular provider, practitioner or supplier of Medicare or Medicaid payable items or services may be liable for civil monetary penalties of up to $10,000 for each wrongful act. Moreover, in certain cases, providers who routinely waive copayments and deductibles for Medicare and Medicaid beneficiaries can also be held liable under the Anti-kickback Statute and civil False Claims Act, which can impose additional penalties associated with the wrongful act. One of the statutory exceptions to the prohibition is non-routine, unadvertised waivers of copayments or deductible amounts based on individualized determinations of financial need or exhaustion of reasonable collection efforts. The Office of Inspector General of the Department of Health and Human Services emphasizes, however, that this exception should only be used occasionally to address special financial needs of a particular patient. Although this prohibition applies only to federal healthcare program beneficiaries, the routine waivers of copayments and deductibles offered to patients covered by commercial payers may implicate applicable state laws related to, among other things, unlawful schemes to defraud, excessive fees for services, tortious interference with patient

contracts and statutory or common law fraud. To the extent our programs are found to be inconsistent with applicable laws, we may be required to restructure or discontinue such programs, or be subject to other significant penalties.

The ACA, among other things, also imposed new reporting requirements on manufacturers of certain devices, drugs and biologics for certain payments and transfers of value by them and in some cases their distributors to physicians and teaching hospitals, as well as ownership and investment interests held by physicians and their immediate family members. Failure to submit required information timely, completely and accurately for all payments, transfers of value and ownership or investment interests may result in civil monetary penalties of up to an aggregate of $150,000 per year (or up to an aggregate of $1.0 million per year for "knowing failures"). The period between August 1, 2013 and December 31, 2013 was the first reporting period, and manufacturers were required to report aggregate payment data by March 31, 2014, and to report detailed payment data and submit legal attestation to the completeness and accuracy of such data by June 30, 2014. Thereafter, manufacturers must submit reports by the 90th day of each subsequent calendar year. CMS will release the data on a public website by September 30, 2014. Any failure to comply with these reporting requirements could result in significant fines and penalties. Because we manufacture our own LDTs solely for use by or within our own laboratory, we believe that we are exempt from these reporting requirements. We cannot assure you, however, that the government will agree with our determination, and a determination that we have violated these laws and regulations, or a public announcement that we are being investigated for possible violations, could adversely affect our business, prospects, results of operations or financial condition.

It is possible that some of our business activities could be subject to challenge under one or more of such laws. Such a challenge, regardless of the outcome, could have a material adverse effect on our business, business relationships, reputation, financial condition and results of operations. Although an effective compliance program can mitigate the risk of investigation and prosecution for violations of these laws, the risks cannot be entirely eliminated. Any action against us for violation of these laws, even if we successfully defend against it, could cause us to incur significant legal expenses and divert our management's attention from the operation of our business. Moreover, achieving and sustaining compliance with these laws may prove costly. If we or our operations, or any of the healthcare providers or entities with whom we do business are found to be in violation of any of the laws described above or any other governmental regulations that apply to us, we may be subject to penalties, including administrative, civil and/or criminal penalties, damages, fines, disgorgement, individual imprisonment, exclusion from participation in U.S. federal or state health care programs, and the curtailment or restructuring of our operations, any of which could materially adversely affect our ability to operate our business and our financial results. To the extent that any of our products are sold in a foreign country, we may be subject to similar foreign laws and regulations, which may include, for instance, applicable post-marketing requirements, including safety surveillance, anti-fraud and abuse laws, and implementation of corporate compliance programs and reporting of payments or transfers of value to healthcare professionals.

Failure to comply with HIPAA, the Health Information Technology for Economic and Clinical Health Act, the HITECH Act, their implementing regulations, and similar comparable state laws and regulations affecting the transmission, security and privacy of health information could result in significant penalties.

Numerous federal and state laws and regulations, including HIPAA and the HITECH Act, govern the collection, dissemination, security, use and confidentiality of patient-identifiable health information. HIPAA and the HITECH Act require us to comply with standards for the use and disclosure of health information within our company and with third parties. The Standards for Privacy of Individually Identifiable Health Information, or Privacy Standards, and the Security Standards for the Protection of Electronic Protected Health Information, or Security Standards, under HIPAA establish a set of basic national privacy and security standards for the protection of individually identifiable health information by health plans, healthcare clearinghouses and certain healthcare providers, referred to as covered entities, and the business associates with whom such covered entities contract for services. Notably, whereas HIPAA previously directly regulated only these covered entities, the HITECH Act, which was signed into law as part of the stimulus package in February 2009, made certain of the

Security Standards directly applicable to business associates. Further, the HITECH Act and the Final HIPAA Omnibus Rule that was promulgated in 2013, made additional parts of HIPAA directly applicable to business associates. As a result, both covered entities and business associates are now subject to significant civil and criminal penalties for failure to comply with the Privacy Standards and/or the Security Standards.

HIPAA and the HITECH Act also include standards for common healthcare electronic transactions and code sets, such as claims information, plan eligibility, payment information and the use of electronic signatures, and privacy and electronic security of individually identifiable health information. Covered entities, such as health care providers, are required to conform to such transaction set standards, known as the Standards for Electronic Transactions, pursuant to HIPAA.

HIPAA requires covered entities to develop and maintain policies and procedures with respect to protected health information that is used or disclosed, including the adoption of administrative, physical and technical safeguards to protect such information. The HITECH Act expands the notification requirement for breaches of patient-identifiable health information, restricts certain disclosures and sales of patient-identifiable health information and provides a tiered system for civil monetary penalties for HIPAA violations. The Final HIPAA Omnibus Rule modifies the breach reporting standard in a manner that will likely make more data security incidents qualify as reportable breaches. The HITECH Act also increased the civil and criminal penalties that may be imposed against covered entities, business associates and possibly other persons and gave state attorneys general new authority to file civil actions for damages or injunctions in federal courts to enforce the federal HIPAA laws and seek attorney fees and costs associated with pursuing federal civil actions. Additionally, certain states have adopted comparable privacy and security laws and regulations, some of which may be more stringent than HIPAA.

If we do not comply with the requirements of HIPAA, the HITECH Act or applicable state privacy and security laws, we could be subject to criminal or civil sanctions that could adversely affect our financial condition. The costs of complying with privacy and security related legal and regulatory requirements are burdensome and could have a material adverse effect on our business. These laws are subject to interpretation by various courts and other governmental authorities, thus creating potentially complex compliance issues for us, as well as our physician clients. In addition, we are unable to predict what changes to the HIPAA Privacy Standards and Security Standards might be made in the future or how those changes could affect our business. Any new legislation or regulation in the area of privacy and security of personal information, including personal health information, could also adversely affect our business operations.

Risks Related to our Intellectual Property

If we are unable to maintain intellectual property protection, our competitive position could be harmed.

Our ability to protect our technologies such as CBCAPs, red blood cell methotrexate polyglutamates, or MTXPG, exposure assessments and anti-MCV antibodies, affects our ability to compete and to achieve sustained profitability. We rely on a combination of U.S. and foreign patents and patent applications, copyrights, trademarks and trademark applications, and contractual restrictions to protect our intellectual property rights. We cannot be certain that the claims in our granted patents and pending patent applications covering our Avise products will be considered patentable or enforceable by the United States Patent and Trademark Office, or the USPTO, courts in the United States, or by patent offices and courts in foreign countries. If we fail to protect our intellectual property, third parties may be able to compete more effectively against us and we may incur substantial litigation costs in our attempts to recover or restrict use of our intellectual property.

We apply for patents covering our products and technologies and uses thereof, as we deem appropriate, however we may fail to apply for patents on important products and technologies in a timely fashion or at all, or we may fail to apply for patents in potentially relevant jurisdictions, or we may cease our prosecution and maintenance of patents in potentially relevant jurisdictions. Currently, we have an exclusive license to 10 issued U.S. patents, three pending U.S. patent applications, and certain corresponding foreign counterpart patents and

patent applications, relevant to our Avise products. We also own three pending U.S. patent applications, two corresponding foreign counterpart applications, and one pending international Patent Cooperation Treaty, or PCT, application relevant to our Avise products. While we intend to pursue additional patent applications, it is possible that our pending patent applications and any future applications may not result in issued patents. Even if such patents do successfully issue, third parties may challenge the validity, enforceability or scope thereof, which may result in such patents being narrowed, invalidated or held unenforceable. Any successful opposition to our patents could deprive us of exclusive rights necessary for the further development of our Avise products. Furthermore, even if they are unchallenged, our patents may not adequately protect our intellectual property, provide exclusivity for our Avise products or prevent others from designing around our claims.

We might not have been the first to make the inventions covered by each of our pending patent applications and we might not have been the first to file patent applications for these inventions. To determine the priority of these inventions, we may have to participate in interference proceedings, derivation proceedings or other post-grant proceedings declared by the USPTO that could result in substantial cost to us. No assurance can be given that our patent applications will have priority over other patent applications. In addition, recent changes to the patent laws of the United States allow for various post-grant opposition proceedings that have not been extensively tested, and their outcome is therefore uncertain. Furthermore, if third parties bring these proceedings against our patents, we could experience significant costs and management distraction.

In addition to the protection afforded by patents, we rely on trade secret protection and confidentiality agreements to protect proprietary know-how that is not patentable, or that we elect not to patent, processes for which patents are difficult to enforce and any other elements of our Avise products and development processes that involve proprietary know-how, information or technology that is not covered by patents. However, trade secrets can be difficult to protect. While we use commercially reasonable efforts to protect our trade secrets, our licensors, employees, consultants, contractors and other advisors may unintentionally or willfully disclose such trade secret information to third parties and competitors. We attempt to protect our proprietary technology in large part by entering into confidentiality and non-disclosure agreements with our employees, consultants and other contractors. We cannot assure you, however, that these agreements will not be breached, that we will have adequate remedies for any breach or that competitors will not know of, or independently discover, our trade secrets. We cannot assure you that others will not independently develop substantially equivalent proprietary information or be issued patents that may prevent the sale of our products, technologies, services or know-how or require licensing and the payment of significant fees or royalties by us in order to produce our products, technologies or services. Further, we cannot be certain that the steps we have taken will prevent the misappropriation of our trade secrets and other confidential information.

Monitoring unauthorized disclosure is difficult, and we do not know whether the steps we have taken to prevent such disclosure are, or will be, adequate. If we were to enforce a claim that a third party had illegally obtained and was using our trade secrets, it would be expensive and time consuming, and the outcome would be unpredictable. In addition, courts outside the United States may be less willing to protect trade secrets. If we are unable to prevent unauthorized material disclosure of our trade secrets and other confidential information to third parties, and in particular in jurisdictions where we have not filed for patent protection, we may not be able to establish or maintain a competitive advantage in our market, which could materially adversely affect our business, operating results and financial condition.

Certain of our products utilize unpatented technology that is publicly available and can be used by our competitors.

Certain of our Avise products, such as Avise SLE+CT, utilize both patented technology and publicly available technology that is not protected by patents or other intellectual property rights. We believe that using certain publicly available technology allows us to offer a better and more comprehensive product. However, the publicly available technology which we rely upon is also used in, and may continue to be used in, products which are competitive with our Avise products. Our competitors may independently develop competing diagnostic products and services that do not infringe our intellectual property.

Changes in U.S. patent law could diminish the value of patents in general, thereby impairing our ability to protect our Avise products.

As is the case with other diagnostics companies, our success is heavily dependent on intellectual property, particularly on obtaining and enforcing patents. Obtaining and enforcing patents in the diagnostics industry involves both technological and legal complexity, and is therefore costly, time-consuming and inherently uncertain. From time-to-time the U.S. Supreme Court, other federal courts, the U.S. Congress or the USPTO, may change the standards of patentability and any such changes could have a negative impact on our business. For instance, on October 30, 2008, the Court of Appeals for the Federal Circuit issued a decision that methods or processes cannot be patented unless they are tied to a machine or involve a physical transformation. The U.S. Supreme Court later reversed that decision in *Bilski v. Kappos*, finding that the "machine-or-transformation" test is not the only test for determining patent eligibility. The Court, however, declined to specify how and when processes are patentable. On March 30, 2012, in the case *Mayo Collaborative Services v. Prometheus Laboratories, Inc.*, the U.S. Supreme Court reversed the Federal Circuit's application of *Bilski* and invalidated a patent focused on a diagnostic process because the patent claim embodied a law of nature. On July 30, 2012, the USPTO released a memorandum entitled "2012 Interim Procedure for Subject Matter Eligibility Analysis of Process Claims Involving Laws of Nature," with guidelines for determining patentability of diagnostic or other processes in line with the *Mayo* decision. On June 13, 2013, in *Association for Molecular Pathology v. Myriad Genetics*, the Supreme Court held that a naturally occurring DNA segment is a product of nature and not patent eligible merely because it has been isolated. The Supreme Court did not address the patentability of any innovative method claims involving the manipulation of isolated genes. On March 4, 2014, the USPTO released a memorandum entitled "2014 Procedure For Subject Matter Eligibility Analysis Of Claims Reciting Or Involving Laws Of Nature/Natural Principles, Natural Phenomena, And/Or Natural Products." This memorandum provides guidelines for the USPTO's new examination procedure for subject matter eligibility under 35 U.S.C. §101 for claims embracing natural products or natural principles. Although the guidelines do not have the force of law, patent examiners have been instructed to follow them. Some aspects of our technology involve processes that may be subject to this evolving standard and we cannot guarantee that any of our pending process claims will be patentable as a result of such evolving standards. In addition, patents we own or license that issued before these recent cases may be subject to challenge in court or before the USPTO in view of these current legal standards. Changes in either the patent laws or in interpretations of patent laws in the United States or other countries could weaken our ability to obtain new patents or to enforce our existing patents and patents that we might obtain in the future. We cannot predict the breadth of claims that may be allowed or enforced in our patents or in third-party patents. We may not develop additional proprietary products, methods and technologies that are patentable.

We may not be able to protect our intellectual property rights throughout the world.

Filing, prosecuting and defending patents on our Avise products in all countries throughout the world would be prohibitively expensive. Moreover, we believe that obtaining foreign patents may be more difficult than obtaining domestic patents because of differences in patent laws and, accordingly, our patent position may be stronger in the United States than abroad. In addition, the laws of some foreign countries do not protect intellectual property rights in the same manner and to the same extent as laws in the United States. Various countries limit the subject matter that can be patented and limit the ability of a patent owner to enforce patents in the medical and other related fields. This may limit our ability to obtain or utilize those patents internationally. In order to manage our foreign patent costs and focus on the U.S. market, we made the decision to cease the prosecution and maintenance of certain of our foreign patents and patent applications related to our CBCAPs technology, which is used in our Avise products. Consequently, we may not be able to prevent third parties from practicing our inventions in all countries outside the United States. Competitors may use our technologies in jurisdictions where we have not obtained patent protection to develop their own products and further, may export otherwise infringing products to territories where we have patent protection but enforcement of such patent protection is not as strong as that in the United States. These products may compete with our Avise products and our patents or other intellectual property rights may not be effective or sufficient to prevent them from competing.

Many companies have encountered significant problems in protecting and defending intellectual property rights in foreign jurisdictions. The legal systems of certain countries, particularly certain developing countries, do not favor the enforcement of patents, trade secrets and other intellectual property protection, particularly those relating to biotechnology products, which could make it difficult for us to stop the infringement of our patents or marketing of competing products in violation of our proprietary rights generally. Proceedings to enforce our patent rights in foreign jurisdictions could result in substantial costs and divert our efforts and attention from other aspects of our business, could put our patents at risk of being invalidated or interpreted narrowly, and could provoke third parties to assert claims against us. We may not prevail in any lawsuits that we initiate and the damages or other remedies awarded, if any, may not be commercially meaningful. Accordingly, our efforts to enforce our intellectual property rights around the world may be inadequate to obtain a significant commercial advantage from the intellectual property that we develop or license.

If we fail to comply with our obligations in the agreements under which we license intellectual property rights from third parties or otherwise experience disruptions to our business relationships with our licensors, we could lose license rights that are important to our business.

We are a party to a number of license agreements under which we are granted intellectual property rights that are important to our business. For example, certain patent rights related to Avise SLE are licensed from the University of Pittsburgh, certain patent rights related to Avise MCV are licensed from Orgentec, and certain patent rights related to Avise MTX are licensed from Prometheus Laboratories Inc., or Prometheus. Our existing license agreements as related to our Avise products impose various regulatory and/or commercial diligence obligations, payment of milestones and/or royalties and other obligations. If we fail to comply with our obligations under a license agreement, the license agreement may be terminated, in which event we would not be able to further develop or market certain Avise products. Additionally, we may not always have the first right to maintain, enforce or defend our licensed intellectual property rights and, although we would likely have the right to assume the maintenance, enforcement and defense of such intellectual property rights if our licensors do not, our ability to do so may be compromised by our licensors' acts or omissions.

Licensing of intellectual property rights is of critical importance to our business and involves complex legal, business and scientific issues. Disputes may arise between us and our licensors regarding intellectual property rights subject to a license agreement, including the scope of rights granted under the license agreement and other interpretation-related issues, and whether and the extent to which our technology and processes infringe on intellectual property rights of the licensor that are not subject to the licensing agreement. If disputes over intellectual property rights that we have licensed prevent or impair our ability to maintain our current licensing arrangements on acceptable terms, our business, results of operations, financial condition and prospects may be adversely affected. We may enter into additional licenses in the future and if we fail to comply with obligations under those agreements, we could suffer adverse consequences.

Obtaining and maintaining our patent protection depends on compliance with various procedural, document submission, fee payment and other requirements imposed by governmental patent agencies, and our patent protection could be reduced or eliminated for non-compliance with these requirements.

The USPTO and various foreign governmental patent agencies require compliance with a number of procedural, documentary, fee payment and other similar provisions during the patent process. Periodic maintenance fees, renewal fees, annuity fees and various other governmental fees on any issued patents and/or applications are due to be paid to the USPTO and foreign patent agencies in several stages over the lifetime of the patents and/or applications. Our outside counsel has systems in place to monitor deadlines to pay these fees and to remind us of these fees, and our outside counsel employs an outside firm to pay these fees due to the USPTO and to foreign patent agencies based on our instructions. In the aggregate, these fees can be cost prohibitive for an early-stage company. Accordingly, we made a financially-driven decision to prioritize our payment of these fees and to allow certain of our applications to lapse, particularly with respect to our Ex-U.S. rights licensed from the University of Pittsburgh related to our CBCAPs technology. Additionally, while an

inadvertent lapse may sometimes be cured by payment of a late fee or by other means in accordance with the applicable rules, there are situations in which noncompliance can result in abandonment or lapse of the patent or patent application, resulting in partial or complete loss of patent rights in the relevant jurisdiction. In such an event, our competitors might be able to enter the market earlier than should otherwise have been the case, which would have a material adverse effect on our business.

We may not be successful in obtaining or maintaining necessary rights to product components and processes for our development pipeline through acquisitions and in-licenses.

Presently we have intellectual property rights, through licenses from third parties and under patents that we own, related to our Avise products. Because our programs may involve additional products that require the use of proprietary rights held by third parties, the growth of our business will likely depend in part on our ability to acquire, in-license or use these proprietary rights. We may be unable to acquire or in-license proprietary rights that we identify as being necessary for our Avise products. Even if we are able to obtain a license to such proprietary rights, it may be non-exclusive, thereby giving our competitors access to the same technologies licensed to us. In that event, we may be required to expend significant time and resources to develop or license replacement technology.

The licensing and acquisition of third-party proprietary rights is a competitive area, and companies, which may be more established, or have greater resources than we do, may also be pursuing strategies to license or acquire third-party proprietary rights that we may consider necessary or attractive in order to further develop our Avise products. More established companies may have a competitive advantage over us due to their size, cash resources and greater clinical development and commercialization capabilities.

In addition, companies that perceive us to be a competitor may be unwilling to assign or license rights to us, either on reasonable terms, or at all. We also may be unable to license or acquire third-party intellectual property rights on terms that would allow us to make an appropriate return on our investment, or at all. If we are unable to successfully obtain rights to required third-party intellectual property rights on commercially reasonable terms, our ability to further develop our Avise products, and our business, financial condition and prospects for growth could suffer.

Third-party claims alleging intellectual property infringement may prevent or delay our development efforts.

Our commercial success depends in part on our avoiding infringement of the patents and proprietary rights of third parties. There is a substantial amount of litigation, both within and outside the United States, involving patents and other intellectual property rights in the diagnostics industry, as well as administrative proceedings for challenging patents, including interference and reexamination proceedings before the USPTO or oppositions and other comparable proceedings in foreign jurisdictions. The Leahy-Smith America Invents Act introduced new procedures including inter partes review and post grant review. The implementation of these procedures bring the possibility of third party challenges to our patents and the outcome of such challenges could result in a loss or narrowing of our patent rights. In such an event, our competitors might be able to enter the market earlier than should otherwise have been the case, which would have a material adverse effect on our business. Numerous U.S. and foreign issued patents and pending patent applications, which are owned by third parties, exist in the fields in which we are developing our Avise products. As the diagnostics industry expands and more patents are issued, the risk increases that our activities related to our Avise products may give rise to claims of infringement of the patent rights of others.

We cannot assure you that any of our current or future Avise products will not infringe existing or future patents. Although we are not aware of any issued patents that will prevent us from marketing our Avise products, there may be patents that have already issued that a third party might assert are infringed by one of our current or future Avise products.

Third parties may assert that we are employing their proprietary technology without authorization. There may be third-party patents of which we are currently unaware with claims to materials or methods of manufacture related to the use or manufacture of our Avise products. Because patent applications can take many years to issue and may be confidential for 18 months or more after filing, there may be currently pending third-party patent applications which may later result in issued patents that our Avise products or our technologies may infringe, or which such third parties claim are infringed by the use of our technologies.

Parties making claims against us for infringement or misappropriation of their intellectual property rights may seek and obtain injunctive or other equitable relief, which could effectively block our ability to further develop one or more of our Avise products. Defense of these claims, regardless of their merit, would involve substantial expenses and would be a substantial diversion of employee resources from our business. In the event of a successful claim of infringement against us, we may have to pay substantial damages, including treble damages and attorneys' fees if we are found to be willfully infringing a third party's patents, obtain one or more licenses from third parties, pay royalties or redesign our infringing products, which may be impossible or require substantial time and monetary expenditure. We cannot predict whether any such license would be available at all or whether it would be available on commercially reasonable terms. Furthermore, even in the absence of litigation, we may need to obtain licenses from third parties to advance our research or development of our Avise products. We may fail to obtain any of these licenses at a reasonable cost or on reasonable terms, if at all. In that event, we would be unable to further develop our Avise products, which could harm our business significantly. Even if we were able to obtain a license, the rights may be nonexclusive, which may give our competitors access to the same intellectual property.

In addition to infringement claims against us, if third parties have prepared and filed patent applications in the United States that also claim technology to which we have rights, we may have to participate in interference proceedings in the USPTO to determine the priority of invention. Third parties may also attempt to initiate reexamination, post grant review or inter partes review of our patents in the USPTO. We may also become involved in similar proceedings in the patent offices in other jurisdictions regarding our intellectual property rights with respect to our Avise products and technology.

We may be involved in proceedings to protect or enforce our patents or the patents of our licensors, which could be expensive, time-consuming and unsuccessful.

Third parties may infringe, misappropriate or otherwise violate our existing patents, patents that may issue to us in the future, or the patents of our licensors that are licensed to us. To counter infringement or unauthorized use, we may be required to file infringement claims, which can be expensive and time-consuming. We may not be able to prevent, alone or with our licensors, misappropriation of our intellectual property rights, particularly in countries where the laws may not protect those rights as fully as in the United States.

In addition, if we or one of our licensors initiated legal proceedings against a third party to enforce a patent covering one of our Avise products, the defendant could counterclaim that the patent covering such Avise product is invalid and/or unenforceable. In patent litigation in the United States, defendant counterclaims alleging invalidity and/or unenforceability are commonplace, and there are numerous grounds upon which a third party can assert invalidity or unenforceability of a patent. Such proceedings could result in an invalidation of our patents. The outcome following legal assertions of invalidity and unenforceability is unpredictable. With respect to the validity question, for example, we cannot be certain that there is no invalidating prior art, of which we and the patent examiner were unaware during prosecution. If a defendant were to prevail on a legal assertion of invalidity and/or unenforceability, we would lose at least part, and perhaps all, of the patent protection on our Avise products. Such a loss of patent protection could have a material adverse impact on our business.

Litigation proceedings may fail and, even if successful, may result in substantial costs and distract our management and other employees. Furthermore, because of the substantial amount of discovery required in connection with intellectual property litigation, there is a risk that some of our confidential information could be compromised by disclosure during this type of litigation. In addition, there could be public announcements of the

results of hearings, motions or other interim proceedings or developments. If securities analysts or investors perceive these results to be negative, it could have a substantial adverse effect on the price of our common stock.

Because of the expense and uncertainty of litigation, we may not be in a position to enforce our intellectual property rights against third parties.

Because of the expense and uncertainty of litigation, we may conclude that even if a third party is infringing our patents or other intellectual property rights, the risk-adjusted cost of bringing and enforcing such a claim or action may be too high or not in the best interest of our company or our stockholders. In addition, there can be no assurance that our licensors will be willing to bring and enforce claims to prevent third parties from infringing intellectual property that is licensed to us, particularly if the affected intellectual property is less important to the licensor's business than to ours. In such cases, we may decide that the more prudent course of action is to simply monitor the situation or initiate or seek some other non-litigious action or solution.

We may be subject to claims that our employees, consultants or independent contractors have wrongfully used or disclosed confidential information of third parties.

We have received confidential and proprietary information from third parties. In addition, we employ individuals who were previously employed at other companies in our industry. We may be subject to claims that we or our employees, consultants or independent contractors have inadvertently or otherwise improperly used or disclosed confidential information of these third parties or our employees' former employers. Further, we may be subject to ownership disputes in the future arising, for example, from conflicting obligations of consultants or others who are involved in developing our Avise products. We may also be subject to claims that former employees, collaborators or other third parties have an ownership interest in our patents or other intellectual property. Litigation may be necessary to defend against these and other claims challenging our right to and use of confidential and proprietary information. If we fail in defending any such claims, in addition to paying monetary damages, we may lose our rights therein. Such an outcome could have a material adverse effect on our business. Even if we are successful in defending against these claims, litigation could result in substantial cost and be a distraction to our management and employees.

Risks Related to Being a Public Company

We will incur increased costs and demands on management as a result of compliance with laws and regulations applicable to public companies, which could harm our operating results.

As a public company, we will incur significant legal, accounting and other expenses that we did not incur as a private company, including costs associated with public company reporting requirements. In addition, the Sarbanes-Oxley Act of 2002 and the Dodd-Frank Wall Street Reform and Protection Act, as well as rules implemented by the Securities and Exchange Commission and The NASDAQ Stock Market, impose a number of requirements on public companies, including with respect to corporate governance practices. Our management and other personnel will need to devote a substantial amount of time to these compliance and disclosure obligations. Moreover, these rules and regulations will increase our legal, accounting and financial compliance costs and will make some activities more time-consuming and costly. We also expect that it will be more expensive for us to obtain director and officer liability insurance.

If we are unable to implement and maintain effective internal control over financial reporting, investors may lose confidence in the accuracy and completeness of our reported financial information and the market price of our common stock may be negatively affected.

As a public company, we will be required to maintain internal control over financial reporting and to report any material weaknesses in such internal control. Section 404 of the Sarbanes-Oxley Act of 2002 requires that we evaluate and determine the effectiveness of our internal control over financial reporting and, beginning with our second annual report following this offering, which will be for our year ending December 31, 2015, provide a management report on the internal control over financial reporting.

If we have a material weakness in our internal control over financial reporting, we may not detect errors on a timely basis and our consolidated financial statements may be materially misstated. We are in the process of compiling the system and processing documentation necessary to perform the evaluation needed to comply with Section 404 of the Sarbanes-Oxley Act. We may not be able to complete our evaluation, testing and any required remediation in a timely fashion. During the evaluation and testing process, if we identify one or more material weaknesses in our internal control over financial reporting, our management will be unable to conclude that our internal control over financial reporting is effective. Moreover, when we are no longer an emerging growth company, our independent registered public accounting firm will be required to issue an attestation report on the effectiveness of our internal control over financial reporting. Even if our management concludes that our internal control over financial reporting is effective, our independent registered public accounting firm may conclude that there are material weaknesses with respect to our internal controls or the level at which our internal controls are documented, designed, implemented or reviewed.

If we are unable to assert that our internal control over financial reporting is effective, or when we are no longer an emerging growth company, if our independent registered public accounting firm were to express an adverse opinion on the effectiveness of our internal control over financial reporting because we had one or more material weaknesses, investors could lose confidence in the accuracy and completeness of our financial disclosures, which could cause the price of our common stock to decline. Internal control deficiencies could also result in a restatement of our financial results in the future.

We have identified a material weakness in our internal control over financial reporting and may identify additional material weaknesses in the future that may cause us to fail to meet our reporting obligations or result in material misstatements of our consolidated financial statements. If we fail to remediate one or more of our material weaknesses or if we fail to establish and maintain effective control over financial reporting, our ability to accurately and timely report our financial results could be adversely affected.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with U.S. generally accepted accounting principles. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of annual or interim financial statements will not be prevented or detected on a timely basis.

Prior to the completion of this offering, we have been a private company with limited accounting personnel and other resources to address our internal control over financial reporting. During the course of preparing for this offering, we determined that material adjustments to various accounts were necessary, which required us to restate the financial statements as of and for the year ended December 31, 2012 that had been previously audited by another independent audit firm. These adjustments leading to a restatement of those financial statements led us to conclude that we had a material weakness in internal control over financial reporting as of December 31, 2012 and 2013, specifically that we did not maintain a sufficient complement of resources with an appropriate level of accounting knowledge, experience and training commensurate with our structure and financial reporting requirements.

For a discussion of our remediation plan and the actions that we have executed during 2014, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Controls and Procedures.” The actions we have taken are subject to continued review, supported by confirmation and testing by management as well as audit committee oversight. While we have implemented a plan to remediate this weakness we cannot assure you that we will be able to remediate this weakness, which could impair our ability to accurately and timely report our financial position, results of operations or cash flows. If we are unable to successfully remediate this material weakness, and if we are unable to produce accurate and timely financial statements, our stock price may be adversely affected and we may be unable to maintain compliance with applicable stock exchange listing requirements.

Our failure to remediate the material weakness identified above, or the identification of additional material weaknesses in the future, could adversely affect our ability to report financial information, including our filing of quarterly or annual reports with the Securities and Exchange Commission on a timely and accurate basis. Moreover, our failure to remediate the material weakness identified above or the identification of additional material weaknesses, could prohibit us from producing timely and accurate consolidated financial statements, which may adversely affect our stock price and we may be unable to maintain compliance with exchange listing requirements.

We are an emerging growth company and may elect to comply with reduced public company reporting requirements applicable to emerging growth companies, which could make our common stock less attractive to investors.

We are an emerging growth company, as defined in the Jumpstart Our Business Startups Act, or the JOBS Act, enacted in April 2012, and, for as long as we continue to be an emerging growth company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies, including, but not limited to, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

In addition, Section 107 of the JOBS Act also provides that an emerging growth company can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act of 1933, as amended, or the Securities Act, for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. However, we are choosing to opt out of such extended transition period, and as a result, we will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. Section 107 of the JOBS Act provides that our decision to opt out of the extended transition period for complying with new or revised accounting standards is irrevocable.

We could remain an emerging growth company for up to five years, or until the earliest of (i) the last day of the first fiscal year in which our annual gross revenues exceed $1.0 billion, (ii) the date that we become a “large accelerated filer” as defined in Rule 12b-2 under the Securities Exchange Act of 1934, as amended, or the Exchange Act, which would occur if, among other things, the market value of common equity securities held by non-affiliates exceeds $700 million as of the last business day of our most recently completed second fiscal quarter, or (iii) the date on which we have issued more than $1.0 billion in nonconvertible debt during the preceding three-year period.

We cannot predict whether investors will find our common stock less attractive if we choose to rely on one or more of these exemptions. If some investors find our common stock less attractive as a result of any decisions to reduce future disclosure, there may be a less active trading market for our common stock and our stock price may be more volatile.

Risks Related to this Offering and Our Common Stock

Our stock price may be volatile, and you may not be able to sell shares of our common stock at or above the price you paid.

Prior to this offering, there has been no public market for our common stock, and an active public market for our stock may not develop or be sustained after this offering. We and the representatives of the underwriters will determine the initial public offering price of our common stock through negotiation. This price will not necessarily reflect the price at which investors in the market will be willing to buy and sell our stock following this offering. In addition, the trading price of our common stock following this offering is likely to be highly

volatile and could be subject to wide fluctuations in response to various factors, some of which are beyond our control. These factors include:

- actual or anticipated variations in our and our competitors' financial condition and results of operations;
- announcements by us or our competitors of new products, strategic partnerships or capital commitments;
- changes in reimbursement by current or potential payers;
- issuance of new securities analysts' reports or changed recommendations for our stock;
- actual or anticipated changes in regulatory oversight of our products;
- developments or disputes concerning our intellectual property or other proprietary rights;
- commencement of, or our involvement in, litigation;
- announced or completed acquisitions of businesses or technologies by us or our competitors;
- any major change in our management;
- changes in accounting principles;
- announcement or expectation of additional financing efforts;
- future sales of our common stock by our executive officers, directors and other stockholders; and
- general economic conditions and slow or negative growth of our markets.

In addition, the stock market in general, and the market for stock of life sciences companies in particular, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of those companies. Broad market and industry factors, as well as general economic, political and market conditions such as recessions or interest rate changes, may seriously affect the market price of our common stock, regardless of our actual operating performance. These fluctuations may be even more pronounced in the trading market for our stock shortly following this offering. If the market price of our common stock after this offering does not exceed the initial public offering price, you may not realize any return on your investment in us and may lose some or all of your investment.

In addition, in the past, following periods of volatility in the overall market and the market price of a particular company's securities, securities class action litigation has often been instituted against these companies. This litigation, if instituted against us, could result in substantial costs and a diversion of our management's attention and resources. Any adverse determination in any such litigation or any amounts paid to settle any such actual or threatened litigation could require that we make significant payments.

If securities or industry analysts issue an adverse opinion regarding our stock or do not publish research or reports about our company, our stock price and trading volume could decline.

The trading market for our common stock will depend in part on the research and reports that equity research analysts publish about us and our business. Currently, we do not have any analyst coverage and we may not obtain analyst coverage in the future. In the event we obtain analyst coverage, we would not have any control over such analysts or the content and opinions included in their reports. Securities analysts may elect not to provide research coverage of our company after the completion of this offering, and such lack of research coverage may adversely affect the market price of our common stock. The price of our common stock could also decline if one or more equity research analysts downgrade our common stock or if those analysts issue other unfavorable commentary or cease publishing reports about us or our business. If one or more equity research analysts cease coverage of our company, we could lose visibility in the market, which in turn could cause our stock price to decline.

Future sales of shares by existing stockholders could cause our stock price to decline.

If our existing stockholders sell, or indicate an intention to sell, substantial amounts of our common stock in the public market after the lock-up and other legal restrictions on resale discussed in this prospectus lapse, the trading price of our common stock could decline. Based on the number of shares of common stock outstanding as of , 2014, upon the completion of this offering, we will have outstanding a total of shares of common stock, assuming the net exercise of all outstanding warrants we issued in 2013, or the 2013 Warrants, no exercise of the underwriters' over-allotment option and no exercise of outstanding options or warrants (other than the 2013 Warrants). Of these shares, will be freely tradable, without restriction, in the public market immediately after the offering. Each of our directors and officers and substantially all of our other stockholders has entered into a lock-up agreement with the underwriters described in "Underwriting" elsewhere in this prospectus, which restricts their ability to sell or transfer their shares. The lock-up agreements pertaining to this offering will expire 180 days from the date of this prospectus. The underwriters, however, may, in their sole discretion, waive the contractual lock-up prior to the expiration of the lock-up agreements. After the lock-up agreements expire, based on shares outstanding as of , 2014, up to an additional shares of common stock will be eligible for sale in the public market, of which shares are held by directors, executive officers and other affiliates and will be subject to volume limitations under Rule 144 under the Securities Act.

In addition, shares of common stock that are subject to outstanding options as of , 2014 will become eligible for sale in the public market to the extent permitted by the provisions of various option agreements, the lock-up agreements and Rules 144 and 701 under the Securities Act. We intend to file a registration statement on Form S-8 under the Securities Act covering all of the shares of common stock subject to options outstanding and reserved for issuance under our employee benefit plans. This registration statement will become effective immediately upon filing, and shares covered by this registration statement will be eligible for sale in the public markets, subject to Rule 144 limitations applicable to affiliates, the terms of the applicable plan and the option agreements entered into with option holders, and any lock-up agreements described above. In addition, our directors and executive officers may establish programmed selling plans under Rule 10b5-1 of the Exchange Act for the purpose of effecting sales of our common stock. Any sales of securities by these stockholders, or the perception that those sales may occur, including the entry into such programmed selling plans, could have a material adverse effect on the trading price of our common stock.

In addition, the holders of shares of common stock and holders of warrants to purchase an aggregate of shares of common stock will be entitled to rights with respect to registration of such shares under the Securities Act pursuant to an investors' rights agreement between such holders and us. See "Certain Relationships and Related Person Transactions—Investors' Rights Agreement" below. If such holders, by exercising their registration rights, sell a large number of shares, they could adversely affect the market price for our common stock. If we file a registration statement for the purpose of selling additional shares to raise capital and are required to include shares held by these holders pursuant to the exercise of their registration rights, our ability to raise capital may be impaired.

Insiders have substantial control over us and will be able to influence corporate matters.

Upon completion of this offering, our existing stockholders, directors, executive officers and their affiliates will beneficially own, in the aggregate, approximately % of our outstanding shares of common stock, and if the underwriters' option to purchase additional shares is exercised in full, such persons and their affiliates will beneficially own, in the aggregate, approximately % of our outstanding shares of common stock. As a result, these stockholders will be able to exercise significant influence over all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, such as a merger or other sale of our company or its assets. This concentration of ownership could limit stockholders' ability to influence corporate matters and may have the effect of delaying or preventing a third party from acquiring control over us.

Anti-takeover provisions in our charter documents and under Delaware law could make an acquisition of us, which may be beneficial to our stockholders, more difficult and may prevent attempts by our stockholders to replace or remove our current management and limit the market price of our common stock.

Provisions in our amended and restated certificate of incorporation and amended and restated bylaws, which will become effective upon the completion of this offering, may have the effect of delaying or preventing a change of control or changes in our management. Some of these provisions:

- authorize our board of directors to issue, without further action by the stockholders, up to 10,000,000 shares of undesignated preferred stock and up to approximately shares of authorized but unissued shares of common stock;
- require that any action to be taken by our stockholders be effected at a duly called annual or special meeting and not by written consent;
- specify that special meetings of our stockholders can be called only by our board of directors, the Chairman, the Chief Executive Officer or the President;
- establish an advance notice procedure for stockholder approvals to be brought before an annual meeting of our stockholders, including proposed nominations of persons for election to our board of directors;
- establish that our board of directors is divided into three classes, Class I, Class II and Class III, with each class serving staggered terms;
- provide that our directors may be removed only for cause; and
- provide that vacancies on our board of directors may, except as otherwise required by law, be filled only by a majority of directors then in office, even if less than a quorum.

In addition, we are subject to the provisions of Section 203 of the Delaware General Corporation Law, which limits the ability of stockholders owning in excess of 15% of our outstanding voting stock to merge or combine with us. These anti-takeover provisions and other provisions in our amended and restated certificate of incorporation and amended and restated bylaws could make it more difficult for stockholders or potential acquirers to obtain control of our board of directors or initiate actions that are opposed by the then-current board of directors and could also delay or impede a merger, tender offer or proxy contest involving our company. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing or cause us to take other corporate actions you desire. Any delay or prevention of a change of control transaction or changes in our board of directors could cause the market price of our common stock to decline.

Our management will have discretion in the use of the net proceeds from this offering and may not use them in a way which increases the value of your investment.

We currently intend to use the net proceeds of the offering for selling and marketing activities, including expansion of our sales force to support the ongoing commercialization of our current products and future products, for research and development activities, including medical and clinical costs, related to the continued support of our Avise products, as well as the development of our product pipeline, for general and administrative expenses (including compensation of our officers and directors and other personnel-related costs and the costs of operating as a public company), and for working capital and other general corporate purposes, as outlined in “Use of Proceeds” elsewhere in this prospectus. However, our management will have considerable discretion in the application of the net proceeds from this offering and investors will be relying on the judgment of our management regarding the application of those proceeds. Our management may spend the proceeds in ways that do not improve our results of operations or enhance the value of our common stock, and you will not have the opportunity to influence management’s decisions on how to use the proceeds from this offering. Our failure to apply these funds effectively could have a material adverse effect on our business, delay the development of new tests and cause the price of our common stock to decline.

Purchasers in this offering will experience immediate and substantial dilution in the book value of their investment.

The initial public offering price of our common stock is substantially higher than the net tangible book value per share of our common stock immediately after this offering. Therefore, if you purchase our common stock in this offering, you will incur an immediate dilution of $ in net tangible book value per share from the price you paid, based on an assumed initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus. In addition, new investors who purchase shares in this offering will contribute approximately % of the total amount of equity capital raised by us through the date of this offering, but will only own approximately % of the outstanding equity capital. The exercise of outstanding options and warrants will result in further dilution. In addition, if we raise additional funds by issuing equity securities, our stockholders may experience further dilution. For a detailed description of the dilution that you will experience immediately after this offering, see "Dilution."

We have never paid dividends on our capital stock, and we do not anticipate paying dividends in the foreseeable future.

We have never declared or paid any cash dividends on our common stock and do not intend to pay any cash dividends in the foreseeable future. We currently intend to retain any future earnings to fund the growth of our business. In addition, our loan agreement restricts our ability to pay cash dividends on our common stock and we may also enter into credit agreements or other borrowing arrangements in the future that will restrict our ability to declare or pay cash dividends on our common stock. Any determination to pay dividends in the future will be at the discretion of our board of directors and will depend on our financial condition, operating results, capital requirements, general business conditions and other factors that our board of directors may deem relevant. As a result, capital appreciation, if any, of our common stock will be the sole source of gain for the foreseeable future.

If an active, liquid trading market for our common stock does not develop, you may not be able to sell your shares quickly or at or above the initial offering price.

There has not been a public market for our common stock. An active and liquid trading market for our common stock may not develop or be sustained following this offering. The lack of an active market may impair your ability to sell your shares at the time you wish to sell them or at a price that you consider reasonable. The lack of an active market may also reduce the fair market value of your shares. An inactive market may also impair our ability to raise capital to continue to fund operations by selling shares and may impair our ability to acquire other companies or technologies by using our shares as consideration. You may not be able to sell your shares quickly or at or above the initial offering price. The initial public offering price will be determined by negotiations with the representatives of the underwriters. This price may not be indicative of the price at which our common stock will trade after this offering, and our common stock could trade below the initial public offering price.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements. All statements other than statements of historical facts contained in this prospectus, including statements regarding our future results of operations and financial position, business strategy, current and future product offerings, reimbursement and coverage, research and development costs, timing and likelihood of success and plans and objectives of management for future operations are forward-looking statements. These statements involve known and unknown risks, uncertainties and other important factors that may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

In some cases, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “expect,” “plan,” “anticipate,” “could,” “intend,” “target,” “project,” “contemplates,” “believes,” “estimates,” “predicts,” “potential” or “continue” or the negative of these terms or other similar expressions. The forward-looking statements in this prospectus are only predictions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our business, financial condition and results of operations. These forward-looking statements speak only as of the date of this prospectus and are subject to a number of risks, uncertainties and assumptions described under the sections in this prospectus entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this prospectus. Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified and some of which are beyond our control, you should not rely on these forward-looking statements as predictions of future events. The events and circumstances reflected in our forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. Moreover, we operate in an evolving environment. New risk factors and uncertainties may emerge from time to time, and it is not possible for management to predict all risk factors and uncertainties. Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances or otherwise. The forward-looking statements contained in this prospectus are excluded from the safe harbor protection provided by the Private Securities Litigation Reform Act of 1995 and Section 27A of the Securities Act of 1933, as amended.

This prospectus also contains estimates and other statistical data made by independent parties and by us relating to market size and growth and other data about our industry. This data involves a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. In addition, projections, assumptions and estimates of our future performance and the future performance of the markets in which we operate are necessarily subject to a high degree of uncertainty and risk.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of the common stock that we are offering will be approximately $ million (or $ million if the underwriters exercise their over-allotment option to purchase additional shares in full), assuming an initial public offering price of $ per share, the midpoint of the price range listed on the cover page of this prospectus, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us. Each $1.00 increase (decrease) in the assumed initial public offering price of $ per share would increase (decrease) the net proceeds to us from this offering by approximately $ million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. We may also increase or decrease the number of shares we are offering. Each increase (decrease) of 1.0 million in the number of shares we are offering would increase (decrease) the net proceeds to us from this offering, after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us, by approximately $ million, assuming the assumed initial public offering price stays the same.

The principal purposes of this offering are to obtain additional capital to support our operations, to create a public market for our common stock and to facilitate our future access to the public equity markets. We intend to use the net proceeds from this offering for working capital and general corporate purposes, including sales and marketing activities, research and development and capital expenditures. We may also use a portion of the net proceeds to in-license, acquire or invest in complementary businesses or products; however, we have no current commitments or obligations to do so.

We believe, based on our current operating plan, that the net proceeds from this offering and our existing cash and cash equivalents and anticipated future product revenue, will be sufficient to fund our operations for at least the next 18 months.

The amounts and timing of our actual expenditures will depend on numerous factors, including the timing and amount of our cash receipts from the sale of our products, the development efforts for our products and diagnostic solutions and other factors described under “Risk Factors” in this prospectus, as well as the amount of cash used in our operations. We therefore cannot estimate the amount of net proceeds to be used for the purposes described above. We may find it necessary or advisable to use the net proceeds for other purposes, and we will have broad discretion in the application of the net proceeds. Pending the uses described above, we plan to invest the net proceeds from this offering in short- and intermediate-term, interest-bearing obligations, investment-grade instruments, certificates of deposit or direct or guaranteed obligations of the U.S. government.

DIVIDEND POLICY

We have never declared or paid any cash dividends on our capital stock. We intend to retain future earnings, if any, to finance the operation of our business and do not anticipate paying any cash dividends in the foreseeable future. Any future determination related to dividend policy will be made at the discretion of our board of directors after considering our financial condition, results of operations, capital requirements, business prospects and other factors the board of directors deems relevant, and subject to the restrictions contained in any future financing instruments. In addition, our ability to pay cash dividends is currently prohibited by the terms of our term loan agreement with Capital Royalty.

CAPITALIZATION

The following table sets forth our cash and cash equivalents, and our capitalization as of March 31, 2014 as follows:

- on an actual basis;
- on a pro forma basis to reflect (1) the issuance of $4.0 million in aggregate principal amount of 2014 Notes in July 2014 and the automatic conversion of the 2014 Notes (including accrued interest thereon) into shares of our common stock in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, and assuming the conversion occurs on , 2014 (the expected closing date of this offering), (2) the automatic conversion of all outstanding shares of our redeemable convertible preferred stock as of March 31, 2014 into 92,330,247 shares of common stock immediately prior to the completion of this offering and the resultant reclassification of our redeemable convertible preferred stock warrant liability to stockholders' deficit in connection with such conversion, (3) the issuance of shares of common stock as a result of the expected net exercise of the 2013 Warrants in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which 2013 Warrants will terminate if not exercised prior to the completion of this offering, and (4) the filing of our amended and restated certificate of incorporation immediately prior to the completion of this offering; and
- on a pro forma as adjusted basis to give further effect to our issuance and sale of shares of common stock in this offering at an assumed initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus, after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

The pro forma and pro forma as adjusted information below is illustrative only, and our capitalization following the completion of this offering will be adjusted based on the actual initial public offering price and other terms of this offering determined at pricing. You should read this information in conjunction with our consolidated financial statements and the related notes included in this prospectus and the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and other financial information contained in this prospectus.

(1) Each $1.00 increase (decrease) in the assumed initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) the pro forma as adjusted amount of each of cash and cash equivalents, total stockholders' deficit and total capitalization by approximately $, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting estimated underwriting discounts and commissions and estimated offering expenses payable by us. Similarly, each increase (decrease) of 1.0 million shares in the number of shares offered by us at the assumed initial public offering price per share would increase (decrease) the pro forma as adjusted amount of each of cash and cash equivalents, total stockholders' deficit and total capitalization by approximately $.

The number of shares in the table above excludes:

- 8,810,016 shares of common stock issuable upon exercise of stock options outstanding as of March 31, 2014, at a weighted average exercise price of $0.16 per share;
- shares of common stock issuable upon the exercise of outstanding warrants as of March 31, 2014, at a weighted average exercise price of $ per share, which warrants will terminate upon the completion of this offering if not previously exercised;
- shares of our common stock reserved for future issuance under our 2014 incentive award plan, or the 2014 plan, which will become effective on the business day prior to the public trading date of our common stock (including 1,360,000 shares of common stock reserved for future grant or issuance under our 2013 stock option plan as of March 31, 2014, which shares will be added to the shares reserved under the 2014 plan upon its effectiveness); and
- shares of common stock reserved for future issuance under our 2014 employee stock purchase plan, which will become effective on the business day prior to the public trading date of our common stock.

DILUTION

If you invest in our common stock in this offering, your ownership interest will be immediately diluted to the extent of the difference between the initial public offering price per share and the pro forma as adjusted net tangible book value per share of our common stock after this offering.

As of March 31, 2014, we had a historical net tangible book value (deficit) of $(30.4) million, or $(3.06) per share of common stock. Our historical net tangible book value (deficit) per share represents total tangible assets less total liabilities, divided by the number of shares of common stock outstanding at March 31, 2014.

On a pro forma basis, after giving effect to (1) the issuance of $4.0 million in aggregate principal amount of 2014 Notes in July 2014 and the automatic conversion of the 2014 Notes (including accrued interest thereon) into shares of our common stock in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus and assuming the conversion occurs on , 2014 (the expected closing date of this offering), (2) the automatic conversion of all outstanding shares of our redeemable convertible preferred stock as of March 31, 2014 into 92,330,247 shares of our common stock immediately prior to the completion of this offering and the resultant reclassification of our redeemable convertible preferred stock warrant liability to stockholders' equity in connection with such conversion, and (3) the issuance of shares of common stock as a result of the expected net exercise of the 2013 Warrants in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, which 2013 Warrants will terminate if not exercised prior to the completion of this offering, our pro forma net tangible book value (deficit) as of March 31, 2014 would have been approximately $ or approximately $ per share of our common stock.

After giving further effect to the sale of shares of common stock that we are offering at an assumed initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus, and after deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of March 31, 2014 would have been approximately $ million, or approximately $ per share. This amount represents an immediate increase in pro forma net tangible book value of $ per share to our existing stockholders and an immediate dilution in pro forma net tangible book value of approximately $ per share to new investors purchasing shares of common stock in this offering.

Dilution per share to new investors is determined by subtracting pro forma as adjusted net tangible book value per share after this offering from the initial public offering price per share paid by new investors. The following table illustrates this dilution (without giving effect to any exercise by the underwriters of their option to purchase additional shares):

Assumed initial public offering price per share		$
Historical net tangible book value (deficit) per share as of March 31, 2014	$(3.06)	
Pro forma increase in historical net tangible book value per share attributable to the pro forma transactions described in the preceding paragraphs		
Pro forma net tangible book value per share as of March 31, 2014	$	
Increase in pro forma net tangible book value per share attributable to this offering		
Pro forma as adjusted net tangible book value per share after this offering		
Dilution per share to new investors in this offering		$

Each $1.00 increase (decrease) in the assumed initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus, would increase (decrease) the pro forma as

adjusted net tangible book value per share after this offering by approximately $, and dilution in pro forma net tangible book value per share to new investors by approximately $, assuming that the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discounts and commissions and the estimated offering expenses payable by us. Each increase (decrease) of 1.0 million shares in the number of shares offered by us would increase (decrease) our pro forma as adjusted net tangible book value per share after this offering by approximately $ per share and decrease (increase) the dilution to investors participating in this offering by approximately $ per share, assuming that the assumed initial public offering price remains the same, and after deducting the estimated underwriting discounts and commissions and the estimated offering expenses payable by us.

If the underwriters exercise their over-allotment option to purchase additional shares of our common stock in full in this offering, the pro forma as adjusted net tangible book value after the offering would be $ per share, the increase in pro forma net tangible book value per share to existing stockholders would be $ per share and the dilution per share to new investors would be $ per share, in each case assuming an initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of this prospectus.

The following table summarizes on the pro forma as adjusted basis described above, as of March 31, 2014, the differences between the number of shares purchased from us, the total consideration paid to us in cash and the average price per share paid by existing stockholders for shares issued prior to this offering and the price to be paid by new investors in this offering. The calculation below is based on the assumed initial public offering price of $ per share, the midpoint of the price range set forth on the cover page of the prospectus, before deducting the estimated underwriting discounts and commissions and estimated offering expenses payable by us.

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percent	Amount	Percent	
Existing stockholders		%	$	%	$
New investors					
Total		100%		100%	

The foregoing tables and calculations exclude:

- 8,810,016 shares of common stock issuable upon exercise of stock options outstanding as of March 31, 2014, at a weighted average exercise price of $0.16 per share;
- shares of common stock issuable upon the exercise of outstanding warrants as of March 31, 2014, at a weighted average exercise price of $ per share, which warrants will terminate upon the completion of this offering if not previously exercised;
- shares of our common stock reserved for future issuance under our 2014 incentive award plan, or the 2014 plan, which will become effective on the business day prior to the public trading date of our common stock (including 1,360,000 shares of common stock reserved for future grant or issuance under our 2013 stock option plan as of March 31, 2014, which shares will be added to the shares reserved under the 2014 plan upon its effectiveness); and
- shares of common stock reserved for future issuance under our 2014 employee stock purchase plan, which will become effective on the business day prior to the public trading date of our common stock .

To the extent any outstanding options or warrants are exercised, there will be further dilution to new investors. If all of such outstanding options and warrants had been exercised as of March 31, 2014, the pro forma as adjusted net tangible book value per share after this offering would be $, and total dilution per share to new investors would be $.

If the underwriters exercise their over-allotment option to purchase additional shares of our common stock in full:

- the percentage of shares of common stock held by existing stockholders will decrease to approximately % of the total number of shares of our common stock outstanding after this offering; and
- the number of shares held by new investors will increase to , or approximately % of the total number of shares of our common stock outstanding after this offering.

Overview

We are a commercial-stage diagnostics company committed to addressing the significant unmet need for the accurate diagnosis and monitoring of patients affected by autoimmune rheumatic diseases. These chronic diseases can cause lifelong inflammation in the joints, tissues and internal organs, resulting in serious complications, such as irreversible organ damage. Untreated chronic inflammation can also lead to premature hardening of the arteries, heart attacks and strokes. The accurate, timely and differential diagnosis for patients suffering from the approximately 30 autoimmune rheumatic diseases, or ARDs, is critical as treatment for each disease can vary, and inappropriate or delayed therapy may expose patients to unnecessary risks or the hazards of uncontrolled disease activity. Physicians face significant difficulties in making a definitive diagnosis of a specific ARD because patients with different diseases often present with a common set of symptoms. We currently market three products under our Avise brand to provide an accurate, timely and differential diagnosis and to optimize the treatment of ARDs. We processed approximately 9,300 patient specimens for our lead diagnostic product line, Avise SLE, in 2013 and approximately 4,500 in the first quarter of 2014.

It is estimated that 11 million adults in the United States suffer from ARDs, including Rheumatoid Arthritis, or RA, Systemic Lupus Erythematosus, or SLE, Sjögren's syndrome, scleroderma, and Mixed Connective Tissue Disease, or MCTD. In addition, patients afflicted with fibromyalgia, a chronic neurologic disorder, have many of the same clinical symptoms as ARDs.

The diagnosis and treatment of ARDs is generally provided by the community rheumatologist, a sub-specialty of internal medicine which includes approximately 3,500 physicians in the United States. Patients often present to a rheumatologist after a lengthy referral process because of the similarity and overlap of symptoms among ARDs, the waxing and waning of these symptoms and the shortcomings of current diagnostic tests. Establishing a definitive diagnosis is often difficult and can take years. Throughout this time, patients may continue to suffer from the debilitating effects of their disease, receive inappropriate treatments and may face a significant financial burden. As a result, physicians strive to make an accurate diagnosis in a timely manner, especially for more serious ARDs, such as SLE, which can be life threatening.

We market and sell our solutions to community rheumatologists with our approximately 30 person sales force. Reimbursement for our testing services comes from several sources, including commercial third-party payers, such as insurance companies and health maintenance organizations, government payers, such as Medicare, and patients. Reimbursement rates vary by product and payer.

Since inception we have devoted substantially all our efforts developing and marketing products for the diagnosis, prognosis and monitoring of ARDs. Our revenues increased from $0.9 million in 2012 to $3.1 million in 2013, or 230%. We have never been profitable and, as of March 31, 2014, had an accumulated deficit of $77.9 million. We incurred net losses of $7.3 million, $13.5 million and $3.6 million in the years ended

December 31, 2012 and 2013 and for the three months ended March 31, 2014, respectively. As of March 31, 2014, we had cash and cash equivalents of $9.5 million.

Financial Overview

Revenue

We derive our revenue from the sale of our Avise products, most of which is attributable to our Avise SLE+CT test. We primarily market our products to rheumatologists and their physician assistants. The healthcare professionals who order our tests and to whom results are reported are generally not responsible for payment for these services. The parties that pay for these services, or payers, consist of commercial third-party payers, government payers, and patients.

As of March 31, 2014, substantially all of our revenue is recognized upon the earlier of payment notification, if applicable, or cash receipt. Our service is completed upon the delivery of test results to the prescribing physician, which triggers billing for the service. Because the timing and amount of cash payments received is difficult to predict, we expect that our revenue could fluctuate significantly in any given quarter.

Our ability to increase our revenue will depend on our ability to further penetrate the market for our current and any future products, and increase our reimbursement and collection rates for tests performed.

Cost of Revenue

Cost of revenue represents the expenses associated with obtaining and testing patient specimens. The components of our cost of revenue include materials costs, direct labor, equipment and infrastructure expenses associated with testing specimens, shipping charges to transport specimens, blood specimen collections fees, royalties, depreciation and allocated overhead, including rent and utilities. Costs associated with performing tests are recorded as the test is processed regardless of whether and when revenue is recognized with respect to that test. Because we currently recognize substantially all of our revenue upon cash receipt, the costs of our tests are often recognized in advance of any associated revenues. As a result, our cost of revenue as a percentage of revenue may vary significantly from period to period because we generally do not recognize the corresponding revenue in the period in which the associated costs are incurred.

We expect cost of revenue in absolute dollars to increase as the number of tests we perform increases. However, we expect that the cost per test will decrease over time due to volume discounts on materials and shipping costs and other volume efficiencies we may gain as the number of tests we perform increases.

Selling, General and Administrative Expenses

Selling, general and administrative expenses consist of personnel costs, including stock-based compensation expense, direct marketing expenses, accounting and legal expenses, consulting costs, and allocated overhead including rent, information technology, equipment depreciation and utilities.

We anticipate that our selling, general and administrative expenses will increase in absolute dollars in future periods as we expand our sales and sales support functions. We also expect our selling, general and administrative expenses will increase as a result of operating as a public company, including expenses related to compliance with the rules and regulations of the Securities and Exchange Commission, additional insurance expenses, investor relations activities and other administrative and professional services.

Research and Development Expenses

Research and development expenses include costs incurred to develop our technology, products and product candidates, collect clinical specimens and conduct clinical studies to develop and support our products and product candidates. These costs consist of personnel costs, including stock-based compensation expense,

materials, laboratory supplies, consulting costs, costs associated with setting up and conducting clinical studies and allocated overhead including rent and utilities. We expense all research and development costs in the periods in which they are incurred.

We expect our research and development expenses will increase in absolute dollars, potentially significantly, in future periods as we continue to invest in research and development activities related to our existing products and product candidates.

Amortization of Intangible Assets

Amortization of intangible assets represents the total amortization expense for our purchased technologies.

We expect our amortization of intangible assets to remain relatively constant over the next several years.

Change in Fair Value of Acquisition-Related Liabilities

In connection with a historical acquisition, we are required to pay an additional amount not to exceed $9.2 million in the event specified revenue, contractual and product launch milestones are achieved. The fair value of this contingent consideration is determined at the end of each reporting period based on probabilities assigned to the milestones being achieved, and interest rates. Changes in fair value are recorded in the consolidated statements of operations and comprehensive loss.

Interest Expense

Interest expense consists of cash and non-cash interest expense associated with our financing arrangements, including the borrowings under our term loan agreement with Capital Royalty.

Interest expense will likely increase over current levels for the next several years due to the draws we made under our term loan agreement.

Loss on Extinguishment of 2013 Notes

In 2013, we converted previously outstanding convertible promissory notes into shares of our Series D redeemable convertible preferred stock. Loss on extinguishment of 2013 notes represents the difference in the carrying amount of the convertible promissory notes and the fair value of the shares of Series D redeemable convertible preferred stock issued upon conversion of the notes.

Other Income (Expense), Net

Other income (expense), net consists primarily of changes in the measurement of the value of the liability associated with outstanding warrants exercisable for shares of our Series D redeemable convertible preferred stock, and in 2013, changes in the value of an embedded derivative recorded in connection with then-outstanding convertible promissory notes.

The outstanding warrants to purchase shares of our Series D redeemable convertible preferred stock are expected to be exercised in connection with this offering, or they will terminate, and will no longer be subject to measurement once exercised.

Income Tax Expense

Income taxes include federal and state income taxes in the United States.

Critical Accounting Policies and Significant Management Estimates

Our management's discussion and analysis of our financial condition and results of operations is based on our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP. The preparation of these consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, as well as the reported revenue generated and expenses incurred during the reporting periods. Our estimates are based on our historical experience and on various other factors that we believe are reasonable under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions and any such differences may be material. We believe that the accounting policies discussed below are critical to understanding our historical and future performance, as these policies relate to the more significant areas involving management's judgments and estimates.

Revenue Recognition

Our revenues are derived from sales of our diagnostic, prognostic and monitoring products. We primarily market our testing services to rheumatologists and their physician assistants. The healthcare professionals who order our products and to whom test results are reported are generally not responsible for payment for these products. The parties that pay for these services consist of commercial third-party payers, Medicare and other government payers, and patients.

We recognize revenue when the following criteria have been met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectability is reasonably assured.

Our service is completed upon the delivery of test results to the prescribing physician which triggers billing for the service. We recognize revenue related to billings to third-party payers on an accrual basis, net of contractual adjustments, only when we have established pricing with our third-party payers as indicated by contractual pricing arrangements or predictable patterns of payments for our services.

In the absence of a predictable pattern of reimbursement or a contract with a third-party payers, revenue is recognized upon the earlier of payment notification, if applicable, or cash receipt. We currently recognize revenue on a cash basis from sales of our products. The assessment of the fixed or determinable nature of the fees charged and the collectability of those fees requires significant judgment by management. Accordingly, we expect to recognize revenue on a cash basis until we have sufficient history to reliably estimate payment patterns.

As of December 31, 2012 and 2013 and March 31, 2013 and 2014, substantially all of our revenue is recognized upon the earlier of payment notification, if applicable, or cash receipt.

Goodwill and Intangible Assets

We apply Financial Accounting Standards Codification, or FASB, Accounting Standards Codification, or ASC, Topic 805, "*Business Combinations*" and FASB ASC Topic 350, "*Intangibles—Goodwill and Other*" to account for goodwill and intangible assets. In accordance with these standards, we amortize all finite lived intangible assets over their respective estimated useful lives, while goodwill has an indefinite life and is not amortized. We review finite lived intangible assets subject to amortization for impairment whenever events or circumstances indicate that the associated carrying amount may not be recoverable. Goodwill is not amortized but is tested for impairment at least annually or more frequently whenever a triggering event or change in circumstances occurs, at the reporting unit level. We are required to recognize an impairment charge if the carrying amount of the reporting unit exceeds its fair value.

Management uses all available information to make this fair value determination, including the present values of expected future cash flows using discount rates commensurate with the risks involved in the assets and observed market multiples of operating cash flows. In addition, if the estimated fair value of the reporting unit is less than the book value (including the goodwill), further management judgment must be applied in determining the fair values of individual assets and liabilities for purposes of the hypothetical purchase price allocation. No provision for goodwill or other intangible asset impairments was recorded during the three months ended March 31, 2014, or the years ended December 31, 2012 and 2013. However, a lower fair value estimate in the future could result in impairment. Following the completion of this offering, our stock price and associated market capitalization will also be considered in the determination of reporting unit fair value. A prolonged or significant decline in our share price could provide evidence of a need to record a material impairment of goodwill.

Stock-Based Compensation

We recognize compensation costs related to stock options granted to employees based on the estimated fair value of the awards on the date of grant, net of estimated forfeitures. We estimate the grant date fair value, and the resulting stock-based compensation expense, using the Black-Scholes option-pricing model. The grant date fair value of stock-based awards is expensed on a straight-line basis over the vesting period of the respective award.

We account for stock-based compensation arrangements with non-employees using a fair value approach. The fair value of these options is measured using the Black-Scholes option-pricing model reflecting the same assumptions as applied to employee options in each of the reported periods, other than the expected life, which is assumed to be the remaining contractual life of the option. The compensation costs of these arrangements are subject to remeasurement over the vesting terms as earned.

We recorded stock-based compensation expense of approximately $116,000, $152,000 and $26,000 for the years ended December 31, 2012 and 2013, and the three months ended March 31, 2014, respectively. We expect to continue to grant stock options and other equity-based awards in the future, and to the extent that we do, our stock-based compensation expense recognized in future periods will likely increase.

The Black-Scholes option-pricing model requires the use of highly subjective and complex assumptions, which determine the fair value of stock-based awards. If we had made different assumptions, our stock-based compensation expense, net loss and net loss per share of common stock could have been significantly different. Our assumptions are as follows:

- *Fair value of our common stock.* Because our stock was not publicly traded prior to this offering, we estimate the fair value of our common stock. See “—Significant Factors, Assumptions and Methodologies Used in Determining Fair Value of Our Common Stock” below. Upon the completion of this offering, our common stock will be valued by reference to the publicly-traded price of our common stock.
- *Expected term.* The expected term represents the period that the stock-based awards are expected to be outstanding. Our historical share option exercise experience does not provide a reasonable basis upon which to estimate an expected term because of a lack of sufficient data. Therefore we estimate the expected term by using the simplified method, which calculates the expected term as the average of the time-to-vesting and the contractual life of the options.
- *Expected volatility.* As our common stock has never been publicly traded, the expected volatility is derived from the average historical volatilities of publicly traded companies within our industry that we consider to be comparable to our business over a period approximately equal to the expected term. We intend to continue to consistently apply this process using the same or similar public companies until a sufficient amount of historical information regarding the volatility of our own common stock price becomes available, or unless circumstances change such that the identified companies are no longer similar to us, in which case, more suitable companies whose share prices are publicly available would be utilized in the calculation.

- *Risk-free interest rate.* The risk-free interest rate is based on the U.S. Treasury yield in effect at the time of grant for zero coupon U.S. Treasury notes with maturities approximately equal to the expected term.
- *Expected dividend.* The expected dividend is assumed to be zero as we have never paid dividends and have no current plans to pay any dividends on our common stock.
- *Expected forfeiture.* We use historical data to estimate pre-vesting option forfeitures and record stock-based compensation expense only for those awards that are expected to vest. To the extent actual forfeitures differ from the estimates, the difference will be recorded as a cumulative adjustment in the period that the estimates are revised.

Significant Factors, Assumptions and Methodologies Used in Determining Fair Value of Our Common Stock

We are also required to estimate the fair value of the common stock underlying our stock-based awards when performing the fair value calculations using the Black-Scholes option-pricing model. Our board of directors, with the assistance of management, determined the fair value of our common stock on each grant date. All options to purchase shares of our common stock are intended to be granted with an exercise price per share no less than the fair value per share of our common stock underlying those options on the date of grant, based on the information known to us on the date of grant.

Because there has been no public market for our common stock, the fair value of the common stock that underlies our stock options has historically been determined by our board of directors based upon information available to it at the time of grant, including the following:

- contemporaneous valuations performed by independent third-party firms;
- our current and projected operating and financial performance, including our levels of available capital resources;
- trends and developments in our industry;
- the valuation of publicly traded companies in our sector, as well as recently completed initial public offerings and mergers and acquisitions of comparable companies;
- rights, preferences and privileges of our common stock compared to the rights, preferences and privileges of our other outstanding equity securities;
- U.S. and global economic and capital market conditions;
- the likelihood of achieving a liquidity event for the shares of common stock, such as an initial public offering or an acquisition of our company given prevailing market and sector conditions;
- the illiquidity of our securities by virtue of being a private company;
- business risks; and
- management and board experience.

The valuations of our common stock performed by independent third-party firms were performed in accordance with the guidelines outlined in the American Institute of Certified Public Accountants Practice Aid, *Valuation of Privately-Held-Company Equity Securities Issued as Compensation*. Historically, we utilized an option pricing method to allocate our business enterprise value to our common stock and common stock equivalents. Beginning in March 2014, we began utilizing a probability-weighted expected returns method, or PWERM, valuation approach. Under this approach, the valuation of our common stock was based upon the probability-weighted present value of expected future returns, considering each of the possible future scenarios available to us.

Our business enterprise value was estimated using a combination of two generally accepted approaches: the income approach and the market-based approach. The income approach estimates enterprise value based on the estimated present value of future net cash flows the business is expected to generate over its remaining life. The

estimated present value is calculated using a discount rate reflective of the cost of capital associated with an investment in a similar company and risks associated with our cash flow projections. Our discounted cash flow projections are sensitive to highly subjective assumptions that we were required to make each valuation date. The market-based approach measures the value of a business through an analysis of recent sales or offerings of comparable investments or assets, and in our case, focuses on comparing us to the group of peer companies. In applying this method, valuation multiples are derived from historical operating data of the peer company group. We then apply multiples to our operating data to arrive at a range of indicated values of the company. For each valuation, we prepared a financial forecast to be used in the computation of the value of invested capital for both the market approach and income approach. The financial forecasts took into account our past results and expected future financial performance. There is inherent uncertainty in these estimates as the assumptions used are highly subjective and subject to changes as a result of new operating data and economic and other conditions that impact our business.

If we had made different assumptions than those used, the amount of our stock-based compensation expense, net income and net income per share amounts could have been significantly different. Following the completion of this offering, the fair value per share of our common stock for purposes of determining stock-based compensation expense will be the closing price of our common stock as reported on the applicable grant date.

The compensation cost that has been included in the consolidated statement of operations for all stock-based compensation arrangements is as follows (in thousands):

	Years Ended December 31,		Three Months Ended March 31,	
	2012	2013	2013	2014
			(Unaudited)	
Cost of revenue	$ 3	$ 2	$ —	$ 1
Selling, general and administrative expenses	92	125	31	22
Research and development expense	21	25	7	3
Total stock-based compensation expense	$116	$152	$ 38	$ 26

Based on the assumed initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus, the intrinsic value of stock options outstanding as of March 31, 2014 would be $ million, of which $ million and $ million would have been related to stock options that were vested and unvested, respectively, at that date.

Estimated Fair Value of Redeemable Convertible Preferred Stock Warrants, Embedded Derivative Liabilities and Acquisition-Related Liabilities

We account for our redeemable convertible preferred stock warrant liabilities as freestanding instruments for shares that are puttable or redeemable. These warrants are classified as liabilities on our consolidated balance sheets and are recorded at their estimated fair values. At the end of each reporting period, changes in estimated fair value during the period are recorded as a component of other income (expense), net in the accompanying statement of operations and comprehensive loss. We will continue to re-measure the fair value of the warrant liabilities until: (i) exercise, (ii) expiration of the related warrant, or (iii) conversion of the preferred stock underlying the security into common stock, which will occur in connection with this offering.

We estimate the fair values of our warrant liabilities using an option pricing model based on inputs as of the valuation measurement dates, including the fair value of our redeemable convertible preferred stock, the estimated volatility of the price of our redeemable convertible preferred stock, the expected term of the warrants and the risk-free interest rates.

In 2013, we converted previously outstanding convertible promissory notes into shares of our Series D redeemable convertible preferred stock at a 20% discount to the issuance price of such shares. We determined this

discount to be an embedded put feature derivative requiring bifurcation and separate accounting. Accordingly, we recorded a derivative liability which was remeasured to fair value through the conversion of the convertible notes. The related remeasurement adjustments were recognized as a change in fair value of derivative liabilities associated with the convertible promissory notes in the consolidated statements of operations and comprehensive loss.

The inputs used to determine the estimated fair value of these derivative instruments included the probability of potential settlement scenarios for the convertible promissory notes, an estimate of the expected timing of settlement, expected volatility and risk-free interest rates.

In connection with a historical acquisition, we are required to pay an additional amount not to exceed $9.2 million in the event specified revenue, contractual and product launch milestones are achieved. This contingent liability requires the use of inputs which are not observable in the market to assess its fair value at the end of each reporting period. For this liability, fair value is determined based on probabilities assigned to the milestones being achieved, and interest rates. Changes in fair value are recorded in the consolidated statements of operations and comprehensive loss.

Income Taxes

We file U.S. federal income tax returns and tax returns in California and New Mexico. To date, we have not been audited by the Internal Revenue Service or any state income tax authority, however all tax years remain open for examination by federal tax authorities.

As of December 31, 2013, our gross deferred tax assets were $10.2 million. The deferred tax assets were primarily comprised of federal and state tax net operating loss and tax credit carryfowards. We have performed an analysis to determine whether an “ownership change” occurred from inception to December 31, 2013. Based on this analysis, we determined that we did experience a historical ownership change of greater than 50% in 2008. Therefore, our ability to utilize our net operating losses incurred prior to this date is limited.

We are required to reduce our deferred tax assets by a valuation allowance if it is more likely than not that some or all of our deferred tax assets will not be realized. We must use judgment in assessing the potential need for a valuation allowance, which requires an evaluation of both negative and positive evidence. The weight given to the potential effect of negative and positive evidence should be commensurate with the extent to which it can be objectively verified. In determining the need for and amount of our valuation allowance, if any, we assess the likelihood that we will be able to recover our deferred tax assets using historical levels of income, estimates of future income and tax planning strategies. As a result of historical cumulative losses and uncertainties surrounding our ability to generate future taxable income and, based on all available evidence, we believe it is more likely than not that our recorded net deferred tax assets will not be realized. Accordingly, we recorded a valuation allowance against all of our net deferred tax assets at December 31, 2013. We will continue to maintain a full valuation allowance on our deferred tax assets until there is sufficient evidence to support the reversal of all or some portion of this allowance.

The above listing is not intended to be a comprehensive list of all of our accounting policies. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP. There are also areas in which our management’s judgment in selecting any available alternative would not produce a materially different result. Please see our audited consolidated financial statements and notes thereto included elsewhere in this prospectus, which contain accounting policies and other disclosures required by GAAP.

Revenue

Revenue increased $1.0 million, or 285%, in the three months ended March 31, 2014 compared to the three months ended March 31, 2013, primarily due to an increase in the number of Avise SLE diagnostic products for which we collected revenue and an increase in average reimbursement per test. We increased the number of Avise SLE diagnostic products for which we collected revenue by 200% to 2,906 for the three months ended March 31, 2014 compared to 968 for the three months ended March 31, 2013.

Cost of Revenue

Cost of revenue increased $0.7 million, or 130%, in the three months ended March 31, 2014 compared to the three months ended March 31, 2013. This increase is primarily due to an increase in variable costs which are directly related to the increase in the number of Avise SLE diagnostic patient specimens received for testing.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased $1.5 million, or 105%, in the three months ended March 31, 2014 compared to the three months ended March 31, 2013. This increase was primarily due to increases in headcount, including expansion of the sales force to approximately 30 representatives during the three months ended March 31, 2014 from eight during the three months ended March 31, 2013, as well as higher commissions, bonus and stock-based compensation expense.

Costs that tend to vary based on revenue, which include commissions and performance-based compensation and other sales and marketing employee related expenses, increased $0.8 million in the three months ended March 31, 2014 compared to the three months ended March 31, 2013, resulting from our continuing expansion of our dedicated sales force. In addition, third party billing fees increased $0.1 million due to increases in the number of tests performed and billed.

Compensation and other employee related expenses for our general and administrative support functions increased $0.2 million in the three months ended March 31, 2014 compared to the three months ended March 31, 2013, resulting primarily from additions to our headcount. In addition, expenses incurred for accounting and legal services increased $0.2 million in the three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Research and Development Expenses

Research and development expenses remained relatively consistent for the three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Amortization of Intangible Assets

Amortization of intangible assets remained consistent for the three months ended March 31, 2014 compared to the three months ended March 31, 2013.

Change in Fair Value of Acquisition-Related Liabilities

Change in fair value of acquisition-related liabilities decreased $0.2 million, or 71%, in the three months ended March 31, 2014 compared to the three months ended March 31, 2013 due to changes in our estimates of the probabilities and timing associated with achieving certain revenue, contractual and product launch milestones in connection with a historical acquisition.

Interest Expense

Interest expense increased $0.4 million, or 718%, in the three months ended March 31, 2014 compared to the three months ended March 31, 2013 primarily as result of increased interest expense related to the $10.0 million outstanding under our term loan agreement, which we drew down in October 2013.

Other Income (Expense), Net

Other income (expense), net increased $0.1 million in the three months ended March 31, 2014 compared to the three months ended March 31, 2013 primarily as result of the change in the fair value of the redeemable convertible preferred stock warrant liability.

Revenue

Revenue increased $2.1 million, or 230%, in 2013 compared to 2012. This increase was primarily due to an increase in the number of Avise SLE diagnostic products for which we collected revenue following the launch of our Avise SLE diagnostic test in January 2012 and our Avise SLE+CT diagnostic test in August 2012. We increased the number of Avise SLE diagnostic products for which we collected revenue by 354% to 6,909 in 2013 compared to 1,520 in 2012.

Cost of Revenue

Cost of revenue increased $0.9 million, or 43%, in 2013 compared to 2012. This increase is primarily due to increase in variable costs which are directly related to the increase in the number of Avise SLE patient specimens received for analysis under our Avise SLE diagnostic products, offset by a decrease in labor, overhead, and related costs per test as we capture economies of scale related to the increase in patient specimens.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased $1.8 million, or 36%, in 2013 compared to 2012. This increase was primarily due to increases in headcount, including higher commissions, bonus and stock-based compensation expense.

Costs that tend to vary based on revenue, which include commissions and performance-based compensation and other sales and marketing employee related expenses, increased $1.0 million in 2013 compared to 2012, resulting from our continuing expansion of our dedicated sales force. In addition, third party billing fees increased $0.2 million due to increases in the number of tests performed and billed.

Compensation and other employee related expenses for our general and administrative support functions increased $0.5 million in 2013 as compared to 2012, resulting from additions to our headcount.

Research and Development Expenses

Research and development expenses decreased $0.2 million, or 15%, in 2013 compared to 2012 primarily due to the completion of clinical trials in 2012 related to the Avise SLE product launch.

Amortization of Intangible Assets

Amortization of intangible assets remained consistent in 2013 compared to 2012.

Change in Fair Value of Acquisition-Related Liabilities

Change in fair value of acquisition-related liabilities increased $1.9 million, or 298%, in 2013 compared to 2012 due to changes in our estimates of the probabilities and timing associated with achieving revenue, contractual and product launch milestones related to a historical acquisition.

Interest Expense

Interest expense increased $0.5 million, or 103%, in 2013 compared to 2012 primarily as result of increased interest expense related to the $10.0 million outstanding under our term loan agreement, which we drew down in October 2013.

Loss on Extinguishment of 2013 Notes

In 2013, we converted previously outstanding convertible promissory notes into shares of our Series D redeemable convertible preferred stock. Loss on extinguishment of 2013 notes of $3.3 million represents the difference in the carrying amount of the convertible promissory notes and the fair value of the shares of Series D redeemable convertible preferred stock issued upon conversion of the notes. No comparable transaction occurred in 2012.

Other Income (Expense), Net

Other income (expense), net decreased $0.1 million in 2013 compared to 2012 primarily as result of changes in the fair value of the redeemable convertible preferred stock warrant liabilities and other embedded derivatives that existed in 2013.

Liquidity and Capital Resources

We have incurred net losses since our inception. For the years ended December 31, 2012 and 2013 and for the three months ended March 31, 2014, we had a net loss of $7.3 million, $13.5 million and $3.6 million, respectively, and we expect to incur additional losses this year and in future years. As of March 31, 2014, we had an accumulated deficit of $77.9 million. To date, we have generated only limited revenue, and we may never achieve revenue sufficient to offset our expenses.

Since inception, our operations have been financed primarily by net proceeds of approximately $82.0 million from sales of our common and redeemable convertible preferred stock and borrowings under various debt financings. As of December 31, 2013 and March 31, 2014, we had $7.7 million and $9.5 million of cash and cash equivalents, respectively.

In October 2013, we entered into a term loan agreement, under which we drew down an initial $10.0 million in October 2013 and another $5.0 million on March 31, 2014. Loans drawn under the term loan agreement are being used for working capital and general corporate purposes.

The loan accrues interest at an annual rate equal of 14%, 10% of which is payable in cash on a quarterly basis and 4% of which we have elected to capitalize as part of the outstanding loan obligation. We are required to

repay any outstanding principal and capitalized interest in quarterly installments over a two-year period, commencing on December 31, 2016. We may, at our option, prepay the term loan borrowings by paying the lender a prepayment premium.

Our obligations under the term loan agreement are secured by a security interest in substantially all of our personal property, including our intellectual property. The loan and security agreement contains customary conditions to borrowing, events of default, and covenants, including covenants requiring us to maintain a minimum liquidity of at least $2.0 million and achieve certain minimum amounts of revenue, and limiting our ability to dispose of assets, undergo a change in control, merge with or acquire other entities, incur debt, incur liens, pay dividends or other distributions to holders of our capital stock, repurchase stock and make investments, in each case subject to certain exceptions.

In connection with the execution of the term loan agreement, we issued the lenders a ten-year warrant to purchase 3,186,430 shares of our Series D redeemable convertible preferred stock at an exercise price of $0.25 per share, and a ten-year warrant to purchase 3,186,430 shares of our common stock at an exercise price of $0.01 per share. In November 2013, we also issued a warrant to purchase 988,000 shares of our Series D redeemable convertible preferred stock at an exercise price of $0.25 per share to an investment advisor involved in the consummation of the term loan agreement.

Our primary uses of cash are to fund our operations as we continue to grow our business. We expect to continue to incur operating losses in the near term as our operating expenses will be increased to support the growth of our business. We expect that our cost of revenue, selling, general and administrative, research and development expenses will continue to increase as we increase our test volume, expand our marketing efforts and increase our internal sales force to drive increased adoption of and reimbursement for our Avise products, prepare to commercialize new products, continue our research and development efforts and further develop our product pipeline. We expect that we will use a substantial portion of the net proceeds of this offering, in combination with our existing cash and cash equivalents, for these purposes and for the increased expenses associated with being a public company. We recently completed the build-out of our laboratory in Vista, California, and we believe we have sufficient laboratory capacity to support increased test volume. Other than the addition of laboratory equipment, we expect that we will not need to make material capital expenditures in the near term related to our laboratory facilities. Cash used to fund operating expenses is impacted by the timing of when we pay expenses, as reflected in the change in our outstanding accounts payable and accrued expenses.

We expect that our near-and longer-term liquidity requirements will continue to consist of working capital and general corporate expenses associated with the growth of our business. Based on our current business plan, we believe that the estimated net proceeds from this offering, together with our existing cash and cash equivalents as of March 31, 2014 and our anticipated future product revenue, will be sufficient to meet our anticipated cash requirements for at least the next 18 months. Management may elect, however, to finance operations by utilizing additional debt or selling equity securities. Debt financing, if available, may involve agreements that include covenants limiting or restricting our ability to take specific actions, such as incurring additional debt, making capital expenditures or declaring dividends. To the extent that we raise additional capital through the sale of equity or convertible debt securities, the ownership interest of our stockholders may be diluted, and the terms of these securities may include liquidation or other preferences that adversely affect the rights of our common stockholders. If additional funding is required or desired, there can be no assurance that additional funds will be available to us on acceptable terms on a timely basis, if at all, or that we will generate sufficient cash from operations to adequately fund our operating needs or achieve or sustain profitability. If we are unable to raise additional capital or generate sufficient cash from operations to adequately fund our operations, we will need to curtail planned activities to reduce costs. Doing so will likely have an unfavorable effect on our ability to execute on our business plan. If we cannot expand our operations or otherwise capitalize on our business opportunities because we lack sufficient capital, our business, financial condition, and results of operations could be adversely affected.

Our estimate of the period of time through which our financial resources will be adequate to support our operations is a forward-looking statement and involves risks and uncertainties, and actual results could vary as a result of a number of factors. We have based this estimate on assumptions that may prove to be wrong, and we may utilize our available capital resources sooner than we currently expect.

The following table summarizes our cash flows for the three months ended March 31, 2013 and 2014 and the years ended December 31, 2012 and 2013:

	Years Ended December 31,		Dollar Change	Three Months Ended March 31,		Dollar Change

Cash Flows from Operating Activities

Cash used in operating activities was $3.2 million for the three months ended March 31, 2014 compared to $1.8 million for the three months ended March 31, 2013. The $1.4 million increase in cash used in operating activities was primarily due to the increase in our net loss of $1.3 million for the three months ended March 31, 2014 compared to March 31, 2013.

Cash used in operating activities was $6.9 million in 2013 compared to $7.5 million in 2012. The $0.6 million decrease in cash used in operating activities was primarily due to increases in changes in accounts payable and accrued liabilities of approximately $1.3 million due to the growth in our operations and the timing of payments offset by a $0.6 million increase in net cash used by losses, as adjusted for change in fair value of acquisition-related liabilities, amortization of debt discount and other non-cash interest expense, loss on extinguishment of 2013 notes, depreciation and amortization expense.

Cash Flows from Investing Activities

Cash used in investing activities was $0.1 million for the three months ended March 31, 2014 compared to cash provided by investing activities of $0.6 million for the three months ended March 31, 2013. The $0.7 million decrease in cash provided by investing activities is primarily attributable to the return of approximately $0.6 million of restricted cash related to the subsequently retired borrowing facility with a bank received in the three months ended March 31, 2013.

Cash provided by investing activities was $0.5 million in 2013 compared to cash used in investing activities of $1.1 million in 2012. The $1.7 million decrease in cash used in investing activities is primarily attributable to the $1.4 million change in the activity in restricted cash related to a borrowing facility with a bank that was retired in 2013, offset by a decrease of approximately $0.3 million in purchases of intangible assets, property and equipment.

Cash Flows from Financing Activities

Cash provided by financing activities was $5.0 million for the three months ended March 31, 2014 compared to cash used in financing activities of $0.8 million for the three months ended March 31, 2013. The $5.8 million increase in cash provided by financing activities is due to a $5 million draw made under our term loan agreement in March 2014, and repayments totaling approximately $0.6 million on bank borrowings in the three months ended March 31, 2013.

Cash provided by financing activities was $11.3 million in 2013 compared to $7.3 million in 2012. The $4.1 million increase in cash provided from financing activities is due to a $10.0 million draw made under our term loan agreement in October 2013, offset by increases in payments on long term debt of $2.6 million and a decrease of $2.9 million in the net proceeds received from the sale of our redeemable convertible preferred stock.

Contractual Obligations

The following table summarizes our contractual obligations as of December 31, 2013:

	Payments Due by Period				
	Less than 1 Year	1 to 3 Years	3 to 5 Years	More than 5 Years	Total
	(In thousands)				
Operating leases(1)	$ 211	$ 357	$ 11	$ —	$ 579

2013 term loan agreement(2)	1,037	3,724	11,242	—	16,003
	$ 1,705	$5,003	$12,106	$ —	$18,814

(1) We currently lease 14,000 square feet of office and laboratory space in Vista, California, under a lease that expires in 2017, with options to extend the lease for two additional 36-month periods. We also lease approximately 3,200 square feet of office space in Albuquerque, New Mexico, under a lease that expires in 2014.

(2) In October 2013, we entered into our term loan agreement and made an initial draw of $10.0 million. In March 2014, we drew an additional $5.0 million under the term loan agreement that is not included in the table above. Payments above include principal and interest.

The contractual obligations table does not include any potential contingent payments upon the achievement by us of specified sales-based and other milestones, or royalty payments we may be required to make under license agreements we have entered into pursuant to which we have in-licensed certain intellectual property, including our license agreements with the University of Pittsburgh, Prometheus, Orgentec and Dr. Dervieux . See “Business—Intellectual Property Overview—License Agreements” for additional information. The timing of when these payments will actually be made is uncertain and the payments are contingent upon the completion of future activities.

Controls and Procedures

A company’s internal control over financial reporting is a process designed by, or under the supervision of, a company’s principal executive and principal financial officers, or persons performing similar functions, and effected by a company’s board of directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate. In connection with our preparation for this offering, we concluded that there was a material weakness in our internal control over financial reporting that caused the restatement of our previously issued financial statements as of and for the year ended December 31, 2012. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a company’s annual or interim financial statements will not be prevented or detected on a timely basis. The material weakness that we identified was that we did not maintain a

sufficient complement of resources with an appropriate level of accounting knowledge, experience and training commensurate with our structure and financial reporting requirements.

During the fourth quarter of 2013 and in preparation for this offering, we initiated various remediation efforts, including hiring additional resources with the appropriate public company and technical accounting expertise and have taken other actions that are more fully described below. As such remediation efforts are still ongoing, we have concluded that the material weakness has not been remediated. Our remediation efforts to date have included the following:

- *Addition of employee resources.* We continue to add appropriate resources to our finance team and are leveraging external consultants to facilitate accurate and timely accounting closes and to accurately prepare and review financial statements and related footnote disclosure. Our finance team has been expanded to include a Corporate Controller and a Director of Financial Planning and Analysis, both with significant public company and life science industry experience, a Director of Revenue Assurance, and external consultants with significant financial and accounting technical experience
- *Other actions to strengthen the internal control environment.* As a result of the additional resources added to the finance function, we are allowing for separate preparation and review of the reconciliations and other account analyses. In addition, we are implementing a new accounting software system which will allow us to strengthen certain control procedures.

The actions that have been taken are subject to continued review, supported by confirmation and testing by management as well as audit committee oversight. While we have implemented a plan to remediate this weakness, we cannot assure you that we will be able to remediate this weakness, which could impair our ability to accurately and timely report our financial position, results of operations or cash flows. For additional information about this material weakness, see “Risk Factors—Risks Related to this Offering and the Ownership of Our Common Stock—We have identified a material weakness in our internal control over financial reporting and may identify additional material weaknesses in the future that may cause us to fail to meet our reporting obligations or result in material misstatements of our consolidated financial statements. If we fail to remediate one or more material weaknesses or if we fail to establish and maintain effective control over financial reporting, our ability to accurately report our financial results could be adversely affected.

Quantitative and Qualitative Disclosures about Market Risk

We are exposed to market risks in the ordinary course of our business. These risks primarily relate to interest rates. We had cash and cash equivalents of $7.7 million and $9.5 million as of December 31, 2013 and March 31, 2014, respectively, which consist of bank deposits. Such interest-bearing instruments carry a degree of risk; however, we have not been exposed to, nor do we anticipate being exposed to, material risks due to changes in interest rates. A hypothetical 10% change in interest rates during any of the periods presented would not have had a material impact on our consolidated financial statements.

JOBS Act Accounting Election

In April 2012, the Jumpstart Our Business Startups Act of 2012, or the JOBS Act, was signed into law. The JOBS Act contains provisions that, among other things, reduce certain reporting requirements for an “emerging growth company.” As an emerging growth company, we are electing not to take advantage of the extended transition period afforded by the JOBS Act for the implementation of new or revised accounting standards, and as a result, we will comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. Section 107 of the JOBS Act provides that our decision not to take advantage of the extended transition period is irrevocable. In addition, we are in the process of evaluating the benefits of relying on the other exemptions and reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if as an emerging growth company we choose to rely on such exemptions, we may not be required to, among other things, (1) provide an auditor’s attestation

report on our system of internal controls over financial reporting pursuant to Section 404, (2) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act, (3) comply with any requirement that may be adopted by the Public Company Accounting Oversight Board regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis), and (4) disclose certain executive compensation-related items such as the correlation between executive compensation and performance and comparisons of the Chief Executive Officer's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of our initial public offering or until we no longer meet the requirements of being an emerging growth company, whichever is earlier.

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update, or ASU, 2014-09, *Revenue from Contracts with Customers*, which provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU is effective for annual periods beginning after December 15, 2016 (fiscal 2018) and shall be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. We are currently in the process of evaluating the impact of adoption of this ASU on the consolidated financial statements.

In July 2013, the FASB issued ASU 2013-11, which provides for changes to the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. These changes require an entity to present an unrecognized tax benefit as a liability in the financial statements if (i) a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, or (ii) the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset to settle any additional income taxes that would result from the disallowance of a tax position. Otherwise, an unrecognized tax benefit is required to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. These changes become effective for us on January 1, 2014. We are currently in the process of evaluating the impact of adoption of this ASU on the consolidated financial statements.

BUSINESS

Overview

We are a commercial-stage diagnostics company committed to addressing the significant unmet need for the accurate diagnosis and monitoring of patients affected by autoimmune rheumatic diseases. These chronic diseases can cause lifelong inflammation in the joints, tissues and internal organs, resulting in serious complications, such as irreversible organ damage. Untreated chronic inflammation can also lead to premature hardening of the arteries, heart attacks and strokes. The accurate, timely and differential diagnosis for patients suffering from the approximately 30 autoimmune rheumatic diseases, or ARDs, is critical as treatment for each disease can vary, and inappropriate or delayed therapy may expose patients to unnecessary risks or the hazards of uncontrolled disease activity. Physicians face significant difficulties in making a definitive diagnosis of a specific ARD because patients with different diseases often present with a common set of symptoms. We currently market three products under our Avise brand to provide an accurate, timely and differential diagnosis and to optimize the treatment of ARDs. We processed approximately 9,300 patient specimens for our lead diagnostic product line, Avise SLE, in 2013 and approximately 4,500 in the first quarter of 2014.

It is estimated that 11 million adults in the United States suffer from ARDs, including Rheumatoid Arthritis, or RA, Systemic Lupus Erythematosus, or SLE, Sjögren's syndrome, scleroderma, and Mixed Connective Tissue Disease, or MCTD. In addition, patients afflicted with fibromyalgia, a chronic neurologic disorder, have many of the same clinical symptoms as ARDs.

The diagnosis and treatment of ARDs is generally provided by the community rheumatologist, a sub-specialty of internal medicine which includes approximately 3,500 physicians in the United States. Patients often present to a rheumatologist after a lengthy referral process because of the similarity and overlap of symptoms among ARDs, the waxing and waning of these symptoms and the shortcomings of current diagnostic tests. Establishing a definitive diagnosis is often difficult and can take years. Throughout this time, patients may continue to suffer from the debilitating effects of their disease, receive inappropriate treatments and may face a significant financial burden. As a result, physicians strive to make an accurate diagnosis in a timely manner, especially for more serious ARDs, such as SLE, which can be life threatening.

Our lead product, Avise SLE+CT, is a proprietary diagnostic test that provides an enhanced solution for patients presenting with symptoms indicative of a wide variety of ARDs, such as SLE, RA, Sjögren's, scleroderma and other disorders that mimic ARDs such as fibromyalgia. Avise SLE+CT allows physicians to more accurately rule-in or rule-out SLE and inform decisions about the presence of other ARDs, all with the convenience of one blood draw. Differential diagnosis of these diseases is critically important because earlier diagnosis has been shown to improve patient outcomes. Once diagnosed, physicians can tailor therapy to a patient's specific disease and avoid the "trial and error" approach that often takes place when a definitive diagnosis cannot be made.

We have validated the clinical utility of Avise SLE 2.0, the proprietary component of our Avise SLE+CT solution, in a multi-center study in an aggregate of 794 subjects, preliminary results of which were presented at the American College of Rheumatology, or ACR, annual conference in 2013. The primary endpoint of the study was the performance characteristics, specifically sensitivity and specificity, of Avise SLE 2.0 compared to common autoantibodies used to diagnose SLE and other ARDs, such as antinuclear antibodies, or ANA, and anti-double stranded DNA, or anti-dsDNA. The final results of this study showed that Avise SLE 2.0 demonstrated 86% specificity and 80% sensitivity in distinguishing SLE from other ARDs, was 33% more specific than ANA and was 48% more sensitive than anti-dsDNA. Avise SLE 2.0 includes Cell Bound Complement Activation Products, or CBCAPs, technology, which we exclusively license from the University of Pittsburgh. This technology is the result of over a decade of extensive research and development conducted at the Lupus Center of Excellence at the University of Pittsburgh Medical Center.

In addition to Avise SLE+CT, we also offer Avise SLE Prognostic, a test that provides additional information to better manage patients diagnosed with SLE. Specifically, our Avise SLE Prognostic report includes information regarding an SLE patient's risk of developing kidney damage, or neurologic or cardiovascular complications. We offer the Avise SLE Prognostic test, which we launched in June 2014, to physicians as a complement to Avise SLE+CT.

We also market Avise MTX, a drug monitoring solution that provides physicians with information to support the optimization of methotrexate, or MTX, a front-line treatment prescribed in over 70% of patients with RA. This solution has been validated prospectively in a number of studies published in peer-reviewed medical journals.

We intend to develop additional innovative, high value diagnostic solutions for the rheumatologist while continuing to improve the performance characteristics of our currently marketed products. In particular, we are developing and validating testing solutions that are designed to assist rheumatologists with the monitoring of disease activity in patients with SLE and monitoring the active drug levels of some of the more commonly prescribed pharmaceuticals for the treatment of ARDs. We are conducting validation studies for these products in collaboration with academic centers of excellence and intend to publish the results of these studies in peer-reviewed medical journals.

Our Strategy

Our goal is to establish ourselves as the preeminent provider of testing solutions to rheumatologists by offering a comprehensive set of tools to effectively diagnose and optimize the treatment of patients with ARDs. To achieve this objective, we intend to:

- *Accelerate the adoption of our existing products.* We plan to expand the use of our Avise product suite by adding new physicians to our customer base as well as increasing utilization among our existing customers. We have recently increased our specialty sales force and expect to selectively add more sales representatives to extend our reach and frequency of engagement with community rheumatologists. In addition, we are conducting medical education seminars for physicians through our community speaker programs, where national and regional thought leaders present information regarding the clinical utility of our products. We will continue to heighten awareness by seeking exhibit and speaker sponsorship opportunities at leading rheumatology medical conferences.
- *Further demonstrate the clinical utility of our products to drive adoption and support reimbursement.* We are conducting additional clinical studies to facilitate the adoption of our testing solutions. We plan to continue to present the results of our studies at national scientific meetings and publish results in peer-reviewed medical journals. We plan to use data from our ongoing trials combined with existing data and our core expertise in managed care, claims adjudication and billing to drive broader access and support reimbursement.
- *Expand our portfolio of high value testing solutions.* We are continuing to develop additional products to address the significant challenges in the diagnosis, prognosis and monitoring of patients with ARDs, and plan to launch four new products by the end of 2016. We believe that by providing a broader set of innovative solutions, we can enhance our value proposition to rheumatologists.
- *Establish ourselves as the trusted partner to the rheumatologist.* We intend to continue to build upon our relationship with the rheumatology community. Our reputation with our physician customers is built on their confidence in the quality of our testing solutions, the timely delivery of our test reports and the value of our consultative support. Our laboratory reports deliver critical information in a form that is optimized for the physician's ease of use. We will also explore opportunities for physicians to access our extensive database of test results. We believe that these measures will position us as a trusted partner to our physician customers and allow us to leverage the resources and infrastructure that we have dedicated to these customers.

- *Engage in partnerships to access additional market opportunities.* We believe there is meaningful potential for our current and future products beyond the rheumatology specialty, particularly for those physician groups that see patients earlier in the diagnostic process. For example, because ARDs are most common in women, obstetrics and gynecology, or OB/GYN, specialists are often the first physicians to see a patient presenting with ARDs. We intend to selectively seek complementary partnerships to address these broader markets.

Autoimmune Rheumatic Diseases

ARDs are a group of serious, chronic and debilitating autoimmune diseases involving inflammation of the joints, tissues and internal organs. There are approximately 30 ARDs, many of which have overlapping symptoms. Additionally, other rheumatic disorders that are not autoimmune in nature, such as fibromyalgia, can present similar symptoms. It is estimated that 11 million patients in the United States suffer from ARDs, including RA, SLE, Sjögren's syndrome, scleroderma and MCTD, and patients afflicted with fibromyalgia have many of the same clinical symptoms as ARDs. These diseases create a significant burden on the healthcare system, due in part to the difficulty in obtaining a differential diagnosis. These chronic diseases can cause lifelong inflammation in the joints, tissues and internal organs, resulting in serious complications, such as irreversible organ damage. Untreated chronic inflammation can also lead to premature hardening of the arteries, heart attacks and strokes. Due to the overlapping symptoms, unpredictable periods of disease flares and disease inactivity, patients may cycle from physician to physician for months or even years before receiving a definitive diagnosis.

The ARDs and other rheumatic conditions that may be confused in diagnosis include the following:

- *Systemic Lupus Erythematosus (SLE).* A chronic autoimmune disease involving inflammation and destruction of organs such as the brain, kidneys and lungs resulting in irreversible damage and in severe cases death.
- *Rheumatoid Arthritis (RA).* A chronic autoimmune disease involving inflammation and destruction of joints, bone and in some cases organs, including eyes and lungs.
- *Sjögren's Syndrome.* A chronic autoimmune disease involving inflammation and destruction of secretory glands such as salivary glands and tear ducts. This disease can occur with RA and SLE.
- *Scleroderma.* A chronic autoimmune disease involving scar tissue build-up in tissues, such as the skin or, in more serious cases, muscles, blood vessels and internal organs.
- *Mixed Connective Tissue Disease (MCTD).* A chronic autoimmune disease having features of other ARDs, most commonly RA, SLE, Sjögren's and scleroderma.
- *Fibromyalgia.* A chronic condition characterized by wide-spread pain and tenderness to touch. Although not an autoimmune disease, this disease has been reported to occur in 25% of RA and SLE patients and 50% of Sjögren's patients.

Patients with these disorders often present with a common set of symptoms, which can include joint pain, fatigue, inflammation, stiffness and muscle aches, among others. Additionally, these patients may experience unpredictable periods of disease flares and disease inactivity, which can meaningfully change the patients' symptoms and how they present to the physician. The combination of overlapping symptoms and disease biology can lead these patients to cycle from physician to physician for months or even years before receiving a definitive diagnosis. Due to this, we believe physicians are in critical need of objective tests capable of differentially diagnosing these disorders, especially for more potentially life threatening ARDs, such as SLE.

The primary goal in the treatment of ARDs is suppressing disease activity in order to prevent tissue or bone destruction and/or organ damage. Powerful drugs that suppress the immune system are utilized to minimize the inflammatory process caused by autoantibodies. In RA, these drugs are referred to as Disease-Modifying Anti-Rheumatic Drugs, or DMARDs, because in clinical studies they have demonstrated the ability to change the

natural course of ARDs if utilized effectively. Optimization of DMARDs requires physicians to closely monitor disease activity on an ongoing basis and adjust exposure to active drug to achieve and maintain disease control. We believe drug monitoring tools allow for the personalization and optimization of biological DMARD therapy which will improve clinical and economic outcomes. DMARDs commonly used by rheumatologists to treat ARDs are:

- *Methotrexate (MTX)*—MTX is one of the most widely used drugs to treat RA. It is estimated that over one million patients annually are prescribed MTX in the United States and over 70% of RA patients receive this drug. Physicians typically start patients on MTX, but because approximately 40% of patients do not respond adequately, other DMARDs are often added. This variability in effectiveness of MTX can be caused by variable absorption, metabolism and excretion of the drug. Patient compliance may also be an issue with MTX.
- *Hydroxychloroquine (HCQ)*—HCQ is one of the most widely used drugs in SLE and RA. It is estimated that over 700,000 patients annually are prescribed HCQ therapy in the United States. HCQ is used in SLE to control disease activity or flares. HCQ is also regarded as a DMARD and is commonly used in combination with MTX to treat RA. Patient compliance issues with HCQ can lead to loss of disease control in both RA and SLE.
- *Anti-Tumor Necrosis Factor Alpha (Anti-TNF)*—Anti-TNF drugs are biological DMARDs and are regarded as one of the most effective classes of agents for the treatment of RA. In RA alone, it is estimated that over 250,000 patients in the United States are prescribed anti-TNF therapy annually. In most cases, anti-TNF drugs are used in combination with MTX. The most widely prescribed anti-TNF drugs are etanercept (marketed as Enbrel), adalimumab (marketed as Humira) and infliximab (marketed as Remicade). These treatments cost approximately $20,000 per patient per year.

Systemic Lupus Erythematosus

Overview

It is estimated that over one million people in the United States suffer from some form of lupus. SLE, the most common and serious form of lupus, is a chronic, inflammatory disorder that can damage any part of the body, including the skin, joints and internal organs. SLE varies in severity, from mild cases to those in which significant and potentially fatal damage occurs to vital organs such as the brain, heart, kidneys and lungs.

SLE is characterized by unpredictable, intermittent increases and decreases of disease activity, or flares, with a rise in symptoms and/or abnormal laboratory test values. The blood of a person afflicted with SLE contains autoantibodies, which are the cause of the inflammation and organ damage, and are one indicator of immune system abnormalities. Earlier diagnosis of SLE allows physicians to initiate the most appropriate therapy sooner in order to minimize organ damage, however, more than half of those afflicted with lupus waited at least four years, and saw three or more doctors, before obtaining a correct diagnosis, according to a Lupus Foundation of America survey. Patients with delayed or undiagnosed SLE will often continue to experience disease activity, potentially leading to irreversible tissue or organ damage. Conversely, patients incorrectly diagnosed with SLE may be unnecessarily prescribed potentially toxic and harmful medications, such as high dose corticosteroids, and often undergo unnecessary referrals and laboratory tests.

SLE is most common in women and usually develops during childbearing years, but men and children can also develop the disease. The cause of SLE is unknown and, while it is more common in people who have a first-degree relative with SLE, most cases of SLE occur episodically, indicating that both genetic and environmental factors may play a role in disease development.

Diagnosis

Diagnosing SLE is difficult due to the fluctuating nature of the disease and overlapping symptoms with other ARDs and fibromyalgia. Compounding this issue, the current immunological tests used to diagnose SLE

lack combined sensitivity and specificity. The ACR and the Systemic Lupus International Collaborating Clinics, or SLICC, have developed patient classification criteria for clinical trials that are used to support an SLE diagnosis. These criteria, which were created as a classification tool for clinical studies rather than a diagnostic tool, are difficult to apply in practice due to SLE symptoms that evolve, change, disappear and reappear over time. Many SLE patients do not meet the ACR criteria necessary for SLE classification at initial disease presentation and may not meet the criteria for months or even years.

Standard laboratory tests for diagnosing SLE include measuring immunological biomarkers, such as ANA or anti-dsDNA, and other autoantibody tests. ANA is a useful screening tool for ARDs in general, including SLE, and the vast majority of SLE patients test positive for ANA. However, the good sensitivity of ANA for SLE is counterbalanced by somewhat poor specificity. For instance, an analysis of serum samples from 4,754 people aged 12 or older in the National Health and Nutrition Examination Survey taken from 1999-2004 found that 13.8% of these patients tested positive for ANA. If this rate was applied generally to the U.S. population over the age of 12, an estimated 32 million Americans would test positive for ANA, but the vast majority of these individuals would not have SLE.

Patients who test positive for anti-dsDNA are likely to have SLE, as anti-dsDNA is relatively specific for that disease. However, most patients with SLE do not have a positive anti-dsDNA test result. Thus, the diagnosis of SLE can be missed if the physician is relying on the presence of a positive anti-dsDNA test. For instance, in our validation study for Avise SLE 2.0, the second generation of our integrated algorithmic test, 68% of patients with SLE tested negative for anti-dsDNA and would have not been diagnosed with SLE based on the anti-dsDNA test.

In a published study involving 476 patients, there was less than 50% agreement between the diagnosis of the referring physician and the final diagnosis by an autoimmune sub-specialist. In the study, 27% of patients referred by a rheumatologist with an initial diagnosis of SLE were found to be misdiagnosed. Moreover, 29% of the patients in the study with presumptive SLE diagnoses tested positive for ANA, but did not have an ARD. In addition, 39 patients who were positive for ANA but had no ARD were inappropriately treated with corticosteroids at doses as high as 60 mg per day. We believe the drawbacks with ANA and anti-dsDNA testing contribute to the diagnostic challenges faced by physicians in definitively diagnosing SLE.

Physicians also measure components of the complement system, including serum levels of C3 and C4, to help diagnose SLE and monitor SLE disease activity. In active SLE, C3 and C4 complement proteins are activated and broken down to fragments, known as complement activation products. Therefore, low levels of C3 and C4 suggest diagnosis of SLE and that the disease is active. However, variability in the levels of C3 and C4 can occur due to factors unrelated to SLE disease presence or disease activity, making them less reliable as biomarkers for SLE. For example, deficiencies of C4 may occur in SLE patients due to lower natural production of the C4 protein on a genetic basis, obscuring the impact of the disease on C4 levels. Furthermore, as with anti-dsDNA antibodies, many SLE patients have normal complement levels even when the disease is active. Although relatively specific for SLE, low complement levels can also be seen in certain chronic infections, including non-lupus related kidney inflammation, severe liver disease and other ARDs. Despite these shortcomings, in 2012 the SLICC added low C3 and low C4 as immunologic criteria for classifying SLE. The limitations of these tests for SLE diagnosis and the need for additional and better SLE biomarkers are generally recognized by the rheumatology community.

Treatment

Once diagnosed, treatment of SLE generally involves the use of antimalarials, corticosteroids, immunosuppressants, and newer biologic agents to prevent or suppress active disease or flares. During acute periods of more severe disease flares, physicians use corticosteroids at high doses to control the autoimmune response and inflammation. While often effective at controlling disease, long-term use of these powerful agents can have serious, wide-ranging and long-term adverse effects, such as diabetes, osteoporosis and high blood pressure. Due to the unpredictability of disease flares, there is a significant need for frequent monitoring of

disease activity to guide therapeutic choices and optimize drug effectiveness. Even in patients who are appropriately diagnosed, monitoring disease activity is imperfect because of the lack of accurate biomarkers.

Large biopharmaceutical companies are seeking to develop and commercialize new biologic therapies for SLE. In March 2011, the first new biologic drug targeting treatment of SLE in over 50 years, Benlysta, was approved by the U.S. Food and Drug Administration, or FDA. Additionally, five biologic therapies are currently in phase III clinical trials for SLE or Lupus Nephritis, a serious and common complication of SLE. We believe the significant investment made by the companies seeking to develop and commercialize these therapies will result in a dramatic increase in the awareness and understanding of SLE, and that our products and our strategy of focusing on the rheumatologist and ARDs will benefit from this increased awareness and understanding.

Due in part to the over and under diagnosis of SLE and the lack of tools to effectively monitor disease flares, treatment and management of SLE remains suboptimal. Patients misdiagnosed with SLE may be unnecessarily prescribed potentially toxic and harmful medications and often undergo unnecessary referrals and laboratory tests. In addition, patients with a delayed or missed diagnosis of SLE may continue to experience disease progression potentially leading to serious tissue or irreversible organ damage, such as renal failure or pulmonary fibrosis that could otherwise have been prevented with a prompt and correct initial diagnosis and treatment. Physicians and patients are in need of improved, objective testing solutions to help with the diagnosis, prognosis and monitoring of patients with SLE.

Our Solution

We are committed to providing physicians with products that address the significant unmet need for accurate and timely diagnosis, prognosis and monitoring of ARDs. We market three products under our Avise brand, which facilitate the accurate, timely and differential diagnosis and prognosis of certain ARDs and drug-level monitoring of one of the most widely prescribed pharmaceuticals in rheumatology. These tests are designed to seamlessly integrate with a rheumatologist's daily workflow and each of our tests are processed in our laboratory in California, which is certified under the Clinical Laboratory Improvement Amendments of 1988, or CLIA and accredited by the College of American Pathologists, or CAP.

Avise SLE+CT

Overview

Our lead product, which we market under our Avise SLE+CT brand, is a proprietary diagnostic test that provides an enhanced solution for patients presenting with symptoms indicative of a wide variety of ARDs such as SLE, RA, Sjögren's, scleroderma and other disorders with similar symptoms, such as fibromyalgia. Avise SLE+CT allows physicians to more accurately rule-in or rule-out SLE, and inform decisions about the presence of other ARDs. Differential diagnosis of these diseases is critically important because earlier diagnosis has been shown to improve patient outcomes. Once diagnosed, physicians can tailor therapy to a patient's specific disease and avoid the "trial and error" approach that often takes place when a definitive diagnosis cannot be made.

Avise SLE+CT is comprised of our proprietary Avise SLE solution and other established biomarkers to diagnose ARDs. Avise SLE is a ten-marker panel test that includes two biomarkers based on our CBCAPs technology, which we exclusively license from the University of Pittsburgh, and a proprietary algorithm to optimize its performance. CBCAPs, measured by flow cytometry, drive superior performance of our solution versus existing standards of diagnosis, including ANA and anti-dsDNA.

We launched Avise SLE in January 2012, following the completion of our CAPITAL study, which was published in *Arthritis and Rheumatism* in 2012. Avise SLE incorporated our CBCAPs technology with three existing autoantibodies, ANA, anti-dsDNA and anti-mutated citrullinated vimentin, or anti-MCV, to produce a proprietary five-marker SLE diagnostic with an enhanced ability to distinguish SLE from selected ARDs, such as RA.

In August 2012 we launched Avise SLE+CT, which added additional established autoantibodies for assisting in the diagnosis of a broader set of ARDs to our proprietary Avise SLE solution. We developed this offering to enhance the clinical utility of our test and respond to our customer's need for a more comprehensive solution to assist in differentially diagnosing ARDs.

We launched the second generation of our integrated algorithmic test, Avise SLE 2.0, in February 2014, by integrating five additional autoantibodies into the algorithm of Avise SLE, resulting in a ten-marker proprietary test. This test further improves the ability to distinguish SLE from other ARDs, including RA, scleroderma, Sjögren's and polymyositis/dermatomyositis. Similar to our previous version, we added a panel of autoantibodies to Avise SLE 2.0, including extractable nuclear antigens, anti-phospholipid syndrome, RA and thyroid autoantibodies. We market this improved second generation test as Avise SLE+CT 2.0.

Physicians are able to order our Avise SLE or our Avise SLE+CT solution. We believe physicians prefer our comprehensive panel to help diagnose a broader set of ARDs, as well as the associated convenience for patients of a single blood draw. This is evidenced by Avise SLE+CT representing over 89% of our currently-marketed Avise SLE diagnostic products ordered during the three months ended March 31, 2014.

Test Report

We provide the results of our Avise SLE diagnostic products to physicians typically within five business days following receipt from the physician of the blood draw from a patient. Our test's ability to provide accurate and timely information on a broad range of ARDs is convenient for both physicians and their patients.

The results are provided to physicians in an intuitive, easy to understand report. A sample of an Avise SLE+CT report is shown below:

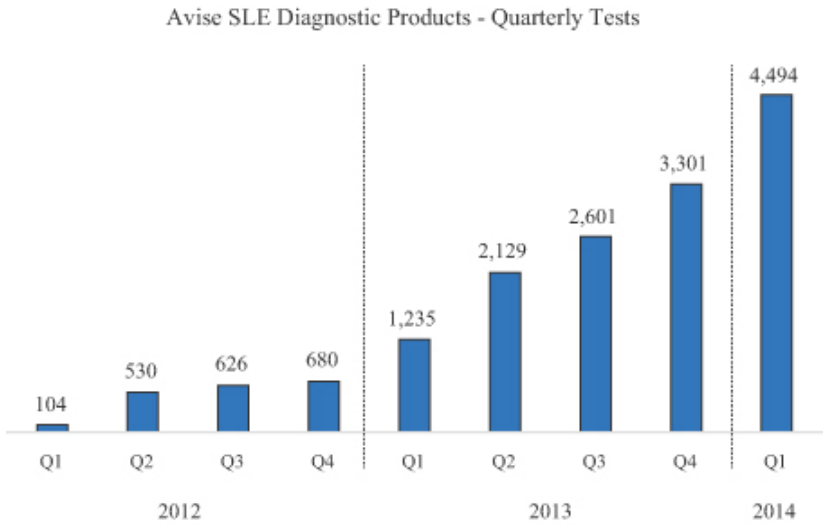
Commercial Performance

We have demonstrated significant growth in demand for our Avise SLE diagnostic products. For example, in the quarter ended March 31, 2014, our quarterly orders for our Avise SLE diagnostic products increased 36% over the prior quarter and 264% over the quarter ended March 31, 2013. We believe this strong demand is a reflection of the value proposition we are providing to our physician customers and represents the market need for an enhanced solution to differentially diagnose ARDs.

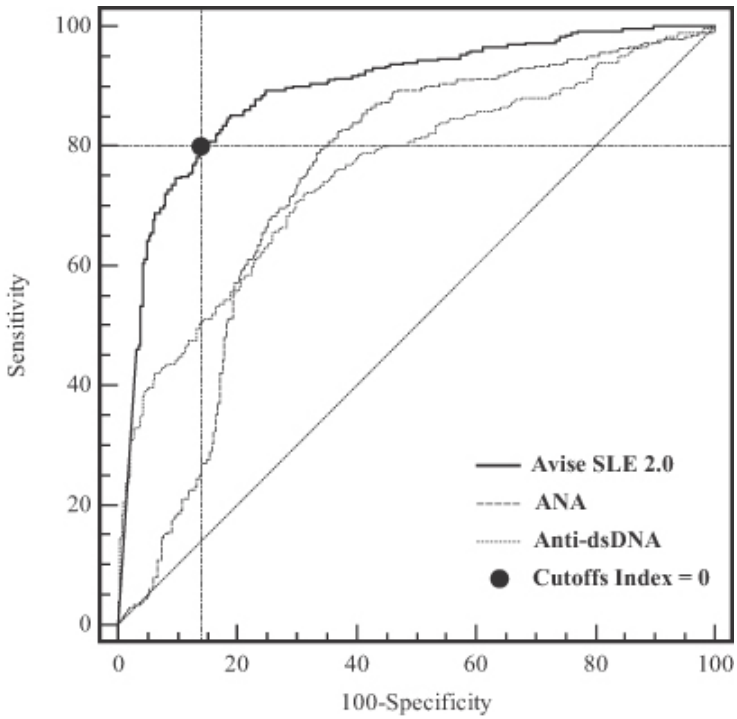


Clinical Validation

We validated Avise SLE 2.0 in a multi-center clinical study involving 794 subjects comprised of 304 SLE patients, 285 patients with other ARDs and fibromyalgia, and 205 normal healthy subjects from two cohorts. The study was conducted in collaboration with leading academic centers with expertise in SLE and other ARDs, including Albert Einstein College of Medicine, Northwestern University, North Shore-LIJ Health System and NYU College of Medicine, and the preliminary results were presented at the ACR annual conference in 2013. The primary endpoint of the study was the performance characteristics, specifically sensitivity and specificity, of Avise SLE 2.0 compared to common autoantibodies used to diagnose SLE and other ARDs, such as ANA and anti-dsDNA. The final results of this study showed that Avise SLE 2.0:

- demonstrated 86% specificity and 80% sensitivity in distinguishing SLE from other ARDs and fibromyalgia;
- was 33% more specific than ANA; and
- was 48% more sensitive than anti-dsDNA.

These data suggest that Avise SLE 2.0 ruled-in SLE effectively, allowing for greater confidence in diagnosing the disease. The superior performance of Avise SLE 2.0 over ANA and anti-dsDNA in this study is further demonstrated on the Receiver Operator Characteristic, or ROC, curve below. Each point on the ROC curve illustrates a possible combined sensitivity and specificity. The superior performance of Avise SLE 2.0 compared to ANA and anti-dsDNA alone is highlighted in the diagram below.



Ongoing Clinical Studies

As part of our ongoing efforts to further validate and establish Avise SLE 2.0 as the leading diagnostic solution for ARDs, we have initiated additional studies that will expand the clinical utility of our solution. For example, we are collaborating with Columbia University on a study to further support the clinical utility of CBCAPs for the diagnosis of SLE. We are also conducting a study with a leading fibromyalgia expert to further establish the clinical utility of Avise SLE 2.0 in distinguishing SLE from fibromyalgia, a common affliction with overlapping symptoms to ARDs.

Avise SLE Prognostic

Avise SLE Prognostic, which was launched in June 2014, is a blood test that complements Avise SLE+CT by providing results which inform the prognosis of SLE patients and provide physicians with more information to tailor treatment for their patients. This test is a ten-marker panel of autoantibodies that have established predictive value for assessing the potential for complications affecting the kidney, brain and cardiovascular system, including lupus nephritis, lupus psychosis, and thrombosis or blood clots. When physicians are ordering Avise SLE+CT, they can also request that we perform our Avise SLE Prognostic test if the initial Avise SLE+CT result suggests that the patient has SLE. This provides additional convenience for ordering physicians and their patients.

Avise MTX

Avise MTX is the first therapeutic drug monitoring test to precisely measure levels of MTXPG, the active form of MTX in the patient's blood. MTX is a first-line therapy for RA, and Avise MTX can allow physicians to personalize therapy by targeting the appropriate dose to individual patients. There is large variability in the way patients absorb and metabolize MTX, and several studies have shown that low levels of MTXPG in the blood correlate with a lower response to MTX therapy. Avise MTX provides crucial information as to whether a patient has achieved MTXPG blood levels consistent with an appropriate response to MTX, also known as the therapeutic level, or if the MTXPG levels are too low to produce adequate effects, which is known as the sub therapeutic level. The physician can then adjust MTX dosing as necessary to maximize the benefit of MTX therapy.

The clinical validity and utility of Avise MTX has been established in numerous independent studies. In a pivotal study published in peer-reviewed medical journals and sponsored by Prometheus Laboratories, our licensor and the original developer of the MTXPG technology, 258 patients with RA were treated with MTX. The study demonstrated that patients who achieved MTXPG levels above 60 nanomoles per liter of red blood cells were five times more likely to respond adequately to MTX than patients who presented with MTXPG levels below 60 nanomoles per liter. Two other independent studies enrolling 500 patients in the aggregate also demonstrated the validity of MTXPG measurement as a drug monitoring solution in RA.

Our Pipeline

We are focused on delivering meaningful solutions to aid rheumatologists and other physicians in the diagnosis of patients with ARDs and providing physicians with additional tools to determine the most appropriate therapy over time to improve patient care. Our pipeline includes solutions that differentially diagnose ARDs, provide prognosis of ARDs and monitor disease activity and active drug levels.

Our near-term pipeline is highlighted below:

Test	Description	Category	Status	Estimated Launch
AVISE HCQ	Measures HCQ drug level	Drug Monitoring	Validation	2H 2014
AVISE™ Anti-TNF	Measures anti-TNF active drug level and drug neutralizing antibody activity levels	Drug Monitoring	Validation	1H 2015
AVISE™ SLE Monitoring	Measures SLE disease activity	Disease Monitoring	Validation	1H 2016
AVISE™ RA	Determines potential risk for bone damage or joint erosion/diagnosis of RA	Prognostic/ Diagnostic	Validation	2016

Avise HCQ

Avise HCQ is a blood test to help physicians objectively monitor blood levels of HCQ as they treat patients with SLE and other ARDs, including RA. HCQ is typically prescribed daily to patients to control ARD activity and prevent flares. However, there is a large variability in the response to HCQ therapy, and patients can be poorly compliant. In order to optimize HCQ therapy, it is crucial to determine if the patient is taking the drug as prescribed, and also to determine whether the blood levels are adequate and consistent with clinical efficacy. By measuring HCQ concentration in the blood, we believe that Avise HCQ will help physicians optimize HCQ therapy, identify noncompliant patients and identify patients that are not absorbing the drug adequately.

We plan to launch our Avise HCQ drug monitoring solution by the end of 2014. By offering Avise HCQ along with our currently marketed Avise MTX test, we will address two of the drugs most commonly prescribed by the rheumatologist.

We are collaborating with leading academic centers, including Johns Hopkins University, to conduct a clinical study to generate support for the utility of our test. This study, which is expected to enroll 50 subjects, is designed to evaluate the value of monitoring MTXPG and HCQ in the treatment of patients with SLE. The HCQ assay performance characteristics are supported by multiple peer-reviewed medical journals, which established that HCQ levels in the blood correlate with disease control in SLE and RA.

Avise Anti-TNF

Avise Anti-TNF is a blood test to help physicians monitor the levels of anti-TNF bioactivity in patients with RA. Many patients with RA are treated with monoclonal antibodies that selectively inhibit the proinflammatory cytokine tumor necrosis factor a, or TNF-a. Anti-TNF biologics are estimated to generate more than $5 billion in annual sales in the United States for RA and are used in an estimated 250,000 RA patients. However, approximately 30% of patients either do not respond at all or have insufficient responses to these therapies. The lack of response is due to refractoriness to the mechanism of action of the drug itself, referred to as TNF blockade, or the development of drug neutralizing antibodies. Due to this, rheumatologists are in need of a solution to precisely identify the cause of non-response to anti-TNF therapy. We believe Avise Anti-TNF can provide crucial information to help physicians determine when to adjust the anti-TNF dose or switch to a different drug.

We anticipate launching Avise Anti-TNF in the first half of 2015 to monitor infliximab, etanercept and adalimumab, the three most utilized anti-TNF drugs. We intend to expand the application of Avise Anti-TNF to include the other two currently commercialized anti-TNFs, certolizumab and golimumab. We believe that we will provide additional value to the rheumatologist by offering our Avise Anti-TNF along with our currently marketed Avise MTX test because MTX, which is commonly prescribed with anti-TNF, is effective at improving anti-TNF efficacy.

Avise Anti-TNF incorporates iLite technology, the only commercially available cell-based assay that measures anti-TNF levels and drug neutralizing antibodies. Avise Anti-TNF uses TNF-a-sensitive cells in a bioassay that measures TNFa activity. The key advantage of the iLite technology compared to other currently available anti-TNF monitoring tests is that it measures functional levels of anti-TNF. In addition, the iLite technology determines the presence of antidrug antibodies. The FDA has released guidance indicating that cell-based assays are the preferred technology platform for determining immunogenicity for therapeutic proteins. The iLite technology is currently available in certain European countries through Biomonitor A/S, and has received a CE mark. We have a distribution agreement with Biomonitor that allows us to sell and market the iLite technology in the United States.

Avise SLE Monitoring

Avise SLE Monitoring is a multi-analyte panel blood test to help physicians track the disease status of their SLE patients. SLE is characterized by the emergence of disease flares that may result in serious and irreversible damage to organs, including kidneys, lungs and brain. As such, rheumatologists and their patients are in need of methods that can help monitor disease activity. We believe rheumatologists are in need of better monitoring solutions for their SLE patients and that the lack of validated disease activity biomarkers in SLE is a major hurdle to improving long term outcomes.

We intend to launch Avise SLE Monitoring in the first half of 2016. We believe that our test will facilitate the monitoring of SLE disease activity and provide the rheumatologists with actionable tools to improve therapy and patient outcomes.

We are conducting two studies to evaluate our proprietary CBCAPs technology to monitor SLE disease activity. Participating institutions include Albert Einstein College of Medicine, Northwestern University, North Shore-LIJ Health System, NYU College of Medicine and Oklahoma Medical Research Foundation.

Avise RA

Avise RA is a blood test to determine if a patient is at risk of bone damage or joint erosion. We expect that this test will also be helpful in diagnosing RA, which impacts over one million adults in the United States.

One of the major complications of RA is the development of bone damage or joint erosion that leads to severe disability and poor quality of life for the patient. The ACR guidelines have established disease remission

and/or minimal disease activity as the clinical goals of therapy. Achieving these goals requires early diagnosis and effective therapy. We believe that rheumatologists are in need of solutions to better diagnose and identify the patients having a high likelihood of rapid disease progression.

Avise RA is a combination of our proprietary anti-mutated citrullinated vimentin, or anti-MCV, technology, which is licensed to us for the United States and Mexico, and other well-established autoantibodies having prognostic and diagnostic value in RA, including anti-cyclic citrullinated peptide, or CCP, and rheumatoid factors, or RF. Several peer-reviewed medical journals have published studies supporting the strong predictive value of anti-MCV for the development of bone damage and joint erosion in patients with RA. For example, in a study of 238 patients followed longitudinally for 10 years, a patient with a positive anti-MCV test was 7.3 times more likely to present with progressive bone damage than a patient with a negative anti-MCV test. In contrast, a patient with a positive anti-CCP antibody test, the standard of care test, was 5.7 times more likely to present with progressive bone damage than a patient with a negative anti-CCP antibody test.

Additionally, not all RA patients test positive for autoantibodies commonly ordered to assist in diagnosing RA, such as RF and CCP. RF may be found in as few as 30% of patients with early RA, while 30-40% of RA patients have no detectable anti-CCP. Such patients are referred to as sero-negative patients and represent a group of patients that can be missed for RA diagnosis. We believe that our solution containing anti-MCV will assist the physician in the diagnosis of these sero-negative patients. We intend to launch Avise RA in 2016.

Sales and Marketing

We target the approximately 3,500 community rheumatologists in the United States. We launched Avise SLE in January 2012 with a nine-person sales force. In the fourth quarter of 2013, we began the expansion of our sales team to approximately 30 sales professionals. This expansion was mostly completed by the end of the first quarter of 2014. These sales professionals generally have experience in healthcare sales with backgrounds in rheumatology, therapeutics, and/or laboratory services. Our sales professionals are divided into three regions and are led by three dedicated regional directors.

Our sales force has a focused approach that emphasizes execution in three core areas:

- *Targeting*. We utilize market analytics, demographic data and pharmaceutical and historical diagnostic test usage to create the most effective territories for us to target community rheumatologists.
- *Messaging.* We emphasize increased accuracy over current standard of care methodologies, which is achieved through the proprietary components of our Avise products. In addition, we offer timely results along with the convenience of one blood draw and a transportation kit that we provide to customers.
- *Frequency.* We execute a high-frequency calling strategy for key physician targets and their office personnel. We believe that repetition builds knowledge, understanding and retention of the benefits of our Avise product suite.

We employ multi-faceted marketing programs to educate and inform physicians, patients and other key stakeholders of the value of our solutions in order to facilitate adoption. We primarily achieve this through advertising, promotion, social media, working with key opinion leaders at national and regional clinical conventions focused on ARDs and continuing medical education programs. In these settings, academic and community physicians can educate their peers on the benefits of Avise products and provide personal testimony of the value they have received from using our Avise products. We participate with patient advocacy organizations, such as the Lupus Foundation of America, and medical societies, such as the ACR, directly through support of their meetings, medical conferences, and direct educational efforts. Finally, our website provides educational material for healthcare professionals, payers and patients. We intend to expand the scale and scope of our marketing programs to target internet marketing, patient awareness and educational programs.

In addition, we have a centralized, dedicated client services department that augments our sales force and marketing activity by providing personalized customer support.

Our sales strategy is focused on achieving sustainable long-term growth of our market share for products addressing ARDs. Specifically, we intend to grow our market share by:

- increasing the number of physicians that order our tests;
- increasing the number of tests ordered by each physician; and
- increasing the number of products offered to each physician.

Reimbursement

Reimbursement for our testing services comes from several sources, including commercial third-party payers, government payers and patients. We bill for testing procedures using common Current Procedural Terminology, or CPT, codes that describe the procedures performed in the lab for our Avise SLE diagnostic products, Avise SLE Prognostic, and Avise MTX. We have received a positive Local Coverage Determination for Avise MTX from Palmetto GBA, the then-Medicare contractor for California, which became effective in April 2012. In 2014, we have received payments from major payer organizations such as Aetna, Anthem Blue Cross/Blue Shield, Blue Shield, Cigna, Managed Medicaid, Medicare, Medicare Advantage and United Healthcare, along with additional commercial carriers and patients.

The Protecting Access to Medicare Act of 2014, or PAMA, which was signed into law on April 1, 2014, significantly alters the current payment methodology under the Medicare Clinical Laboratory Fee Schedule, or CLFS. Under PAMA, beginning January 1, 2016, clinical laboratories must report laboratory test payment data for each Medicare-covered clinical diagnostic lab test that it furnishes during a time period to be defined by future regulations. The reported data must include the payment rate (reflecting all discounts, rebates, coupons and other price concessions) and the volume of each test that was paid by each private payer (including health insurance issuers, group health plans, Medicare Advantage plans and Medicaid managed care organizations). Beginning in 2017, the Medicare payment rate for each clinical diagnostic lab test will be equal to the weighted median amount for the test from the most recent data collection period. Although it is too early to predict the impact on reimbursement for our Avise products, we expect reimbursement rates to be relatively stable through January 1, 2017 when implementation of the market-based payment system and separate recognition of advanced diagnostic tests goes into effect. We anticipate that the implementation of the advanced diagnostic laboratory test category under PAMA may allow for our primary product, Avise SLE, to realize additional reimbursement based on the proprietary nature of the test’s unique CBCAPs markers and testing algorithm.

We employ a multi-pronged strategy designed to achieve broad coverage and reimbursement for our Avise brands. The key elements of our strategy for Avise SLE, which we also intend to pursue for our other products, include:

- *Demonstrated Product Demand.* We intend to facilitate interactions between the expanding base of providers using the test and the payer community to raise payer awareness of the clinical benefits of Avise SLE. Orders of Avise SLE increased by 378% from 2012 to 2013. In addition, the number of new ordering providers increased by 244% from 2012 to 2013. These trends, along with the high retention rate of frequent users, demonstrate substantial momentum in the growing demand for this test.
- *Demonstrated Product Performance.* We have conducted clinical studies to help demonstrate the ability of Avise SLE to meet or exceed performance of established testing in the area of ARD diagnosis, which we believe is important to establishing positive coverage decisions. For example, we conducted a multi-center study which enrolled 794 subjects with a primary endpoint that consisted of performance characteristics, specifically sensitivity and specificity, of Avise SLE compared to common autoantibodies used to diagnose SLE and other ARDs, such as ANA and anti-dsDNA. The

results of this study showed that Avise SLE demonstrated 86% specificity and 80% sensitivity in distinguishing SLE from other ARDs, was 33% more specific than ANA and was 48% more sensitive than anti-dsDNA.

- *Expanding our Clinical Data Package.* Clinical validation of Avise SLE was demonstrated through a collaborative effort with multiple centers of excellence specializing in ARDs. We believe that our continued collaborative efforts with key opinion leaders and ARD centers of excellence to further expand our clinical utility data which we intend to publish in peer-reviewed medical journals to support potential inclusion in clinical guidelines and help drive payer coverage and reimbursement. We believe that inclusion of Avise SLE into clinical guidelines will help to establish us as a standard of care for the diagnosis of patients with ARDs.
- *Execution of an Internal Managed Care Policy and Claims Adjudication Function.* We believe that obtaining adequate and widespread coverage and reimbursement is a critical factor to our success. We employ a team of revenue assurance professionals that collaborate with our contracted billing provider to work with payers to maximize reimbursement. In parallel, a managed care director collaborates with our reimbursement specialists to ensure our payer outreach strategy reacts to and anticipates the changing needs of our customer base. Our customer service team is an integral part of our reimbursement strategy, working with patients and physician practices to effectively navigate the claims process.

Our Technology

Our proprietary technology platform determines the blood levels of complement pathway components stably deposited on cells known as Cell Bound Complement Activation Products, or CBCAPs.

The complement pathway is an important part of the immune system and refers to a complex network of over 30 soluble and membrane bound proteins that interact in a highly regulated manner to provide many of the effector functions of immunity and inflammation. The integrity of the complement system is critically important for preventing infections and the development of autoimmune diseases, including SLE. Once activated, the proteins within the complement system perform various functions, including the eradication of pathogens, such as bacteria and fungi, and also the effective removal of cellular debris and immune complexes from the blood. Additionally, the activation of the complement system releases proteins that mediate inflammation, which is observed in a variety of diseases beyond ARDs, including Alzheimer’s disease, asthma, Crohn’s disease and macular degeneration.

The determination of complement proteins in a patient’s blood is a mainstay in clinical laboratory science, and state-of-the-art methods traditionally rely on measurement of serum or plasma levels of soluble complements. C3 and C4 are the most commonly determined complement proteins in the blood and the precursors to activation of complement proteins into biologically active breakdown products. However, there are limitations with measuring C3 and/or C4 blood levels as indicators of complement activation. For example, increased synthesis of C3 and C4 by the liver can offset increased C3 and C4 breakdown during activation of the complement cascade, resulting in no change in serum levels. Conversely, genetic alteration in C4 genes can result in abnormally low serum/plasma levels of C4 due to lack of synthetic capacity that can be misinterpreted as being due to increased C4 consumption during complement activation.

The limitations and drawbacks of measuring standard components of the complement system, such as C3 and C4, are well recognized by the medical community. We believe the availability of novel complement biomarkers supporting or replacing standard C3 and C4 measures will be of great value for the clinicians and ultimately their patients. Our CBCAPs technology, which we exclusively license from the University of Pittsburgh, is the result of a decade of extensive research and development conducted in academia and has the potential to fulfill the unmet need for better biomarkers assessing complement system’s function and role in health and disease. The technology directly measures protein products of complement activation, such as C3d, the product of C3 activation, and C4d, the product of C4 activation. These complement activation products

become stably attached to surfaces of circulating blood cells to become CBCAPs. For example, the deposition of the C4d fragment to erythrocytes forms erythrocyte C4d, or EC4d. Similarly, the deposition of C4d fragment on B lymphocytes forms BC4d. As such, the determination of CBCAPs in the blood provides the following benefits when compared to the traditional complement measurement:

- accurate and unequivocal information of complement activation that has occurred in a given patient;
- stable biomarkers of complement activation enabling accurate and consistent measurement after collection and transportation; and
- better ability to assess and monitor changes in biological activity related to activation of the complement system.

CBCAPs are determined using blood collected from the patient by standard venipuncture in collection tubes and shipped overnight to our central laboratory for processing. Because of their stability, we were able to demonstrate that this transportation process does not impair our ability to accurately measure CBCAPs levels. The process in our clinical laboratory consists of the isolation of the cells (e.g. erythrocytes and B-lymphocytes) using techniques such as centrifugation or lysis, followed by their incubation and processing with a combination of antibodies that specifically label the CBCAPs with a light emitting compound detectable by fluorescence assisted cell sorting, or FACS. The instrument used to detect these labeled CBCAPs is a flow cytometer, which readily measures the fluorescence signal (expressed as mean fluorescence intensity, or MFI) and thus, the level of CBCAPs.

We believe our differentiated CBCAPs technology can be used to more effectively diagnose, prognose and monitor patients with certain inflammatory diseases, including autoimmune, hematologic, vascular, or infectious diseases. For example, CBCAPs such as EC4d and BC4d are significantly higher in patients with SLE compared to patients with other ARDs and, as such, forms the basis of the diagnostic value of our Avise SLE diagnostic products. The table below highlights several published clinical studies demonstrating the higher CBCAPs level in patients with SLE compared to other ARDs. For example, in the Kalunian study, BC4d levels were 3.1 times higher (110.4 versus 34.9 units) in SLE than in patients with other ARDs and 4.7 fold higher than normal subjects (110.4 vs 23.5 units).

While we are currently focusing our CBCAPs technology on differentially diagnosing SLE (as part of our Avise SLE diagnostic products), this technology has potential applications in many of the disease states in which the complement system plays a role. In addition to expanding application in ARDs, such as monitoring for disease activity in SLE, we believe that CBCAPs has the potential to be relevant in broader indications, such as monitoring complications in organ transplantation, pregnancy and vascular disease.

Research and Development

Our research and development efforts are focused on developing novel solutions for rheumatologists and enhancing our current product offering. Additionally, we believe there is significant potential to capitalize on our CBCAPs and iLite technology platforms and integrate them with commercially available markers to create high-value tests with superior clinical utility. We intend to continue to establish the value of our Avise products, as well as introduce new and improved versions of these tests. For example, in February 2014 we added extractable nuclear antigens to our Avise SLE test to improve the ability of the test to distinguish SLE from other ARDs, such as Sjögren's, scleroderma and polymyositis/dermatomyositis. Furthermore, we believe our bio-repository of well-characterized specimens, collected in collaboration with leading academic institutions, will help us to further validate our Avise products.

We have an extensive track record of accomplishments in all phases of research and development, including:

- *Expertise in Assay Development, Validation, and Technology Transfer*. Our team of scientists has extensive experience and demonstrated ability with the development of analytical techniques in the areas of drug monitoring, cellular immunology, immunoassays and molecular diagnostics. We also have expertise with the validation of analytical assays and the establishment of performance characteristics satisfying the standard requirement from regulatory bodies including CAP. Our analytical techniques have been subjected to rigorous review from the New York State Department of Health, or NYDOH, and are marketed as laboratory developed tests, or LDTs. We are also continuously improving the performance characteristics of our assays, enhancing throughput and robustness.
- *Expertise with the Clinical Development and Validation of Multivariate Index Assays/Algorithms.* Our clinical development and validation team has extensive knowledge and a track record in the clinical development of a wide range of complex tests, including large, well-designed clinical trial in collaboration with leading academic institutions. We have also been successful in publishing the results of our clinical validation studies in peer-reviewed medical journals.

Laboratory Operations

We perform all of our Avise tests in our 8,500 square foot CLIA-certified, CAP accredited laboratory located in Vista, California. Our laboratory is certified for performance of high-complexity testing by the Centers for Medicare and Medicaid Services, or CMS, in accordance with CLIA.

When a physician orders an Avise test, the physician or physician's staff completes a test requisition. A blood draw is performed on the patient, and the specimens is placed in a temperature-controlled transportation kit provided by us. The specimens is sent to our laboratory via commercial overnight shipment. Upon receipt, we examine each specimens for integrity. We label each specimens with a unique identifier and pertinent information is entered into our laboratory information system, or LIS. The labeled specimens is then delivered to the flow cytometry and special chemistry laboratory for processing. The results are entered into the LIS and reviewed by a technical supervisor who ensures they conform to specifications. Following this, the LIS generates a test report, which is reviewed and approved by the laboratory director and is then delivered to the physician. Reports for our Avise tests are typically delivered to the physician in less than five business days following the receipt of the sample. Despite significant increases in the volume of tests we have performed in recent quarters, we have maintained our ability to provide timely results to our physician customers.

We intend to continue to increase automation, enhance our information systems and optimize our workflows to enhance and improve the efficiency of our processes.

Quality Assurance

Our quality assurance function oversees the quality of our laboratory as well as research and development, client services, billing, sales and marketing operations. We have established oversight for systems

implementation and maintenance procedures, document control processes, supplier qualification, preventive or corrective actions, and employee training processes that we believe achieves excellence in operations. We continuously monitor and improve our processes and procedures and believe this high quality service leads to customer satisfaction and retention.

Competition

We believe the principal competitive factors in our target market include:

- quality and strength of clinical and analytical validation data;
- confidence in diagnostic results;
- sales and marketing capabilities;
- the extent of reimbursement;
- inclusion in practice guidelines;
- cost-effectiveness; and
- ease of use.

We believe we compete favorably on the factors described above.

Our principal competition for our Avise products comes from traditional methods used by physicians to test patients with rheumatic disease-like symptoms. Such traditional methods include testing for a broad range of diagnostic, immunology and chemistry markers, such as ANA and anti-dsDNA, and serum complement, such as C3 and C4. We also face competition from commercial laboratories, such as Laboratory Corporation of America Holdings, Quest Diagnostics Incorporated, ARUP Laboratories, Inc. and Mayo Clinic, all of which have strong infrastructures to support the commercialization of diagnostic services. Large, multispecialty group medical clinics, health systems and academic medical university-based clinics may provide in-house clinical laboratories offering autoimmune rheumatic testing services. Additionally, we compete against regional clinical laboratories providing testing in the autoimmune rheumatic field, including Rheumatology Diagnostics Laboratories, Inc. Other potential competitors include companies that might develop diagnostic or disease or drug monitoring products, such as Myriad Genetics, Inc. In the future, we may also face competition from companies developing new products or technologies.

Many of our potential competitors have widespread brand recognition and substantially greater financial, technical and research and development resources and selling and marketing capabilities than we do. Others may develop products with prices lower than ours that could be viewed by physicians and payers as functionally equivalent to our solution, or offer solutions at prices designed to promote market penetration, which could force us to lower the list price of our products and affect our ability to achieve profitability. If we are unable to change clinical practice in a meaningful way or compete successfully against current and future competitors, we may be unable to increase market acceptance and sales of our products, which could prevent us from increasing our revenue or achieving profitability and could cause the market price of our common stock to decline.

Intellectual Property Overview

We strive to protect and enhance the proprietary technologies that we believe are important to our business and seek to obtain and maintain patents for any patentable aspects of our diagnostic products and services and any other inventions that are important to the development of our business. Our success will depend on our ability to obtain and maintain patent and other proprietary protection for commercially important technology, inventions and know-how related to our business, to defend and enforce our patents, to maintain our licenses to use intellectual property owned by third parties, to preserve the confidentiality of our trade secrets and to operate without infringing the valid and enforceable patents and other proprietary rights of third parties. We also rely on

continuing technological innovation and in-licensing opportunities to develop, strengthen, and maintain our proprietary position in the fields targeted by our diagnostic products and services.

We are the owner or licensee of a portfolio of patents and patent applications and possess substantial know-how and trade secrets which protect various aspects of our business. The patent families comprising our patent portfolio are primarily focused on our Avise products for the diagnosis and use in treatment of ARDs, and are generally directed to CBCAPs, red blood cell MTXPG exposure assessments, and anti-MCV antibodies. We intend to leverage the intellectual property surrounding our Avise products as an important component of our business strategy.

Patent Term

The term of individual patents and patent applications listed below will depend upon the legal term of the patents in the countries in which they are obtained. In most countries, the patent term is 20 years from the date of filing of the patent application (or parent application, if applicable). For example, if an international Patent Cooperation Treaty, or PCT, application is filed, any patent issuing from the PCT application in a specific country will expire 20 years from the filing date of the PCT application. In the United States, however, if a patent was in force on June 8, 1995, or issued on an application that was filed before June 8, 1995, that patent will have a term that is the greater of 20 years from the filing date, or 17 years from the date of issue.

Patent Protection for our Avise Products

Our portfolio of patents and patent applications related to our Avise products generally relates to three aspects: CBCAPs, red blood cell MTXPG exposure assessments, and anti-MCV antibodies. The patent families which we believe are important for the protection of Avise are summarized below in the section entitled "—License Agreements."

- *Cell Bound Complement Activation Products and Services (CBCAPs)*. We are the exclusive licensee of five patent families related to CBCAPs technology from the University of Pittsburgh. We expect that these patent families (U.S. Patent Nos. 7,361,517; 7,390,631; 7,585,640; 7,588,905; 8,080,382; and 8,126,654) will expire in 2024 or 2025. A foreign patent corresponding to U.S. Patent No. 7,361,517 has issued in Europe (EP 1,756,571). Foreign patents corresponding to U.S. Patent No. 7,390,631 have issued in Japan (JP 4570872 and JP 4906898). Foreign patents corresponding to U.S. Patent No. 7,585,640 have issued in Australia (AU 2005242719) and Canada (CA 2,564,492). A foreign patent corresponding to U.S. Patent Nos. 7,588,905 and 8,126,654 has issued in Japan (JP 45500051). We also own two pending patent application families that relate to our Avise SLE diagnostic products. In order to manage our foreign filing costs and focus on the U.S. market, we made the decision to cease the prosecution and maintenance of several of our foreign patents and patent applications related to our CBCAPs technology, including EP 1,432,731; EP 1,618,379; EP 1,635,692; EP 1,745,287; EP 2,214,014; EP 2,216,650, and certain of their corresponding family members**.**
- *Methotrexate (MTX) Exposure Assessment Products and Services*. We are the exclusive licensee of four patents and one pending patent application that relate to our Avise MTX product line and methods for monitoring MTX therapy using red blood cell MTXPG exposure assessments. These patents and patent application are owned by Prometheus Laboratories and are exclusively licensed to us for all uses except for use in gastrointestinal diseases. These patents include U.S. Patent Nos. 6,921,667; 7,563,590; 7,582,282 and 7,695,908, which are expected to expire between 2023 and 2027. We also own two pending U.S. patent applications and are the exclusive licensee of two pending patent applications that relate to our Avise MTX product.
- *Anti-mutated Citrullinated Vimentin (anti-MCV) Antibodies and Related Services.* We are the exclusive licensee of a patent family related to anti-MCV, an autoantibody having diagnostic and prognostic value in RA. This family, owned by Orgentec Diagnostika, includes a pending U.S. patent application.

Proprietary Rights and Processes

We may rely, in some circumstances, on proprietary technology and processes (including trade secrets) to protect our technology. However, these can be difficult to protect. We seek to protect our proprietary technology and processes, in part, by entering into confidentiality agreements with those who have access to our confidential information, including our employees, consultants, scientific advisors and contractors. We also seek to preserve the integrity and confidentiality of our proprietary technology and processes by maintaining physical security of our premises and physical and electronic security of our information technology systems. While we have confidence in these individuals, organizations and systems, agreements or security measures may be breached, and we may not have adequate remedies for any such breach. In addition, our proprietary technology and processes may otherwise become known or be independently discovered by competitors. To the extent that our employees, consultants, scientific advisors, contractors, or any future collaborators use intellectual property owned by others in their work for us, disputes may arise as to the rights in related or resulting know-how and inventions. For this and more comprehensive risks related to our proprietary technology and processes, please see “Risk Factors—Risks Related to our Intellectual Property.”

Trademarks

We own the registered trademarks “Avise,” “Avise PG,” “Avise MCV” and “Avise SLE,” in the United States for use in connection with our diagnostic products, namely, our Avise SLE diagnostic products, Avise SLE Prognostic, and Avise MTX. We intend to pursue additional registrations in markets outside the United States where we plan to sell our Avise products.

License Agreements

Amended and Restated Exclusive License Agreement with the University of Pittsburgh

In August 2011, we entered into an amended and restated exclusive license agreement with the University of Pittsburgh, or UPitt, to amend and restate the exclusive license agreement we obtained by our purchase of the medical diagnostics division of Cypress Bioscience, Inc., or Cypress, in 2010, or the Cypress Purchase, and to obtain an exclusive license to UPitt’s patent rights in certain inventions, or the UPitt Patent Rights, related to the use of CBCAPs technology in the diagnosis, prognosis and monitoring of diseases, including certain patents related to our Avise SLE diagnostic products. The agreement was amended twice, once in May 2012 to, among other things, limit the territory of the license to the United States and exclude certain foreign patents and applications from the agreement, and once in September 2013 to add (1) an additional U.S. patent to the UPitt Patent Rights licensed under the agreement and (2) the field of monitoring of organ transplantation and organ rejection to the scope of the license.

Under the agreement, we are permitted to make, use and sell products and services utilizing the UPitt Patent Rights in the field of SLE and the field of monitoring of organ transplantation and organ rejection, and to sublicense such rights. UPitt retained the right to practice under the UPitt Patent Rights and to use such rights for non-commercial education and research purposes. In addition, this agreement is subject to the rights of the United States government, if any, as set forth in 35 U.S.C. §200, et seq. Pursuant to this law, the U.S. government may have acquired a nonexclusive, nontransferable, paid up license to practice or have practiced for or on behalf of the U.S. government the inventions described in the UPitt Patent Rights throughout the world.

In consideration for the rights granted to us under the agreement, we made certain upfront payments to UPitt on the first and second anniversaries of the agreement, which payments increased and will continue on the third and subsequent anniversaries of the agreement until the first sale of products or services utilizing the UPitt Patent Rights. We are required to pay UPitt a low single-digit royalty on net sales of products or services utilizing the UPitt Patent Rights sold by us or our affiliates, subject to minimum annual royalty payments and other adjustment in certain circumstances. We are also required to make a certain sales milestone payment to UPitt

each calendar year, depending on net sales. Our royalty obligations continue for each licensed product or service on a country-by-country basis until the expiration of the last licensed patent covering the applicable licensed product or service in such country.

In the event we sublicense any of the UPitt Patent Rights, we are obligated to pay UPitt a low single-digit percentage sublicense royalty on net sales of products or services sold by our sublicensees that utilize the sublicensed UPitt Patent Rights and a low double-digit percentage of all non-royalty sublicensing income received by us.

The agreement requires that we diligently develop and commercialize products that are covered by the UPitt Patent Rights, and we have agreed to meet certain development and commercial milestones. UPitt may terminate the agreement if we fail to meet such milestones. In addition, if we fail to meet a milestone relating to development of the UPitt Patent Rights in the monitoring of organ transplantation and organ rejection field, UPitt may remove that field from our licensed rights. We are currently in compliance with these milestone requirements.

We may terminate the agreement upon six months' written notice to UPitt. UPitt may terminate the agreement in the event of our nonperformance of any of our obligations under the agreement if such nonperformance remains uncured for a certain period of time following our receipt of written notice of such nonperformance or in the event of our insolvency. Absent early termination, the agreement will continue until the expiration date of the longest-lived patent right included in the UPitt Patent Rights.

Exclusive License Agreement with the University of Pittsburgh

We made an economic decision to cease the maintenance and licensing of certain of the UPitt Patent Rights, which led to such rights returning to UPitt. We subsequently made the determination to re-license these patents from UPitt, but at the time of re-licensing these patents, a number of the patents had lapsed. Accordingly, in September 2013, we entered into an exclusive license agreement with UPitt to obtain an exclusive license to UPitt's ex-U.S. patent rights in certain inventions, or the ex-U.S. UPitt Patent Rights, related to the use of CBCAPs technology in the diagnosis, prognosis and monitoring of diseases, including certain patents related to our Avise SLE diagnostic products.

Under the agreement, we are permitted to make, use and sell products and services utilizing the ex-U.S. UPitt Patent Rights in the field of SLE and the field of monitoring of organ transplantation and organ rejection outside of the United States, and to sublicense such rights. UPitt retained the right to practice under the ex-U.S. UPitt Patent Rights and to use such rights for non-commercial education and research purposes. In addition, this agreement is subject to the rights of the U.S. government, if any, as set forth in 35 U.S.C. §200, et seq. Pursuant to this law, the U.S. government may have acquired a nonexclusive, nontransferable, paid up license to practice or have practiced for or on behalf of the U.S. government the inventions described in the ex-U.S. UPitt Patent Rights throughout the world.

In consideration for the rights granted to us under the agreement, we paid an initial license fee to UPitt. We are also required to pay UPitt a low single-digit royalty on net sales of products or services utilizing the ex-U.S. UPitt Patent Rights sold by us or our affiliates, subject to adjustment in certain circumstances. Our royalty obligations continue for each licensed product or service on a country-by-country basis until the expiration of the last licensed patent covering the applicable licensed product or service in such country.

In the event we sublicense any of the ex-U.S. UPitt Patent Rights, we are obligated to pay UPitt a low single-digit percentage sublicense royalty on net sales of products or services sold by our sublicensees that utilize the sublicensed ex-U.S. UPitt Patent Rights and a low double-digit percentage of all non-royalty sublicensing income received by us.

The agreement requires that we diligently develop and commercialize products that are covered by the ex-U.S. UPitt Patent Rights, and we have agreed to meet certain commercial milestones. UPitt may terminate the agreement if we fail to meet such milestones. We are currently in compliance with these milestone requirements.

We may terminate the agreement upon six months' written notice to UPitt. UPitt may terminate the agreement in the event of our nonperformance of any of our obligations under the agreement if such nonperformance remains uncured for a certain period of time following our receipt of written notice of such nonperformance or in the event of our insolvency. Absent early termination, the agreement will continue until the expiration date of the longest-lived patent right included in the UPitt Patent Rights.

License Agreement with Prometheus Laboratories, Inc.

In connection with the Cypress Purchase, we acquired a license agreement, dated September 2007, between Prometheus Laboratories, Inc., or Prometheus, and Proprius Pharmaceuticals, Inc., or Proprius, a company which had been previously acquired by Cypress. Pursuant to this agreement, we obtained an exclusive, worldwide license to Prometheus's patent rights in certain inventions, or the Prometheus Patent Rights, related to the diagnosis, prognosis and monitoring of diseases, including certain patents related to our Avise products and services. This agreement was subsequently amended in October 2013.

Under the agreement, we are permitted to research, develop, manufacture and commercialize products utilizing the Prometheus Patent Rights and to sublicense such rights; provided, however, that any such sublicenses may only be granted with Prometheus's consent. We are not permitted to develop or commercialize products utilizing the Prometheus Patent Rights for use in diagnosing or treating any gastrointestinal diseases or to promote any such products to gastroenterologists.

We are required to make a milestone payment of $2.0 million upon the achievement of certain net sales. In addition, we are required to pay Prometheus tiered royalties in the mid-single-digit range on sales of any products utilizing the Prometheus Patent Rights by us, our affiliates or our sublicensees. Our royalty obligations continue on a licensed product-by-licensed product and country-by-country basis until the expiration, lapse or invalidation of the last valid claim in a licensed patent covering the applicable licensed product in such country.

In the event we sublicense any of the Prometheus Patent Rights, we are obligated to pay to Prometheus a fee based on a percentage of sublicense fees received by us, which percentage is in the mid-twenties. In addition, we are also required to pay to Prometheus a percentage of the royalty payments we receive from our sublicensees, which may not be less than a certain low single-digit percentage of net sales of products or services sold by our sublicensees that utilize the sublicensed Prometheus Patent Rights, nor more than a certain mid-single digit percentage of such net sales.

We may unilaterally terminate the agreement for any reason upon 60 days' written notice to Prometheus. Either party may terminate this agreement in the event of the other party's material breach of the agreement if such breach remains uncured for a certain period of time following receipt of written notice of such breach or in the event of the other party's insolvency. Absent early termination, the agreement will continue until the expiration date of the longest-lived patent right included in the Prometheus Patent Rights.

License Agreement with Orgentec Diagnostika GmbH

In connection with the Cypress Purchase, we acquired a license agreement, dated February 2008, between Proprius and Orgentec Diagnostika GmbH, or Orgentec. Pursuant to this agreement, we obtained an exclusive license to Orgentec's patent rights and know-how in certain inventions, or the Orgentec Patent Rights, related to anti-MCV, an autoantibody, including certain patent applications related to our Avise products and services.

Under the agreement, we are permitted to research, develop, manufacture and commercialize products utilizing the Orgentec Patent Rights for diagnosis, prognosis and monitoring applications, including diagnosis, prognosis and monitoring of RA, in the United States and Mexico, and to sublicense such rights. We are not

permitted to use the Orgentec Patent Rights for therapeutic applications. We have a right of first negotiation to license additional products from Orgentec for use in the diagnostic, prognostic and monitoring field in the United States or Mexico.

We are required to pay Orgentec a low single-digit royalty on any products utilizing the Orgentec Patent Rights, subject to adjustment in certain circumstances. We are also obligated to pay Orgentec a percentage in the mid-twenties of sublicense revenues received by us for products or services sold by our sublicensees that utilize the sublicensed Orgentec Patent Rights. Our royalty obligations continue on a licensed product-by-licensed product and country-by-country basis until the expiration of the last licensed patent covering the applicable licensed product in such country.

We may unilaterally terminate the agreement for any reason upon 90 days' written notice to Orgentec. Either party may terminate this agreement in the event of the other party's material breach of the agreement if such breach remains uncured for a certain period of time following receipt of written notice of such breach. Absent early termination, the agreement will continue until the expiration date of the longest-lived patent right included in the Orgentec Patent Rights.

Asset Purchase Agreement with Cypress and Proprius

In October 2010, we completed the Cypress Purchase pursuant an asset purchase agreement with Cypress and its wholly-owned subsidiary, Proprius, under which we obtained certain assets related to our Avise products and services. The agreement was amended three times, once in March 2011 to change certain obligations relating to certain accounts receivable we acquired from Cypress, once in August 2012 to convert a one-time payment obligation to a payment plan over four years with interest, and once in February 2013 to convert a one-time contingent milestone payment obligation concerning a CBCAPs monitoring assay to a payment plan over two years with interest.

In consideration for the acquisition, we made certain initial cash payments to Cypress and to Proprius and we are currently making payments to Cypress pursuant to the August 2012 amendment, which payments are subject to acceleration in certain circumstances. In addition, we are required to make certain one-time contingent milestone payments for two third-party commercial programs, for the launch of a CBCAPs monitoring assay, and for the achievement of an annual, worldwide net sales level for CBCAPs products, which milestone payments are estimated at an aggregate of $3.5 million. The agreement requires the we use commercially reasonable efforts to cause each of the milestones to be achieved. We are required to pay Cypress a low double-digit royalty on the world wide net sales of CBCAPs products for a period of several years, and we are required to pay Proprius a low double-digit royalty on the net sales of any new product for a period of several years.

Asset Purchase Agreement With Cellatope

In connection with the Cypress Purchase, we acquired an asset purchase agreement, dated February 2009 and amended December 2012, between Cypress and Cellatope Corporation, or Cellatope. Pursuant to this agreement, we obtained assets related to our Avise products. In the event we develop a lupus monitoring product and we or a licensee sells such lupus monitoring product, we are required to issue Cellatope a promissory note in a specified amount, subject to reduction in certain circumstances, bearing a single-digit annual interest rate. On the first anniversary of such note, accrued interest for the previous 12 months shall be added to the principal amount, and following such first anniversary, the adjusted amount shall accrue interest at the same rate, and we must pay off the note plus accrued interest in 48 equal monthly payments.

Dr. Thierry Dervieux and De Novo Diagnostics, Inc.

In September 2011, we entered into a license agreement with Dr. Thierry Dervieux, our Chief Scientific Officer, and his company De Novo Diagnostics, Inc., under which we obtained an exclusive, worldwide (except for Australia and New Zealand) license to Dr. Dervieux's patent rights and know-how in certain inventions, or

the Dervieux Patent Rights, related to the diagnosis, prognosis and monitoring of diseases, including certain patents related to our Avise products and services.

Under the agreement, we are permitted to develop, manufacture and commercialize products utilizing the Dervieux Patent Rights in the human healthcare market, and to sublicense such rights.

In considerations for the rights granted to us under the agreement, we are required to make milestone payments, up to an aggregate of $600,000, upon achievement of certain sales milestones. In addition, we are required to pay Dr. Dervieux a mid-single-digit royalty on net sales by us or our affiliates of any products utilizing the Dervieux Patent Rights, subject to adjustment in certain circumstances. We are also obligated to pay Dr. Dervieux a percentage in the mid-twenties of sublicense fees and royalties received by us.

The agreement requires that we diligently develop and commercialize products that are covered by the Dervieux Patent Rights, and we have agreed to use commercially reasonable efforts to bring technology covered by the Dervieux Patent Rights to market as soon as practicable.

We may unilaterally terminate the agreement upon 12 months' written notice to Dr. Dervieux. Either party may terminate this agreement in the event of the other party's nonperformance of any of its obligations under the agreement if such nonperformance remains uncured for a specified period of time following receipt of written notice of such nonperformance or in the event of the other party's insolvency. Absent early termination, the agreement will continue until the expiration date of the longest-lived patent right included in the Dervieux Patent Rights.

Regulations

Clinical Laboratory Improvement Amendments of 1988

As a clinical reference laboratory, we are required to hold certain federal, state and local licenses, certifications and permits to conduct our business. Under CLIA, we are required to hold a certificate applicable to the type of laboratory tests we perform and to comply with standards applicable to our operations, including test processes, personnel, facilities administration, equipment maintenance, recordkeeping, quality systems and proficiency testing. We must maintain CLIA compliance and certification to be eligible to bill for diagnostic services provided to Medicare beneficiaries.

We have current certification under CLIA to perform testing at our Vista facility. To renew our CLIA certificate, we are subject to survey and inspection every two years to assess compliance with program standards. The regulatory and compliance standards applicable to the testing we perform may change over time, and any such changes could have a material effect on our business.

If our clinical laboratory were to be found to be out of compliance with CLIA requirements, we may be subject to sanctions, such as suspension, limitation or revocation of our CLIA certificate, as well as directed plan of correction, state on-site monitoring, civil money penalties, civil injunctive suit or criminal penalties, any of which could adversely affect our business.

California Laboratory Licensing

In addition to federal certification requirements of laboratories under CLIA, licensure is required and maintained for our Vista clinical reference laboratory under California law. Such laws establish standards for the day-to-day operation of a clinical reference laboratory, including the training and skills required of personnel and quality control. In addition, California laws mandate proficiency testing, which involves testing of specimens that have been specifically prepared for the laboratory.

If our clinical reference laboratory were to be found out of compliance with California standards, the California Department of Health Services, or DHS, may suspend, restrict or revoke our license to operate our clinical reference

laboratory, assess substantial civil money penalties, or impose specific corrective action plans, any of which could materially affect our business. We maintain a current license in good standing with DHS. However, we cannot provide assurance that DHS will at all times in the future find us to be in compliance with all such laws.

New York Laboratory Licensing

Because we receive specimens from New York, our clinical reference laboratory is required to be licensed by New York, under New York laws and regulations, which establish standards for:

- day-to-day operation of a clinical laboratory, including training and skill levels required of laboratory personnel;
- physical requirements of a facility;
- equipment; and
- validation and quality control

New York law also mandates proficiency testing for laboratories licensed under New York state law, regardless of whether such laboratories are located in New York. If a laboratory is out of compliance with New York statutory or regulatory standards, the NYDOH may suspend, limit, revoke or annul the laboratory's New York license, censure the holder of the license or assess civil money penalties. Statutory or regulatory noncompliance may result in a laboratory's operator being found guilty of a misdemeanor under New York law. NYDOH also must approve the LDT before the test is offered in New York. We have received written approval from NYDOH to offer our products in New York. If we were to be found out of compliance with New York laboratory requirements, we could be subject to such sanctions, which could harm our business. We maintain a current license in good standing with NYDOH for our laboratory.

Other States' Laboratory Licensing

In addition to New York and California, other states, including Florida, Maryland, Pennsylvania and Rhode Island, require licensing of out-of-state laboratories under certain circumstances. We have obtained licenses from states where we believe we are required to be licensed, and believe we are in compliance with applicable licensing laws.

From time to time, we may become aware of other states that require out-of-state laboratories to obtain licensure in order to accept specimens from the state, and it is possible that other states currently have such requirements or will have such requirements in the future. If we identify any other state with such requirements or if we are contacted by any other state advising us of such requirements, we intend to comply with such requirements. Collecting specimens from a state that requires us to obtain and maintain an out-of-state laboratory license, without receiving such license, may result in sanctions, any of which could harm our business.

Federal Oversight of Laboratory Developed Tests

The laws and regulations governing the marketing of diagnostic products are evolving, extremely complex, and in many instances there are no significant regulatory or judicial interpretations of these laws and regulations. Clinical laboratory tests like Avise SLE+CT, Avise SLE Prognostic and Avise MTX are regulated under CLIA, as administered by CMS, as well as by applicable state laws. In addition, the Federal Food, Drug and Cosmetic Act, or FDCA, defines a medical device to include any instrument, apparatus, implement, machine, contrivance, implant, in vitro reagent, or other similar or related article, including a component part, or accessory, intended for use in the diagnosis of disease or other conditions, or in the cure, mitigation, treatment, or prevention of disease, in man or other animals. Our in vitro diagnostic products are considered by the FDA to be subject to regulation as medical devices. Among other things, pursuant to the FDCA and its implementing regulations, the FDA regulates the research, testing, manufacturing, safety, labeling, storage, recordkeeping, pre-market clearance or approval, marketing and promotion, and sales and distribution of medical devices in the United States to ensure that

medical products distributed domestically are safe and effective for their intended uses. In addition, the FDA regulates the export of medical devices manufactured in the United States to international markets.

Although the FDA has statutory authority to assure that medical devices are safe and effective for their intended uses, the FDA has generally exercised its enforcement discretion and not enforced applicable regulations with respect to in vitro diagnostics that are developed, validated, and offered within a single laboratory for use only in that laboratory. We believe that the Avise SLE+CT and Avise MTX are LDTs, as are our near term pipeline candidate tests. As a result, we believe our diagnostic services should not be subject to regulation under established FDA policies. However, one of the devices we market under license is subject to a 510(k) clearance held by Orgentec Diagnostika GmbH and is subject to the FDA's regulations applicable to 510(k)-cleared devices. In addition, reagents, instruments, software or components provided by third parties and used to perform LDTs may be subject to regulation.

Pursuant to the Food and Drug Administration Safety and Innovation Act, the FDA notified Congress on July 31, 2014 that FDA intends to issue, on or after September 30, 2014, a draft guidance entitled "Framework for Regulatory Oversight of Laboratory Developed Tests (LDTs)," or the Framework Guidance. The anticipated details of the Framework Guidance state that FDA intends to modify its policy of enforcement discretion with respect to LDTs in a risk-based manner consistent with the classification of medical devices generally in Classes I through III. The FDA states its intention in the Framework Guidance to publish general LDT classification guidance within 18 months of date on which the Framework Guidance is finalized.

If the FDA begins to actively regulate LDTs, we may be required to obtain premarket clearance under Section 510(k) of the FDCA or a premarket approval, or PMA. The process for submitting a 510(k) premarket notification and receiving FDA clearance usually takes from three to twelve months, but it can take significantly longer and clearance is never guaranteed. The process for submitting and obtaining FDA approval of a PMA is much more costly, lengthy and uncertain. It generally takes from one to three years or even longer and approval is not guaranteed. PMA approval typically requires extensive clinical data and can be significantly longer, more expensive and more uncertain than the 510(k) clearance process. If premarket review is required for some or all of our products, the FDA could require that we stop selling our products pending clearance or approval and conduct clinical testing prior to making submissions to FDA to obtain premarket clearance or approval. If our diagnostic services are allowed to remain on the market but there is uncertainty about the legal status of our services, if we are required by the FDA to label them as investigational, or if labeling claims the FDA allows us to make are limited, order levels may decline and reimbursement may be adversely affected.

Despite the FDA's notification to Congress on July 31, 2014 of its intent to publish the draft Framework Guidance in 60 days or more, we cannot predict the ultimate form of any LDT guidance or other agency action with respect to LDTs and the potential effect on our solutions or materials used to perform our diagnostic services. While we qualify all materials used in our diagnostic services according to CLIA regulations, we cannot be certain that the FDA might not ultimately promulgate rules or issue guidance documents that could affect our ability to purchase materials necessary for the performance of our diagnostic services. Should any of the reagents obtained by us from vendors and used in conducting our diagnostic services be affected by future regulatory actions, our business could be adversely affected by those actions, including increasing the cost of service or delaying, limiting or prohibiting the purchase of reagents necessary to perform the service.

Legislative proposals addressing oversight of LDTs have been introduced in recent years and we expect that new legislative proposals will be introduced in the future. It is possible that legislation could be enacted into law or regulations or guidance could be issued by the FDA which may result in new or increased regulatory requirements for us to continue to offer our diagnostic services or to develop and introduce new services.

Health Insurance Portability and Accountability Act

Under the Federal Health Insurance Portability and Accountability Act of 1996, or HIPAA, and the Health Information Technology for Economic and Clinical Health Act, or HITECH Act, the U.S. Department of Health

and Human Services, or HHS, has issued regulations to protect the privacy and security of protected health information used or disclosed by certain entities including health care providers, such as us. HIPAA also regulates standardization of data content, codes and formats used in certain health care transactions and standardization of identifiers for health plans and providers. Penalties for violations of HIPAA and HITECH laws and regulations include civil and criminal penalties.

Three standards have been promulgated under HIPAA's and HITECH's regulations: the Standards for Privacy of Individually Identifiable Health Information, which restrict the use and disclosure of certain individually identifiable health information, the Standards for Electronic Transactions, which establish standards for common healthcare transactions, such as claims information, plan eligibility, payment information and the use of electronic signatures, and the Security Standards for the Protection of Electronic Protected Health Information, which require covered entities and business associates to implement and maintain certain security measures to safeguard certain electronic health information, including the adoption of administrative, physical and technical safeguards to protect such information.

In 2009, Congress passed the American Recovery and Reinvestment Act of 2009, or ARRA, which included sweeping changes to HIPAA, including an expansion of HIPAA's privacy and security standards. ARRA includes the HITECH Act, which, among other things, made HIPAA's security standards directly applicable to business associates of covered entities effective February 17, 2010. A business associate is a person or entity that performs certain functions or activities on behalf of a covered entity that involve the use or disclosure of protected health information for or on behalf of the covered entity. As a result, business associates are now subject to significant civil and criminal penalties for failure to comply with applicable standards. Moreover, HITECH creates a new requirement to report certain breaches of unsecured, individually identifiable health information and imposes penalties on entities that fail to do so. This requirement was modified and expanded by the final HIPAA Omnibus Rule of 2013. HITECH also increased the civil and criminal penalties that may be imposed against covered entities and business associates and gave state attorneys general new authority to file civil actions for damages or injunctions in federal courts to enforce the federal HIPAA laws and seek attorney fees and costs associated with pursuing federal civil actions.

HIPAA also governs patient access to laboratory test reports. Effective October 6, 2014, individuals (or their personal representatives, as applicable) have the right to access test reports directly from laboratories and to direct that copies of those reports be transmitted to persons or entities designated by the individual.

We have developed and implemented policies and procedures designed to comply with these regulations. The requirements under these regulations may change periodically and could have an effect on our business operations if compliance becomes substantially more costly than under current requirements.

In addition to federal privacy regulations, there are a number of state laws governing confidentiality of health information that are applicable to our business, many of which differ from each other in significant ways and may not have the same effect, thus complicating compliance efforts.

New laws governing privacy and security may be adopted in the future as well. We have taken steps to comply with federal and state health information privacy and security requirements to which we are aware that we are subject. However, we can provide no assurance that we are or will remain in compliance with diverse privacy and security requirements in all of the jurisdictions in which we do business. Failure to comply with privacy and security requirements could result in civil or criminal penalties, which could have a materially adverse effect on our business.

Federal and State Physician Self-Referral Prohibitions

We are subject to the federal physician self-referral prohibitions, commonly known as the Stark Law, and to similar state law restrictions, such as California's Physician Ownership and Referral Act, or PORA, and other

comparable state laws. Together these restrictions generally prohibit us from billing a patient or any governmental or private payer for certain designated health services, including clinical laboratory services, when the physician ordering the service, or any member of such physician's immediate family, has a financial interest, such as an ownership or investment interest in or compensation arrangement with us, unless the arrangement meets an exception to the prohibition.

Both the Stark Law and PORA, as well as many other state law equivalents, contain an exception for compensation paid to a physician for personal services rendered by the physician provided that the arrangement meets certain regulatory requirements. We have compensation arrangements with a number of physicians for personal services, such as speaking engagements and consulting activities.

However, we cannot be certain that regulators would find these arrangements to be in compliance with Stark, PORA or similar state laws. We would be required to refund any payments we receive pursuant to a referral prohibited by these laws to the patient, the payer or the Medicare program, as applicable.

Sanctions for a Stark Law violation include the following:

- denial of payment for the services provided in violation of the prohibition;
- refunds of amounts collected by an entity in violation of the Stark Law;
- a civil penalty of up to $15,000 for each bill or claim for a service arising out of the prohibited referral;
- the imposition of up to three times the amounts for each item or service wrongfully claimed;
- possible exclusion from federal healthcare programs, including Medicare and Medicaid; and
- a civil penalty of up to $100,000 for each arrangement or scheme that the parties know (or should know) has the principal purpose of circumventing the Stark Law's prohibition.

These prohibitions apply regardless of any intent by the parties to induce or reward referrals or the reasons for the financial relationship and the referral. In addition, knowing violations of the Stark Law may also serve as the basis for liability under the Federal False Claims Act, which can result in additional civil and criminal penalties.

Further, a violation of PORA is a misdemeanor and could result in civil penalties and criminal fines. Other states also have self-referral restrictions with which we have to comply, some of which differ from those imposed by the Stark Law or California law. It is possible that some of our financial arrangements with physicians could be subject to regulatory scrutiny at some point in the future, and we cannot provide assurance that we will be found to be in compliance with these laws following any such regulatory review.

Federal and State Fraud and Abuse Laws

The Federal Anti-kickback Statute makes it a felony for a person or entity, including a clinical laboratory, to knowingly and willfully offer, pay, solicit or receive any remuneration, directly or indirectly, overtly or covertly, in cash or in kind, in order to induce business that is reimbursable under any federal health care program. A violation of the Anti-kickback Statute may result in imprisonment for up to five years and fines of up to $25,000 for each violation and administrative civil money penalties of $50,000 plus up to three times the amount of the remuneration paid. Convictions under the Anti-kickback Statute result in mandatory exclusion from federal health care programs for a minimum of five years. In addition, The U.S. Department of Health and Human Services, or HHS, has the authority to impose civil assessments and fines and to exclude health care providers and others engaged in prohibited activities from Medicare, Medicaid and other federal health care programs. In addition, the government may now assert that a claim that includes items or services resulting from a violation of the Anti-kickback Statute constitutes a false or fraudulent claim under the Federal False Claims Act, which is discussed in greater detail below. Additionally, the intent standard under the Anti-Kickback Statute was amended by the Patient Protection and Affordable Care Act of 2010, as amended by the Health Care and Education Reconciliation Act of 2010, collectively the ACA, to a stricter standard such that a person or entity no longer needs to have actual knowledge of the statute or specific intent to violate it in order to have committed a violation.

Although the Anti-kickback Statute applies only to items and services reimbursable under any federal health care program, a number of states, including California, have passed statutes substantially similar to the Anti-kickback Statute that apply to all third-party payers, including commercial insurers. The California Attorney General and courts have interpreted the California anti-kickback and fee-splitting laws in substantially the same way as HHS and the courts have interpreted the Anti-kickback Statute. Penalties of such state laws include imprisonment and significant monetary fines.

Federal and state law enforcement authorities scrutinize arrangements between health care providers and potential referral sources to ensure that the arrangements are not designed as a mechanism to induce patient care referrals or induce the purchase or prescribing of particular products or services. The law enforcement authorities, the courts and Congress have also demonstrated a willingness to look behind the formalities of a transaction to determine the underlying purpose of payments between health care providers and actual or potential referral sources. Generally, courts have taken a broad interpretation of the scope of the Anti-kickback Statute, holding that the statute may be violated if merely one purpose of a payment arrangement is to induce referrals or purchases.

In addition to statutory exceptions to the Anti-kickback Statute, regulations provide for a number of safe harbors. If an arrangement meets the provisions of a safe harbor, it is deemed not to violate the Anti-kickback Statute. An arrangement must fully comply with each element of an applicable safe harbor in order to qualify for protection. There are no regulatory safe harbors under California laws.

Among the safe harbors that may be relevant to us is the discount safe harbor. The discount safe harbor potentially protects certain discounts provided by providers and suppliers, including laboratories, to physicians or institutions. If the terms of the discount safe harbor are met, the discounts will not be considered prohibited remuneration under the Anti-kickback Statute. Although California does not have a discount safe harbor, the California statute has generally been interpreted consistent with the Anti-kickback Statute.

The personal services safe harbor to the Anti-kickback Statute protects certain remuneration paid to a referral source for personal services, provided all of the elements of that safe harbor are met. One element is that if the agreement is intended to provide for the services of the physician on a periodic, sporadic or part-time basis, rather than on a full-time basis for the term of the agreement, the agreement specifies exactly the schedule of such intervals, their precise length, and the exact charge for such intervals. Our personal services arrangements with some physicians may not meet the specific requirement of this safe harbor that the agreement specify exactly the schedule of the intervals of time to be spent on the services because the nature of the services, such as speaking engagements and blood-draw fee agreements, does not lend itself to exact scheduling. Failure to meet the requirements of the safe harbor, however, does not render an arrangement illegal. Rather, the government may evaluate such arrangements on a case-by-case basis, taking into account all facts and circumstances.

There can be no assurance that our relationships with physicians, academic institutions and other customers will not be subject to investigation or challenge under such laws. If imposed for any reason, sanctions under these laws could have a negative effect on our business.

Other Federal and State Health Care Laws

In addition to the requirements discussed above, several other health care fraud and abuse laws could have an effect on our business. For example, provisions of the Social Security Act permit Medicare and Medicaid to exclude an entity that charges the federal health care programs substantially in excess of its usual charges for its services. The terms “usual charge” and “substantially in excess” are subject to varying interpretations.

Further, the Federal civil False Claims Act prohibits, among other things, a person from knowingly presenting, or causing to be presented, a false or fraudulent claim for payment or approval and from, making, using, or causing to be made or used, a false record or statement material to a false or fraudulent claim in order to

secure payment or retaining an overpayment by the federal government. In addition to actions initiated by the government itself, the statute authorizes actions to be brought on behalf of the federal government by a private party having knowledge of the alleged fraud. Because the complaint is initially filed under seal, the action may be pending for some time before the defendant is even aware of the action. If the government intervenes and is ultimately successful in obtaining redress in the matter or if the plaintiff succeeds in obtaining redress without the government's involvement, then the plaintiff will receive a percentage of the recovery. Finally, the Social Security Act includes its own provisions that prohibit the filing of false claims or submitting false statements in order to obtain payment. Violation of these provisions may result in fines, imprisonment or both, and possible exclusion from Medicare or Medicaid programs. Several states, including California, have enacted comparable false claims laws that apply to all payers.

Additionally, the civil monetary penalties statute imposes penalties against any person or entity that, among other things, is determined to have presented or caused to be presented a claim to a federal health program that the person knows or should know is for an item or service that was not provided as claimed or is false or fraudulent. A person who offers or provides to a Medicare or Medicaid beneficiary any remuneration, including waivers of co-payments and deductible amounts (or any part thereof), that the person knows or should know is likely to influence the beneficiary's selection of a particular provider, practitioner or supplier of Medicare or Medicaid payable items or services may be liable for civil monetary penalties of up to $10,000 for each wrongful act and up to three times the amount improperly claimed. Moreover, in certain cases, providers who routinely waive copayments and deductibles for Medicare and Medicaid beneficiaries can also be held liable under the Anti-Kickback Statute and False Claims Act. One of the statutory exceptions to the prohibition is non-routine, unadvertised waivers of copayments or deductible amounts based on individualized determinations of financial need or exhaustion of reasonable collection efforts. The Office of Inspector General of the Department of Health and Human Services, or OIG, emphasizes, however, that this exception should only be used occasionally to address special financial needs of a particular patient. Although this prohibition applies only to federal healthcare program beneficiaries, applicable state laws related to, among other things, unlawful schemes to defraud, excessive fees for services, tortious interference with patient contracts and statutory or common law fraud, may also be implicated for similar practices offered to patients covered by commercial payers. It is possible that some of our business practices, including the waiver and/or reduction of co-payments and deductible amounts, could be subject to regulatory scrutiny at some point in the future, and we cannot provide assurance that we will be found to be in compliance with these laws following any such regulatory review.

Additionally, HIPAA created new federal criminal statutes that prohibit, among other actions, knowingly and willfully executing, or attempting to execute, a scheme to defraud any healthcare benefit program, including private third-party payers, and knowingly and willfully falsifying, concealing or covering up a material fact or making any materially false, fictitious or fraudulent statement in connection with the delivery of or payment for healthcare benefits, items or services. Like the Federal Anti-kickback Statute, the ACA amended the intent standard for certain healthcare fraud under HIPAA such that a person or entity no longer needs to have actual knowledge of the statute or specific intent to violate it in order to have committed a violation.

Also, many states have similar fraud and abuse laws that may be broader in scope and may apply regardless of payer.

If our operations are found to be in violation of any of the fraud and abuse laws described above or any other laws that apply to us, we may be subject to penalties, including potentially significant criminal and civil and/or administrative penalties, damages, fines, disgorgement, imprisonment, exclusion from participation in government healthcare programs, contractual damages, reputational harm, administrative burdens, diminished profits and future earnings, and the curtailment or restructuring of our operations, any of which could adversely affect our ability to operate our business and our results of operations.

The ACA, among other things, also imposed new reporting requirements on manufacturers of certain devices, drugs and biologics for certain payments and transfers of value by them and in some cases their

distributors to physicians and teaching hospitals, as well as ownership and investment interests held by physicians and their immediate family members. Any failure to comply with these reporting requirements could result in significant fines and penalties. Because we manufacture our own LDTs solely for use by or within our own laboratory, we believe that we are exempt from these reporting requirements. We cannot assure you, however, that the government will agree with our determination, and a determination that we have violated these laws and regulations, or a public announcement that we are being investigated for possible violations, could adversely affect our business, prospects, results of operations or financial condition

Employees

As of March 31, 2014, we had 59 employees, all but one of whom are full-time, 11 of whom work in laboratory operations, four in research and development, 37 in sales and marketing and seven in general and administrative. None of our employees is represented by a labor union or covered by a collective bargaining agreement. We consider our relationship with our employees to be good.

Suppliers

We rely on sole suppliers for critical supply of reagents, equipment and other materials that we use to perform the tests that comprise our Avise products. We also purchase components used in our Avise product transportation kits from sole-source suppliers. Some of these items are unique to these suppliers and vendors.

Facilities

We lease approximately 14,000 square feet of office and laboratory space in Vista, California, under a lease that expires in 2017, with options to extend the lease for two additional 36-month periods. We also lease approximately 3,200 square feet of office space in Albuquerque, New Mexico, under a lease that expires in 2014. We believe that our existing facilities are adequate to meet our business needs for at least the next 12 months and that additional space will be available on commercially reasonable terms, if required.

Environmental Matters

Our operations require the use of hazardous materials (including biological and chemical materials) which subject us to a variety of federal, state and local environmental and safety laws and regulations. We could be held liable for damages and fines as a result of our business operations. We cannot predict how changes in laws or regulations will affect our business, operations or the cost of compliance. We mitigate this risk by being in compliance with these laws and the CAP checklists. We have established Universal Precautions, as mandated by the Occupational Safety & Health Administration, to be practiced to prevent employee exposure to blood and other potentially infectious materials. Engineering and work practice controls are used to eliminate or minimize employee exposure. Personal protective equipment is used when occupational exposure may occur even though the engineering and work practice controls are in place. This Injury and Illness Prevention Program, or IIPP, is designed to furnish employees with a safe and healthy place of employment. This IIPP describes specific requirements for program responsibility, compliance, communication, hazard assessment, accident/exposure investigations, hazard correction, training and recordkeeping. In addition, appropriate biohazardous, chemical and sharps waste disposal are in place.

Legal Proceedings

We are not currently a party to any material legal proceedings, and we are not aware of any pending or threatened legal proceeding against us that we believe are likely to have a material adverse effect on our business, operating results or financial condition.

Board Composition and Election of Directors

Director Independence

Our board of directors currently consists of seven members. Our board of directors has determined that all of our directors, other than Mr. Rocca, are independent directors in accordance with the listing requirements of The NASDAQ Global Market. The NASDAQ independence definition includes a series of objective tests, including that the director is not, and has not been for at least three years, one of our employees and that neither the director nor any of his family members has engaged in various types of business dealings with us. In addition, as required by NASDAQ rules, our board of directors has made a subjective determination as to each independent director that no relationships exist, which, in the opinion of our board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our board of directors reviewed and discussed information provided by the directors and us with regard to each director's business and personal activities and relationships as they may relate to us and our management. There are no family relationships among any of our directors or executive officers.

Classified Board of Directors

In accordance with the terms of our amended and restated certificate of incorporation that will go into effect immediately prior to the completion of this offering, our board of directors will be divided into three classes with

staggered, three-year terms. At each annual meeting of stockholders, the successors to directors whose terms then expire will be elected to serve from the time of election and qualification until the third annual meeting following election. Effective upon the completion of this offering, our directors will be divided among the three classes as follows:

- the Class I directors will be and , and their terms will expire at our first annual meeting of stockholders following this offering;
- the Class II directors will be and , and their terms will expire at our second annual meeting of stockholders following this offering; and
- the Class III directors will be , and , and their terms will expire at our third annual meeting of stockholders following this offering.

Our amended and restated certificate of incorporation that will go into effect immediately prior to the completion of this offering will provide that the authorized number of directors may be changed only by resolution of the board of directors. Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of the directors. The division of our board of directors into three classes with staggered three-year terms may delay or prevent a change of our management or a change in control of our company. Our directors may be removed only for cause by the affirmative vote of the holders of at least two thirds of our outstanding voting stock then entitled to vote in the election of directors.

Board Leadership Structure

Our board of directors is currently led by its chairman, Curt LaBelle, M.D. Our board of directors recognizes that it is important to determine an optimal board leadership structure to ensure the independent oversight of management as the company continues to grow. We separate the roles of chief executive officer and chairman of the board in recognition of the differences between the two roles. The chief executive officer is responsible for setting the strategic direction for the company and the day-to-day leadership and performance of the company, while the chairman of the board of directors provides guidance to the chief executive officer and presides over meetings of the full board of directors. We believe that this separation of responsibilities provides a balanced approach to managing the board of directors and overseeing the company.

Our board of directors has concluded that our current leadership structure is appropriate at this time. However, our board of directors will continue to periodically review our leadership structure and may make such changes in the future as it deems appropriate.

Role of Board in Risk Oversight Process

Our board of directors has responsibility for the oversight of the company's risk management processes and, either as a whole or through its committees, regularly discusses with management our major risk exposures, their potential impact on our business and the steps we take to manage them. The risk oversight process includes receiving regular reports from board committees and members of senior management to enable our board to understand the company's risk identification, risk management and risk mitigation strategies with respect to areas of potential material risk, including operations, finance, legal, regulatory, strategic and reputational risk.

The audit committee reviews information regarding liquidity and operations, and oversees our management of financial risks. Periodically, the audit committee reviews our policies with respect to risk assessment, risk management, loss prevention and regulatory compliance. Oversight by the audit committee includes direct communication with our external auditors, and discussions with management regarding significant risk exposures and the actions management has taken to limit, monitor or control such exposures. The compensation committee is responsible for assessing whether any of our compensation policies or programs has the potential to encourage excessive risk-taking. The nominating/corporate governance committee manages risks associated with the

independence of the board, corporate disclosure practices, and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire board is regularly informed through committee reports about such risks. Matters of significant strategic risk are considered by our board as a whole.

Board Committees and Independence

Our board has established three standing committees—audit, compensation and nominating and corporate governance—each of which operates under a charter that has been approved by our board.

Our board has determined that all of the members of each of the board's three standing committees are independent as defined under the rules of The NASDAQ Global Market. In addition, all members of the audit committee meet the independence requirements contemplated by Rule 10A-3 under the Exchange Act.

- approving the audit and non-audit services to be performed by our independent registered public accounting firm;
- reviewing the design, implementation, adequacy and effectiveness of our internal accounting controls and our critical accounting policies;
- discussing with management and the independent registered public accounting firm the results of our annual audit and the review of our quarterly unaudited financial statements;
- reviewing, overseeing and monitoring the integrity of our financial statements and our compliance with legal and regulatory requirements as they relate to financial statements or accounting matters;
- reviewing on a periodic basis, or as appropriate, any investment policy and recommending to our board any changes to such investment policy;
- reviewing with management and our auditors any earnings announcements and other public announcements regarding our results of operations;
- preparing the report that the SEC requires in our annual proxy statement;
- reviewing and approving any related party transactions and reviewing and monitoring compliance with our code of conduct and ethics; and
- reviewing and evaluating, at least annually, the performance of the audit committee and its members including compliance of the audit committee with its charter.

The members of our audit committee are , and . serves as the chairperson of the committee. All members of our audit committee meet the requirements for financial literacy under the applicable rules and regulations of the SEC and The NASDAQ Global Market. Our board of directors has determined that is an "audit committee financial expert" as defined by applicable SEC rules and has the requisite financial sophistication as defined under the applicable NASDAQ rules and regulations. Our board of directors has determined each of , and is independent under the applicable rules of the SEC and The NASDAQ Global Market. Upon the listing of our common stock on The NASDAQ Global Market, the audit committee will operate under a written charter that satisfies the applicable standards of the SEC and The NASDAQ Global Market.

Compensation Committee

Our compensation committee approves policies relating to compensation and benefits of our officers and employees. The compensation committee approves corporate goals and objectives relevant to the compensation of our chief executive officer and other executive officers, evaluates the performance of these officers in light of those goals and objectives and approves the compensation of these officers based on such evaluations. The compensation committee also approves the issuance of stock options and other awards under our equity plan. The compensation committee will review and evaluate, at least annually, the performance of the compensation committee and its members, including compliance by the compensation committee with its charter.

Narrative Disclosure to Compensation Tables

Employment Agreements

Offer Letter with Thierry Dervieux. Ph.D.

In October 2010, we entered into an offer letter with Dr. Dervieux, which was amended in September 2011.

Pursuant to the offer letter, Dr. Dervieux receives an annual base salary of $240,000. Dr. Dervieux is eligible to participate in our management bonus plan, with the goals and payments under the management bonus plan to be defined and approved by our board of directors. Pursuant to the offer letter, Dr. Dervieux received options to purchase 100,000 shares of our common stock in connection with the commencement of his employment. Such options vest as to 25% of the total number of option shares on the first anniversary of the date of grant and in equal monthly installments over the ensuing 36 months, and will become fully vested (1) upon the acquisition of our company and (2) the termination of Dr. Dervieux's employment by us without cause.

Pursuant to Dr. Dervieux's offer letter, if we terminate Dr. Dervieux's employment without cause or Dr. Dervieux resigns for good reason (as defined below), Dr. Dervieux will be entitled to the following payments and benefits: (1) his fully earned but unpaid base salary through the date of termination at the rate then in effect, plus all other amounts under any compensation plan or practice to which he is entitled, and (2) a lump sum cash

payment in an amount equal to his monthly base salary as in effect immediately prior to the date of termination for the 12-month period following the date of termination.

For purposes of Dr. Dervieux's offer letter, "good reason" generally means: (1) a material reduction in Dr. Dervieux's duties or responsibilities; (2) the relocation of our company's principal business location to a point more than 250 miles east of its previous Albuquerque location or more than 1,000 miles from Dr. Dervieux's principal residence; or (3) a material reduction by us of Dr. Dervieux's base salary as the result of a company-wide compensation reduction or in connection with similar decreases for the management team of our company.

Base Salaries

In general, base salaries for our named executive officers are initially established through arm's length negotiation at the time the executive officer is hired, taking into account such executive officer's qualifications, experience and prior salary. Base salaries of our named executive officers are generally reviewed annually and are based on the scope of an executive officer's responsibilities, individual contribution, prior experience and sustained performance.

The 2013 base salaries for our named executive officers is set forth above under "2013 Summary Compensation Table." In 2014, the base salaries of our named executive officers were increased to $312,000, $235,000 and $244,800, respectively.

2013 Exagen Management Bonus Program

Our named executive officers were eligible to participate in the 2013 Exagen Management Bonus Program, or the Bonus Program. The Bonus Program was administered by our board of directors, and our board of directors was responsible for the approval of participation, award targets, performance measures and earned awards under the Bonus Program.

Pursuant to the Bonus Program, our board of directors made awards based on annual corporate objectives determined for the performance measurement period. The relative weight between the corporate performance factors for 2013 was as follows:

Corporate Performance Factors	Percentage
Net Revenue Objective	80%
Material Transaction Objective	20%

The Bonus Program allowed for annual cash incentive awards, which are determined by (1) applying a target bonus multiplier, as set forth below, to each covered employee's base salary; (2) allocating such amount between the corporate performance factors, as set forth above; and (3) with respect to the portion of the bonus tied to the Net Revenue Objective, multiplying each such allocated amount by an award multiplier ranging from 0% to 150% (with 0% credit awarded for performance below 85% of the targeted level and 150% credit awarded for performance at or above 150% of the targeted level), as determined by our board of directors based on corporate achievement for the applicable year. The board of directors, however, retained the discretion to increase or reduce the final bonus payments, regardless of actual company performance.

The target bonuses for our named executive officers for 2013 were as follows (and remain unchanged for 2014):

	Target Bonus as a Percentage of Base Salary
Fortunato Ron Rocca	50%
Wendy Swedick	25%
Thierry Dervieux, Ph.D.	25%

Corporate objectives for the Bonus Program for 2013 were established in February 2013. The Net Revenue Objective for the year ending December 31, 2013 was $3.4 million. The Material Transaction Objective generally related to the company's successful completion of significant, material strategic transactions that either realize of have the potential to realize more than $2.0 million of value to the company (i.e., co-promotion agreements, corporate financing transactions, successful negotiation of licensing or royalty arrangements).

Our net revenues for 2013 were 90% of our goal, and thus our board of directors awarded an achievement level of 90% relative to the Net Revenue Objective for 2013 bonus purposes. Based on our strategic transactions during 2013, including the closing of our term loan agreement and obtaining NYDOH approval for the new release of our Avise SLE+CT test, our board of directors awarded 100% relative to the Material Transaction Objective for 2013 bonus purposes. With the specified weighting of each of these components, the board awarded an overall achievement level of 90% for the 2013 bonus program.

As a result, the bonuses paid to our named executive officers under the Bonus Program for 2013 were as follows:

	2013 Bonus ($)
Fortunato Ron Rocca	135,000
Wendy Swedick	46,350
Thierry Dervieux, Ph.D.	54,000

Equity Compensation

We offer stock options to our employees, including our named executive officers, as the long-term incentive component of our compensation program. We typically grant equity awards to new hires upon their commencing employment with us. Our stock options allow employees to purchase shares of our common stock at a price per share equal to the fair market value of our common stock on the date of grant and may or may not be intended to qualify as "incentive stock options" for U.S. federal income tax purposes. In the past, our board of directors has determined the fair market value of our common stock based upon inputs including valuation reports prepared by third-party valuation firms from time to time. Generally, the stock options we grant vest as to 25% of the total number of option shares on the first anniversary of the date of grant and in equal monthly installments over the ensuing 36 months, subject to the employee's continued employment with us on the vesting date.

Stock options granted to our named executive officers may be subject to accelerated vesting in certain circumstances. For additional discussion, please see "—Employment Agreements" above and "—Other Elements of Compensation—Change in Control Benefits" below.

In July 2014, each of Mr. Rocca, Ms. Swedick and Mr. Dervieux was granted an option to purchase 3,015,000, 600,000 and 475,000 shares of our common stock, respectively, with an exercise price of $0.18 per share. The stock options vest as to 25% of the total number of option shares on the first anniversary of the date of grant and in equal monthly installments over the ensuing 36 months, subject to the employee's continued employment with us on the vesting date.

Prior to the effectiveness of this offering, we intend to adopt a 2014 Incentive Award Plan, referred to below as the 2014 Plan, in order to facilitate the grant of cash and equity incentives to directors, employees (including our named executive officers) and consultants of our company and certain of our affiliates and to enable our company and certain of our affiliates to obtain and retain services of these individuals, which is essential to our long-term success. For additional information about the 2014 Plan, please see the section titled "Equity Incentive Award Plans" below.

Other Elements of Compensation

Retirement Plans

We currently maintain a 401(k) retirement savings plan that allows eligible employees to defer a portion of their compensation, within limits prescribed by the Internal Revenue Code, on a pre-tax basis through

contributions to the plan. Our named executive officers are eligible to participate in the 401(k) plan on the same terms as other full-time employees generally. Currently, we make employer contributions under the 401(k) plan up to a specified percentage, and these employer contributions are fully vested as of the date on which the contribution is made. We believe that providing a vehicle for tax-deferred retirement savings though our 401(k) plan, and making employer contributions, adds to the overall desirability of our executive compensation package and further incentivizes our employees, including our named executive officers, in accordance with our compensation policies.

Employee Benefits and Perquisites

Our named executive officers are eligible to participate in our health and welfare plans to the same extent as all full-time employees generally. We do not provide our named executive officers with any other perquisites or other personal benefits.

No Tax Gross-Ups

To date, we have not made gross-up payments to cover our named executive officers' personal income taxes that may pertain to any of the compensation paid or provided by our company.

Change in Control Benefits

Our named executive officers may become entitled to certain benefits or enhanced benefits in connection with a change in control of our company. Dr. Dervieux's offer letter entitles him to accelerated vesting of those stock options granted to him in connection with his commencement of employment in the event of an acquisition of our company. In addition, stock options granted to our employees, including our named executive officers, may be subject to acceleration in connection with a change in control under our equity plans, as described below under "—Equity Incentive Award Plans."

In October 2011, we entered into a director and consulting services agreement with Mr. Riccitelli, which was amended in December 2011. Pursuant to this agreement, Mr. Riccitelli receives $24,000 per year, payable monthly, for his service as a member of our board of directors. In addition, Mr. Riccitelli may provide consulting services to us from time to time, for which he will be compensated at the rate of $300 per hour or $2,400 per full day worked. Mr. Riccitelli did not provide any consulting services to us pursuant to this agreement during 2013 and has not done so to date during 2014. The director and consulting services agreement with Mr. Riccitelli will be terminated effective upon consummation of this offering and will be superseded by our new non-employee director compensation program, as described below.

In September 2010, we entered into a director and consulting services agreement with Mr. Walsh, which was amended in July 2011 and March 2012. Pursuant to this agreement, Mr. Walsh receives $24,000 per year, payable monthly, for his service as a member of our board of directors. In addition, Mr. Walsh may provide consulting services to us from time to time, for which he will be compensated at the rate of $300 per hour or $2,400 per full day worked. Mr. Walsh did not provide any consulting services to us pursuant to this agreement during 2013 and has not done so to date during 2014. The director and consulting services agreement with Mr. Walsh will be terminated effective upon consummation of this offering and will be superseded by our new non-employee director compensation program, as described below.

In November 2013, we entered into a director and consulting services agreement with Dr. Weinstein, pursuant to which he receives $18,000 per year, payable monthly, for his service as a member of our board of directors. In addition, Dr. Weinstein has provided and may continue to provide consulting services to us from

time to time, for which he is compensated at the rate of $300 per hour or $2,400 per full day worked. In 2013 and the first quarter of 2014, Dr. Weinstein was paid de minimis amounts for his consulting services to us. The director and consulting services agreement with Dr. Weinstein will be terminated effective upon consummation of this offering and will be superseded by our new non-employee director compensation program, as described below.

Following the effectiveness of this offering, we intend to approve and implement a compensation program for our non-employee directors that will consist of annual retainer fees and long-term equity awards. We expect each non-employee director will receive an annual cash retainer for his or her services in an amount equal to $ and additional amounts that have not yet been determined for service on board committees. We further expect that non-employee directors will also receive initial grants of options to purchase shares of our common stock, vesting over years, upon election to the board of directors, and thereafter annual grants of options to purchase shares of our common stock on the date of each annual meeting of stockholders, vesting over years.

Equity Incentive Award Plans

2014 Incentive Award Plan

Concurrently with this offering, we intend to establish the Exagen Diagnostics, Inc. 2014 Incentive Award Plan, or the 2014 Plan. We expect our board of directors to adopt, and our stockholders to approve, the 2014 Plan prior to the completion of this offering. The 2014 Plan will become effective on the day prior to the public trading date of our common stock. The material terms of the 2014 Plan, as it is currently contemplated, are summarized below. Our board of directors is still in the process of developing, approving and implementing the 2014 Plan and, accordingly, this summary is subject to change.

Authorized Shares. A total of shares of our common stock will initially be reserved for issuance under the 2014 Plan. In addition, the number of shares initially reserved under the 2014 Plan will be increased by (1) the number of shares that as of the completion of this offering, have been reserved but not issued pursuant to any awards granted under our 2013 Plan (as defined below) and are not subject to any awards granted thereunder, and (2) the number of shares subject to stock options or similar awards granted under our 2013 Plan that expire or otherwise terminate without having been exercised in full and unvested shares issued pursuant to awards granted under the 2013 Plan that are forfeited to or repurchased by us, with the maximum number of shares to be added to the 2014 Plan pursuant to clauses (1) and (2) above equal to shares. In addition, the number of shares available for issuance under the 2014 Plan will be annually increased on the first day of each of our fiscal years during the term of the 2014 Plan, beginning with the 2015 fiscal year, by an amount equal to the least of:

- shares;
- % of the outstanding shares of our common stock as of the last day of our immediately preceding fiscal year; or
- such other amount as our board of directors may determine.

The 2014 Plan will also provide for an aggregate limit of shares of common stock that may be issued under the 2014 Plan over the course of its ten-year term.

Shares issued pursuant to awards under the 2014 Plan that we repurchase or that are forfeited, as well as shares used to pay the exercise price of an award or to satisfy the tax withholding obligations related to an award, will become available for future grant under the 2014 Plan. In addition, to the extent that an award is paid out in cash rather than shares, such cash payment will not reduce the number of shares available for issuance under the 2014 Plan.

Plan Administration. The compensation committee of our board of directors will administer the 2014 Plan (except with respect to any award granted to "independent directors" (as defined in the 2014 Plan), which must be administered by our full board of directors). Following the completion of this offering, to administer the 2014

Plan, our compensation committee must consist solely of at least two members of our board of directors, each of whom is a "non-employee director" for purposes of Rule 16b-3 under the Securities Exchange Act of 1934, as amended, or the Exchange Act, and, with respect to awards that are intended to constitute performance-based compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended, or the Code, an "outside director" for purposes of Section 162(m). Subject to the terms and conditions of the 2014 Plan, our compensation committee has the authority to select the persons to whom awards are to be made, to determine the type or types of awards to be granted to each person, the number of awards to grant, the number of shares to be subject to such awards, and the terms and conditions of such awards, and to make all other determinations and decisions and to take all other actions necessary or advisable for the administration of the 2014 Plan. Our compensation committee is also authorized to establish, adopt, amend or revise rules relating to administration of the 2014 Plan. Our board of directors may at any time revest in itself the authority to administer the 2014 Plan.

Eligibility. Options, stock appreciation rights, or SARs, restricted stock and other awards under the 2014 Plan may be granted to individuals who are then our officers or employees or are the officers or employees of any of our subsidiaries. Such awards may also be granted to our non-employee directors and consultants but only employees may be granted incentive stock options, or ISOs. As of December 31, 2013, there were six non-employee directors and 53 employees who would have been eligible for awards under the 2014 Plan had it been in effect on such date. At such time after the completion of this offering when we are subject to the requirements of Section 162(m) of the Code, the maximum number of shares that may be subject to awards granted under the 2014 Plan to any individual other than a non-employee director in any calendar year cannot exceed and the maximum amount that may be paid to a participant in cash during any calendar year with respect to one or more cash based awards under the 2014 Plan is $. In addition, the maximum number of shares of our common stock that may be subject to one or more awards granted to any non-employee director pursuant to the 2014 Plan during any calendar year cannot exceed shares.

Awards. The 2014 Plan provides that our compensation committee (or the board of directors, in the case of awards to non-employee directors) may grant or issue stock options, SARs, restricted stock, restricted stock units, dividend equivalents, stock payments and performance awards, or any combination thereof. Our compensation committee (or the board of directors, in the case of awards to non-employee directors) will consider each award grant subjectively, considering factors such as the individual performance of the recipient and the anticipated contribution of the recipient to the attainment of our long-term goals. Each award will be set forth in a separate agreement with the person receiving the award and will indicate the type, terms and conditions of the award.

- Nonqualified stock options, or NQSOs, will provide for the right to purchase shares of our common stock at a specified price which may not be less than the fair market value of a share of common stock on the date of grant, and usually will become exercisable (at the discretion of our compensation committee or our board of directors, in the case of awards to non-employee directors) in one or more installments after the grant date, subject to the participant's continued employment or service with us and/or subject to the satisfaction of performance targets established by our compensation committee (or our board of directors, in the case of awards to non-employee directors). NQSOs may be granted for any term specified by our compensation committee (or our board of directors, in the case of awards to non-employee directors).
- ISOs will be designed to comply with the provisions of the Code and will be subject to specified restrictions contained in the Code. Among such restrictions, ISOs must have an exercise price of not less than the fair market value of a share of common stock on the date of grant, may only be granted to employees, must expire within a specified period of time following the optionee's termination of employment, and must be exercised within ten years after the date of grant. In the case of an ISO granted to an individual who owns (or is deemed to own) more than 10% of the total combined voting power of all classes of our capital stock, the 2014 Plan provides that the exercise price must be at least 110% of the fair market value of a share of common stock on the date of grant and the ISO must expire upon the fifth anniversary of the date of grant.

- Restricted stock may be granted to participants and made subject to such restrictions as may be determined by our compensation committee (or our board of directors, in the case of awards to non-employee directors). Typically, restricted stock may be forfeited for no consideration if the conditions or restrictions are not met, and it may not be sold or otherwise transferred to third parties until the restrictions are removed or expire. Recipients of restricted stock, unlike recipients of options, may have voting rights and may receive dividends, if any, prior to the time when the restrictions lapse.
- Restricted stock units may be awarded to participants, typically without payment of consideration or for a nominal purchase price, but subject to vesting conditions including continued employment or performance criteria established by our compensation committee (or our board of directors, in the case of awards to non-employee directors). Like restricted stock, restricted stock units may not be sold or otherwise transferred or hypothecated until vesting conditions are removed or expire. Unlike restricted stock, stock underlying restricted stock units will not be issued until the restricted stock units have vested, and recipients of restricted stock units generally will have no voting or dividend rights prior to the time when vesting conditions are satisfied.
- SARs granted under the 2014 Plan typically will provide for payments to the holder based upon increases in the price of our common stock over the exercise price of the SAR. Except as required by Section 162(m) of the Code with respect to SARs intended to qualify as performance-based compensation as described in Section 162(m) of the Code, there are no restrictions specified in the 2014 Plan on the exercise of SARs or the amount of gain realizable therefrom. Our compensation committee (or the board of directors, in the case of awards to non-employee directors) may elect to pay SARs in cash or in common stock or in a combination of both.
- Dividend equivalents represent the value of the dividends, if any, per share paid by us, calculated with reference to the number of shares covered by the stock options, SARs or other awards held by the participant.
- Performance awards may be granted by our compensation committee on an individual or group basis. Generally, these awards will be based upon the attainment of specific performance goals that are established by our compensation committee and relate to one or more performance criteria on a specified date or dates determined by our compensation committee. Any such cash bonus paid to a “covered employee” within the meaning of Section 162(m) of the Code may be, but need not be, qualified performance-based compensation as described below and will be paid in cash.
- Stock payments may be authorized by our compensation committee (or our board of directors, in the case of awards to non-employee directors) in the form of common stock or an option or other right to purchase common stock as part of a deferred compensation arrangement, made in lieu of all or any part of compensation, including bonuses, that would otherwise be payable to employees, consultants or members of our board of directors.

Transferability of Awards. Unless the administrator provides otherwise, our 2014 Plan generally does not allow for the transfer of awards and only the recipient of an option or SAR may exercise such an award during his or her lifetime.

Qualified Performance-Based Compensation. The compensation committee may designate employees as “covered employees” whose compensation for a given fiscal year may be subject to the limit on deductible compensation imposed by Section 162(m) of the Code. The compensation committee may grant to such covered employees restricted stock, dividend equivalents, stock payments, restricted stock units, cash bonuses and other stock-based awards that are paid, vest or become exercisable upon the attainment of company performance criteria which are related to one or more of the following performance criteria as applicable to our performance or the performance of a division, business unit or an individual: operating or other costs and expenses, improvements in expense levels, cash flow (including, but not limited to, operating cash flow and free cash flow), return on assets, return on capital, stockholders’ equity, return on stockholders’ equity, total stockholder return, return on sales, gross or net profit or operating margin, working capital, net earnings (either before or after

interest, taxes, depreciation and amortization), gross or net sales or revenue, net income (either before or after taxes), adjusted net income, operating earnings, earnings per share of stock, adjusted earnings per share of stock, price per share of stock, regulatory body approval for commercialization of a product, capital raised in financing transactions or other financing milestones, market recognition (including but not limited to awards and analyst ratings), financial ratios, implementation or completion of critical projects, market share, economic value, comparisons with various stock market indices, and implementation, completion or attainment of objectively determinable objectives relating to research, development, regulatory, commercial or strategic milestones or development. These performance criteria may be measured in absolute terms or as compared to performance in an earlier period or as compared to any incremental increase or decrease or as compared to results of a peer group or to market performance indicators or indices.

The compensation committee may provide that one or more objectively determinable adjustments will be made to one or more of the performance goals established for any performance period. Such adjustments may include one or more of the following: items related to a change in accounting principle, items relating to financing activities, expenses for restructuring or productivity initiatives, other non-operating items, items related to acquisitions, items attributable to the business operations of any entity acquired by us during the performance period, items related to the disposal of a business or segment of a business, items related to discontinued operations that do not qualify as a segment of a business under applicable accounting standards, items attributable to any stock dividend, stock split, combination or exchange of shares occurring during the performance period, any other items of significant income or expense which are determined to be appropriate adjustments, items relating to unusual or extraordinary corporate transactions, events or developments, items related to amortization of acquired intangible assets, items that are outside the scope of our core, on-going business activities, items related to acquired in-process research and development, items relating to changes in tax laws, items relating to major licensing or partnership arrangements, items relating to asset impairment charges, items relating to gains and losses for litigation, arbitration or contractual settlements, or items relating to any other unusual or nonrecurring events or changes in applicable laws, accounting principles or business conditions.

Forfeiture, Recoupment and Clawback Provisions. Pursuant to its general authority to determine the terms and conditions applicable to awards under the 2014 Plan, the compensation committee has the right to provide, in an award agreement or otherwise, that an award shall be subject to the provisions of any recoupment or clawback policies implemented by us, including, without limitation, any recoupment or clawback policies adopted to comply with the requirements of the Dodd-Frank Wall Street Reform and Consumer Protection Act and any rules or regulations promulgated thereunder.

Adjustments. If there is any stock dividend, stock split, combination or exchange of shares, merger, consolidation or other distribution (other than normal cash dividends) of our assets to stockholders, or any other change affecting the shares of our common stock or the share price of our common stock other than an equity restructuring (as defined in the 2014 Plan), the plan administrator may make such equitable adjustments, if any, as the plan administrator in its discretion may deem appropriate to reflect such change with respect to (1) the aggregate number and type of shares that may be issued under the 2014 Plan (including, but not limited to, adjustments of the number of shares available under the 2014 Plan and the maximum number of shares which may be subject to one or more awards to a participant pursuant to the 2014 Plan during any calendar year), (2) the number and kind of shares, or other securities or property, subject to outstanding awards, (3) the number and kind of shares, or other securities or property, for which automatic grants are to be subsequently made to new and continuing non-employee directors, (4) the terms and conditions of any outstanding awards (including, without limitation, any applicable performance targets or criteria with respect thereto), and (5) the grant or exercise price per share for any outstanding awards under the 2014 Plan. If there is any equity restructuring, (1) the number and type of securities subject to each outstanding award and the grant or exercise price per share for each outstanding award, if applicable, will be proportionately adjusted, and (2) the plan administrator will make proportionate adjustments to reflect such equity restructuring with respect to the aggregate number and type of shares that may be issued under the 2014 Plan (including, but not limited to, adjustments of the number of shares available under the 2014 Plan and the maximum number of shares which may be subject to one or more

awards to a participant pursuant to the 2014 Plan during any calendar year). Adjustments in the event of an equity restructuring will not be discretionary. Any adjustment affecting an award intended as "qualified performance-based compensation" will be made consistent with the requirements of Section 162(m) of the Code. The plan administrator also has the authority under the 2014 Plan to take certain other actions with respect to outstanding awards in the event of a corporate transaction, including provision for the cash-out, termination, assumption or substitution of such awards.

Corporate Transactions. In the event of a change in control where the acquirer does not assume awards granted under the 2014 Plan, awards issued under the 2014 Plan will be subject to accelerated vesting such that 100% of the awards will become vested and exercisable or payable, as applicable. Under the 2014 Plan, a change in control is generally defined as:

- a transaction or series of related transactions (other than an offering of our stock to the general public through a registration statement filed with the Securities and Exchange Commission, or SEC) whereby any person or entity or related group of persons or entities (other than us, our subsidiaries, an employee benefit plan maintained by us or any of our subsidiaries or a person or entity that, prior to such transaction, directly or indirectly controls, is controlled by, or is under common control with, us) directly or indirectly acquires beneficial ownership (within the meaning of Rule 13d-3 under the Exchange Act) of more than 50% of the total combined voting power of our securities outstanding immediately after such acquisition;
- during any two-year period, individuals who, at the beginning of such period, constitute our board of directors together with any new director(s) whose election by our board of directors or nomination for election by our stockholders was approved by a vote of at least two-thirds of the directors then still in office who either were directors at the beginning of the two-year period or whose election or nomination for election was previously so approved, cease for any reason to constitute a majority of our board of directors;
- our consummation (whether we are directly or indirectly involved through one or more intermediaries) of (x) a merger, consolidation, reorganization, or business combination or (y) the sale or other disposition of all or substantially all of our assets in any single transaction or series of transactions or (z) the acquisition of assets or stock of another entity, in each case other than a transaction:
    - which results in our voting securities outstanding immediately before the transaction continuing to represent (either by remaining outstanding or by being converted into our voting securities or the voting securities of the person that, as a result of the transaction, controls us, directly or indirectly, or owns, directly or indirectly, all or substantially all of our assets or otherwise succeeds to our business (we or such person being referred to as a successor entity)) directly or indirectly, at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction; and
    - after which no person or group beneficially owns voting securities representing 50% or more of the combined voting power of the successor entity; provided, however, that no person or group is treated as beneficially owning 50% or more of combined voting power of the successor entity solely as a result of the voting power held in us prior to the consummation of the transaction; or
    - our stockholders approve a liquidation or dissolution of the company.

Amendment, Termination. Our board of directors has the authority to amend, suspend or terminate the 2014 Plan at any time. However, stockholder approval of any amendment to the 2014 Plan will be obtained to the extent necessary to comply with any applicable law, regulation or stock exchange rule. Additionally, stockholder approval is required within 12 months of an increase in the maximum number of shares issuable under the 2014 Plan or that may be issued to an individual in any calendar year. Except as necessary to comply with Section 409A of the Code, no amendment, suspension or termination of the 2014 Plan will impair the rights or obligations of a holder under an award theretofore granted, unless such award expressly so provides or such

holder consents. If not terminated earlier by our board of directors, the 2014 Plan will terminate on the tenth anniversary of the date it becomes effective.

Repricing Permitted. Our compensation committee (or the board of directors, in the case of awards to non-employee directors) shall have the authority, without the approval of our stockholders, to authorize the amendment of any outstanding award to reduce its price per share and to provide that an award will be canceled and replaced with the grant of an award having a lesser price per share.

Securities Laws and Federal Income Taxes. The 2014 Plan is designed to comply with various securities and federal tax laws as follows:

Securities Laws. The 2014 Plan is intended to conform to all provisions of the Securities Act and the Exchange Act and any and all regulations and rules promulgated by the SEC thereunder, including, without limitation, Rule 16b-3. The 2014 Plan will be administered, and awards will be granted and may be exercised, only in such a manner as to conform to such laws, rules and regulations.

Federal Income Tax Consequences. The material federal income tax consequences of the 2014 Plan under current federal income tax law are summarized in the following discussion, which deals with the general tax principles applicable to the 2014 Plan. The following discussion is based upon laws, regulations, rulings and decisions now in effect, all of which are subject to change. Foreign, state and local tax laws, and employment, estate and gift tax considerations are not discussed due to the fact that they may vary depending on individual circumstances and from locality to locality.

- *Stock Options and Stock Appreciation Rights.* A 2014 Plan participant generally will not recognize taxable income and we generally will not be entitled to a tax deduction upon the grant of a stock option or stock appreciation right. The tax consequences of exercising a stock option and the subsequent disposition of the shares received upon exercise will depend upon whether the option qualifies as an ISO as defined in Section 422 of the Code. The 2014 Plan permits the grant of options that are intended to qualify as ISOs as well as options that are not intended to so qualify; however, ISOs generally may be granted only to our employees and employees of our parent or subsidiary corporations, if any. Upon exercising an option that does not qualify as an ISO when the fair market value of our stock is higher than the exercise price of the option, a 2014 Plan participant generally will recognize taxable income at ordinary income tax rates equal to the excess of the fair market value of the stock on the date of exercise over the purchase price, and we (or our subsidiaries, if any) generally will be entitled to a corresponding tax deduction for compensation expense, in the amount equal to the amount by which the fair market value of the shares purchased exceeds the purchase price for the shares. Upon a subsequent sale or other disposition of the option shares, the participant will recognize a short-term or long-term capital gain or loss in the amount of the difference between the sales price of the shares and the participant’s tax basis in the shares.

  Upon exercising an ISO, a 2014 Plan participant generally will not recognize taxable income, and we will not be entitled to a tax deduction for compensation expense. However, upon exercise, the amount by which the fair market value of the shares purchased exceeds the purchase price will be an item of adjustment for alternative minimum tax purposes. The participant will recognize taxable income upon a sale or other taxable disposition of the option shares. For federal income tax purposes, dispositions are divided into two categories: qualifying and disqualifying. A qualifying disposition generally occurs if the sale or other disposition is made more than two years after the date the option was granted and more than one year after the date the shares are transferred upon exercise. If the sale or disposition occurs before these two periods are satisfied, then a disqualifying disposition generally will result.

  Upon a qualifying disposition of ISO shares, the participant will recognize long-term capital gain in an amount equal to the excess of the amount realized upon the sale or other disposition of the shares over their purchase price. If there is a disqualifying disposition of the shares, then the excess of the fair market value of the shares on the exercise date (or, if less, the price at which the shares are sold) over

their purchase price will be taxable as ordinary income to the participant. If there is a disqualifying disposition in the same year of exercise, it eliminates the item of adjustment for alternative minimum tax purposes. Any additional gain or loss recognized upon the disposition will be recognized as a capital gain or loss by the participant.

We will not be entitled to any tax deduction if the participant makes a qualifying disposition of ISO shares. If the participant makes a disqualifying disposition of the shares, we should be entitled to a tax deduction for compensation expense in the amount of the ordinary income recognized by the participant.

Upon exercising or settling an SAR, a 2014 Plan participant will recognize taxable income at ordinary income tax rates, and we should be entitled to a corresponding tax deduction for compensation expense, in the amount paid or value of the shares issued upon exercise or settlement. Payments in shares will be valued at the fair market value of the shares at the time of the payment, and upon the subsequent disposition of the shares the participant will recognize a short-term or long-term capital gain or loss in the amount of the difference between the sales price of the shares and the participant's tax basis in the shares.

- *Restricted Stock and Restricted Stock Units*. A 2014 Plan participant generally will not recognize taxable income at ordinary income tax rates and we generally will not be entitled to a tax deduction upon the grant of restricted stock or restricted stock units. Upon the termination of restrictions on restricted stock or the payment of restricted stock units, the participant will recognize taxable income at ordinary income tax rates, and we should be entitled to a corresponding tax deduction for compensation expense, in the amount paid to the participant or the amount by which the then fair market value of the shares received by the participant exceeds the amount, if any, paid for them. Upon the subsequent disposition of any shares, the participant will recognize a short-term or long-term capital gain or loss in the amount of the difference between the sales price of the shares and the participant's tax basis in the shares. However, a 2014 Plan participant granted restricted stock that is subject to forfeiture or repurchase through a vesting schedule such that it is subject to a "risk of forfeiture" (as defined in Section 83 of the Code) may make an election under Section 83(b) of the Code to recognize taxable income at ordinary income tax rates, at the time of the grant, in an amount equal to the fair market value of the shares of common stock on the date of grant, less the amount paid, if any, for such shares. We will be entitled to a corresponding tax deduction for compensation, in the amount recognized as taxable income by the participant. If a timely Section 83(b) election is made, the participant will not recognize any additional ordinary income on the termination of restrictions on restricted stock, and we will not be entitled to any additional tax deduction.
- *Dividend Equivalents, Stock Payment Awards and Cash-Based Awards*. A 2014 Plan participant will not recognize taxable income and we will not be entitled to a tax deduction upon the grant of dividend equivalents, stock payment awards or cash-based awards until cash or shares are paid or distributed to the participant. At that time, any cash payments or the fair market value of shares that the participant receives will be taxable to the participant at ordinary income tax rates and we should be entitled to a corresponding tax deduction for compensation expense. Payments in shares will be valued at the fair market value of the shares at the time of the payment, and upon the subsequent disposition of the shares, the participant will recognize a short-term or long-term capital gain or loss in the amount of the difference between the sales price of the shares and the participant's tax basis in the shares.
- *Section 409A of the Code.* Certain types of awards under the 2014 Plan may constitute, or provide for, a deferral of compensation under Section 409A. Unless certain requirements set forth in Section 409A are complied with, holders of such awards may be taxed earlier than would otherwise be the case (e.g., at the time of vesting instead of the time of payment) and may be subject to an additional 20% federal income tax (and, potentially, certain interest penalties). To the extent applicable, the 2014 Plan and awards granted under the 2014 Plan will be structured and interpreted to comply with Section 409A and the Department of Treasury regulations and other interpretive guidance that may be issued pursuant to Section 409A.

- *Section 162(m) Limitation.* In general, under Section 162(m) of the Code, income tax deductions of publicly held corporations may be limited to the extent total compensation (including base salary, annual bonus, stock option exercises and non-qualified benefits paid) for certain executive officers exceeds $1.0 million (less the amount of any "excess parachute payments" as defined in Section 280G of the Code) in any one year. However, under Section 162(m), the deduction limit does not apply to certain "performance-based compensation" if an independent compensation committee determines performance goals and if the material terms of the performance-based compensation are disclosed to and approved by our stockholders. In particular, stock options and SARs will satisfy the "performance-based compensation" exception if the awards are made by a qualifying compensation committee, the plan sets the maximum number of shares that can be granted to any person within a specified period and the compensation is based solely on an increase in the stock price after the grant date. Specifically, the option exercise price must be equal to or greater than the fair market value of the stock subject to the award on the grant date. Under a Section 162(m) transition rule for compensation plans of corporations which are privately held and which become publicly held in an initial public offering, certain awards under the 2014 Plan will not be subject to Section 162(m) until a specified transition date, which is the earlier of (1) the material modification of the 2014 Plan, (2) the issuance of all employer stock and other compensation that has been allocated under the 2014 Plan, or (3) the first annual meeting of stockholders at which directors are to be elected that occurs after the close of the third calendar year following the calendar year in which the initial public offering occurs. After the transition date, rights or awards granted under the 2014 Plan, other than options and SARs, will not qualify as "performance-based compensation" for purposes of Section 162(m) unless such rights or awards are granted or vest upon pre-established objective performance goals, the material terms of which are disclosed to and approved by our stockholders.

  We have attempted to structure the 2014 Plan in such a manner that, after the transition date, the compensation attributable to stock options and SARs which meet the other requirements of Section 162(m) will not be subject to the $1.0 million limitation. We have not, however, requested a ruling from the Internal Revenue Service or an opinion of counsel regarding this issue.

2013 Stock Option Plan

Our board of directors and certain of our stockholders approved the Exagen Diagnostics, Inc. 2013 Stock Option Plan, or the 2013 Plan, which became effective in December 2012.

As of March 31, 2014, a total of 1,708,000 shares of our common stock were reserved for issuance under the 2013 Plan. As of March 31, 2014, 348,000 shares of our common stock were subject to outstanding option awards and 1,360,000 shares of our common stock remained available for future issuance. The 2013 Plan will expire in December 2022 unless earlier terminated by our board of directors. Following the effectiveness of the 2014 Plan, no additional awards will be granted under the 2013 Plan.

Administration. The board of directors administers the 2013 Plan. Subject to the terms and conditions of the 2013 Plan, the administrator has the authority to select the persons to whom awards are to be made, to determine the type or types of awards to be granted to each person, determine the number of awards to grant, determine the number of shares to be subject to such awards, and the terms and conditions of such awards, and make all other determinations and decisions and to take all other actions necessary or advisable for the administration of the 2013 Plan. The plan administrator is also authorized to establish, adopt, amend or revise rules relating to administration of the 2013 Plan, subject to certain restrictions.

Eligibility. Options may be granted to individuals who are then our employees, consultants and members of our board of directors. Only employees may be granted ISOs.

Awards. The 2013 Plan permits the award of stock options. Only stock options have been granted under the 2013 Plan to date. Each award is set forth in a separate agreement with the person receiving the award and indicates the type, terms and conditions of the award.

- NQSOs provide for the right to purchase shares of our common stock at a specified price which may not be less than the fair market value of a share of stock on the date of grant, and usually will become exercisable (at the discretion of our board of directors) in one or more installments after the grant date, subject to the participant's continued employment or service with us and/or subject to the satisfaction of performance targets established by our compensation committee (or the board of directors, in the case of awards to non-employee directors). NQSOs may be granted for any term specified by our compensation committee (or the board of directors, in the case of awards to non-employee directors), but the term may not exceed ten years.
- ISOs are designed to comply with the provisions of the Internal Revenue Code and are subject to specified restrictions contained in the Internal Revenue Code applicable to ISOs. Among such restrictions, ISOs must have an exercise price of not less than the fair market value of a share of common stock on the date of grant, may only be granted to employees, must expire within a specified period of time following the optionee's termination of employment, and must be exercised within the ten years after the date of grant. In the case of an ISO granted to an individual who owns (or is deemed to own) more than 10% of the total combined voting power of all classes of our capital stock on the date of grant, the 2013 Plan provides that the exercise price must be at least 110% of the fair market value of a share of common stock on the date of grant and the ISO must expire on the fifth anniversary of the date of its grant.

Corporate Transactions. In the event of a change of control, all outstanding stock options will become fully vested and exercisable for the 30-day period immediately preceding the closing of such transaction (provided that the exercise of any stock option that would have been unvested but for the consummation of the change in control will be subject to the closing of the transaction). In addition, in the event of a change in control, the board of directors may provide for the cash-out of outstanding stock options for an amount equal to the fair market value of the shares of our common stock subject to the stock option less the exercise price of such option. Any options that are outstanding as of the consummation of a change in control will terminate unless the acquirer assumes such awards. Under the 2013 Plan, a change of control is generally defined as:

- a merger or consolidation in which securities possessing more than 50% of the total combined voting power of our outstanding securities are transferred to a person or persons different from the persons holding those securities immediately prior to such transaction; or
- the sale, transfer or other disposition of all or substantially all of our assets in complete liquidation or dissolution of our company.

Amendment or Termination of the 2013 Plan. Our board of directors may terminate, amend or modify the 2013 Plan, provided that any termination of the plan must be upon 30 days' written notice to participants. However, stockholder approval of any amendment to the 2013 Plan must be obtained to reduce the option price per share after the option has been granted or the extent necessary and desirable to comply with any applicable law, regulation or stock exchange rule.

Securities Laws and Federal Income Taxes. The 2013 Plan is designed to comply with applicable securities laws in the same manner as described above in the description of the 2014 Plan under the heading "—2014 Incentive Award Plan—Securities Laws and Federal Income Taxes—Securities Laws." The general federal tax consequences of awards under the 2013 Plan are the same as those described above in the description of the 2014 Plan under the heading "—2014 Incentive Award Plan—Securities Laws and Federal Income Taxes—Federal Income Taxes."

2002 Stock Option Plan

On January 29, 2002, our board of directors and our stockholders approved the Exagen Corporation Stock Option Plan, as amended, or the 2002 Plan.

As of March 31, 2014, 8,462,016 shares of our common stock were subject to outstanding option awards under the 2002 Plan. The 2002 Plan expired in accordance with its terms in December 2012 and no additional awards will be granted under the 2002 Plan.

Administration. The board of directors administers the 2002 Plan. Subject to the terms and conditions of the 2002 Plan, the administrator has the authority to select the persons to whom awards are to be made, to determine the type or types of awards to be granted to each person, determine the number of awards to grant, determine the number of shares to be subject to such awards, and the terms and conditions of such awards, and make all other determinations and decisions and to take all other actions necessary or advisable for the administration of the 2002 Plan. The plan administrator is also authorized to establish, adopt, amend or revise rules relating to administration of the 2002 Plan, subject to certain restrictions.

Eligibility. Options were able to be granted to individuals who are then our employees, consultants and members of our board of directors. Only employees may be granted ISOs.

Awards. The 2002 Plan permitted the award of stock options. Only stock options were granted under the 2002 Plan. Each award is set forth in a separate agreement with the person receiving the award and indicates the type, terms and conditions of the award.

- NQSOs provide for the right to purchase shares of our common stock at a specified price which may not be less than the fair market value of a share of stock on the date of grant, and usually will become exercisable (at the discretion of our board of directors) in one or more installments after the grant date, subject to the participant's continued employment or service with us and/or subject to the satisfaction of performance targets established by our compensation committee (or the board of directors, in the case of awards to non-employee directors). NQSOs may be granted for any term specified by our compensation committee (or the board of directors, in the case of awards to non-employee directors), but the term may not exceed ten years.
- ISOs are designed to comply with the provisions of the Internal Revenue Code and are subject to specified restrictions contained in the Internal Revenue Code applicable to ISOs. Among such restrictions, ISOs must have an exercise price of not less than the fair market value of a share of common stock on the date of grant, may only be granted to employees, must expire within a specified period of time following the optionee's termination of employment, and must be exercised within the ten years after the date of grant. In the case of an ISO granted to an individual who owns (or is deemed to own) more than 10% of the total combined voting power of all classes of our capital stock on the date of grant, the 2002 Plan provides that the exercise price must be at least 110% of the fair market value of a share of common stock on the date of grant and the ISO must expire on the fifth anniversary of the date of its grant.

Corporate Transactions. In the event of a change of control where the acquirer does not assume awards granted under the 2002 Plan, awards issued under the 2002 Plan will terminate as of a date to be fixed by our board of directors. Under the 2002 Plan, a change of control is generally defined as a statutory merger, statutory consolidation, sale of all or substantially all of our assets or sale of securities pursuant to which we become a wholly-owned subsidiary of another corporation, or a dissolution or liquidation.

Amendment of the 2002 Plan. Our board of directors may amend or modify the 2002 Plan. However, stockholder approval of any amendment to the 2002 Plan must be obtained to reduce the option price per share

after the option has been granted or the extent necessary and desirable to comply with any applicable law, regulation or stock exchange rule.

Securities Laws and Federal Income Taxes. The 2002 Plan is designed to comply with applicable securities laws in the same manner as described above in the description of the 2014 Plan under the heading "—2014 Incentive Award Plan—Securities Laws and Federal Income Taxes—Securities Laws." The general federal tax consequences of awards under the 2002 Plan are the same as those described above in the description of the 201 Plan under the heading "—2014 Incentive Award Plan—Securities Laws and Federal Income Taxes—Federal Income Taxes."

2014 Employee Stock Purchase Plan

Concurrently with this offering, we intend to establish the Exagen Diagnostics, Inc. 2014 Employee Stock Purchase Plan, or the ESPP. We expect our board of directors to adopt, and our stockholders to approve, the ESPP prior to the completion of this offering. The ESPP will become effective on the business day prior to the public trading date of our common stock. Our executive officers and all of our other employees will be allowed to participate in our ESPP, subject to the eligibility requirements described below. The material terms of the ESPP, as it is currently contemplated, are summarized below. Our board of directors is still in the process of developing, approving and implementing the ESPP and, accordingly, this summary is subject to change.

A total of shares of our common stock will initially be reserved for issuance under our ESPP. In addition, the number of shares available for issuance under the ESPP will be annually increased on the first day of each fiscal year during the term of the ESPP, beginning with the 2015 fiscal year, by an amount equal to the lesser of:

- shares;
- % of the outstanding shares of our common stock as of the last day of our immediately preceding fiscal year; or
- such other amount as may be determined by our board of directors.

The ESPP will also provide for an aggregate limit of shares of common stock that may be issued under the ESPP during the term of the ESPP.

Our board of directors or its committee has full and exclusive authority to interpret the terms of the ESPP and determine eligibility. We expect that our compensation committee will be the initial administrator of the ESPP.

Our employees are eligible to participate in the ESPP if they are customarily employed by us or any participating subsidiary for at least 20 hours per week and more than five months in any calendar year. However, an employee may not be granted rights to purchase stock under our ESPP if such employee, immediately after the grant, would own (directly or through attribution) stock possessing 5% or more of the total combined voting power or value of all classes of our common or other class of stock.

Our ESPP is intended to qualify under Code Section 423 and stock will be offered under the ESPP during offering periods. The length of the offering periods under the ESPP will be determined by our compensation committee and may be up to 27 months long. Employee payroll deductions will be used to purchase shares on each purchase date during an offering period. The purchase dates will be determined by the compensation committee for each offering period, but will generally be the last day in each offering period. Offering periods under the ESPP will commence when determined by our compensation committee. The compensation committee may, in its discretion, modify the terms of future offering periods.

Our ESPP permits participants to purchase common stock through payroll deductions of up to % of their eligible compensation, which includes a participant's gross base compensation for services to the company, excluding overtime payments, sales commissions, incentive compensation, bonuses, expense reimbursements, fringe benefits and other special payments. A participant may purchase a maximum of shares of common stock during each offering period. In addition, no employee will be permitted to accrue the right to purchase stock under the ESPP at a rate in excess of $25,000 worth of shares during any calendar year during which such a purchase right is outstanding (based on the fair market value per share of our common stock as of the first day of the offering period).

On the first trading day of each offering period, each participant automatically is granted an option to purchase shares of our common stock. The option expires at the end of the offering period or upon termination of employment, whichever is earlier, but is exercised at the end of each purchase period to the extent of the payroll deductions accumulated during such purchase period. The purchase price of the shares will be 85% of the lower of the fair market value of our common stock on the first trading day of the offering period or on the applicable purchase date. Participants may end their participation at any time during an offering period, and will be paid their accrued payroll deductions that have not yet been used to purchase shares of common stock. Participation ends automatically upon termination of employment with us.

A participant may not transfer rights granted under the ESPP other than by will, the laws of descent and distribution or as otherwise provided under the ESPP.

In the event of certain significant transactions or a change in control (as defined in the ESPP), the compensation committee may provide for: (1) either the replacement or termination of outstanding rights in exchange for cash; (2) the assumption or substitution of outstanding rights by the successor or survivor corporation or parent or subsidiary thereof, if any; (3) the adjustment in the number and type of shares of stock subject to outstanding rights; (4) the use of participants' accumulated payroll deductions to purchase stock on a new purchase date prior to the next purchase date and termination of any rights under ongoing offering periods; or (5) the termination of all outstanding rights. Under the ESPP, a change in control has the same definition as given to such term in the 2014 Plan.

The compensation committee may amend, suspend or terminate the ESPP. However, stockholder approval of any amendment to the ESPP will be obtained for any amendment which changes the aggregate number or type of shares that may be sold pursuant to rights under the ESPP, changes the corporations or classes of corporations whose employees are eligible to participate in the ESPP or changes the ESPP in any manner that would cause the ESPP to no longer be an employee stock purchase plan within the meaning of Section 423(b) of the Code. The ESPP will terminate no later than the tenth anniversary of the ESPP's initial adoption by our board of directors.

Securities Laws. The ESPP has been designed to comply with various securities laws in the same manner as described above in the description of the 2014 Plan.

Federal Income Taxes. The material federal income tax consequences of the ESPP under current federal income tax law are summarized in the following discussion, which deals with the general tax principles applicable to the ESPP. The following discussion is based upon laws, regulations, rulings and decisions now in effect, all of which are subject to change. Foreign, state and local tax laws, and employment, estate and gift tax considerations are not discussed due to the fact that they may vary depending on individual circumstances and from locality to locality.

The ESPP, and the right of participants to make purchases thereunder, is intended to qualify under the provisions of Section 423 of the Code. Under the applicable Code provisions, no income will be taxable to a participant until the sale or other disposition of the shares purchased under the ESPP. This means that an eligible employee will not recognize taxable income on the date the employee is granted an option under the ESPP (i.e., the first day of the offering period). In addition, the employee will not recognize taxable income upon the purchase of

shares. Upon such sale or disposition, the participant will generally be subject to tax in an amount that depends upon the length of time such shares are held by the participant prior to disposing of them. If the shares are sold or disposed of more than two years from the first day of the offering period during which the shares were purchased and more than one year from the date of purchase, or if the participant dies while holding the shares, the participant (or his or her estate) will recognize ordinary income measured as the lesser of: (1) the excess of the fair market value of the shares at the time of such sale or disposition over the purchase price; or (2) an amount equal to 15% of the fair market value of the shares as of the first day of the offering period. Any additional gain will be treated as long-term capital gain. If the shares are held for the holding periods described above but are sold for a price that is less than the purchase price, there is no ordinary income and the participating employee has a long-term capital loss for the difference between the sale price and the purchase price.

If the shares are sold or otherwise disposed of before the expiration of the holding periods described above, the participant will recognize ordinary income generally measured as the excess of the fair market value of the shares on the date the shares are purchased over the purchase price and we will be entitled to a tax deduction for compensation expense in the amount of ordinary income recognized by the employee. Any additional gain or loss on such sale or disposition will be long-term or short-term capital gain or loss, depending on how long the shares were held following the date they were purchased by the participant prior to disposing of them. If the shares are sold or otherwise disposed of before the expiration of the holding periods described above but are sold for a price that is less than the purchase price, the participant will recognize ordinary income equal to the excess of the fair market value of the shares on the date of purchase over the purchase price (and we will be entitled to a corresponding deduction), but the participant generally will be able to report a capital loss equal to the difference between the sales price of the shares and the fair market value of the shares on the date of purchase.

Limitations of Liability and Indemnification Matters

Our amended and restated certificate of incorporation and our amended and restated bylaws provide that we will indemnify our directors and officers to the fullest extent permitted by the Delaware General Corporation Law, which prohibits our amended and restated certificate of incorporation from limiting the liability of our directors for the following:

- any breach of the director’s duty of loyalty to us or our stockholders;
- acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;
- unlawful payment of dividends or unlawful stock repurchases or redemptions; or
- any transaction from which the director derived an improper personal benefit.

Our amended and restated certificate of incorporation and our amended and restated bylaws also provide that if Delaware law is amended to authorize corporate action further eliminating or limiting the personal liability of a director, then the liability of our directors will be eliminated or limited to the fullest extent permitted by Delaware law, as so amended. This limitation of liability does not apply to liabilities arising under the federal securities laws and does not affect the availability of equitable remedies such as injunctive relief or rescission.

Our amended and restated certificate of incorporation and our amended and restated bylaws also provide that we shall have the power to indemnify our employees and agents to the fullest extent permitted by law. Our amended and restated bylaws also permit us to secure insurance on behalf of any officer, director, employee or other agent for any liability arising out of his or her actions in this capacity, regardless of whether our amended and restated bylaws would permit indemnification. We have obtained directors’ and officers’ liability insurance.

We have entered into separate indemnification agreements with our directors and executive officers, in addition to indemnification provided for in our amended and restated certificate of incorporation and amended and restated bylaws. These agreements, among other things, provide for indemnification of our directors and

executive officers for expenses, judgments, fines and settlement amounts incurred by this person in any action or proceeding arising out of this person's services as a director or executive officer or at our request. We believe that these provisions in our amended and restated certificate of incorporation and amended and restated bylaws and indemnification agreements are necessary to attract and retain qualified persons as directors and executive officers.

The above description of the indemnification provisions of our amended and restated certificate of incorporation, our amended and restated bylaws and our indemnification agreements is not complete and is qualified in its entirety by reference to these documents, each of which is filed as an exhibit to the registration statement of which this prospectus is a part.

The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duties. They may also reduce the likelihood of derivative litigation against directors and officers, even though an action, if successful, might benefit us and our stockholders. A stockholder's investment may be harmed to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions. Insofar as indemnification for liabilities under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable. There is no pending litigation or proceeding naming any of our directors or officers as to which indemnification is being sought, nor are we aware of any pending or threatened litigation that may result in claims for indemnification by any director or officer.

In October 2013, the 2013 Notes and $66,653 in accrued interest were converted into

12,485,914 shares of Series D redeemable convertible preferred stock, at a 20% discount to the offering price of $0.25 per share. We expect the 2013 Warrants to be net exercised in connection with the completion of this offering, resulting in the issuance of an aggregate of shares of common stock, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus. If these 2013 Warrants are not exercised prior to the completion of this offering, they will terminate.

2014 Convertible Note Financing. In July 2014, we sold an aggregate of $4.0 million of convertible promissory notes to certain existing investors in a private placement with certain existing investors, or the 2014 Notes. The 2014 Notes accrue interest at a rate of 12% per annum and become due and payable nine months from the date of issuance. The principal amount of the 2014 Notes and accrued interest thereon will automatically convert into shares of our common stock upon completion of this offering at a conversion price equal to 80% of our initial public offering price. If a liquidation (as defined in our current amended and restated certificate of incorporation) occurs prior to the completion of this offering, the holders of the 2014 Notes may elect to (1) receive the repayment of the notes or (2) convert the notes into shares of Series D redeemable convertible preferred stock at a conversion price of $0.25 per share, subject to adjustment pursuant to the terms thereof. In connection with the completion of this offering, the 2014 Notes (including accrued interest thereon) will automatically convert into shares of common stock, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus and assuming the conversion occurs on , 2014 (the expected closing date of this offering).

Investors’ Rights Agreement

We entered into a fourth amended and restated investors’ rights agreement in October 2013 with the holders of our redeemable convertible preferred stock, including entities with which certain of our directors are affiliated. This agreement provides for certain rights relating to the registration of their shares of common stock issuable upon conversion of their redeemable convertible preferred stock and certain additional covenants made by us. Except for the registration rights (including the related provisions pursuant to which we have agreed to indemnify the parties to the investors’ rights agreement), all rights under this agreement will terminate upon completion of this offering. The registration rights will continue following this offering and will terminate three years following the completion of this offering, or for any particular holder with registration rights, at such time following this offering when such holder holds less than one percent of our outstanding common stock and may immediately sell all of such shares pursuant to Rule 144 under the Securities Act in a 90-day period. See “Description of Capital Stock—Registration Rights” for additional information.

Stockholders’ Agreement

We entered into a fourth amended stockholders’ agreement in October 2013 by and among us and certain of our stockholders, pursuant to which the following directors were each elected to serve as members on our board of directors and, as of the date of this prospectus, continue to so serve: Brian Birk, Curt LaBelle, M.D., Ebetuel Pallares, Ph.D., Fortunato Ron Rocca, Michael J. Walsh and Samuel D. Riccitelli. Pursuant to the stockholders’ agreement, Mr. Rocca, as our Chief Executive Officer, was initially selected to serve on our board of directors as a representative of holders of our common stock, as designated by a majority of our common stockholders. Mr. Birk, Dr. LaBelle and Dr. Pallares were initially selected to serve on our board of directors as representatives of holders of our redeemable convertible preferred stock, as designated by NMSIC Co-Investment Fund, L.P., Tullis-Dickerson Capital Focus III, L.P. and CCP/Exagen, L.P. and Hunt Holdings, L.P., respectively. Mr. Walsh and Mr. Riccitelli were initially selected to serve on our board of directors as designated by a majority of our common and redeemable convertible preferred stock holders, voting together as a single class. The stockholders’ agreement also provides for certain other rights, including among others, a right of first refusal to purchase future securities.

The stockholders’ agreement, and all the rights granted pursuant to it, will terminate upon the completion of this offering, and members previously elected to our board of directors pursuant to this agreement will continue to serve as directors until they resign, are removed or their successors are duly elected by holders of our common stock. The composition of our board of directors after this offering is described in more detail under “Management—Board Composition and Election of Directors.”

Employment Agreements

We have entered into an offer letter with Dr. Dervieux. For more information regarding this agreements, see the section in this prospectus entitled "Executive and Director Compensation—Narrative Disclosure to Compensation Tables—Employment Agreements."

In September 2011, we entered into a license agreement with Dr. Dervieux, the Company's Chief Scientific Officer, and his company, DeNovo. The license agreement, covering novel methods for monitoring low-dose methotrexate therapy, relates to technology developed by Dr. Dervieux prior to joining the Company. The technology has yet to be used by us. Under the agreement, Dr. Dervieux would be eligible to receive up to $600,000 when and if we achieve certain sales milestones and a single-digit percentage royalty on sales on an ongoing basis.

Loan Arrangements

In 2010, we entered into a subordinated secured promissory note agreement with existing equity holders and a mezzanine lender, and $750,000 of the loan proceeds committed under such agreement were provided by NMSIC Co-Investment Fund L.P., or the NMSIC Note. The NMSIC Note was secured by substantially all of our assets, bore interest at 6.0% and matured in October 2012, at which time, it was repaid in full. In conjunction with the NMSIC Note, NMSIC received warrants to purchase up to 131,250 shares of our common stock at a price of $3.75 per share. These warrants contained the right to require us to purchase the warrants for a total of $150,000, which right NMSIC exercised in October 2013.

Indemnification Agreements

We have entered into indemnification agreements with each of our directors and executive officers prior to the completion of this offering. These agreements, among other things, require us or will require us to indemnify each director (and in certain cases their related venture capital funds) and executive officer to the fullest extent permitted by Delaware law, including indemnification of expenses such as attorneys' fees, judgments, fines and settlement amounts incurred by the director or executive officer in any action or proceeding, including any action or proceeding by or in right of us, arising out of the person's services as a director or executive officer.

Our amended and restated certificate of incorporation and our amended and restated bylaws provide that we will indemnify each of our directors and officers to the fullest extent permitted by the Delaware General Corporation Law. Further, we have entered into indemnification agreements with each of our directors and officers, and we have purchased a policy of directors' and officers' liability insurance that insures our directors and officers against the cost of defense, settlement or payment of a judgment under certain circumstances. For further information, see "Executive and Director Compensation—Limitations of Liability and Indemnification Matters."

Stock Option Grants to Executive Officers and Directors

We have granted stock options to our executive officers and certain of our directors as more fully described in the section entitled "Executive and Director Compensation."

Policies and Procedures for Related Person Transactions

Our board of directors will adopt written related person transaction policy, to be effective upon the completion of this offering, setting forth the policies and procedures for the review and approval or ratification of related-person transactions. This policy will cover, with certain exceptions set forth in Item 404 of Regulation S-K under the Securities Act, any transaction, arrangement or relationship, or any series of similar transactions, arrangements or relationships in which we were or are to be a participant, where the amount involved exceeds $120,000 and a related person had or will have a direct or indirect material interest, including, without limitation, purchases of goods or services by or from the related person or entities in which the related person has a material

interest, indebtedness, guarantees of indebtedness and employment by us of a related person. In reviewing and approving any such transactions, our audit committee is tasked to consider all relevant facts and circumstances, including, but not limited to, whether the transaction is on terms comparable to those that could be obtained in an arm's length transaction and the extent of the related person's interest in the transaction. All of the transactions described in this section occurred prior to the adoption of this policy.

PRINCIPAL STOCKHOLDERS

The following table sets forth information with respect to the beneficial ownership of our common stock as of July 15, 2014, and as adjusted to reflect the sale of shares of common stock in this offering, by:

- each of our named executive officers;
- each of our directors;
- all of our executive officers and directors as a group; and
- each person or group of affiliated persons known by us to beneficially own more than 5% of our common stock.

The number of shares beneficially owned by each stockholder is determined under rules issued by the SEC. Under these rules, beneficial ownership includes any shares as to which a person has sole or shared voting power or investment power. Applicable percentage ownership is based on 102,307,211 shares of common stock outstanding on July 15, 2014, which gives effect to the automatic conversion of all outstanding shares of redeemable convertible preferred stock into shares of common stock. Our calculation of beneficial ownership after the offering gives additional effect to the issuance of shares of our common stock in connection with the completion of this offering as a result of the automatic conversion of the $4.0 million in aggregate principal amount of convertible promissory notes we issued in July 2014, or the 2014 Notes (including accrued interest thereon), assuming an initial public offering price of $ per share, which is the midpoint of the price range listed on the cover page of this prospectus and assuming the conversion occurs on , 2014 (the expected closing date of this offering). In computing the number of shares beneficially owned by a person and the percentage ownership of that person, shares of common stock subject to options, warrants or other rights held by such person that are currently exercisable or will become exercisable within 60 days of July 15, 2014 are considered outstanding, although these shares are not considered outstanding for purposes of computing the percentage ownership of any other person.

Unless otherwise indicated, the address of each beneficial owner listed below is c/o Exagen Diagnostics, Inc., 1261 Liberty Way, Suite C, Vista, California 92081. We believe, based on information provided to us, that each of the stockholders listed below has sole voting and investment power with respect to the shares beneficially owned by the stockholder unless noted otherwise, subject to community property laws where applicable.

DESCRIPTION OF CAPITAL STOCK

General

Following the completion of this offering, our authorized capital stock will consist of 200,000,000 shares of common stock, $0.001 par value per share, and 10,000,000 shares of preferred stock, $0.001 par value per share. The following description summarizes some of the terms of our fifteenth amended and restated certificate of incorporation and amended and restated bylaws, our outstanding warrants, the investors' rights agreement and of the Delaware General Corporation Law. Because it is only a summary, it does not contain all the information that may be important to you. For a complete description you should refer to our amended and restated certificate of incorporation, amended and restated bylaws, warrants and investors' rights agreement, copies of which have been filed or incorporated by reference as exhibits to the registration statement of which the prospectus is a part, as well as the relevant provisions of the Delaware General Corporation Law.

Common Stock

As of March 31, 2014, there were 102,273,461 shares of our common stock outstanding and held of record by 47 stockholders, assuming (1) the automatic conversion of all outstanding shares of our redeemable convertible preferred stock into shares of common stock, which will automatically occur immediately prior to the completion of this offering and (2) the issuance of shares of common stock as a result of the expected net exercise of outstanding warrants, or the 2013 Warrants, in connection with the completion of this offering, assuming an initial public offering price of $ per share, which is the midpoint of the price range on the cover page of this prospectus, which 2013 Warrants will terminate if not exercised prior to the completion of this offering. Holders of our common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders, including the election of directors, and do not have cumulative voting rights. Accordingly, the holders of a majority of the outstanding shares of common stock entitled to vote in any election of directors can elect all of the directors standing for election, if they so choose, other than any directors that holders of any preferred stock we may issue may be entitled to elect. Subject to preferences that may be applicable to any then outstanding preferred stock, holders of common stock are entitled to receive ratably those dividends, if any, as may be declared by the board of directors out of legally available funds. In the event of our liquidation, dissolution or winding up, the holders of common stock will be entitled to share ratably in the assets legally available for distribution to stockholders after the payment of or provision for all of our debts and other liabilities, subject to the prior rights of any preferred stock then outstanding. Holders of common stock have no preemptive or conversion rights or other subscription rights and there are no redemption or sinking funds provisions applicable to the common stock. All outstanding shares of common stock are, and the common stock to be outstanding upon the completion of this offering will be, duly authorized, validly issued, fully paid and nonassessable. The rights, preferences and privileges of holders of common stock are subject to and may be adversely affected by the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Preferred Stock

Upon completion of this offering, all of our previously outstanding shares of redeemable convertible preferred stock will have been converted into common stock, there will be no authorized shares of our previously redeemable convertible preferred stock and we will have no shares of preferred stock outstanding. Under the terms of our amended and restated certificate of incorporation, which will become effective immediately prior to the completion of this offering, our board of directors has the authority, without further action by our stockholders, to issue up to 10,000,000 shares of preferred stock in one or more series, to establish from time to time the number of shares to be included in each such series, to fix the dividend, voting and other rights, preferences and privileges of the shares of each wholly unissued series and any qualifications, limitations or restrictions thereon, and to increase or decrease the number of shares of any such series, but not below the number of shares of such series then outstanding.

Our board of directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of

preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in our control and may adversely affect the market price of the common stock and the voting and other rights of the holders of common stock. We have no current plans to issue any shares of preferred stock.

Options

As of March 31, 2014, options to purchase 8,810,016 shares of our common stock were outstanding under our 2013 stock option plan, of which 5,200,736 were vested and exercisable as of that date.

Warrants

As of March 31, 2014, 4,881,900 shares of our common stock were issuable upon exercise of outstanding warrants to purchase common stock with a weighted average exercise price of $1.31 per share. Of these warrants, we expect warrants to purchase shares of common stock to be net exercised in connection with the completion of this offering, resulting in the issuance of an aggregate of shares of common stock assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus. If the remaining warrants are not exercised prior to the completion of this offering, they will terminate.

As of March 31, 2014, 4,174,430 shares of our Series D redeemable convertible preferred stock were issuable upon exercise of outstanding warrants with a weighted average exercise price of $0.25 per share. We expect these warrants to be net exercised in connection with the completion of this offering, resulting in the issuance of an aggregate of shares of common stock assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus. If these warrants are not exercised prior to the completion of this offering, they will terminate.

Each of the above warrants has a net exercise provision under which the holder may, in lieu of payment of the exercise price in cash, surrender the warrant and receive a net amount of shares of our common stock based on the fair market value of our common stock at the time of the net exercise of the warrant after deduction of the aggregate exercise price. These warrants also contain provisions for the adjustment of the exercise price and the aggregate number of shares issuable upon the exercise of the warrants in the event of stock dividends, stock splits, reorganizations and reclassifications and consolidations.

Convertible Promissory Notes

In July 2014, we sold an aggregate of $4.0 million of convertible promissory notes to certain existing investors in a private placement with certain existing investors. We refer to these notes as the 2014 Notes. The 2014 Notes accrue interest at a rate of 12% per annum and become due and payable nine months from the date of issuance. The principal amount of the 2014 Notes and accrued interest thereon will automatically convert into shares of our common stock upon completion of this offering at a conversion price equal to 80% of our initial public offering price. If a liquidation (as defined in our current amended and restated certificate of incorporation) occurs prior to the completion of this offering, the holders of the 2014 Notes may elect to (1) receive the repayment of the notes or (2) convert the notes into shares of Series D redeemable convertible preferred stock at a conversion price of $0.25 per share, subject to adjustment pursuant to the terms thereof. In connection with the completion of this offering, the 2014 Notes (including accrued interest thereon) will automatically convert into shares of common stock, assuming an initial public offering price of $ per share , which is the midpoint of the price range set forth on the cover page of this prospectus and assuming the conversion occurs on , 2014 (the expected closing date of this offering).

Registration Rights

As of March 31, 2014, holders of shares of our common stock, which includes all of the shares of common stock issuable upon the automatic conversion of our redeemable convertible preferred stock immediately

prior to the completion of this offering and shares of common stock issuable in connection with the completion of this offering as a result of the automatic conversion of the $4.0 million in aggregate principal amount of 2014 Notes (including accrued interest thereon), assuming an initial public offering price of $ per share, which is the midpoint of the price range listed on the cover page of this prospectus and assuming the conversion occurs on . , 2014(the expected closing date of this offering), will be entitled to the following rights with respect to the registration of such shares for public resale under the Securities Act, pursuant to an investor rights agreement by and among us and certain of our stockholders. The registration of shares of common stock as a result of the following rights being exercised would enable holders to trade these shares without restriction under the Securities Act when the applicable registration statement is declared effective.

Demand Registration Rights

Form S-1. If at any time for a period of three years following the completion of this offering, the holders of at least 50% of the registrable securities request in writing that we effect a registration with respect to their shares in an offering, we may be required to register their shares. We are obligated to effect at most two registrations for the holders of registrable securities in response to these demand registration rights, subject to certain exceptions.

Form S-3. If at any time beginning 180 days following the completion of this offering and we become entitled under the Securities Act to register our shares on Form S-3, a holder of registrable securities requests in writing that we register their shares for public resale on Form S-3 and the price to the public of the offering is $1.0 million or more, we will be required to provide notice to all holders of registrable securities and to use our best efforts to effect such registration; provided, however, that we will not be required to effect such a registration if, within the preceding 12 months, we have already effected two registrations on Form S-3 for the holders of registrable securities.

In each of the above registrations, if the holders requesting registration intend to distribute their shares by means of an underwriting, the managing underwriter of such offering will have the right to limit the numbers of shares to be underwritten for reasons related to the marketing of the shares.

Piggyback Registration Rights

If at any time for a period of three years following the completion of this offering we propose to register any shares of our common stock under the Securities Act, subject to certain exceptions, the holders of registrable securities will be entitled to notice of the registration and to include their shares of registrable securities in the registration. If our proposed registration involves an underwriting, the managing underwriter of such offering will have the right to limit the number of shares to be underwritten for reasons related to the marketing of the shares.

Expenses

Ordinarily, other than underwriting discounts and commissions, we will be required to pay all expenses incurred by us related to any registration effected pursuant to the exercise of these registration rights. These expenses may include all registration and filing fees, printing expenses, fees and disbursements of our counsel, reasonable fees and disbursements of a counsel for the selling securityholders, blue sky fees and expenses and the expenses of any special audits incident to the registration.

Termination of Registration Rights

The registration rights terminate upon the earlier of three years after the completion of this offering, or for any particular holder with registration rights, at such time following this offering when such holder holds less than one percent of our outstanding common stock and may immediately sell all of such shares pursuant to Rule 144 under the Securities Act in a 90-day period.

Anti-Takeover Effects of Delaware Law and Our Certificate of Incorporation and Bylaws

Some provisions of Delaware law, our amended and restated certificate of incorporation and our amended and restated bylaws contain provisions that could make the following transactions more difficult: an acquisition of us by means of a tender offer; an acquisition of us by means of a proxy contest or otherwise; or the removal of our incumbent officers and directors. It is possible that these provisions could make it more difficult to accomplish or could deter transactions that stockholders may otherwise consider to be in their best interest or in our best interests, including transactions which provide for payment of a premium over the market price for our shares.

These provisions, summarized below, are intended to discourage coercive takeover practices and inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with our board of directors. We believe that the benefits of the increased protection of our potential ability to negotiate with the proponent of an unfriendly or unsolicited proposal to acquire or restructure us outweigh the disadvantages of discouraging these proposals because negotiation of these proposals could result in an improvement of their terms.

Undesignated Preferred Stock

The ability of our board of directors, without action by the stockholders, to issue up to 10,000,000 shares of undesignated preferred stock with voting or other rights or preferences as designated by our board of directors could impede the success of any attempt to change control of us. These and other provisions may have the effect of deferring hostile takeovers or delaying changes in control or management of our company.

Stockholder Meetings

Our amended and restated bylaws provide that a special meeting of stockholders may be called only by our chairman of the board, chief executive officer or president, or by a resolution adopted by a majority of our board of directors.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our amended and restated bylaws establish advance notice procedures with respect to stockholder proposals to be brought before a stockholder meeting and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors or a committee of the board of directors.

Elimination of Stockholder Action by Written Consent

Our amended and restated certificate of incorporation and amended and restated bylaws eliminate the right of stockholders to act by written consent without a meeting.

Staggered Board

Our board of directors is divided into three classes. The directors in each class will serve for a three-year term, one class being elected each year by our stockholders. For more information on the classified board, see “Management—Board Composition and Election of Directors.” This system of electing and removing directors may tend to discourage a third-party from making a tender offer or otherwise attempting to obtain control of us, because it generally makes it more difficult for stockholders to replace a majority of the directors.

Removal of Directors

Our amended and restated certificate of incorporation provides that no member of our board of directors may be removed from office by our stockholders except for cause and, in addition to any other vote required by law, upon the approval of not less than two thirds of the total voting power of all of our outstanding voting stock then entitled to vote in the election of directors.

Stockholders Not Entitled to Cumulative Voting

Our amended and restated certificate of incorporation does not permit stockholders to cumulate their votes in the election of directors. Accordingly, the holders of a majority of the outstanding shares of our common stock entitled to vote in any election of directors can elect all of the directors standing for election, if they choose, other than any directors that holders of our preferred stock may be entitled to elect.

Delaware Anti-Takeover Statute

We are subject to Section 203 of the Delaware General Corporation Law, which prohibits persons deemed to be "interested stockholders" from engaging in a "business combination" with a publicly held Delaware corporation for three years following the date these persons become interested stockholders unless the business combination is, or the transaction in which the person became an interested stockholder was, approved in a prescribed manner or another prescribed exception applies. Generally, an "interested stockholder" is a person who, together with affiliates and associates, owns, or within three years prior to the determination of interested stockholder status did own, 15% or more of a corporation's voting stock. Generally, a "business combination" includes a merger, asset or stock sale, or other transaction resulting in a financial benefit to the interested stockholder. The existence of this provision may have an anti-takeover effect with respect to transactions not approved in advance by the board of directors.

Choice of Forum

Our restated certificate of incorporation provides that, unless we consent in writing to the selection of an alternative form, the Court of Chancery of the State of Delaware will be the sole and exclusive forum for: (1) any derivative action or proceeding brought on our behalf; (2) any action asserting a claim of breach of a fiduciary duty or other wrongdoing by any of our directors, officers, employees or agents to us or our stockholders; (3) any action asserting a claim against us arising pursuant to any provision of the General Corporation Law of the State of Delaware or our certificate of incorporation or bylaws; (4) any action to interpret, apply, enforce or determine the validity of our certificate of incorporation or bylaws; or (5) any action asserting a claim governed by the internal affairs doctrine. Our restated certificate of incorporation also provides that any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock will be deemed to have notice of and to have consented to this choice of forum provision. It is possible that a court of law could rule that the choice of forum provision contained in our restated certificate of incorporation is inapplicable or unenforceable if it is challenged in a proceeding or otherwise.

Amendment of Charter Provisions

The amendment of any of the above provisions, except for the provision making it possible for our board of directors to issue preferred stock, would require approval by holders of at least two thirds of the total voting power of all of our outstanding voting stock.

The provisions of Delaware law, our amended and restated certificate of incorporation and our amended and restated bylaws could have the effect of discouraging others from attempting hostile takeovers and, as a consequence, they may also inhibit temporary fluctuations in the market price of our common stock that often result from actual or rumored hostile takeover attempts. These provisions may also have the effect of preventing changes in the composition of our board and management. It is possible that these provisions could make it more difficult to accomplish transactions that stockholders may otherwise deem to be in their best interests.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock will be .

NASDAQ Global Market

We have applied to have our common stock listed on The NASDAQ Global Market under the symbol "EXDX."

SHARES ELIGIBLE FOR FUTURE SALE

Immediately prior to this offering, there was no public market for our common stock. Future sales of substantial amounts of common stock in the public market, or the perception that such sales may occur, could adversely affect the market price of our common stock. Although we have applied to have our common stock listed on The NASDAQ Global Market, we cannot assure you that there will be an active public market for our common stock.

Based on the number of shares of our common stock outstanding as of March 31, 2014 and assuming (1) the issuance of shares in this offering, (2) the conversion of all outstanding shares of our redeemable convertible preferred stock into shares of our common stock, which will occur automatically occur immediately prior to the completion of the offering, (3) no exercise of the underwriters' over-allotment option to purchase additional shares of common stock, (4) the net exercise of the 2013 Warrants, and (5) no exercise of outstanding options or warrants (other than the 2013 Warrants), we will have outstanding an aggregate of approximately shares of common stock.

Of these shares, all shares sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by our "affiliates," as that term is defined in Rule 144 under the Securities Act. Shares purchased by our affiliates would be subject to the Rule 144 resale restrictions described below, other than the holding period requirement.

The remaining shares of common stock will be "restricted securities," as that term is defined in Rule 144 under the Securities Act. These restricted securities are eligible for public sale only if they are registered under the Securities Act or if they qualify for an exemption from registration under Rule 144 or 701 under the Securities Act, each of which is summarized below. We expect that substantially all of these shares will be subject to the 180-day lock-up period under the lock-up agreements described below.

In addition, of the 7,944,428 shares of our common stock that were subject to stock options outstanding as of March 31, 2014, options to purchase 4,332,336 of such shares of common stock were vested as of such date and, upon exercise, these shares will be eligible for sale subject to the lock–up agreements described below and Rules 144 and 701 under the Securities Act.

Lock-Up Agreements

We, along with our directors, executive officers and substantially all of our other stockholders, optionholders and warrantholders, have agreed with the underwriters that for a period of 180 days, after the date of this prospectus, subject to specified exceptions, we or they will not offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to sale of, or otherwise dispose of or transfer any shares of common stock or any securities convertible into or exercisable or exchangeable for shares of common stock, request or demand that we file a registration statement related to our common stock or enter into any swap or other agreement that transfers to another, in whole or in part, directly or indirectly, the economic consequence of ownership of the common stock. Upon expiration of the lock-up period, certain of our stockholders and warrantholders will have the right to require us to register their shares under the Securities Act. See "—Registration Rights" below and "Description of Capital Stock—Registration Rights."

Leerink Partners LLC and Robert W. Baird & Co. Incorporated may, in their sole discretion and at any time or from time to time before the termination of the lock-up period, without public notice, release all or any portion of the securities subject to lock-up agreements. There are no existing agreements between the underwriters and any of our stockholders who will execute a lock-up agreement providing consent to the sale of shares prior to the expiration of the lock-up period.

Upon the expiration of the lock-up period, substantially all of the shares subject to such lock-up restrictions will become eligible for sale, subject to the limitations discussed above.

Rule 144

Affiliate Resales of Restricted Securities

In general, beginning 90 days after the effective date of the registration statement of which this prospectus is a part, a person who is an affiliate of ours, or who was an affiliate at any time during the 90 days before a sale, who has beneficially owned shares of our common stock for at least six months would be entitled to sell in "broker's transactions" or certain "riskless principal transactions" or to market makers, a number of shares within any three-month period that does not exceed the greater of:

- 1% of the number of shares of our common stock then outstanding, which will equal approximately shares immediately after this offering; or
- the average weekly trading volume in our common stock on The NASDAQ Global Market during the four calendar weeks preceding the filing of a notice on Form 144 with respect to such sale.

Affiliate resales under Rule 144 are also subject to the availability of current public information about us. In addition, if the number of shares being sold under Rule 144 by an affiliate during any three-month period exceeds 5,000 shares or has an aggregate sale price in excess of $50,000, the seller must file a notice on Form 144 with the Securities and Exchange Commission and The NASDAQ Global Market concurrently with either the placing of a sale order with the broker or the execution of a sale directly with a market maker.

Non-Affiliate Resales of Restricted Securities

In general, beginning 90 days after the effective date of the registration statement of which this prospectus is a part, a person who is not an affiliate of ours at the time of sale, and has not been an affiliate at any time during the three months preceding a sale, and who has beneficially owned shares of our common stock for at least six months but less than a year, is entitled to sell such shares subject only to the availability of current public information about us. If such person has held our shares for at least one year, such person can resell under Rule 144(b)(1) without regard to any Rule 144 restrictions, including the 90-day public company requirement and the current public information requirement.

Non-affiliate resales are not subject to the manner of sale, volume limitation or notice filing provisions of Rule 144.

Rule 701

In general, under Rule 701, any of an issuer's employees, directors, officers, consultants or advisors who purchases shares from the issuer in connection with a compensatory stock or option plan or other written agreement before the effective date of a registration statement under the Securities Act is entitled to sell such shares 90 days after such effective date in reliance on Rule 144. An affiliate of the issuer can resell shares in reliance on Rule 144 without having to comply with the holding period requirement, and non-affiliates of the issuer can resell shares in reliance on Rule 144 without having to comply with the current public information and holding period requirements.

Equity Plans

We intend to file one or more registration statements on Form S-8 under the Securities Act to register all shares of common stock subject to outstanding stock options and common stock issued or issuable under the 2014 plan, 2013 plan, 2002 plan and ESPP. We expect to file the registration statement covering shares offered pursuant to these stock plans shortly after the date of this prospectus, permitting the resale of such shares by non-affiliates in the public market without restriction under the Securities Act and the sale by affiliates in the public market subject to compliance with the resale provisions of Rule 144.

Registration Rights

As of March 31, 2014, holders of shares of our common stock, which includes all of the shares of common stock issuable upon the automatic conversion of our redeemable convertible preferred stock immediately prior to the completion of this offering, or their transferees will be entitled to various rights with respect to the registration of these shares under the Securities Act upon the completion of this offering. Registration of these shares under the Securities Act would result in these shares becoming fully tradable without restriction under the Securities Act immediately upon the effectiveness of the registration, except for shares purchased by affiliates. See “Description of Capital Stock—Registration Rights” for additional information. Shares covered by a registration statement will be eligible for sale in the public market upon the expiration or release from the terms of the lock-up agreement.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSEQUENCES TO NON-U.S. HOLDERS

The following discussion is a summary of the material U.S. federal income tax consequences to Non-U.S. Holders (as defined below) of the purchase, ownership and disposition of our common stock issued pursuant to this offering, but does not purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or non-U.S. tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended, or the Code, Treasury regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service, or the IRS, in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a Non-U.S. Holder of our common stock. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of our common stock.

This discussion is limited to Non-U.S. Holders that hold our common stock as a "capital asset" within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a Non-U.S. Holder's particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to Non-U.S. Holders subject to special rules, including, without limitation:

- U.S. expatriates and former citizens or long-term residents of the United States;
- persons subject to the alternative minimum tax;
- persons holding our common stock as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;
- banks, insurance companies, and other financial institutions;
- brokers, dealers or traders in securities;
- "controlled foreign corporations," "passive foreign investment companies," and corporations that accumulate earnings to avoid U.S. federal income tax;
- partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);
- tax-exempt organizations or governmental organizations;
- persons deemed to sell our common stock under the constructive sale provisions of the Code;
- persons who hold or receive our common stock pursuant to the exercise of any employee stock option or otherwise as compensation; and
- tax-qualified retirement plans.

If an entity treated as a partnership for U.S. federal income tax purposes holds our common stock, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding our common stock and the partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT TAX ADVICE. INVESTORS SHOULD CONSULT THEIR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AS WELL AS ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND

DISPOSITION OF OUR COMMON STOCK ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of a Non-U.S. Holder

For purposes of this discussion, a "Non-U.S. Holder" is any beneficial owner of our common stock that is neither a "U.S. person" nor an entity treated as a partnership for U.S. federal income tax purposes. A U.S. person is any person that, for U.S. federal income tax purposes, is or is treated as any of the following:

- an individual who is a citizen or resident of the United States;
- a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income tax regardless of its source; or
- a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more "United States persons" (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

Distributions

As described in the section entitled "Dividend Policy," we do not anticipate declaring or paying dividends to holders of our common stock in the foreseeable future. However, if we do make distributions of cash or property on our common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Amounts not treated as dividends for U.S. federal income tax purposes will constitute a return of capital and first be applied against and reduce a Non-U.S. Holder's tax basis in its common stock, but not below zero. Any excess will be treated as capital gain from a sale or other taxable disposition and will be treated as described below under "—Sale or Other Taxable Disposition."

Subject to the discussion below on effectively connected income, dividends paid to a Non-U.S. Holder of our common stock will be subject to U.S. federal withholding tax at a rate of 30% of the gross amount of the dividends (or such lower rate specified by an applicable income tax treaty, provided the Non-U.S. Holder furnishes a valid IRS Form W-8BEN or W-8BEN-E (or other applicable documentation) certifying qualification for the lower treaty rate). If a Non-U.S. Holder holds the stock through a financial institution or other agent acting on the Non-U.S. Holder's behalf, the Non-U.S. Holder will be required to provide appropriate documentation to the agent, who then will be required to provide certification to the applicable withholding agent, either directly or through other intermediaries. A Non-U.S. Holder that does not timely furnish the required documentation, but that qualifies for a reduced treaty rate, may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Non-U.S. Holders should consult their tax advisors regarding their entitlement to benefits under any applicable income tax treaty.

If dividends paid to a Non-U.S. Holder are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, are attributable to a permanent establishment in the United States maintained by the Non-U.S. Holder), the Non-U.S. Holder will be exempt from the U.S. federal withholding tax described above. To claim the exemption, the Non-U.S. Holder must furnish to the applicable withholding agent a valid IRS Form W-8ECI, certifying that the dividends are effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States.

Any such effectively connected dividends will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation may also be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected

dividends, as adjusted for certain items. Non-U.S. Holders should consult their tax advisors regarding any applicable tax treaties that may provide for different rules.

Sale or Other Taxable Disposition

A Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other taxable disposition of our common stock unless:

- the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the United States (and, if required by an applicable income tax treaty, is attributable to a permanent establishment in the United States maintained by the Non-U.S. Holder);
- the Non-U.S. Holder is a nonresident alien individual present in the United States for 183 days or more during the taxable year of the disposition and certain other requirements are met; or
- our common stock constitutes a U.S. real property interest, or USRPI, by reason of our status as a U.S. real property holding corporation, or USRPHC, for U.S. federal income tax purposes.

Gain described in the first bullet point above generally will be subject to U.S. federal income tax on a net income basis at the regular graduated rates. A Non-U.S. Holder that is a corporation may also be subject to a branch profits tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty) on such effectively connected gain, as adjusted for certain items.

Gain described in the second bullet point above will be subject to U.S. federal income tax at a rate of 30% (or such lower rate specified by an applicable income tax treaty), which may be offset by U.S. source capital losses of the Non-U.S. Holder (even though the Non-U.S. Holder is not considered a resident of the United States), provided the Non-U.S. Holder has timely filed U.S. federal income tax returns with respect to such losses.

With respect to the third bullet point above, we believe we currently are not, and do not anticipate becoming, a USRPHC. However, because the determination of whether we are a USRPHC depends on the fair market value of our USRPIs relative to the fair market value of our non-U.S. real property interests and our other business assets, there can be no assurance we currently are not a USRPHC or will not become one in the future. Even if we are or were to become a USRPHC, gain arising from the sale or other taxable disposition by a Non-U.S. Holder of our common stock will not be subject to U.S. federal income tax if our common stock is "regularly traded," as defined by applicable Treasury regulations, on an established securities market, and such Non-U.S. Holder owned, actually or constructively, 5% or less of our common stock throughout the shorter of the five-year period ending on the date of the sale or other taxable disposition or the Non-U.S. Holder's holding period.

Non-U.S. Holders should consult their tax advisors regarding potentially applicable income tax treaties that may provide for different rules.

Information Reporting and Backup Withholding

Payments of dividends on our common stock will not be subject to backup withholding, provided the applicable withholding agent does not have actual knowledge or reason to know the holder is a United States person and the holder either certifies its non-U.S. status, such as by furnishing a valid IRS Form W-8BEN, W-8BEN-E or W-8ECI, or otherwise establishes an exemption. However, information returns are required to be filed with the IRS in connection with any dividends on our common stock paid to the Non-U.S. Holder, regardless of whether any tax was actually withheld. In addition, proceeds of the sale or other taxable disposition of our common stock within the United States or conducted through certain U.S.-related brokers generally will not be subject to backup withholding or information reporting, if the applicable withholding agent receives the

certification described above and does not have actual knowledge or reason to know that such holder is a United States person, or the holder otherwise establishes an exemption. Proceeds of a disposition of our common stock conducted through a non-U.S. office of a non-U.S. broker generally will not be subject to backup withholding or information reporting.

Copies of information returns that are filed with the IRS may also be made available under the provisions of an applicable treaty or agreement to the tax authorities of the country in which the Non-U.S. Holder resides or is established.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against a Non-U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the IRS.

Additional Withholding Tax on Payments Made to Foreign Accounts

Withholding taxes may be imposed under Sections 1471 to 1474 of the Code (such Sections commonly referred to as the Foreign Account Tax Compliance Act, or FATCA) on certain types of payments made to non-U.S. financial institutions and certain other non-U.S. entities. Specifically, a 30% withholding tax may be imposed on dividends on, or gross proceeds from the sale or other disposition of, our common stock paid to a "foreign financial institution" or a "non-financial foreign entity" (each as defined in the Code), unless (1) the foreign financial institution undertakes certain diligence and reporting obligations, (2) the non-financial foreign entity either certifies it does not have any "substantial United States owners" (as defined in the Code) or furnishes identifying information regarding each substantial United States owner, or (3) the foreign financial institution or non-financial foreign entity otherwise qualifies for an exemption from these rules. If the payee is a foreign financial institution and is subject to the diligence and reporting requirements in (1) above, it must enter into an agreement with the U.S. Department of the Treasury requiring, among other things, that it undertake to identify accounts held by certain "specified United States persons" or "United States-owned foreign entities" (each as defined in the Code), annually report certain information about such accounts, and withhold 30% on certain payments to non-compliant foreign financial institutions and certain other account holders. Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules.

Under the applicable Treasury regulations and IRS guidance, withholding under FATCA generally applies to payments of dividends on our common stock made on or after July 1, 2014 and will apply to payments of gross proceeds from the sale or other disposition of our common stock on or after January 1, 2017.

Prospective investors should consult their tax advisors regarding the potential application of withholding under FATCA to their investment in our common stock.

UNDERWRITING

Leerink Partners LLC and Robert W. Baird & Co. Incorporated are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us and the underwriters, we have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from us, the number of shares of common stock set forth opposite its name below.

Underwriter	Number of Shares
Leerink Partners LLC	
Robert W. Baird & Co. Incorporated	
William Blair & Company	
Total	

Subject to the terms and conditions set forth in the underwriting agreement, the underwriters have agreed, severally and not jointly, to purchase all of the shares sold under the underwriting agreement if any of these shares are purchased. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officers' certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price set forth on the cover of this prospectus and to dealers at that price less a concession not in excess of $ per share. After the initial offering, the public offering price, concession or any other term of the offering may be changed.

The following table shows the public offering price, underwriting discount and proceeds before expenses to us. The information assumes either no exercise or full exercise by the underwriters of their option to purchase additional shares of our common stock.

	Per Share	Without Option	With Option
Public offering price	$	$	$
Underwriting discount	$	$	$
Proceeds, before expenses, to us	$	$	$

We estimate expenses payable by us in connection with this offering, other than the underwriting discounts and commissions referred to above, will be approximately $. We also have agreed to reimburse the underwriters for up to $ for their FINRA counsel fee. In accordance with FINRA Rule 5110, this reimbursed fee is deemed underwriting compensation for this offering.

Option to Purchase Additional Shares

We have granted an option to the underwriters, exercisable for 30 days after the date of this prospectus, to purchase up to additional shares at the public offering price, less the underwriting discount. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the underwriting agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

No Sales of Similar Securities

We, our executive officers and directors and all of our other existing security holders have agreed not to sell or transfer any common stock or securities convertible into or exchangeable or exercisable for common stock, for 180 days after the date of this prospectus without first obtaining the written consent of Leerink Partners LLC and Robert W. Baird & Co. Incorporated. Specifically, we and these other persons have agreed, with certain limited exceptions, not to directly or indirectly:

- offer, pledge, sell or contract to sell any common stock;
- sell any option or contract to purchase any common stock;
- purchase any option or contract to sell any common stock;
- grant any option, right or warrant for the sale of any common stock;
- otherwise dispose of or transfer any common stock;
- request or demand that we file a registration statement related to the common stock; or
- enter into any swap or other agreement or any transaction that transfers, in whole or in part, the economic consequence of ownership of any common stock, whether any such swap, agreement or transaction is to be settled by delivery of shares or other securities, in cash or otherwise.

This lock-up provision applies to common stock and to securities convertible into or exchangeable or exercisable for common stock. It also applies to common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

NASDAQ Global Market Listing

We have applied to list our common stock on the NASDAQ Global Market, subject to notice of issuance, under the symbol "EXDX."

Before this offering, there has been no public market for our common stock. The initial public offering price will be determined through negotiations between us and the representatives. In addition to prevailing market conditions, the factors to be considered in determining the initial public offering price are:

- the valuation multiples of publicly traded companies that the representatives believe to be comparable to us;
- our financial information;
- the history of, and the prospects for, our company and the industry in which we compete;
- an assessment of our management, its past and present operations, and the prospects for, and timing of, our future revenues;
- the present state of our development; and
- the above factors in relation to market values and various valuation measures of other companies engaged in activities similar to ours.

An active trading market for the shares may not develop. It is also possible that after the offering the shares will not trade in the public market at or above the initial public offering price.

The underwriters do not expect to sell more than 5% of the shares in the aggregate to accounts over which they exercise discretionary authority.

Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. “Covered” short sales are sales made in an amount not greater than the underwriters’ option described above. The underwriters may close out any covered short position by either exercising their option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option granted to them. “Naked” short sales are sales in excess of such option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters’ purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the NASDAQ Global Market, in the over-the-counter market or otherwise.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

Other Relationships

Some of the underwriters and their affiliates may in the future engage in investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They may in the future receive customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers.

Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each, a "Relevant Member State"), no offer of shares may be made to the public in that Relevant Member State other than:

A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;

B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or

C. in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall require the Company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that it is a "qualified investor" within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

The company, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the company nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression "an offer to the public" in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression "Prospectus Directive" means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression "2010 PD Amending Directive" means Directive 2010/73/EU.

LEGAL MATTERS

The validity of the shares of common stock offered hereby will be passed upon for us by Latham & Watkins LLP, San Diego, California. The underwriters are being represented by Cooley LLP, San Diego, California.

EXPERTS

The consolidated financial statements as of December 31, 2012 and 2013 and for each of the two years in the period ended December 31, 2013 included in this prospectus have been so included in reliance on the report (which contains an explanatory paragraph relating to the Company's ability to continue as a going concern as described in Note 2 to the consolidated financial statements) of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

CHANGE IN INDEPENDENT ACCOUNTANT

On November 25, 2013 the Audit Committee of the board of directors determined to dismiss McGladrey LLP and retain PricewaterhouseCoopers LLP, or PwC, as our independent registered public accounting firm. Effective February 13, 2014, we retained PwC as our independent registered public accounting firm.

The reports of McGladrey LLP on our consolidated financial statements for each of the two fiscal years prior to its dismissal did not contain any adverse opinion or disclaimer of opinion, nor were such reports qualified or modified as to uncertainty, audit scope or accounting principles. However, the reports of McGladrey LLP included an emphasis of matter regarding the Company's ability to continue as a going concern. We had no disagreements with McGladrey LLP on any matter of accounting principles or practices, consolidated financial statement disclosure or auditing scope or procedure, which disagreements, if not resolved to its satisfaction, would have caused McGladrey LLP to make reference in connection with its opinion to the subject matter of the disagreement during its audits for each of the two fiscal years prior to its dismissal or the subsequent interim period through November 25, 2013. During the two most recent fiscal years preceding McGladrey LLP's dismissal, and the subsequent interim period through November 25, 2013, there were no ''reportable events'' as such term is defined in Item 304(a)(1)(v) of Regulation S-K.

During the two years ended December 31, 2012 and the subsequent interim period through February 13, 2014, neither we, nor anyone acting on our behalf, consulted with PwC on matters that involved the application of accounting principles to a specified transaction, either completed or proposed, the type of audit opinion that might be rendered on our consolidated financial statements, and neither a written report nor oral advice was provided to us by PwC that PwC concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issue or any other matter that was the subject of a disagreement as that term is used in Item 304 (a)(1)(iv) of Regulation S-K and the related instructions to Item 304 of Regulation S-K or a reportable event as that term is used in Item 304(a)(1)(v) and the related instructions to Item 304 of Regulation S-K.

We have provided McGladrey LLP with a copy of the foregoing disclosure and have requested that McGladrey LLP furnish us with a letter addressed to the SEC stating whether or not McGladrey LLP agrees with the above statements and, if not, stating the respects in which it does not agree. A copy of the letter from McGladrey LLP is filed as an exhibit to the registration statement of which this prospectus is a part.

Index to Financial Statements

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Exagen Diagnostics, Inc.:

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of operations and comprehensive loss, consolidated statements of redeemable convertible preferred stock and stockholders' deficit, and consolidated statements of cash flow, present fairly, in all material respects, the financial position of Exagen Diagnostics, Inc. and its subsidiary at December 31, 2012 and 2013, and the results of their operations and their cash flows for each of the two years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has suffered recurring losses from operations since inception and has negative cash flows from operating activities that raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

1. Organization and Business

Exagen Diagnostics, Inc. (the Company) was incorporated under the laws of the state of New Mexico in 2002, under the name Exagen Corporation. In 2003, Exagen Corporation changed its state of incorporation from New Mexico to Delaware by merging with and into Exagen Diagnostics, Inc., pursuant to which the Company changed its name to Exagen Diagnostics, Inc. The Company is a commercial-stage diagnostics company committed to addressing the significant unmet need for the accurate diagnosis and monitoring of patients affected by autoimmune rheumatic diseases (ARDs). These chronic diseases can cause lifelong inflammation in the joints, tissues and internal organs, resulting in serious complications, such as irreversible organ damage. The accurate, timely and differential diagnosis for patients suffering from the approximately 30 ARDs is critical as treatment for each disease varies, and inappropriate or delayed therapy may expose patients to unnecessary risks or the hazards of uncontrolled disease activity. Physicians face significant difficulties in making a definitive diagnosis of a specific ARD because patients with different diseases often present with a common set of symptoms. The Company currently markets three products under its Avise brand to provide an accurate, timely and differential diagnosis and to optimize the treatment of ARDs.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The preparation of the accompanying consolidated financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could materially differ from those estimates.

The accompanying consolidated financial statements have been prepared on a going concern basis that contemplates the realization of assets and discharge of liabilities in their normal course of business. The Company has suffered recurring losses from operations since inception and negative cash flows from operating activities during each of 2012, 2013 and the three months ended March 31, 2014. As of December 31, 2013 and March 31, 2014 (unaudited), the Company had working capital deficits of $(2.6) million and $(6.0) million, respectively, and an accumulated deficit of $74.3 million and $77.9 million, respectively. The Company anticipates that it will continue to incur net losses into the foreseeable future as it: (i) expands sales and marketing efforts to promote its Avise product line (ii) develops additional products and prepares to commercialize any new products, and (iii) expands its corporate infrastructure, including the costs associated with becoming a public company. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company needs to raise additional funds through equity or debt financing and, when and if necessary, to reduce discretionary spending. Although management has been successful in raising capital in the past, most recently in July 2014 (Note 16), there can be no assurance that they will be successful or that any needed financing will be available in the future at terms acceptable to the Company. Failure to achieve these plans may result in the Company not being able to achieve its business objectives. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Company plans to fund its losses from operations and capital funding needs through current cash on hand and future debt and equity financings. If the Company is not able to secure adequate additional funding, the Company may be forced to make reductions in spending, extend payment terms with suppliers, liquidate assets where possible, and/or suspend or curtail planned programs. Any of these actions could materially harm the Company's business, results of operations, and future prospects.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

Unaudited Interim Financial Information

The accompanying interim consolidated balance sheet as of March 31, 2014, consolidated statements of operations and comprehensive loss and cash flows for the three months ended March 31, 2013 and 2014 and the consolidated statements of redeemable convertible preferred stock and stockholders' deficit for the three months ended March 31, 2014 are unaudited. The unaudited interim consolidated financial statements have been prepared on a basis consistent with the audited financial statements and, in the opinion of management, reflect all adjustments (consisting of normal recurring adjustments) considered necessary to fairly present the Company's financial position as of March 31, 2014 and the Company's results of operations and cash flows for the three months ended March 31, 2013 and 2014. The results for the three months ended March 31, 2014 are not necessarily indicative of the results to be expected for the year ended December 31, 2014 or for any other period.

Unaudited Pro Forma Balance Sheet

The unaudited pro forma balance sheet information as of March 31, 2014 in the accompanying consolidated balance sheet gives effect to: (i) the automatic conversion of all outstanding shares of convertible preferred stock into shares of common stock and (ii) the net exercise of warrants to purchase shares of our common stock and Series D redeemable convertible preferred stock, and (iii) the resultant reclassification of the redeemable convertible preferred stock warrant liability to additional paid-in-capital, a component of stockholders' deficit, assuming an initial public offering price of $ per share, which is the midpoint of the price range set forth on the cover page of this prospectus and assuming the conversion occurs on 2014 (the expected closing date of this offering). The unaudited pro forma balance sheet information excludes any shares of common stock issued in the proposed initial public offering and related proceeds therefrom.

Unaudited Pro Forma Net Loss per Share of Common Stock

The unaudited pro forma basic and diluted net loss per share reflects the automatic conversion of all outstanding shares of redeemable convertible preferred stock, net exercise of warrants and the reclassification of certain redeemable convertible preferred stock warrants to common stock warrants in additional paid-in capital, as if the conversions had occurred at the beginning of the period presented.

The unaudited pro forma basic and diluted net loss per share amounts do not give effect to the issuance of shares from the planned initial public offering nor do they give effect to potential dilutive securities where the impact would be anti-dilutive.

Consolidation

The consolidated financial statements include the accounts of the Company and its 60% owned subsidiary, Computational Engines Inc. Computational Engines, Inc. has been an inactive subsidiary since inception and was dissolved in May 2014 (Note 16). Intercompany balances and transactions have been eliminated in consolidation.

Segments

The Company operates in one segment. Management uses one measurement of profitability and does not segregate its business for internal reporting. All long-lived assets are maintained in the United States.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Restricted Cash

At December 31, 2012, a deposit of $707,425 was restricted from withdrawal and held by a bank as collateral in accordance with the terms of a line of credit agreement. In 2013, the restriction was released upon repayment of the line of credit.

Revenue Recognition

The Company derives its revenue from sales of its diagnostic, prognostic and monitoring products.
The Company primarily markets its testing services to rheumatologists and their physician assistants. The
healthcare professionals who order the Company's products and to whom test results are reported are generally not responsible for payment for these products. The parties that pay for these services (the Payers) consist of commercial third-party companies, Medicare and other government payers, and patients.

The Company recognizes revenue when the following criteria have been met: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or
determinable; and (4) collectability is reasonably assured.

The Company's service is completed upon the delivery of test results to the prescribing physician which triggers billing for the service. The Company recognizes revenue related to billings to Payers on an accrual basis, net of contractual adjustments, only when the Company has established pricing with its Payers as indicated by contractual pricing arrangements and predictable patterns of payments for its services.

In the absence of a predictable pattern of reimbursement or a contract with a Payer, revenue is recognized upon the earlier of payment notification, if applicable, or cash receipt. The Company currently recognizes revenue on a cash basis from sales of its products. The assessment of the fixed or determinable nature of the fees charged and the collectability of those fees requires significant judgment by management. Accordingly, the Company expects to recognize revenue on a cash basis until it has sufficient history to reliably estimate payment patterns.

As of December 31, 2012 and 2013 and March 31, 2013 (unaudited) and 2014 (unaudited), substantially all of the Company's revenue is recognized upon the earlier of payment notification, if applicable, or cash receipt.

Concentration of Credit Risk and Other Risk and Uncertainties

Financial instruments that potentially subject the Company to credit risk consist principally of cash, cash equivalents, and accounts receivable. Substantially all the Company's cash and cash equivalents are held at one financial institution that management believes is of high credit quality. Such deposits may, at times, exceed federally insured limits.

Approximately 9%, 25%, 37% and 41% of the Company's revenue is derived from sales billed to Medicare for the years ended December 31, 2012 and 2013 and the three months ended March 31, 2013 (unaudited) and 2014 (unaudited), respectively.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

The Company is dependent on key suppliers for certain laboratory materials. An interruption in the supply of these materials would temporarily impact the Company's ability to perform testing services.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally between three and ten years, or the lease term of the respective assets. Leasehold improvements are amortized on a straight-line basis over the lesser of their useful life or the term of the lease. Maintenance and repairs are charged to expense as incurred, and improvements and betterments are capitalized. When assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the consolidated balance sheet and any resulting gain or loss is reflected in operations in the period realized.

Goodwill and Intangible Assets

The Company has recorded goodwill and intangible assets on the consolidated balance sheets. The Company classifies intangible assets into two categories: (1) goodwill; and (2) intangible assets with definite lives subject to amortization.

Goodwill is not amortized. The Company assesses goodwill for impairment on an annual basis in the fourth quarter of each year or more frequently if indicators of impairment exist.

The goodwill impairment assessment involves a two-step process. The Company first assesses the book value and market value of the Company to determine if an impairment of goodwill exists by reporting unit. A potential impairment exists if the fair value of the reporting unit is lower than its net book value. The second step of the process is only performed if a potential impairment exists, and it involves comparing the aggregate fair value of the reporting unit's net assets, other than goodwill, to the fair value of the reporting unit as a whole. Goodwill is considered impaired, and an impairment charge is recorded, if the excess of the fair value of the reporting unit over the fair value of the net assets is less than the carrying value of goodwill. This evaluation requires use of internal business plans that are based on the Company's judgments regarding future economic conditions, product demand and pricing, costs, inflation rates and discount rates, among other factors. These judgments and estimates involve inherent uncertainties, and the measurement of the fair value is dependent on the accuracy of the assumptions used in making the estimates and how those estimates compare to the Company's future operating performance. There was no impairment of goodwill identified through December 31, 2013 or March 31, 2014 (unaudited).

Impairment of Long-Lived Assets

Purchased intangible assets with finite lives are amortized using the straight-line method over the estimated economic lives of the assets. The Company analyzed and determined that the use of straight-line amortization method was appropriate to reflect the pattern over which the economic benefits of the assets are realized. Long-lived assets, including intangible assets, with definite lives and property and equipment, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Such conditions may include an economic downturn or a change in the assessment of future operations. Determination of recoverability is based on an estimate of undiscounted future cash flows resulting from the use of the asset (or asset group) and its eventual disposition. Measurement of an impairment loss for long-lived assets that management expects to hold and use is based on the amount that the carrying value of the asset (or asset group) exceeds its fair value. If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the

carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported as a separate caption at the lower of the carrying amount or fair value less costs to sell. There were no impairment charges, or changes in estimated useful lives, recorded through December 31, 2013 or March 31, 2014 (unaudited).

Redeemable Convertible Preferred Stock

The Company has classified the redeemable convertible preferred stock as temporary equity in the consolidated balance sheets due to certain change in control events that are outside the Company's control, including liquidation, sale or transfer of the Company, as holders of the Series A-3 convertible preferred stock can cause redemption of the shares. Redeemable convertible preferred stock which is redeemable on or after a certain date upon the option of the holder is accreted to its redemption value from the date of issuance to the earliest redemption date.

Redeemable Convertible Preferred Stock Warrants

The Company accounts for its redeemable convertible preferred stock warrants as liabilities based upon the characteristics and provisions of each instrument. The redeemable convertible preferred stock warrants classified as liabilities are recorded on the Company's consolidated balance sheet at their fair value on the date of issuance and are revalued on each subsequent balance sheet, with fair value changes recognized as increases or reductions in the consolidated statements of operations and comprehensive loss. The Company adjusts the liability for changes in fair value of these redeemable convertible preferred stock warrants until the earlier of: (i) exercise of warrants; (ii) expiration of redeemable convertible preferred stock warrants; (iii) a change of control of the Company; or (iv) the consummation of the Company's initial public offering. At that time, the redeemable convertible preferred stock warrant liability will be adjusted to fair value in the consolidated statements of operations and comprehensive loss with the final fair value reclassified to additional paid-in capital.

Research and Development

Research and development expenses are expensed as incurred and include, but are not limited to, payroll and personnel-related expenses, stock-based compensation expense, materials, laboratory supplies, consulting costs, costs associated with setting up and conducting clinical studies and allocated overhead including rent and utilities.

Advertising and Marketing Costs

Costs incurred for advertising and marketing are expensed as incurred. Total advertising and marketing costs were approximately $294,000, $429,000, $66,000 and $264,000 for the years ended December 31, 2012 and 2013 and the three months ended March 31, 2013 (unaudited) and 2014 (unaudited), respectively, and are included in selling, general and administrative expenses in the accompanying consolidated statements of operations and comprehensive loss.

Shipping and Handling Costs

Costs incurred for shipping and handling are included in cost of revenues in the accompanying consolidated statements of operations and comprehensive loss and totaled approximately $199,000, $272,000, $57,000 and $113,000 for the years ended December 31, 2012 and 2013 and the three months ended March 31, 2013 (unaudited) and 2014 (unaudited), respectively.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

Fair Value of Financial Instruments

The carrying value of the Company's cash and cash equivalents, accounts receivable, prepaid expenses and other current assets, other assets, accounts payable, accrued liabilities, and convertible notes payable approximate fair value due to the short-term nature of these items. Based on the borrowing rates currently available to the Company for debt with similar terms and consideration of default and credit risk, the carrying value of the term loan approximates their fair value and is classified as Level II liability.

Fair value is defined as the exchange price that would be received for an asset or an exit price paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

The fair value hierarchy defines a three-level valuation hierarchy for disclosure of fair value measurements as follows:

Level I	Unadjusted quoted prices in active markets for identical assets or liabilities;
Level II	Inputs other than quoted prices included within Level I that are observable, unadjusted quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities; and
Level III	Unobservable inputs that are supported by little or no market activity for the related assets or liabilities.

The categorization of a financial instrument within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The Company's redeemable convertible preferred stock warrant liabilities and acquisition-related liabilities are classified as Level III liabilities. The liabilities that are measured at fair value on a recurring basis consist of redeemable convertible preferred stock warrant liability, derivative liabilities and acquisition-related obligations.

Income Taxes

The Company accounts for income taxes under the liability method. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized.

The Company assesses all material positions taken in any income tax return, including all significant uncertain positions, in all tax years that are still subject to assessment or challenge by relevant taxing authorities. Assessing an uncertain tax position begins with the initial determination of the position's sustainability and is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. As of each balance sheet date, unresolved uncertain tax positions must be reassessed, and the Company will determine whether (i) the factors underlying the sustainability assertion have changed and (ii) the amount of the recognized tax benefit is still appropriate. The recognition and measurement of tax benefits requires significant judgment. Judgments concerning the recognition and measurement of a tax benefit might change as new information becomes available.

Stock-Based Compensation

For stock options granted to employees, the Company recognizes compensation expense for all stock-based awards based on the grant-date estimated fair values. The value of the portion of the award that is ultimately expected to vest is recognized as expense on a straight-line basis over the requisite service period. The fair value of stock options is determined using the Black-Scholes option pricing model. The determination of fair value for stock-based awards on the date of grant using an option-pricing model requires management to make certain assumptions regarding a number of complex and subjective variables.

Stock-based compensation expense related to stock options granted to nonemployees is recognized based on the fair value of the stock options, determined using the Black-Scholes option pricing model, as they are earned. The awards generally vest over the time period the Company expects to receive services from the nonemployee.

Comprehensive Loss

Comprehensive loss is defined as a change in equity of a business enterprise during a period, resulting from transactions from nonowner sources. There have been no items qualifying as other comprehensive income (loss) and, therefore, for all periods presented, the Company's comprehensive loss was the same as its reported net loss.

Net Income (Loss) Per Share

The Company follows the two-class method when computing net income (loss) per share, as the Company has issued shares that meet the definition of participating securities. The two-class method determines net income (loss) per share for each class of common and participating securities according to dividends declared or accumulated and participation rights in undistributed earnings. The two-class method requires income available to common stockholders for the period to be allocated between common and participating securities based upon their respective rights to receive dividends as if all income for the period had been distributed.

Basic net income (loss) per share attributable to common stockholders is computed by dividing the net income (loss) attributable to common stockholders by the weighted average number of shares of common stock outstanding for the period. Diluted net income (loss) attributable to common stockholders is computed by adjusting income (loss) attributable to common stockholders to reallocate undistributed earnings based on the potential impact of dilutive securities, including outstanding stock options, and warrants for the purchase of redeemable convertible preferred stock. Diluted net income (loss) per share attributable to common stockholders is computed by dividing the diluted net income (loss) attributable to common stockholders by the weighted average number of common shares outstanding for the period, including potential dilutive common shares assuming the dilutive effect of outstanding stock options and warrants.

The Company's redeemable convertible preferred stock contractually entitles the holders of such shares to participate in dividends but does not contractually require the holders of such shares to participate in losses of the Company. Accordingly, in periods in which the Company reports a net loss attributable to common stockholders, diluted net loss per share attributable to common stockholders is the same as basic net loss per share attributable to common stockholders, since dilutive common shares are not assumed to have been issued if their effect is anti-dilutive. The Company reported a net loss attributable to common stockholders for the year ended December 31, 2013 and for the three months ended March 31, 2013 and 2014 (unaudited).

Recent Accounting Pronouncements

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board (FASB), or other standard setting bodies and adopted by the Company as of the specified effective date. Unless otherwise discussed, the impact of recently issued standards that are not yet effective will not have a material impact on the Company's consolidated financial position or results of operations upon adoption.

In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, Revenue from Contracts with Customers, which provides a five-step analysis of transactions to determine when and how revenue is recognized. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU is effective for annual periods beginning after December 15, 2016 and shall be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. The Company is currently in the process of evaluating the impact of adoption of this ASU on the consolidated financial statements.

In July 2013, the FASB issued ASU 2013-11, which provides for changes to the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. These changes require an entity to present an unrecognized tax benefit as a liability in the financial statements if (i) a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position, or (ii) the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset to settle any additional income taxes that would result from the disallowance of a tax position. Otherwise, an unrecognized tax benefit is required to be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward. These changes become effective for the Company on January 1, 2014. The Company does not believe the adoption will have a significant impact on the consolidated financial statements.

6. Borrowings

Line of Credit Arrangement (Line)

In 2010, the Company entered into a secured Line with a financial institution to borrow up to $750,000. The Line accrued interest at 6.0% and matured in June 2012. The Company amended the Line in 2012 to extend the maturity to June 2013. In accordance with the terms of the amendment, the amount available for borrowing was decreased to $707,725 and required the Company to maintain a restricted cash balance of $707,725 to secure the Line. The amendment in 2012 was accounted for as a modification. The Line was fully repaid in June 2013.

Subordinated Secured Promissory Notes (2010 SSPNs)

In 2010, the Company entered into SSPNs with existing equity holders and a mezzanine lender to borrow up to $2 million and bore an interest rate of 18.0% per annum. The 2010 SSPN bore interest at 18.0% per annum and were secured by substantially all of the assets of the Company. The 2010 SSPN matured in October 2012 at which time, they were repaid in full.

Royalty Pharma Collection Trust Secured Promissory Note (RP Note)

In connection with a historical acquisition, the Company was required to pay $2.0 million to Royalty Pharma Collection Trust, in October 2012. This additional consideration was recorded at its initial present value amount of $1.7 million on the date of acquisition using a discount rate of 9.5% and accreted to $2.0 million. In October 2012, the obligation to pay $2.0 million was converted to a secured promissory note, accruing interest at 10% per year, payable over four years and was collateralized by the intellectual property purchased by the Company in the acquisition. The Company accounted for this amendment as a modification. The principal outstanding as of December 31, 2012 was $1.9 million and the outstanding RP Note was fully repaid in October 2013.

Convertible Notes with Related Parties (2013 Notes)

In May, June and August 2013, the Company entered into unsecured convertible promissory notes with existing equity holders to borrow $2.4 million. The 2013 Notes accrued interest at 10.0% per annum and were convertible into shares of either an anticipated new series of preferred stock sold in a qualified

financing (defined as a financing of $10.0 million or greater), at a 20% discount to the issuance price or, if no additional qualified financing occurred, into shares of Series C redeemable convertible preferred stock at a price of $0.25 per share. The conversion into shares at a 20% discount was determined to be an embedded put feature which required bifurcation and separate accounting as the discount was substantial. The embedded derivative was recorded as a liability at a fair value of approximately $668,000 upon issuance and debt discount to the 2013 Notes. The Company valued the embedded derivative using a probability weighted scenario based option pricing model using the following inputs – expected life of approximately 0.5 years, estimated volatility of approximately 40%, expected risk-free rate of 0.1% and a probability of 99% for a qualified financing to occur .The embedded derivative was remeasured just prior to extinguishment of the 2013 Notes and the change in fair value was recorded in other income (expense), net in the accompanying consolidated statements of operations and comprehensive loss. In October 2013, the Company amended the 2013 Notes to modify the definition of a qualified financing to reduce the amount of required financing from $10.0 million to $4.0 million and contemporaneously converted the 2013 Notes into Series D redeemable convertible preferred stock at a price of $0.20 per share. The Company recorded this amendment as an extinguishment and recorded a loss of $3.3 million as the difference between the reacquisition price and the net carrying amount of the 2013 Notes.

Term Loan (2013 Loan)

In October 2013, the Company executed a Term Loan Agreement with Capital Royalty Partners II L.P. and its affiliates Parallel Fund “a” L.P. and Parallel Investment Opportunities Partners II L.P. (collectively Capital Royalty). The 2013 Loan may be drawn in two tranches. The first tranche in the amount of $10.0 million or $ 15.0 million was required to be drawn prior to March 31, 2014, and the Company drew $10 million in October 2013 and another $5 million in March 2014. The availability of the second tranche in the amount of $5.0 million or $10.0 million was subject to achieving $3.3 million or $3.8 million in revenue measured on a consecutive three month period prior to June 30, 2014. The Company did not achieve the specified revenue milestones prior to June 30, 2014, therefore the second tranche is no longer available to the Company for future borrowings. The 2013 Loan bears interest at 14.0% per annum. Interest-only payments are due on a quarterly basis with payment dates fixed at the end of each calendar quarter (“Payment Dates”) through September 30, 2016. Prior to December 31, 2016 the Company may at its election pay the interest as follows: 10.0% per annum in cash and 4.0% per annum paid in-kind in the form of additional term loans, or PIK Loans. In connection with the 2013 Loan, the Company paid a financing fee of $200,000 (recorded as debt discount) and issued warrants to purchase 3,186,430 shares of each of common stock and Series D redeemable convertible preferred stock. Since the Company has issued multiple instruments (2013 Loan, Series D redeemable convertible preferred stock warrants and common stock warrants) in a bundled transaction, the Company recorded the Series D redeemable convertible preferred stock warrants at full fair value, while the common stock warrants and 2013 Loan have been recorded at relative fair value. Likewise, the debt issuance costs have been allocated to all instruments based on their relative fair value (Note 7).

The 2013 Loan has a prepayment premium of 3% of the aggregate outstanding principal, including PIK Loans, if the loan is prepaid prior to September 30, 2014. The amount of the Prepayment Premium decreases by 1% during each subsequent 12-month period thereafter.

The first Payment Date for the $10 million drawn in October 2013 was December 31, 2013, and the Company elected the paid in-kind interest option, issuing PIK Loans totaling $71,110 and $100,711 in 2013 and 2014 (unaudited), respectively.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

The 2013 Loan is collateralized by a first priority security interest on substantially all of the Company's personal property, including intellectual property. The Company must maintain a minimum liquidity of $2.0 million and achieve certain minimum amounts of annual revenue under the terms of the 2013 Loan.

The 2013 Loan contains customary representations and warranties, covenants, events of defaults and termination provisions. The affirmative covenants include, among other things, that the Company timely file taxes, maintain good standing and government compliance, maintain liability and other insurance, furnish audited financial statements within 120 days of fiscal year end without qualification as to the scope of the audit or as to going concern and without any other similar qualification.

The negative covenants provide, among other things, that without the prior consent of Capital Royalty (subject to certain exceptions), the Company may not dispose of certain assets, engage in certain business combinations or acquisitions, incur additional indebtedness or encumber any of the Company's property, pay dividends on the Company's capital stock or make prohibited investments. The 2013 Loan agreement provides that an event of default will occur if, among other triggers, (1) the Company defaults in the payment of any amount payable under the agreement when due, (2) there occurs any circumstance or circumstances that could reasonably be expected to result in a material adverse effect on the Company's business, operations or condition, or on the Company's ability to perform its obligations under the agreement, (3) the Company becomes insolvent, (4) the Company undergoes a change in control or (5) the Company breaches any negative covenants or certain affirmative covenants in the agreement or, subject to a cure period, otherwise neglects to perform or observe any material item in the agreement. The repayment of the term loan may be accelerated, at the option of Capital Royalty, following the occurrence of an event of default, which would require the Company to pay to Capital Royalty an amount equal to the sum of: (i) all outstanding principal plus accrued interest, (ii) the final payment, plus (iii) all other sums, that shall have become due and payable but have not been paid, including interest at the default rate with respect to any past due amounts plus the Prepayment Premium. The Company has obtained an extension to submit the audited consolidated financial statements by July 31, 2014 and a waiver to relinquish the going concern qualification requirement for the year ended December 31, 2013.

Though the Company's borrowings have stated maturities in excess of one year, the outstanding balance has been classified as a current liability as of December 31, 2013 primarily due to the subjective nature of the material adverse clause included in the term loan agreement. This clause permits the lender to accelerate the maturity of the debt upon factors that are subjective in nature.

The future minimum aggregate payments as of December 31, 2013 and March 31, 2014 (unaudited) under the above borrowings are as follows (in thousands):

7. Warrants to Purchase Common or Preferred Stock

Common stock warrants

2010 SSPN common stock warrants

In connection with the 2010 SSPNs (Note 6), the Company issued warrants to purchase 390,000 shares of common stock at a price of $3.75 per share. The warrants expired three years from the date of issuance (October 2013) and contained an automatic exercise or put feature which was to be effected immediately prior to the expiration of the warrants, based on the highest value to the holders if no earlier exercise or put has been affected by the holders. The put feature allowed the holders, upon the earlier of the occurrence of a change in control or the expiration date, to require the Company to repurchase the warrants for an aggregate purchase price of $400,000. The value of this put feature was recorded as a warrant liability on the consolidated balance sheet at the higher of the fair value or $400,000 and as a discount against the 2010 SSPN, with such discount being amortized to interest expense over the initial term of the 2010 SSPN. The put feature was exercised in October 2013 and the Company repurchased these warrants for $400,000.

2013 Loan common stock warrants

In connection with the 2013 Loan issued in October 2013, the Company issued warrants to purchase 3,186,430 shares of common stock at $0.01 per share. The relative fair value of approximately $319,000, net of issuance costs, was recorded in additional paid in capital and was determined using the option pricing model with the following assumptions: risk-free interest rate of 2.51%, expected life of 10 years, dividend yield of 0% and expected volatility of 57% and as a discount against 2013 Loan, with such discount being amortized to interest expense over the term of the 2013 Loan. The Company amortized approximately $13,081 and $13,240 as interest expense for the year ended December 31, 2013 and the three months ended March 31, 2014 (unaudited), respectively. The warrants expire in October 2023 and remain outstanding as of December 31, 2013 and March 31, 2014 (unaudited).

In addition to the above, the Company has 1,695,470 common stock warrants outstanding as of December 31, 2013 at an exercise price of $3.75 per share. These common stock warrants expire between June 2018 and October 2021. No amounts have been recorded for these common stock warrants as their fair value was determined to be immaterial.

Redeemable convertible preferred stock warrants

2013 Loan redeemable convertible preferred stock warrants

In connection with the 2013 Loan issued in October 2013, the Company issued warrants to purchase 3,186,430 shares of Series D redeemable convertible preferred stock at $0.25 per share. The fair value (determined using residual approach) of approximately $1.0 million was recorded as a liability and was determined using the option pricing model with the following assumptions: risk-free interest rate of 0.4%, expected life of 2 years, dividend yield of 0% and expected volatility of 61% and as a discount against 2013 Loan, with such discount being amortized to interest expense over the term of the 2013 Loan. The Company has amortized $30,387 and $30,756 as interest expense for the year ended December 31, 2013 and the three months ended March 31. 2014 (unaudited), respectively. The fair value of these redeemable convertible preferred stock warrants were remeasured at December 31, 2013 using updated assumptions for the fair value of the underlying securities, the risk-free interest rate, expected life, dividend yield and expected volatility. The warrants expire in October 2023 and remain outstanding as of December 31, 2013 and March 31, 2014 (unaudited).

In 2013, the Company engaged an investment advisor to provide financial advisory services in connection with raising capital. In November 2013 in connection with the consummation of the 2013 Loan, the

Company paid $500,000 to the investment advisor and also issued warrants to purchase 988,000 shares of Series D redeemable convertible preferred stock at an exercise price of $0.01. The fair value of approximately $240,000 was recorded as a liability and was determined using the option pricing model with the following assumptions: risk-free interest rate of 0.4%, expected life of 2 years, dividend yield of 0% and expected volatility of 61%. The total debt issuance cost of approximately $740,000 (fair value of the Series D redeemable convertible preferred stock warrant plus $500,000 was recorded) was allocated to the 2013 Loan, 2013 Loan common stock warrants and 2013 Loan preferred stock warrants based on relative fair value allocation. The amount allocated to the 2013 Loan was recorded as debt issuance cost, amount allocated to 2013 Loan common stock warrants was offset against the amount recorded in additional paid in capital, and the amount allocated to 2013 Loan redeemable convertible preferred stock warrants was recorded as an expense. The fair value of the preferred stock warrants was remeasured at December 31, 2013 using updated assumptions for the fair value of the underlying securities, the risk-free interest rate, expected life, dividend yield and expected volatility. The warrants expire in November 2023 and remain outstanding as of December 31, 2013 and March 31, 2014 (unaudited).

For the year ended December 31, 2013 and the three months ended March 31, 2014 (unaudited), the Company recognized changes in fair value of $83,489 for all liability classified warrants (redeemable convertible preferred stock warrants and 2010 SSPN common stock warrants), which was recorded in other income (expense), net in the accompanying consolidated statements of operations and comprehensive loss.

All outstanding warrants to purchase shares of common stock and Series D redeemable convertible preferred stock terminate if not exercised prior to the completion of an initial public offering.

8. Commitments and Contingencies

Operating and Capital Leases

The Company leases office and lab facilities under non-cancelable operating leases in Albuquerque, New Mexico and Vista, California. Rent under the Vista, California lease is subject to escalation, as defined in the lease agreement. The Company has the option to extend the lease in Vista, California for two 36 month terms.

In 2012 and 2013, the Company leased certain lab equipment under capital leases. The equipment and related liability have been recorded at the present value of the future payments under the leases with an interest rate of 8.2% and 16.0%, respectively.

Notes to Consolidated Financial Statements

Rent expense for the years ended December 31, 2012 and 2013 and the three months ended March 31, 2013 (unaudited) and 2014 (unaudited) was approximately $145,000, $141,000, $38,000 and $51,000, respectively.

Acquisition-related liabilities

In connection with a historical acquisition, the Company is required to pay an amount not to exceed $9.2 million in the event that certain revenue milestones are achieved and upon the first commercial sale of a product associated with this historical acquisition. The fair value of the acquisition-related liability is determined using widely accepted valuation techniques, which include the income approach for estimating future consideration to be paid based on projected earnings. The income approach involves the use of a probability-weighted discounted revenue model based on significant inputs not observable in the market such as revenue projections, the interest rate and the probabilities assigned to the milestones being achieved. The significant inputs include discount rates of 3.15% to 15.18% and probability of achieving the estimated projected earnings or the achievement of certain other objectives of 0% to 100%. A significant change in such projected earnings may result in a material change to the fair value of such acquisition-related liability with a corresponding adjustment to net loss and comprehensive loss.

Contingencies

In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties and provide for general indemnifications. The Company's exposure under these agreements is unknown because it involves claims that may be made against the Company in the future, but have not yet been made. The Company accrues a liability for such matters when it is probable that future expenditures will be made and such expenditures can be reasonably estimated.

Litigation

The Company is not a party to any litigation and does not have contingent reserves established for any litigation liabilities.

Pursuant to the recapitalization agreement, the Company raised approximately $5.9 million in gross proceeds by issuing 23,750,389 shares of Series C redeemable convertible preferred stock at $0.25 per share.

If an investor participated pro rata in at least 70% of the Series C preferred stock financing, the Company converted their shares of Series A-2 and B-2 Reclassified common stock into shares of Series A-3 and B-3 redeemable convertible preferred stock, respectively, on a one-for-one basis. In June 2011, the Company had recapitalized its then outstanding preferred stock i.e. Series A-1 and B-1 redeemable convertible preferred stock, in connection with the Series B-2 preferred stock financing. As part of the recapitalization, outstanding redeemable convertible preferred stock was first converted into common stock (reclassified common stock) and, investors who participated in Series B-2 preferred stock financing were issued shares of Series A-2 redeemable convertible preferred stock (amount invested in B-2 divided by $7.5) for no consideration. All existing investors participated in this transaction and there was no Series A-1 and B-1 redeemable convertible preferred stock outstanding after this transaction. In February and April 2012, the Company issued a total of 1,651,134 shares of Series B-2 redeemable convertible preferred stock for $ 398,556 at an issuance price of $0.25 per share as part of the above recapitalization. As of December 31, 2013, there was total unrecognized compensation cost of $189,000. This cost is expected to be recognized over a period of a weighted average term of 1.6 years.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

For purposes of calculating stock-based compensation, the Company estimates the fair value of stock options using the Black-Scholes option-pricing model on the date of grant and recognizes expense on straight line basis over the requisite service period of the award. The Black-Scholes option-pricing model incorporates various highly sensitive assumptions, including the fair value of our common stock, expected volatility, expected term and risk-free interest rates. The weighted average expected life of options was calculated using the simplified method as prescribed by the Securities and Exchange Commission (SEC) Staff Accounting Bulletin No. 107 (SAB No. 107). This decision was based on the lack of relevant historical data due to the Company's limited historical experience. In addition, due to the Company's limited historical data, the estimated volatility also reflects the application of SAB No. 107, incorporating the historical volatility of comparable companies whose share prices are publicly available. The risk-free interest rate for periods within the contractual life of the option is based on the U.S. Treasury yield in effect at the time of grant. The dividend yield was zero, as the Company has never declared or paid dividends and has no plans to do so in the foreseeable future.

The fair value of employee stock options was estimated using the following assumptions for the periods presented:

	Years Ended December 31,		Three Months Ended March 31,	
	2012	2013	2013	2014
			(unaudited)	
Expected volatility	56.90%	51.80%	51.80%	—
Risk-free interest rate	1.43%	1.23%	1.23%	—
Dividend yield	—	—	—	—
Expected term (in years)	7.00	7.00	7.00	—

No stock options were granted in the three months ended March 31, 2014 (unaudited).

Nonemployee Stock-Based Compensation

For the year ended December 31, 2012 and 2013, the Company has issued 865,588 and zero options to purchase common stock, respectively, to non-employees. The stock based compensation expense for non-employees for 2012 and 2013 is not material.

Total Stock-Based Compensation

Total stock-based compensation expense recorded related to options granted to employee and non-employees is as below (in thousands):

Significant components of the Company's deferred tax assets at December 31, 2012 and 2013 are shown below (in thousands). A valuation allowance has been established as realization of such deferred tax assets
has not met the more likely-than-not threshold requirement. If the Company's judgment changes and it is determined that the Company will be able to realize these deferred tax assets, the tax benefits relating to any reversal of the valuation allowance on deferred tax assets will be accounted for as a reduction to income tax expense.

Exagen Diagnostics, Inc.
Notes to Consolidated Financial Statements

Changes in the valuation allowance for deferred tax assets during the years ended December 31, 2012 and 2013, which related primarily to increases in net operating loss carryforwards, accrued revenue and accruals and reserves, were as follows:

	Years Ended December 31,	
	2012	2013
	(in thousands)	
Valuation allowance at the beginning of the year	$ 7,316	$10,160
Decreases recorded as benefits to income tax provision	—	—
Increases recorded to income tax provision	2,844	3,527
Valuation allowance at the end of the year	$10,160	$13,687

At December 31, 2012 and 2013, the Company had federal net operating loss carryforwards of approximately $25.0 million and $31.4 million, respectively. At December 31, 2012 and 2013, the Company had state net operating loss carryforwards of $24.2 million and $29.6 million, respectively. The federal and state tax loss carryforwards will begin to expire in 2014 and 2022, respectively, unless previously utilized.
Included in the net operating loss deferred tax asset above is approximately $10,000 of deferred tax asset attributable to excess stock compensation deductions. Excess tax benefits are not recorded in additional paid in capital until the deduction reduces income taxes payable.

Pursuant to Internal Revenue Code (IRC), Section 382 and 383, use of the Company's U.S. federal and state net operating loss and research and development income tax credit carryforwards may be limited in the event of a cumulative change in ownership of more than 50.0% within a three-year period. The Company had an ownership change in 2008 and, as a result, certain carryfowards are subject to an annual limitation, reducing the amount available to offset income tax liabilities absent the limitation.

Uncertain Tax Positions

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

	December 31,	
	2012	2013
Balance at the beginning of the year	$ 604	$ 652
Additions based on prior period tax positions	63	58
Reductions based on prior period tax positions	(15)	(57)
Additions based on current period tax positions	—	—
Balance at the end of the year	$ 652	$ 653

The Company believes it is reasonably possible that the total amount of unrecognized tax benefits will decrease within the next 12 months due to the Company requesting permission to change its tax accounting methods and the scheduled reversal of timing differences. The amount of unrecognized tax benefit that, if recognized, would favorably impact the effective income tax rate is $44,000. During the years ended December 31, 2012 and 2013, the Company recognized no amounts related to interest or penalties.

The Company is subject to taxation in the United States and various state jurisdictions. The Company currently has no years under examination by any jurisdiction. Item 14. Indemnification of Directors and Officers.

Section 102 of the General Corporation Law of the State of Delaware permits a corporation to eliminate the personal liability of directors of a corporation to the corporation or its stockholders for monetary damages for a breach of fiduciary duty as a director, except where the director breached his duty of loyalty, failed to act in good faith, engaged in intentional misconduct or knowingly violated a law, authorized the payment of a dividend or approved a stock repurchase in violation of Delaware corporate law or obtained an improper personal benefit. Our certificate of incorporation provides that no director of the Registrant shall be personally liable to it or its stockholders for monetary damages for any breach of fiduciary duty as a director, notwithstanding any provision of law imposing such liability, except to the extent that the General Corporation Law of the State of Delaware prohibits the elimination or limitation of liability of directors for breaches of fiduciary duty.

Section 145 of the General Corporation Law of the State of Delaware provides that a corporation has the power to indemnify a director, officer, employee or agent of the corporation, or a person serving at the request of the corporation for another corporation, partnership, joint venture, trust or other enterprise in related capacities against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with an action, suit or proceeding to which he was or is a party or is threatened to be made a party to any threatened, ending or completed action, suit or proceeding by reason of such position, if such person acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, in any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful, except that, in the case of actions brought by or in the right of the corporation, no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or other adjudicating court determines that, despite the adjudication of liability but in view of all of the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Our amended and restated certificate of incorporation, which will become effective immediately prior to the completion of this offering, provides that we will indemnify each person who was or is a party or threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than an action by or in the right of us) by reason of the fact that he or she is or was, or has agreed to become, a director or officer, or is or was serving, or has agreed to serve, at our request as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise (all such persons being referred to as an "Indemnitee"), or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding and any appeal therefrom, if such Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, our best interests, and, with respect to any criminal action or proceeding, he or she had no reasonable cause to believe his or her conduct was unlawful. Our amended and restated certificate of incorporation provides that we will indemnify any Indemnitee who was or is a party to an action or suit by or in the right of us to procure a judgment in our favor by reason of the fact that the Indemnitee is or was, or has agreed to become, a director or officer, or is or was serving, or has agreed to serve, at our request as a director, officer, partner, employee or trustee of, or in a similar capacity with, another corporation, partnership, joint venture, trust or other enterprise, or by reason of any action alleged to have been taken or omitted in such capacity, against all expenses (including attorneys' fees) and, to the extent permitted by law, amounts paid in settlement actually and reasonably incurred in connection with such action, suit or proceeding, and any appeal therefrom, if the Indemnitee acted in good faith and in a manner he or she reasonably believed to be in, or not opposed to, our best interests, except that no indemnification shall be made with respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to us, unless a court determines that, despite such adjudication but in view of all of the circumstances, he or she is entitled to indemnification of such expenses. Notwithstanding the foregoing, to the extent that any Indemnitee has been successful, on the merits or otherwise, he or she will be indemnified by us against all expenses (including attorneys' fees) actually and reasonably incurred in connection therewith. Expenses must be advanced to an Indemnitee under certain circumstances.

We have entered into indemnification agreements with each of our directors and officers. These indemnification agreements may require us, among other things, to indemnify our directors and officers for some expenses, including attorneys' fees, judgments, fines and settlement amounts incurred by a director or officer in any action or proceeding arising out of his or her service as one of our directors or officers, or any of our subsidiaries or any other company or enterprise to which the person provides services at our request.

We maintain a general liability insurance policy that covers certain liabilities of directors and officers of our corporation arising out of claims based on acts or omissions in their capacities as directors or officers.

In any underwriting agreement we enter into in connection with the sale of common stock being registered hereby, the underwriters will agree to indemnify, under certain conditions, us, our directors, our officers and persons who control us within the meaning of the Securities Act of 1933, as amended, or Securities Act, against certain liabilities.

In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained

in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

The Series D Dividends shall be payable only when, as and if declared by the Board of Directors and the Corporation shall be under no obligation to pay such Series D Dividends.

(b) The Corporation shall not declare, pay or set aside any dividends on shares of any other class or series of capital stock of the Corporation (other than dividends on shares of Common Stock payable entirely in shares of Common Stock) unless (in addition to the obtaining of any consents required elsewhere in the Corporation's Certificate of Incorporation) the holders of the Series D Preferred Stock then outstanding shall first receive, or simultaneously receive, a dividend on each outstanding share of Series D Preferred Stock in an amount at least equal to the greater of (i) the amount of the aggregate Series D Dividends on such share of Series D Preferred Stock and not previously paid and (ii) (A) in the case of a dividend on Common Stock or any class or series that is convertible into Common Stock, that dividend per share of Series D Preferred Stock as would equal the product of (1) the dividend payable on each share of such class or series determined, if applicable, as if all shares of such class or series had been converted into Common Stock and (2) the number of shares of Common Stock issuable upon conversion of a share of Series D Preferred Stock in each case calculated on the record date for determination of holders entitled to receive such dividend or (B) in the case of a dividend on any class or series that is not convertible into Common Stock, at a rate per share of Series D Preferred Stock determined by (1) dividing the amount of the dividend payable on each share of such class or series of capital stock by the original issuance price of such class or series of capital stock (subject to appropriate and proportionate adjustments for any stock dividends, stock splits and other subdivisions and combinations of, and recapitalizations and like occurrences with respect to, such shares) and (2) multiplying such fraction by an amount equal to the Original Issue Price for the Series D Preferred Stock; provided that, if the Corporation declares, pays or sets aside, on the same date, a dividend on shares of more than one class or series of capital stock of the Corporation, the dividend payable to the holders of Series D Preferred Stock pursuant to this Section 2 shall be calculated based upon the dividend on the class or Series of capital stock that would result in the highest dividend being paid to the holders of the Series D Preferred Stock.

Section 2.2 Series C Dividends.

(a) The outstanding shares of Series C Preferred Stock shall be entitled to receive dividends of $0.02 per share (the "Series C Dividends") (subject to appropriate and proportionate adjustments for stock dividends, stock splits and other subdivisions and combinations of, and recapitalizations and like occurrences with respect to the Series C Preferred Stock) per annum, out of any assets at the time legally available therefor, when, as and if declared by the Board of Directors, prior and in preference to the payment of any dividends to the holders of Series B-3 Preferred Stock, Series A-3 Preferred Stock and the Common Stock. Section 2.4 No Other Dividends.

No dividend shall be declared or be payable on the outstanding shares of the Series B-3 Preferred Stock without the consent of the holders of at least two-thirds (2/3) of the outstanding shares of the Series C Preferred Stock and Series D Preferred Stock, voting together as a single class, and no dividend shall be declared or be payable on the outstanding shares of the Series A-3 Preferred Stock or the Common Stock (other than a dividend on shares of Common Stock payable entirely in shares of Common Stock) without the consent of the holders of at least 60% of the outstanding shares of the Senior Preferred Stock. Nothing in this Section 2.4 shall preclude the payment of an amount equal to any Series B-3 Dividends as part of the Liquidation Preference or Redemption Price, as applicable, with respect to the Series B-3 Preferred Stock.

Section 3

Liquidation Rights

Section 3.1 Right to Liquidation Value.

(a) In the event of any Liquidation, either voluntary or involuntary, before any distribution or payment shall be made to the holders of any Series C Preferred Stock, Series B-3 Preferred Stock, Series A-3 Preferred Stock or Common Stock, each holder of Series D Preferred Stock shall be entitled to receive out of the assets of the Corporation legally available for distribution or payment (or the consideration received in a transaction which is a Liquidation), on account of each then-outstanding share of Series D Preferred Stock held by them, the Liquidation Preference specified for such share of Series D Preferred Stock. If, upon the Liquidation, the assets of the Corporation (or the consideration received in such transaction) shall be insufficient to make payment in full to all holders of the Series D Preferred Stock of the full Liquidation Preference of the Series D Preferred Stock, then such assets (or consideration) shall be distributed or paid among the holders of Series D Preferred Stock at the time outstanding, ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

(b) After the payment of the full Liquidation Preference of the Series D Preferred Stock as set forth in Section 3.1(a), and before any distribution or payment shall be made to the holders of any Series B-3 Preferred Stock, Series A-3 Preferred Stock or Common Stock, the holders of Series C Preferred Stock shall be entitled to receive out of the assets of the Corporation legally available for distribution or payment (or the consideration received in a transaction which is a Liquidation), on account of each then-outstanding share of Series C Preferred Stock held by them, the Liquidation Preference specified for such share of Series C Preferred Stock. If, upon the Liquidation, the assets of the Corporation (or the consideration received in such transaction) shall be insufficient to make payment in full to all holders of the Series C Preferred Stock of the full Liquidation Preference of the Series C Preferred Stock, then such assets (or consideration) shall be distributed or paid among the holders of Series C Preferred Stock at the time outstanding, ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

(c) After the payment of the full Liquidation Preference of the Series D Preferred Stock as set forth in Section 3.1(a) and the full Liquidation Preference of the Series C Preferred Stock as set forth in Section 3.1(b), and before any distribution or payment shall be made to the holders of any Series A-3 Preferred Stock or Common Stock, the holders of Series B-3 Preferred Stock shall be entitled to receive out of the assets of the Corporation legally available for distribution or payment (or the consideration received in such transaction), on account of each then-outstanding share of Series B-3 Preferred Stock held by them, the Liquidation Preference specified for such share of Series B-3 Preferred Stock. If the assets of the Corporation shall be insufficient to make payment in full to all holders of the Series B-3 Preferred Stock of the full Liquidation Preference of the Series B-3 Preferred Stock, then such assets (or consideration) shall be distributed or paid among the holders of Series B-3 Preferred Stock at the time outstanding, ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

(d) After the payment of the full Liquidation Preference of the Series D Preferred Stock as set forth in Section 3.1(a), the full Liquidation Preference of the Series C Preferred Stock as set forth in Section 3.1(b) and the full Liquidation Preference of the Series B-3 Preferred Stock as set forth in Section 3.1(c), and before any distribution or payment shall be made to the holders of any Common Stock, the holders of Series A-3 Preferred Stock shall be

entitled to receive out of the assets of the Corporation legally available for distribution or payment (or the consideration received in such transaction), on account of each then-outstanding share of Series A-3 Preferred Stock held by them, the Liquidation Preference specified for such share of Series A-3 Preferred Stock. If the assets of the Corporation shall be insufficient to make payment in full to all holders of the Series A-3 Preferred Stock of the full Liquidation Preference of the Series A-3 Preferred Stock, then such assets (or consideration) shall be distributed or paid among the holders of Series A-3 Preferred Stock at the time outstanding, ratably in proportion to the full amounts to which they would otherwise be respectively entitled.

(e) After the payment of the full liquidation preference of the Preferred Stock as set forth in Sections 3.1(a), 3.1(b), 3.1(c) and 3.1(d) above, all of the remaining assets of the Corporation (or consideration received in such transaction) shall be distributed or paid with equal priority and *pro rata* among the holders of the then outstanding Preferred Stock and holders of the then outstanding Common Stock in proportion to the number of shares of Common Stock then held by such holders, treating in such circumstances each then outstanding share of Preferred Stock as if it had been converted into Common Stock at the then applicable Conversion Price.

Section 3.2 "Liquidation" Defined. Each of the following events shall be considered a "Liquidation":

(a) any liquidation, dissolution or winding up, either voluntary or involuntary, of the Corporation;

(b) a statutory share exchange, reorganization, merger or consolidation of the Corporation with or into any other entity or entities or any other transaction or series of related transactions (but excluding any sale of stock by the Corporation for capital raising purposes), as a result of which stockholders of the Corporation immediately prior to the consummation of the statutory share exchange, reorganization, merger, consolidation, transaction or series of related transactions hold less than 50% of the voting securities of the surviving entity or the entity whose securities are issues pursuant thereto or hold greater than 50% of the voting securities of the surviving entity or the entity whose securities are issues pursuant thereto but in proportions that are not substantially equivalent to the proportions in which such stockholders held the Corporation's voting securities immediately prior to such transaction; or

(c) a sale, lease, license or other disposition of all or substantially all of the assets of the Corporation (whether held directly or indirectly through one or more controlled subsidiaries) by means of any transaction or series of related transactions.

Section 3.3 Preferential Payment. All of the preferential amounts to be paid to the holders of the Preferred Stock pursuant to this Section 3 shall be paid or set apart in trust for payment or payment before the payment or setting apart for payment of any amount for, or the distribution of any assets of the Corporation (or compensation received in the transaction) to, the holders of the Common Stock in connection with such Liquidation.

Section 4

Conversion Rights

The holders of the Preferred Stock shall have conversion rights as follows (the "Conversion Rights"):

Section 4.1 Right to Convert. Each share of Preferred Stock shall be convertible at the option of the holder thereof at any time and without the payment of any additional consideration therefor into that number of fully paid and nonassessable shares of Common Stock as is determined by dividing the Original Issue Price for such share of Preferred Stock by the Conversion Price (determined as hereinafter provided) in effect at the time of conversion. The Conversion Price for each share of Preferred Stock shall initially be an amount equal to the Original Issue Price for such share of Preferred Stock, but in each case shall hereafter be subject to adjustment (in order to adjust the number of shares of Common Stock into which such Preferred Stock is convertible) as provided in Section 4.4.

Section 4.2 Mandatory Conversion. Each share of Preferred Stock shall automatically be converted into shares of Common Stock at the then effective Conversion Price for such Preferred Stock, as adjusted pursuant to Section 4.4, upon (a) the affirmative vote or written consent of the holders of at least 60% of the then outstanding shares of Senior Preferred Stock, voting together as a single class, or (b) the closing of a firmly underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933, as amended, covering the offer and sale of Common Stock for the account of the Corporation to the public in which the Corporation actually receives gross proceeds of at least $30,000,000, and in which the public offering price per share of Common Stock is not less than three (3) times the Original Issue Price of the Series D Preferred Stock, and following which the Common Stock of the Corporation is traded or listed for quotation on a nationally recognized United States stock exchange; provided, that the conversion provided for in this Section 4.2(b) shall be conditioned upon the closing of the sale of securities pursuant to such offering and the person(s) entitled to receive the Common Stock issuable upon such conversion of the Preferred Stock shall not be deemed to have converted such Preferred Stock until immediately prior to the closing of the sale of such securities. In any case where a particular series of Preferred Stock is to be converted (and expressly excluding the case where all Preferred Stock is to be converted in accordance with the immediately preceding sentence) then, and only then, shall the following thresholds apply: (w) each outstanding share of Series A-3 Preferred Stock shall automatically be converted into shares of Common Stock at the then effective Conversion Price for such share immediately upon the affirmative vote or written consent of the holders of at least 60% of the then-outstanding Series A-3 Preferred Stock (voting as a single class), (x) each outstanding share of Series B-3 Preferred shall automatically be converted into shares of Common Stock at the then effective Conversion Price for such share immediately upon the affirmative vote or written consent of the holders of at least 60% of the then outstanding Series B-3 Preferred (voting as a single class), (y) each outstanding share of Series C Preferred shall automatically be converted into shares of Common Stock at the then effective Conversion Price for such share immediately upon the affirmative vote or written consent of the holders of at least two-thirds (2/3) of the then outstanding Series C Preferred (voting as a single class), and (z) each outstanding share of Series D Preferred shall automatically be converted into shares of Common Stock at the then effective Conversion Price for such share immediately upon the affirmative vote or written consent of the holders of at least two-thirds (2/3) of the then outstanding Series D Preferred (voting as a single class).

Section 4.3 Mechanics of Conversion. No fractional shares of Common Stock shall be issued upon conversion of Preferred Stock. In lieu of any fractional shares to which the holder would otherwise be entitled, the Corporation shall pay cash equal to such fraction multiplied by the then fair market value of a share of Common Stock as determined in good faith by the Board of Directors. For such purpose, all shares of Preferred Stock held by such holders shall be aggregated together, and any resulting fractional share of Common Stock shall be paid in cash. Before any holder of Preferred Stock shall be entitled to convert the same into full shares of Common Stock, such holder shall surrender at the office of the Corporation or of any transfer agent for the Preferred Stock the certificate or certificates therefor, duly endorsed or assigned in blank, or if such certificate or certificates have been lost, stolen or destroyed, a certificate in form and substance reasonably satisfactory to the Corporation certifying to such fact, together with an agreement reasonably satisfactory to the Corporation to indemnify the Corporation from any loss incurred by the Corporation in connection with such certificate or certificates, and shall give written notice (a "Conversion Notice") to the Corporation at such office that he elects to convert the same and shall state therein his name or the name or name of his nominees in which he wishes the certificate or certificates for shares of Common Stock to be issued, together with the applicable federal taxpayer identification number; provided, that in the event of an automatic conversion of any shares of Preferred Stock pursuant to Section 4.2, the outstanding shares of Preferred Stock so converted shall be converted automatically without any further action by the holders of such shares and whether or not the certificates representing such shares are surrendered to the Corporation or any transfer agent for the Preferred Stock; provided further, however, that the Corporation shall not be obligated to issue certificates evidencing the shares of Common Stock issuable upon such automatic conversion unless the certificates evidencing such shares of Preferred Stock (or if such certificate or certificates have been lost, stolen or destroyed, a certificate in form and substance reasonably satisfactory to the Corporation certifying to such fact, together with an agreement reasonably satisfactory to the Corporation to indemnify the Corporation from any loss incurred by the Corporation in connection with such certificate or certificates) are delivered to the Corporation or such transfer agent. Any Conversion Notice may state the date on or the time at which the conversion provided for therein is to be deemed effective and any conditions to such effectiveness. The Corporation shall, as soon as practicable after the Conversion Date, issue and deliver to such holder of Preferred Stock, or to his nominee or nominees, at such place designed by such holder, a certificate or certificates for the number of shares of Common Stock to which he shall be entitled, together with cash in lieu of any fraction of a share. If a Conversion Notice states a date or time on or at which the conversion provided for therein is to be effective or states any conditions to such effectiveness, then such conversion shall be deemed to have made on or at such date or time or the satisfaction of such conditions, as applicable. If the Conversion Notice does not state any date or time on or at which the conversion provided for therein is to be effective or state any conditions to such effectiveness, then such conversion shall be deemed to have been made immediately prior to the close of business on the date of such surrender of the shares of Preferred Stock to be converted pursuant to Section 4.1, and the holder of Preferred Stock entitled to receive the shares of Common Stock issuable upon conversion shall be treated for all purposes as the record holder of such shares of Common Stock on such date. The date or time at which any conversion of shares of Preferred Stock is deemed effective under Section 4.2 or this Section 4.3 is referred to herein as the "Conversion Date."

Section 4.4 Adjustments to Conversion Price for Diluting Issues.

(a) No Adjustment of Conversion Price. Subject to the provisions of Section 4.4(e) and Section 4.4(f), no adjustment in the number of shares of Common Stock into which a series of Senior Preferred Stock is convertible shall be made by adjustment in the Conversion Price for such series of Senior Preferred Stock in respect of the issuance of Additional Shares of Common Stock, unless the consideration per share for such Additional Shares of Common Stock issued or deemed to be issued by the Corporation is less than the Conversion Price for such series of Senior Preferred Stock in effect on the date of, and immediately prior to, the issue of such Additional Shares of Common Stock.

(b) Issue of Options and Convertible Securities Deemed Issue of Additional Shares of Common Stock. In the event the Corporation at any time or from time to time on or after the Filing Date shall issue any Options or Convertible Securities or shall fix a record date for the determination of holders of any class of securities entitled to receive any such Options or Convertible Securities, then the maximum number of shares (as set forth in the instrument relating thereto without regard to any provisions contained therein for a subsequent adjustment of such number and whether or not such Options or Convertible Securities or the right to convert, exercise or exchange such Options or Convertible Securities are immediately exercisable) of Common Stock issuable upon the exercise of such Options or, in the case of Convertible Securities and Options therefor, the conversion, exercise or exchange of such Convertible Securities, shall (except as provided in the definition of "Additional Shares of Common Stock") be deemed to be Additional Shares of Common Stock issued as of the time of such issue or, in case such a record date shall have been fixed, as of the close of business on such record date; provided that Additional Shares of Common Stock shall not be deemed to have been issued unless the consideration per share (determined pursuant to Section 4.4(d)) of such Additional Shares of Common Stock would be less than the applicable Conversion Price for the relevant series of Senior Preferred Stock in effect on the date of and immediately prior to such issue, or such record date, as the case may be; and provided, further, that in any such case in which Additional Shares of Common Stock are deemed to be issued:

(i) no further adjustment in the Conversion Price shall be made upon the subsequent issue of Convertible Securities or shares of Common Stock upon the exercise of such Options or conversion, exercise or exchange of such Convertible Securities;

(ii) if such Options or Convertible Securities by their terms provide, with the passage of time or otherwise, for any increase in the consideration payable to the Corporation, or decrease in the number of shares of Common Stock issuable, upon the exercise, conversion or exchange thereof, then the Conversion Price computed upon the original issue thereof (or upon the occurrence of a record date with respect thereto), and any subsequent adjustments based thereon, shall, upon any such increase or decrease becoming effective, be recomputed to reflect such increase or decrease insofar as it affects such Options or the rights of conversion, exercise or exchange under such Convertible Securities;

(iii) upon the expiration of any such Options or any rights of conversion, exercise or exchange under such Convertible Securities which shall not have been converted, exercised or exchanged, the Conversion Price computed upon the original issue thereof (or upon the occurrence of a record date with respect thereto) and any subsequent adjustments based thereon shall, upon such expiration, be recomputed as if:

(A) in the case of Convertible Securities or Options for Common Stock, the only Additional Shares of Common Stock issued were the shares of Common Stock, if any, actually issued upon the exercise of such Options or the conversion, exercise or exchange of such Convertible Securities and the consideration received therefor was the consideration actually received by the Corporation for the issue of all such Options, whether or not exercised, plus the consideration actually received by the Corporation upon such exercise, or for the issue of all such Convertible Securities which were actually converted, exercised or exchanged, plus the additional consideration, if any, actually received by the Corporation upon such conversion, exercise or exchange, and

(B) in the case of Options for Convertible Securities, only the Convertible Securities, if any, actually issued upon the exercise thereof were issued at the time of issue of such Options, and the consideration received by the Corporation for the Additional Shares of Common Stock deemed to have been then issued was the consideration actually received by the Corporation for the issue of all such Options, whether or not exercised, plus the consideration deemed to have been received by the Corporation (determined pursuant to Section 4.4(d)) upon the issue of the Convertible Securities with respect to which such Options were actually exercised;

(iv) no readjustment pursuant to clause (ii) or (iii) above shall have the effect of increasing the Conversion Price to an amount which exceeds the lower of (x) the Conversion Price on the original adjustment date, or (y) the Conversion Price that would have resulted from any issuance of Additional Shares of Common Stock between the original adjustment date and such readjustment date;

(v) if the terms of any Options or Convertible Securities are revised in any manner which has the effect of either increasing the number of shares of Common Stock issuable upon the exercise, conversion or exchange thereof or decreasing the consideration payable to the Corporation, then the Conversion Price computed upon the original issue thereof (or upon the occurrence of a record date with respect thereto), and any subsequent adjustments based thereon, shall, upon any such increase or decrease becoming effective, be recomputed to reflect such increase or decrease insofar as it affects such Options or the rights of conversion, exercise or exchange under such Convertible Securities; and

(vi) if such record date shall have been fixed and such Options or Convertible Securities are not issued on the date fixed therefor, the adjustment previously made in the Conversion Price which became effective on such record date shall be canceled as of the close of business on such record date, and thereafter the Conversion Price shall be adjusted pursuant to this Section 4.4(b) as of the actual date of their issuance.

(c) Adjustment of Conversion Price Upon Issuance of Additional Shares of Common Stock. In the event the Corporation at any time or from time to time on or after the Filing Date shall issue Additional Shares of Common Stock (including Additional Shares of Common Stock deemed to be issued pursuant to Section 4.4(b)) without consideration or for a consideration per share less than the Conversion Price for a series of Senior Preferred Stock in effect immediately prior to such issue, then and in such event, the Conversion Price for such series of Senior Preferred Stock shall be reduced, concurrently with such issue, to a price

(calculated to the nearest cent) equal to the consideration per share received by the Corporation for such issue or deemed issue of the Additional Shares of Common Stock; provided that if such issuance or deemed issuance was without consideration, then the Company shall be deemed to have received an aggregate of $.001 of consideration for all such Additional Shares of Common Stock issued or deemed to be issued.

(d) Determination of Consideration. For purposes of this Section 4.4, the consideration received by the Corporation for the issue of any Additional Shares of Common Stock shall be computed as follows:

(i) Cash and Property: Such consideration shall:

(A) insofar as it consists of cash, be computed at the aggregate amount of cash received by the Corporation, excluding amounts paid or payable for accrued interest or accrued dividends;

(B) insofar as it consists of property other than cash, be computed at the fair value thereof at the time of such issue, as determined in good faith by the Board of Directors; and

(C) in the event Additional Shares of Common Stock are issued together with other shares or securities or other assets of the Corporation for consideration which covers both, be the proportion of such consideration so received, computed as provided in clauses (1) and (2) above, as determined in good faith by the Board of Directors.

(ii) Options and Convertible Securities. The consideration per share received by the Corporation for Additional Shares of Common Stock deemed to have been issued pursuant to Section 4.4(b), relating to Options and Convertible Securities, shall be determined by dividing (x) the total amount, if any, received or receivable by the Corporation as consideration for the issue of such Options or Convertible Securities, plus the minimum aggregate amount of additional consideration (as set forth in the instruments relating thereto, without regard to any provision contained therein for a subsequent adjustment of such consideration until such subsequent adjustment occurs) payable to the Corporation upon the exercise of such Options or the conversion, exercise or exchange of such Convertible Securities or in the case of Options for Convertible Securities, the exercise of such Options for Convertible Securities and the conversion, exercise or exchange of such Convertible Securities, by (y) the maximum number of shares of Common Stock (as set forth in the instruments relating thereto, without regard to any provision contained therein for a subsequent adjustment of such number until such subsequent adjustment occurs) issuable upon the exercise of such Options or the conversion, exercise or exchange of such Convertible Securities.

(e) Adjustment for Dividends, Distributions, Subdivisions, Combinations or Consolidation of Common Stock.

(i) Stock Dividends, Distributions or Subdivisions. In the event the Corporation at any time or from time to time on or after the Filing Date shall declare or pay any dividend or make any other distribution on the Common Stock payable in Common Stock or effect a subdivision of the outstanding shares of Common Stock (by reclassification or

otherwise than by payment of a dividend in Common Stock), then and in any such event, the Conversion Price for each series of Preferred Stock in effect immediately prior thereto shall be proportionately decreased to reflect such dividend, distribution or subdivision as of:

(A) in the case of any such dividend or distribution, immediately after the close of business on the record date for the determination of holders of any class of securities entitled to receive such dividend or distribution, or

(B) in the case of any such subdivision, at the close of business on the date immediately prior to the date upon which such corporate action becomes effective.

If such record date or other effective date shall have been fixed and such dividend, distribution or subdivision shall not have been fully paid or effected on the date fixed therefor, the adjustment previously made in the Conversion Price which became effective on such record date or other date shall be canceled as of the close of business on such record date or other date, and thereafter the Conversion Price shall be adjusted pursuant to this Section 4.4(e) as of the time of actual payment of such dividend, distribution or effectiveness of such subdivision.

(ii) Combinations or Consolidations. In the event the outstanding shares of Common Stock shall at any time or from time to time on or after the Filing Date be combined or consolidated, by reclassification or otherwise, into a lesser number of shares of Common Stock, the Conversion Price for each series of Preferred Stock in effect immediately prior to such combination or consolidation shall, concurrently with the effectiveness of such combination or consolidation, be proportionately increased.

(f) Adjustment for Reclassification or Reorganization. In case of any capital reorganization or reclassification of the capital stock of the Corporation (other than a reclassification covered by Section 4.4(e)(ii)), each share of Preferred Stock shall thereafter be convertible into the number of shares of stock or other securities or property to which a holder of the number of shares of Common Stock of the Corporation deliverable upon conversion of such Preferred Stock would have been entitled upon such reorganization or reclassification. In any such case, appropriate adjustment (as determined by the Board of Directors) shall be made in the application of these provisions set forth with respect to the rights and interest thereafter of the holders of the Preferred Stock, to the end that these provisions (including provisions with respect to changes in and other adjustments of the Conversion Price) shall thereafter be applicable, as nearly as reasonably may be, in relation to any shares of stock or other property thereafter deliverable upon the conversion of the Preferred Stock.

Section 4.5 Certificate as to Adjustments. Upon the occurrence of each adjustment or readjustment of the Conversion Price pursuant to this Section 4, the Corporation at its expense shall promptly compute such adjustment or readjustment in accordance with these terms and furnish to each holder of Preferred Stock a certificate setting forth such adjustment or readjustment and showing in detail the facts upon which such adjustment or readjustment is based. The Corporation shall, upon the written request at any time of any holder of Preferred Stock, furnish or cause to be furnished to such holder a like certificate setting forth (i) such adjustments and readjustments, (ii) the Conversion Price at the time in effect, and (iii) the

number of shares of Common Stock and the amount, if any, of other property which at the time would be received upon the conversion of such holder's Preferred Stock.

Section 4.6 Notices of Record Date. In the event of (i) any taking by the Corporation of a record date of the holders of any class of securities for the purpose of determining the holders thereof who are entitled to receive any dividend or other distribution, or (ii) any capital reorganization of the Corporation, any reclassification or recapitalization of the capital stock of the Corporation, any merger or consolidation of the Corporation, and any transfer of all or substantially all of the assets of the Corporation to any other entity or person, or any Liquidation, the Corporation shall mail to each holder of Preferred Stock at least 20 days (30 days in the case of an acquisition of the Corporation through a merger or consolidation of the Corporation, the sale, lease, license or other disposition of all or substantially all of its assets and properties or any transaction or series of related transactions) prior to the record date specified therein, a notice specifying (A) the date on which any such record is to be taken for the purpose of such dividend or distribution and a description of such dividend or distribution, (B) the date on which any such reorganization, reclassification, transfer, consolidation, merger or Liquidation is expected to become effective, and (C) the time, if any, that is to be fixed, as to when the holders of record of Common Stock (or other securities) shall be entitled to exchange their shares of Common Stock (or other securities) for securities or other property deliverable upon such reorganization, reclassification, transfer, consolidation, merger or Liquidation.

Section 4.7 Common Stock Reserved. The Corporation shall reserve and keep available out of its authorized but unissued Common Stock such number of shares of Common Stock as shall from time to time be sufficient to effect conversion of all outstanding shares of Preferred Stock. If any shares of Common Stock to be reserved for the purpose of conversion of shares of Preferred Stock require registration or listing with, or approval of, any governmental authority, stock exchange or other regulatory body under any federal or state law or regulation or otherwise, before such shares may be validly issued or delivered upon conversion, the Corporation will in good faith and as expeditiously as possible endeavor to secure such registration, listing or approval, as the case may be.

Section 4.8 Other Events Altering Conversion Price. Upon the occurrence of any event not specifically described in this Section 4 as reducing the Conversion Price that, in the reasonable exercise of the business judgment of the Board of Directors of the Corporation reached in good faith, requires, on equitable principles, the reduction of the Conversion Price, the Conversion Price will be so equitably reduced.

Section 5

Voting Rights

Section 5.1 General. Except as otherwise required by law and the provisions of this Section 5 and Section 7 below, the holders of the Senior Preferred Stock and the holders of the Common Stock shall be entitled to notice of any stockholders' meeting and to vote together as a single class of capital stock upon any matter submitted to a stockholder for a vote, except as to matters pertaining to the rights or obligations of holders of Preferred Stock, when they shall vote as a class, on the following basis:

(a) Holders of Common Stock shall have one vote per share; and

(b) Holders of Senior Preferred Stock shall have that number of votes per share as is equal to the number of shares of Common Stock into which each such share of Senior Preferred Stock held by such holder is convertible at the time of such vote.

As to all matters with respect to which the Series B-3 Preferred Stock is entitled to vote as a single class, each share of the Series B-3 Preferred Stock shall have one vote. As to all matters with respect to which the Series C Preferred Stock is entitled to vote as a single class, each share of the Series C Preferred Stock shall have one vote. As to all matters with respect to which the Series D Preferred Stock is entitled to vote as a single class, each share of the Series D Preferred Stock shall have one vote.

Except as otherwise required by law, the holders of the Series A-3 Preferred Stock shall have no voting rights. As to all matters with respect to which the Series A-3 Preferred Stock is entitled to vote as required by law, each share of Series A-3 Preferred Stock shall have one vote.

Section 5.2 Election of Board of Directors. The size of the Corporation's board of directors shall be fixed at seven (7) members, which number shall not be increased or decreased without the approval or written consent of the holders of 60% of the outstanding Senior Preferred Stock. The holders of the Senior Preferred Stock and the holders of the Common Stock shall be entitled to vote upon the election of directors on the following basis: (i) three (3) members of the board of directors of the Corporation shall be appointed by the vote of the holders of 60% of the Senior Preferred Stock, voting as a separate class; (ii) one (1) member of the board of directors of the Corporation shall be appointed by the vote of the holders of at least a majority of the Common Stock, and (iii) the remaining members of the board of directors of the Corporation shall be appointed by the vote of the holders of a majority of the Senior Preferred Stock and Common Stock, voting together as a single class. Each director shall serve until he or she resigns, dies, becomes incapacitated or is removed. A director may only be removed and/or replaced by the holders of that percentage of the class or classes or series of stock which were entitled to appoint him or her.

Section 6

Mandatory Redemption

Section 6.1 Upon a Redemption Event. Assuming funds are available within the Corporation and redemption would not put the Corporation at a financial risk, upon the request in writing of the holders of 60% of the outstanding shares of Senior Preferred Stock, on or after a Redemption Event, the Corporation shall redeem, and every holder of Preferred Stock desiring to sell shall sell its outstanding shares of Senior Preferred Stock at the Redemption Price per share, payable in cash, in each case in accordance with this Section 6.

Section 6.2 Upon the Fifth Anniversary of the Issuance of Series D Preferred Stock. Upon the request in writing of the holders of 60% of the outstanding shares of Senior Preferred Stock, at any time after October 4, 2018, the Corporation shall redeem and every holder of Senior Preferred Stock desiring to sell shall sell its outstanding shares of Senior

Preferred Stock at the Redemption Price per share, payable in cash, in each case in accordance with this Section 6.

Section 6.3 Mechanics of Redemption. The following provisions shall apply to any redemption pursuant to this Section 6:

(a) On the Redemption Date, the Corporation shall deposit for the benefit of the holders of the shares of the outstanding Senior Preferred Stock to be redeemed the funds necessary for the redemption of such outstanding shares of Senior Preferred Stock with a bank or trust company, having a capital and surplus of at least $50,000,000.

(i) Holders of shares of Series D Preferred Stock, prior to any redemption of any shares of Series C Preferred Stock or Series B-3 Preferred Stock, shall thereafter have the right to receive (i) payment of the Redemption Price for such shares by surrendering to the Corporation, at its principal office or at such other office or agency maintained by the Corporation for that purpose, a certificate or certificates representing the shares of Series D Preferred Stock or (ii) a certificate or certificates for the number of shares of Common Stock into which such holder's shares of Series D Preferred Stock are then convertible pursuant to Section 4 hereof, by surrendering a certificate or certificates representing the shares of Series D Preferred Stock in accordance with the provisions of Section 4 hereof, accompanied by any documentation required therein. If the Corporation does not have sufficient funds legally available to redeem all shares of Series D Preferred Stock to be redeemed pursuant to this Section 6.3, then it shall so notify such holders and shall redeem such shares pro rata (based on the portion of the aggregate Redemption Price for the Series D Preferred Stock payable to them) to the extent possible and shall redeem the remaining shares to be redeemed as soon as sufficient funds are legally available.

(ii) Holders of shares of Series C Preferred Stock, prior to any redemption of any shares of Series B-3 Preferred Stock, shall thereafter have the right to receive (i) payment of the Redemption Price for such shares by surrendering to the Corporation, at its principal office or at such other office or agency maintained by the Corporation for that purpose, a certificate or certificates representing the shares of Series C Preferred Stock or (ii) a certificate or certificates for the number of shares of Common Stock into which such holder's shares of Series C Preferred Stock are then convertible pursuant to Section 4 hereof, by surrendering a certificate or certificates representing the shares of Series C Preferred Stock in accordance with the provisions of Section 4 hereof, accompanied by any documentation required therein. If the Corporation does not have sufficient funds legally available to redeem all shares of Series C Preferred Stock to be redeemed pursuant to this Section 6.3, then it shall so notify such holders and shall redeem such shares pro rata (based on the portion of the aggregate Redemption Price for the Series C Preferred Stock payable to them) to the extent possible and shall redeem the remaining shares to be redeemed as soon as sufficient funds are legally available.

(iii) Subject to the redemption of the Series D Preferred Stock and Series C Preferred Stock as provided in subsections (i) and (ii) above, holders of shares of Series B-3 Preferred Stock shall thereafter have the right to receive (i) payment of the Redemption Price for such shares by surrendering to the Corporation, at its principal office or at such other office or agency maintained by the Corporation for that purpose, a certificate or certificates representing

the shares of Series B-3 Preferred Stock or (ii) a certificate or certificates for the number of shares of Common Stock into which such holder's shares of Series B-3 Preferred Stock are then convertible pursuant to Section 4 hereof, by surrendering a certificate or certificates representing the shares of Series B-3 Preferred Stock in accordance with the provisions of Section 4 hereof, accompanied by any documentation required therein. If the Corporation does not have sufficient funds legally available to redeem all shares of Series B-3 Preferred Stock to be redeemed pursuant to this Section 6.3, then it shall so notify such holders and shall redeem such shares pro rata (based on the portion of the aggregate Redemption Price for the Series B-3 Preferred Stock payable to them) to the extent possible and shall redeem the remaining shares to be redeemed as soon as sufficient funds are legally available.

(iv) Any monies so deposited by the Corporation with a bank or trust company pursuant to this Section 6.3(a) and unclaimed at the end of one year from the Redemption Date (the "First Anniversary") shall revert to the general funds of the Corporation. After the First Anniversary, any such bank or trust company shall, upon demand, pay over to the Corporation such unclaimed amounts and thereupon such bank or trust company shall be relieved of all responsibility in respect thereof to such holder and such holder shall look only to the Corporation for the payment of the Redemption Price. After the First Anniversary, any holder of shares of Senior Preferred Stock who does not surrender a certificate or certificates representing the shares of Senior Preferred Stock for conversion in accordance with the provisions of Section 4 hereof, shall look only to the Corporation for the payment of the Redemption Price and shall waive and forfeit any rights to convert such shares of Senior Preferred Stock granted hereunder. Any interest accrued on funds so deposited pursuant to this Section 6.3 shall be paid from time to time to the Corporation for its own account.

(b) Upon the deposit of funds pursuant to Section 6.3(a) necessary to effect the redemption of all outstanding shares of the Senior Preferred Stock, notwithstanding that any certificates for such shares shall not have been surrendered for cancellation, the shares represented thereby shall no longer be deemed outstanding, the rights to receive dividends thereon shall cease to accrue from and after the Redemption Date and all rights of the holders of the shares of the Senior Preferred Stock shall cease and terminate, excepting only the right to receive the Redemption Price therefor as provided in this Section 6 or to convert such shares into shares of Common Stock. If the Corporation does not deposit funds pursuant to Section 6.3(a) necessary to effect the redemption of all outstanding shares of the Senior Preferred Stock, then each outstanding share of Series Preferred Stock shall remain outstanding and all rights of the holders thereof shall continue until such time as a certificate for such shares have been surrendered for cancellation in connection with the payment of the Redemption Price or converted into shares of Common Stock as provided.

If there are no directors in office, then an election of directors may be held in the manner provided by statute. In the event of a vacancy in the Board of Directors, the remaining directors, except as otherwise provided by law or these bylaws, may exercise the powers of the full board until the vacancy is filled. If, at the time of filing any vacancy or any newly created directorship, the directors then in office shall constitute less than a majority of the whole board (as constituted immediately prior to any such increase), the Court of Chancery may, upon application of any stockholder or stockholders holding at least ten percent (10%) of the total number of the shares at the time outstanding having the right to vote for such directors, summarily order an election to be held to fill any such vacancies or newly created directorships, or to replace the directors chosen by the directors then in office.

written request that the Corporation effect any registration with respect to Registrable Securities on Form S-3 (or any successor form to Form S-3 regardless of its designation) at a time when the Corporation is eligible to register securities on Form S-3 (or any successor form to Form S-3 regardless of its designation) for an offering of Registrable Securities, the Corporation shall promptly give notice thereof to all Holders of Registrable Securities. Each Holder shall have the right, by giving notice to the Corporation within 15 days following receipt by it of such notice from the Corporation, to elect to have included in such registration such of its Registrable Securities as such Holders shall request in such notice of election, subject to Section 2.1(c). The Corporation shall use its best efforts to effect registration of the Registrable Securities specified in such request and notice of election; provided that the Corporation shall not be required to effect a registration pursuant to this Section 2.1(b) unless Holders requesting registration propose to dispose of shares of Registrable Securities having an aggregate price to the public (before deduction of underwriting discounts and expenses of sale) of at least $1,000,000; and provided, further, that the Corporation shall not be required to effect more than two (2) such registrations pursuant to this Section 2.1(b) within any twelve-month period.

(c) Allocation of Shares in Demand Registration. In the event that the underwriter's representative determines in good faith that marketing factors require a limitation of the shares to be included in a registration pursuant to Section 2.1(a) or 2.1(b), each Holder requesting registration shall be entitled to include a portion of the Registrable Securities requested to be included in such registration *pro rata* (based on the number of Registrable Securities held). In such event, such registration shall not be counted for the registration for purposes of Section 2.1(a) or 2.1(b), as the case may be, if such registration does not include at least 90% of the Registrable Securities requested to be included in such registration statement pursuant to Section 2.1(a) or 2.1(b), as the case may be.

(d) Registration of Other Securities in Demand Right. A registration pursuant to Section 2.1(a) or 2.1(b) may include securities other than Registrable Securities included in such registration only with the prior consent of the Holders of more than 50% of the Registrable Securities requesting such registration; provided, that the Corporation may include its Common Stock in such registration without such consent so long as such inclusion does not prevent in any manner whatsoever the Holders of Registrable Securities from including in such registration all of the Registrable Securities that such Holders elected to so include pursuant to Section 2.1(a) or 2.1 (b), as the case may be.

(e) Underwriting in Demand Registration.

(i) Notice of Underwriting. If the Holders intend to distribute the Registrable Securities covered by their request by means of an underwriting, they shall so advise the Corporation as a part of their request made pursuant to this Section 2.1, and the Corporation shall include such information in the notice referred to in Section 2.2(a).

(ii) Selection of Underwriter in Demand Registration. The Corporation shall, together with the Holders engaged in a registration, enter into an underwriting agreement with the representative ("Underwriter's Representative") of the underwriter or underwriters selected for such underwriting by a majority of the Holders engaged in the registration and approved by the Corporation.

(iii) Right of Withdrawal in Demand Registration. If a Holder disapproves of the terms of the underwriting, it may elect to withdraw therefrom by notice to the Corporation and the Underwriter's Representative delivered at least 10 days prior to the effective date of the registration statement. The securities so withdrawn shall also be withdrawn from the registration statement.

(iv) Blue Sky in Demand Registration. In the event of any registration pursuant to Section 2.1, the Corporation will exercise its best efforts to Register and qualify the securities covered by the registration statement under such other securities or Blue Sky laws of such jurisdictions as the Holders shall reasonably request and as shall be reasonably appropriate for the distribution of such securities; provided, however, that the Corporation shall not be required to qualify to do business or to file a general consent to service of process in any such states or jurisdictions.

(v) Optimal Registration. The Holders agree that, in exercising their rights under Section 2.1, they will permit the registration of the Registrable Securities on such forms issued by the Commission as will minimize the Corporation's time and expense in effecting such registration without affecting the liquidity afforded by such registration or otherwise adversely affecting the Holders, in each case as reasonably determined by the Holders. If, for example, the Holders wish to register Registrable Securities pursuant to Section 2.1(a) at a time when the Corporation is eligible to use Form S-3 for purposes of registering such Registrable Securities, the Holders will permit the Corporation to fulfill its obligations under Section 2.1(a) by effecting such registration on Form S-3; provided, however, that nothing in this Section 2.1(e)(v) will permit the Corporation to fulfill such obligation by using Form SB-1, SB-2 or similar forms limited to "Small Business Issuers," without the consent of the Holders of a majority of the Registrable Securities to be included in such registration.

(vi) Delay of Registration. The Holders agree that for a period of 90 days following the date of the effectiveness of a registration under Section 2.2 pursuant to which the Holders have sold not less than 75% of the aggregate amount of the Registrable Securities that the Holders specified in their notice to the Corporation pursuant to Section 2.2(a), they will not exercise their right to demand a registration pursuant to Section 2.1(a) or 2.1(b). In addition, the Corporation shall not be required to effect a registration pursuant to this Section 2.1 if the Corporation shall furnish to the Holders within thirty (30) days of any registration request a certificate signed by the President of the Corporation stating that in the good faith judgment of the Board of Directors of the Corporation, it would be seriously detrimental to the Corporation and its stockholder for such registration to be effected at such time, in which event the Corporation shall have the right to defer the filing of the registration statement for a period of not more than ninety (90) days after the receipt of the request of the Holder or Holders under this Section 2.1; provided, however, that the Corporation shall not utilize this right more than once in any twelve month period.

2.2 Piggyback Registration.

(a) Notice of Piggyback Registration and Inclusion of Registrable Securities. Subject to the terms of this Agreement, in the event during the period of three (3) years following the closing of the Corporation's initial underwritten public offering of Common Stock pursuant

to a registration statement, the Corporation decides to register any of its Common Stock (either for its own account or the account of a Holders or other security holder exercising demand registration rights) (but without any obligation to do so), other than (i) a registration statement which exclusively relates to the registration of securities under an employee stock option, purchase, bonus or other benefit plan, or (ii) a registration on any form that does not include substantially the same information (other than information relating specifically to this disposition of the Registrable Securities and the Holders) as would be required to be included in a registration statement covering the sale of the Registrable Securities, the Corporation will: (A) promptly give the Holders written notice thereof (which shall include a list of the jurisdictions in which the Corporation intends to attempt to qualify such securities under the applicable Blue Sky laws) and (B) include in such registration (and any related qualification under Blue Sky laws or other compliance), and in any underwriting involved therein, all the Registrable Securities specified in a written request delivered to the Corporation by the Holders within 15 days after delivery of such written notice from the Corporation.

(b) Underwriting in Piggyback Registration.

(i) Notice of Underwriting. If the registration of which the Corporation gives notice is a registered public offering involving an underwriting, the Corporation shall so advise the Holders as a part of the written notice given pursuant to Section 2.2(a). In such event the right of the Holders to registration shall be conditioned upon such underwriting and the inclusion of a Holder's Registrable Securities in such underwriting to the extent provided in this Section 2.2. The Holders shall, together with the Corporation, enter into an underwriting agreement with the Underwriter's Representative for such offering. The Holders shall have no right to participate in the selection of the underwriters for an offering pursuant to this Section 2.2.

(ii) Marketing Limitation in Piggyback Registration. In the event the Underwriter's Representative advises the Corporation and the Holders engaged in a registration under Section 2.2(a) in writing that market factors (including, without limitation, the aggregate number of shares of Common Stock requested to be registered, the general condition of the market, and the status of the persons proposing to sell securities pursuant to the registration) require a limitation of the number of shares to be underwritten, the Underwriter's Representative (subject to the allocation priority set forth in clause (iii) below) may exclude some or all of the Registrable Securities from such registration and underwriting.

(iii) Allocation of Shares in Piggyback Registration. In the event that the Underwriter's Representative limits the number of shares to be included in a registration pursuant to Section 2.2(a), each Holder, upon requesting registration shall be entitled to include a portion of the Registrable Securities requested to be included in such registration *pro rata* (based on the number of Registrable Securities held) with all other requesting Holders. Unless all Registrable Securities and such other piggybacking shares requested to be included in such registration are so included, no other securities may be included in the registration statement.

(iv) Withdrawal in Piggyback Registration. If any Holder disapproves of the terms of any such underwriting, it may elect to withdraw therefrom at no cost to such Holder by written notice to the Corporation and the underwriter delivered at least 10 days prior

to the effective date of the registration statement. Any Registrable Securities or other securities excluded or withdrawn from such underwriting shall be withdrawn from such registration.

(v) Blue Sky in Piggyback Registration. In the event of any registration of Registrable Securities pursuant to Section 2.2(a), the Corporation will exercise its best efforts to register and qualify the securities covered by the registration statement under the Blue Sky laws of such jurisdictions as the Holders shall reasonably request and as shall be reasonably appropriate for the distribution of such securities; provided, however, that the Corporation shall not be required to qualify to do business or to file a general consent to service of process in any such states or jurisdictions.

(vi) Termination or Postponement. Without any obligation to the Holders, upon notice to the Holders, the Corporation may terminate or postpone any registration commenced by it under Section 2.2.

2.3 Expenses of Registration. All Registration Expenses incurred in connection with any registration hereunder shall be borne by the Corporation. Selling Expenses to be borne by the selling stockholder shall be borne *pro rata* on the basis of the number of Registrable Securities registered by such selling stockholder.

2.4 Registration Generally. Whenever required under this Article 2 to effect the registration of any Registrable Securities, the Corporation shall, as expeditiously as reasonably possible:

(a) Prepare and file with the SEC a registration statement with respect to such Registrable Securities and use its best efforts to cause such registration statement to become effective, and, upon the request of the Holders of a majority of the Registrable Securities registered thereunder, keep such registration statement effective for up to 120 days;

(b) Prepare and file with the SEC such amendments and supplements to such registration statement and the prospectus used in connection with such registration statement as may be necessary to comply with the provisions of the Act with respect to the disposition of all securities covered by such registration statement;

(c) Furnish to the Holders such numbers of copies of a prospectus, including a preliminary prospectus, in conformity with the requirements of the Act, and such other documents as they may reasonably request in order to facilitate the disposition of Registrable Securities owned by them;

(d) Use its best efforts to register and qualify the securities covered by such registration statement under such other securities or Blue Sky laws of such jurisdictions as shall be reasonably requested by the Holders, provided that the Corporation shall not be required in connection therewith or as a condition thereto to qualify to do business or to file a general consent to service of process in any such states or jurisdictions;

(e) In the event of any underwritten public offering, enter into and perform its obligations under an underwriting agreement, in usual and customary form, with the managing

underwriter of such offering. Each Holder participating in such underwriting shall also enter into and perform its obligations under such an agreement;

(f) Notify each Holder of Registrable Securities covered by such registration statement at any time when a prospectus relating thereto is required to be delivered under the Act of the happening of any event as a result of which the prospectus included in such registration statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary' to make the statement therein not misleading in light of the circumstances then existing;

(g) Cooperate with the selling Holders of Registrable Securities and the managing underwriters, if any, to facilitate the timely preparation and delivery of certificates representing Registrable Securities to be sold and not bearing any restrictive legends; and enable such Registrable Securities to be in such denominations and registered in such names as the managing underwriters may request at least 3 days prior to any sale of Registrable Securities to the underwriters;

(h) Cause all such Registrable Securities registered pursuant hereunder to be listed on each securities exchange on which similar securities issued by the Corporation are then listed;

(i) Provide a transfer agent and registrar for all Registrable Securities registered pursuant hereunder and a CUSIP number for all such Registrable Securities, in each case not later than the effective date of such registration; and

(j) Use its best efforts to furnish, at the request of any Holder requesting registration of Registrable Securities pursuant to this Article 2, on the date that such Registrable Securities are delivered to the underwriters for sale in connection with a registration pursuant to this Article 2, if such securities are being sold through underwriters, or, if such securities are not being sold through underwriters, on the date that the registration statement with respect to such securities becomes effective, (i) an opinion, dated such date, of the counsel representing the Corporation for the purposes of such registration, in form and substance as is customarily given to underwriters in an underwritten public offering, addressed to the underwriters, if any, and to the Holders requesting registration of Registrable Securities and (ii) a letter dated such date, from the independent certified public accountants of the Corporation, in form and substance as is customarily given by independent certified public accountants to underwriters in an underwritten public offering, addressed to the underwriters, if any, and to the Holders requesting registration of Registrable Securities.

2.5 Information Furnished by Holders.

(a) It shall be a condition precedent of the Corporation's obligations under Article 2 of this Agreement to any Holder that such Holder furnish to the Corporation such information regarding the Holder, the Registrable Securities held by it and the distribution proposed by the Holder as the Corporation may reasonably request to effect any such registration and as are customarily provided by selling stockholder.

(b) The Corporation shall have no obligation with respect to any registration requested pursuant to Section 2.1(a) or 2.1(b) hereof if, due to the failure of any Holder or Holders to provide the information requested pursuant to Section 2.5(a), the number of shares or the anticipated aggregate offering price of the Registrable Securities to be included in the registration does not equal or exceed the number of shares or the anticipated aggregate offering price required to originally trigger the Corporation's obligation to initiate such registration as specified in Section 2.1(a) or 2.1(b), as applicable.

2.6 Indemnification.

(a) Indemnification by the Corporation. In the event of the registration of any Registrable Securities under the Securities Act pursuant to the provisions hereof, the Corporation will, to the extent permitted by law, indemnify and hold harmless each Holder, any underwriter (as defined in the Securities Act) for such Holder and each person, if any, who controls such Holder within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act (each such person being hereinafter sometimes referred to as an "indemnified person"), from and against any losses, claims, damages, liabilities or expenses, joint or several, to which such indemnified person may become subject under the Securities Act, the Exchange Act, state securities laws and Blue Sky laws or otherwise, insofar as such losses, claims, damages, liabilities or expenses (or actions in respect thereof) arise out of or are based upon (i) any, untrue statement or alleged untrue statement of any material fact contained or incorporated by reference in any registration statement or prospectus or any amendment or supplement thereto or in any preliminary prospectus, or any document incorporated by reference therein, or (ii) the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, or (iii) any violation of the Securities Act, the Exchange Act, any "blue sky" or other state securities laws or any regulation promulgated thereunder and the Corporation will reimburse each such indemnified person for any legal or any other expenses reasonably incurred by such indemnified person in connection with investigating or defending any such loss, claim, damage, liability or action as such expenses are incurred; provided, however, that the Corporation will not be liable in any such case to the extent that any such loss, claim, damage or liability arises out of or is based upon an untrue statement or alleged untrue statement or omission or alleged omission made or incorporated by reference in the registration statement, prospectus, amendment, supplement or in reliance upon and in conformity with written information furnished to the Corporation by such indemnified person stating specifically that it is for use in preparation thereof; and provided, further, that the Corporation shall have no obligation hereunder nor any liability with respect to any settlement of any action or proceeding effected without its written consent, which consent shall not be unreasonably withheld, delayed or conditioned, but if settled with its written consent, or if there be a final judgment for the plaintiff in any such action or proceeding, the Corporation agrees to indemnify and hold harmless such indemnified parties from and against any loss or liability by reason of such settlement or judgment. Such indemnity shall remain in full force and effect regardless of any investigation made by or on behalf of such indemnified person and shall survive the transfer of such Registrable Securities by such seller.

(b) Indemnification by Holder of Registrable Securities. In the event of the registration of any Registrable Securities under the Securities Act pursuant to the provisions hereof each Holder on whose behalf such Registrable Securities shall have been registered will,

to the extent permitted by law, indemnify and hold harmless the Corporation, each director of the Corporation, each officer of the Corporation who signs the registration statement, each underwriter, broker and dealer, if any, who participates in the offering and sale of such Registrable Securities and each other person, if any, who controls the Corporation or any such underwriter, broker or dealer within the meaning of either Section 15 of the Securities Act or Section 20 of the Exchange Act (each such person being hereinafter sometimes referred to as an "indemnified person"), against any losses, claims, damages or liabilities, joint or several, to which the Corporation, such director, officer, underwriter, broker or dealer or controlling person may become subject under the Securities Act, the Exchange Act, state securities laws and Blue Sky laws or otherwise, insofar as such losses, claims, damages, liabilities or expenses (or actions in respect thereof) arise out of or are based upon any untrue statement or alleged untrue statement of a material fact contained or incorporated by reference in any registration statement or prospectus or any amendment or supplement thereto or any document incorporated by reference therein, or arise out of or are based upon the omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein not misleading, which untrue statement or alleged untrue statement or omission or alleged omission has been made or incorporated therein in reliance upon and in conformity with written information furnished to the Corporation by such Holder stating specifically that it is for use in preparation thereof, and will reimburse the Corporation and each such indemnified person for any legal or any other expenses reasonably incurred by the Corporation or such indemnified person in connection with investigating or defending any such loss, claim, damage, liability or action; provided, however, that the obligations of each holder hereunder shall be limited to an amount equal to the net proceeds to such Holder of securities sold as contemplated herein; and provided, further, that no holder shall have any obligation hereunder or be liable with respect to any settlement of any action or proceeding effected without its written consent, which consent shall not be unreasonably withheld, delayed or conditioned.

(c) Procedure. Promptly after receipt by an indemnified party under this Section 2.6 of notice of the commencement of any action (including any governmental action), such indemnified party will, if a claim in respect thereof is to be made against any indemnifying party under this Section 2.6, deliver to the indemnifying party a written notice of the commencement thereof, but the omission so to notify the indemnifying party will not relieve it from any liability which it may have to any indemnified party otherwise than pursuant to the provisions of this Section 2.6 except to the extent materially prejudiced thereby. In case any such action is brought against any indemnified party, and it notifies an indemnifying party of the commencement thereof, the indemnifying party will have the right to participate in, and to the extent that the indemnifying party so desires, jointly with any other indemnifying party similarly noticed, to assume the defense thereof with counsel mutually satisfactory to the parties; provided, however, that an indemnified party (together with all other indemnified parties which may be represented without conflict by one counsel) shall have the right to retain one separate counsel, with the fees and expenses to be paid by the indemnifying party, if representation of such indemnified party by the counsel retained by the indemnifying party would be inappropriate due to actual or potential differing interests between such indemnified party and any other party represented by such counsel in such proceeding. No indemnifying party will consent to the entry of any judgment or enter into any settlement which (I) does not include as an unconditional term thereof the giving by the claimant or plaintiff to such indemnified party of a release from all

liability in respect to such claim or litigation or (ii) includes a statement as to or an admission of fault, culpability or a failure to act by or on behalf of any indemnified party.

(d) Contribution. If the indemnification provided for in this Section 2.6 is held by a court of competent jurisdiction to be unavailable to a party that would have been an indemnified party under this Section 2.6 with respect to any losses, claims, damages, liabilities or expenses (or actions in respect thereof) referred to therein, then each party that would have been an indemnifying party thereunder shall, in lieu of indemnifying such indemnified party, contribute to the amount paid or payable by such indemnified party as a result of such losses, claims, damages, liabilities or expenses (or actions in respect thereof) in such proportion as is appropriate to reflect the relative fault of the indemnifying party on the one hand and such indemnified party on the other in connection with the statement or omission which resulted in such losses, claims, damages, liabilities or expenses (or actions in respect thereof), as well as any other relevant equitable considerations. The relative fault shall be determined by reference to, among other things, whether the untrue or alleged untrue statement of a material fact or the omission or alleged omission to state a material fact relates to information supplied by the indemnifying party or such indemnified party and the parties' relative intent, knowledge, access to information and opportunity to correct or prevent such statement or omission. The amount paid or payable by a party as a result of the losses, claims, damages, liabilities and expenses referred to above shall be deemed to include any legal or other fees or expenses reasonably incurred by such party in connection with investigating or defending any action or claim. The Corporation and each holder of Registrable Securities agrees that it would not be just and equitable if contribution pursuant to this Section 2.6(d) were determined by pro rata allocation or by any other method of allocation which does not take account of the equitable considerations referred to above in this Section 2.6(d). The amount paid or payable by an indemnified party as a result of the losses, claims, damages, liabilities or expenses (or actions in respect thereof) referred to above in this Section 2.6 shall include any legal or other expenses reasonably incurred by such indemnified party in connection with investigation or defending any such action or claim if the indemnifying Party has assumed the defense of any such action in accordance with the provisions thereof). No person guilty of fraudulent misrepresentation (within the meaning of Section 11(f) of the Securities Act) shall be entitled to contribution from any person who was not guilty of such fraudulent misrepresentation.

(e) Underwriting Agreement to Control. Notwithstanding the foregoing, to the extent that the provisions on indemnification and contribution contained in the underwriting agreement entered into in connection with an underwritten public offering are in conflict with the foregoing provisions, as between the Corporation and the Holder, on the one hand, and the underwriter, on the other hand, the provisions in the underwriting agreement shall control.

(f) Limitation on Liability. The liability of any Holder of Registrable Securities pursuant to this Section 2.6 shall not exceed the net proceeds received by such holder from a sale of Registrable Securities pursuant to a registration hereunder.

2.7 Current Public Information. At all times after the Corporation has filed a registration statement pursuant to the Securities Act, the Corporation will use its best efforts to file all reports required under the Securities Act or the Exchange Act and will take such further action as may be reasonably required to enable any holder of "restricted securities" (as defined in

Rule 144 adopted by the Commission under the Securities Act) to sell such securities pursuant to Rule 144, as amended from time to time, or any similar rule or regulation hereafter adopted by the Commission.

2.8 Transfer of Registration Rights. The rights under this Agreement may be assigned by any Holder to the extent of the Registrable Securities assigned to a transferee or assignee who acquires at least 1,000,000 shares of a Holder's Preferred Stock or, if a Holder owns less than 1,000,000 shares of Preferred Stock, all of such Holder's Preferred Stock, or an equivalent amount of Registrable Securities issued upon conversion thereof (adjusted for any dividends, subdivisions, combinations or reclassifications with respect to such shares), provided that (i) such transfer may otherwise be effected in accordance with applicable securities laws, (ii) that the Corporation is given written notice by the Holder at the time of or within a reasonable time after said transfer, stating the name and address of said transferee or assignee and identifying the securities with respect to which such registration rights are being assigned and (iii) that the transferee or assignee of such rights assumes in writing the obligations of such Holder under this Article 2. The foregoing share limitation shall not apply, however, to transfers by a Holder which is a limited partnership to its partners or retired partners.

2.9 Limitations on Subsequent Registration Rights. From and after the date hereof, the Corporation shall not, without the prior written consent of the Holders (which consent will not be unreasonably withheld) of not less than a majority of the Registrable Securities then held by all Holders, enter into any agreement with any prospective holder of any securities of the Corporation which would allow such prospective holder to demand registration of its securities or to include such securities in any registration filed under Section 2.1 hereof, unless under the terms of such agreement, such prospective holder may include such securities in any such registration only to the extent that the inclusion of such securities will not reduce the amount of the Registrable Securities of the Holders which are included.

2.10 "Market Stand-Off" Agreement. Each Holder hereby agrees that, for a period of duration specified by the Corporation and an underwriter of common stock or other securities of the Corporation (such period not to exceed 180 days) following the effective date of the first registration statement of the Corporation filed under the Securities Act which covers securities to be sold on the Corporation's behalf to the public in an underwritten offering, it shall not, to the extent requested by the Corporation and its underwriter, directly or indirectly sell, offer to sell, contract to sell (including, without limitation, any short sale), grant any option to purchase or otherwise transfer or dispose of (other than to donees who agree to be similarly bound) any securities of the Corporation held by it at any time during such period except Registrable Securities included in such registration; provided, however, that such agreement shall not be required unless all officers and directors of the Corporation and all other persons with registration rights (whether or not pursuant to this Agreement) enter into similar agreements. In order to enforce the foregoing covenant, the Corporation may impose stop-transfer instructions with respect to the Registrable Securities of each Holder (and the shares or securities of every other person subject to the foregoing restriction) until the end of such period.

2.11 Termination of Registration Rights. The right of any Holder to request registration or inclusion in any registration pursuant to this Agreement shall terminate after the later of:

(a) three (3) years following the closing of the Corporation's initial underwritten public offering of Common Stock; and

(b) such date, on or after the closing of the Corporation's initial underwritten public offering of Common Stock, on which such Holder holds less than one percent (1%) of the Corporation's outstanding Common Stock (treating all shares of Preferred Stock on an as-converted basis) and may immediately sell all shares of its Registrable Securities under Rule 144 during any ninety-day period.

ARTICLE 3 Covenants of the Corporation. The Corporation covenants and agrees that, as long as any shares of Preferred Stock remain outstanding, it will observe and perform the following covenants and provisions:

3.1 Inspection. The Corporation will permit each Major Holder or its representative, at such Major Holder's expense, and examiners of the SBA, to visit and inspect the properties and assets of the Corporation, to examine its books of account and records, and to discuss the Corporation's affairs, finances and accounts with the Corporation's officers, senior management and accountants, all at such reasonable times as may be requested by such Major Holder or the SBA. The Major Holder shall maintain the confidentiality of any confidential and proprietary information so obtained by it which is not otherwise available from other sources that are free from similar restrictions; provided, however, that the foregoing, shall in no way limit or otherwise restrict the ability of each Major Holder or its authorized representatives to disclose any such information concerning the Corporation which it may be required to disclose (a) to its partners, board members or stockholder, to the extent required to satisfy its fiduciary obligations to such persons, or (b) otherwise pursuant to or as required by law.

3.2 Financial Statements. The Corporation will furnish or cause to be furnished:

(a) Monthly and Quarterly Reports. To each Major Holder, (i) within thirty (30) days after the end of each month, consolidated monthly unaudited financial statements (including a balance sheet and a statement of operations for the month and year-to-date, each in comparative form with the previous month) for the previous month (all prepared in accordance with generally accepted accounting principles consistently applied), and (ii) within forty-five (45) days of the end of each quarter, consolidated quarterly unaudited financial statements (including a balance sheet and a statement of operations for the quarter and year-to-date, each in comparative form with the previous quarter) for the previous quarter, all prepared in accordance with generally accepted accounting principles consistently applied), in each case with management's analysis of results and a statement of the Chief Financial Officer explaining any material differences from budget. The foregoing financial statements shall be certified by the Chief Executive Officer or Chief Financial Officer of the Corporation to the effect that such statements fairly present the financial position and financial results of the Corporation for the fiscal period covered.

(b) Annual Financial Statements. To each Holder, within one hundred twenty (120) days after the end of each fiscal year of the Corporation (i) the consolidated and consolidating balance sheets of the Corporation and its subsidiaries as at the end of such year,

and (ii) the related consolidated and consolidating statements of income, retained earnings and cash flows for such year, setting forth in comparative form with respect to such consolidated financial statements figures for the previous fiscal year, all in reasonable detail, together with the opinion thereon of the Corporation's independent certified public accountants, which accountants shall be a nationally recognized accounting firm reasonably acceptable to the Holders, and which opinion shall state that such financial statements have been prepared in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal year (except for changes, if any, which shall be specified and approved in such opinion) and that the audit by such accountants in connection with such financial statements has been made in accordance with generally accepted auditing standards related to reporting.

(c) Budget and Operating Forecast. To each Major Holder, for each fiscal year of the Corporation, at least thirty (30) days prior to the beginning of each fiscal year, a business plan, projections and monthly budget for the coming year, together with a capital expenditures budget, approved by the Corporation's Board of Directors; and such budget shall be accepted as the Corporation's budget for such fiscal year when it has been approved by a majority vote of the Board of Directors. The approved budget shall be reviewed by the Corporation periodically and all necessary changes or revisions to such budget shall be resubmitted to the Board of Directors and shall be accepted when approved in accordance with, and the Corporation shall not make any such changes to the budget without such approval in accordance with, the majority of the Board of Directors.

(d) Termination of Certain Provisions. The provisions of paragraph (a), (b) and (c) of this Section 3.2 shall terminate at the time the Corporation becomes subject to the reporting provisions of the Securities Exchange Act of 1934, as amended.

(e) Auditor's Letters. To each Major Holder, promptly following receipt by the Corporation, each audit response letter, accountant's management letter and other written report submitted to the Corporation by its independent public accountants in connection with an annual or interim audit of the books of the Corporation.

(f) Use of Proceeds. The Corporation will deliver to each SBIC from time to time promptly following such SBIC's request, a written report, certified as correct by the Corporation's chief financial officer, verifying the purposes and amounts for which proceeds from the investment in the Preferred Stock have been disbursed. The Corporation will supply to each SBIC such additional information and documents as such SBIC reasonably requests with respect to its use of proceeds and will permit such SBIC to have access to any and all Corporation records, information and personnel as such SBIC deems necessary to verify how such proceeds have been or are being used.

(g) Information Covenant. Within 60 days after the end of the fiscal year of the Corporation, the Corporation will furnish or cause to be furnished to each SBIC information required by the SBA on an SBA form provided by each SBIC concerning the economic impact of such SBIC's investment in the Corporation, for (or as of the end of) such fiscal year, including but not limited to, information concerning full-time equivalent employees; Federal, state and local income taxes paid; gross revenue; source of revenue growth; after-tax profit or loss; and Federal, state and local income tax withholding. The Corporation will also furnish or cause to be

furnished to each SBIC such other information regarding the business, affairs and condition of the Corporation as such SBIC may from time to time reasonably request.

3.3 Management Rights. Each Major Holder will be entitled to consult with and advise management of the Corporation on significant business issues, including management's proposed annual operating plans, and management will meet with Major Holders regularly during each year at the Corporation's facilities at mutually agreeable times for such consultation and advice and to review progress in achieving said plans.

3.4 Insurance. The Corporation shall keep its insurable properties insured at all times to such extent and against such risks, including fire, and other risks insured against by extended coverage, as is customary with companies of comparable size and financial condition in the same or similar businesses; maintain in full force and effect product liability insurance and public liability insurance against claims for personal injury or death or property damage occurring upon, in, about or in connection with the use of any properties owned, occupied or controlled by the Corporation, in such amount as the Corporation shall reasonably deem necessary; and maintain workers' compensation insurance and such other insurance as may be required by law. In addition, all of the foregoing insurance maintained by the Corporation shall be of types and in amounts such that the Corporation at all times will be in compliance in all respects with all federal, state, local and foreign laws, ordinances, regulations and orders applicable to its business that govern such insurance.

3.5 Obligations and Taxes. When requested by a Major Holder, the Corporation will provide a letter or certificate to the effect that the Preferred Stock and Common Stock issued upon conversion or exercise thereof purchased from the Corporation are "qualified small business stock."

5.5 Severability. In case any provision of this Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions of this Agreement shall not in any way be affected or impaired thereby.

5.6 Title and Subtitles. The titles of the sections and subsections of this Agreement are for convenience of reference only and are not to be considered in construing this Agreement.

5.7 Attorneys' Fees. If any action at law or in equity is necessary to enforce or interpret the terms of this Agreement, the prevailing party shall be entitled to reasonable attorneys' fees, costs and disbursements in addition to any other relief to which such party may be entitled.

5.8 Counterparts; Execution by Facsimile Signature. This Agreement may be executed in any number of counterparts, each of which shall be an original, but all of which together shall constitute one instrument. This Agreement may be executed by facsimile signature(s) which shall be binding on the party delivering same, to be followed by delivery of originally executed signature pages.

2.3. The Corporation shall have 180 days from the expiration of the foregoing 15-day period to sell all or any part of such Financing Securities as to which a Notice of Acceptance has not been given by the Major Investors (the "Remaining Securities") to any other persons or entities, but only upon terms and conditions in all material respects, including without limitation, per share price and interest rates, which are no more favorable, in the aggregate, to such other persons or entities or less favorable to the Corporation than those set forth in the Offer. Upon the closing of the sale to such other persons or entities of all or any part of the Remaining Securities, which shall include payment of the purchase price to the Corporation in accordance with the terms of the Offer, if the Major Investor has timely submitted a Notice of Acceptance, it shall purchase from the Corporation, and the Corporation shall sell to the Major Investor, the Financing Securities in respect of which a Notice of Acceptance was delivered to the Corporation by the Preferred Investor, at the terms specified in the Offer. The purchase by the Major Investor of any Financing Securities is subject in all cases to the preparation, execution and delivery by the Corporation and the Major Investor of a purchase agreement and other customary documentation relating to such Financing Securities as is reasonably satisfactory in form and substance to the Preferred Investor and its counsel.

2.4. After the expiration of the 180-day period referred to in Section 2.2, any Financing Securities not purchased by the Major Investors or by a person or entity in accordance with Section 2.2 may not be sold or otherwise disposed of until they are again offered to the Preferred Investors under the procedures specified in Sections 2.1, 2.2 and 2.2 hereof.

2.5. Each Major Investor may assign its rights under this Section 2 to its Affiliates.

SECTION 3. Right of Co-Sale.

3.1. If any Investor proposes to engage in a Proposed Transfer ("Transferring Investor"), such Investor shall provide to each Investor who owns Series D Preferred or Series C Preferred (each, a "Co-Sale Investor") a Proposed Transfer Notice. Each Co-Sale Investor may elect to exercise its Right of Co-Sale and participate in the Proposed Transfer on a pro rata basis as set forth below and otherwise on the same terms and conditions specified in the Proposed Transfer Notice (provided that if the Proposed Transfer is a transfer of Common Stock and a Co-Sale Investor wishes to sell Preferred Stock, the price set forth in the Proposed Transfer Notice shall be appropriately adjusted based on the conversion ratio of the Preferred Stock into Common Stock). Each Co-Sale Investor who desires to exercise its Right of Co-Sale must give the Transferring Investor written notice to that effect within fifteen (15) days after receipt of the Proposed Transfer Notice, and upon giving such notice, such Investor shall be deemed to have effectively exercised the Right of Co-Sale.

3.2. Each Co-Sale Investor who timely exercises such Co-Sale Investor's Right of Co-Sale by delivering the written notice provided for above in Section 3.1 may include in the Proposed Transfer all or any part of such Co-Sale Investor's Capital Stock equal to the product obtained by multiplying (i) the aggregate number of shares of Capital Stock subject to the Proposed Transfer by (ii) a fraction, (A) the numerator of which is the number of shares of Common Stock issued or issuable upon the conversion of all shares of Preferred Stock

held by such Co-Sale Investor immediately before consummation of the Proposed Transfer and (B) the denominator of which is the total number of shares of Common Stock issued or issuable upon the conversion of all shares of Preferred Stock held by all Co-Sale Investors immediately before consummation of the Proposed Transfer, plus the number of shares of Common Stock and shares of Common Stock issuable upon the conversion of all shares of Preferred Stock held by the Transferring Investor immediately before consummation of the Proposed Transfer. To the extent one or more Co-Sale Investors exercise a Right of Co-Sale, the number of shares of Capital Stock that the Transferring Investor may sell in the Proposed Transfer shall be correspondingly reduced.

3.3. Each Co-Sale Investor who timely exercises its Right of Co-Sale shall deliver to the Transferring Investor, no later than fifteen (15) days after such Co-Sale Investor's exercise of the Right of Co-Sale, one or more stock certificates, properly endorsed for transfer to the prospective transferee, representing the number of shares of Common Stock that such Co-Sale Investor elects to include in the Proposed Transfer or the number of shares of Preferred Stock that is at such time convertible into the number of shares of Common Stock that such Co-Sale Investor elects to include in the Proposed Transfer; provided, however, that if the prospective transferee objects to the delivery of convertible Preferred Stock in lieu of Common Stock, such Co-Sale Investor shall first convert the Preferred Stock into Common Stock and deliver Common Stock as provided above. The Corporation agrees to make any such conversion concurrent with and contingent upon the actual transfer of such shares to the prospective transferee.

3.4. Each stock certificate that a Co-Sale Investor delivers to the Transferring Investor pursuant to this Section 3 will be transferred to the prospective transferee against payment therefor in consummation of the sale thereof pursuant to the terms and conditions specified in the Proposed Transfer Notice and the purchase and sale agreement, and the Transferring Investor shall concurrently therewith remit or direct payment to each Co-Sale Investor of the portion of the sale proceeds to which such Co-Sale Investor is entitled by reason of its participation in such sale. If any prospective transferee refuses to purchase securities subject to the Right of Co-Sale from any Co-Sale Investor exercising its Right of Co-Sale hereunder, none of the Co-Sale Investors or the Transferring Investor may sell any Capital Stock to such prospective transferee unless and until, simultaneously with such sale, such Transferring Investor purchases all Capital Stock subject to the Right of Co-Sale from the Co-Sale Investor exercising its Right of Co-Sale on the same terms and conditions as set forth in the Proposed Transfer Notice.

3.5. If any Proposed Transfer is not consummated within sixty (60) days after receipt of the Proposed Transfer Notice, the Transferring Investor(s) proposing the Proposed Transfer, may not sell any Capital Stock unless they first comply in full with each provision of this Section 3. The exercise or election not to exercise any right by a Co-Sale Investor hereunder shall not adversely affect such Co-Sale Investor's right to participate in any other sales of Capital Stock subject to Section 3.

SECTION 4. Board of Directors.

(c) to execute and deliver all related documentation and take such other action in support of the Sale of the Corporation as shall reasonably be requested by the Corporation or the Selling Investors in order to carry out the terms and provisions of this Section 5, including without limitation executing and delivering instruments of conveyance and transfer, and any purchase agreement, merger agreement, indemnity agreement, escrow agreement, consent, waiver, governmental filing, share certificates duly endorsed for transfer

(d) not to deposit, and to cause their Affiliates not to deposit, except as provided in this Agreement, any Capital Stock owned by such Investor or Affiliate in a voting trust or subject any Capital Stock to any arrangement or agreement with respect to the voting of such Capital Stock, unless specifically requested to do so by the acquiror in connection with the Sale of the Corporation;

(e) to refrain from exercising any dissenters' rights or rights of appraisal under applicable law at any time with respect to such Sale of the Corporation; and

(f) if the consideration to be paid in exchange for the Capital Stock pursuant to this Section 5 includes any securities and due receipt thereof by any Investor would require under applicable law (x) the registration or qualification of such securities or of any person as a broker or dealer or agent with respect to such securities or (y) the provision to any Investor of any information other than information as a prudent issuer would generally furnish in an offering made solely to "accredited investors" as defined in Regulation D promulgated under the Securities Act of 1933, as amended, the Corporation may cause to be paid to any such Investor in lieu thereof, against surrender of the Capital Stock which would have otherwise been sold by such Investor, an amount in cash equal to the fair value (as determined in good faith by the Corporation) of the securities which such Investor would otherwise receive as of the date of the issuance of such securities in exchange for the Capital Stock.

5.3. Notwithstanding the foregoing, an Investor will not be required to comply with Section 5.2(b) above in connection with any proposed Sale of the Corporation (the "Proposed Sale") unless:

(a) any representations and warranties to be made by such Investor in connection with the Proposed Sale are limited to representations and warranties related to authority, ownership and the ability to convey title to such Capital Stock, including but not limited to representations and warranties that (a) the Investor holds all right, title and interest in and to the Capital Stock such Investor purports to hold, free and clear of all liens and encumbrances, (b) the obligations of the Investor in connection with the transaction have been duly authorized, if applicable, (c) the documents to be entered into by the Investor have been duly executed by the Investor and delivered to the acquirer and are enforceable against the Investor in accordance with their respective terms and (d) neither the execution and delivery of documents to be entered into in connection with the transaction, nor the performance of the Investor's obligations thereunder, will cause a breach or violation of the terms of any agreement, law or judgment, order or decree of any court or governmental agency;

(b) the Investor shall not be liable for the inaccuracy of any representation or warranty made by any other person in connection with the Proposed Sale, other than the Corporation (except to the extent that funds may be paid out of an escrow established to cover breach of representations, warranties and covenants of the Corporation as well as breach by any Investor of any of identical representations, warranties and covenants provided by all Investors);

(c) the liability for indemnification, if any, of such Investor in the Proposed Sale and for the inaccuracy of any representations and warranties made by the Corporation or its Investors in connection with such Proposed Sale, is several and not joint with any other Person (except to the extent that funds may be paid out of an escrow established to cover breach of representations, warranties and covenants of the Corporation as well as breach by any Investor of any of identical representations, warranties and covenants provided by all Investors), and is pro rata in proportion to, and does not exceed, the amount of consideration paid to such Investor in connection with such Proposed Sale;

(d) liability shall be limited to such Investor's applicable share (determined based on the respective proceeds payable to each Investor in connection with such Proposed Sale in accordance with the provisions of the Corporation's Restated Certificate of Incorporation) of a negotiated aggregate indemnification amount that applies equally to all Investors but that in no event exceeds the amount of consideration otherwise payable to such Investor in connection with such Proposed Sale, except with respect to claims related to fraud by such Investor, the liability for which need not be limited as to such Investor;

(e) upon the consummation of the Proposed Sale, (i) each holder of each class or series of the Corporation's stock will receive the same form of consideration for their shares of such class or series as is received by other holders in respect of their shares of such same class or series of stock, (ii) each holder of a series of Preferred Stock will receive the same amount of consideration per share of such series of Preferred Stock as is received by other holders in respect of their shares of such same series, (iii) each holder of Common Stock will receive the same amount of consideration per share of Common Stock as is received by other holders in respect of their shares of Common Stock, and (iv) the aggregate consideration receivable by all holders of the Preferred Stock and Common Stock shall be allocated among the holders of Preferred Stock and Common Stock on the basis of the relative liquidation preferences to which the holders of each respective series of Preferred Stock and the holders of Common Stock are entitled in a Deemed Liquidation Event (assuming for this purpose that the Proposed Sale is a Deemed Liquidation Event) in accordance with the Corporation's Restated Certificate of Incorporation in effect immediately prior to the Proposed Sale; *provided, however,* that, notwithstanding the foregoing, if the consideration to be paid in exchange for an Investor's Capital Stock pursuant to this 5.2(e) includes any securities and due receipt thereof by any Investor would require under applicable law (x) the registration or qualification of such securities or of any person as a broker or dealer or agent with respect to such securities or (y) the provision to any Investor of any information other than such information as a prudent issuer would generally furnish in an offering made solely to "accredited investors" as defined in Regulation D promulgated under the Securities Act of 1933, as amended, the Corporation may cause to be paid to any such Investor in lieu thereof, against surrender of the Investor s Capital Stock which would have otherwise been sold by such Investor, an amount in cash equal to the fair value (as determined in good faith by the Corporation) of the securities which such Investor would otherwise receive as of the date of the issuance of such securities in exchange for the Investor's Capital Stock; and

(f) subject to the immediately preceding paragraph, requiring the same form of consideration to be available to the holders of any single class or series of capital stock, if any holders of any capital stock of the Corporation are given an option as to the

form and amount of consideration to be received as a result of the Proposed Sale, all holders of such capital stock will be given the same option; *provided, however*, that nothing in this Section 5.2(f) shall entitle any holder to receive any form of consideration that such holder would be ineligible to receive as a result of such holder's failure to satisfy any condition, requirement or limitation that is generally applicable to the Corporation's Investors.

5.4. Proxy. Each Investor hereby grants to the Selling Investors (i) an irrevocable proxy, coupled with an interest, to Vote all Voting Securities owned by such Investor, and (ii) an irrevocable power of attorney, which is coupled with an interest, to take such other actions, in each case to the extent necessary to carry out the provisions of this Section 5 in the event of any breach by such Investor of its obligations hereunder.

SECTION 6. Miscellaneous.

Warrant No. WP-11

EXAGEN DIAGNOSTICS, INC.

COMMON STOCK PURCHASE WARRANT

THIS CERTIFIES that (the "Holder") is entitled, upon the terms and subject to the conditions hereinafter set forth, at any time on or after the date of this warrant (this "Warrant") and on or prior to (the "Expiration Date"), but not thereafter, to subscribe for and purchase from Exagen Diagnostics, Inc., a Delaware corporation (the "Company"), ( ) shares of Common Stock in the Company (the "Shares") at an exercise price of $ per share (the "Exercise Price").

1. Exercise of Warrant.

(a) Unless earlier terminated under Section 7, the purchase rights represented by this Warrant to purchase Shares are exercisable, in whole or in part, before the close of business on the Expiration Date, by the surrender of this Warrant and the Notice of Exercise annexed hereto duly executed at the principal executive office of the Company (or such other office or agency of the Company as it may designate by notice in writing to the Holder at the address of the Holder appearing on the books of the Company), and upon payment of the Exercise Price of the Shares thereby purchased (by cash or by check or bank draft payable to the order of the Company in an amount equal to the Exercise Price of the shares thereby purchased).

(b) Unless earlier terminated under Section 7, in lieu of exercising this Warrant by payment of cash or check pursuant to Section 1(a), the Holder may elect to receive Shares equal to the value of this Warrant (or the portion thereof being exercised), by surrender of this Warrant at the principal executive office of the Company, together with the Notice of Conversion annexed hereto, in which event the Company will issue to the Holder Shares in accordance with the following formula:

$$X = \frac{Y(A-B)}{A}$$

Where, X = the number of Shares to be issued to Holder;

Y = the number of Shares for which the Warrant is being exercised;

A = the fair market value of one Share; and

B = the Exercise Price.

For purposes of this Section 1(b), the fair market value of a Share shall be the price per Share that the Company could obtain from a willing buyer for Shares sold by the Company from authorized but unissued Shares, as such price shall be determined in good faith by the Company's Board of Directors. If the Shares are traded on the over-the-counter market or on an exchange, the fair market value of a Share shall be the average of the closing bid and asked prices of Shares quoted in the over-the-counter market in which the Shares are traded or the closing price quoted on any exchange on which the Shares are listed, whichever is applicable, as published in the Western Edition of The Wall Street Journal for the ten (10) trading days prior to the date of determination of fair market value (or such shorter period of time during which such stock was traded over-the-counter or on such exchange).

(c) As soon as practicable after the exercise of this Warrant in whole or in part, and in any event within ten (10) days thereafter, the Company at its expense will cause to be issued in the name of, and delivered to, the Holder, or such other name as specified on the Notice of Exercise delivered to the Company:

(i) a certificate or certificates for the number of Shares to which such Holder shall be entitled, and

(ii) in case such exercise is in part only, a Warrant or Warrants (dated the date hereof) of like tenor, calling in the aggregate on the face or faces thereof for the number of Shares equal (without giving effect to any adjustments therein) to the number of Shares called for on the face of this Warrant minus the number of such Shares purchased by the Holder upon such exercise as provide in Sections 1(a) or (b) above.

2. Shares to be Fully Paid; Reservation of Shares. The Company covenants that all Shares which may be issued upon the exercise of rights represented by this Warrant (together with all shares of Common Stock issuable upon conversion of such Shares) will, upon issuance, be duly authorized, validly issued, fully paid and nonassessable and free from all preemptive rights of any stockholder and free from all taxes, liens and charges in respect of the issue thereof. Certificates for Shares purchased hereunder shall be delivered to the Holder within a reasonable time after the date on which this Warrant shall have been exercised as aforesaid. The Company further covenants and agrees that during the period within which the rights represented by this Warrant may be exercised, the Company will at all times have authorized and reserved (or will

have provided for the ability to accomplish the same through a voting contract amongst sufficient stockholders), for the purpose of issue or transfer upon exercise of the subscription rights evidenced by this Warrant, a sufficient number of shares of authorized but unissued Shares (together with the number of shares of Common Stock issuable upon conversion of such Shares), or other securities and property, when and as required for the exercise of the rights represented by this Warrant.

3. Adjustment of Exercise Price and Number of Shares. The Exercise Price and the number of shares purchasable upon the exercise of this Warrant shall be subject to adjustment from time to time upon the occurrence of certain events described in this Section 3. Whenever the number of Shares purchasable upon the exercise of this Warrant is adjusted as herein provided the Exercise Price payable upon exercise of this Warrant shall be adjusted by multiplying the Exercise Price in effect immediately prior to such adjustment by a fraction, of which the numerator shall be the number of Shares purchasable upon the exercise of this Warrant immediately prior to such adjustment, and of which the denominator shall be the number of Shares so purchasable immediately thereafter.

(a) Conversion of Shares. If all of the outstanding Shares of the Company for which this Warrant is exercisable are converted into shares of Common Stock, the number of Shares purchasable upon exercise of this Warrant immediately prior to such conversion shall be adjusted so that the Holder of this Warrant shall be entitled to receive the number of shares of Common Stock which the Holder would have owned or have been entitled to receive had this Warrant been exercised immediately prior to such conversion and the Shares received thereupon had been simultaneously converted into shares of Common Stock immediately prior to such event.

(b) Dilutive Issuances. The Holder of this Warrant shall be entitled to the benefit of all adjustments in the number of shares of Common Stock of the Company issuable upon conversion of the Shares of the Company which occur after the date of this Warrant and prior to the exercise of this Warrant, including, without limitation, any increase in the number of shares of Common Stock issuable upon conversion as a result of a dilutive issuance of capital stock.

(c) Split, Subdivision or Combination of Shares. If the Company at any time while this Warrant, or any portion hereof, remains outstanding and unexpired shall split, subdivide or combine the Shares, into a different number of securities of the same class, the number of Shares purchasable upon exercise of this Warrant immediately prior thereto shall be adjusted so that the holder of this Warrant shall be entitled to receive the kind and number of Shares or other securities of the Company which the Holder would have owned or have been entitled to receive after the happening of any of the events described above, had this Warrant been exercised immediately prior to the happening of such event or any record date with respect thereto. An adjustment made pursuant to this Section 3(c) shall become effective immediately after the effective date of such event retroactive to the record date, if any, for such event.

(d) Reclassification. If the Company, at any time while this Warrant, or any portion hereof, remains outstanding and unexpired by reclassification of securities or otherwise, shall change the Shares into the same or a different number of securities or any other class or

classes, this Warrant shall thereafter represent the right to receive the kind and number of Shares or other securities of the Company which the Holder would have owned or have been entitled to receive after the happening of the event described above, had this Warrant been exercised immediately prior to the happening of such event or any record date with respect thereto. An adjustment made pursuant to this Section 3(d) shall become effective immediately after the effective date of such event retroactive to the record date, if any, for such event.

(e) Cash Distributions. No adjustment on account of cash dividends or interest on the Shares will be made to the Exercise Price under this Warrant.

(f) De Minimus Adjustments. No adjustment in the number of Shares purchasable hereunder shall be required unless such adjustment would require an increase or decrease of at least one percent (1%) in the number of Shares purchasable upon the exercise of this Warrant; provided, however, that any adjustments which by reason of this Section 3(f) are not required to be made shall be carried forward and taken into account in any subsequent adjustment. All calculations shall be made to the nearest cent and to the nearest one-hundredth of a Share, as the case may be.

(g) Notice of Adjustment. Upon any adjustment of the Exercise Price or any increase or decrease in the number of shares purchasable upon the exercise of this Warrant, the Company shall give written notice thereof, by first class mail postage prepaid, addressed to the registered Holder of this Warrant at the address of such Holder as shown on the books of the Company. The notice shall be signed by the Company's chief financial officer and shall state the Exercise Price resulting from such adjustment and the increase or decrease, if any, in the number of shares purchasable at such price upon the exercise of this Warrant, setting forth in reasonable detail the method of calculation and the facts upon which such calculation is based.

(h) Other Notices. If at any time:

(i) The Company shall declare any cash dividend upon its Shares (or Common Stock issuable upon conversion thereof);

(ii) There shall be any acquisition or capital reorganization or reclassification of the capital stock of the Company;

(iii) There shall be a voluntary or involuntary dissolution, liquidation or winding-up of the Company; or

(iv) There shall be an initial public offering of the Company's securities;

then, in any one or more of said cases, the Company shall give, by first class mail, postage prepaid, addressed to the Holder of this Warrant at the address of such Holder as shown on the books of the Company, (a) at least ten (10) days prior written notice of the date on which the books of the Company shall close or a record shall be taken for such dividend or for determining rights to vote in respect of any such acquisition, reorganization, reclassification, dissolution, liquidation, winding-up or public offering, and (b) in the case of any such acquisition, reorganization, reclassification, dissolution, liquidation, winding-up or public offering, at least

ten (10) days prior written notice of the date when the same shall take place; provided, however, that the Holder shall make a best efforts attempt to respond to such notice as early as possible after the receipt thereof. Any notice given in accordance with the foregoing clause (a) shall also specify, in the case of any such dividend, the date on which the holders of Shares (or Common Stock issuable upon conversion thereof) shall be entitled thereto. Any notice given in accordance with the foregoing clause (b) shall also specify the date on which the holders of Shares (or Common Stock issuable upon conversion thereof) shall be entitled to exchange their Shares (or Common Stock issuable upon conversion thereof) for securities or other property deliverable upon such acquisition, reorganization, reclassification, dissolution, liquidation, winding-up, conversion or public offering, as the case may be.

4. No Fractional Shares or Scrip. No fractional shares or scrip representing fractional shares shall be issued upon the exercise of this Warrant. With respect to any fraction of a share called for upon the exercise of this Warrant, an amount equal to such fraction multiplied by the then current price at which each Share may be purchased hereunder shall be paid in cash to the Holder.

5. Charges, Taxes and Expenses. Issuance of certificates for Shares upon the exercise of this Warrant shall be made without charge to the Holder hereof for any issue or transfer tax or other incidental expense in respect of the issuance of such certificate, all of which taxes and expenses shall be paid by the Company, and such certificates shall be issued in the name of the Holder or such other name as specified on the Notice of Exercise delivered to the Company.

6. No Rights as Stockholders. This Warrant does not entitle the Holder to any voting rights or other rights as a stockholder of the Company prior to the exercise thereof.

7. Early Termination on Merger, Initial Public Offering, etc. If at any time the Company proposes to merge, reorganize or consolidate with or into any other entity, sell all or substantially all of the assets of the Company, effect any other transaction or series of related transactions in which the holders of the Company's capital stock immediately prior to the consummation of such transaction(s) hold less than fifty percent (50%) of the voting power of the surviving entity (or its parent), or conduct an initial public offering of its capital stock, then the Company shall give the Holder notice of such transaction pursuant to Section 3(h), and if the Warrant has not been exercised by the effective date of the transaction, the Warrant shall terminate.

8. Loss, Theft, Destruction or Mutilation of Warrant. Upon receipt by the Company of evidence reasonably satisfactory to it of the loss, theft, destruction or mutilation of this Warrant, and in case of loss, theft or destruction, of indemnity or security reasonably satisfactory to it, and upon reimbursement to the Company of all reasonable expenses incidental thereto, and upon surrender and cancellation of this Warrant, if mutilated, the Company will make and deliver a new warrant of like tenor and dated as of such cancellation, in lieu of this Warrant.

9. Miscellaneous.

(a) Issue Date. The provisions of this Warrant shall be construed and shall be given effect in all respects as if it had been issued and delivered by the Company on the date set forth below.

(b) Governing Law. THIS WARRANT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF DELAWARE WITHOUT REGARD TO CONFLICTS OF LAWS PRINCIPLES.

(c) Restrictions. By acceptance hereof, the Holder acknowledges that the Shares acquired upon the exercise of this Warrant may have restrictions upon their resale imposed by state and federal securities laws, and that certain 2008 Stockholders' Agreement, as amended.

(d) Saturdays, Sundays, Holidays, etc. If the last or appointed day for the taking of any action or the expiration of any right required or granted herein shall be a Saturday or a Sunday or shall be a legal holiday, then such action may be taken or such right may be exercised on the next succeeding day not a Saturday, Sunday or legal holiday.

(e) Waivers and Amendments. Any provision of this Warrant may be amended and the observance of any term of this Warrant may be waived (either generally or in a particular instance and either retroactively or prospectively), only with the written consent of the Company and the Holder.

(f) Assignment. This Warrant may be assigned or transferred by the Holder only with the prior written approval of the Company.

IN WITNESS WHEREOF, the Company has caused this Warrant to be executed by its officer thereunto duly authorized.

THIS CERTIFIES that (the "Holder") is entitled, upon the terms and subject to the conditions hereinafter set forth, at any time on or after the date of this warrant (this "Warrant") and on or prior to (the "Expiration Date"), but not thereafter, to subscribe for and purchase from Exagen Diagnostics, Inc., a Delaware corporation (the "Company"), ( ) shares of Series D Convertible Preferred Stock in the Company (the "Shares") at an exercise price of $ per share (the "Exercise Price").

1. Exercise of Warrant.

(a) Unless earlier terminated under Section 7, the purchase rights represented by this Warrant to purchase Shares are exercisable, in whole or in part, before the close of business on the Expiration Date, by the surrender of this Warrant and the Notice of Exercise annexed hereto duly executed at the principal executive office of the Company (or such other office or agency of the Company as it may designate by notice in writing to the Holder at the address of the Holder appearing on the books of the Company), and upon payment of the Exercise Price of the Shares thereby purchased (by cash or by check or bank draft payable to the order of the Company in an amount equal to the Exercise Price of the shares thereby purchased).

(b) Unless earlier terminated under Section 7, in lieu of exercising this Warrant by payment of cash or check pursuant to Section 1(a), the Holder may elect to receive Shares equal to the value of this Warrant (or the portion thereof being exercised), by surrender of this Warrant at the principal executive office of the Company, together with the Notice of Conversion annexed hereto, in which event the Company will issue to the Holder Shares in accordance with the following formula:

$$X = \frac{Y(A-B)}{A}$$

Where, X = the number of Shares to be issued to Holder;

Y = the number of Shares for which the Warrant is being exercised;

A = the fair market value of one Share; and

B = the Exercise Price.

For purposes of this Section 1(b), the fair market value of a Share shall be the price per Share that the Company could obtain from a willing buyer for Shares sold by the Company from authorized but unissued Shares, as such price shall be determined in good faith by the Company's Board of Directors. 2. Shares to be Fully Paid; Reservation of Shares. The Company covenants that all Shares which may be issued upon the exercise of rights represented by this Warrant (together with all shares of Common Stock issuable upon conversion of such Shares) will, upon issuance, be duly authorized, validly issued, fully paid and nonassessable and free from all preemptive rights of any stockholder and free from all taxes, liens and charges in respect of the issue thereof. Certificates for Shares purchased hereunder shall be delivered to the Holder within a reasonable time after the date on which this Warrant shall have been exercised as aforesaid. 3. Adjustment of Exercise Price and Number of Shares. The Exercise Price and the number of shares purchasable upon the exercise of this Warrant shall be subject to adjustment from time to time upon the occurrence of certain events described in this Section 3. Whenever the number of Shares purchasable upon the exercise of this Warrant is adjusted as herein provided the Exercise Price payable upon exercise of this Warrant shall be adjusted by multiplying the Exercise Price in effect immediately prior to such adjustment by a fraction, of which the numerator shall be the number of Shares purchasable upon the exercise of this Warrant immediately prior to such adjustment, and of which the denominator shall be the number of Shares so purchasable immediately thereafter.

(a) Conversion of Shares. If all of the outstanding Shares of the Company for which this Warrant is exercisable are converted into shares of Common Stock, the number of Shares purchasable upon exercise of this Warrant immediately prior to such conversion shall be adjusted so that the Holder of this Warrant shall be entitled to receive the number of shares of Common Stock which the Holder would have owned or have been entitled to receive had this Warrant been exercised immediately prior to such conversion and the Shares received thereupon had been simultaneously converted into shares of Common Stock immediately prior to such event.

All calculations shall be made to the nearest cent and to the nearest one-hundredth of a Share, as the case may be.

(g) Notice of Adjustment. Upon any adjustment of the Exercise Price or any increase or decrease in the number of shares purchasable upon the exercise of this Warrant, the Company shall give written notice thereof, by first class mail postage prepaid, addressed to the registered Holder of this Warrant at the address of such Holder as shown on the books of the Company. The notice shall be signed by the Company's chief financial officer and shall state the Exercise Price resulting from such adjustment and the increase or decrease, if any, in the number of shares purchasable at such price upon the exercise of this Warrant, setting forth in reasonable detail the method of calculation and the facts upon which such calculation is based.

Any notice given in accordance with the foregoing clause (a) shall also specify, in the case of any such dividend, the date on which the holders of Shares (or Common Stock issuable upon conversion thereof) shall be entitled thereto. Any notice given in accordance with the foregoing clause (b) shall also specify the date on which the holders of Shares (or Common Stock issuable upon conversion thereof) shall be entitled to exchange their Shares (or Common Stock issuable upon conversion thereof) for securities or other property deliverable upon such acquisition, reorganization, reclassification, dissolution, liquidation, winding-up, conversion or public offering, as the case may be.

4. No Fractional Shares or Scrip. No fractional shares or scrip representing fractional shares shall be issued upon the exercise of this Warrant. With respect to any fraction of a share called for upon the exercise of this Warrant, an amount equal to such fraction multiplied by the then current price at which each Share may be purchased hereunder shall be paid in cash to the Holder.

5. Charges, Taxes and Expenses. Issuance of certificates for Shares upon the exercise of this Warrant shall be made without charge to the Holder hereof for any issue or transfer tax or other incidental expense in respect of the issuance of such certificate, all of which taxes and expenses shall be paid by the Company, and such certificates shall be issued in the name of the Holder or such other name as specified on the Notice of Exercise delivered to the Company.

6. No Rights as Stockholders. This Warrant does not entitle the Holder to any voting rights or other rights as a stockholder of the Company prior to the exercise thereof.

7. Early Termination on Merger, Initial Public Offering, etc. If at any time the Company proposes to merge, reorganize or consolidate with or into any other entity, sell all or substantially all of the assets of the Company, effect any other transaction or series of related transactions in which the holders of the Company's capital stock immediately prior to the consummation of such transaction(s) hold less than fifty percent (50%) of the voting power of the surviving entity (or its parent), or conduct an initial public offering of its capital stock, then the Company shall give the Holder notice of such transaction pursuant to Section 3(h), and if the Warrant has not been exercised by the effective date of the transaction, the Warrant shall terminate.

8. Loss, Theft, Destruction or Mutilation of Warrant. Upon receipt by the Company of evidence reasonably satisfactory to it of the loss, theft, destruction or mutilation of this Warrant, and in case of loss, theft or destruction, of indemnity or security reasonably satisfactory to it, and upon reimbursement to the Company of all reasonable expenses incidental thereto, and upon surrender and cancellation of this Warrant, if mutilated, the Company will make and deliver a new warrant of like tenor and dated as of such cancellation, in lieu of this Warrant.

9. Miscellaneous.

(a) Issue Date. The provisions of this Warrant shall be construed and shall be given effect in all respects as if it had been issued and delivered by the Company on the date set forth below.

(b) Governing Law. THIS WARRANT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF DELAWARE WITHOUT REGARD TO CONFLICTS OF LAWS PRINCIPLES.

(c) Restrictions. By acceptance hereof, the Holder acknowledges that the Shares acquired upon the exercise of this Warrant may have restrictions upon their resale imposed by state and federal securities laws, and that certain 2008 Stockholders' Agreement, as amended.

(d) Saturdays, Sundays, Holidays, etc. If the last or appointed day for the taking of any action or the expiration of any right required or granted herein shall be a Saturday or a Sunday or shall be a legal holiday, then such action may be taken or such right may be exercised on the next succeeding day not a Saturday, Sunday or legal holiday.

(e) Waivers and Amendments. Any provision of this Warrant may be amended and the observance of any term of this Warrant may be waived (either generally or in a particular instance and either retroactively or prospectively), only with the written consent of the Company and the Holder.

(f) Assignment. This Warrant may be assigned or transferred by the Holder only with the prior written approval of the Company.

IN WITNESS WHEREOF, the Company has caused this Warrant to be executed by its officer thereunto duly authorized.

Notwithstanding the foregoing, Confidential Information of a Party shall not include information that the other Party (the "recipient") can demonstrate:

(a) is known to the recipient and not subject to prior confidentiality obligations to Prometheus (i.e., knowledge of former Prometheus employees), as evidenced by its written records, before receipt thereof under this Agreement;

(b) is disclosed to the recipient without restriction after acceptance of this Agreement by a Third Party who has the right to make such disclosure;

(c) is or becomes part of the public domain through no breach of this Agreement; or

(d) is independently developed, as evidenced by its written records, by or for the recipient by individuals or entities who have not had access to the information disclosed hereunder.

1.3 “Contract Quarter” shall mean a period of three (3) consecutive months ending on March 31, June 30, September 30 or December 31; provided, however, that each of the first and last Contract Quarters during the term of this Agreement may be less than three (3) full consecutive months.

1.4 “Contract Year” shall mean a period of four (4) consecutive Contract Quarters ending on December 31 of any calendar year; provided, however, that the first and last Contract Years during the term of this Agreement may be less than four (4) consecutive Contract Quarters in that the first Contract Year shall begin on the Effective Date, and the last Contract Year shall end upon termination or expiration of this Agreement in accordance with Article 10.

Notwithstanding the foregoing, if a Licensed Product is sold or provided as part of a system, package, or combination product or service that contains one or more components that could be sold separately (a “Combination Product”), Net Sales of a Combination Product will be calculated by multiplying the Net Sales from the sale of such Combination Product (determined in accordance with the preceding paragraph) by the fraction *A/B* where “A” is the fair market value of the Licensed Product when supplied or priced separately from the other components of the Combination Product, and “B” is the fair market value of the Combination Product. In the event that no market price is available for the Licensed Product when supplied or priced separately from the other components, fair market value shall be determined in good faith by Proprius and Prometheus taking into account, among other factors as the parties may deem relevant, the number of components in such Combination Product.

For purposes of this Section 1.8, fair market value shall mean the gross sales price to a Third Party in an arm’s-length sale or exchange of consideration for an identical item or service sold or provided in the same quantity and at the same time and place as the sale or exchange for which such gross sales price or value is to be determined.

1.13 “Regulatory Authority” or “Regulatory Authorities” shall mean any federal, state, local or international regulatory agency, department, bureau or other governmental entity, including, but not limited to, the FDA, which is responsible for issuing approvals, licenses, registrations or authorizations necessary for the manufacture, use, storage, import, transport or sale of Licensed Products in a regulatory jurisdiction.

1.21 “Valid Claim” shall mean a claim of (a) an issued or granted and unexpired patent included in Patent Rights, which claim has not been held invalid or unenforceable by a court or agency of competent jurisdiction from which no further appeal can be taken, or which has not been admitted by the patentee to be invalid or unenforceable; or (b) a pending patent application included in the Patent Rights, so long as such application is being prosecuted and the claim in question has not been abandoned by the owner of the application and provided that such patent application has not been pending for more than [***] from the earliest filing date from which such claim takes priority in the country in question.

2. RIGHTS GRANTED/MATERIAL TRANSFER

2.1 License to Patent Rights and Prometheus Know-how. Subject to the terms and conditions of this Agreement, Prometheus hereby grants to Proprius an exclusive (even as to Prometheus) royalty-bearing right and license under the Patent Rights and Prometheus Know-how, with the right to further sublicense in accordance with this Agreement, to commercialize, develop, research, use, make, have made, sell, offer for sale, have sold and import Licensed Products in the Territory. Provided, however that such right and license shall not include the right to promote any Licensed Products to gastroenterologists or to directly or indirectly, participate in the development or commercialization of any Licensed Product for use in diagnosing or treating any gastrointestinal diseases. 2.2 Sublicensing. [***]

2.3 Material Transfer by Prometheus. Within ninety (90) days of the Effective Date and subject to receipt of any necessary Third Party approvals or consents (which Prometheus does not guaranty or warrant will be obtainable), Prometheus shall provide to Proprius the Samples for use by Proprius solely for technology validation and development purposes with respect to Licensed Products in the Territory. Except as otherwise provided under this Agreement, all Samples will remain the sole

property of Prometheus, will be used only by Proprius and its Sublicensees in furtherance of the development and commercialization of Licensed Products, and only in a manner consistent with the protocol originally submitted to, and approved by, the respective IRBs of the institutions through which the Samples were collected. Prometheus shall provide to Proprius true and complete copies of each such protocol and a description of the Samples to which such protocol applies. The Samples supplied under this Section 2.3 must be used with prudence and appropriate caution in any experimental work, because not all of their characteristics may be known. THE SAMPLES ARE PROVIDED "AS IS" AND WITHOUT ANY REPRESENTATION OR WARRANTY, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR ANY PARTICULAR PURPOSE OR ANY WARRANTY THAT THE USE OF THE SAMPLES WILL NOT INFRINGE OR VIOLATE ANY PATENT OR OTHER PROPRIETARY RIGHTS OF ANY THIRD PARTY. NOTWITHSTANDING ANYTHING HEREIN TO THE CONTRARY, PROMETHEUS SHALL HAVE NO LIABILITY (INCLUDING BUT NOT LIMITED TO DIRECT, INDIRECT, CONSEQUENTIAL OR EXEMPLARY) TO PROPRIUS RELATING TO THE SAMPLES REGARDLESS OF ANY NOTICE OF THE POSSIBILITY OF SUCH LIABILITY OR DAMAGES.

2.4 No Implied Rights. Proprius shall have no licenses or other rights other than those expressly granted in this Agreement, and, in particular and without limiting the foregoing, nothing in this Agreement shall be construed to grant Proprius any licenses or other rights in any intellectual property rights, information or data owned or controlled by Prometheus or any of its Affiliates, except as expressly set forth in this Agreement.

2.5 Restrictions on Development and Commercialization of Licensed Products. Notwithstanding any other provision of this Agreement, during the term of this Agreement, Proprius (and its Affiliates and Sublicensees) agrees that it will not, directly or indirectly, market or promote the Licensed Products to gastroenterologists nor will it (or any of its Affiliates or Sublicensees), directly or indirectly, participate in the development or commercialization of any Licensed Product for use in diagnosing or treating any gastrointestinal diseases.

2.6 Right of First Negotiation. If, during the two (2) year period beginning on the First Commercial Sale of a Licensed Product by Proprius, (i) Proprius desires to divest or sublicense all or substantially all of its business relating to the Licensed Products (whether by sale, license or otherwise) to a Third Party, or (ii) a Third Party initiates such discussions with Proprius and Proprius is interested in entertaining such discussions (both (1) and (ii) are collectively referred to as a "***Business Opportunity***"), then Proprius will promptly notify Prometheus in writing thereof, with such notice containing a reasonably complete summary of reasonably available information necessary to evaluate the Business Opportunity; provided, however, that Proprius shall not be obligated to disclose to Prometheus the identity of any such Third Party, the terms proposed by such Third Party (if confidential) or any other confidential or proprietary information of such Third Party. If Prometheus indicates interest in pursuing the Business Opportunity within [***] business days of Prometheus' receipt of Proprius' written notice, the Parties will negotiate in good faith to enter into a definitive agreement. If the Parties are unable to enter into a definitive agreement within [***] days after Proprius' receipt of Prometheus' indication of interest, or if Prometheus does not so indicate an interest in pursuing the Business Opportunity within the [***] business day period, Proprius will be free to execute such Business Opportunity with a Third Party provided that Proprius shall not offer the Business Opportunity to a Third Party on terms more favorable then those offered to Prometheus or on terms worth less to Proprius then those offered by Prometheus for the Business Opportunity. In no event shall Proprius be obligated to enter into any such transaction with Prometheus. Notwithstanding anything in this Agreement to the contrary, any Business Opportunity entered into by Proprius with a Third Party will be subject to Prometheus' rights under this Agreement, including, without limitation, Prometheus' right to receive the payments set forth in Article 5.

3. LICENSED PRODUCT DEVELOPMENT AND COMMERCIALIZATION

3.1 Development and Clinical Testing Activities. Proprius shall use Reasonable Commercial Efforts to undertake development activities for the Licensed Product, including, but not limited to, conducting or having conducted, and completing or having completed, all clinical studies and other activities required for approvals from the applicable Regulatory Authorities. Proprius shall bear the costs and expenses related to the development of the Licensed Products.

3.2 Regulatory Approvals. Proprius shall use Reasonable Commercial Efforts to submit to and obtain acceptance from the applicable Regulatory Authorities of the appropriate regulatory filing for one or more Licensed Products in the Territory. In addition, and without limiting the generality of the foregoing, Proprius by either Proprius, an Affiliate or a Sublicensee shall use its Reasonable Commercial Efforts to achieve the first commercial sale of a Licensed Product in the Territory *(*"*First Commercial Sale*") on or before December 31, 2008. Proprius shall bear the costs and expenses related to the obtaining of the appropriate regulatory approvals for the Licensed Products.

3.3 Remedies for Failure to use Reasonable Commercial Efforts to Achieve First Commercial Sale. In the event Proprius does not achieve the First Commercial Sale on or before December 31, 2008, the Parties shall discuss in good faith whether a modification of such obligation, including the date, is appropriate. Except as otherwise agreed to by the Parties pursuant to this Section 3.3, if Proprius' failure to achieve the First Commercial Sale continues through March, 31, 2009, then Prometheus shall have the right to terminate this Agreement by written notice thereof to Proprius, as further set forth in Section 10.2.

3.4 Licensed Product Development and Marketing. Proprius shall use Reasonable Commercial Efforts, by itself, an Affiliate or through a Sublicensee, to develop Licensed Products in the United States and in such other regions in the Territory as Proprius deems commercially reasonable, and to market and sell Licensed Products in all regions in the Territory where appropriate regulatory and marketing approvals have been obtained from the applicable Regulatory Authorities. Proprius, at Proprius' own expense, or as applicable, a Sublicensee, at its own expense, shall be responsible for all development and commercial activities related to undertaking the obligations pursuant to this Section 3.4.

3.5 Trademark License: Labeling. All packaging for Licensed Products shall display Proprius' trade dress and a trademark suitable to Proprius which may, but need not, be a Trademark, at Proprius' sole discretion. Prometheus hereby grants to Proprius a royalty-free license to use the Trademarks in connection with the commercialization of Licensed Products in the Territory. All packaging and labeling for Licensed Products shall include all appropriate trademark and patent markings in order to reasonably protect such Trademarks and Patent Rights. Proprius acknowledges Prometheus' exclusive right, title and interest in and to the Trademarks and acknowledges that nothing herein will be construed to grant to Proprius any rights in such Trademarks except as expressly provided herein. Proprius further acknowledges that its use of the Trademarks will not create in Proprius any right, title or interest in the Trademarks, and that all use of the Trademarks and the goodwill generated thereby will inure solely to the benefit of Prometheus. Proprius shall make only claims, representations or warranties directly or indirectly to any Third Party about the Licensed Product that are consistent with the Licensed Product's approval from applicable Regulatory Authorities and other scientific literature. During the Term of this Agreement, Proprius shall be solely responsible for maintaining the Trademarks, including all costs and expenses relating thereto.

3.6 Customer Service and Technical Support. Proprius, at Proprius' own expense, or as applicable, a Sublicensee, at its own expense, shall be responsible for and use Reasonable Commercial Efforts in providing training, customer service and technical support for Licensed Products.

3.7 Export Control Laws. Proprius shall comply with all applicable export laws, restrictions and regulations of the Department of Commerce or other United States or foreign agency or authority, and shall not export, or allow any export or re-export of any Confidential Information or Licensed Products in violation of any such restrictions, laws or regulations.

3.8 Progress Reports. Once every six (6) months prior to the date of the First Commercial Sale and once every Calendar Year, thereafter, Proprius will submit to Prometheus a progress report covering in reasonable detail (i) activities by Proprius related to the development and testing of Licensed Product (or the commercialization of Licensed Products after development), and (ii) the obtaining of regulatory approvals necessary for marketing Licensed Product.

4. REGULATORY COMPLIANCE MATTERS AND COMPLAINTS

4.1 Regulatory Matters. In addition to the obligations set forth in Article 3 of this Agreement, Proprius, at Proprius' own expense, or as applicable, a Sublicensee, at its own expense, shall be responsible for and take all appropriate corrective or other actions regarding all regulatory matters related to the Licensed Products and the Trademarks in the Territory, including responses to inquiries from Regulatory Authorities in accordance with all applicable laws.

4.2 Complaints and Recalls.

(a) Licensed Product Complaints. Proprius, at Proprius' own expense, or as applicable, a Sublicensee at its own expense, shall investigate, respond to and take all appropriate corrective or other actions regarding all complaints associated with the manufacture and/or distribution of Licensed Products which are made, used, distributed or sold by or on behalf of Proprius or any of its Sublicensees in accordance with all applicable laws.

(b) Licensed Product Recalls. Proprius, at Proprius' own expense, or as applicable, a Sublicensee at its own expense, and, subject to an order or directive from a Regulatory Authority, shall be responsible to conduct and to pay for the costs of any recall or withdrawal of Licensed Products made, used, distributed or sold by or on behalf of Proprius or any of its Sublicensees in accordance with all applicable laws. Promptly, in accordance with all applicable laws and if possible, prior to making such recall, Proprius shall advise Prometheus of the situation and any facts relating to the advisability of the recall, destruction or withholding from the market of the Licensed Product in the Territory.

4.3 Record keeping. Proprius (and its Affiliates and Sublicensees) shall keep records of its sales and customers and other records sufficient to adequately administer a recall of each such Licensed Product and reasonably cooperate in any decision to recall, retrieve and/or replace any Licensed Product, in accordance with all applicable laws and regulatory requirements.

4.4 Fines and Penalties. Any fines and/or penalties for failure by Proprius to comply with any requirement or regulation shall be the sole responsibility of Proprius.

5. PAYMENTS

5.1 Up Front Fee. Within sixty (60) days after the Effective Date, Proprius shall make a nonrefundable up front payment to Prometheus of [***] U.S. Dollars (U.S.$[***]) (the "*Up Front Fee*").

5.2 Preferred Stock. Within 30 days after the Effective Date, Proprius shall deliver to Prometheus a certificate for 200,000 shares of Proprius Series A Preferred Stock, $0.0001 par value per share *("Series A Preferred Stock"),* registered in the name of Prometheus. In regard to the Preferred Stock, Proprius hereby represents and warrants as follows:

(a) Proprius has duly authorized the issuance of 38,000,000 shares of its Preferred Stock, having the rights, restrictions, privileges and preferences set forth in the Certificate of Amendment attached hereto as Exhibit 5.2 (the "*Certificate of Amendment*") and Proprius has adopted and filed the Certificate of Amendment with the Secretary of State of the State of Delaware.

(b) The authorized capital stock of Proprius (immediately prior to the issuance of the Preferred Stock to Prometheus) consists of 32,000,000 shares of common stock, $0.0001 par value per share (the "*Common Stock*"), of which 3,004,166 shares are issued and outstanding and 1,170,834 shares have been reserved for issuance pursuant to subscription, warrant, option, convertible security or other right (contingent or otherwise), and 38,000,000 shares of preferred stock *("Preferred Stock"),* of which 21,000,000 shares have been designated as Series A Preferred Stock of which 6,105,406 are issued and outstanding. No other shares or series of capital has been designated or is issued or outstanding. All of the issued and outstanding shares of Common Stock and Preferred Stock have been duly authorized and validly issued and are fully paid and nonassessable. Except for the Preferred Stock and as provided in this Agreement, (i) no subscription, warrant, option, convertible security or other right (contingent or otherwise) to purchase or acquire any shares of capital stock of the Company is authorized or outstanding, (ii) Proprius has no obligation (contingent or otherwise) to issue any subscription, warrant, option, convertible security or other such right or to issue or distribute to holders of any shares of its capital stock any evidences of indebtedness or assets of the Company, (iii) Proprius has no obligation (contingent or otherwise) to purchase, redeem or otherwise acquire any shares of its capital stock or any interest therein or to pay any dividend or make any other distribution in respect thereof, and (iv) there are no outstanding or authorized stock appreciation, phantom stock or similar rights with respect to Proprius. All of the issued and outstanding shares of capital stock of Proprius have been offered, issued and sold by Proprius in compliance with applicable federal and state securities laws.

(c) The issuance and delivery of the shares of Series A Preferred Stock in accordance with this Agreement, and the issuance and delivery of the shares of Common Stock issuable upon conversion of the Preferred Stock, have been duly authorized by all necessary corporate action on the part of Proprius, and all such shares have been duly reserved for issuance. The shares of Series A Preferred Stock when so issued and delivered pursuant to this Agreement, and the shares of Common Stock issuable upon conversion of the Preferred Stock, when issued upon such conversion, will be duly and validly issued, fully paid and non-assessable.

In regard to the issuance of the shares of the Series A Preferred Stock to Prometheus, Prometheus hereby represents and warrants that Prometheus is acquiring the Series A Preferred Stock, and the shares of Common Stock into which the Series A Preferred Stock may be converted, for its own account for investment and not with any present intention of distributing or selling the same, and Prometheus has no present or contemplated agreement, undertaking, arrangement, obligation, indebtedness or commitment providing for the disposition thereof. Prometheus is an "accredited investor" as defined in Rule 501(a) under the Securities Act.

5.3 Milestone Payments. In addition to the payments described in Sections 5.1 and 5.4 of this Agreement, Proprius shall make the following one-time cash milestone payments to Prometheus within ninety (90) days of the occurrence of the applicable event:

MILESTONE EVENT	PAYMENT
First Commercial Sale by Proprius, its Affiliates or Sublicensees	U.S.$[***]
Achievement of greater than or equal to U.S.$[***] in cumulative Net Sales of all Licensed Products (determined in the aggregate for sales by Proprius, its Affiliates and Sublicensees)	U.S.$[***]
Achievement of greater than or equal to U.S.$[***] in cumulative Net Sales of all Licensed Products (determined in the aggregate for sales by Proprius, its Affiliates and Sublicensees)	U.S.$[***]
Achievement of greater than or equal to U.S.$[***] in cumulative Net Sales of all Licensed Products (determined in the aggregate for sales by Proprius, its Affiliates and Sublicensees)	U.S.$[***]
Achievement of greater than or equal to U.S.$[***] in cumulative Net Sales of all Licensed Products (determined in the aggregate for sales by Proprius, its Affiliates and Sublicensees)	U.S.$[***]

Notwithstanding the foregoing, Proprius shall not be obligated to make payments under this Section 5.3 which total more than [***] U.S. Dollars (U.S.$[***]) in any calendar year (the "*Milestone Payment Cap*"). Any amounts in excess of the Milestone Payment Cap for any calendar year shall be carried forward and paid on March 31 of the next calendar year (subject again, in such calendar year, to the Milestone Payment Cap).

5.4 Royalty Payments to Prometheus. In partial consideration of the license rights granted to Proprius hereunder, Proprius shall pay to Prometheus royalties based on Net Sales of Licensed Products by Proprius and its Affiliates (but not Sublicensees provided that Sublicensees shall be included if Proprius has sublicensed its rights hereunder without having devoted material efforts to the development of Licensed Products and without retaining material development and/or commercialization rights related to the Licensed Products), in countries where a Valid Claim of the Patent Rights covering such Licensed Products exists at the rate of [***] percent ([***]%).

Subject to the termination provisions of Article 10 of this Agreement, Proprius' obligation to pay royalties to Prometheus on Licensed Products covered by a Valid Claim of the Patent Rights in each country shall expire on the date when the last patent containing a Valid Claim in such country expires, lapses or is invalidated.

5.5 Sublicense Fees and Sublicensee Royalties. In addition to the royalties and milestones payable pursuant to Sections 5.3 and 5.4 of this Agreement, Proprius shall pay to Prometheus the following amounts:

(a) If the Sublicensee is [***] or any successor organization to [***] (hereinafter "[***]" shall include such successor organizations), then Proprius shall pay to Prometheus:

(i) [***] percent ([***]%) of any Sublicensee Royalties received by Proprius from [***] or any of its Affiliates or Sublicensees, provided however, that under no circumstances shall such payment to Prometheus by Proprius under this Section 5.5(a)(i) be less then [***] percent ([***]%) of the Net Sales of [***] and its Affiliates or Sublicensees nor shall it be more then [***] percent ([***]%) of the Net Sales of [***] and its Affiliates or Sublicensees; plus

(ii) [***] percent ([***]%) of Sublicense Fees received by Proprius from [***] or any of its Affiliates or Sublicensees.

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

(b) In the case of any other Sublicensee:

(i) [***] percent ([***]%) of any Sublicensee Royalties received by Proprius from such Sublicensee or any of its Affiliates or Sublicensees, provided however, that under no circumstances shall such payment to Prometheus by Proprius under this Section 5.5(b)(i) be less then [***] percent ([***]%) of the Net Sales of such Sublicensee and its Affiliates or Sublicensees nor shall it be more then [***] percent ([***]%) of the Net Sales of such Sublicensee and its Affiliates or Sublicensees; plus

(ii) [***] percent ([***]%) of Sublicense Fees received by Proprius from such Sublicensee or any of its Affiliates or Sublicensees.

For the avoidance of doubt, except as specifically set forth above relating to [***] under Section 5.5 (a), in the event that Proprius sublicenses any or all of its rights to any other third party without having devoted material efforts to the development of Licensed Products and without retaining material development and/or commercialization rights related to the Licensed Products, Proprius shall pay to Prometheus a royalty pursuant to Section 5.4 (and not Section 5.5(b)) based upon the Net Sales of any Sublicensee's (or its Affiliates).

5.6 Royalty Reduction. Any royalty payable to Prometheus under Section 5.4 of this Agreement may be reduced up to a maximum of [***] percent ([***]%) of the royalty otherwise due on a Calendar Quarter basis for any and all royalties to the extent, and only to the extent, it is reasonable and necessary for Proprius to pay such royalties to a Third Party in order to manufacture, use or sell a Licensed Product (up to the actual extent of the royalties paid to such Third Party) under a license of intellectual property rights entered into by Proprius with respect to the Licensed Product, provided that under no circumstances shall the royalty rate payable to Prometheus hereunder be reduced below two and one-half percent (2 ½%).

5.7 Terms of Payment.

(a) Within [***] days following the end of each Contract Quarter during the Term, Proprius shall make the payments to Prometheus set forth in Sections 5.4 of this Agreement based on Net Sales during the previous Contract Quarter. Royalty payments due to Prometheus under Section 5.5 shall be due within [***] days following the end of each Contract Quarter during the Term as well.

(b) With each quarterly payment made under this Section 5.7, Proprius shall deliver to Prometheus a full and accurate accounting of all Net Sales by Proprius, and its Affiliates and Sublicensees as well as all Sublicense Fees and Sublicensee Royalties received from Sublicensees and their Affiliates, if any, for the relevant Contract Quarter. Each such report shall include at least the following information: (i) quantity of each Licensed Product sold by Proprius, and its Affiliates and Sublicensees on a country-by-country basis; (ii) gross sales of Licensed Products by Proprius, and its Affiliates and Sublicensees on country-by-country basis; (iii) any deductions from gross sales used to arrive at Net Sales; (iv) the quantity and type of Sublicense Fees and Sublicensee Royalties received from Sublicensees and their Affiliates; and (v) Proprius' computation of the aggregate earned royalties payable to Prometheus under Sections 5.4 and 5.5, respectively.

(c) Within [***] calendar days of the end of each Calendar Quarter, Proprius shall provide Prometheus with its best estimate of all the payments due to Prometheus hereunder for such prior Calendar Quarter from Proprius, its affiliates and its Sublicensees.

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

(d) All royalty and milestone and Sublicense Royalties and Sublicense Fee payments due Prometheus shall be made in United States dollars by wire transfer to a bank and account specified by Prometheus in writing. For sales made or Sublicense Fees or Sublicensee Royalties received in currency other than United States dollars, amounts payable under this Agreement shall be converted to United States dollars as would be required for reporting under GAAP. In no event shall the applicable royalties exceed the maximum amount payable under the applicable laws, regulations or administrative rulings of the territory or country which restricts the royalty rate or amount payable on Net Sales in such territory or country.

5.8 Taxation of Royalties. Where any sum due to be paid to Prometheus hereunder is subject to any withholding or similar tax, the Parties shall use reasonable efforts to do all such acts and things and to sign all such documents as will enable them to take advantage of any applicable double taxation agreement or treaty or appeal procedure. In the event there is no applicable double taxation agreement or treaty, or appeal procedure, or if any appeal procedure has been exhausted or if an applicable double taxation agreement or treaty or appeal procedure reduces but does not eliminate such withholding or similar tax, notwithstanding any pending appeal, Proprius shall pay such withholding or similar tax to the appropriate government authority as may be required, deduct the amount paid from the amount due Prometheus and secure and send to Prometheus reasonable evidence of such payment.

5.9 Restrictions on Remittance. If, at any time, legal restrictions prevent the prompt remittance of part or all royalties with respect to any country where Licensed Products are sold, Proprius shall have the right to make such payments by depositing the amount thereof in local currency to Prometheus' account in a bank or other depository institution in such country.

5.10 Late Payments. Any payment, including without limitation, royalty, Sublicense Fees, Sublicensee Royalties, and milestone payments, made by Proprius under this Agreement after the date such payment is due shall bear interest at the lesser of 1 1/2% per month and the maximum rate permitted by applicable law.

6. BOOKS AND RECORDS

6.1 Procedures. Proprius shall keep full and accurate accounting records of Net Sales, Sublicense Fees and Sublicensee Royalties in sufficient detail to determine the amounts payable to Prometheus under Sections 5.3, 5.4 and 5.5. Such records, together with all necessary supporting data, shall be kept at Proprius' offices at the address set forth above or such other address as Proprius may indicate in writing to Prometheus. Upon reasonable notice to Proprius, Prometheus shall have the right during normal business hours to have an independent certified public accounting firm to audit on a confidential basis Proprius' financial records pertaining to Net Sales, Sublicense Fees and Sublicensee Royalties to verify the amounts payable pursuant to this Agreement; provided, however, that such audit shall neither (a) take place more frequently than once in a Contract Year, nor (b) cover records for more than the preceding three (3) Contract Years, nor (c) cover any Contract Year that was previously audited pursuant to this Section 6.1. The accounting firm will disclose to Prometheus only whether the amounts reported by Proprius are correct or incorrect and the specific details concerning any discrepancies. An adjustment in payment shall be made within five (5) business days of demonstration of any underpayment or overpayment. Any underpayment shall include interest as specified in Section 5.10.

6.2 Cost of Audits. The fees and expenses of an audit requested by Prometheus pursuant to Section 6.1 of this Agreement shall be borne by Prometheus; provided, however, that if any audit reveals that Proprius underpaid the royalties, milestone payments, Sublicense Fees or Sublicensee Royalties due under this Agreement as to the period being audited by more than ten percent (10%) of the

amount that was payable for such period, then Proprius shall, in addition to paying any such deficiency, reimburse Prometheus for the cost of such audit.

6.3 Period to be Kept. Proprius shall retain all books and records it is required to maintain under Section 6.1 for [***] from the end of the Contract Year of the Net Sales (or Sublicense Fees or Sublicensee Royalties) to which the books and records pertain.

7. REPRESENTATIONS AND WARRANTIES

7.1 Mutual Warranties. Each of the Parties represents and warrants to the other Party as follows:

(a) It is duly organized and validly existing under the laws of its state of incorporation, and has full corporate power and authority to enter into this Agreement and to carry out the provisions hereof.

(b) It is duly authorized to execute and deliver this Agreement and to perform its obligations hereunder, and any person executing this Agreement on its behalf has been duly authorized to do so by all requisite corporate action.

(c) This Agreement is legally binding upon such Party and enforceable in accordance with its terms, subject to the effects of bankruptcy, insolvency or other laws of general application affecting the enforcement of creditor rights and judicial principles affecting the availability of specific performance and general principles of equity whether enforceability is considered a proceeding at law or equity. The execution, delivery and performance of this Agreement by it does not conflict with any material agreement, instrument or understanding, oral or written, to which it is a party or by which it may be bound, nor violate any material law or regulation of any court, governmental body or administrative or other agency having jurisdiction over it.

(d) To the best of its knowledge, it has sufficient legal and/or beneficial title and ownership under its intellectual property rights necessary for it to fulfill its obligations under this Agreement.

7.2 Intellectual Property Warranties. As of the effective date, Prometheus represents and warrants to Proprius as follows:

(a) Prometheus is the sole and exclusive owner, with the right to license or sublicense, of all its right, title and interest in and to the Patent Rights with the right to license to Proprius;

(b) To the best of Prometheus' knowledge and belief without independent inquiry, the Patent Rights have not been obtained through any fraudulent activity or misrepresentation;

(c) There are no suits, claims or proceedings pending or, expressly threatened in writing, against Prometheus in any court or by or before any governmental body or agency with respect to the Patent Rights or the Prometheus Know-how or the making, having made, using, selling, offering for sale or importing Licensed Products;

(d) To the best of Prometheus' knowledge without independent inquiry, there are no suits pending or threatened that challenge the validity of any of the patents within Patent Rights, and Prometheus has no actual knowledge of any information or action that may jeopardize the validity, enforcement or ownership of the Patent Rights; and

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

(e) Prometheus does not own, control or have rights to any patents or patent applications other than those licensed or sublicensed to Proprius according to the terms of this Agreement, having claims that would restrict Proprius' making, having made, using, selling, offering for sale or importing Licensed Products as such Licensed Products exist on the Effective Date.

7.3 Disclaimer. Except as expressly set forth in this Agreement, NEITHER PARTY MAKES ANY REPRESENTATIONS OR WARRANTIES, EXPRESSED OR IMPLIED. ALL OTHER REPRESENTATIONS OR WARRANTIES, EXPRESSED AND IMPLIED, INCLUDING, WITHOUT LIMITATION, NONINFRINGEMENT, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY DISCLAIMED.

Without limiting the generality of the foregoing, and except as expressly set forth in this Agreement, Prometheus makes no (a) representation or warranty as to the validity of any patent or other intellectual property rights which are the subject of this Agreement, (b) representation or warranty that anything made, used, imported, offered for sale, sold or otherwise disposed of under any of the Patent Rights or the Prometheus Know-how is or will be free from infringement of patents or other intellectual property rights of Third Parties, or (c) grant, by implication, estoppel, or otherwise, of any license, option, covenant or right other than those which are expressly stated in this Agreement, including without limitation any license under any patent or patent application (or claim thereof) not within the Patent Rights.

8. PATENTS.

8.1 Prosecution of Patent Rights. Proprius, at Proprius' own expense, shall file, prosecute, issue and maintain all the Patent Rights. Proprius shaft provide Prometheus the right to review and comment on draft submissions to any patent office with respect to the Patent Rights reasonably in advance of any applicable due dates. Proprius shall consider in good faith the requests and suggestions of Prometheus with respect to strategies for filing and prosecuting the Patent Rights. In connection with Proprius' performance of its obligations under this Section 8.1, Proprius shall provide written notification to Prometheus of significant activities resulting from Proprius' actions under this Section 8.1 and shall provide Prometheus with reasonable access to and copies of the records related to such activities. Accordingly, Proprius shall provide Prometheus with copies of (a) all actions, notices and other correspondence received from the U.S. Patent and Trademark Office or any foreign equivalent, (b) responses and correspondence to the U.S. Patent and Trademark Office or any foreign equivalent, and (c) the original issued patent documents, certificates or equivalents thereof. In the event Proprius elects or has elected not to pursue patent protection or to continue to prosecute or maintain any patent or patent application of the Patent Rights, Proprius shall so advise Prometheus in writing not less than [***] days prior to any potential loss of rights; then, Prometheus shall have the right, but not the obligation, to assume prosecution or maintenance of such patent or patent application of the Patent Rights. If Prometheus elects to assume maintenance of such patent or if Prometheus elects to assume prosecution of such patent application, then thereafter, the license to such patent-n the region in question shall either revert to a non-exclusive license or be removed from the Patent Rights, in the sole discretion, and upon the written election, of Prometheus.

8.2 Third Party Infringement of Patent Rights. Each Party agrees to bring to the attention of the other Party any Third Party product it discovers or has discovered which relates to any of the Patent Rights, and to cooperate with each other so that each Party can determine whether a Third Party product may infringe a Valid Claim of a Patent Right. To the extent a Party believes a Third Party may infringe the Patent Rights, the Parties shall reasonably cooperate to address such concerns. Notwithstanding such cooperation, in the event of alleged Third Party infringement, Proprius, at its sole discretion, may pursue enforcement within [***] days of obtaining knowledge of

such alleged infringement. Prior to taking any formal action to enforce the Patent Rights or prior to communicating to the alleged infringing Third Party regarding such alleged infringement, Proprius shall notify Prometheus in writing of Proprius' intentions to so act. [***] In the event Proprius does not pursue enforcement within the [***] day period, Prometheus, at Prometheus' sole cost, upon prior written notice to Proprius, may (but shall be under no obligation to act) pursue such enforcement action, and if Prometheus obtains any awards or settlement, then Prometheus shall retain exclusively all settlements or awards.

8.3 Infringement involving Third Party Patents. If a Third Party commences suit, or threatens to do so, on the basis of a claim that a Licensed Product manufactured, used or sold by or on behalf of Proprius infringes a patent of such Third Party, Proprius shall be responsible for defending such claim at its sole expense, except as expressly provided in Section 11.1.

8.4 Patent Marking. Proprius shall use reasonable efforts to place all appropriate patent and other intellectual property notices, markings and indicia on Licensed Product and marketing literature for Licensed Products as needed to protect the Patent Rights and the rights for damages for infringement thereof.

9. CONFIDENTIALITY AND PUBLIC ANNOUNCEMENTS

9.1 Confidentiality. It is contemplated that in the course of the performance of this Agreement each Party may disclose from time to time Confidential Information to the other Party. Each Party agrees (a) not to use Confidential Information received from the other for any purpose other than the performance of its rights and obligations hereunder, and (b) not to disclose Confidential Information so received to any Third Party, except as is necessary for such performance (provided such disclosure is subject to similar or more restrictive confidentiality obligations as set forth herein) or as is required by a court or governmental authority or with the written consent of the disclosing Party. In the event that such disclosure to a Third Party is required as set forth above, the disclosing Party shall give to the Party from whom the Confidential Information was received the greatest practical prior written notice so as to permit the latter to take all possible action to perfect and/or safeguard its rights in the Confidential Information. The obligations of the Parties relating to Confidential Information shall expire five (5) years after the later of the termination of this Agreement or the expiration of any Patent Rights; provided, however, each of Proprius' and Prometheus' obligations to keep Prometheus Know-how confidential shall not expire so long as such know-how is within the definition of Confidential Information provided in this Agreement.

9.2 Public Announcements. Within a reasonable time following the Effective Date of this Agreement, the Parties will issue a joint press release announcing the existence of this Agreement in the form and substance mutually agreed upon by the Parties. Except as set forth in the preceding sentence, neither Party shall make any public announcement concerning the transactions contemplated herein, or make any public statement which includes the name of the other Party or any of its Affiliates or otherwise use the name of the other Party or any of its Affiliates in any public statement or document, without the written consent of the other Party, which consent shall not be unreasonably withheld; provided, however, that either Party may make such public announcements or disclosures as may be required by regulation, law or judicial order. Except for any regulatory, legal or judicial disclosure obligation, any such public announcement proposed by a Party that names the other Party shall first be provided in draft to the other Party which shall have fifteen (15) business days to review such draft prior to the issue or publication of the disclosure. Except as expressly permitted by this Section 9.2, neither Party shall publish or otherwise disclose the existence of this Agreement, or its terms, without the other

Party's prior written consent; provided, however, that a Party may disclose the existence and/or terms of this Agreement to such Party's professional advisors and, on a confidential basis and subject to a written confidentiality agreement not less stringent then the confidentiality terms contained herein and of which the other Party is a third party beneficiary, to potential Third Party investors or acquirors or, in the case of Proprius, to potential Sublicensees, in each case in connection with due diligence or similar investigations by such Third Parties.

10. TERM AND TERMINATION

10.1 Term. This Agreement shall commence on the Effective Date and shall remain in effect for the term of any royalty obligations under Sections 5.4 and 5.5 of this Agreement, unless otherwise terminated earlier pursuant to this Article 10.

10.2 Termination by Either Party. Either Party may terminate this Agreement upon written notice to the other Party in the event the other Party (a) materially breaches this Agreement and fails to cure such breach within [***] days after receipt of written notice of breach from the non-breaching Party, or (b) makes a general assignment for the benefit of creditors, has a receiver appointed on its behalf, or files or otherwise becomes subject to bankruptcy or insolvency proceedings which continues unstayed and in effect for a period of [***] days.

10.3 Termination by Prometheus. In addition to the rights set forth under Section 10.2 related to material breach of this Agreement by Proprius, Prometheus may immediately terminate this Agreement as set forth in Section 3.3.

10.4 Termination by Proprius. In addition to the rights set forth under Section 10.2 related to material breach of this Agreement by Prometheus, Proprius may terminate this Agreement with sixty (60) days written notice, without cause.

10.5 Rights Upon Termination.

(a) Upon termination of this Agreement pursuant to Section 10.2 or 10.3 or 10.4: (i) all rights under the licenses granted hereunder shall automatically terminate, and (ii) any sublicenses (but not any liabilities accrued to date) granted hereunder by Proprius to Third Parties shall remain in effect, but shall be assigned to Prometheus provided that: (A) such sublicense was properly granted hereunder, (B) Prometheus shall have no obligation thereunder other than the obligation to grant the license or sublicense to the applicable Third Party(ies) as set forth in such sublicenses, (C) all restrictions and limitations of this Agreement shall apply to the sublicense as though this Agreement continued in effect, (D) Prometheus shall receive all consideration due in connection with the sublicense and, in any event, the payments to Prometheus based upon the sublicense and activity thereunder shall be at least as great as they would have been to Prometheus had the Agreement remained in effect and such actions had been taken by Proprius, and (E) in addition to any termination rights under the sublicense agreement, Prometheus shall be entitled to terminate such sublicense on the same basis as is provided herein for termination of this Agreement.

(b) Expiration or termination of this Agreement shall not relieve the Parties of any obligation accruing prior to such expiration or termination. Except as set forth below or elsewhere in this Agreement, any accrued rights to payment and the obligations and rights of the Parties under Sections 1, 4, 6, 7, 9, 10, 11, and 12 shall survive expiration or termination of this Agreement.

(c) Within thirty (30) days following the termination of this Agreement, except to the extent and for so long as a Party is entitled to retain license rights under this Agreement,

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

each Party shall, upon written request, deliver to the other Party any and all Confidential Information, and any copies thereof, of the other Party in its possession, except that the Party will be entitled to retain one (1) copy of all documents in its legal archives. [***]

(d) Upon termination (but not expiration) of this Agreement, Proprius agrees to immediately discontinue the manufacture and sale of the Licensed Products and the use of the Patent Rights and Prometheus Know-how; *provided, however,* unless this Agreement is terminated pursuant to Section 10.2 for a breach by Proprius, that for up to [***] months after such termination, Proprius shall have the right to sell any existing merchantable inventory of Licensed Products as of the date of termination at its normal prices, unless discounted prices were previously allowed or authorized by Proprius. The sale of all such inventory, however, shall be subject to all of the terms and conditions of this Agreement, including the royalty provisions of Article 5.

11. INDEMNIFICATION; INSURANCE AND LIMITATION OF LIABILITY

11.1 Indemnification by Prometheus. Prometheus shall indemnify, defend and hold harmless Proprius and its officers, directors, employees, agents and representatives ("*Proprius Indemnitees*") from and against any and all liabilities, claims, demands, actions, suits, losses, damages, costs and expenses (including reasonable attorneys' fees) based upon or arising out of Third Party claims resulting from Prometheus' negligence, willful or deliberate misconduct, recklessness or breach of any covenant, agreement, representation or warranty made by Prometheus in this Agreement; provided that Prometheus shall not be required to indemnify Proprius or any Proprius Indemnitee to the extent such liabilities, claims, demands, actions, suits, losses, damages, costs and expenses arise from the negligence, willful or deliberate misconduct, or recklessness of a Proprius Indemnitee, Proprius' breach of this Agreement or any other matter for which Proprius is responsible to indemnify Prometheus pursuant to Section 11.2 of this Agreement.

11.2 Indemnification by Proprius. Proprius shall indemnify, defend and hold harmless Prometheus and its officers, directors, employees, agents and representatives ("*Prometheus Indemnitees*") from and against any and all liabilities, claims, demands, actions, suits, losses, damages, costs and expenses (including reasonable attorneys' fees) based upon or arising out of Third Party claims resulting from Proprius' (or its Affiliates' or Sublicensees') negligence, willful or deliberate misconduct, recklessness, or relating to the development or commercialization of Licensed Products or Patent Rights hereunder by Proprius (or its Affiliates or Sublicensees) or breach of any covenant, agreement, representation or warranty made by Proprius (or its Affiliates or Sublicensees) in this Agreement; provided that Proprius shall not be required to indemnify Prometheus or any Prometheus Indemnitee to the extent such liabilities, claims, demands, actions, suits, losses, damages, costs and expenses arise from the negligence, willful or deliberate misconduct, or recklessness of a Prometheus Indemnitee, Prometheus' breach of this Agreement or any other matter for which Prometheus is responsible to indemnify Proprius pursuant to Section 11.1 of this Agreement.

11.3 Conditions of Indemnification. If either Party proposes to seek indemnification from the other under the provisions of this Article 11, it shall notify the other Party within fifteen (15) days of receipt of notice of any such claim or suit and shall cooperate fully with the other Party in the defense of such claims or suits. No settlement or compromise shall be binding on a Party hereto without

its prior written consent which shall not be unreasonably withheld. Failure to provide such notice will not relieve indemnity obligation except to the extent adversely effected by failure to receive notice.

11.4 Insurance. During the Term, Proprius shall carry occurrence-based liability insurance with policy limits of at least two million dollars ($2,000,000) per occurrence and five million dollars ($5,000,000) annual aggregate. Upon request, Proprius shall provide Prometheus with evidence of such insurance. Proprius shall have Prometheus and its respective Affiliates, directors, officers, employees, scientists and agents named as additional insured parties on any product liability insurance (or professional liability insurance covering services) policies maintained by Proprius, its Affiliates and Sublicensees applicable to the Licensed Products, and shall ensure that such insurance may not be amended, terminated or allowed to expire without thirty (30) days' prior notice to such additional insureds.

11.5 Limitation of Liability. NEITHER PARTY SHALL BE ENTITLED TO RECOVER FROM THE OTHER PARTY ANY SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES, INCLUDING WITHOUT LIMITATION, LOST PROFITS, IN CONNECTION WITH THIS AGREEMENT OR ANY LICENSE GRANTED HEREUNDER, REGARDLESS OF ANY NOTICE OF THE POSSIBILITY OF SUCH DAMAGES. FOR THE PURPOSE OF CLARITY, NOTHING IN THIS SECTION IS INTENDED TO LIMIT THE INDEMNIFICATION OBLIGATIONS OF ANY PARTY WITH RESPECT TO THE CHARACTERIZATION OF ANY CLAIM BY A THIRD PARTY AS SPECIAL, INDIRECT, INCIDENTAL, CONSEQUENTIAL OR PUNITIVE DAMAGES.

12. MISCELLANEOUS

12.1 Entire Agreement. This Agreement, together with the exhibits, constitutes the entire agreement between the Parties concerning the subject matter hereof and supersedes all written or oral prior agreements or understandings with respect thereto. Notwithstanding anything in this Section 12.1 to the contrary, the Confidentiality Agreement between the Parties effective November 4, 2005, shall remain in full force and effect.

12.2 Amendment or Modification. No amendment, modification or release from any provision of this Agreement shall be binding, unless in writing signed by an authorized representative of each Party, and no purchase order or acknowledgment form of a Party shall be binding on the other Party.

12.3 Severability. If any term or provision of this Agreement shall for any reason be held invalid, illegal or unenforceable in any respect, such invalidity, illegality or unenforceability shall not affect any other term or provision hereof, and this Agreement shall be interpreted and construed as if such term or provision, to the extent the same shall have been held to be invalid, illegal or unenforceable, had never been contained herein.

12.4 Assignment. Neither Party shall assign this Agreement in whole or in part without the prior written consent of the other Party; provided, however, that subject to Section 2.6 herein, either Party may assign this Agreement without such consent to an Affiliate, in connection with the transfer or sale of substantially its entire business to which this Agreement pertains, or in the event of its merger or consolidation with another company; provided, that, for purposes of clarity, intellectual property rights of a party to such transaction other than one of the initial Parties to this Agreement shall not be included in the technology licensed hereunder. The rights and obligations of the Parties under this Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the Parties. Any assignment not in accordance with this Agreement shall be void.

12.5 Independent Contractor. It is expressly agreed that Prometheus and Proprius shall be independent contractors and that the relationship between the two Parties shall not constitute a partnership, joint venture or agency of any kind. Neither Party shall have the authority to make any statement, representations or commitments of any kind on behalf of the other, or to take any action, which shall be binding on the other Party, without the prior written consent of the other Party.

12.6 Notices. All notice hereunder shall be in writing and shall be delivered (a) personally, (b) by overnight delivery, delivery prepaid, (c) mailed by express mail service, or (d) given by facsimile, to the following addresses of the respective Parties:

A Party may change its address listed above by notice to the other Party.

12.7 Force Majeure. Any delay in the performance of any of the duties or obligations of either Party under this Agreement caused by an event outside the affected Party's reasonable control shall not be considered a breach of this Agreement, and the time required for performance shall be extended for a period equal to the period of such delay. Such events shall include, without limitation: acts of God; riots; embargoes; labor disputes, including strikes, lockouts, job actions, or boycotts; fires; explosions; earthquakes; floods; shortages of material or energy; or other unforeseeable causes beyond the reasonable control and without the fault or negligence of the Party so affected. 12.8 Governing Law. This Agreement shall be construed, interpreted and governed by the laws of the State of California, without regard to conflicts of law principles and without regard to the United Nations Convention on Contracts for the International Sale of Goods.

12.9 Dispute Resolution. The parties hereto expressly agree that in the event of any dispute, controversy or claim by any party against the other party regarding this Agreement, the prevailing party shall be entitled to reimbursement by the other party to the proceeding of reasonable attorney's fees and costs incurred by the prevailing party. Any dispute, controversy or claim arising hereunder or in any way related to this Agreement shall be resolved by arbitration in the County of San Diego, State of California by JAMS-Endispute. The arbitration shall be conducted by a sole arbitrator appointed by JAMS-Endispute (the "Arbitrator"). The Arbitrator's decision shall be final and binding on all parties. The Arbitrator shall have no authority to award damages for emotional distress, punitive damages or equitable relief. The parties intend that this arbitration provision be irrevocable and be construed as broadly as possible. The arbitration shall be governed by the provisions of California's Arbitration Act, and judgment upon the award rendered by the Arbitrator may be entered by any court having jurisdiction thereof. Notwithstanding the above, to the full extent allowed by law, either Party may bring an action in any court of competent jurisdiction for injunctive relief (or any other provisional remedy) to protect the Parties' rights or enforce the Parties' obligations under this Agreement pending final resolution of any claims related thereto in an arbitration proceeding as provided above. In addition, either Party may bring an action in any court of competent jurisdiction to resolve disputes pertaining to the validity, construction, scope, enforceability, infringement or other violations of patents or other proprietary or intellectual property rights.

12.10 Binding Effect. This Agreement shall be binding upon and shall inure to the benefit of the Parties hereto and its respective assigns and successors in interest.

12.11 Waiver. No waiver or modification of any of the terms of this Agreement shall be valid unless in writing and signed by an authorized representative of the Parties. Failure by either Party to enforce any rights under this Agreement shall not be construed as a waiver of such rights, nor shall a waiver by either Party in one or more instances be construed as constituting a continuing waiver or as a waiver in other instances.

12.12 Exhibits. All exhibits that are attached to this Agreement are incorporated herein by reference.

12.13 Headings. The headings used in this Agreement are for convenience and reference purposes only and shall not affect the meaning or interpretation of this Agreement.

IN WITNESS WHEREOF, each Party has caused this Agreement to be executed on its behalf by its duly authorized officer as of the Effective Date.

FIRST AMENDMENT
TO LICENSE AGREEMENT

THIS FIRST AMENDMENT, effective as of October 23, 2013 (the "Effective Date"), is to that certain License Agreement dated September 13, 2007, (the "License Agreement") by and between Prometheus Laboratories Inc. ("*Prometheus*") and Cypress Bioscience, Inc. as successor in interest to Proprius, Inc., which was subsequently assigned to Exagen Diagnostics, Inc. ("*Exagen*"). Prometheus and Exagen are each sometimes referred to individually as a "*Party*" and together as the "*Parties*." All capitalized terms not defined herein shall have the meaning ascribed to them in the License Agreement.

WHEREAS, Prometheus and Exagen wish to amend the License Agreement with regard to development and clinical testing activities, marketing, milestones and royalties as described below and otherwise amend the License Agreement on the terms set forth herein;

NOW, THEREFORE, the Parties hereby agree to the following:

1. All references to Proprius in the Agreement shall be understood to reference Exagen.

2. Section 3.1 (Development and Clinical Testing Activities) shall be deleted in its entirety and replaced with the following:

3.1 Development and Clinical Testing Activities. Exagen shall use Reasonable Commercial Efforts to undertake development activities for the Licensed Product, including, but not limited to, conducting or having conducted, and completing or having completed: (a) those three (3) clinical studies described on Exhibit 3.1 hereto; and (b) a dossier to be used for communications with managed care entities that explains the advantageous pharmacoeconomics associated with use of the Licensed Product no later than March 30, 2014. Exagen shall bear the costs and expenses related to all development activities set forth above of the Licensed Products. Exagen acknowledges and agrees that these development activities are critical to the commercial success of the Licensed Product and agrees that should Exagen fail to timely complete the dossier described in section (b) of this section or to timely accomplish those three (3) clinical studies described on Exhibit 3.1, Exagen will pay Prometheus a one-time payment of [***]. In addition, if applicable, Exagen shall use Reasonable Commercial Efforts to undertake any other development activities for the Licensed Product, required for approvals from the applicable Regulatory Authorities. Exagen shall bear all costs and expenses related to the development of the Licensed Products.

3. Section 3.4 (Licensed Product Development and Marketing) shall be deleted in its entirety and replaced with the following:

3.4 Licensed Product Development and Marketing. Exagen shall use Reasonable Commercial Efforts, by itself, an Affiliate or through a Sublicensee, to develop, market and sell Licensed Products in the United States, Exagen shall also use Reasonable Commercial Efforts to develop Licensed Products in such other regions in the Territory as

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

Exagen deems commercially reasonable, and to market and sell Licensed Products in all regions in the Territory where appropriate regulatory and marketing approvals have been obtained from the applicable Regulatory Authorities. Exagen, at Exagen's own expense, or as applicable, a Sublicensee, at its own expense, shall be responsible for all development and commercial activities and expenses related to undertaking the obligations pursuant to this Section 3.4. For the avoidance of doubt, Reasonable Commercial Efforts to commercialize the Licensed Products shall include a compensation structure for the applicable members of Exagen's Sales Force that are responsible for detailing the Licensed Products (each a "*Sales Representative*") with a variable incentive compensation component based on the Promotion of the Licensed Products, as described below:

(a) At least [***] of the annual targeted incentive compensation percentage for each Sales Representative for the first (1st) year beginning January 01, 2014 shall be based on his/her performance related to minimum Details and minimum Sales Achievement of the Licensed Product, where a "*Detail*" is defined as "an interactive face-to-face visit in the Territory by a Sales Representative with a physician or his or her legally empowered designee, during which the indicated uses and other relevant characteristics of the Licensed Products may be described by such Sales Representative in a fair and balanced manner consistent with Applicable Law; however, incidental contacts between such sales representatives and a physician will not constitute a Detail;" and "*Sales Achievement*" is defined as actual sales of Licensed Products compared to commercially reasonable sales goals prescribed for each individual geographic territory.

2. LICENSE; RIGHT OF FIRST NEGOTIATION

2.1 License Grant. Notwithstanding the exclusivity of the foregoing license, ORGENTEC reserves the right to practice the Licensed Technology in the Field in the Territory to the extent necessary to perform its obligations under Section 2.7

2.2 Right of First Negotiation. Subject to the terms and conditions of this Agreement, ORGENTEC hereby grants to Proprius the right of first negotiation to obtain a license with respect to one or more Additional Products in the Field in the Territory in accordance with this Section 2.2. If, during the Term, ORGENTEC proposes to introduce (either directly or through an Affiliate or Third Party licensee or distributor) in the Territory any Additional Product, then ORGENTEC shall promptly notify Proprius thereof in writing of such intent and shall provide to Proprius any and all available scientific data, patent filings and other relevant information regarding such Additional Product ("***Diligence Information***"). At any time during the 30-day period commencing on the date of such notice, provided that all available Diligence Information regarding an Additional Product has been provided within [***] days following such notice (the "***Review Period***"), Proprius, at its sole discretion, may exercise its right of first negotiation with respect to such Additional Product by delivering written notice of exercise to ORGENTEC. If Proprius exercises such right of first negotiation prior to expiration of the Review Period, the parties shall negotiate in good faith for up to an additional [***] days (the "***Negotiation Period***") regarding the terms upon which ORGENTEC would exclusively license such Additional Product to Proprius in the Field in the Territory. Party on terms more favorable to such Third Party than those offered to Proprius without first offering such license to Proprius on such more favorable terms for a period of at least 30 days.

2.3 Transfer of Samples. Within 90 days after the Effective Date, ORGENTEC shall, if available and to the extent permitted by applicable laws and commercially reasonable, the protocols approved by the respective IRBs/ Ethic Committees of the institutions through which the Samples were collected, and any informed consents obtained by ORGENTEC from Sample donors, transfer (or cause to be transferred) the Samples to Proprius. ORGENTEC hereby grants to Proprius, to the extent permitted by applicable laws an exclusive license, including the right to grant sublicenses, to use the transferred Samples for technology validation purposes with respect to initial Products in the Field in the Territory. As between the parties, Proprius shall be solely responsible for the costs of any such technology validation activities including the transfer of the samples. Concurrently with the transfer of any such Samples, ORGENTEC shall provide Proprius with copies of the protocols approved by the respective IRBs/ Ethic Committees of the Institutions through which the Samples were collected.

2.4 Technology Transfer; Consultation with Inventor(s). Promptly following the Effective Date and from time to time as necessary thereafter, ORGENTEC shall provide to Proprius true and complete copies of all written materials in ORGENTEC's possession and Control relating to processes and methods for employing and practicing the Licensed Technology in the Field. In addition, at Proprius' request from time to time, ORGENTEC shall allow Proprius reasonable access to the Inventor(s) for consultation regarding the practice of the Licensed Technology. The contact to the Inventor(s) shall be coordinated through a designated officer of Orgentec or Dr. Becker or Dr. Berg, who will act as intermediates between Proprius and Inventor(s) to answer any questions or help in Technology Transfer or relating to questions on processes and methods for employing and practicing the Licensed Technology in the Field. Should the communication through a designated office of Orgentec or Dr. Becker or Dr. Berg be deemed insufficient or inefficient by both parties, a reasonable, supervised, direct contact with the Inventor(s) would be made available to Proprius. For the avoidance of doubt, to the extent that the Inventors are not employees of ORGENTEC, it shall be subject to the Inventors' free discretion to accept such request for consultation.

2.5 Diligence Obligations.

(a) Subject to Section 2.5(b) below, Proprius agrees to use commercially reasonable efforts (directly and/or through one or more Affiliates and Sublicenses) to bring one or more initial Products to market in the Field in the Territory and, following first commercial sale, to promote such Initial Product(s) in the Field in the Territory during the Term. Without limiting the generality of the foregoing (but subject to Section 2.5(b)), Proprius shall achieve first commercial sale of an Initial Product by December 31, 2008. If, despite its commercially reasonable efforts, Proprius fails to achieve first commercial sale of an Initial Product by December 31, 2008, the parties shall discuss in good faith an appropriate extension of such deadline and/or other modification of such diligence milestone. If the parties are unable to reach mutual agreement on such extension or modification, ORGENTEC shall have the right to convert Proprius' license under Section 2.1 to a co-exclusive license upon written notice to Proprius.

(b) Proprius' diligence obligations under Section 2.5(a) are subject to ORGENTEC using commercially reasonable efforts to obtain U.S. Food and Drug Administration clearance or approval of its Anti-MCV (autoantibodies against mutated citrullinated vimentin) E LISA technology by December 31, 2009. Proprius shall, if available and to the extent permitted by applicable laws and commercially reasonable, the protocols approved by the respective IRBs/ Ethic Committees of the institutions through which samples were collected, and any informed consents obtained by Proprius from sample donors, transfer (or cause to be transferred) available patient samples to ORGENTEC to support the FDA approval process. Proprius hereby grants to ORGENTEC, to the extent permitted by applicable laws a non-exclusive license, to use the transferred samples for FDA approval purposes for Initial Products or Additional Products In the Field in the Territory.

Should ORGENTEC not act diligently to achieve the FDA approval before or no later then December 31, 2009, Proprius has the right, at its own discretion, to solely oversee and manage the FDA approval. In such case ORGENTEC would continue to carry the costs for the FDA approval process.

2.6 Disclosure Regarding Proprius Efforts. At ORGENTEC's written request, Proprius shall provide ORGENTEC with an bi-annual written progress report summarizing in reasonable detail Proprius' and its Affiliates' and Sublicenses' activities related to the development and Commercialization of Initial Products in the Field in the Territory.

2.7 Supply. ORGENTEC shall supply Proprius with ORG 548 Anti-MCV 96-well titer plates and associated reagents ("***Plates***"). During the Term, ORGENTEC agrees to sell and supply to Proprius such quantities of **Kits** as may be set forth on purchase orders placed by Proprius in accordance with this Section 2.7. Proprius shall order **Kits** by submitting written purchase orders to ORGENTEC specifying the quantity of **Kits** ordered, the desired shipment date for such Plates and any relevant shipping instructions. Proprius shall submit each purchase order to ORGENTEC at least 30 days in advance of the desired shipment date specified in such purchase order. ORGENTEC shall make each shipment of **Kits** in the quantity and on the shipment date specified for it on Proprius' purchase order, via the mode(s) of transportation and to the destination specified on such purchase order. Any shipment shall be delivered [EXW](Incoterms 2000). Any purchase orders for **Kits** submitted by Proprius to ORGENTEC shall reference this Agreement and shall be governed exclusively by the terms contained herein. The parties hereby agree that the terms and conditions of this Agreement shall supersede any term or condition in any order, confirmation or other document furnished by Proprius or ORGENTEC that is in any way inconsistent with these terms and conditions, ORGENTEC agrees to use its commercially reasonable efforts to ensure that **Kits** ordered by Proprius hereunder shall be delivered on the scheduled delivery dates set forth in the relevant purchase orders. Promptly upon receipt of a shipment, Proprius shall inspect such shipment. Proprius shall notify ORGENTEC in writing and may reject any portion of any shipment of Plates if such portion of any shipment does not conform to the applicable specifications established by ORGENTEC for the Plates, as in effect from time to time. If Proprius does not notify ORGENTEC of any such deficiency of the shipment within 7 days upon receipt, the shipment shall be deemed approved, except for such deficiencies that were not apparent at the time of the inspection. The initial approval is however based on a visual inspection of the plates/kits and a standard QC check to assure performance specifications of a limited sample of the purchased goods are met. Any change in or loss of performance compared to the product

specifications over time on the rest of the purchased plates/kits would fall under ORGENTEC'S product warranty. In case of a presumed lack of performance, Proprius would, if available and to the extent permitted by applicable laws and commercially reasonable provide ORGENTEC with patient samples, which seem to have resulted in questionable or wrong results, so that ORGENTEC can use them for their internal QC of the product which did not fulfill the Proprius QC or performance specifications.

If the total available supply of **Kits** is insufficient to meet the requirements of Proprius and ORGENTEC's other customers, ORGENTEC shall be under no obligation to meet the order by Proprius but agrees that, in allocating the available supply of **Kits** while such shortage is in effect, ORGENTEC will give Proprius the same "high" priority that ORGENTEC extends to any of its other comparable customers for **Kits**.

2.8 Territory. ORGENTEC shall not, directly or indirectly, and shall not cause, authorize or permit any of its Third Party licensees and distributors to: (a) engage in any advertising, promotion or marketing activities with respect to Initial Products in the Territory; (b) actively solicit orders for Initial Products from any prospective purchaser with its principal place of business located in the Territory; or (c) deliver or tender any Initial Products in the Territory. 3.2 Supply; Transfer Price. The transfer price for **Kits** supplied pursuant to Section 2.7 shall be [***] U.S. dollars (US$[***]) per Plate. ORGENTEC shall invoice Proprius for the transfer price of Plates ordered by Proprius no earlier than the date of shipment to Proprius, and each such invoice shall be due and payable within 30 days of receipt. Any increases in transfer price commencing after January 1, 2009 should be given with a 3 month notice before a given calendar year and shall not be higher than the average German inflation rate of the ending calendar year.

3.3 Royalties. Proprius shall pay to ORGENTEC a royalty of [***] percent ([***]%) of Net Sales of initial Products by Proprius and its Affiliates. Royalties under this Section 3.3 shall be payable on an Initial Product-by-Initial Product and country-by-country basis

3.5 Third Party Royalties. If Proprius is obligated or, following a claim or request by such Third Party, deems it reasonably necessary to pay royalties or other compensation to any Third Party that holds a patent(s) or patent application(s) that is (or are) in the reasonable judgment of Proprius, infringed by the manufacture, use or sale of an Initial Product in the Field In the Territory, Proprius may deduct [***] percent ([***]%) of such compensation actually paid to such Third Party(ies) from the royalties payable to ORGENTEC under Section 3.3; *provided, however*, that in no event shall the royalty payable to ORGENTEC under Section 3.3 be reduced to less than [***] percent ([***]%) of Net Sales of Initial Products in any calendar quarter. Within 7 days after Proprius has gained actual knowledge of such claim or request by a Third Party, Proprius shall notify ORGENTEC in writing of any such claim or request.

Each payment shall be accompanied by a report of Net Sales of Initial Products by Proprius and its Affiliates and Sublicense Revenue received from Sublicenses in sufficient detail to permit confirmation of the accuracy of the payment made, including, without limitation and on a country-by-country basis, the number and type of Initial Products sold, the gross sales and Net Sales of such Initial Products, consideration paid to Third Parties as described in Section 3.5, the amount and type of Sublicense Revenue received, the amounts payable to ORGENTEC hereunder, the method used to calculate such payments, and the exchange rates used.

If Cellatope or any of its Affiliates has any right to Acquired

Technology that cannot be assigned to Cypress or waived by Cellatope or such Affiliates, then, except as expressly set forth in Section 2.2(c) below, Cellatope unconditionally and irrevocably grants, and shall cause its Affiliates to unconditionally and irrevocably grant, to Cypress during the term of such rights, an exclusive, irrevocable, perpetual, worldwide, fully paid and royalty-free license, with rights to sublicense through multiple levels of sublicensees, to reproduce, create derivative works of, distribute, publicly perform and publicly display by all means now known or later developed, such rights.

(d) On or after the Closing Date (as requested by Cypress), Cellatope shall, and shall cause its Affiliates to: (a) execute and deliver to Cypress such bills of sale, endorsements, assignments and other documents as may (in the reasonable judgment of Cypress or its counsel) be necessary or appropriate to sell, assign, transfer, convey and deliver to Cypress good and valid title to the Acquired Assets free and clear of any Encumbrances, including, without limitation, assignment agreements with respect to the Acquired Patents and the Acquired Trademarks in the forms set out in **Exhibit F, Exhibit G** and **Exhibit O,** respectively, hereto; (b) deliver, or cause to be delivered, to Cypress or its designee all tangible items included in the Acquired Assets including all Information comprising Acquired Technology or, in the case of documents, complete and accurate copies thereof; and (c) deliver, or cause to be delivered, to Cypress or its designee complete and accurate copies of all Patents included in the Acquired Patents, other documentation in the possession or Control of Cellatope or any of its Affiliates regarding the Acquired Patents, a full, up-to-date, prosecution file wrapper for all Patents included in the Acquired Patents and any correspondence between Cellatope or any of its Affiliates and the U.S. Patent & Trademark Office or any foreign patent office with respect to the Acquired Patents.

(e) Following the Closing, the parties shall cooperate with each other to identify any assets that were not transferred as part of the Acquired Assets at the Closing but that, pursuant to the provisions of this Agreement, were required to be transferred (the "***Nontransferred Assets***"). To the extent any Nontransferred Assets are identified and Cellatope or any of its Affiliates, as applicable, is legally and contractually permitted to transfer such assets, Cellatope shall, and shall cause its Affiliates to, at no cost to Cypress, promptly take all actions to transfer such Nontransferred Assets to Cypress. In the event Cellatope or any of its Affiliates, as applicable, is required to obtain the Consent of any Person prior to the transfer of any Nontransferred Asset, then Cellatope shall, and shall cause its Affiliates to, at its or their own expense, use its commercially reasonable efforts to promptly obtain such Consent, and upon obtaining such Consent, shall promptly transfer such Nontransferred Asset to Cypress. In the event Cellatope or any of its Affiliates, as applicable, is unable to obtain such Consent, then Cellatope and Cypress shall discuss in good faith an appropriate resolution for the transfer of the economic benefit of such Nontransferred Asset to Cypress.

1.2 Assumption of Liabilities.

(a) For purposes of this Agreement "***Assumed Liabilities***" shall mean only the following liabilities of Cellatope:

(i) the obligations of Cellatope under the Acquired Contracts, but only to the extent such obligations (A) arise after the Closing Date, (B) do not arise from or relate to

any breach by Cellatope of any provision of any of such Acquired Contracts prior to or as of the Closing Date, (C) do not arise from or relate to any event, circumstance or condition occurring or existing on or prior to the Closing Date that, with notice or lapse of time, would constitute or result in a breach of any of such Acquired Contracts, and (D) do not arise from the failure to obtain any required Consent from any third party, if any, in connection with the assignment and transfer of such Acquired Contracts to Cypress pursuant to this Agreement;

(b) For purposes of this Agreement, all Liabilities not expressly included in the definition of Assumed Liabilities are referred to as "***Excluded Liabilities***."

1.3 Closing; Closing Date. The consummation of the Transactions (the "***Closing***") shall take place at the offices of Cooley Godward Kronish L.L.P, 4401 Eastgate Mall, San Diego, California 92121 at 10:00 a.m. Pacific Time on a date to be mutually agreed upon by Cypress and Cellatope which shall not be more than three business days after the date on which the last of the conditions set forth in Sections 7 and 8 (other than conditions which by their terms must be satisfied as of the Closing Date) has been satisfied or waived, or such other time and/or place as may be mutually agreed upon by Cypress and Cellatope, The date on which the Closing actually takes place is referred to in this Agreement as the "***Closing Date***."

2. CONSIDERATION

2.1 Closing Consideration.

(a) Subject to Section 2.3, as consideration for the sale of the Acquired Assets to Cypress, at the Closing, Cypress shall pay to Cellatope $2,000,000 in cash via wire transfer to an account designated by Cellatope in writing to Cypress not less than two business days prior to the Closing (the "***Closing Consideration***").

(b) Cellatope shall bear and pay, and shall reimburse Cypress and Cypress' Affiliates for, any sales, use, transfer or similar Taxes, or documentary charges, recording fees or similar charges, fees or expenses that may become payable in connection with (i) the sale of the Acquired Assets to Cypress pursuant to this Agreement and (ii) any of the other transactions contemplated by this Agreement or any of the Related Agreements to which Cellatope is a party ((i) and (ii) collectively, the "***Transactions***"), other than recording fees and similar costs (including attorneys and patent agent fees) related to filing the assignment of any Acquired Patents or Acquired Trademarks with the United States Patent and Trademark Office.

(c) The consideration referred to in Section 2 shall be allocated among the Acquired Assets in accordance with **Exhibit H** attached hereto. The allocation prescribed by such schedule shall be conclusive and binding upon Cypress and Cellatope for all purposes, and no party shall file any Tax Return or other document with, or make any statement or declaration to, any Governmental Body that is inconsistent with such allocation.

2.2 Milestone Consideration.

(a) Subject to Section 2.2(e) and Section 10.6, Cypress shall be obligated to pay to Cellatope $3,000,000 (as such amount may be offset pursuant to the provisions of Section 2.2(e) and Section 10.6, the "***Milestone Consideration***") upon the First Commercial Sale by

Cypress, any of its Affiliates or any Licensee of a Product for monitoring of Systemic Lupus Erythematosus (a "***Lupus Monitoring Product***") (the "***Milestone***"), with any such payment to be made in accordance with the provisions of Section 2.2(d). For avoidance of doubt, only a Product for monitoring of Systemic Lupus Erythematosus, and not any Product designed for diagnosis of Systemic Lupus Erythematosus without a monitoring function, shall constitute a Lupus Monitoring Product. Upon the achievement of the Milestone, Cypress shall notify Cellatope in writing (the "***Milestone Notice***") within 10 business days that the Milestone has been achieved and the date on which it was achieved. Within 20 business days of achievement of the Milestone, Cypress shall pay to Cellatope the Milestone Consideration in cash, as may be reduced pursuant to the terms of Section 2.2(e) and Section 10.6, by wiring or causing to be wired the Milestone Consideration to an account designated by Cellatope for such purpose in writing not less than two business days prior to the date on which the Milestone Consideration is to be paid.

(b) Cypress shall act in good faith and use commercially reasonable efforts to cause the Milestone to be achieved; *provided, however,* that the obligation of Cypress to use commercially reasonable efforts to achieve the Milestone shall not require that the Milestone ever be achieved if doing so, in any case, would require Cypress to use more than commercially reasonable efforts and, *provided, further,* that a termination of development by Cypress of all Lupus Monitoring Products pursuant to Section 2.2(c) below shall not be deemed a failure by Cypress to use, or otherwise violate Cypress' obligations to use, commercially reasonable efforts to develop a Lupus Monitoring Product, The parties acknowledge and agree that Cypress may terminate development of all Lupus Monitoring Products at any time if achieving the Milestone would require Cypress to use more than commercially reasonable efforts to do so, and that any such termination may occur without requiring that Cypress also terminate the Amended Pittsburgh License in accordance with Section 2.2(c) below. Cypress shall provide notice to Cellatope of its determination to terminate development of all Lupus Monitoring Products because achieving the Milestone would require Cypress to use more than commercially reasonable efforts to do so within 15 days of making such determination, including reasonable details supporting such determination and, in such case, Cypress shall comply with the provisions of Section 2.2(c)(ii) below. The parties further acknowledge and agree that nothing in this Agreement shall prohibit Cypress from engaging in a change of control-type transaction or a sale or license of all or any of the Acquired Assets, *provided* that in the event that Cypress desires to consummate a Change of Control after the Closing Date while the Milestone has not been attained but remains eligible to be attained, Cypress shall cause the Entity acquiring Cypress (or acquiring substantially all of its assets) with respect to a Change of Control (the "***Acquirer***") to assume Cypress' obligations under Section 2.2 of this Agreement, subject to all of the limitations and qualifications contained in Section 2.2 of this Agreement (including that such Acquirer use commercially reasonable efforts and the right of such Acquirer to terminate development of all Lupus Monitoring Products). With respect to any Change of Control, Cypress shall not consummate such Change of Control unless (i) Cypress remains liable for Cypress' payment obligations with respect to the Annual Payments and the Milestone Consideration and the Acquirer otherwise assumes Cypress' obligations in Section 2.2 in a form and substance reasonably acceptable to Cellatope *(provided,* that Cellatope's prior acceptance or approval shall not be required if such assumption is unqualified), in which case the parties acknowledge and agree that, following any such assumption (unless Cypress is merged with the Acquirer and remains the surviving Entity or becomes a subsidiary of the Acquirer), Cypress

shall have no further liability or obligation, whether primarily or secondarily, with respect to the obligations in Section 2.2 hereunder, except for the payment obligations with respect to the Annual Payments and the Milestone Consideration or (ii) the Acquirer is an Applicable Public Company and assumes Cypress' obligations under Section 2.2 of this Agreement in a form and substance reasonably acceptable to Cellatope *(provided,* that Cellatope's prior acceptance or approval shall not be required if such assumption is unqualified), in which case the parties acknowledge and agree that, following any such assumption (unless Cypress is merged with the Acquirer and remains the surviving Entity or becomes a subsidiary of the Acquirer), Cypress shall have no further liability or obligation, whether primarily or secondarily, with respect to the obligations in Section 2.2 hereunder, including the payment obligations with respect to the Annual Payments and the Milestone Consideration.

(i) For purposes of this Section 2.2(b), "commercially reasonable efforts" means the use of efforts, expertise and resources normally used by Cypress for other product candidates, which, as compared with the Product candidates for Lupus Monitoring Products acquired by Cypress in connection with the Transactions (the "***Lupus Monitoring Product Candidates***"), are of similar market potential at a similar stage in their development, taking into account all reasonable relevant factors affecting the cost, risk and timing of development and the total potential of the Lupus Monitoring Product Candidates, all as measured by the facts and circumstances at the time such efforts are due.

(ii) Cellatope may allege that Cypress is not using commercially reasonable efforts to achieve the Milestone at any time by providing written notice to Cypress to such effect, including reasonable details supporting such allegation, and setting forth specific reasonable actions that Cellatope requests that Cypress take with respect to its efforts to achieve the Milestone. If Cellatope provides any such notice, each party shall appoint an executive officer or other authorized person to discuss, and attempt to resolve, the alleged failure to perform to both parties' satisfaction. These Persons shall, by phone or in person, discuss the alleged failure to perform in good faith within 15 days after Cellatope provides the applicable notice. If, within 30 days after Cellatope provides the applicable notice, the two executive officers have not reached a mutually acceptable resolution to the alleged failure to perform, Cellatope may submit the matter to arbitration conducted by one arbitrator mutually agreeable to Cypress and Cellatope, In the event that, within 30 days after submission of any dispute to arbitration, Cypress and Cellatope cannot mutually agree on one arbitrator, then the parties shall arrange for the American Arbitration Association to designate a single arbitrator in accordance with the rules of the American Arbitration Association. Any such arbitration shall be held in San Diego County, California, under the rules and procedures then in effect of the American Arbitration Association. The arbitrator shall determine how all expenses relating to the arbitration shall be paid, including the respective expenses of each party, the fees of the arbitrator and the administrative fee of the American Arbitration Association. The arbitrator shall set a limited time period and establish procedures designed to reduce the cost and time for discovery while allowing Cypress and Cellatope an opportunity, adequate in the sole judgment of the arbitrator, to discover relevant information from the opposing party about the alleged failure to perform. The arbitrator shall rule upon motions to compel or limit discovery and shall have the authority to impose sanctions, including attorneys' fees and costs, to the same extent as a competent court of law or equity, should the arbitrator determine that discovery was sought without substantial justification or that discovery was refused or objected to without substantial

justification. The arbitrator's decision shall be limited to the precise question of whether Cypress has used commercially reasonable efforts to achieve the Milestone and the specific actions, if any, to be taken by Cypress that are necessary for Cypress to meet its obligation to use such commercially reasonable efforts, and shall be subject to the limitations set forth in this Agreement and be final, binding and conclusive upon the parties. The parties acknowledge and agree that Cypress may, in lieu of taking the actions, if any, specified by the arbitrator as being necessary for Cypress to meet its obligation to use commercially reasonable efforts, pay to Cellatope the Milestone Consideration in accordance with this Section 2. The arbitrator's decision shall be written and shall be supported by written findings of fact and conclusions. The parties acknowledge and agree that the dispute resolution mechanism and remedy set forth in this Section 2.2(b)(ii) shall be the sole and exclusive method of dispute resolution and remedy available to the parties with respect to disputes arising under Section 2.2(b), and that the provisions of Section 10 shall be inapplicable to any dispute arising under Section 2.2(b).

(c) The parties also acknowledge and agree that, subject to Section 2.2(c)(i) and (ii) below, Cypress may terminate development of all Lupus Monitoring Products at any time by terminating the Amended Pittsburgh License in accordance with its terms and conditions, and, upon such termination, Cypress' obligations to use commercially reasonable efforts to cause the Milestone to be achieved under Section 2.2(b) shall terminate. In the event that Cypress terminates development of all Lupus Monitoring Products, Cypress shall:

(i) if such termination occurs in connection with the termination of the Amended Pittsburgh License, provide the University of Pittsburgh and Cellatope with written notice not less than 10 days prior thereto of its intent to terminate the Amended Pittsburgh License in accordance with its terms and conditions; and

(ii) take such reasonable actions as may be requested by Cellatope, at Cellatope's cost and expense, to transfer to Cellatope any discoveries, know-how, data and technical information owned, Controlled or developed by Cypress related to any Lupus Monitoring Product and necessary for the development or commercialization of such Lupus Monitoring Product (the "***Cypress IP***"); *provided, however;* that to the extent that Cypress determines, in its reasonable discretion, that any such Cypress IP relates to any product developed by Cypress, being developed by Cypress or that Cypress reasonably expects to develop, Cypress shall retain ownership or control rights in such Cypress IP such that Cypress shall be entitled to retain and use such Cypress IP for its independent use and Cypress shall be deemed to have granted to Cellatope a perpetual, royalty-free limited license to use such Cypress IP solely for use in developing and commercializing Lupus Monitoring Products, all on such other terms to be agreed to by the parties.

(d) During the time that Cypress is actively developing any Lupus Monitoring Product, upon request of Cellatope, but not more frequently than once every two calendar quarters, Cypress shall provide Cellatope with a written summary describing in reasonable detail the status of achieving the Milestone. Any summaries or other information provided by Cypress to Cellatope pursuant to this Section 2.2(d) shall be governed by the Mutual Non-Disclosure Agreement dated April 21, 2008 by and between Cypress and Cellatope (the "***Confidentiality Agreement***").

(e) In the event that Cypress has not (1) achieved the Milestone or (ii) terminated development of all Lupus Monitoring Products pursuant to Section 2.2(b) or Section 2 2(c) above on or before December 31, 2011, Cypress shall pay to Cellatope an annual payment of $250,000 in cash (in the manner directed by Section 2.1) on January 1 of each year (each an "***Annual Payment***") beginning on January 1, 2012 and continuing until the earlier of: (i) January 1, 2016, (ii) Cypress' achievement of the Milestone or (iii) Cypress' termination of development of all Lupus Monitoring Products pursuant Section 2.2(b) or Section 2.2(c) above. In the event that the Milestone is achieved following the payment of one or more Annual Payments, the Milestone Consideration (as may be further reduced pursuant to Section 10.6) shall be reduced by the aggregate amount of all Annual Payments made as of the date such Milestone Consideration is paid. The amount of each Annual Payment is also subject to reduction pursuant to the provisions of Section 10.6 herein.

(f) All cash payments hereunder shall be payable in U.S. dollars.

(g) During the period beginning on the Closing Date and ending on the earlier of the payment of the Milestone Consideration or the termination of development of all Lupus Monitoring Products (the "***Payment Period***"), Cypress shall keep (and shall cause its Affiliates and Licensees to keep) records pertaining to the development of Lupus Monitoring Products in sufficient detail to permit Cellatope to confirm whether the Milestone has been achieved and the accuracy and completeness of any summaries provided pursuant to Section 2.2(d). Such records shall be maintained for a period of at least one year after the Payment Period (and for the duration of any period in which the process contemplated by Section 2.2(b)(ii) shall be pending). During the Payment Period and for one year thereafter, Cellatope shall have the right to inspect such records, which inspection rights may be exercised during normal business hours upon reasonable prior written notice to Cypress and, in each case, no more than once a calendar year. Cellatope shall bear the full cost of any such inspection, unless such inspection discloses a payment failure by Cypress of the Milestone Consideration payable under Section 2.2(a), in which case, Cypress shall bear the reasonable cost of the inspection. Information disclosed pursuant to this Section 2.2(g) shall be governed by the Confidentiality Agreement.

2.3 Escrow; Release from Escrow of Cash; Innovation Works Holdback.

(a) Upon the Closing, Cypress shall withhold, from the Closing Consideration otherwise payable to Cellatope pursuant to Section 2.1, cash equal to $200,000 (the "***Escrow Fund***," and the amounts contained in the Escrow Fund being referred to as the "***Escrow Funds***"). The contents of the Escrow Fund shall be delivered to Bank of America, National Association as escrow agent (the "***Escrow Agent***"). The Escrow Fund shall be held pursuant to the provisions of an escrow agreement substantially in the form of **Exhibit I** (the "***Escrow Agreement***") The Escrow Fund shall be held exclusively by the Escrow Agent.

(b) The Escrow Fund shall be held in the name of the Escrow Agent as collateral to secure the rights of the Cypress Indemnitees under Section 10 hereof for a period of time ending on the date that is 18 months after the Closing Date (the "***Escrow Claim Period***"); *provided, however·*, that in the event any Cypress Indemnitee has timely made a Claim in accordance with the terms of Section 10 that remains unresolved at the end of the Escrow Claim Period, then such claim shall survive the end of the Escrow Claim Period until such time as such

claim is fully and finally resolved. Notwithstanding the foregoing, Indemnification Demands made by Cypress Indemnitees relating to any alleged breach of any of the representations and warranties in Section 3.5 (Intellectual Property) of this Agreement may be made until the earlier of payment of the Milestone Consideration or the Holdback Payment Date; *provided, however,* that in the event any Cypress Indemnitee has timely made a Claim relating to any alleged breach of any of the representations and warranties in Section 3.5 (Intellectual Property) of this Agreement that remains unresolved on the date of the earlier of payment of the Milestone Consideration or the Holdback Payment Date, then such claim shall survive beyond payment of the Milestone Consideration or the Holdback Payment Date, as applicable, until such time as such claim is fully and finally resolved. If on or prior to the expiration of the Escrow Claim Period, any Cypress Indemnitee has made an Indemnification Demand containing a claim which has not been resolved prior to the expiration of the Escrow Claim Period in accordance with Section 10 and the Escrow Agreement, the Escrow Agent shall retain in the Escrow Account after the expiration of the Escrow Claim Period, Escrow Funds having an aggregate value equal to the Asserted Damages Amount or contested portion of the Asserted Damages Amount, as the case may be, with respect to all claims which have not then been resolved. If on or prior to the earlier of the payment of the Milestone Consideration or the Holdback Payment Date, any Cypress Indemnitee has made an Indemnification Demand containing a claim relating to any alleged breach of any of the representations and warranties in Section 3.5 (Intellectual Property) of this Agreement which has not been resolved prior to the earlier of the payment of the Milestone Consideration or the Holdback Payment Date, Cypress shall be entitled to retain after the earlier of the payment of the Milestone Consideration or the Holdback Payment Date, Set-Off Funds having an aggregate value equal to the Asserted Damages Amount or contested portion of the Asserted Damages Amount, as the case may be, with respect to all such claims which have not then been resolved.

(c) In addition to the Escrow Funds, upon the Closing, Cypress shall pursuant to the Innovation Works Agreement withhold from the Closing Consideration otherwise payable to Cellatope pursuant to Section 2.1, an amount of cash equal to $487,100.00 (the "***Innovation Works Holdback***"), In the event that Cypress has not received the IW Holdback Notice (as defined in the Innovation Works Agreement) from Innovation Works prior to the date (the "***Holdback Release Date***") that is four months following the termination of the Reporting Period (as defined in the Innovation Works Agreement), subject to the provisions of the Innovation Works Agreement, Cypress shall pay to Cellatope the Innovation Works Holdback in cash within ten business days after the Holdback Release Date (the "***Holdback Payment Date***").

(d) In the event that this Agreement is approved by Cellatope Stockholders, then all such Cellatope Stockholders shall, without any further act of any Cellatope Stockholder, be deemed to have consented to and approved (i) the use of the Escrow Fund as collateral to secure the rights of the Cypress Indemnitees to be indemnified for Damages under Section 10, as well as the potential set-off against the Annual Payments and the Milestone Consideration by the Cypress Indemnitees (up to the maximum amount set forth in Section 10.2(b)) to secure such rights and provide for such potential Damages, in each case under Section 10 in the manner set forth herein and in the Escrow Agreement and (ii) the withholding of the Innovation Works Holdback from the Closing Consideration for the purpose of making the payment contemplated in the Innovation Works Agreement, which payment would become due and payable to Innovation Works under the circumstances set forth in the Innovation Works Agreement.

8.1 Accuracy of Representations. (a) by mutual written consent of Cypress and Cellatope;

(e) by Cellatope if any of Cypress' representations and warranties contained in this Agreement shall have been materially inaccurate as of the date of this Agreement or shall have become materially inaccurate as of any subsequent date (as if made on such subsequent date), or if any of Cypress' covenants contained in this Agreement shall have been breached in any material respect; *provided, however*, that Cellatope may not terminate this Agreement under this Section 9.1(e) on account of an inaccuracy in Cypress' representations and warranties or on account of a breach of a covenant by Cypress if such inaccuracy or breach is curable unless Cypress fails to cure such inaccuracy or breach within 5 days after receiving written notice from Cellatope of such inaccuracy or breach; or

(f) by Cypress or Cellatope if the Closing has not taken place on or before February 23, 2009 (the "***Termination Date***") (other than as a result of any failure on the part of

the party attempting to terminate this Agreement to comply with or perform any of its covenants or obligations set forth in this Agreement).

9.2 Termination Procedures. If either party wishes to terminate this Agreement pursuant to Section 9.1, it shall deliver to the other party a written notice stating that it is terminating this Agreement and setting forth a brief description of the basis on which it is terminating this Agreement.

If this Agreement is terminated pursuant to Section 9.1, all further obligations of the parties under this Agreement shall terminate; *provided*, *however,* that: (a) neither Cellatope nor Cypress shall be relieved of any obligation or liability arising from any inaccuracy or prior breach by such party of any representation, warranty, covenant or other provision of this Agreement and (b) the parties shall, in all events, remain bound by and continue to be subject to the provisions set forth in Section 11.

10. INDEMNIFICATION, ETC.

10.1 Survival of Representations, Etc.

(a) The representations and warranties made by Cellatope in this Agreement (including the Cellatope Disclosure Schedule), Cellatope Compliance Certificate or in the certificate provided pursuant to Section 7.5(vi) shall survive the Closing and expire at the termination of the Escrow Claim Period; *provided*, *however*, that (A) if, at any time prior to the end of the Escrow Claim Period, any Cypress Indemnitee delivers to Cellatope a written notice alleging the existence of an inaccuracy in or a breach of any of the representations and warranties made by Cellatope for which the Escrow Claim Period has not expired (and setting forth in reasonable detail the basis for such Cypress Indemnitee's belief that such an inaccuracy or breach may exist) and asserting a claim for recovery under Section 10.2 based on such alleged inaccuracy or breach, then the representation or warranty underlying the claim asserted in such notice shall survive the end of the Escrow Claim Period until such time as such claim is fully and finally resolved, for the sole purpose of remaining in effect in order to permit such claim to be fully and finally resolved; and (B) the representations and warranties in Section 3.5 (Intellectual Property) shall survive until the earlier of the payment of the Milestone Consideration or the Holdback Payment Date; *provided*, *however*, that if, at any time prior to the earlier of the payment of the Milestone Consideration or the Holdback Payment Date, any Cypress Indemnitee delivers to Cellatope a written notice alleging the existence of an inaccuracy in or a breach of any of the representations and warranties made by Cellatope in Section 3.5 (Intellectual Property) (and setting forth in reasonable detail the basis for such Cypress Indemnitee's belief that such an inaccuracy or breach may exist) and asserting a claim for recovery based on such alleged inaccuracy or breach, then the representation or warranty underlying the claim asserted in such notice shall survive the earlier of the payment of the Milestone Consideration or the Holdback Payment Date until such time as such claim is fully and finally resolved, for the sole purpose of remaining in effect in order to permit such claim to be fully and finally resolved. All representations and warranties made by Cypress shall survive the Closing and expire at the termination of the Escrow Claim Period. All of the covenants, agreements and obligations of the parties contained in this Agreement or any other document, certificate, schedule or instrument delivered or executed in connection herewith shall survive (i) until fully performed or fulfilled,

unless non-compliance with such covenants, agreements or obligations is waived in writing by the party or parties entitled to such performance or (ii) if not fully performed or fulfilled, until the expiration of the relevant statute of limitations.

(b) The representations, warranties, covenants and obligations of Cellatope, and the rights and remedies that may be exercised by the Cypress Indemnitees, shall not be limited or otherwise affected by or as a result of any information furnished to, or any investigation made by or knowledge of, any of the Cypress Indemnitees or any of their Representatives. The parties recognize and agree that the representations and warranties also operate as bargained for promises and risk allocation devices and that, accordingly, any party's knowledge, and the waiver of any condition based on the accuracy of any representation or warranty, or on the performance of or compliance with any covenant or obligation, shall not affect the right to indemnification or payment of Damages pursuant to this Section 10, or other remedy based on such representations, warranties, covenants, and obligations,

(c) For purposes of this Section 10, each statement or other item of information set forth in the Cellatope Disclosure Schedule shall be deemed to be a representation and warranty or a qualification to a representation or warranty, as the case may be, made by Cellatope in this Agreement.

10.2 Indemnification by the Parties.

(a) From and after the Closing Date (but subject to Section 10.1(a) and the limitations set forth in Section 10.3 below), each Cypress Indemnitee shall be held harmless and shall be indemnified from and against, and shall be compensated, reimbursed and paid for, any Damages which are directly or indirectly suffered or incurred by any Cypress Indemnitee or to which any Cypress Indemnitee may otherwise become subject (regardless of whether or not such Damages relate to any third-party claim) and which arise from or as a result of, or are directly or indirectly connected with: (i) any inaccuracy in or breach or (in the case of a third-party claim that, if determined in favor of the applicable third party, would result in a breach) alleged breach of any representation or warranty of Cellatope set forth in this Agreement, in the Cellatope Compliance Certificate, or in the certificate provided pursuant to Section 7.5(vi) (without giving effect, in each case, to any information provided by Cellatope pursuant to Section 62); (ii) any breach or (in the case of a third-party claim that, if determined in favor of the applicable third party, would result in a breach) alleged breach of any covenant or obligation of Cellatope set forth in this Agreement (including the covenants set forth in Sections 5 and 6) to be performed on or prior to Closing (without giving effect, in each case, to any information provided by Cellatope pursuant to Section 6.2), (iii) any Excluded Liability, (iv) any Liability incurred pursuant to any applicable bulk sale law or based on noncompliance therewith or (v) any Legal Proceeding relating to any inaccuracy or breach of the type referred to in clauses (i) or (ii) or relating to clauses (iii) or (iv) above (including any Legal Proceeding commenced by any Cypress Indemnitee for the purpose of enforcing any of its rights under this Section 10 if a Cypress Indemnitee is the prevailing party therein).

(b) In the event any Cypress Indemnitee shall suffer any Damages for which such Cypress Indemnitee is entitled to indemnification under this Section 10 (as determined pursuant to Section 10.5), such Cypress Indemnitee shall be entitled to recover such Damages

by, first, obtaining the amount of Escrow Funds, if any, equal in value to the aggregate amount of such Damages, and, second, once no Escrow Funds remain in the Escrow Fund pursuant to depletion of the Escrow Funds or expiration of the Escrow Claim Period, and only in the case of inaccuracies in or breaches or (in the case of a third-party claim that, if determined in favor of the applicable third party, would result in a breach) alleged breaches of any of the representations and warranties in Section 3.5 (Intellectual Property), by setting off the amount of such Damages (or the remaining amount of such Damages, after giving effect to any amounts obtained for such Damages from the Escrow Fund) up to a maximum of $300,000 payable pursuant to all set-offs (the "***Set-Off Funds***") first against the next Annual Payment to come due, if applicable and second against any Milestone Consideration remaining to be paid, in accordance with Section 10.6. Any such set off against an Annual Payment or against Milestone Consideration shall be paid in cash. Claims for Set-off Funds made by the Cypress Indemnitees relating to any alleged breach of any of the representations and warranties in Section 3.5 (Intellectual Property) of this Agreement may be made until the earlier of the payment of the Milestone Consideration or the Holdback Payment Date. If at any time prior to the earlier of the payment of the Milestone Consideration or the Holdback Payment Date, any Cypress Indemnitee delivers to Cellatope a written notice alleging the existence of an inaccuracy in or a breach of any of the representations and warranties made by Cellatope in Section 3.5 (Intellectual Property) (and setting forth in reasonable detail the basis for such Cypress Indemnitee's belief that such an inaccuracy or breach may exist) and asserting a claim for recovery based on such alleged inaccuracy or breach, then the representation or warranty underlying the claim asserted in such notice shall survive the earlier of the payment of the Milestone Consideration or the Holdback Payment Date until such time as such claim is fully and finally resolved, for the sole purpose of remaining in effect in order to permit such claim to be fully and finally resolved. In addition to the foregoing, in the case of fraud or intentional misrepresentation, the Cypress Indemnitees shall be entitled to bring suit for and recover Damages without any limitation against Cellatope and against any other Person who committed or participated in such fraud or intentional misrepresentation.

(c) From and after the Closing Date (but subject to Section 10.1(a) and the limitations set forth in Section 10.3 below), each Cellatope Indemnitee shall be held harmless and shall be indemnified by Cypress from and against, and shall be compensated, reimbursed and paid for, any Damages which are directly or indirectly suffered or incurred by any Cellatope Indemnitee or to which any Cellatope Indemnitee may otherwise become subject (regardless of whether or not such Damages relate to any third-party claim) and which arise from or as a result of, or are directly or indirectly connected with: (i) any inaccuracy in or breach or (in the case of a third-party claim that, if determined in favor of the applicable third party, would result in a breach) alleged breach of any representation or warranty of Cypress set forth in this Agreement, in the Cypress Compliance Certificate, or in the certificate provided pursuant to Section 8.3 (without giving effect, in each case, to any information provided by Cypress pursuant to Section 6.2); (ii) any breach or (in the case of a third-party claim that, if determined in favor of the applicable third party, would result in a breach) alleged breach of any covenant or obligation of Cypress set forth in this Agreement (including the covenants set forth in Section 6) to be performed on or prior to Closing (without giving effect, in each case, to any information provided by Cypress pursuant to Section 6.2), (iii) any Assumed Liability or (iv) any Legal Proceeding relating to any inaccuracy or breach of the type referred to in clauses (i) or (ii) or relating to clause (iii) above (including any Legal Proceeding commenced by any Cellatope

Indemnitee for the purpose of enforcing any of its rights under this Section 10 if a Cellatope Indemnitee is the prevailing party therein).

10.3 Threshold/Limitations.

(a) Subject to Section 10.3(b), the Cypress Indemnitees shall not be entitled to any indemnification payment pursuant to Section 10.2(a)(i) (and under Section 10.2(a)(v) with respect to a Legal Proceeding relating to a claim under Section 10.2(a)(i)), until such time as the total amount of all Damages that have been directly or indirectly suffered or incurred by any one or more of the Cypress Indemnitees, or to which any one or more of the Cypress Indemnitees has or have otherwise become subject, exceeds $10,000 in the aggregate (the "***Threshold***"). If the total amount of such Damages exceeds the Threshold, then the Cypress Indemnitees shall be entitled to be indemnified against and compensated and reimbursed for the full amount of such Damages, including the amount of the Threshold.

(b) The limitations that are set forth in Section 10.3(a) shall not apply in the case of fraud or intentional misrepresentation.

(c) Subject to Section 10.3(d), the Cellatope Indemnitees shall not be entitled to any indemnification payment pursuant to Section 10.2(c)(i) (and under Section 10.2(c)(iv) with respect to a Legal Proceeding relating to a claim under Section 10.2(c)(i)), until such time as the total amount of all Damages that have been directly or indirectly suffered or incurred by any one or more of the Cellatope Indemnitees, or to which any one or more of the Cellatope Indemnitees has or have otherwise become subject, exceeds the Threshold. If the total amount of such Damages exceeds the Threshold, then the Cellatope Indemnitees shall be entitled to be indemnified against and compensated and reimbursed for the full amount of such Damages, including the amount of the Threshold, *provided*, *however*, that, notwithstanding the foregoing, the maximum aggregate liability of Cypress to the Cellatope Indemnitees for Damages under Section 10.2(c) shall equal ten percent of the Closing Consideration, Milestone Consideration and Annual Payments required to be paid to Cellatope pursuant to Section 2 of this Agreement at any time, and Cypress shall have no obligation under Section 10.2(c) to indemnify the Cellatope Indemnitees for Damages in excess of such amount.

(d) The limitations set forth in Section 10.3(c) shall not apply in the case of fraud or intentional misrepresentation.

10.4 Defense of Third Party Claims.

(a) In the event of the assertion or commencement by any Person of any claim or Legal Proceeding (whether against Cypress, Cellatope or against any other Person) with respect to which any of the Cypress Indemnitees or Cellatope Indemnitees may be entitled to indemnification pursuant to this Section 10, the Cypress Indemnitee(s) or Cellatope Indemnitee(s) seeking indemnification (the "***Indemnified Person***") shall promptly give the party obligated to provide indemnification under this Section 10 (the "***Indemnifying Person***") and, with respect to Indemnification Demands made by Cypress Indemnitees, the Escrow Agent, written notice (a "***Claim Notice***") of such claim (a "***Claim***") or Legal Proceeding. If the contents and delivery of a Claim Notice satisfy the content and delivery requirements of an

Indemnification Demand pursuant to Section 10.5, then such Claim Notice shall also be deemed to be an Indemnification Demand. The Claim Notice shall be accompanied by reasonable supporting documentation submitted by the third party making such Claim (to the extent then in the possession of the Indemnified Person) and shall describe in reasonable detail (to the extent known by the Indemnified Person) the facts constituting the basis for such Claim and the amount of the claimed Damages; *provided*, *however*, that no delay or failure on the part of the Indemnified Person in delivering a Claim Notice shall relieve the Escrow Fund, any applicable Annual Payment or the Milestone Consideration or the Indemnifying Person, as applicable, from any indemnification liability hereunder except to the extent such failure materially prejudices the defense of such Claim or Legal Proceeding. The Indemnified Person shall have the right, at its election, to proceed with the defense of such Claim or Legal Proceeding on its own.

(b) Within 30 days of delivery of the Claim Notice, if the Indemnified Person has not elected to proceed with the defense of such Claim or Legal Proceeding on its own, the Indemnifying Person may elect (by written notice delivered to the Indemnified Person) to take all necessary steps to contest any Claim or Legal Proceeding involving third parties or to prosecute such Claim or Legal Proceeding to conclusion or settlement. If the Indemnifying Person makes the foregoing election, the Indemnified Person will have the right to participate at its own expense in all proceedings. If the Indemnifying Person does not make such election within such period or fails to diligently contest such Claim or Legal Proceeding after such election, then the Indemnified Person shall be free to handle the prosecution or defense of any such Claim or Legal Proceeding, and will take all necessary steps to contest the Claim or Legal Proceeding involving third parties or to prosecute such Claim or Legal Proceeding to conclusion or settlement, and will notify the Indemnifying Person of the progress of any such Claim or Legal Proceeding, will permit the Indemnifying Person, at the sole cost of such Indemnifying Person, to participate in such prosecution or defense and will provide the Indemnifying Person with reasonable access to all relevant information and documentation relating to the Claim or Legal Proceeding and the prosecution or defense thereof. If the Indemnified Person proceeds with the defense of any such Claim or Legal Proceeding on its own in accordance with the last sentence of Section 10.4(a), all of the Indemnified Person's expenses relating to the defense of such Claim or Legal Proceeding shall constitute Damages and be eligible for indemnification in accordance with, and subject to the terms and limitations of, this Section 10.

(c) Neither party will compromise or settle any such Claim or Legal Proceeding without the written consent of either the Indemnified Person (if the Indemnifying Person defends the Claim or Legal Proceeding) or the Indemnifying Person (if the Indemnified Person defends the Claim or Legal Proceeding), such consent not to be unreasonably withheld. In any case, the party not in control of the Claim or Legal Proceeding will cooperate with the other party in the conduct of the prosecution or defense of such Claim or Legal Proceeding. In the event that an Indemnified Person delivers a Claim Notice in connection with a claim for indemnification with respect to third party claims for which the procedures set forth in Section 10.4(a), (b) and (c) have been followed, the Indemnified Person shall comply with the procedures set forth in Section 10.5(a), (b), (c) and (d) hereof and in the Escrow Agreement. Any such procedures shall be in addition to and not in lieu of the indemnification procedures set forth in Section 10.4(a), (b) and (c).

10.5 Indemnification Claims.

(a) In order for any Indemnified Person to seek indemnification under this Section 10, such Indemnified Person shall deliver, in good faith, a written demand (an "***Indemnification Demand***") to the Indemnifying Person and, in the case of the Cypress Indemnitees, to the Escrow Agent, which contains (i) a description and the amount (the "***Asserted Damages Amount***") of any Damages incurred or reasonably expected to be incurred by the Indemnified Person, (ii) a statement that the Indemnified Person is entitled to indemnification under this Section 10 for such Damages and a reasonable explanation of the basis therefor, and (iii) a demand for payment in the amount of such Damages.

(b) Within 20 days after delivery of an Indemnification Demand, the Indemnifying Person shall deliver to the Indemnified Person a written response (the "***Response***") in which the Indemnifying Person shall: (i) agree that the Indemnified Person is entitled to receive all of the Asserted Damages Amount, and, in the case of an Indemnification Demand made by a Cypress Indemnitee, the Indemnified Person and the Indemnifying Person shall deliver to the Escrow Agent, within three days following the delivery of the Response, a written notice executed by both such parties instructing the Escrow Agent to disburse the full Asserted Damages Amount to the extent of the remaining Escrow Funds to the Indemnified Person; (ii) agree that the Indemnified Person is entitled to receive part, but not all, of the Asserted Damages Amount (such portion, the "***Agreed Portion***"), and, in the case of an Indemnification Demand made by a Cypress Indemnitee, the Indemnified Person and the Indemnifying Person shall deliver to the Escrow Agent, within three days following the delivery of the Response, a written notice executed by both such parties instructing the Escrow Agent to disburse the Agreed Portion to the extent of the remaining Escrow Funds to the Indemnified Person; or (iii) dispute that the Indemnified Person is entitled to receive any of the Asserted Damages Amount.

(c) In the event that the Indemnifying Person shall (i) dispute that the Indemnified Person is entitled to receive any of the Asserted Damages Amount, or (ii) agrees that the Indemnified Person is entitled to only the Agreed Portion of the Asserted Damages Amount, the Indemnified Person and the Indemnifying Person shall attempt in good faith to agree upon the rights of the respective parties with respect to each of the indemnification claims that comprise the Asserted Damages Amount (or the portion of the Asserted Damages Amount not comprising the Agreed Portion). If the Indemnified Person and the Indemnifying Person should so agree, a memorandum setting forth such agreement shall be prepared and signed by both such parties and, in the case of an Indemnification Demand made by a Cypress Indemnitee, shall be furnished to the Escrow Agent. If no such agreement can be reached after good faith negotiation within 60 days after delivery of a Response, either the Indemnified Person or the Indemnifying Person may demand arbitration of any matter set forth in the applicable Indemnification Demand.

(d) If no agreement is reached, the matter shall be settled by arbitration conducted by one arbitrator mutually agreeable to the Indemnified Person and the Indemnifying Person. In the event that, within thirty days after submission of any dispute to arbitration, the Indemnified Person and the Indemnifying Person cannot mutually agree on one arbitrator, then the parties shall arrange for the American Arbitration Association to designate a single arbitrator' in accordance with the rules of the American Arbitration Association. Any such arbitration shall

be held in San Diego County, California, under the rules and procedures then in effect of the American Arbitration Association. The arbitrator shall determine how all expenses relating to the arbitration shall be paid, including the respective expenses of each party, the fees of the arbitrator and the administrative fee of the American Arbitration Association. The arbitrator shall set a limited time period and establish procedures designed to reduce the cost and time for discovery while allowing the Indemnified Person and the Indemnifying Person an opportunity, adequate in the sole judgment of the arbitrator to discover relevant information from the opposing parties about the subject matter of the dispute. The arbitrator shall rule upon motions to compel or limit discovery and shall have the authority to impose sanctions, including attorneys' fees and costs, to the same extent as a competent court of law or equity, should the arbitrator determine that discovery was sought without substantial justification or that discovery was refused or objected to without substantial justification. Such decision shall be written and shall be supported by written findings of fact and conclusions which shall set forth the award, judgment, decree or order awarded by the arbitrator. All payments required by the arbitrator shall be made within thirty days after the decision of the arbitrator is rendered. Judgment upon any award rendered by the arbitrator may be entered in any court having jurisdiction.

10.6 Setoff Rights. Cypress may withhold and set off against any amounts due Cellatope with respect to first, any Annual Payment and second, the Milestone Consideration, up to the maximum amount of Set-Off Funds, as to which any Cypress Indemnitee is entitled to indemnification pursuant to Section 10.2 with respect to inaccuracies in or breaches or (in the case of a third-party claim that, if determined in favor of the applicable third party, would result in a breach) alleged breaches of any of the representations and warranties in Section 3.5 (Intellectual Property), subject to the limitations in Section 10.3. Cypress and Cellatope shall follow the procedures set forth in Sections 10.4 and 10.5 for handling indemnification claims (both based on third-party suits and directly) between the parties in the event Cypress seeks to set off any amounts against any Annual Payment or the Milestone Consideration under this Section 10.6, subject to appropriate adjustment to reflect that neither the Escrow Agent nor the Escrow Fund will be involved in the resolution of such indemnification claims. Any claim by a Cypress Indemnitee hereunder must be satisfied first from the Escrow Fund in accordance with the procedures set forth in Section 10, second as a set-off against any Annual Payment and third as a set-off against any amounts of the Milestone Consideration due Cellatope.

10.7 Exercise of Remedies by Cypress Indemnitees Other Than Cypress. No Cypress Indemnitee (other than Cypress or any successor thereto or assign thereof) shall be permitted to assert any indemnification claim or exercise any other remedy under this Agreement unless Cypress (or any successor thereto or assign thereof) shall have consented to the assertion of such indemnification claim or the exercise of such other remedy.

10.8 Exclusive Remedy. From and after the Closing Date and except as expressly provided in Section 11.10, the parties hereto acknowledge and agree that the indemnification provisions of this Section 10 shall be the sole and exclusive remedy of the Indemnified Persons with respect to any and all claims based upon, arising out of, or otherwise in respect of this Agreement, except with respect to claims for fraud or intentional misrepresentation. For the

avoidance of doubt, the Cypress Indemnitees' sole recourse for the indemnification provided by this Section 10 shall be to the Escrow Fund and the Set-Off Funds then-available, pursuant to the procedures and limitations set forth in this section, *provided*, that in the event of Claims involving fraud or intentional misrepresentation, the Cypress Indemnitees and Cellatope Indemnitees shall be entitled to bring suit for and recover Damages without any limitation against Cellatope or Cypress (as applicable) and against any other Person who committed or participated in such fraud or intentional misrepresentation.

The parties acknowledge and agree that except as expressly provided in Sections 3 and 4 or in the Cellatope Compliance Certificate, or in the certificate provided pursuant to Section 7.5(vi), or in the certificate provided by Cypress pursuant to Section 8.3 or in any other Related Agreement, no party hereto, and none of the Representatives of any party hereto, has made or is making any representations or warranties whatsoever, implied or otherwise.

11.12 Amendments. This Agreement may not be amended, modified, altered or supplemented other than by means of a written instrument duly executed and delivered on behalf of all of the parties hereto.

AMENDMENT NO. ONE TO ASSET PURCHASE AGREEMENT BETWEEN CYPRESS BIOSCIENCE, INC. AND CELLATOPE CORPORATION

This Amendment No. One is made as of this 14th day of December by and between Exagen Diagnostics, Inc. ("Exagen"), a Delaware corporation and successor-in-interest to Cypress Bioscience, Inc. ("Cypress"), and Cellatope Corporation Liquidating Trust (the "Trust"), a trust formed pursuant to a certain Agreement and Declaration of Trust dated February 27, 2009 between Cellatope Corporation ("Cellatope") and the Trustee and successor-in-interest to Cellatope, which, with Cypress, was party to that certain Asset Purchase Agreement, dated as of February 9, 2009 (the "Agreement"). Each of Exagen and the Trust is sometimes referred to herein as a "party," and together Exagen and the Trust are sometimes referred to herein as "parties." Capitalized terms used but not defined herein shall have the respective meanings given to such terms in the Agreement.

RECITALS

WHEREAS, pursuant to the Agreement, Cypress purchased from Cellatope the Acquired Assets, which included certain assets and rights with respect to, or necessary for the manufacture, use or sale of, any Lupus Monitoring Product;

WHEREAS, pursuant to the Agreement, Exagen, as the successor in interest to Cypress, is obligated, under certain circumstances, to make payments to the Trust, including the Annual Payments, as the successor-in-interest to Cellatope; and

WHEREAS, in consideration of the Trust's willingness to forgo receipt of any Annual Payments under the Agreement in connection with this Amendment No. One, the parties wish to amend certain provisions of the Agreement;

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereby agree as follows:

1. Amendment and Restatement of Section 2.2(a). Section 2.2(a) of the Agreement is amended and restated to read as follows:

2.2 Milestone Consideration.

(a) Within 10 business days after the First Commercial Sale by Cypress, any of its Affiliates or any Licensee of a Product for monitoring of Systemic Lupus Erythematosus (a "***Lupus Monitoring Product***") (the "***Milestone***"), Cypress shall notify Cellatope in writing (the "***Milestone Notice***") that the Milestone has been achieved and the date on which it was achieved. Within 20 business days of achievement of the Milestone, Cypress shall issue to Cellatope a promissory note (the "***Note***") in the principal amount of $[***] (subject to any reduction in such amount pursuant to Section 10.6), the form of which is attached

hereto as Exhibit A-1. The Note shall be unsecured and shall bear interest at the rate of [***]% per annum. Interest shall accrue for the twelve-month period following issuance of the Note. On the first anniversary of the date of issuance of the Note, accrued interest for the previous 12 months shall be added to the principal amount of the Note, which adjusted amount shall thereafter bear interest at [***]% per annum. Thereafter, Cypress shall make equal monthly payments representing principal and accrued interest, each month continuing for **48** months after such first anniversary, at which point any unpaid balance of the Note will be due and payable in full. Notwithstanding anything herein to the contrary, the parties acknowledge and agree that in the event the Milestone is not achieved or if Cypress terminates development pursuant to Section 2.2(c) below, no payments shall be due under this Agreement and Cypress shall not be required to issue the Note. Amounts payable pursuant to the Note are referred to herein as the "***Milestone Consideration***." For avoidance of doubt, only a Product for monitoring of Systemic Lupus Erythematosus, and not any Product designed for diagnosis of Systemic Lupus Erythematosus without a monitoring function, shall constitute a Lupus Monitoring Product.

2. Amendment of Section 2.2(b) and Related Provisions. The first paragraph of Section 2.2(b) of the Agreement is amended to read as follows:

Cypress shall act in good faith and use commercially reasonable efforts to cause the Milestone to be achieved; *provided*, *however*, that the obligation of Cypress to use commercially reasonable efforts to achieve the Milestone shall not require that the Milestone ever be achieved if doing so, in any case, would require Cypress to use more than commercially reasonable efforts and, *provided*, *further*, that a termination of development by Cypress of all Lupus Monitoring Products pursuant to Section 2.2(c) below shall not be deemed a failure by Cypress to use, or otherwise violate Cypress' obligations to use, commercially reasonable efforts to develop a Lupus Monitoring Product. The parties acknowledge and agree that Cypress may terminate development of all Lupus Monitoring Products at any time if achieving the Milestone would require Cypress to use more than commercially reasonable efforts to do so, and that any such termination may occur without requiring that Cypress also terminate the Amended Pittsburgh License in accordance with Section 2.2(c) below. Cypress shall provide notice to Cellatope of its determination to terminate development of all Lupus Monitoring Products because achieving the Milestone would require Cypress to use more than commercially reasonable efforts to do so within 15 days of making such determination, including reasonable details supporting such determination and, in such case, Cypress shall comply with the provisions of Section 2.2(c)(ii) below. The parties further acknowledge and agree that nothing in this Agreement shall prohibit Cypress from engaging in a change of control-type transaction or a sale or license of all or any of the Acquired Assets, *provided* that in the event that Cypress desires to consummate a Change of Control after the Closing Date while the Milestone has not been attained but remains eligible to be attained, or the Note has been issued but not yet been paid in full, Cypress shall cause the Entity acquiring Cypress (or acquiring substantially all of its assets) with respect to a Change of Control (the "***Acquirer***") to assume Cypress' obligations under Section 2.2 of this Agreement, subject to all of the limitations and qualifications contained in Section 2.2 of this Agreement (including that such Acquirer use commercially reasonable efforts and the right of such Acquirer to terminate development of all Lupus Monitoring Products). With respect to any Change of Control, Cypress shall not consummate such Change of Control unless (i) Cypress remains liable for Cypress' payment obligations with respect to the

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

Milestone Consideration and the Acquirer otherwise assumes Cypress' obligations in Section 2.2 in a form and substance reasonably acceptable to Cellatope (*provided*, that Cellatope's prior acceptance or approval shall not be required if such assumption is unqualified), in which case the parties acknowledge and agree that, following any such assumption (unless Cypress is merged with the Acquirer and remains the surviving Entity or becomes a subsidiary of the Acquirer), Cypress shall have no further liability or obligation, whether primarily or secondarily, with respect to the obligations in Section 2.2 hereunder, except for the payment obligations with respect to the Milestone Consideration or (ii) the Acquirer is an Applicable Public Company and assumes Cypress' obligations under Section 2.2 of this Agreement in a form and substance reasonably acceptable to Cellatope (*provided*, that Cellatope's prior acceptance or approval shall not be required if such assumption is unqualified), in which case the parties acknowledge and agree that, following any such assumption (unless Cypress is merged with the Acquirer and remains the surviving Entity or becomes a subsidiary of the Acquirer), Cypress shall have no further liability or obligation, whether primarily or secondarily, with respect to the obligations in Section 2.2 hereunder, including the payment obligations with respect to the Milestone Consideration.

3. Amendment of Section 2.2(b)(ii). Section 2.2(b)(ii) is amended to read as follows:

(ii) Cellatope may allege that Cypress is not using commercially reasonable efforts to achieve the Milestone at any time by providing written notice to Cypress to such effect, including reasonable details supporting such allegation, and setting forth specific reasonable actions that Cellatope requests that Cypress take with respect to its efforts to achieve the Milestone. If Cellatope provides any such notice, each party shall appoint an executive officer or other authorized person to discuss, and attempt to resolve, the alleged failure to perform to both parties' satisfaction. These Persons shall, by phone or in person, discuss the alleged failure to perform in good faith within 15 days after Cellatope provides the applicable notice. If, within 30 days after Cellatope provides the applicable notice, the two executive officers have not reached a mutually acceptable resolution to the alleged failure to perform, Cellatope may submit the matter to arbitration conducted by one arbitrator mutually agreeable to Cypress and Cellatope. In the event that, within 30 days after submission of any dispute to arbitration, Cypress and Cellatope cannot mutually agree on one arbitrator, then the parties shall arrange for the American Arbitration Association to designate a single arbitrator in accordance with the rules of the American Arbitration Association. Any such arbitration shall be held in San Diego County, California, under the rules and procedures then in effect of the American Arbitration Association. The arbitrator shall determine how all expenses relating to the arbitration shall be paid, including the respective expenses of each party, the fees of the arbitrator and the administrative fee to the American Arbitration Association. The arbitrator shall set a limited time period and establish procedures designed to reduce the cost and time for discovery while allowing Cypress and Cellatope an opportunity, adequate in the sole judgment of the arbitrator, to discover relevant information from the opposing party about the alleged failure to perform. The arbitrator shall rule upon motions to compel or limit discovery and shall have the authority to impose sanctions, including attorneys' fees and costs, to the same extent as a competent court of law or equity, should the arbitrator determine that discovery was sought without substantial justification or that discovery was refused or objected to without substantial justification. The

arbitrator's decision shall be limited to the precise question of whether Cypress has used commercially reasonable efforts to achieve the Milestone and the specific actions, if any, to be taken by Cypress that are necessary for Cypress to meet its obligation to use such commercially reasonable efforts, and shall be subject to the limitations set forth in this Agreement and be final, binding and conclusive upon the parties. The parties acknowledge and agree that Cypress may, in lieu of taking the actions, if any, specified by the arbitrator as being necessary for Cypress to meet its obligation to use commercially reasonable efforts, pay to Cellatope the Milestone Consideration in accordance with this Section 2. The arbitrator's decision shall be written and shall be supported by written findings of fact and conclusions. The parties acknowledge and agree that the dispute resolution mechanism and remedy set forth in this Section 2.2(b)(ii) shall be the sole and exclusive method of dispute resolution and remedy available to the parties with respect to disputes arising under Section 2.2(b), and that the provisions of Section 10 shall be inapplicable to any dispute arising under Section 2.2(b).

4. Amendment of Sections 2.2(c). The first paragraph of Section 2.2(c) of the Agreement is amended to read as follows:

(c) The parties also acknowledge and agree that, subject to Section 2.2(c)(i) and (ii) below, Cypress may terminate development of all Lupus Monitoring Products at any time prior to achievement of the Milestone by terminating the Amended Pittsburgh License in accordance with its terms and conditions, and, upon such termination, Cypress' obligations to use commercially reasonable efforts to cause the Milestone to be achieved under Section 2.2(b) shall terminate. In the event that Cypress terminates development of all Lupus Monitoring Products, Cypress shall:

5. Amendment of Section 2.2(d). Section 2.2(d) of the Agreement is amended to read as follows:

(d) During the time that Cypress is actively developing any Lupus Monitoring Product, (i) annually, on or before January 30 of each calendar year occurring after 2012, and (ii) semi-annually, upon request of Cellatope, Cypress shall provide Cellatope with a written summary describing in reasonable detail the status of achieving the Milestone. Any summaries or other information provided by Cypress to Cellatope pursuant to this Section 2.2(d) shall be governed by the Mutual Non-Disclosure Agreement dated April 21, 2008 by and between Cypress and Cellatope or (y) such other agreement as shall have identical terms and conditions, to the extent Cypress shall require the execution thereof by Cellatope as a condition precedent to providing such report(s) (the "***Confidentiality Agreement***").

5. Amendment of Section 2.2(e). Section 2.2(e) of the Agreement is deleted, and any and all references to such deleted provisions of former Section 2.2(e) of the Agreement shall be of no further force and effect.

6. Relabeling of Section 2.2(f). Section 2.2(f) of the Agreement is relabeled as Section 2.2(e).

7. Amendment and Restatement of Section 2.2(g). Section 2.2(g) of the Agreement is relabeled as Section 2.2(f) and is amended and restated to read as follows:

(f) During the period beginning on the Closing Date and ending on the earlier of the date of payment in full of the Milestone Consideration or the termination of development of all Lupus Monitoring Products (the "***Payment Period***"), Cypress shall keep (and shall cause its Affiliates and Licensees to keep) records pertaining to the development of Lupus Monitoring Products in sufficient detail to permit Cellatope to confirm whether the Milestone has been achieved and the accuracy and completeness of any summaries provided pursuant to Section 2.2(d). Such records shall be maintained for a period of at least one year after the Payment Period (and for the duration of any period in which the process contemplated by Section 2.2(b)(ii) shall be pending). During the Payment Period and for one year thereafter, Cellatope shall have the right to inspect such records, which inspection rights may be exercised during normal business hours upon reasonable prior written notice to Cypress and, in each case, no more than once a calendar year. Cellatope shall bear the full cost of any such inspection, unless such inspection discloses a payment failure by Cypress of the Milestone Consideration payable under Section 2.2(a), in which case, Cypress shall bear the reasonable cost of the inspection. Information disclosed pursuant to this Section 2.2(f) shall be governed by the Confidentiality Agreement.

8. Section References. All references in the Agreement to sections that have been relabeled by this Amendment No. One shall be deemed to refer to such sections, as relabeled.

9. Capacity of Parties. The parties acknowledge that they are the successors-in-interest of the original parties to the Agreement that they are bound by the provisions of the Agreement, as amended by this Amendment No. One and that, references in the Agreement, as amended by this Amendment No. One, to Cypress shall be deemed to include Exagen for all purposes, and references to Cellatope shall be deemed to include the Trust for all purposes.

10. Dissolution of Trust. The parties acknowledge that the Trust may be dissolved prior to the end of the Payment Period and that its assets, including its rights and obligations under the Agreement, may be distributed to the beneficiaries of the Trust. At or before the time of such dissolution, each beneficiary of the Trust for itself and its successors, shall appoint an individual as such beneficiary's agent and attorney-in-fact (the "***Beneficiaries' Representative***"), with full power and authority in the name of and for and on behalf of such beneficiary to act on behalf of such beneficiary for purposes of the Agreement. The Beneficiaries' Representative shall exercise all power and authority granted to or required by Cellatope under the Agreement. The Beneficiaries' Representative will have full power and authority to act on the beneficiaries' behalf in any dispute, litigation, arbitration or other matter involving the Agreement. A decision, act, consent or instruction of the Beneficiaries' Representative shall constitute a decision of all of the Beneficiaries and shall be binding and conclusive on each Beneficiary and their successors. Exagen agrees that following receipt of appropriate documentation and instructions from the trustee of the Trust prior to dissolution of the Trust or, following such dissolution; from the Beneficiaries' Representative, it will make payments of the Milestone Consideration to the persons and in the respective amounts as instructed by the trustee or the Beneficiaries' Representative.

11. Notice. For purposes of Section 11.4 of the Agreement (Notice), each of Cellatope's and Cypress' addresses and facsimile numbers (and those of any party required to be provided copies of notices under such section) are set forth on the signature pages hereto.

12. Miscellaneous. Except as expressly amended hereby, the Agreement remains in full force and effect in accordance with the terms thereof. This Amendment No. One will be construed in accordance with and governed in all respects by, the internal laws of the State of California (without giving effect to principals of conflicts of laws) and may be executed in multiple counterparts, each of which will constitute an original and all of which, when taken together, will constitute one agreement.

5. Remedy. Upon any default in payment of any amount due hereunder, and if such default continues for thirty (30) days after the Lender notifies Borrower of the same, a penalty in the amount of five percent (5%) of such overdue payment shall be added to the overdue payment and shall be immediately due and payable. Additionally, if Borrower (a) defaults with respect to any six or more payments due under this Note (and if each such default continues for thirty (30) days after the Lender notifies Borrower of the same) in any one calendar year or (b) defaults in payment of any amount due under this Note and such default continues for a period of six (6) months after the original due date for such amount, then upon notice to Borrower, (x) all principal and accrued but unpaid interest shall become immediately due and payable and (y) such aggregate amount shall thereafter be assessed the penalty amount set forth in the first sentence of this Section 5, after which such amount shall accrue interest in accordance with Section 1 hereof. This Note is unsecured.

6. Amendments. This Note may not be amended except by a written instrument duly executed and delivered by Borrower and Lender.

7. Assignment. This Note may be assigned in accordance with the terms of the Asset Purchase Agreement and Amendment No. One thereto.

This Agreement constitutes, and, upon execution thereof, the Ancillary Agreements to which it is a party will constitute, the valid and binding obligation of Purchaser, enforceable against Purchaser in accordance with its terms, subject to (i) laws of general application relating to bankruptcy, insolvency and the relief of debtors, and (ii) rules of law governing specific performance, injunctive relief and other equitable remedies.

3.5 Non-Contravention; Consents. Neither the execution, delivery or performance by Purchaser of this Agreement or the Ancillary Agreements to which it is a party, nor the consummation of any of the transactions contemplated by this Agreement or the Ancillary Agreements to which it is a party, will (a) conflict with or result in any violation of any provision of the certificate of incorporation, bylaws or other charter or organizational documents of Purchaser, (b) result in a breach or default by Purchaser under any material contract to which Purchaser is a party, (c) result in a violation of any Legal Requirement or order to which Purchaser is subject or (d) except as contemplated by the Intellectual Property Security Agreement and the lien of the Junior Lienholder, result in the creation of a lien or encumbrance on any material asset of Purchaser, including the Assets. Purchaser is not and will not be required to obtain any Consent from any Person in connection with the execution, delivery or performance of this Agreement or the Ancillary Agreements to which it is a party or the consummation of any of the transactions contemplated hereby or thereby.

3.6 Availability of Funds. Purchaser has, and on the Closing Date will have, sufficient funds available to finance and consummate the transactions contemplated by this Agreement.

4. PRE-CLOSING COVENANTS.

4.1 Access. Subject to the provisions of the Confidentiality Agreement and to applicable Legal Requirements, during the period from the date of this Agreement through the Closing Date (the "***Pre-Closing Period***"), Seller will, after receiving reasonable advance notice from Purchaser, give Purchaser reasonable access (during normal business hours) to the Facility and to Seller's and Subsidiary's books and records relating only to the Diagnostic Business, and will provide Purchaser with such information regarding the Diagnostic Business and any other appropriate matters germane to the subject matter of this Agreement as Purchaser may reasonably request, for the sole purposes of enabling Purchaser (i) to further investigate, at Purchaser's sole expense, the Diagnostic Business and any other appropriate matters germane to the subject matter of this Agreement and (ii) to verify the accuracy of the representations and warranties set forth in Section 2; *provided*, *however*, that except as provided in Section 5.2,

Purchaser will not (without Seller's approval, which will not be unreasonably withheld) contact or otherwise communicate with any of the Seller's employees. To the extent requested by Purchaser, Seller will arrange to permit Purchaser to conduct interviews of any of the Specified Employees during the Pre-Closing Period.

4.2 Conduct of Diagnostic Business. Until the earlier of the Closing Date and the close of business on October 15, 2010, except (i) as contemplated or permitted by this Agreement or the Seller Disclosure Schedule, (ii) as may be necessary to carry out any of the transactions contemplated by this Agreement, (iii) as may be necessary to facilitate compliance with any Legal Requirement or the requirements of any Contract, or (iv) as approved by Purchaser, during the Pre-Closing Period:

(a) Seller will conduct its operations at the Facility in the ordinary course and consistent with its past practices, to the extent such operations relate to the Diagnostic Business and Assets; and

(b) neither Seller nor Subsidiary will (i) license or dispose of any material Assets, (ii) prematurely terminate or amend, grant a sublicense under or assign any of the Contracts, or (iii) commit a breach of any Contract entered into after the date of this Agreement.

If Seller requests Purchaser's approval of a proposed action that would result in a breach by Seller or Subsidiary of this Section 4.2, Purchaser will respond promptly to Seller's request and will not unreasonably withhold or delay its approval of the proposed action.

4.3 Consents. Each of Seller and Subsidiary will use commercially reasonable efforts during the Pre-Closing Period to obtain the Consents identified in Part 2.10 of the Seller Disclosure Schedule (including the Consents identified on **Schedule 5**).

4.4 Conditions. Each of Seller and Subsidiary will use commercially reasonable efforts (i) to cause the conditions set forth in Section 6 to be satisfied on a timely basis and (ii) otherwise to cause the Closing to take place as soon as reasonably practicable. Purchaser will use commercially reasonable efforts (a) to cause the conditions set forth in Section 7 to be satisfied on a timely basis and (b) otherwise to cause the Closing to take place as soon as reasonably practicable.

5. OTHER COVENANTS

5.1 Consents; Releases. Purchaser will cooperate with Seller and Subsidiary, and will provide Seller and Subsidiary with such assistance as Seller or Subsidiary may reasonably request, for the purpose of (i) attempting to obtain the Consents identified in Part 2.10 of the Seller Disclosure Schedule and (ii) arranging for Seller and/or Subsidiary to be released and discharged from its obligations and other liabilities under the Contracts.

5.2 Employment Matters. Prior to the Closing, on a date mutually agreed by the Parties, Purchaser will extend to each Specified Employee an individualized written offer of employment that, if accepted, would contemplate that such Specified Employee would commence his or her employment with Purchaser on the day after the Closing Date and would

provide such Specified Employee with compensation, benefits and terms of employment (including terms relating to job responsibilities) that in the aggregate are the same or similar to such Specified Employee as the compensation, benefits and terms of employment provided by Seller to such Specified Employee immediately prior to the Closing. The individualized written offers of employment shall include provisions that provide that, from and after the time when the applicable Specified Employee begins his or her employment with Purchaser, Seller shall no longer be liable for any compensation or benefits to such Specified Employee (other than compensation and benefits (including severance payments, if applicable) that have accrued and vested prior to such time). On the day after the Closing Date, Purchaser will hire each Specified Employee who accepts the written offer of employment extended to such Specified Employee by Purchaser (it being understood that, except as otherwise provided in any individual employment agreement or other agreement between Purchaser and a Specified Employee, Purchaser will not be obligated to maintain the employment of or the compensation or employee benefits provided to such Specified Employee for any specified period thereafter).

5.3 Use of Names and Trademarks. Following the Closing Date, all Purchaser advertising and promotional materials for the Products shall identify Purchaser as the marketer of the Products and all Product labeling and packaging shall reflect Purchaser as the marketer of the Product; *provided*, *however*, with respect to the finished product inventories purchased by Purchaser hereunder, Purchaser shall, for a period of three (3) months following the Closing, be permitted to sell Product from such inventory as labeled and packaged prior to the Closing Date, without regard to whether such Product references Seller or Subsidiary. Upon the expiration of such transitional period, all Product sold by Purchaser, including such inventory, shall, at Purchaser's sole cost, be required to have labeling and packaging which properly identifies Purchaser as the marketer of the Product and shall not contain any references to Seller or Subsidiary.

5.4 Promotion at ACR Meeting. Purchaser will use commercially reasonable efforts to present and promote the CB-CAPS Diagnostic Assay at the American College of Rheumatology Scientific Meeting in November 2010.

5.5 Receipt of Monies or Other Assets. If any monies or other assets are received by Seller or Subsidiary, on one hand, or Purchaser, on the other hand, after Closing to which the other Party is entitled in accordance with the terms of this Agreement, such Party shall promptly forward such monies or other assets to the other Party within fifteen (15) days of receipt, along with reasonable details regarding such monies or assets to permit their identification as monies or assets to which one or the other Party is entitled.

5.6 Payment of Rents, Utilities, Vendor Accounts and Other Operating Expenses.

(a) Subject to potential reimbursement to the extent provided in Section 5.6(b) below with respect to Transition Operating Costs, Seller will be responsible for and pay when due all rents and utility and other Vendor Accounts and costs associated with the Facility and the Diagnostic Business through the Closing Date. Subject to potential reimbursement to the extent provided in Section 5.6(b) with respect to Transition Operating Costs, utility or other Vendor Account bills and rent prepaid by Seller prior to the Closing which cover services to be provided

to Purchaser after the Closing will be proportionately allocated (except that any security deposit that is required to be maintained for the duration of the lease for the Facility shall be allocated solely to Purchaser) between Seller and Purchaser for the period covered, and Purchaser will reimburse Seller at Closing for any such amount paid by Seller that is allocated to Purchaser (the "***Prorated Amount***"). Utility and other Vendor Account bills and rent paid by Purchaser after the Closing which cover services provided to Seller prior to the Closing Date (other than Transition Operating Costs) shall also be proportionately allocated between Seller and the Purchaser for the period covered, and, upon Purchaser's request, Seller will promptly reimburse Purchaser for any such amount paid by Purchaser that is allocated to Seller. Purchaser shall arrange with each vendor of any Vendor Account to open a new account in its name promptly following the Closing or will replace or discontinue such service but Seller shall not remain a party to any Vendor Account following the Closing.

(b) In addition to, and without duplication of, the Prorated Amount above, at the Closing Purchaser will reimburse Seller for (i) the costs and expenses of certain products and services relating to the Diagnostic Business which Purchaser has approved in writing, including, without limitation, those costs and expenses set forth in **Schedule 5.6(b)** (which shall be modified by the Parties prior to the Closing to the extent necessary to reflect any such costs and expenses so approved between the date of this Agreement and Closing), which have already received Purchaser's written approval and any others that receive Purchaser's written approval between the date of this Agreement and Closing, and (ii) the costs of operating the Diagnostic Business in the ordinary course following October 5, 2010 which costs shall include, without limitation, overhead, regular compensation and benefits of the employees of Seller based at the Facility, laboratory supplies, outside laboratory costs, and shipping and distribution costs and be identified, if applicable, by Seller to Purchaser by written notice provided by Seller to Purchaser prior to the Closing (such costs in clauses (i) and (ii), the "***Transition Operating Costs***"). To the extent the amount of any Prorated Amount or Transition Operating Costs are not identifiable at Closing, Purchaser shall, promptly following the identification of such costs in a written notice from Seller to Purchaser (but in no event later than five (5) business days following delivery of such notice), reimburse Seller for such costs. The Parties recognize and agree that a portion of the Prorated Amount and Transition Operating Costs identifiable at Closing may be based upon estimates and further agree that, to the extent such amounts are based upon estimates, promptly following the determination of the final amounts, Seller shall notify Purchaser of the differences in such amounts and the Parties shall reconcile the amounts paid or to be paid with respect thereto, with Seller reimbursing Purchaser for any previous overpayment and Purchaser reimbursing Seller for any previous underpayment.

5.7 Federal Express Account. On or within one business day following the Closing Date, Seller and Purchaser shall ensure that the Federal Express account associated with the Diagnostic Business is transferred to Purchaser, and Purchaser shall cooperate with Seller on a timely basis to the extent necessary to enable such transfer. All charges to such account occurring after October 5, 2010 shall be Purchaser's liability and Purchaser shall, within five (5) business days of notification by Seller, reimburse Seller for such charges to the extent they are invoiced to Seller.

5.8 Procedures Relating to Accounts Receivable; Payment of Royalties. In addition to the other provisions of this Agreement, the Parties shall abide by the procedures set

forth in **Schedule 5.8** relating to the collection, reconciliation and payment of accounts receivable relating to the Diagnostic Business. Purchaser shall timely pay, when due, all royalties associated with the Acquired Xifin Accounts Receivable and Post-10/5 Accounts Receivable. Seller shall timely pay, when due, all royalties associated with the accounts receivable of the Diagnostic Business with a date of service prior to January 12, 2010 (as defined by the blood sample draw date).

5.9 Security Interest in Intellectual Property Collateral.

(a) Effective as of the Closing Date, Purchaser does hereby grant to Seller a continuing security interest of first priority in, all of Purchaser's right, title and interest in, to and under the Intellectual Property Collateral, whether now or hereafter existing, as security for the prompt and complete payment and performance of Purchaser's obligation under Sections 1.3(c) (including to the extent such payment obligation is accelerated pursuant to Section 1.9(a)) of this Agreement, and, to the extent payment of such obligation is not made when due, interest payable on such payment owed pursuant to Section 1.11 of this Agreement. In furtherance of the foregoing:

(i) On a continuing basis, Purchaser will, upon request by Seller, make, execute, acknowledge and deliver, and file and record in the proper filing and recording places in the United States, all such instruments, including appropriate financing and continuation statements and collateral agreements and filings with the United States Patent and Trademark Office, and take all such action as may reasonably be deemed necessary or advisable, or as requested by Seller, to perfect Seller's security interest in the Intellectual Property Collateral, and otherwise to carry out the intent and purposes of the Intellectual Property Security Agreement, or for assuring and confirming to Seller the grant and perfection of a security interest in all Intellectual Property Collateral; and

(ii) Purchaser hereby irrevocably appoints Seller as Purchaser's attorney-in- fact, with full authority in the place and stead of Purchaser and in the name of Purchaser, Seller or otherwise, from time to time in Seller's discretion, upon Purchaser's failure or inability to do so, to take any action and to execute any instrument which Seller may deem necessary or advisable to file, in its sole discretion, one or more financing or continuation statements and amendments thereto, or other notice filings or notations in appropriate filing offices, relative to any of the Intellectual Property Collateral, with prior notice to Purchaser, with all appropriate jurisdictions, as Seller deems appropriate, in order to further perfect or protect Seller's interest in the Intellectual Property Collateral.

(b) This Agreement shall constitute a security agreement for purposes of the UCC in all relevant jurisdictions. In furtherance of the foregoing, Purchaser hereby authorizes Seller to file one or more financing statements (or similar documents) in all relevant jurisdictions with respect to the Intellectual Property Collateral to evidence the granting of the security interest described in this Section 5.9. For greater certainty, Seller shall not file this Agreement in connection with the filing of any such financing statements (or similar documents).

(c) The security interests granted pursuant to this Section 5.9 shall remain in full force and effect and continue to be effective should any petition be filed by or against Purchaser

for liquidation or reorganization, should Purchaser become insolvent or make an assignment for the benefit of creditors or should a receiver or trustee be appointed for all or any significant part of Purchaser's property and assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the obligations secured thereby, or any part thereof, are, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by Seller, whether as a "***voidable preference,***" "***fraudulent conveyance,***" or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, such obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

5.10 Negative Covenants. Until the termination of the security interest in favor of Seller in the Intellectual Property Collateral under the Intellectual Property Security Agreement (a) Purchaser shall not sell, lease, license, transfer or otherwise dispose of any of the Intellectual Property Collateral, or attempt or contract to do so, other than the granting of non-exclusive licenses; and (b) Purchaser shall not, directly or indirectly, create, permit or suffer to exist, and shall defend the Intellectual Property Collateral against and take such other action as is necessary to remove, any lien on the Intellectual Property Collateral, except the lien granted to Seller under the Intellectual Property Security Agreement, the lien of the Junior Lienholder and any other liens granted by Purchaser after the Closing Date and approved in writing prior to such grant by, and pursuant to documentation satisfactory to, Seller.

5.11 Intellectual Property Assignments. Following the Closing Date, Seller shall execute such intellectual property assignments on terms mutually satisfactory to the Parties and consistent with this Agreement as may be reasonably requested by Purchaser for the purpose of enabling Purchaser to make the necessary filings with the United States Patent and Trademark Office to transfer the Patents and Trademarks to Purchaser.

6. CONDITIONS PRECEDENT TO PURCHASER'S OBLIGATION TO CLOSE.

Purchaser's obligation to purchase the Assets and to take the other actions required to be taken by Purchaser at the Closing is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be waived by Purchaser, in whole or in part, in writing):

6.1 Accuracy of Representations. All representations and warranties of Seller and Subsidiary set forth in Section 2 shall be true and correct at and as of the date of this Agreement and at and as of the Closing Date; *provided*, *however*, that, for purposes of this Section 6.1, any inaccuracies in the representations and warranties of Seller and Subsidiary will be disregarded unless all such inaccuracies, considered collectively, have a material adverse effect on the value of the Diagnostic Business and Assets taken as a whole.

6.2 Performance of Covenants. Each of Seller and Subsidiary shall have performed, in all material respects, all covenants required by this Agreement to be performed by Seller or Subsidiary on or before the Closing Date.

6.3 Additional Documents. Each of the following additional documents shall have been delivered to Purchaser:

(a) a certificate, executed by an executive officer of Seller, confirming that, to the actual knowledge of such executive officer, the conditions set forth in Sections 6.1 and 6.2 have been satisfied;

(b) such bills of sale, assignments and other instruments including, but not limited to, the Ancillary Agreements to which it is a party, as Seller or Subsidiary may be required to execute in order to evidence and effectuate the transfer of the Assets, including the Contracts, to Purchaser; and

(c) such good standing certificates and other similar documents as Purchaser may reasonably request to ensure that the actions required to be taken by Seller and Subsidiary at the Closing have been properly authorized.

6.4 No Restraints. No injunction or other order preventing the consummation of the transactions contemplated by this Agreement shall have been issued since the date of this Agreement by any United States federal or state court of competent jurisdiction and shall remain in effect; and no United States federal or state Legal Requirement that makes consummation of the transactions contemplated by this Agreement illegal shall have been enacted or adopted since the date of this Agreement and shall remain in effect.

6.5 Consents. The Consents identified on **Schedule 5** shall have been obtained.

7. CONDITIONS PRECEDENT TO SELLER'S AND SUBSIDIARY'S OBLIGATION TO CLOSE. Seller's and Subsidiary's obligation to sell and transfer the Assets to Purchaser and to take the other actions required to be taken by Seller or Subsidiary at the Closing is subject to the satisfaction, at or prior to the Closing, of each of the following conditions (any of which may be waived by Seller or Subsidiary, in whole or in part, in writing):

7.1 Accuracy of Representations. All representations and warranties of Purchaser set forth in Section 3 shall be true and correct at and as of the date of this Agreement and at and as of the Closing Date; *provided*, *however*, that, for purposes of this Section 7.1, any inaccuracies in the representations and warranties of Purchaser will be disregarded unless all such inaccuracies, considered collectively, have a material adverse effect on the business, assets (tangible or intangible), liabilities or operations of Purchaser.

7.2 Performance of Covenants. Purchaser shall have performed, in all material respects, all covenants required by this Agreement to be performed by Purchaser on or before the Closing Date.

7.3 Delivery of Consideration. At the Closing, Seller and Subsidiary shall have received the Initial Cash Payment, and Seller shall have received the Prorated Amount and the Transition Operating Costs that are known as of the Closing.

7.4 Additional Documents. The Intellectual Property Security Agreement shall have been executed on behalf of Purchaser, the Subordination Agreement shall have been executed on

behalf of Los Alamos National Bank and the Ancillary Agreements shall have been executed by each party thereto and each shall have been delivered to Seller. Purchaser shall have delivered to Landlord Purchaser's fully executed counterparts to the Lease Assumption and the Consent to Assignment and an insurance certificate in the form required by the Lease (as defined in the Consent to Assignment). In addition, each of the following additional documents shall have been delivered to Seller:

(a) a certificate, executed by an executive officer of Purchaser, confirming that, to the actual knowledge of such executive officer, the conditions set forth in Sections 7.1 and 7.2 have been satisfied; and

(b) such good standing certificates and other similar documents as Seller may reasonably request to ensure that the actions required to be taken by Purchaser at the Closing have been properly authorized.

7.5 No Restraints. No injunction or other order preventing the consummation of the transactions contemplated by this Agreement shall have been issued since the date of this Agreement by any United States federal or state court of competent jurisdiction and shall remain in effect; and no United States federal or state Legal Requirement that makes consummation of the transactions contemplated by this Agreement illegal shall have been enacted or adopted since the date of this Agreement and shall remain in effect.

7.6 Consents. The Consents identified on **Schedule 5** shall have been obtained.

7.7 Senior Lienholder. Purchaser shall have obtained all necessary consents or taken such other steps as are necessary or advisable to ensure that Seller's lien on the Intellectual Property Collateral and established pursuant to the Intellectual Property Security Agreement will be the senior lien or encumbrance on the Intellectual Property Collateral.

8. TERMINATION.

8.1 Right to Terminate Agreement. This Agreement may be terminated prior to the Closing:

(a) by the mutual written consent of the Parties;

(b) by any Party (by delivery of a written termination notification in accordance with Section 8.2) at any time after October 31, 2010, if the Closing has not taken place on or before October 31, 2010, unless the failure of the Closing to take place on or before such date is attributable to a breach by such Party of any of its obligations set forth in this Agreement;

(c) by Seller (by delivery of a written termination notification in accordance with Section 8.2) if (i) there shall have been a breach on the part of Purchaser of any of its representations, warranties or covenants such that the condition set forth in Section 7.1 or Section 7.2, as the case may be, would not be satisfied as of the time of such breach, (ii) Seller shall have given written notice of such breach to Purchaser, (iii) at least twenty days shall have elapsed since the delivery of such written notice to Purchaser, (iv) such breach shall not have

been cured and (v) Purchaser shall not be using its commercially reasonable efforts to attempt to cure such breach; or

(d) by Purchaser (by delivery of a written termination notification in accordance with Section 8.2) if (i) there shall have been a breach on the part of Seller or Subsidiary of any of its representations, warranties or covenants such that the condition set forth in Section 6.1 or Section 6.2, as the case may be, would not be satisfied as of the time of such breach, (ii) Purchaser shall have given written notice of such breach to Seller, (iii) at least twenty days shall have elapsed since the delivery of such written notice to Seller, (iv) such breach shall not have been cured and (v) Seller shall not be using its commercially reasonable efforts to attempt to cure such breach.

8.2 Termination Procedures. If any Party wishes to terminate this Agreement pursuant to Section 8.1, such Party will deliver to the other Parties a written termination notification stating that such Party is terminating this Agreement and setting forth a brief statement of the basis on which such Party is terminating this Agreement.

8.3 Effect of Termination. Upon the termination of this Agreement pursuant to Section 8.1, no Party will have any obligation or other liability to any other Party, except that (i) the Parties will remain bound by the provisions of Section 10 and by the provisions of the Confidentiality Agreement, and (ii) no Party will be relieved of any liability for any breach of this Agreement.

9. INDEMNIFICATION.

9.1 Survival of Seller and Subsidiary Representations; Indemnification by Seller.

(a) All of the representations and warranties of Seller and Subsidiary set forth in this Agreement and in any certificate delivered pursuant to this Agreement, and all covenants of Seller and Subsidiary set forth in Section 4, will survive the Closing but will terminate and expire, and will cease to be of any force or effect, at 10:00 a.m. (California time) on the twelve month anniversary of the Closing Date (the "***Expiration Date***"), and all liability of Seller and Subsidiary with respect to such representations, warranties and covenants (and any liability with respect to the certificate delivered to Purchaser pursuant to Section 6.3(a)) will thereupon be extinguished; *provided*, *however*, that if, prior to the Expiration Date, Purchaser shall have duly delivered to Seller, in conformity with all of the applicable procedures set forth in Section 9.1(d), an Indemnification Demand, then the specific claim set forth in such Indemnification Demand will survive (and will not be extinguished upon) the Expiration Date and will continue to survive until such claim is resolved in accordance with Section 9.3.

(b) Subject to the limitations set forth in this Section 9.1 and elsewhere in this Agreement, from and after the Closing Date, Seller will indemnify Purchaser against any Damages that Purchaser incurs as a result of (i) any breach by Seller or Subsidiary of any of Seller's or Subsidiary's representations, warranties or covenants hereunder or in any certificate delivered by Seller or Subsidiary pursuant to this Agreement or (ii) any and all liabilities attributable to Seller's or Subsidiary's ownership of the Assets or operation of the Diagnostic

Business before the Closing Date (except for any Assumed Liabilities). Seller's obligation to indemnify Purchaser pursuant to this Section 9.1(b) will not relieve Seller or Subsidiary of, or alter in any way, Seller's or Subsidiary's obligation to fully satisfy all of Seller's and Subsidiary's liabilities other than the Assumed Liabilities.

(c) Except in the case of fraud or intentional misrepresentation, the total amount of the payments that Seller can be required to make under or in connection with Section 9.1(b)(i) of this Agreement will be limited in the aggregate to $[***], and Seller's cumulative liability will in no event exceed such amount. Notwithstanding anything else in this Agreement, except in the case of fraud or intentional misrepresentation, the indemnification remedies provided in this Section 9.1 shall be deemed to be the sole and exclusive remedy of Purchaser with respect to any and all claims (under any theory of liability, including but not limited to contract claims and tort claims) relating to the subject matter of this Agreement. Furthermore, notwithstanding anything to the contrary herein, the limitations set forth in this Section 9.1(c) shall not apply to the obligations set forth in Sections 1.4, 1.11, 5.5, 5.6 or 5.8 of this Agreement.

(d) If Purchaser wishes to assert an indemnification claim against Seller, Purchaser will deliver to Seller, as soon as reasonably practicable, an Indemnification Demand pursuant to Section 9.3. Notwithstanding anything to the contrary contained in this Agreement, Purchaser will not be permitted to deliver any Indemnification Demand to Seller (and will not be entitled to assert any claim set forth in any Indemnification Demand) unless Purchaser has reasonably determined that the breach alleged in such Indemnification Demand has actually occurred.

(e) If Purchaser receives notice or otherwise obtains knowledge of any Matter or any threatened Matter that may reasonably be expected to give rise to an indemnification claim against Seller, then Purchaser will deliver to Seller a written notice describing such Matter in reasonable detail as soon as reasonably practicable. Seller will have the right, at its election and at its sole expense, to assume the defense of any such Matter with its own counsel. If Seller elects to assume the defense of any such Matter, then:

(i) notwithstanding anything to the contrary contained in this Agreement, Seller will not be required to pay or otherwise indemnify Purchaser against any attorneys' fees or other expenses incurred on behalf of Purchaser in connection with such Matter following Seller's election to assume the defense of such Matter;

(ii) Purchaser will make available to Seller all books, records and other documents and materials that are under the control of Purchaser or any of Purchaser's Affiliates, advisors or representatives and that Seller reasonably considers necessary or desirable for the defense of such Matter;

(iii) Purchaser will execute such documents and take such other actions as Seller may reasonably request for the purpose of facilitating the defense of, or any settlement, compromise or adjustment relating to, such Matter;

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

(iv) Purchaser will otherwise fully cooperate as reasonably requested by Seller in the defense of such Matter; and

(v) Purchaser will not admit any liability with respect to such Matter;

(vi) Seller will not settle, adjust or compromise such Matter without the consent of Purchaser unless (A) there is no finding or admission of any violation of any Legal Requirement by Purchaser, and (B) the sole relief provided is monetary damages that are paid in full by Seller.

If Seller elects not to assume the defense of such Matter, then Purchaser will proceed diligently to defend such Matter with the assistance of counsel reasonably satisfactory to Seller; *provided*, *however*, that Purchaser will not settle, adjust or compromise such Matter without the consent of Seller unless (A) there is no finding or admission of any violation of any Legal Requirement by Seller, and (B) the sole relief provided is monetary damages that are paid in full by Purchaser.

(f) To the extent Seller makes or is required to make any indemnification payment to Purchaser, Seller will be entitled to exercise, and will be subrogated to, any rights and remedies (including rights of indemnity, rights of contribution and other rights of recovery) that Purchaser or any of Purchaser's Affiliates may have against any other Person with respect to any Damages, circumstances or Matter to which such indemnification payment is directly or indirectly related. Purchaser will take such actions as Seller may reasonably request for the purpose of enabling Seller to perfect or exercise Seller's right of subrogation hereunder.

9.2 Survival of Purchaser Representations; Indemnification by Purchaser.

(a) All of the representations and warranties of Purchaser set forth in this Agreement and in any certificate delivered pursuant to this Agreement will survive the Closing but will terminate and expire, and will cease to be of any force or effect, on the Expiration Date, and all liability of Purchaser with respect to such representations and warranties (and any liability with respect to the certificate delivered to Seller pursuant to Section 7.4(a)) will thereupon be extinguished; *provided*, *however*, that if, prior to the Expiration Date, Seller shall have delivered to Purchaser, in conformity with all of the applicable procedures set forth in Section 9.2(d), an Indemnification Demand, then the specific claim set forth in such Indemnification Demand will survive (and will not be extinguished upon) the Expiration Date and will continue to survive until such claim is resolved in accordance with Section 9.3.

(b) Subject to the limitations set forth in this Section 9.2 and elsewhere in this Agreement, from and after the Closing Date, Purchaser will indemnify Seller and Subsidiary against any Damages that Seller or Subsidiary incurs as a result of (i) any breach by Purchaser of any of Purchaser's representations, warranties or covenants hereunder or in any certificate delivered by Purchaser pursuant to this Agreement or (ii) any and all Assumed Liabilities and any and all liabilities attributable to Purchaser's ownership of the Assets and operation of the Diagnostic Business on or after the Closing Date. The Purchaser's obligation to indemnify Seller and Subsidiary pursuant to this Section 9.2 will not relieve Purchaser of, or alter in any way, Purchaser's obligation to fully satisfy all of the Assumed Liabilities.

(c) Except in the case of fraud or intentional misrepresentation, the total amount of the payments that Purchaser can be required to make under or in connection with Section 9.2(b)(i) of this Agreement will be limited in the aggregate to $[***], and Purchaser's cumulative liability will in no event exceed such amount. Notwithstanding anything else in this agreement, except in the case of fraud or intentional misrepresentation, the indemnification remedies provided in this Section 9.2 shall be deemed to be the sole and exclusive remedy of Seller and Subsidiary with respect to any and all claims (under any theory of liability, including but not limited to contract claims and tort claims) relating to the subject matter of this Agreement. Furthermore, notwithstanding anything to the contrary herein, the limitations set forth in this Section 9.2(c) shall not apply to the obligations set forth in Sections 1.3, 1.4, 1.7, 1.11, 5.5, 5.6, 5.7, 5.8, or 5.9 of this Agreement.

(d) If Seller wishes to assert an indemnification claim against Purchaser, Seller will deliver to Purchaser, as soon as reasonably practicable, an Indemnification Demand pursuant to Section 9.3. Notwithstanding anything to the contrary contained in this Agreement, Seller will not be permitted to deliver any Indemnification Demand to Purchaser (and will not be entitled to assert any claim set forth in any Indemnification Demand) unless Seller has reasonably determined that the breach alleged in such Indemnification Demand has actually occurred.

9.3 Indemnification Procedure.

(a) In order for any Indemnified Person to seek indemnification under Section 9.1 or Section 9.2, as applicable, such Indemnified Person shall deliver, in good faith, a written demand (an "***Indemnification Demand***") to the Indemnifying Person which:

(i) states that the Indemnified Person has incurred or reasonably anticipates that it will have to incur Damages that are subject to indemnification under this Agreement;

(ii) a reasonably detailed description of the facts and circumstances giving rise to the indemnification claim, copies of any applicable complaints or demands, and the nature of the breach of representation, warranty, contractual provision or covenant to which such item is related;

(iii) a reasonably detailed description of, and a good faith estimate of the total amount of, the Damages actually incurred or expected to be incurred by the Indemnified Person and subject to indemnification hereunder (the "***Asserted Damages Amount***"); and

(iv) a demand for payment in the amount of such Damages.

SECOND AMENDMENT TO AMENDED AND RESTATED EXCLUSIVE LICENSE AGREEMENT

This SECOND AMENDMENT TO AMENDED AND RESTATED EXCLUSIVE LICENSE AGREEMENT (this "Second Amendment") is made as of the 30th day of September, 2013, by and between the University of Pittsburgh – Of the Commonwealth System of Higher Education, a non-profit corporation organized and existing under the laws of the Commonwealth of Pennsylvania ("University") and Exagen Diagnostics, Inc., a corporation existing under the laws of Delaware ("Licensee").

WHEREAS, University and Licensee have previously entered into an Amended and Restated Exclusive License Agreement dated as of August 2, 2011 (the "Agreement") and a First Amendment to Amended and Restated Exclusive License dated as of May 17, 2012 (the "First Amendment"); and

WHEREAS, the parties wish to amend the Agreement as set forth herein.

NOW, THEREFORE, in consideration of the foregoing and for good and valuable consideration, the receipt and sufficiency which are hereby acknowledged, the parties hereby agree as follows:

1. In consideration of the rights, privileges and license granted by the University hereunder, Licensee shall pay a fee in connection with this Second Amendment in the amount of [***] which shall be non-refundable and non-creditable against royalties or any other payments, and which shall be due immediately upon execution of this Second Amendment.

2. Amendments.

   (a) Article 1.7 of the Agreement is hereby deleted and replaced in its entirety as follows:

   "1.7 "PATENT RIGHTS" shall mean UNIVERSITY intellectual property described below and assigned to the UNIVERSITY:

   (a) The United States patents and/or patent applications listed in Exhibit A;

   (b) United States patents issued from the applications listed in Exhibit A and from divisionals and continuations and continuations in part of these applications; and

   (c) Claims of U.S. continuation in part and divisional applications, and of the resulting patents, which are directed to subject matter specifically described in the U.S. applications listed in Exhibit A."

   (b) A new Article 1.11 is added to the Agreement:

*** Certain information on this page has been omitted and filed separately with the Securities and Exchange Commission. Confidential treatment has been requested with respect to the omitted portions.

"1.11 "MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD" shall mean any and all applications of the Patent Rights in Monitoring of Organ Transplantation & Organ Rejection."

(c) Article 1.4(b) is hereby deleted and replaced in its entirety as follows:

"1.4(b) Manufactured by using a process or is employed to practice a process which is covered in whole or in part by an issued, unexpired claim or a pending claim contained in the PATENT RIGHTS in the country in which any such process in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD is used or in which such product or part thereof or service is used or sold."

(d) Article 2.1 is hereby deleted and replaced in its entirety as follows:

"2.1 Subject to the terms and conditions of this Agreement, University hereby grants to LICENSEE, to the extent it may lawfully do so, the right and exclusive license in the TERRITORY to make, have made, use, offer for sale, import and sell the LICENSED TECHNOLOGY in the SLE FIELD and the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD and to practice under the PATENT RIGHTS in the SLE FIELD and the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD to the end of the term for which the PATENT RIGHTS are granted, unless this Agreement is terminated as provided herein. UNIVERSITY reserves the royalty-free, nonexclusive right to practice under the PATENT RIGHTS for NON-COMMERCIAL EDUCATION AND RESEARCH PURPOSES and to use the LICENSED TECHNOLOGY for NON-COMMERCIAL EDUCATION AND RESEARCH PURPOSES."

(e) A new Article 3.4 is added to the Agreement:

"3.4. In addition, LICENSEE shall adhere to the following milestone in the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD: Within sixty (60) months from the Effective Date of this Agreement, begin a clinical trial for monitoring of organ transplantation and/or organ rejection claims."

(f) A new Article 3.5 is added to the Agreement:

"LICENSEE's failure to fulfill on a timely basis the milestone set forth in Section 3.4 hereof shall be grounds for UNIVERSITY to terminate this Agreement pursuant to Section 10.2(a); except that for a single time, if the milestone in Section 3.4 has not been completed within the time frame

allotted through no fault of LICENSEE and following the best efforts of LICENSEE to meet such milestone, LICENSEE may, on a one-time basis, notify the UNIVERSITY in writing that it desires a single six (6) month extension to meet such milestone and LICENSEE shall be deemed to have fulfilled the milestone requirement if LICENSEE makes a penalty payment of [***] dollars ($[***]) with both notice and penalty payment to be received by the UNIVERSITY within ten days of the applicable milestone achievement date. In such case the LICENSEE and UNIVERSITY shall negotiate a new time for attainment of such missed milestone (not to exceed six months) and subsequent timeframes relying upon the meeting of previous milestones may also be adjusted. Failure by LICENSEE to make the penalty payment or failure to achieve the milestone by the revised milestone date shall result in the FIELD of this Agreement to be automatically amended to remove the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD, and University shall be free to license the removed indication either exclusively or non-exclusively to any third party regardless of whether LICENSEE and UNIVERSITY execute a confirmatory Amendment to this Agreement to this effect. For the avoidance of doubt, in the event the previous sentence is triggered, LICENSEE'S exclusive rights in the SLE FIELD shall not be affected.

(g) Article 4.2 is hereby deleted and replaced in its entirety as follows:

"4.2. In the event that it should prove necessary for LICENSEE to license intellectual property rights owned by a third party in order to practice the LICENSED TECHNOLOGY in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD in order to avoid infringing the patent or other intellectual property rights of such third party, then LICENSEE shall be entitled to a credit of such third party royalties against royalties due to UNIVERSITY under Section 4.1(b), and Section 4.1(c), provided that (i) in no event shall the royalty rate applicable to NET SALES in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD be less than [***] percent ([***]%) and (ii) in no event shall the royalty rate applicable to NET SALES in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD from a sub-Licensee be less than [***] percent ([***]%)."

(h) Article 6.3 is hereby deleted and replaced in its entirety as follows:

"6.3. LICENSEE shall own any new patent application, and any patent that issues therefrom, or new technology in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD developed independently of the UNIVERSITY and UNIVERSITY employees and shall not owe the UNIVERSITY any fee or

royalty under section 4 relating to such a new patent application, and any patent that issues therefrom, or new technology."

(i) Article 7.2 is hereby deleted and replaced in its entirety as follows:

"During the term of this Agreement, LICENSEE shall have the right, but shall not be obligated, to prosecute at its own expense all infringements of the PATENT RIGHTS in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD if LICENSEE has notified UNIVERSITY in writing of its intent to prosecute. In furtherance of such right, UNIVERSITY hereby agrees that LICENSEE may include UNIVERSITY as a party plaintiff in any such suit, without expense to UNIVERSITY. [***]"

(j) Exhibit A of the Agreement is deleted and replaced with the attached Exhibit A.

(k) Exhibit B of the Agreement is hereby deleted.

2. Miscellaneous.

(a) Except as specifically amended above, all terms of the Agreement, as amended by the First Amendment, shall remain in full force and effect. UNIVERSITY to terminate this Agreement pursuant to Section 10.2(a); except that for a single time, if a milestone in Section 3.2 has not been completed within the time frame allotted through no fault of LICENSEE and following the best efforts of LICENSEE to meet such milestone, LICENSEE may, on a one-time basis, notify the UNIVERSITY in writing that it desires a single six (6) month extension to meet such milestone and LICENSEE shall be deemed to have fulfilled the milestone requirement if LICENSEE makes a penalty payment of [***] dollars ($[***]) with both notice and penalty payment to be received by the UNIVERSITY within ten days of the applicable milestone achievement date. 4.2 In the event that it should prove necessary for LICENSEE to license intellectual property rights owned by a third party in order to practice the LICENSED TECHNOLOGY in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD in order to avoid infringing the patent or other intellectual property rights of such third party, then LICENSEE shall be entitled to a credit of such third party royalties against royalties due to UNIVERSITY under Section 4.1(b) provided that (i) in no event shall the royalty rate applicable to NET SALES in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD be less than [***] percent ([***]%) and (ii) in no event shall the royalty rate applicable to NET SALES in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD from a sub-Licensee be less than [***] percent ([***]%).

4.3 All payments pursuant to this Agreement may be made by check or by wire transfer (along with applicable wire transfer, transaction, and/or foreign translation fees) in United States dollars without deduction or exchange, collection or other charges and directed to the address or, in the case of wire transfer, to the bank, set forth in Article 11. 4.4 Taxes imposed by any foreign or United States governmental agency on any payments to be made to UNIVERSITY by LICENSEE shall be paid by LICENSEE without deduction from any payment due to UNIVERSITY hereunder.

4.5 The balance of any payments pursuant to this Agreement, including those specified in Section 6.2, which are overdue shall bear interest, compounded monthly, calculated from the due date until payment is received at the rate of five percent (5%) per annum, or the prime rate (as quoted by The Wall Street Journal) plus two percent (2%), whichever is

higher. Payment of such interest by LICENSEE shall not negate or waive the right of UNIVERSITY to seek any other remedy, legal or equitable, to which it may be entitled because of the delinquency of any payment, including, but not limited to, termination of this Agreement as set forth in Article 10. Licensee shall reimburse University for any costs and expenses incurred in connection with collecting any overdue balance of payments with respect to Licensee's payment and reimbursement obligations under this Agreement, including the costs of engaging counsel or a collection agency for such purpose.

4.6 LICENSEE shall sell products and/or services resulting from LICENSED TECHNOLOGY to UNIVERSITY and its AFFILIATES upon request at such price(s) and on such terms and conditions as such products and/or services are made available to LICENSEE'S most favored customer.

ARTICLE 5 – REPORTS AND AUDIT

5.1 Within sixty (60) days after each March 31, June 30, September 30 and December 31 of each year during the term of this Agreement beginning in the year of the first commercial sale of LICENSED TECHNOLOGY, LICENSEE shall deliver to UNIVERSITY true, accurate and detailed reports of the following information in a form as illustrated in Exhibit B:

(a) Number of product and service NET SALES for LICENSEE and all sublicensees;

(b) Total billings and receivables for all such products and services;

(c) Deductions set forth in Section 1.8, each stated separately;

(d) Total royalties due;

(e) Name and addresses of sublicensees; and

(f) Total NON-ROYALTY SUBLICENSE INCOME received during such calendar quarter and total amount of payment due pursuant to Section 4.1(c).

5.2 LICENSEE shall keep full, true and accurate books of account, in accordance with generally accepted accounting principles, containing all information that may be necessary for the purpose of showing the amounts payable to UNIVERSITY hereunder. Such books of account shall be kept at LICENSEE'S principal place of business. Such books of account shall be open at all reasonable times for [***] years following the end of the calendar year to which they pertain, and for [***] years after the expiration or termination of this Agreement, for inspection by UNIVERSITY or its agents for the purpose of verifying LICENSEE'S royalty statement or compliance in other respects with this Agreement. The fees and expenses of UNIVERSITY'S representatives shall be borne by UNIVERSITY; however, if an error of more than [***] percent ([***]%) of the total payments due or owing for any year is discovered, then LICENSEE shall bear UNIVERSITY'S fees and expenses.

5.3 No later than ninety (90) days after December 31 of each calendar year during the term of this Agreement, LICENSEE shall provide to UNIVERSITY a written annual progress report, as illustrated in Exhibit C, describing LICENSEE'S progress on research and development, regulatory approvals, manufacturing, sublicensing, marketing and sales during the preceding twelve-month period ending December 31.

5.4 Notwithstanding the above, UNIVERSITY shall have the right, on an annual basis during the term of this Agreement to inspect technical and other information from LICENSEE sufficient to evidence whether and to what extent LICENSEE is: (a) practicing the PATENT RIGHTS; and (b) meeting its diligence obligations under Article 3, above.

5.5 LICENSEE shall report to the UNIVERSITY the date of the first commercial sale of a LICENSED TECHNOLOGY within sixty (60) days of occurrence in each country.

ARTICLE 6 – PATENT PROSECUTION

6.1 UNIVERSITY has or shall apply for and seek prompt issuance of and maintain during the term of this Agreement the PATENT RIGHTS in such foreign countries as may be designated by LICENSEE in a written notice to UNIVERSITY within a reasonable time in advance of the required foreign filing dates. LICENSEE shall have the opportunity to

advise and cooperate with UNIVERSITY in the prosecution, filing and maintenance of such patents. If UNIVERSITY decides to abandon the preparation, filing, prosecution or maintenance of any patent or patent application covered by the PATENT RIGHTS, then UNIVERSITY shall provide written notice to LICENSEE, and LICENSEE shall have the right at its sole expense to assume control of the preparation, filing, prosecution and maintenance of such patent application or patent. If LICENSEE no longer wishes to support the prosecution or maintenance of any patent or patent application covered by the PATENT RIGHTS, then LICENSEE shall provide written notice to UNIVERSITY, and LICENSEE shall not be responsible for such corresponding patent expenses that are incurred subsequent to the date of receipt by UNIVERSITY of such written notice by LICENSEE; such returned patent or patent application shall be excluded from the PATENT RIGHTS. Licensee shall notify UNIVERSITY immediately if, at any time during the term of this Agreement, LICENSEE or any of its sublicensees does not qualify as a “Small Entity” as provided by the United States Patent and Trademark Office.

6.2 All fees and costs, including attorneys’ fees, relating to the filing, prosecution, maintenance, and post grant proceedings relating to the PATENT RIGHTS shall be the responsibility of LICENSEE, whether incurred prior to or after the Effective Date. LICENSEE shall not be required to reimburse the UNIVERSITY for any fees under this section that have been paid to the UNIVERSITY by prior licensees or any other third party. Fees and costs incurred shall be paid by LICENSEE within thirty (30) days after receipt of UNIVERSITY’S invoice therefor. Additionally, Licensee shall be liable to UNIVERSITY for all of UNIVERSITY’S out-of-pocket filing, prosecution, and maintenance costs (including all attorneys’ fees and costs), for any and all patent prosecution and maintenance actions that will be taken by patent counsel after the term of this Agreement but in response to any instructions that were sent during the term of this Agreement from UNIVERSITY to patent counsel relating to the PATENT RIGHTS, with the proviso that such instructions were approved in writing by LICENSEE. Payments pursuant to this Section 6.2 are not creditable against royalties or any other payment due to UNIVERSITY under this Agreement.

6.3 LICENSEE shall own any new patent application, and any patent that issues therefrom, or new technology in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD developed independently of the UNIVERSITY and UNIVERSITY employees and shall not owe the UNIVERSITY any fee or royalty under section 4 relating to such a new patent application, and any patent that issues therefrom, or new technology.

ARTICLE 7 – INFRINGEMENT ACTIONS

7.1 LICENSEE shall inform UNIVERSITY promptly in writing of any alleged infringement of the PATENT RIGHTS by a third party and of any available evidence thereof.

7.2 During the term of this Agreement, LICENSEE shall have the right, but shall not be obligated, to prosecute at its own expense all infringements of the PATENT RIGHTS in the SLE FIELD or the MONITORING OF ORGAN TRANSPLANTATION & ORGAN REJECTION FIELD and in the TERRITORY if LICENSEE has notified UNIVERSITY in writing of its intent to prosecute; provided, however, that such right to bring such an infringement action shall remain in effect only for so long as the license granted herein remains exclusive. In furtherance of such right, UNIVERSITY hereby agrees that LICENSEE may include UNIVERSITY as a party plaintiff in any such suit, without expense to UNIVERSITY. [***]

7.3 If within six (6) months after having been notified of any alleged infringement, LICENSEE shall have been unsuccessful in persuading the alleged infringer to desist and shall not have brought and shall not be diligently prosecuting an infringement action, or if LICENSEE shall notify UNIVERSITY at any time prior thereto of its intention not to bring suit against any alleged infringer, then, and in those events only, UNIVERSITY shall have the right, but shall not be obligated, to prosecute at its own expense any

infringement of the PATENT RIGHTS, and UNIVERSITY may, for such purposes, use the name of LICENSEE as party plaintiff. [***]

7.4 In the event that a declaratory judgment action alleging invalidity or infringement of any of the PATENT RIGHTS shall be brought against UNIVERSITY, LICENSEE, at its option, shall have the right, within thirty (30) days after commencement of such action, to intervene and take over the sole defense of the action at its own expense.

7.5 In any infringement suit either party may institute to enforce PATENT RIGHTS pursuant to this Agreement, the other party shall, at the request and expense of the party initiating such suit, cooperate in all respects and, to the extent possible, have its employees testify when requested and make available relevant records, information, samples, specimens, and other evidence upon request.

ARTICLE 8 – INDEMNIFICATION/INSURANCE/LIMITATION OF LIABILITY

8.1 LICENSEE shall at all times during the term of this Agreement and thereafter indemnify, defend and hold UNIVERSITY, its trustees, officers, faculty member, employees and Affiliates ("INDEMNIFIED PARTIES") harmless against all claims and expenses, including legal expenses and reasonable attorneys' fees, arising out of the death of or injury to any person or persons or out of any damage to property or the environment, and against any other claim, proceeding, demand, expense and liability of any kind whatsoever resulting from: (i) the production, manufacture, sale, use, lease, consumption or advertisement of the LICENSED TECHNOLOGY by Licensee to its sublicensees, (ii) the practice by LICENSEE or any Affiliate or sublicensee of the PATENT RIGHTS; or (iii) arising from or relating to this License Agreement. LICENSEE shall provide this defense and indemnity whether or not any INDEMNIFIED PARTIES, either jointly or severally, is named as a party defendant and whether or not any INDEMNIFIED PARTIES is alleged to be negligent or otherwise responsible for any injuries to person or property. The obligation of LICENSEE to defend and indemnify as set forth herein shall

survive termination of this Agreement and shall not be limited by any other limitation of liability elsewhere in this Agreement.

8.2 LICENSEE shall obtain and carry in full force and effect liability insurance which shall protect LICENSEE and UNIVERSITY in regard to events covered by Section 8.1 above, as provided below:

	COVERAGE	LIMITS
(a)	Commercial General Liability, including, but not limited to, Products, Contractual, Fire, Legal and Personal Injury	$1,000,000 Combined Single Limits for Bodily Injury and Property Damage
(b)	Professional Liability	$5,000,000
(c)	Products Liability	$5,000,000, to be effective on or before the date of first sale of LICENSED TECHNOLOGY products.

The UNIVERSITY of Pittsburgh is to be named as an additional insured with respect to insurance policies identified in Sections 8.2(a), 8.2(b), and 8.2(c) above. Certificates of insurance evidencing the coverage required above shall be filed with the UNIVERSITY'S Office of Technology Management, 200 Gardner Steel Conference Center, Pittsburgh, PA 15260, no later than fifteen (15) days after execution of this Agreement and annually thereafter. Such certificates shall provide that the insurer will give the UNIVERSITY not less than thirty (30) days advance written notice of any material changes in or cancellation of coverage.

8.3 UNIVERSITY, AND ITS AGENTS AND/OR EMPLOYEES, MAKE NO REPRESENTATION AND EXTEND NO WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND VALIDITY OF PATENT RIGHTS CLAIMS, ISSUED OR PENDING. NOTHING IN THIS AGREEMENT SHALL BE CONSTRUED AS A REPRESENTATION OR WARRANTY THAT THE PRACTICE BY LICENSEE OF THE LICENSE GRANTED HEREUNDER SHALL NOT INFRINGE THE PATENT RIGHTS OF ANY THIRD

PARTY. UNIVERSITY ADDITIONALLY DISCLAIMS ALL OBLIGATIONS AND LIABILITIES ON THE PART OF UNIVERSITY, ITS AGENTS AND/OR EMPLOYEES FOR DAMAGES, INCLUDING, BUT NOT LIMITED TO, DIRECT, INDIRECT, SPECIAL AND CONSEQUENTIAL DAMAGES, ATTORNEYS' AND EXPERTS' FEES, AND COURT COSTS (EVEN IF UNIVERSITY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, FEES OR COSTS), ARISING OUT OF OR IN CONNECTION WITH THIS AGREEMENT, INCLUDING THE MANUFACTURE, USE OR SALE OF THE PRODUCT(S) AND SERVICE(S) LICENSED UNDER THIS AGREEMENT. LICENSEE ASSUMES ALL RESPONSIBILITY AND LIABILITY FOR LOSS OR DAMAGE CAUSED BY A PRODUCT THAT IS MANUFACTURED, USED OR SOLD BY LICENSEE (INCLUDING SUBLICENSEE SALES) WHICH IS LICENSED TECHNOLOGY HEREUNDER.

ARTICLE 9 – ASSIGNMENT

Except as expressly provided hereunder, this Agreement is not assignable without the prior written consent of UNIVERSITY which consent shall not be unreasonably withheld, and any attempt to do so shall be null and void, provided that LICENSEE may assign this Agreement and its rights and obligations thereunder, without the UNIVERSITY'S prior written consent in connection with the transfer or sale of all or substantially all of the LICENSEE'S business relating to the PATENT RIGHTS and LICENSED TECHNOLOGY to a third party, whether by merger, sale of stock, sale of assets or otherwise subject to LICENSEE providing at least 10 business days written notification to UNIVERSITY and further subject to the assignee agreeing in writing to be bound to all the terms and conditions of this License. The rights and obligations of the parties under this Agreement shall be binding upon and inure to the benefit of the successors and permitted assigns of the parties. Any assignment not in accordance with this Article 9 shall be null and void.

ARTICLE 10 – TERM AND TERMINATION

10.1 This Agreement shall terminate upon the expiration of the last surviving claim of the PATENT RIGHTS.

10.2 UNIVERSITY shall have the right to terminate this Agreement, upon written notice, if:

(a) LICENSEE defaults in the performance of any of the obligations herein contained and such default has not been cured within [***] days after receiving written notice thereof from UNIVERSITY; or

(b) LICENSEE ceases to carry out its business, becomes bankrupt or insolvent, applies for or consents to the appointment of a trustee, receiver or liquidator of its assets or seeks relief under any law for the aid of debtors.

10.3 LICENSEE may terminate this Agreement upon six (6) months prior written notice to UNIVERSITY and upon payment of all amounts accrued or due to UNIVERSITY through the effective date of termination, including patent cost reimbursement pursuant to Article 6 hereof.

10.4 Upon termination of this Agreement, neither party shall be released from any obligation that matured prior to the effective date of such termination. LICENSEE and any sublicensee may, however, after the effective date of such termination, sell all products under the LICENSED TECHNOLOGY which LICENSEE produced prior to the effective date of such termination, provided that LICENSEE shall pay to UNIVERSITY the royalties thereon as required by Article 4 hereof and submit the reports required by Article 5 hereof.

ARTICLE 11 – NOTICES

11.1 Any notice or communication pursuant to this Agreement shall be sufficiently made or given if sent by certified or registered mail, postage prepaid, or by overnight courier, with proof of delivery by receipt, addressed to the address below or as either party shall designate by written notice to the other party, or if in accordance with Section 11.3.

13.1 This Agreement shall be construed and interpreted in accordance with the laws of the Commonwealth of Pennsylvania. The forum for any action relating to this Agreement, including those brought against individuals such as UNIVERSITY employees or agents, shall be the Courts of Allegheny County, Pennsylvania, or, if in a federal proceeding, the United States District Court for the Western District of Pennsylvania.

13.2 The parties acknowledge that this Agreement sets forth the entire understanding and intentions of the parties hereto as to the subject matter hereof and supersedes all previous representations, negotiations, or understandings between the parties and/or its employees or agents, whether written or oral, regarding the subject matter of this Agreement.

13.3 Nothing contained in this Agreement shall be construed as conferring upon either party any right to use in advertising, publicity or other promotional activities any name, trade name, trademark, or other designation of the other party, including any contraction, abbreviation, or simulation of any of the foregoing. Without the express written approval of the other party, neither party shall use any designation of the other party in any promotional activity associated with this Agreement or the LICENSED TECHNOLOGY. Neither party shall issue any press release or make any public statement in regard to this Agreement without the prior written approval of the other party, except LICENSEE may make such disclosures as are necessary or appropriate to comply with its obligations under applicable laws, rules and regulations of the Securities and Exchange Commission and securities exchange upon which LICENSEE'S securities are listed.

13.4 If one or more of the provisions of this Agreement shall be held invalid, illegal or unenforceable, the remaining provisions shall not in any way be affected or impaired thereby. 13.5 Failure at any time to require performance of any of the provisions herein shall not waive or diminish a party's right thereafter to demand compliance therewith or with any other

provision. Waiver of any default shall not waive any other default. A party shall not be deemed to have waived any rights hereunder unless such waiver is in writing and signed by a duly authorized officer of the party making such waiver.

13.6 LICENSEE acknowledges that UNIVERSITY is free to publish the results of the research activities of its faculty, staff and students, even though such publication may involve the PATENT RIGHTS or LICENSED TECHNOLOGY. UNIVERSITY agrees to submit to LICENSEE any proposed publication or presentation regarding the subject matter specifically described in the PATENT RIGHTS for prior review by LICENSEE at least [***] days before its submittal for publication or its presentation. LICENSEE may, within [***] days after receipt of such proposed publication, request that such proposed publication be delayed not more than [***] days in order to allow for protection of intellectual property rights.

13.7 The term “Confidential Information” shall mean any and all proprietary or confidential information of UNIVERSITY or LICENSEE which may be exchanged between parties at any time and from time to time during the term of this Agreement. The parties agree that during the term of this Agreement, and for a period of [***] years after this Agreement terminates, a party receiving Confidential Information of the other party will (a) maintain in confidence such Confidential Information; (b) not disclose such Confidential Information to any third party and (c) not use such confidential Information for any purpose except those permitted in this Agreement. Notwithstanding the foregoing, if a party is required by law, regulation or court order to disclose Confidential Information of the other party, the party required to make such disclosure shall limit the same to the minimum required to make such disclosure shall limit the same to the minimum required

13.11 If LICENSEE challenges the validity or enforceability of UNIVERSITY'S PATENT RIGHTS or UNIVERSITY'S ownership of the PATENT RIGHTS anywhere in the world, the LICENSEE shall continue to pay to UNIVERSITY all royalties and other financial obligations required under this Agreement, to include patent costs and fees. If any such challenge is unsuccessful by Licensee, the royalty rates and any non-royalty sublicense income rate set forth in Article 4.1 above shall automatically double in value,

to include all royalty minimums and floors; and Licensee shall reimburse the University for all fees and costs associated with defending such action, including but not limited to attorneys fees and expert fees. The effective date of such increase in royalty rates shall be the date of the first court order or date of issuance of a re-examination certificate (or foreign equivalents thereof) declaring any claim of the PATENT RIGHTS as valid or enforceable. Lessor shall deliver that portion of the Premises contained within the Building (**"Unit**") to Lessee broom clean and free of debris on the Commencement Date or the Early Possession Date, whichever first occurs ("**Start Date**"), and, so long as the required service contracts described in Paragraph 7.1(b) below are obtained by Lessee and in effect within thirty days following the Start Date, warrants that the existing electrical, plumbing, fire sprinkler, lighting, heating, ventilating and air conditioning systems ("**HVAC**"), loading doors, sump pumps, if any, and all other such elements in the Unit, other than those constructed by Lessee, shall be in good operating condition on said date, that the structural elements of the roof, bearing walls and foundation of the Unit shall be free of material defects, and that the Unit does not contain hazardous levels of any mold or fungi defined as toxic under applicable state or federal law. If a non-compliance with such warranty exists as of the Start Date, or if one of such systems or elements should malfunction or fall within the appropriate warranty period, Lessor shall, as Lessor's sole obligation with respect to such matter, except as otherwise provided in this Lease, promptly after receipt of written notice from Lessee setting forth with specificity the nature and extent of such non-compliance, malfunction or failure, rectify same at Lessor's expense. The warranty periods shall be as follows: (i) 6 months as to the HVAC systems, and (ii) 30 days as to the remaining systems and other elements of the Unit. If Lessee does not give Lessor the required notice within the appropriate warranty period, correction of any such non-compliance, malfunction or failure shall be the obligation of Lessee at Lessee's sole cost and expense (except for the repairs to the fire sprinkler systems, roof, foundations, and/or bearing walls - see Paragraph 7).

2.3 **Compliance**. Lessor warrants that to the best of its knowledge the improvements on the Premises and the Common Areas comply with the building codes that were in effect at the time that each such Improvement, or portion thereof, was constructed, and also with all applicable laws, covenants or restrictions of record, regulations, and ordinances in effect on the Start Date ("**Applicable Requirements**"). Said warranty does not apply to the use to which Lessee will put the Premises, modifications which may be required by the Americans with Disabilities Act or any similar laws as a result of Lessee's use (see Paragraph 49), or to any Alterations or Utility installations (as defined in Paragraph 7.3(a)) made or to be made by Lessee. **NOTE: Lessee is responsible for determining whether or not the Applicable Requirements and especially the zoning are appropriate for Lessee's intended use, and acknowledges that past uses of the Premises may no longer be allowed.** If the Premises do not comply with said warranty, Lessor shall, except as otherwise provided, promptly after receipt of written notice from Lessee setting forth with specificity the nature and extent of such non-compliance, rectify the same at Lessor's expense. If Lessee does not give Lessor written notice of a non-compliance with this warranty within 6 months following the Start Date, correction of that non-compliance shall be the obligation of Lessee at Lessee's sole cost and expense. If the Applicable Requirements are hereafter changed so as to require during the term of this Lease the construction of an addition to or an alteration of the Unit, Premises and/or Building, the remediation of any Hazardous Substance, or the reinforcement or other physical modification of the Unit, Premises and/or Building ("**Capital Expenditure**"), Lessor and Lessee shall allocate the cost of such work as follows:

(a) Subject to Paragraph 2.3(c) below, if such Capital Expenditures are required as a result of the specific and unique use of the Premises by Lessee as compared with uses by tenants in general, Lessee shall be fully responsible for the cost thereof, provided, however that if such Capital Expenditure is required during the last 2 years of this Lease and the cost thereof exceeds 6 months' Base Rent, Lessee may instead terminate this Lease unless Lessor notifies Lessee, in writing, within 10 days after receipt of Lessee's termination notice that Lessor has elected to pay the difference between the actual cost thereof and the amount equal to 6 months' Base Rent. If Lessee elects termination, Lessee shall immediately cease the use of the Premises which requires such Capital Expenditure and deliver to Lessor written notice specifying a termination date at least 90 days thereafter. Such termination date shall, however, in no event be earlier than the last day that Lessee could legally utilize the Premises without commencing such Capital Expenditure.

(b) If such Capital Expenditure is not the result of the specific and unique use of the Premises by Lessee (such as, governmentally mandated seismic modifications), then Lessor shall pay for such Capital Expenditure and Lessee shall only be obligated to pay, each month during the remainder of the term of this Lease, on the date that on which the Base Rent is due, an amount equal to 144th of the portion of such costs reasonably attributable to the Premises. Lessee shall pay interest on the balance but may prepay its obligation at any time. If, however, such Capital Expenditure is required during the last 2 years of this Lease or if Lessor reasonably determines that it is not economically feasible to pay its share thereof, Lessor shall have the option to terminate this Lease upon 90 days prior written notice to Lessee unless Lessee notifies Lessor, in writing, within 10 days after receipt of Lessor's termination notice that Lessee will pay for such Capital Expenditure. If Lessor does not elect to terminate, and fails to tender its share of any such Capital Expenditure, Lessee may advance such funds and deduct same, with Interest, from Rent until Lessor's share of such costs have been fully paid. If Lessee is unable to finance Lessor's share, or if the balance of the Rent due and payable for the remainder of this Lease is not sufficient to fully reimburse Lessee on an offset basis, Lessee shall have the right to terminate this Lease upon 30 days written notice to Lessor.

(c) Notwithstanding the above, the provisions concerning Capital Expenditures are intended to apply only to non-voluntary, unexpected, and new Applicable Requirements. If the Capital Expenditures are instead triggered by Lessee as a result of an actual or proposed change in use, change in intensity of use, or modification to the Premises then, and in that event, Lessee shall either: (i) immediately cease such changed use or intensity of use and/or take such other steps as may be necessary to eliminate the requirement for such Capital Expenditure, or (ii) complete such Capital Expenditure at its own expense. Lessee shall not have any right to terminate this Lease.

2.4 **Acknowledgements**. Lessee acknowledges that: (a) it has been advised by Lessor and/or Brokers to satisfy itself with respect to the condition of the Premises (including but not limited to the electrical, HVAC and fire sprinkler systems, security, environmental aspects, and compliance with Applicable Requirements and the Americans with Disabilities Act), and their suitability for Lessee's intended use, (b) Lessee has made such investigation as it deems necessary with reference to such matters and assumes all responsibility therefor as the same relate to its occupancy of the Premises, and (c) neither Lessor, Lessor's agents, nor Brokers have made any oral or written representations or warranties with respect to said matters other than as set forth in this Lease. In addition, Lessor acknowledges that: (i) Brokers have made no representations, promises or warranties concerning Lessee's ability to honor the Lease or suitability to occupy the Premises, and (ii) it is Lessor's sole responsibility to investigate the financial capability and/or suitability of all proposed tenants.

2.5 **Lessee as Prior Owner/Occupant**. The warranties made by Lessor in Paragraph 2 shall be of no force or effect if immediately prior to the Start Date Lessee was the owner or occupant of the Premises. In such event, Lessee shall be responsible for any necessary corrective work.

2.6 **Vehicle Parking**. Lessee shall be entitled to use the number of parking spaces specified in Paragraph 1.2(b) on those portions of the Common Areas designated from time to time by Lessor for parking. Lessee shall not use more parking spaces than said number. Said parking spaces shall be used for parking by vehicles no larger than full-size passenger automobiles or pick-up trucks, herein called "**Permitted Size Vehicles.**" Lessor may regulate the loading and unloading of vehicles by adopting Rules and Regulations as provided in Paragraph 2.9. No vehicle other than

right, without notice, in addition to such other rights and remedies that it may have, to remove or tow away the vehicle involved and charge the cost to Lessee, which cost shall be immediately payable upon demand by Lessor.

2.7 **Common Areas - Definition**. The term "**Common Areas**" is defined as all areas and facilities outside the Premises and within the exterior boundary line of the Project and interior utility raceways and installations within the Unit that are provided and designated by the Lessor from time to time for the general non-exclusive use of Lessor, Lessee and other tenants of the Project and their respective employees, suppliers, shippers, customers, contractors and invitees, including parking areas, loading and unloading areas, trash areas, roadways, walkways, driveways and landscaped areas.

2.8 **Common Areas - Lessee's Rights**. Lessor grants to Lessee, for the benefit of Lessee and its employees, suppliers, shippers, contractors, customers and invitees, during the term of this Lease, the non-exclusive right to use, in common with others entitled to such use, the Common Areas as they exist from time to time, subject to any rights, powers, and privileges reserved by Lessor under the terms hereof or under the terms of any rules and regulations or restrictions governing the use of the Project. Under no circumstances shall the right herein granted to use the Common Areas be deemed to include the right to store any property, temporarily or permanently, in the Common Areas. Any such storage shall be permitted only by the prior written consent of Lessor or Lessor's designated agent, which consent may be revoked at any time. In the event that any unauthorized storage shall occur then Lessor shall have the right, without notice, in addition to such other rights and remedies that it may have, to remove the property and charge the cost to Lessee, which cost shall be immediately payable upon demand by Lessor.

2.9 **Common Areas - Rules and Regulations**. Lessor or such other person(s) as Lessor may appoint shall have the exclusive control and management of the Common Areas and shall have the right, from time to time, to establish, modify, amend and enforce reasonable rules and regulations ("**Rules and Regulations**") for the management, safety, care, and cleanliness of the grounds, the parking and unloading of vehicles and the preservation of good order, as well as for the convenience of other occupants or tenants of the Building and the Project and their invitees. Lessee agrees to abide by and conform to all such Rules and Regulations, and shall use its best efforts to cause its employees, suppliers, shippers, customers, contractors and invitees to so abide and conform. Lessor shall not be responsible to Lessee for the non-compliance with said Rules and Regulations by other tenants of the Project.

2.10 **Common Areas - Changes**. Lessor shall have the right, in Lessor's sole discretion, from time to time:

(a) To make changes to the Common Areas, including, without limitation, changes in the location, size, shape and number of driveways, entrances, parking spaces, parking areas, loading and unloading areas, ingress, egress, direction of traffic, landscaped areas, walkways and utility raceways;

(b) To close temporarily any of the Common Areas for maintenance purposes so long as reasonable access to the Premises remains available;

(c) To designate other land outside the boundaries of the Project to be a part of the Common Areas;

(d) To add additional buildings and improvements to the Common Areas;

(e) To use the Common Areas while engaged in making additional improvements, repairs or alterations to the Project, or any portion thereof; and

(f) To do and perform such other acts and make such other changes in, to or with respect to the Common Areas and Project as Lessor may, in the exercise of sound business judgment, deem to be appropriate.

3. **Term**.

3.1 **Term**. The Commencement Date, Expiration Date and Original Term of this Lease are as specified in Paragraph 1.3.

3.2 **Early Possession**. If Lessee totally or partially occupies the Premises prior to the Commencement Date, the obligation to pay Base Rent shall be abated for the period of such early possession. All other terms of this Lease (including but not limited to the obligations to pay Lessee's Share of Common Area Operating Expenses, Real Property Taxes and insurance premiums and to maintain the Premises) shall be in effect during such period. Any such early possession shall not affect the Expiration Date.

3.3 **Delay in Possession**. Lessor agrees to use its best commercially reasonable efforts to deliver possession of the Premises to Lessee by the Commencement Date. If, despite said efforts, Lessor is unable to deliver possession as agreed, Lessor shall not be subject to any liability therefor, nor shall such failure affect the validity of this Lease or change the Expiration Date. Lessee shall not, however, be obligated to pay Rent or perform its other obligations until Lessor delivers possession of the Premises and any period of rent abatement that Lessee would otherwise have enjoyed shall run from the date of the delivery of possession and continue for a period equal to what Lessee would otherwise have enjoyed, but minus any days of delay caused by the acts or omissions of Lessee. If possession is not delivered within 60 days after the Commencement Date, Lessee may, at its option, by notice in writing within 10 days after the end of such 60 day period, cancel this Lease, in which event the Parties shall be discharged from all obligations hereunder. If such written notice is not received by Lessor within said 10 day period, Lessee's right to cancel shall terminate. Except as otherwise provided, if possession is not tendered to Lessee by the Start Date and Lessee does not terminate this Lease, as aforesaid, any period of rent abatement that Lessee would otherwise have enjoyed shall run from the date of delivery of possession and continue for a period equal to what Lessee would otherwise have enjoyed under the terms hereof, but minus any days of delay caused by the acts or omissions of Lessee. If possession of the Premises is not delivered within 4 months after the Commencement Date, this Lease shall terminate unless other agreements are reached between Lessor and Lessee, in writing.

3.4 **Lessee Compliance**. Lessor shall not be required to tender possession of the Premises to Lessee until Lessee complies with its obligation to provide evidence of insurance (Paragraph 8.5). Pending delivery of such evidence, Lessee shall be required to perform all of its obligations under this Lease from and after the Start Date, including the payment of Rent, notwithstanding Lessor's election to withhold possession pending receipt of such evidence of insurance. Further, if Lessee is required to perform any other conditions prior to or concurrent with the Start Date, the Start Date shall occur but Lessor may elect to withhold possession until such conditions are satisfied.

4. **Rent**.

4.1 **Rent Defined**. All monetary obligations of Lessee to Lessor under the terms of this Lease (except for the Security Deposit) are deemed to be rent ("**Rent**").

4.2 **Common Area Operating Expenses**. Lessee shall pay to Lessor during the term hereof, in addition to the Base Rent, Lessee's Share (as specified in Paragraph 1.6) of all Common Area Operating Expenses, as hereinafter defined, during each calendar year of the term of this Lease, in accordance with the following provisions;

(a) "**Common Area Operating Expenses**" are defined, for purposes of this Lease, as all costs incurred by Lessor relating to the ownership and operation of the Project, including, but not limited to, the following:

(i) The operation, repair and maintenance, in neat, clean, good order and condition, and if necessary the

(cc) Any fire sprinkler systems.

(ii) The cost of water, gas, electricity and telephone to service the Common Areas and any utilities not separately metered.

(iii) The cost of trash disposal, pest control services, property management, security services, owners' association dues and fees, the cost to repaint the exterior of any structures and the cost of any environmental inspections.

(iv) Reserves set aside for maintenance, repair and/or replacement of Common Area improvements and equipment.

(v) Real Property Taxes (as defined in Paragraph 10).

(vi) The cost of the premiums for the insurance maintained by Lessor pursuant to Paragraph 8.

(vii) Any deductible portion of an insured loss concerning the Building or the Common Areas.

(viii) Auditors', accountants' and attorneys' fees and costs related to the operation, maintenance, repair and replacement of the Project.

(ix) The cost of any capital improvement to the Building or the Project not covered under the provisions of Paragraph 2.3 provided; however, that Lessor shall allocate the cost of any such capital improvement over a 12 year period and Lessee shall not be required to pay more than Lessee's Share of 1/144th of the cost of such capital improvement in any given month.

(x) The cost of any other services to be provided by Lessor that are stated elsewhere in this Lease to be a Common Area Operating Expense.

(b) Any Common Area Operating Expenses and Real Property Taxes that are specifically attributable to the Unit, the Building or to any other building in the Project or to the operation, repair and maintenance thereof, shall be allocated entirely to such Unit, Building, or other building. However, any Common Area Operating Expenses and Real Property Taxes that are not specifically attributable to the Building or to any other building or to the operation, repair and maintenance thereof, shall be equitably allocated by Lessor to all buildings in the Project.

(c) The inclusion of the improvements, facilities and services set forth in Subparagraph 4.2(a) shall not be deemed to impose an obligation upon Lessor to either have said improvements or facilities or to provide those services unless the Project already has the same, Lessor already provides the services, or Lessor has agreed elsewhere in this Lease to provide the same or some of them.

(d) Lessee's Share of Common Area Operating Expenses is payable monthly on the same day as the Base Rent is due hereunder. The amount of such payments shall be based on Lessor's estimate of the annual Common Area Operating Expenses. Within 60 days after written request (but not more than once each year) Lessor shall deliver to Lessee a reasonably detailed statement showing Lessee's Share of the actual Common Area Operating Expenses incurred during the preceding year. If Lessee's payments during such year exceed Lessee's Share, Lessor shall credit the amount of such over-payment against Lessee's future payments. If Lessee's payments during such year were less than Lessee's Share, Lessee shall pay to Lessor the amount of the deficiency within 10 days after delivery by Lessor to Lessee of the statement.

(e) Common Area Operating Expenses shall not include any expenses paid by any tenant directly to third parties, or as to which Lessor is otherwise reimbursed by any third party, other tenant, or insurance proceeds. Landlord shall cap the common area expense increase to five percent (5%) per year for the initial Lease Term.

4.3 **Payment**. Lessee shall cause payment of Rent to be received by Lessor in lawful money of the United States, without offset or deduction (except as specifically permitted in this Lease), on or before the day on which it is due. All monetary amounts shall be rounded to the nearest whole dollar. In the event that any invoice prepared by Lessor is inaccurate such inaccuracy shall not constitute a waiver and Lessee shall be obligated to pay the amount set forth in this Lease. Rent for any period during the term hereof which is for less than one full calendar month shall be prorated based upon the actual number of days of said month. Payment of Rent shall be made to Lessor at its address stated herein or to such other persons or place as Lessor may from time to time designate in writing. Acceptance of a payment which is less than the amount then due shall not be a waiver of Lessor's rights to the balance of such Rent, regardless of Lessor's endorsement of any check so stating. In the event that any check, draft, or other instrument of payment given by Lessee to Lessor is dishonored for any reason. Lessee agrees to pay to Lessor the sum of $25 in addition to any Late Charge and Lessor, at its option, may require all future Rent be paid by cashier's check. Payments will be applied first to accrued late charges and attorney's fees, second to accrued interest, then to Base Rent and Common Area Operating Expenses, and any remaining amount to any other outstanding charges or costs.

5. **Security Deposit**. Lessee shall deposit with Lessor upon execution hereof the Security Deposit as security for Lessee's faithful performance of its obligations under this Lease. If Lessee fails to pay Rent, or otherwise Defaults under this Lease, Lessor may use, apply or retain all or any portion of said Security Deposit for the payment of any amount due already due Lessor, for Rents which will be due in the future, and/ or to reimburse or compensate Lessor for any liability, expense, loss or damage which Lessor may suffer or incur by reason thereof. If Lessor uses or applies all or any portion of the Security Deposit, Lessee shall within 10 days after written request therefor deposit monies with Lessor sufficient to restore said Security Deposit to the full amount required by this Lease. If the Base Rent increases during the term of this Lease, Lessee shall, upon written request from Lessor, deposit additional monies with Lessor so that the total amount of the Security Deposit shall at all times bear the same proportion to the Increased Base Rent as the initial Security Deposit bore to the initial Base Rent. Should the Agreed Use be amended to accommodate a material change in the business of Lessee or to accommodate a sublessee or assignee, Lessor shall have the right to increase the Security Deposit to the extent necessary, in Lessor's reasonable judgment, to account for any increased wear and tear that the Premises may suffer as a result thereof. If a change in control of Lessee occurs during this Lease and following such change the financial condition of Lessee is, in Lessor's reasonable judgment, significantly reduced, Lessee shall deposit such additional monies with Lessor as shall be sufficient to cause the Security Deposit to be at a commercially reasonable level based on such change in financial condition. Lessor shall not be required to keep the Security Deposit separate from its general accounts. Within 90 days after the expiration or termination of this Lease, Lessor shall return that portion of the Security Deposit not used or applied by Lessor. No part of the Security Deposit shall be considered to be held in trust, to bear interest or to be prepayment for any monies to be paid by Lessee under this Lease.

6. **Use**.

6.1 **Use**. Lessee shall use and occupy the Premises only for the Agreed Use, or any other legal use which is reasonably comparable thereto, and for no other purpose. Lessee shall not use or permit the use of the Premises in a manner that is unlawful, creates damage, waste or a nuisance, or that disturbs occupants of or causes damage to neighboring premises or properties. Other than guide, signal and seeing eye dogs, Lessee shall not keep or allow in the

Premises any pets, animals, birds, fish, or reptiles. Lessor shall not unreasonably withhold or delay its consent to any written request for a modification of the Agreed Use, so long as the same will not impair the structural integrity of the Building or the mechanical or electrical systems therein and/or is not significantly more burdensome to the Project. If Lessor elects to withhold consent, Lessor shall within 7 days after such request give written notification of same, which notice shall include an explanation of Lessor’s objections to the change in the Agreed Use.

statute or common law theory. Hazardous Substances shall include, but not be limited to, hydrocarbons, petroleum, gasoline, and/or crude oil or any products, by-products or fractions thereof. Lessee shall not engage in any activity in or on the Premises which constitutes a Reportable Use of Hazardous Substances without the express prior written consent of Lessor and timely compliance (at Lessee's expense) with all Applicable Requirements. "**Reportable Use**" shall mean (i) the installation or use of any above or below ground storage tank, (ii) the generation, possession, storage, use, transportation, or disposal of a Hazardous Substance that requires a permit from, or with respect to which a report, notice, registration or business plan is required to be filed with, any governmental authority, and/or (iii) the presence at the Premises of a Hazardous Substance with respect to which any Applicable Requirements requires that a notice be given to persons entering or occupying the Premises or neighboring properties. Notwithstanding the foregoing, Lessee may use any ordinary and customary materials reasonably required to be used in the normal course of the Agreed Use, ordinary office supplies (copier toner, liquid paper, glue, etc.) and common household cleaning materials, so long as such use is in compliance with all Applicable Requirements, is not a Reportable Use, and does not expose the Premises or neighboring property to any meaningful risk of contamination or damage or expose Lessor to any liability therefor. In addition, Lessor may condition its consent to any Reportable Use upon receiving such additional assurances as Lessor reasonably deems necessary to protect itself, the public, the Premises and/or the environment against damage, contamination, injury and/or liability, including, but not limited to, the installation (and removal on or before Lease expiration or termination) of protective modifications (such as concrete encasements) and/or increasing the Security Deposit.

(b) **Duty to inform Lessor**. If Lessee knows, or has reasonable cause to believe, that a Hazardous Substance has come to be located in, on, under or about the Premises, other than as previously consented to by Lessor, Lessee shall immediately give written notice of such fact to Lessor, and provide Lessor with a copy of any report, notice, claim or other documentation which it has concerning the presence of such Hazardous Substance.

(c) **Lessee Remediation**. Lessee shall not cause or permit any Hazardous Substance to be spilled or released in, on, under, or about the Premises (including through the plumbing or sanitary sewer system) and shall promptly, at Lessee's expense, comply with all Applicable Requirements and take all investigatory and/or remedial action reasonably recommended, whether or not formally ordered or required, for the cleanup of any contamination of, and for the maintenance, security and/or monitoring of the Premises or neighboring properties, that was caused or materially contributed to by Lessee, or pertaining to or involving any Hazardous Substance brought onto the Premises during the term of this Lease, by or for Lessee, or any third party.

(d) **Lessee Indemnification**. Lessee shall indemnify, defend and hold Lessor, its agents, employees, lenders and ground lessor, if any, harmless from and against any and all loss of rents and/or damages, liabilities, judgments, claims, expenses, penalties, and attorneys' and consultants' fees arising out of or involving any Hazardous Substance brought onto the Premises by or for Lessee, or any third party (provided, however, that Lessee shall have no liability under this Lease with respect to underground migration of any Hazardous Substance under the Premises from areas outside of the Project not caused or contributed to by Lessee). Lessee's obligations shall include, but not be limited to, the effects of any contamination or injury to person, property or the environment created or suffered by Lessee, and the cost of investigation, removal, remediation, restoration and/or abatement, and shall survive the expiration or termination of this Lease. No termination, cancellation or release agreement entered into by Lessor and Lessee shall release Lessee from its obligations under this Lease with respect to Hazardous Substances, unless specifically so agreed by Lessor in writing at the time of such agreement.

(e) **Lessor Indemnification**. Lessor and its successors and assigns shall indemnify, defend, reimburse and hold Lessee, its employees and lenders, harmless from and against any and all environmental damages, including the cost of remediation, which are suffered as a direct result of Hazardous Substances on the Premises prior to Lessee taking possession or which are caused by the gross negligence or willful misconduct of Lessor, its agents or employees. Lessor's obligations, as and when required by the Applicable Requirements, shall include, but not be limited to, the cost of investigation, removal, remediation, restoration and/or abatement, and shall survive the expiration or termination of this Lease.

(f) **Investigations and Remediations**. Lessor shall retain the responsibility and pay for any investigations or remediation measures required by governmental entities having jurisdiction with respect to the existence of Hazardous Substances on the Premises prior to the Lessee taking possession, unless such remediation measure is required as a result of Lessee's use (including "Alterations", as defined In paragraph 7.3(a) below) of the Premises, in which event Lessee shall be responsible for such payment. Lessee shall cooperate fully in any such activities at the request of Lessor, including allowing Lessor and Lessor's agents to have reasonable access to the Premises at reasonable times in order to carry out Lessor's investigative and remedial responsibilities.

(g) **Lessor Termination Option**. If a Hazardous Substance Condition (see Paragraph 9.1(e)) occurs during the term of this Lease, unless Lessee is legally responsible therefor (in which case Lessee shall make the investigation and remediation thereof required by the Applicable Requirements and this Lease shall continue in full force and effect, but subject to Lessor's rights under Paragraph 6.2(d) and Paragraph 13), Lessor may, at Lessor's option, either (i) investigate and remediate such Hazardous Substance Condition, if required, as soon as reasonably possible at Lessor's expense, in which event this Lease shall continue in full force and effect, or (ii) if the estimated cost to remediate such condition exceeds 12 times the then monthly Base Rent or $100,000, whichever is greater, give written notice to Lessee, within 30 days after receipt by Lessor of knowledge of the occurrence of such Hazardous Substance Condition, of Lessor's desire to terminate this Lease as of the date 60 days following the date of such notice. In the event Lessor elects to give a termination notice, Lessee may, within 10 days thereafter, give written notice to Lessor of Lessee's commitment to pay the amount by which the cost of the remediation of such Hazardous Substance Condition exceeds an amount equal to 12 times the then monthly Base Rent or $100,000, whichever is greater. Lessee shall provide Lessor with said funds or satisfactory assurance thereof within 30 days following such commitment. In such event, this Lease shall continue in full force end effect, and Lessor shall proceed to make such remediation as soon as reasonably possible after the required funds are available. If Lessee does not give such notice and provide the required funds or assurance thereof within the time provided, this Lease shall terminate as of the date specified in Lessor's notice of termination.

6.3 **Lessee's Compliance with Applicable Requirements**. Except as otherwise provided in this Lease, Lessee shall, at Lessee's sole expense, fully, diligently and in a timely manner, materially comply with all Applicable Requirements, the requirements of any applicable fire insurance underwriter or rating bureau, and the recommendations of Lessor's engineers and/or consultants which relate in any manner to such Requirements, without regard to whether said Requirements are now in effect or become effective after the Start Date. Lessee shall, within 10 days after receipt of Lessor's written request, provide Lessor with copies of all permits and other documents, and other information evidencing Lessee's compliance with any Applicable Requirements specified by Lessor, and shall immediately upon receipt, notify Lessor in writing (with copies of any documents involved) of any threatened or actual claim, notice, citation, warning, complaint or report pertaining to or involving the failure of Lessee or the Premises to comply with any Applicable Requirements. Likewise, Lessee shall immediately give written notice to Lessor of: (i) any water damage to the Premises and any suspected seepage, pooling, dampness or other condition conducive to the production of mold; or (ii) any mustiness or other odors that might indicate the presence of mold in the Premises.

such inspection is reasonably related to the violation or contamination. In addition, Lessee shall provide copies of all relevant material safety data sheets (**MSDS**) to Lessor within 10 days of the receipt of written request therefor.

7. **Maintenance; Repairs, Utility Installations; Trade Fixtures and Alterations**.

7.1 **Lessee's Obligations**.

(a) **In General**. Subject to the provisions of Paragraph 2.2 (Condition), 2.3 (Compliance), 6.3 (Lessee's Compliance with Applicable Requirements), 7.2 (Lessor's Obligations), 9 (Damage or Destruction), and 14 (Condemnation), Lessee shall, at Lessee's sole expense, keep the Premises, Utility Installations (intended for Lessee's exclusive use, no matter where located), and Alterations in good order, condition and repair (whether or not the portion of the Premises requiring repairs, or the means of repairing the same, are reasonably or readily accessible to Lessee, and whether or not the need for such repairs occurs as a result of Lessee's use, any prior use, the elements or the age of such portion of the Premises), including, but not limited to, all equipment or facilities, such as plumbing, HVAC equipment, electrical, lighting facilities, boilers, pressure vessels, fixtures, interior walls, interior surfaces of exterior walls, ceilings, floors, windows, doors, plate glass, and skylights but excluding any items which are the responsibility of Lessor pursuant to Paragraph 7.2. Lessee, in keeping the Premises in good order, condition and repair, shall exercise and perform good maintenance practices, specifically including the procurement and maintenance of the service contracts required by Paragraph 7.1(b) below. Lessee's obligations shall include restorations, replacements or renewals when necessary to keep the Premises and all improvements thereon or a part thereof in good order, condition and state of repair.

(b) **Service Contracts**. Lessee shall, at Lessee's sole expense, procure and maintain contracts, with copies to Lessor, in customary form and substance for, and with contractors specializing and experienced in the maintenance of the following equipment and improvements, if any, if and when installed on the Premises: (i) HVAC equipment, (ii) boiler and pressure vessels, and (iii) clarifiers. However, Lessor reserves the right, upon notice to Lessee, to procure and maintain any or all of such service contracts, and Lessee shall reimburse Lessor, upon demand, for the cost thereof.

(c) **Failure to Perform**. If Lessee fails to perform Lessee's obligations under this Paragraph 7.1, Lessor may enter upon the Premises after 10 days' prior written notice to Lessee (except in the case of an emergency, in which case no notice shall be required), perform such obligations on Lessee's behalf, and put the Premises in good order, condition and repair, and Lessee shall promptly pay to Lessor a sum equal to 115% of the cost thereof.

(d) **Replacement**. Subject to Lessee's indemnification of Lessor as set forth in Paragraph 8.7 below, and without relieving Lessee of liability resulting from Lessee's failure to exercise and perform good maintenance practices, if an item described in Paragraph 7.1(b) cannot be repaired other than at a cost which is in excess of 50% of the cost of replacing such item, then such item shall be replaced by Lessor, and the cost thereof shall be prorated between the Parties and Lessee shall only be obligated to pay, each month during the remainder of the term of this Lease, on the date on which Base Rent is due, an amount equal to the product of multiplying the cost of such replacement by a fraction, the numerator of which is one, and the denominator of which is 144 (ie. 1/144th of the cost per month). Lessee shall pay interest on the unamortized balance but may prepay its obligation at any time.

7.2 **Lessor's Obligations**. Subject to the provisions of Paragraphs 2.2 (Condition), 2.3 (Compliance), 4.2 (Common Area Operating Expenses), 6 (Use), 7.1 (Lessee's Obligations), 9 (Damage or Destruction) and 14 (Condemnation), Lessor, subject to reimbursement pursuant to Paragraph 4.2, shall keep in good order, condition and repair the foundations, exterior walls, structural condition of interior bearing walls, exterior roof, fire sprinkler system, Common Area fire alarm and/or smoke detection systems, fire hydrants, parking lots, walkways, parkways, driveways, landscaping, fences, signs and utility systems serving the Common Areas and all parts thereof, as well as providing the services for which there is a Common Area Operating Expense pursuant to Paragraph 4.2. Lessor shall not be obligated to paint the exterior or interior surfaces of exterior walls nor shall Lessor be obligated to maintain, repair or replace windows, doors or plate glass of the Premises. Lessee expressly waives the benefit of any statute now or hereafter in effect to the extent it is inconsistent with the terms of this Lease.

7.3 **Utility Installations; Trade Fixtures; Alterations**.

(a) **Definitions**. The term "**Utility Installations**" refers to all floor and window coverings, air and/or vacuum lines, power panels, electrical distribution, security and fire protection systems, communication cabling, lighting fixtures, HVAC equipment, plumbing, and fencing in or on the Premises. The term "**Trade Fixtures**" shall mean Lessee's machinery and equipment that can be removed without doing material damage to the Premises. The term "**Alterations**" shall mean any modification of the improvements, other than Utility Installations or Trade Fixtures, whether by addition or deletion. "**Lessee Owned Alterations and/or Utility Installations**" are defined as Alterations and/or Utility Installations made by Lessee that are not yet owned by Lessor pursuant to Paragraph 7.4(a).

(b) **Consent**. Lessee shall not make any Alterations or Utility Installations to the Premises without Lessor's prior written consent. Lessee may, however, make non-structural Utility Installations to the interior of the Premises (excluding the roof) without such consent but upon notice to Lessor, as long as they are not visible from the outside, do not involve puncturing, relocating or removing the roof or any existing walls, will not affect the electrical, plumbing, HVAC, and/or life safety systems, and the cumulative cost thereof during this Lease as extended does not exceed a sum equal to 3 month's Base Rent in the aggregate or a sum equal to one month's Base Rent in any one year. Notwithstanding the foregoing, Lessee shall not make or permit any roof penetrations and/or install anything on the roof without the prior written approval of Lessor. Lessor may, as a precondition to granting such approval, require Lessee to utilize a contractor chosen and/or approved by Lessor. Any Alterations or Utility Installations that Lessee shall desire to make and which require the consent of the Lessor shall be presented to Lessor in written form with detailed plans. Consent shall be deemed conditioned upon Lessee's: (i) acquiring all applicable governmental permits, (ii) furnishing Lessor with copies of both the permits and the plans and specifications prior to commencement of the work, and (iii) compliance with all conditions of said permits and other Applicable Requirements in a prompt and expeditious manner. Any Alterations or Utility Installations shall be performed in a workmanlike manner with good and sufficient materials. Lessee shall promptly upon completion furnish Lessor with as-built plans and specifications. For work which costs an amount in excess of one month's Base Rent, Lessor may condition its consent upon Lessee providing a lien and completion bond in an amount equal to 150% of the estimated cost of such Alteration or Utility Installation and/or upon Lessee's posting an additional Security Deposit with Lessor.

(c) **Liens; Bonds**. Lessee shall pay, when due, all claims for labor or materials furnished or alleged to have been furnished to or for Lessee at or for use on the Premises, which claims are or may be secured by any mechanic's or materialman's lien against the Premises or any interest therein. Lessee shall give Lessor not less than 10 days notice prior to the commencement of any work in, on or about the Premises, and Lessor shall have the right to post notices of non-responsibility. If Lessee shall contest the validity of any such lien, claim or demand, then Lessee shall, at its sole expense defend and protect itself, Lessor and the Premises against the same and shall pay and satisfy any such adverse judgment that may be rendered thereon before the enforcement thereof. If Lessor shall require, Lessee shall furnish a surety bond in an amount equal to 150% of the amount of such contested lien, claim or demand, indemnifying Lessor against liability for the same. If Lessor elects to participate in any such action, Lessee

Lessor may, at any time, elect in writing to be the owner of all or any specified part of the Lessee Owned Alterations and Utility Installations. Unless otherwise instructed per paragraph 7.4(b) hereof, all Lessee Owned Alterations and Utility Installations shall, at the expiration or termination of this Lease, become the property of Lessor and be surrendered by Lessee with the Premises.

(b) **Removal**. By delivery to Lessee of written notice from Lessor not earlier than 90 and not later than 30 days prior to the end of the term of this Lease, Lessor may require that any or all Lessee Owned Alterations or Utility Installations be removed by the expiration or termination of this Lease. Lessor may require the removal at any time of all or any part of any Lessee Owned Alterations or Utility Installations made without the required consent.

(c) **Surrender; Restoration**. Lessee shall surrender the Premises by the Expiration Date or any earlier termination date, with all of the improvements, parts and surfaces thereof broom clean and free of debris, and in good operating order, condition and state of repair, ordinary wear and tear excepted. "Ordinary wear and tear" shall not include any damage or deterioration that would have been prevented by good maintenance practice. Notwithstanding the foregoing, if this Lease is for 12 months or less, then Lessee shall surrender the Premises in the same condition as delivered to Lessee on the Start Date with NO allowance for ordinary wear and tear. Lessee shall repair any damage occasioned by the installation, maintenance or removal of Trade Fixtures, Lessee owned Alterations and/or Utility Installations, furnishings, and equipment as well as the removal of any storage tank installed by or for Lessee. Lessee shall also completely remove from the Premises any and all Hazardous Substances brought onto the Premises by or for Lessee, or any third party (except Hazardous Substances which were deposited via underground migration from areas outside of the Project) even if such removal would require Lessee to perform or pay for work that exceeds statutory requirements. Trade Fixtures shall remain the property of Lessee and shall be removed by Lessee. Any personal property of Lessee not removed on or before the Expiration Date or any earlier termination date shall be deemed to have been abandoned by Lessee and may be disposed of or retained by Lessor as Lessor may desire. The failure by Lessee to timely vacate the Premises pursuant to this Paragraph 7.4(c) without the express written consent of Lessor shall constitute a holdover under the provisions of Paragraph 26 below.

8. **Insurance; Indemnity**.

8.1 **Payment of Premiums**. The cost of the premiums for the insurance policies required to be carried by Lessor, pursuant to Paragraphs 8.2(b), 8.3(a) and 8.3(b), shall be a Common Area Operating Expense. Premiums for policy periods commencing prior to, or extending beyond, the term of this Lease shall be prorated to coincide with the corresponding Start Date or Expiration Date.

8.2 **Liability Insurance**.

(a) **Carried by Lessee**. Lessee shall obtain and keep in force a Commercial General Liability policy of insurance protecting Lessee and Lessor as an additional insured against claims for bodily injury, personal injury and property damage based upon or arising out of the ownership, use, occupancy or maintenance of the Premises and all areas appurtenant thereto. Such insurance shall be on an occurrence basis providing single limit coverage in an amount not less than $1,000,000 per occurrence with an annual aggregate of not less than $2,000,000. Lessee shall add Lessor as an additional insured by means of an endorsement at least as broad as the Insurance Service Organization's "Additional Insured-Managers or Lessors of Premises" Endorsement. The policy shall not contain any intra-insured exclusions as between insured persons or organizations, but shall include coverage for liability assumed under this Lease as an "**Insured contract**" for the performance of Lessee's indemnity obligations under this Lease. The limits of said insurance shall not, however, limit the liability of Lessee nor relieve Lessee of any obligation hereunder. Lessee shall provide an endorsement on its liability policy(ies) which provides that its Insurance shall be primary to and not contributory with any similar insurance carried by Lessor, whose insurance shall be considered excess Insurance only.

(b) **Carried by Lessor**. Lessor shall maintain liability insurance as described in Paragraph 8.2(a), in addition to, and not in lieu of, the insurance required to be maintained by Lessee. Lessee shall not be named as an additional insured therein.

8.3 **Property Insurance - Building, Improvements and Rental Value**.

(a) **Building and Improvements**. Lessor shall obtain and keep in force a policy or policies of insurance in the name of Lessor, with loss payable to Lessor, any ground-lessor, and to any Lender insuring loss or damage to the Premises. The amount of such insurance shall be equal to the full Insurable replacement cost of the Premises, as the same shall exist from time to time, or the amount required by any Lender, but in no event more than the commercially reasonable and available Insurable value thereof. Lessee Owned Alterations and Utility Installations, Trade Fixtures, and Lessee's personal property shall be insured by Lessee not by Lessor. If the coverage is available and commercially appropriate, such policy or policies shall insure against all risks of direct physical loss or damage (except the perils of flood and/or earthquake unless required by a Lender), including coverage for debris removal and the enforcement of any Applicable Requirements requiring the upgrading, demolition, reconstruction or replacement of any portion of the Premises as the result of a covered loss. Said policy or policies shall also contain an agreed valuation provision in lieu of any coinsurance clause, waiver of subrogation, and inflation guard protection causing an increase in the annual property insurance coverage amount by a factor of not less than the adjusted U.S. Department of Labor Consumer Price Index for All Urban Consumers for the city nearest to where the Premises are located. If such insurance coverage has a deductible clause, the deductible amount shall not exceed $1,000 per occurrence.

(b) **Rental Value**. Lessor shall also obtain and keep in force a policy or policies in the name of Lessor with loss payable to Lessor and any Lender, insuring the loss of the full Rent for one year with an extended period of indemnity for an additional 180 days ("Rental Value insurance"). Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected Rent otherwise payable by Lessee, for the next 12 month period.

(c) **Adjacent Premises**. Lessee shall pay for any increase in the premiums for the property insurance of the Building and for the Common Areas or other buildings in the Project if said increase is caused by Lessee's acts, omissions, use or occupancy of the Premises.

(d) **Lessee's Improvements**. Since Lessor is the Insuring Party, Lessor shall not be required to Insure Lessee Owned Alterations and Utility Installations unless the Item in question has become the property of Lessor under the terms of this Lease.

8.4 **Lessee's Property; Business Interruption Insurance**.

(a) **Property Damage**. Lessee shall obtain and maintain insurance coverage on all of Lessee's personal property, Trade Fixtures, and Lessee Owned Alterations and Utility Installations. Such insurance shall be full replacement cost coverage with a deductible of not to exceed $1,000 per occurrence. The proceeds from any such insurance shall be used by Lessee for the replacement of personal property, Trade Fixtures and Lessee Owned Alterations and Utility Installations. Lessee shall provide Lessor with written evidence that such insurance is in force.

(b) **Business Interruption**. Lessee shall obtain and maintain loss of income and extra expense insurance in amounts as will reimburse Lessee for direct or indirect loss of earnings attributable to all perils commonly insured against by prudent lessees in the business of Lessee or attributable to prevention

of access to the Premises as a result of such perils.

(c) **No Representation of Adequate Coverage**. Lessor makes no representation that the limits or forms of coverage of insurance specified herein are adequate to cover Lessee's property, business operations or obligations under this Lease.

30 days prior written notice to Lessor. Lessee shall, at least 10 days prior to the expiration of such policies, furnish Lessor with evidence of renewals or "insurance binders" evidencing renewal thereof, or Lessor may order such insurance and charge the cost thereof to Lessee, which amount shall be payable by Lessee to Lessor upon demand. Such policies shall be for a term of at least one year, or the length of the remaining term of this Lease, whichever is less. If either Party shall fail to procure and maintain the Insurance required to be carried by It, the other Party may, but shall not be required to, procure and maintain the same.

8.6 **Waiver of Subrogation**. Without affecting any other rights or remedies, Lessee and Lessor each hereby release and relieve the other, and waive their entire right to recover damages against the other, for loss of or damage to its property arising out of or Incident to the perils required to be insured against herein. The effect of such releases and waivers is not limited by the amount of Insurance carried or required, or by any deductibles applicable hereto. The Parties agree to have their respective property damage Insurance carriers waive any right to subrogation that such companies may have against Lessor or Lessee, as the case may be, so long as the Insurance is not invalidated thereby.

8.7 **Indemnity**. Except for Lessor's gross negligence or willful misconduct, Lessee shall Indemnify, protect, defend and hold harmless the Premises, Lessor and its agents, Lessor's master or ground lessor, partners and Lenders, from and against any and all claims, loss of rents and/or damages, liens, judgments, penalties, attorneys' and consultants' fees, expenses and/or liabilities arising out of, involving, or in connection with, the use and/or occupancy of the Premises by Lessee. If any action or proceeding is brought against Lessor by reason of any of the foregoing matters, Lessee shall upon notice defend the same at Lessee's expense by counsel reasonably satisfactory to Lessor and Lessor shall cooperate with Lessee in such defense. Lessor need not have first paid any such claim in order to be defended or Indemnified.

8.8 **Exemption of Lessor and its Agents from Liability**. Notwithstanding the negligence or breach of this Lease by Lessor or its agents, neither Lessor nor its agents shall be liable under any circumstances for: (i) injury or damage to the person or goods, wares, merchandise or other property of Lessee, Lessee's employees, contractors, invitees, customers, or any other person in or about the Premises, whether such damage or injury is caused by or results from fire, steam, electricity, gas, water or rain, indoor air quality, the presence of mold or from the breakage, leakage, obstruction or other defects of pipes, fire sprinklers, wires, appliances, plumbing, HVAC or lighting fixtures, or from any other cause, whether the said injury or damage results from conditions arising upon the Premises or upon other portions of the Building, or from other sources or places, (ii) any damages arising from any act or neglect of any other tenant of Lessor or from the failure of Lessor or its agents to enforce the provisions of any other lease in the Project, or (iii) injury to Lessee's business or for any loss of income or profit therefrom. Instead, it is intended that Lessee's sole recourse in the event of such damages or injury be to file a claim on the insurance policy(ies) that Lessee is required to maintain pursuant to the provisions of paragraph 8.

8.9 **Failure to Provide Insurance**. Lessee acknowledges that any failure on its part to obtain or maintain the insurance required herein will expose Lessor to risks and potentially cause Lessor to incur costs not contemplated by this Lease, the extent of which will be extremely difficult to ascertain. Accordingly, for any month or portion thereof that Lessee does not maintain the required insurance and/or does not provide Lessor with the required binders or certificates evidencing the existence of the required Insurance, the Base Rent shall be automatically increased, without any requirement for notice to Lessee, by an amount equal to 10% of the then existing Base Rent or $100, whichever is greater. The parties agree that such increase in Base Rent represents fair and reasonable compensation for the additional risk/costs that Lessor will incur by reason of Lessee's failure to maintain the required insurance. Such increase in Base Rent shall in no event constitute a waiver of Lessee's Default or Breach with respect to the failure to maintain such Insurance, prevent the exercise of any of the other rights and remedies granted hereunder, nor relieve Lessee of its obligation to maintain the insurance specified in this Lease.

9. **Damage or Destruction**.

9.1 **Definitions**.

(a) "**Premises Partial Damage**" shall mean damage or destruction to the improvements on the Premises, other than Lessee Owned Alterations and Utility Installations, which can reasonably be repaired in 3 months or less from the date of the damage or destruction, and the cost thereof does not exceed a sum equal to 6 month's Base Rent. Lessor shall notify Lessee In writing within 30 days from the date of the damage or destruction as to whether or not the damage is Partial or Total. Notwithstanding the foregoing, Premises Partial Damage shall not include damage to windows, doors, and/or other similar items which Lessee has the responsibility to repair or replace pursuant to the provisions of Paragraph 7.1.

(b) "**Premises Total Destruction**" shall mean damage or destruction to the improvements on the Premises, other than Lessee Owned Alterations and Utility Installations and Trade Fixtures, which cannot reasonably be repaired in 3 months or less from the date of the damage or destruction and/or the cost thereof exceeds a sum equal to 6 month's Base Rent. Lessor shall notify Lessee in writing within 30 days from the date of the damage or destruction as to whether or not the damage is Partial or Total.

(c) "**Insured Loss**" shall mean damage or destruction to improvements on the Premises, other than Lessee Owned Alterations and Utility Installations and Trade Fixtures, which was caused by an event required to be covered by the insurance described in Paragraph 8.3(a), irrespective of any deductible amounts or coverage limits involved.

(d) "**Replacement Cost**" shall mean the cost to repair or rebuild the improvements owned by Lessor at the time of the occurrence to their condition existing immediately prior thereto, including demolition, debris removal and upgrading required by the operation of Applicable Requirements, and without deduction for depreciation.

(e) "**Hazardous Substance Condition**" shall mean the occurrence or discovery of a condition involving the presence of, or a contamination by, a Hazardous Substance, in, on, or under the Premises which requires restoration.

9.2 **Partial Damage - Insured Loss**. If a Premises Partial Damage that is an Insured Loss occurs, then Lessor shall, at Lessor's expense, repair such damage (but not Lessee's Trade Fixtures or Lessee Owned Alterations and Utility Installations) as soon as reasonably possible and this Lease shall continue in full force and effect; provided, however, that Lessee shall, at Lessor's election, make the repair of any damage or destruction the total cost to repair of which is $10,000 or less, and, in such event, Lessor shall make any applicable insurance proceeds available to Lessee on a reasonable basis for that purpose. Notwithstanding the foregoing, if the required insurance was not in force or the insurance proceeds are not sufficient to effect such repair, the insuring Party shall promptly contribute the shortage in proceeds as and when required to complete said repairs. In the event, however, such shortage was due to the fact that, by reason of the unique nature of the improvements, full replacement cost insurance coverage was not commercially reasonable and available, Lessor shall have no obligation to pay for the shortage in insurance proceeds or to fully restore the unique aspects of the Premises unless Lessee provides Lessor with the funds to cover same, or adequate assurance thereof, within 10 days following receipt of written notice of such shortage and request therefor. If Lessor receives said funds or adequate assurance thereof within said 10 day period, the party responsible for making the repairs shall complete them as soon as reasonably possible and this Lease shall remain in full force and effect. If such funds or assurance are not received, Lessor may nevertheless elect by written

notice to Lessee within 10 days thereafter to: (i) make such restoration and repair as is commercially reasonable with Lessor paying any shortage in proceeds, in which case this Lease shall remain in full

reasonably possible at Lessor's expense, in which event this Lease shall continue in full force and effect, or (ii) terminate this Lease by giving written notice to Lessee within 30 days after receipt by Lessor of knowledge of the occurrence of such damage. Such termination shall be effective 60 days following the date of such notice. In the event Lessor elects to terminate this Lease, Lessee shall have the right within 10 days after receipt of the termination notice to give written notice to Lessor of Lessee's commitment to pay for the repair of such damage without reimbursement from Lessor, Lessee shall provide Lessor with said funds or satisfactory assurance thereof within 30 days after making such commitment. In such event this Lease shall continue in full force and effect, and Lessor shall proceed to make such repairs as soon as reasonably possible after the required funds are available. If Lessee does not make the required commitment, this Lease shall terminate as of the date specified in the termination notice.

9.4 **Total Destruction**. Notwithstanding any other provision hereof, if a Premises Total Destruction occurs, this Lease shall terminate 60 days following such Destruction. If the damage or destruction was caused by the gross negligence or willful misconduct of Lessee, Lessor shall have the right to recover Lessor's damages from Lessee, except as provided in Paragraph 8.6.

9.5 **Damage Near End of Term**. If at any time during the last 6 months of this Lease there is damage for which the cost to repair exceeds one month's Base Rent, whether or not an Insured Loss, Lessor may terminate this Lease effective 60 days following the date of occurrence of such damage by giving a written termination notice to Lessee within 30 days after the date of occurrence of such damage. Notwithstanding the foregoing, if Lessee at that time has an exercisable option to extend this Lease or to purchase the Premises, then Lessee may preserve this Lease by, (a) exercising such option and (b) providing Lessor with any shortage in insurance proceeds (or adequate assurance thereof) needed to make the repairs on or before the earlier of (i) the date which is 10 days after Lessee's receipt of Lessor's written notice purporting to terminate this Lease, or (ii) the day prior to the date upon which such option expires. If Lessee duly exercises such option during such period and provides Lessor with funds (or adequate assurance thereof) to cover any shortage in insurance proceeds, Lessor shall, at Lessor's commercially reasonable expense, repair such damage as soon as reasonably possible and this Lease shall continue in full force and effect. If Lessee fails to exercise such option and provide such funds or assurance during such period, then this Lease shall terminate on the date specified in the termination notice and Lessee's option shall be extinguished.

9.6 **Abatement of Rent; Lessee's Remedies**.

(a) **Abatement**. In the event of Premises Partial Damage or Premises Total Destruction or a Hazardous Substance Condition for which Lessee is not responsible under this Lease, the Rent payable by Lessee for the period required for the repair, remediation or restoration of such damage shall be abated in proportion to the degree to which Lessee's use of the Premises is impaired, but not to exceed the proceeds received from the Rental Value insurance. All other obligations of Lessee hereunder shall be performed by Lessee, and Lessor shall have no liability for any such damage, destruction, remediation, repair or restoration except as provided herein.

(b) **Remedies**. If Lessor is obligated to repair or restore the Premises and does not commence, in a substantial and meaningful way, such repair or restoration within 90 days after such obligation shall accrue, Lessee may, at any time prior to the commencement of such repair or restoration, give written notice to Lessor and to any Lenders of which Lessee has actual notice, of Lessee's election to terminate this Lease on a date not less than 60 days following the giving of such notice. If Lessee gives such notice and such repair or restoration is not commenced within 30 days thereafter, this Lease shall terminate as of the date specified in said notice. If the repair or restoration is commenced within such 30 days, this Lease shall continue in full force and effect. "Commence" shall mean either the unconditional authorization of the preparation of the required plans, or the beginning of the actual work on the Premises, whichever first occurs.

9.7 **Termination; Advance Payments**. Upon termination of this Lease pursuant to Paragraph 6.2(g) or Paragraph 9, an equitable adjustment shall be made concerning advance Base Rent and any other advance payments made by Lessee to Lessor. Lessor shall, in addition, return to Lessee so much of Lessee's Security Deposit as has not been, or is not then required to be, used by Lessor.

10. **Real Property Taxes**.

10.1 **Definition**. As used herein, the term "**Real Property Taxes**" shall include any form of assessment; real estate, general, special, ordinary or extraordinary, or rental levy or tax (other than inheritance, personal income or estate taxes); improvement bond; and/or license fee imposed upon or levied against any legal or equitable interest of Lessor in the Project, Lessor's right to other income therefrom, and/or Lessor's business of leasing, by any authority having the direct or indirect power to tax and where the funds are generated with reference to the Project address and where the proceeds so generated are to be applied by the city, county or other local taxing authority of a jurisdiction within which the Project is located. The term "Real Property Taxes" shall also include any tax, fee, levy, assessment or charge, or any increase therein: (i) imposed by reason of events occurring during the term of this Lease, including but not limited to, a change in the ownership of the Project, (ii) a change in the improvements thereon, and/or (iii) levied or assessed on machinery or equipment provided by Lessor to Lessee pursuant to this Lease. In calculating Real Property Taxes for any calendar year, the Real Property Taxes for any real estate tax year shall be included in the calculation of Real Property Taxes for such calendar year based upon the number of days which such calendar year and tax year have in common.

10.2 **Payment of Taxes**. Except as otherwise provided in Paragraph 10.3, Lessor shall pay the Real Property Taxes applicable to the Project, and said payments shall be included in the calculation of Common Area Operating Expenses in accordance with the provisions of Paragraph 4.2.

10.3 **Additional Improvements**. Common Area Operating Expenses shall not include Real Property Taxes specified in the tax assessor's records and work sheets as being caused by additional improvements placed upon the Project by other lessees or by Lessor for the exclusive enjoyment of such other lessees. Notwithstanding Paragraph 10.2 hereof, Lessee shall, however, pay to Lessor at the time Common Area Operating Expenses are payable under Paragraph 4.2, the entirety of any increase in Real Property Taxes if assessed solely by reason of Alterations. Trade Fixtures or Utility installations placed upon the Premises by Lessee or at Lessee's request or by reason of any alterations or improvements to the Premises made by Lessor subsequent to the execution of this Lease by the Parties.

10.4 **Joint Assessment**. If the Building is not separately assessed, Real Property Taxes allocated to the Building shall be an equitable proportion of the Real Property Taxes for all of the land and improvements included within the tax parcel assessed, such proportion to be determined by Lessor from the respective valuations assigned in the assessor's work sheets or such other information as may be reasonably available. Lessor's reasonable determination thereof, in good faith, shall be conclusive.

10.5 **Personal Property Taxes**. Lessee shall pay prior to delinquency all taxes assessed against and levied upon Lessee Owned Alterations and Utility Installations, Trade Fixtures, furnishings, equipment and all personal property of Lessee contained in the Premises. When possible, Lessee shall cause its Lessee Owned Alterations and Utility Installations, Trade Fixtures, furnishings, equipment and all other personal property to be assessed and billed separately from the real property of Lessor. If any of Lessee's said property shall be assessed with Lessor's real property, Lessee shall pay Lessor the taxes attributable to Lessee's property within 10 days after receipt of a written statement setting forth the taxes applicable to Lessee s property.

shall not be liable in any respect whatsoever for the inadequacy, stoppage, interruption or discontinuance of any utility or service due to riot, strike, labor dispute, breakdown, accident, repair or other cause beyond Lessor's reasonable control or in cooperation with governmental request or directions.

12. **Assignment and Subletting**.

12.1 **Lessor's Consent Required**.

(a) Lessee shall not voluntarily or by operation of law assign, transfer, mortgage or encumber (collectively, **"assign or assignment"**) or sublet all or any part of Lessee's interest in this Lease or in the Premises without Lessor's prior written consent, and such consent shall not be reasonably withheld.

(b) Unless Lessee is a corporation and its stock is publicly traded on a national stock exchange, a change in the control of Lessee shall constitute an assignment requiring consent. The transfer, on a cumulative basis, of ~~25%~~ 49% or more of the voting control of Lessee shall constitute a change in control for this purpose.

(c) The Involvement of Lessee or its assets in any transaction, or series of transactions (by way of merger, sale, acquisition, financing, transfer, leveraged buy-out or otherwise), whether or not a formal assignment or hypothecation of this Lease or Lessee's assets occurs, which results or will result in a reduction of the Net Worth of Lessee by an amount greater than ~~25%~~ 49% of such Net Worth as it was represented at the time of the execution of this Lease or at the time of the most recent assignment to which Lessor has consented, or as it exists immediately prior to said transaction or transactions constituting such reduction, whichever was or is greater, shall be considered an assignment of this Lease to which Lessor may withhold its consent. **"Net Worth of Lessee"** shall mean the net worth of Lessee (excluding any guarantors) established under generally accepted accounting principles.

(d) An assignment or subletting without consent shall, at Lessor's option, be a Default curable after notice per Paragraph 13.1(c), or a noncurable Breach without the necessity of any notice and grace period. If Lessor elects to treat such unapproved assignment or subletting as a noncurable Breach, Lessor may either: (i) terminate this Lease, or (ii) upon 30 days written notice, increase the monthly Base Rent to 110% of the Base Rent then in effect. Further, in the event of such Breach and rental adjustment, (i) the purchase price of any option to purchase the Premises held by Lessee shall be subject to similar adjustment to 110% of the price previously in effect, and (ii) all fixed and non-fixed rental adjustments scheduled during the remainder of the Lease term shall be increased to 110% of the scheduled adjusted rent.

(e) Lessee's remedy for any breach of Paragraph 12.1 by Lessor shall be limited to compensatory damages and/or injunctive relief.

(f) Lessor may reasonably withhold consent to a proposed assignment or subletting if Lessee is in Default at the time consent is requested.

(g) Notwithstanding the foregoing, allowing a de minimis portion of the Premises, ie. 20 square feet or less, to be used by a third party vendor in connection with the installation of a vending machine or payphone shall not constitute a subletting.

12.2 **Terms and Conditions Applicable to Assignment and Subletting**.

(a) Regardless of Lessor's consent, no assignment or subletting shall: (i) be effective without the express written assumption by such assignee or sublessee of the obligations of Lessee under this Lease, (ii) release Lessee of any obligations hereunder, or (iii) alter the primary liability of Lessee for the payment of Rent or for the performance of any other obligations to be performed by Lessee.

(b) Lessor may accept Rent or performance of Lessee's obligations from any person other than Lessee pending approval or disapproval of an assignment. Neither a delay in the approval or disapproval of such assignment nor the acceptance of Rent or performance shall constitute a waiver or estoppel of Lessor's right to exercise its remedies for Lessee's Default or Breach.

(c) Lessor's consent to any assignment or subletting shall not constitute consent to any subsequent assignment or subletting.

(d) In the event of any Default or Breach by Lessee, Lessor may proceed directly against Lessee, any Guarantors or anyone else responsible for the performance of Lessee's obligations under this Lease, including any assignee or sublessee, without first exhausting Lessor's remedies against any other person or entity responsible therefore to Lessor, or any security held by Lessor.

(e) Each request for consent to an assignment or subletting shall be in writing, accompanied by information relevant to Lessor's determination as to the financial and operational responsibility and appropriateness of the proposed assignee or sublessee, including but not limited to the intended use and/or required modification of the Premises, if any, together with a fee of $500 as consideration for Lessor's considering and processing said request. Lessee agrees to provide Lessor with such other or additional information and/or documentation as may be reasonably requested. (See also Paragraph 36)

(f) Any assignee of, or sublessee under, this Lease shall, by reason of accepting such assignment, entering into such sublease, or entering into possession of the Premises or any portion thereof, be deemed to have assumed and agreed to conform and comply with each and every term, covenant, condition and obligation herein to be observed or performed by Lessee during the term of said assignment or sublease, other than such obligations as are contrary to or inconsistent with provisions of an assignment or sublease to which Lessor has specifically consented to in writing.

(g) Lessor's consent to any assignment or subletting shall not transfer to the assignee or sublessee any Option granted to the original Lessee by this Lease unless such transfer is specifically consented to by Lessor in writing. (See Paragraph 39.2)

12.3 **Additional Terms and Conditions Applicable to Subletting**. The following terms and conditions shall apply to any subletting by Lessee of all or any part of the Premises and shall be deemed included in all subleases under this Lease whether or not expressly incorporated therein:

(a) Lessee hereby assigns and transfers to Lessor all of Lessee's interest in all Rent payable on any sublease, and Lessor may collect such Rent and apply same toward Lessee's obligations under this Lease; provided, however, that until a Breach shall occur in the performance of Lessee's obligations, Lessee may collect said Rent. In the event that the amount collected by Lessor exceeds Lessee's then outstanding obligations any such excess shall be refunded to Lessee. Lessor shall not, by reason of the foregoing or any assignment of such sublease, nor by reason of the collection of Rent, be deemed liable to the sublessee for any failure of Lessee to perform and comply with any of Lessee's obligations to such sublessee. Lessee hereby irrevocably authorizes and directs any such sublessee, upon receipt of a written notice from Lessor stating that a Breach exists in the performance of Lessee's obligations under this Lease, to pay to Lessor all Rent due and to become due under the sublease. Sublessee shall rely upon any such notice from Lessor and shall pay all Rents to Lessor without any obligation or right to inquire as to whether such Breach exists, notwithstanding any claim from Lessee to the contrary.

(b) In the event of a Breach by Lessee, Lessor may, at its option, require sublessee to attorn to Lessor, in which event Lessor shall undertake the obligations of the sublessor under such sublease from the time of the exercise of said option to the expiration of such sublease; provided, however, Lessor shall not be liable for any prepaid rents or security deposit paid by such sublessee to such sublessor or for any prior Defaults

against Lessee for any such Defaults cured by the sublessee.

13. **Default; Breach; Remedies**.

13.1 **Default; Breach**. A "**Default**" is defined as a failure by the Lessee to comply with or perform any of the terms, covenants, conditions or Rules and Regulations under this Lease. A "**Breach**" is defined as the occurrence of one or more of the following Defaults, and the failure of Lessee to cure such Default within any applicable grace period:

(a) The abandonment of the Premises; or the vacating of the Premises without providing a commercially reasonable level of security, or where the coverage of the property insurance described in Paragraph 8.3 is jeopardized as a result thereof, or without providing reasonable assurances to minimize potential vandalism.

(b) The failure of Lessee to make any payment of Rent or any Security Deposit required to be made by Lessee hereunder, whether to Lessor or to a third party, when due, to provide reasonable evidence of insurance or surety bond, or to fulfill any obligation under this Lease which endangers or threatens life or property, where such failure continues for a period of 3 business days following written notice to Lessee. THE ACCEPTANCE BY LESSOR OF A PARTIAL PAYMENT OF RENT OR SECURITY DEPOSIT SHALL NOT CONSTITUTE A WAIVER OF ANY OF LESSOR'S RIGHTS, INCLUDING LESSOR'S RIGHT TO RECOVER POSSESSION OF THE PREMISES.

(c) The failure of Lessee to allow Lessor and/or its agents access to the Premises or the commission of waste, act or acts constituting public or private nuisance, and/or an illegal activity on the Premises by Lessee, where such actions continue for a period of 3 business days following written notice to Lessee.

(d) The failure by Lessee to provide (i) reasonable written evidence of compliance with Applicable Requirements, (ii) the service contracts, (iii) the rescission of an unauthorized assignment or subletting, (iv) an Estoppel Certificate or financial statements, (v) a requested subordination, (vi) evidence concerning any guaranty and/or Guarantor, (vii) any document requested under Paragraph 41, (viii) material data safety sheets (MSDS), or (ix) any other documentation or information which Lessor may reasonably require of Lessee under the terms of this Lease, where any such failure continues for a period of 10 days following written notice to Lessee.

(e) A Default by Lessee as to the terms, covenants, conditions or provisions of this Lease, or of the rules adopted under Paragraph 2.9 hereof, other than those described in subparagraphs 13.1(a), (b), (c) or (d), above, where such Default continues for a period of 30 days after written notice; provided, however, that if the nature of Lessee's Default is such that more than 30 days are reasonably required for its cure, then it shall not be deemed to be a Breach if Lessee commences such cure within said 30 day period and thereafter diligently prosecutes such cure to completion.

(f) The occurrence of any of the following events: (i) the making of any general arrangement or assignment for the benefit of creditors; (ii) becoming a "debtor" as defined in 11 U.S.C. § 101 or any successor statute thereto (unless, in the case of a petition filed against Lessee, the same is dismissed within 60 days); (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where possession is not restored to Lessee within 30 days; or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where such seizure is not discharged within 30 days; provided, however, in the event that any provision of this subparagraph is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

(g) The discovery that any financial statement of Lessee or of any Guarantor given to Lessor was materially false.

(h) If the performance of Lessee's obligations under this Lease is guaranteed: (i) the death of a Guarantor, (ii) the termination of a Guarantor's liability with respect to this Lease other than in accordance with the terms of such guaranty, (iii) a Guarantor's becoming insolvent or the subject of a bankruptcy filing, (iv) a Guarantor's refusal to honor the guaranty, or (v) a Guarantor's breach of its guaranty obligation on an anticipatory basis, and Lessee's failure, within 60 days following written notice of any such event, to provide written alternative assurance or security, which, when coupled with the then existing resources of Lessee, equals or exceeds the combined financial resources of Lessee and the Guarantors that existed at the time of execution of this Lease.

13.2 **Remedies**. If Lessee falls to perform any of its affirmative duties or obligations, within 10 days after written notice (or in case of an emergency, without notice), Lessor may, at its option, perform such duty or obligation on Lessee's behalf, including but not limited to the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits or approvals. Lessee shall pay to Lessor an amount equal to 115% of the costs and expenses incurred by Lessor in such performance upon receipt of an invoice therefor. In the event of a Breach, Lessor may, with or without further notice or demand, and without limiting Lessor in the exercise of any right or remedy which Lessor may have by reason of such Breach:

(a) Terminate Lessee's right to possession of the Premises by any lawful means, in which case this Lease shall terminate and Lessee shall immediately surrender possession to Lessor. In such event Lessor shall be entitled to recover from Lessee: (i) the unpaid Rent which had been earned at the time of termination; (ii) the worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Lessee proves could have been reasonably avoided; (iii) the worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that the Lessee proves could be reasonably avoided; and (iv) any other amount necessary to compensate Lessor for all the detriment proximately caused by the Lessee's failure to perform its obligations under this Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys' fees, and that portion of any leasing commission paid by Lessor in connection with this Lease applicable to the unexpired term of this Lease. The worth at the time of award of the amount referred to in provision (iii) of the immediately preceding sentence shall be computed by discounting such amount at the discount rate of the Federal Reserve Bank of the District within which the Premises are located at the time of award plus one percent. Efforts by Lessor to mitigate damages caused by Lessee's Breach of this Lease shall not waive Lessor's right to recover damages under Paragraph 12. If termination of this Lease is obtained through the provisional remedy of unlawful detainer, Lessor shall have the right to recover in such proceeding any unpaid Rent and damages as are recoverable therein, or Lessor may reserve the right to recover all or any part thereof in a separate suit. If a notice and grace period required under Paragraph 13.1 was not previously given, a notice to pay rent or quit, or to perform or quit given to Lessee under the unlawful detainer statute shall also constitute the notice required by Paragraph 13.1. In such case, the applicable grace period required by Paragraph 13.1 and the unlawful detainer statute shall run concurrently, and the failure of Lessee to cure the Default within the greater of the two such grace periods shall constitute both an unlawful detainer and a Breach of this Lease entitling Lessor to the remedies provided for in this Lease and/or by said statute.

(b) Continue the Lease and Lessee's right to possession and recover the Rent as it becomes due, in which event Lessee may sublet or assign, subject only to reasonable limitations. Acts of maintenance, efforts to relet, and/or the appointment of a receiver to protect the Lessor's interests, shall not constitute a termination of the Lessee's right to possession.

to as "**Inducement Provisions**", shall be deemed conditioned upon Lessee's full and faithful performance of all of the terms, covenants and conditions of this Lease. Upon Breach of this Lease by Lessee, any such Inducement Provision shall automatically be deemed deleted from this Lease and of no further force or effect, and any rent, other charge, bonus, inducement or consideration theretofore abated, given or paid by Lessor under such an Inducement Provision shall be immediately due and payable by Lessee to Lessor, notwithstanding any subsequent cure of said Breach by Lessee. The acceptance by Lessor of rent or the cure of the Breach which initiated the operation of this paragraph shall not be deemed a waiver by Lessor of the provisions of this paragraph unless specifically so stated in writing by Lessor at the time of such acceptance.

13.4 **Late Charges**. Lessee hereby acknowledges that late payment by Lessee of Rent will cause Lessor to incur costs not contemplated by this Lease, the exact amount of which will be extremely difficult to ascertain. Such costs Include, but are not limited to, processing and accounting charges, and late charges which may be imposed upon Lessor by any Lender. Accordingly, if any Rent shall not be received by Lessor within 5 days after such amount shall be due, then, without any requirement for notice to Lessee, Lessee shall immediately pay to Lessor a one-time late charge equal to 10% of each such overdue amount or $100, whichever is greater. The parties hereby agree that such late charge represents a fair and reasonable estimate of the costs Lessor will incur by reason of such late payment. Acceptance of such late charge by Lessor shall in no event constitute a waiver of Lessee's Default or Breach with respect to such overdue amount, nor prevent the exercise of any of the other rights and remedies granted hereunder. In the event that a late charge is payable hereunder, whether or not collected, for 3 consecutive installments of Base Rent, then notwithstanding any provision of this Lease to the contrary, Base Rent shall, at Lessor's option, become due and payable quarterly in advance.

13.5 **Interest**. Any monetary payment due Lessor hereunder, other than late charges, not received by Lessor, when due as to scheduled payments (such as Base Rent) or within 30 days following the date on which it was due for non-scheduled payment, shall bear Interest from the date when due, as to scheduled payments, or the 31st day after it was due as to non-scheduled payments. The interest ("**Interest**") charged shall be computed at the rate of 10% per annum but shall not exceed the maximum rate allowed by law. Interest is payable in addition to the potential late charge provided for In Paragraph 13.4.

13.6 **Breach by Lessor**.

(a) **Notice of Breach**. Lessor shall not be deemed in breach of this Lease unless Lessor falls within a reasonable time to perform an obligation required to be performed by Lessor. For purposes of this Paragraph, a reasonable time shall in no event be less than 30 days after receipt by Lessor, and any Lender whose name and address shall have been furnished Lessee in writing for such purpose, of written notice specifying wherein such obligation of Lessor has not been performed; provided, however, that if the nature of Lessor's obligation is such that more than 30 days are reasonably required for its performance, then Lessor shall not be in breach if performance is commenced within such 30 day period and thereafter diligently pursued to completion.

(b) **Performance by Lessee on Behalf of Lessor**. In the event that neither Lessor nor Lender cures said breach within 30 days after receipt of said notice, or if having commenced said cure they do not diligently pursue it to completion, then Lessee may elect to cure said breach at Lessee's expense and offset from Rent the actual and reasonable cost to perform such cure, provided however, that such offset shall not exceed an amount equal to the greater of one month's Base Rent or the Security Deposit, reserving Lessee's right to reimbursement from Lessor for any such expense in excess of such offset. Lessee shall document the cost of said cure and supply said documentation to Lessor.

14. **Condemnation**. If the Premises or any portion thereof are taken under the power of eminent domain or sold under the threat of the exercise of said power (collectively "**Condemnation**"), this Lease shall terminate as to the part taken as of the date the condemning authority takes title or possession, whichever first occurs. If more than 10% of the floor area of the Unit, or more than 25% of the parking spaces Is taken by Condemnation, Lessee may, at Lessee's option, to be exercised in writing within 10 days after Lessor shall have given Lessee written notice of such taking (or in the absence of such notice, within 10 days after the condemning authority shall have taken possession) terminate this Lease as of the date the condemning authority takes such possession. If Lessee does not terminate this Lease in accordance with the foregoing, this Lease shall remain in full force and effect as to the portion of the Premises remaining, except that the Base Rent shall be reduced in proportion to the reduction in utility of the Premises caused by such Condemnation. Condemnation awards and/or payments shall be the property of Lessor, whether such award shall be made as compensation for diminution in value of the leasehold, the value of the part taken, or for severance damages; provided, however, that Lessee shall be entitled to any compensation paid by the condemnor for Lessee's relocation expenses, loss of business goodwill and/or Trade Fixtures, without regard to whether or not this Lease is terminated pursuant to the provisions of this Paragraph. All Alterations and Utility Installations made to the Premises by Lessee, for purposes of Condemnation only, shall be considered the property of the Lessee and Lessee shall be entitled to any and all compensation which is payable therefor. In the event that this Lease is not terminated by reason of the Condemnation, Lessor shall repair any damage to the Premises caused by such Condemnation.

15. **Brokerage Fees**.

15.1 **Additional Commission**. In addition to the payments owed pursuant to Paragraph 1.10 above, and unless Lessor and the Brokers otherwise agree in writing, Lessor agrees that: (a) if Lessee exercises any Option, (b) if Lessee or anyone affiliated with Lessee acquires from Lessor any rights to the Premises or other premises owned by Lessor and located within the Project, (c) if Lessee remains in possession of the Premises, with the consent of Lessor, after the expiration of this Lease, or (d) if Base Rent is increased, whether by agreement or operation of an escalation clause herein, then, Lessor shall pay Brokers a fee in accordance with the schedule of the Brokers in effect at the time of the execution of this Lease.

15.2 **Assumption of Obligations**. Any buyer or transferee of Lessor's Interest in this Lease shall be deemed to have assumed Lessor's obligation hereunder. Brokers shall be third party beneficiaries of the provisions of Paragraphs 1.10, 15, 22 and 31. If Lessor fails to pay to Brokers any amounts due as and for brokerage fees pertaining to this Lease when due, then such amounts shall accrue Interest. In addition, if Lessor fails to pay any amounts to Lessee's Broker when due, Lessee's Broker may send written notice to Lessor and Lessee of such failure and if Lessor fails to pay such amounts within 10 days after said notice, Lessee shall pay said monies to Its Broker and offset such amounts against Rent. In addition, Lessee's Broker shall be deemed to be a third party beneficiary of any commission agreement entered into by and/or between Lessor and Lessor's Broker for the limited purpose of collecting any brokerage fee owed.

15.3 **Representations and Indemnities of Broker Relationships**. Lessee and Lessor each represent and warrant to the other that it has had no dealings with any person, firm, broker or finder (other than the Brokers, if any) in connection with this Lease, and that no one other than said named Brokers is entitled to any commission or finder's fee In connection herewith. Lessee and Lessor do each hereby agree to indemnify, protect, defend and hold the other harmless from and against liability for compensation or charges which may be claimed by any such unnamed broker, finder or other similar party by reason of any dealings or actions of the indemnifying Party, including any costs, expenses, attorneys' fees reasonably Incurred with respect thereto.

16. **Estoppel Certificates**.

(a) Each Party (as "**Responding Party**") shall within 10 days after written notice from the other Party (the "**Requesting**

Requesting Party, (ii) there are no uncured defaults in the Requesting Party's performance, and (iii) if Lessor is the Requesting Party, not more than one month's rent has been paid in advance, prospective purchasers and encumbrancers may rely upon the Requesting Party's Estoppel Certificate, and the Responding Party shall be estopped from denying the truth of the facts contained in said Certificate.

(c) If Lessor desires to finance, refinance, or sell the Premises, or any part thereof, Lessee and all Guarantors shall within 10 days after written notice from Lessor deliver to any potential lender or purchaser designated by Lessor such financial statements as may be reasonably required by such lender or purchaser, including but not limited to Lessee's financial statements for the past 3 years. All such financial statements shall be received by Lessor and such lender or purchaser in confidence and shall be used only for the purposes herein set forth.

17. **Definition of Lessor**. The term "**Lessor**" as used herein shall mean the owner or owners at the time in question of the fee title to the Premises, or, if this is a sublease, of the Lessee's interest in the prior lease. In the event of a transfer of Lessor's title or interest in the Premises or this Lease, Lessor shall deliver to the transferee or assignee (in cash or by credit) any unused Security Deposit held by Lessor. Upon such transfer or assignment and delivery of the Security Deposit, as aforesaid, the prior Lessor shall be relieved of all liability with respect to the obligations and/or covenants under this Lease thereafter to be performed by the Lessor. Subject to the foregoing, the obligations and/or covenants in this Lease to be performed by the Lessor shall be binding only upon the Lessor as hereinabove defined.

18. **Severability**. The invalidity of any provision of this Lease, as determined by a court of competent jurisdiction, shall in no way affect the validity of any other provision hereof.

19. **Days**. Unless otherwise specifically indicated to the contrary, the word "**days**" as used in this Lease shall mean and refer to calendar days.

20. **Limitation on Liability**. The obligations of Lessor under this Lease shall not constitute personal obligations of Lessor, or its partners, members, directors, officers or shareholders, and Lessee shall look to the Premises, and to no other assets of Lessor, for the satisfaction of any liability of Lessor with respect to this Lease, and shall not seek recourse against Lessor's partners, members, directors, officers or shareholders, or any of their personal assets for such satisfaction.

21. **Time of Essence**. Time is of the essence with respect to the performance of all obligations to be performed or observed by the Parties under this Lease,

22. **No Prior or Other Agreements; Broker Disclaimer**. This Lease contains all agreements between the Parties with respect to any matter mentioned herein, and no other prior or contemporaneous agreement or understanding shall be effective. Lessor and Lessee each represents and warrants to the Brokers that it has made, and is relying solely upon, its own investigation as to the nature, quality, character and financial responsibility of the other Party to this Lease and as to the use, nature, quality and character of the Premises. Brokers have no responsibility with respect thereto or with respect to any default or breach hereof by either Party.

23. **Notices**.

23.1 **Notice Requirements**. All notices required or permitted by this Lease or applicable law shall be in writing and may be delivered in person (by hand or by courier) or may be sent by regular, certified or registered mall or U.S. Postal Service Express Mail, with postage prepaid, or by facsimile transmission, and shall be deemed sufficiently given if served in a manner specified in this Paragraph 23. The addresses noted adjacent to a Party's signature on this Lease shall be that Party's address for delivery or mailing of notices. Either Party may by written notice to the other specify a different address for notice, except that upon Lessee's taking possession of the Premises, the Premises shall constitute Lessee's address for notice. A copy of all notices to Lessor shall be concurrently transmitted to such party or parties at such addresses as Lessor may from time to time hereafter designate in writing.

23.2 **Date of Notice**. Any notice sent by registered or certified mall, return receipt requested, shall be deemed given on the date of delivery shown on the receipt card, or if no delivery date is shown, the postmark thereon. If sent by regular mail the notice shall be deemed given 72 hours after the same is addressed as required herein and mailed with postage prepaid. Notices delivered by United States Express Mail or overnight courier that guarantee next day delivery shall be deemed given 24 hours after delivery of the same to the Postal Service or courier. Notices transmitted by facsimile transmission or similar means shall be deemed delivered upon telephone confirmation of receipt (confirmation report from fax machine is sufficient), provided a copy is also delivered via delivery or mall. If notice is received on a Saturday, Sunday or legal holiday, it shall be deemed received on the next business day.

24. **Waivers**.

(a) No waiver by Lessorof the Default or Breach of any term, covenant or condition hereof by Lessee, shall be deemed a waiver of any other term, covenant or condition hereof, or of any subsequent Default or Breach by Lessee of the same or of any other term, covenant or condition hereof. Lessor's consent to, or approval of, any act shall not be deemed to render unnecessary the obtaining of Lessor's consent to, or approval of, any subsequent or similar act by Lessee, or be construed as the basis of an estoppel to enforce the provision or provisions of this Lease requiring such consent.

(b) The acceptance of Rent by Lessor shall not be a waiver of any Default or Breach by Lessee. Any payment by Lessee maybe accepted by Lessor on account of moneys or damages due Lessor, notwithstanding any qualifying statements or conditions made by Lessee in connection therewith, which such statements and/or conditions shall be of no force or effect whatsoever unless specifically agreed to in writing by Lessor at or before the time of deposit of such payment.

(c) THE PARTIES AGREE THAT THE TERMS OF THIS LEASE SHALL GOVERN WITH REGARD TO ALL MATTERS RELATED THERETO AND HEREBY WAIVE THE PROVISIONS OF ANY PRESENT OR FUTURE STATUTE TO THE EXTENT THAT SUCH STATUTE IS INCONSISTENT WITH THIS LEASE.

25. **Disclosures Regarding The Nature of a Real Estate Agency Relationship**.

(a) When entering into a discussion with a real estate agent regarding a real estate transaction, a Lessor or Lessee should from the outset understand what type of agency relationship or representation it has with the agent or agents in the transaction, Lessor and Lessee acknowledge being advised by the Brokers in this transaction, as follows:

(i) *Lessor's Agent*. A Lessor's agent under a listing agreement with the Lessor acts as the agent for the Lessor only. A Lessor's agent or subagent has the following affirmative obligations: To the Lessor: A fiduciary duty of utmost care, integrity, honesty, and loyalty in dealings with the Lessor. To the Lessee and the Lessor: (a) Diligent exercise of reasonable skills and care in performance of the agent's duties. (b) A duty of honest and fair dealing and good faith. (c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the

diligent attention and observation of, the Parties. An agent is not obligated to reveal to either Party any confidential information obtained from the other Party which does not involve the affirmative duties set forth above.

(ii) *Lessee's Agent*. An agent can agree to act as agent for the Lessee only. In these situations, the agent is not the Lessor's agent, even if by agreement the agent may receive compensation for services rendered, either in full or in part from the Lessor. An agent acting only for

(iii) *Agent Representing Both Lessor and Lessee.* A real estate agent, either acting directly or through one or more associate licenses, can legally be the agent of both the Lessor and the Lessee in a transaction, but only with the knowledge and consent of both the Lessor and the Lessee. In a dual agency situation, the agent has the following affirmative obligations to both the Lessor and the Lessee: (a) A fiduciary duty of utmost care, integrity, honesty and loyalty in the dealings with either Lessor or the Lessee, (b) Other duties to the Lessor and the Lessee as stated above in subparagraphs (i) or (ii). In representing both Lessor and Lessee, the agent may not without the express permission of the respective Party, disclose to the other Party that the Lessor will accept rent in an amount less than that indicated in the listing or that the Lessee is willing to pay a higher rent than that offered. The above duties of the agent in a real estate transaction do not relieve a Lessor or Lessee from the responsibility to protect their own interests. Lessor and Lessee should carefully read all agreements to assure that they adequately express their understanding of the transaction. A real estate agent is a person qualified to advise about real estate. If legal or tax advice is desired, consult a competent professional.

(b) Brokers have no responsibility with respect to any Default or Breach hereof by either Party. The Parties agree that no lawsuit or other legal proceeding involving any breach of duty, error or omission relating to this Lease may be brought against Broker more than one year after the Start Date and that the liability (including court costs and attorneys' fees), of any Broker with respect to any such lawsuit and/or legal proceeding shall not exceed the fee received by such Broker pursuant to this Lease; provided, however, that the foregoing limitation on each Broker's liability shall not be applicable to any gross negligence or willful misconduct of such Broker.

(c) Buyer and Seller agree to identify to Brokers as "Confidential" any communication or information given Brokers that is considered by such Party to be confidential.

26. **No Right To Holdover**. Lessee has no right to retain possession of the Premises or any part thereof beyond the expiration or termination of this Lease. In the event that Lessee holds over, then the Base Rent shall be increased to 150% of the Base Rent applicable immediately preceding the expiration or termination. Nothing contained herein shall be construed as consent by Lessor to any holding over by Lessee.

27. **Cumulative Remedies**. No remedy or election hereunder shall be deemed exclusive but shall, wherever possible, be cumulative with all other remedies at law or in equity.

28. **Covenants and Conditions; Construction of Agreement**. All provisions of this Lease to be observed or performed by Lessee are both covenants and conditions. In construing this Lease, all headings and titles are for the convenience of the Parties only and shall not be considered a part of this Lease. Whenever required by the context, the singular shall include the plural and vice versa. This Lease shall not be construed as if prepared by one of the Parties, but rather according to its fair meaning as a whole, as if both Parties had prepared it.

29. **Binding Effect; Choice of Law**. This Lease shall be binding upon the parties, their personal representatives, successors and assigns and be governed by the laws of the State in which the Premises are located. Any litigation between the Parties hereto concerning this Lease shall be initiated in the county in which the Premises are located.

30. **Subordination; Attornment; Non-Disturbance**.

30.1 **Subordination**. This Lease and any Option granted hereby shall be subject and subordinate to any ground lease, mortgage, deed of trust, or other hypothecation or security device (collectively, **"Security Device"**), now or hereafter placed upon the Premises, to any and all advances made on the security thereof, and to all renewals, modifications, and extensions thereof. Lessee agrees that the holders of any such Security Devices (in this Lease together referred to as "**Lender**") shall have no liability or obligation to perform any of the obligations of Lessor under this Lease. Any Lender may elect to have this Lease and/or any Option granted hereby superior to the lien of its Security Device by giving written notice thereof to Lessee, whereupon this Lease and such Options shall be deemed prior to such Security Device, notwithstanding the relative dates of the documentation or recordation thereof.

30.2 **Attornment**. In the event that Lessor transfers title to the Premises, or the Premises are acquired by another upon the foreclosure or termination of a Security Devise to which this Lease is subordinated (i) Lessee shall, subject to the non-disturbance provisions of Paragraph 30.3, attorn to such new owner, and upon request, enter into a new lease, containing all of the terms and provisions of this Lease, with such new owner for the remainder of the term hereof, or, at the election of the new owner, this Lease will automatically become a new lease between Lessee and such new owner, and (ii) Lessor shall thereafter be relieved of any further obligations hereunder and such new owner shall assume all of Lessor's obligations, except that such new owner shall not: (a) be liable for any act or omission of any prior lessor or with respect to events occurring prior to acquisition of ownership; (b) be subject to any offsets or defenses which Lessee might have against any prior lessor, (c) be bound by prepayment of more than one month's rent, or (d) be liable for the return of any security deposit paid to any prior lessor which was not paid or credited to such new owner.

30.3 **Non-Disturbance**. With respect to Security Devices entered into by Lessor after the execution of this Lease, Lessee's subordination of this Lease shall be subject to receiving a commercially reasonable non-disturbance agreement (a "**Non-Disturbance Agreement**") from the Lender which Non-Disturbance Agreement provides that Lessee's possession of the Premises, and this Lease, including any options to extend the term hereof, will not be disturbed so long as Lessee is not in Breach hereof and attorns to the record owner of the Premises. Further, within 60 days after the execution of this Lease, Lessor shall, if requested by Lessee, use its commercially reasonable efforts to obtain a Non-Disturbance Agreement from the holder of any pre-existing Security Device which is secured by the Premises. In the event that Lessor is unable to provide the Non-Disturbance Agreement within said 60 days, then Lessee may, at Lessee's option, directly contact Lender and attempt to negotiate for the execution and delivery of a Non-Disturbance Agreement.

30.4 **Self-Executing**. The agreements contained in this Paragraph 30 shall be effective without the execution of any further documents; provided, however, that, upon written request from Lessor or a Lender in connection with a sale, financing or refinancing of the Premises, Lessee and Lessor shall execute such further writings as may be reasonably required to separately document any subordination, attornment and/or Non-Disturbance Agreement provided for herein.

31. **Attorneys' Fees**. If any Party or Broker brings an action or proceeding involving the Premises whether founded in tort, contract or equity, or to declare rights hereunder, the Prevailing Party (as hereafter defined) in any such proceeding, action, or appeal thereon, shall be entitled to reasonable attorneys' fees. Such fees may be awarded in the same suit or recovered in a separate suit, whether or not such action or proceeding is pursued to decision or judgment. The term, "**Prevailing Party**" shall include, without limitation, a Party or Broker who substantially obtains or defeats the relief sought, as the case may be, whether by compromise, settlement, judgment, or the abandonment by the other Party or Broker of its claim or defense. Parking: There are 407 total parking spaces in the Parking Structure, of which 163 spaces are allocated to the Building. The amount of spaces allocated to the space is calculated by multiplying the total spaces (163) allocated to the building by the Tenant's share of the building (5.7%). Therefore, the space is entitled to the use of 9 parking space(s).

Common Areas: The Tenant's common area share of the entire park is currently calculated by dividing the rentable square feet of the space (3,145) by the total gross square feet of all completed buildings located at the Project (663,729), adjusted annually. Therefore, the Tenant's common area share is 0.5%. Once the gross square feet of the space is calculated, the Landlord may recalculate the Tenant's common area share by dividing the gross square feet of the space by the gross square feet of all completed buildings located at the Project.

If any other provision of this Lease contradicts any definition of this Article, the other provision will prevail.

Nothing contained herein shall relieve Tenant of the obligations contained in this Article nor from compliance with all applicable environmental laws.

Tenant shall indemnify and hold Landlord harmless from any claims, liabilities, costs or expenses incurred or suffered by Landlord arising from Tenant's activities in bringing, allowing, using, permitting, generating, creating, emitting or disposing of Toxic Materials whether or not consent to same has been granted by Landlord. 16.01 Eminent Domain. If the whole of the Building is lawfully taken by condemnation or in any other manner for any public or quasi-public purpose, this Lease will terminate as of the date of such taking, and the Lease Monthly Rent will be prorated to the date of termination. If less than the whole of the Building is so taken, this Lease will be unaffected by such taking, provided that (i) Tenant will have the right to terminate this Lease by written notice to Landlord given within thirty (30) days after the date of such taking if twenty percent (20%) or more of the Leased Premises is taken and the remaining area of the Leased Premises is not reasonably sufficient for Tenant to continue operation of its business, and (ii) Landlord will have the right to terminate this Lease by written notice to Tenant given within ninety (90) days after the date of such taking if the remaining area of the Building is not reasonably sufficient for the Landlord to continue operation of the Building. If either Landlord or Tenant exercises such right to terminate this Lease, the Lease will terminate as of the date of the taking and the Lease Monthly Rent will be prorated to the date of termination. If the Lease continues in force upon such partial taking the Lease Monthly Rent will be proportionately adjusted based on the reduction in rentable square footage of the Leased Premises.

16.02 Condemnation Proceeds. In the event of any taking, partial or whole, all of the proceeds of any award, judgment or settlement payable by the condemning authority will be the exclusive property of Landlord, and Tenant hereby assigns to Landlord all of its right, title and interest in any award, judgment or settlement from the condemning authority. Tenant, however, will have the right, to the extent that Landlord's award is not reduced or prejudiced, to claim from the condemning authority (but not from Landlord) such compensation as may be recoverable by Tenant in its own right for relocation expenses, damage to Tenant's Property, and loss of Tenant's leasehold estate.

ARTICLE 17.00 Damage and Destruction

17.01 Uninsured Risks. If, during the Lease Term, the Leased Premises are totally or partially destroyed from a risk not covered by insurance through no fault of the Landlord, Landlord, at its option, can elect to terminate this Lease by giving notice to Tenant within thirty (30) days of the date of destruction; provided, however, Landlord shall have no right to terminate the Lease if within ten (10) days following receipt of Landlord's notice of its election to terminate, Tenant provides to Landlord reasonable assurance that Tenant shall pay for the cost of restoring the Leased Premises. However, as to any such uninsured destruction which was caused by an act or omission of Tenant, its employees, agents, invitees or permittees, then Tenant shall reimburse Landlord the full cost of the restoration of the Leased Premises.

17.02 Insured Risks. If, during the Lease Term, the Leased Premises are totally or partially destroyed from a risk covered by insurance, Landlord shall forthwith repair the Leased Premises to substantially the same condition they were in immediately prior to the destruction provided (a) such repairs can, in Landlord's opinion, be completed within ninety (90) days under then applicable laws and regulations, (b) proceeds received under such insurance are available to pay ninety percent (90%) or more of the cost of restoration, and (c) Tenant performs its obligations pursuant to Section 17.03 hereof. Within thirty (30) days of any damage affecting the Leased Premises, Landlord will give Tenant notice indicating whether the foregoing requirements (a) and (b) can, in the Landlord's reasonable opinion, be satisfied. Such destruction shall not annul or void this Lease. During the period of any such repairs the Lease Monthly Rent shall be proportionately reduced to the extent Tenant's use of the Leased Premises is impaired, commencing with the date of damage and continuing until completion of the repairs required of Landlord. If such repairs cannot be made in ninety (90) days or if Landlord fails to provide the notice required under this Section 17.02, Tenant may terminate this Lease by written notice to Landlord. Tenant must exercise this termination option, if at all, within thirty (30) days of the date of destruction. If the damage is due to the neglect of Tenant, its employees, agents, invitees or permittees, there shall be no abatement of Lease Monthly Rent. In the event that Landlord does not so elect to make such repairs which cannot be made in ninety (90) days, or such repairs cannot be made under such then existing laws or regulations, this Lease shall terminate. In the event that the Leased Premises are destroyed to the extent of thirty-three percent (33%) or more of the replacement cost thereof or during the last year of the Term, Landlord may elect to terminate this Lease.

17.03 Tenant Repair. If the Leased Premises are to be repaired under this Article 17.00, Landlord shall repair at its cost any injury or damage to the Leased Premises including the Tenant Improvements installed in the Leased Premises pursuant to Exhibit "F". Tenant shall be responsible at its sole cost and expense for the repair, restoration and replacement of any other Leasehold Improvements installed by Tenant during the Lease Term and Tenant's Property. Landlord shall not be liable for any loss of business, inconvenience or annoyance arising from any repair or restoration of any portion of the Leased Premises or Building as a result of any damage from fire or other casualty.

ARTICLE 18.00 Entry by Landlord

18.01 Right of Entry. Upon twenty-four (24) hours advance notice, except in the case of emergencies, Landlord and its authorized representatives shall have the right and Tenant shall permit entry to the Leased Premises at all reasonable times for any of the following purposes:

To determine whether the Leased Premises are in good condition and whether Tenant is complying with its obligations under this Lease;

To do any necessary or appropriate maintenance and to make any restoration to the Leased Premises and other improvements in which the Leased Premises are located that the Landlord has under this Lease the right or obligation to perform;

To serve, post, or keep posted any notices required or allowed under the provisions of this Lease;

To post "for sale" signs at any time during the Term, to post "for rent" or "for lease" signs during the last one hundred eighty (180) days of the Term or any extension thereof or during any period while the Tenant is in default;

To show the Leased Premises to prospective brokers, agents, buyers, tenants, or persons interested in an exchange, at any time during the Term; and

To shore the foundations, footings, and walls of the Leased Premises, and to erect scaffolding and protective barricades around and about the Leased Premises, but not so as to prevent entry to the Leased Premises, and to do any other act or thing necessary for the safety or preservation of the Leased Premises and other improvements in which the Leased Premises are located if any excavation or other construction is undertaken or is about to be undertaken on any adjacent property or nearby street. To the extent authorized, Landlord's right under this provision may extend to the owners or users of adjacent property on which excavation or construction is to take place, and to the adjacent property owner s or user's authorized representatives.

18.02 Exculpation. Landlord shall not be liable in any manner for any inconvenience, disturbance, loss of business, nuisance, or other damages arising out of Landlord's entry on the Leased Premises as provided in this Article 18.00, nor shall any such entry constitute a constructive eviction or in any way affect Tenant's obligations under this Lease or entitle Tenant to any abatement or reduction of Lease Monthly Rent and, for other than emergency matters, Landlord agrees to use its best efforts to accomplish such entry in a manner reasonably calculated to minimize the disruption to Tenant and its business operations.

18.03 Movement of Landlord's Equipment. Omitted

ARTICLE 19.00 Quiet Enjoyment

19.01 Landlord covenants and agrees with Tenant that so long as Tenant pays the Lease Monthly Rent and the Lease Rent, and observes and performs all the terms, covenants and conditions of the Lease on Tenant's part to be observed and performed, Tenant may peaceably and quietly enjoy the Leased Premises, subject to the terms and conditions of the Lease, and this Lease and Tenant's possession will not be disturbed by anyone claiming by, through or under Landlord.

19.02 Landlord represents and warrants to Tenant that Landlord is the fee simple owner of the Building and the real property on which the Building is located.

19.03 Landlord represents and warrants to Tenant that the Building and Tenant's proposed use, as described in Section 9.01, comply with all restrictive covenants applicable to

the Building.

ARTICLE 20.00 Default

20.01 Events of Default. The following events are referred to collectively, as "Events of Default," or individually, as an "Event of Default:"

(a) Tenant defaults in the due and punctual payment of Lease Monthly Rent or Lease Rent, and such default continues for five *(5)* days after notice from Landlord;

(b) Tenant vacates or abandons the Leased Premises;

(c) This Lease or the Leased Premises or any part of the Leased Premises are taken upon execution or by other process of law directed against Tenant, or are taken upon or subject to any attachment at the instance of any creditor or claimant against Tenant, and said attachment is not discharged or disposed of within thirty (30) days after its levy;

(d) Tenant files a petition in bankruptcy or insolvency or for reorganization or arrangement under the bankruptcy laws of the United States or under any insolvency act of any state, or admits the material allegations of any such petition by answer or otherwise, or it dissolved or makes an assignment for the benefit of creditors;

(e) Involuntary proceedings under any such bankruptcy law or insolvency act or for the dissolution of Tenant are instituted against Tenant, or a receiver or trustee is appointed for all or substantially all of the property of Tenant, and such proceedings are not dismissed or such receivership or trusteeship vacated within sixty (60) days after such institution or appointment;

(f) Tenant fails to take possession of the Leased Premises within thirty (30) days of the Lease Commencement Date; or

(g) Tenant breaches any of the other agreements, terms, covenants or conditions which this Lease requires Tenant to perform, and such breach continues for a period of thirty (30) days after notice from Landlord to Tenant; or if such breach cannot be cured reasonably within such thirty (30)-day period and Tenant fails to commence to cure such breach within thirty (30) days after notice from Landlord or fails to proceed diligently to cure such breach within a reasonable time period thereafter.

20.02 Remedies. Upon the occurrence of any one or more of the Events of Default, without further notice or demand, and without limiting Landlord from the exercise of any right or remedy which Landlord may have by reason of such default, Landlord may:

(a) Terminate Tenant's right to possession of the Leased Premises. In such event, Tenant agrees to immediately surrender possession of the Leased Premises to Landlord.

(b) Recover from Tenant all damages incurred by Landlord by reason of Tenant's default, including but not limited to, the cost of recovery of possession of the Leased Premises and expense of reletting, including the expenses of renovation and alteration of the Leased Premises, unamortized expenses of Landlord, Tenant Improvements, advertising and broker's commissions.

(c) Maintain Tenant's right to possession, in which case this Lease shall continue in effect, whether or not Tenant shall have abandoned or surrendered, or attempted to abandon or surrender, the Leased Premises.

(d) Accelerate all amounts to be due from Tenant to Landlord pursuant to this Lease.

(e) Exercise Landlord's lien rights and/or take possession of and sell any of the Tenant's Property located in the Leased Premises.

(f) Exercise any "self-help" remedy available to Landlord, including but not limited to the changing of locks, the plugging of locks or the erection of barriers. Tenant specifically consents to all such "self-help" remedies.

(g) Initiate legal proceedings, as deemed appropriate by Landlord.

(h) Pursue any other remedy now or hereafter available to Landlord at law, in equity, pursuant to this Lease or otherwise.

Except when otherwise agreed to in writing by Landlord, Tenant shall remain liable to Landlord following any surrender or attempted surrender of the Leased Premises. Landlord can re-enter the Leased Premises and relet the Leased Premises, without such action constituting a surrender of the Leased Premises or a termination of this Lease. The initiation of legal proceedings, including but not limited to a forcible entry and detainer action, by Landlord against Tenant shall not be deemed to terminate this Lease

20.03 Re-Entry By Landlord Default Provisions. In addition to other remedies, if this Lease shall terminate for any reason whatsoever, Landlord or Landlord's agents and employees may, without further notice, immediately or at any time thereafter, enter upon and reenter the Leased Premises or any part thereof, and possess or repossess itself thereof either by summary process proceedings, ejectment or by any suitable action or proceeding at law or by agreement, or by force or otherwise, and may dispossess and remove Tenant and all other persons and property from the Leased Premises without being liable to tenant therefor, and may repossess the same, and may remove any persons therefrom, to the end that Landlord may have, hold and enjoy the Leased Premises and the right to receive all rental income therefrom. The words "enter" or "reenter", "possess" or "repossess" as herein used, are not restricted to their technical legal meaning.

20.04. Threatened Breach. In the event of any breach or threatened breach by Tenant of

any of the agreements, terms, covenants or conditions contained in this Lease, Landlord shall be entitled to enjoin such breach or threatened breach and shall have the right to invoke any right and remedy allowed at law or in equity or by statute or otherwise as though reentry, summary proceedings, and other remedies were not provided for in this Lease.

20.05 Cumulative Remedies. Each right and remedy of Landlord provide for in this Lease shall be cumulative and shall be in addition to every other right or remedy provided for in this Lease or now or hereafter existing at law or in equity or by statute or otherwise, and the exercise or beginning of the exercise by Landlord of any one or more of the rights or remedies provided for in this Lease or now or hereafter existing at law or in equity or by statute or otherwise shall not preclude the simultaneous or later exercise by Landlord of any or all other rights or remedies provided for in this Lease or now or hereafter existing at law or in equity or by statute or otherwise. The doctrine of "election of remedies" shall not apply to this Lease.

20.06 No Offset. No offset or claim that Tenant may have now or in the future against Landlord shall relieve Tenant from performing any of its obligations under this Lease. Once a default has occurred under this Lease, Landlord, in its sole discretion, may require that all future payments from Tenant pursuant to this Lease be in the form of certified funds or wire transfer.

20.07. Interest. Upon the occurrence of an Event of Default, all amounts owed by Tenant to Landlord pursuant to this Lease shall accrue interest at the rate of 15% simple interest per annum.

20.08. Waiver of Redemption. Tenant waives any and all rights of redemption, if any, arising in conjunction with this Lease, as a result of Landlord's exercise of any remedy regarding this lease, or otherwise.

3.2 PURSUANT TO MERGER

Any successor to Landlord, and subject to the limitation of Section 11.10, may administer the Regulations and Restrictions, together with the regulations and restrictions established with respect to any other real property additions, as one scheme. B. All electrical, mechanical and solar apparatus, equipment, fixtures (other than lighting fixtures), satellite or communications antennae, conduit, ducts, vents, flues and pipes mounted or placed on the roof surface, or extending above the roofline of any Building or structure, or located on the exterior of any Building or structure, or outside a Building or structure, shall be concealed from view from the street(s) and from Buildings on other Building Sites in an architecturally treated manner approved by the Architectural Review Committee, unless the Architectural Review Committee has granted specific written approval of other measures which would minimize the visual effects as viewed from the street(s) and Buildings on other Building Sites.

5.5 EXTERIOR WALLS

A. There shall be no exterior walls of sheet or corrugated iron, steel, aluminum, asbestos or similar materials, unless specific written approval of the Architectural Review Committee is given. In general, exterior walls are to be stucco-finished masonry, concrete or equal material approved by the Architectural Review Committee.

B. Exterior walls shall be painted or suitably treated and maintained in a manner acceptable to the Architectural Review Committee. Exterior walls shall not be repainted or refinished unless and until the Architectural Review Committee has approved in writing the repainting or refinishing.

5.6 BUILDING HEIGHTS. The heights of all Buildings and Improvements shall be in accordance with the Development Standards.

5.7 OFF STREET PARKING. No parking shall be permitted on any street or at any place other than on the paved parking spaces provided for and described herein below, or in parking structures as designated by Landlord. Each Tenant or Subtenant shall be responsible for compliance with the foregoing by its Occupants. Adequate off-street parking shall be provided by each Tenant for the benefit of Tenant, Subtenant and all Occupants. The location, number and size of parking spaces shall be subject to approval by the Architectural Review Committee pursuant to Section 7 hereof. The minimum standards shall be determined in accordance with the Park Development Standards. All off-street parking and access drives and loading areas shall be paved and properly graded to assure proper drainage. The Architectural Review Committee shall have the right to require visual screening between any parking area and any other existing or proposed Building Site or General Common Property. Every Tenant shall be responsible for all costs and expenses incurred in the installation and maintenance of all parking spaces upon such Tenant ’s Building Site.

5.8 LOADING AREAS. All loading areas shall be screened, as may be required by the Architectural Review Committee under the Park Development Standards. Streetside loading will be allowed only if the loading area is at least seventy (70) feet from the street right-of-way or one hundred (100) feet from the street center line, whichever is greater, and screened as required in accordance with the Park Development Standards. Loading and service areas shall be designed as an integral part of the building architecture.

5.9 EXCAVATIONS. No excavations shall be made except in connection with construction of Improvements as approved by the Architectural Review Committee; and upon completion thereof exposed openings shall be backfilled and compacted, and disturbed ground shall be graded and leveled and restored in accordance with the approved Plans and Specifications.

5.10 STORAGE AREAS. All exterior storage, including passenger vehicles owned and operated by the Tenant, Subtenant or Occupants shall be visually screened from all streets and adjacent property by an opaque barrier adequate to screen stored materials, in accordance with the Park Development Standards. No storage shall be located between frontage street and any Building, and there shall be no junk, scrap, rubbish, trash, litter or other accumulate stored which will detract from the appearance of the Building Site.

5.11 SIGNS. No signs shall be permitted anywhere within the Property without prior written approval of the Architectural Review Committee. All signs shall conform with written sign standards for the Land as specified in the Park Development Standards and all applicable laws and governmental regulations.

5.12 REFUSE COLLECTION AREAS. All exterior refuse collection areas shall be totally enclosed and visually screened, in accordance with the Park Development Standards, by an opaque screen at least eight (8) feet in height, from all streets and adjacent property. No refuse collection areas shall be located between a frontage street and any Building.

5.13 LANDSCAPING

A. All Building Sites shall be landscaped only in accordance with the Park Development Standards and a landscape plan submitted to and approved in writing as part of the Plans and Specifications

by the Architectural Review Committee prior to any development of the Building Site. Such landscaping plan shall include and provide:

(1) Drawings and specifications with respect to lawns, shrubs, decorative plantings, trees and plants in the size, type and location thereof;

(2) An underground lawn sprinkling system;

(3) Screening or all storage, loading and unloading areas and additional screening as may be required under these Regulations and Restrictions and the Park Development Standards;

(4) The lighting of Buildings, parking areas and other areas where lighting is to be used;

(5) All other matters reasonably requested for inclusion in such landscaping plan by the Architectural Review Committee.

Further, it shall be the responsibility of the Tenant of a Building Site to landscape and maintain the area between the lot lines of said Tenant's Building Site and the curbs of any roadways adjacent to such Building Site, except as provided in Section 5.14 below. All landscaping shall be undertaken and completed in accordance with approved Plans and Specifications and said Plans and Specifications may not be altered, amended or revised without submitting a revised landscaping plan for prior approval by the Architectural Review Committee.

B. All landscaping required hereunder or otherwise to be provided on any Building Site shall be completed prior to occupancy of any Building to be constructed on the Building Site; provided, however, if weather conditions do not permit completion of the landscaping by such date, then Tenant shall notify the Architectural Review Committee as soon as the Tenant knows of such delay and the Architectural Review Committee may issue an extension upon good cause shown and such landscaping shall be completed as soon thereafter as weather conditions permit. The Tenant shall notify the Architectural Review Committee of the completion of landscaping required by the Plans and Specifications. If any Tenant fails to undertake and complete his landscaping within the time limit previously set forth herein, Landlord may, at its option, after giving the Tenant ten (10) days' written notice forwarded to Tenant (unless within said ten (10) day period the Tenant of the Building Site shall proceed and thereafter pursue with diligence the completion of such landscaping), undertake and complete the landscaping of the Building in accordance with the landscaping plan. If Landlord undertakes and completes such landscaping because of the failure of Tenant to complete the same, the costs of such landscaping shall be assessed against the Tenant, and if said assessment is not paid within thirty (30) days after written notice of such assessment from Landlord, said assessment will constitute a lien on the Building Site and the Improvements and may be enforced as set forth in Section 7.7 hereof. In addition to the foregoing, each Tenant shall deliver to Landlord no later than ten (10) days subsequent to approval of the landscaping plans by the Architectural Review Committee, an irrevocable letter of credit in form satisfactory to Landlord, issued by a commercial bank or savings and loan association approved by Landlord, in the amount of the estimated cost of the landscaping. Said letter may be drawn upon by Landlord to pay the costs of completion of the landscaping, in the event that the landscaping is not completed within the time schedule previously described herein and Landlord elects to undertake and complete the same. Upon completion of the landscaping in accordance with the approved Plans and Specifications, the letter of credit shall be promptly returned by Landlord to Tenant. Notwithstanding the above, a Tenant may, with prior written approval of Landlord, furnish other security satisfactory to Landlord to insure completion of the landscaping plans as approved.

C. It is the intent of Landlord that all Building Sites, including the Improvements and landscaping thereon, be maintained in a uniform, high quality, first-class manner. The Tenant or Subtenant of a Building Site shall be responsible for the landscaping maintenance of its Building Site, and may contract to have such work performed by an independent landscape contractor. If maintenance

performed by such Tenant or Subtenant or its contractor is not in compliance with the landscape maintenance standards established by the Architectural Review Committee and such landscape maintenance is not brought into compliance with such standards within thirty (30) days (or such longer period of time as designated by Landlord or the Architectural Review Committee, in its sole discretion) of the delivery pursuant to Section 11.5 herein of written notice from Landlord or said Committee setting forth the particulars of such non-compliance, Landlord or its designee may, in its sole discretion, enter upon the Building Site and undertake such landscape maintenance. All costs of such maintenance undertaken by Landlord or its designee under such circumstances shall be assessed against the Building Site upon which said landscaping maintenance is performed and the Improvements located thereon and failure to pay such assessment shall constitute a lien against the property enforceable pursuant to Section 7.7.

5.14 MAINTENANCE

A. Each Tenant or Subtenant of any Building Site shall keep his buildings, improvements and appurtenances thereon in a safe, clean, maintained, neat, wholesome condition and shall comply in all respects with all governmental statutes, ordinances, regulations, health and police and fire requirements. Each such Tenant or Subtenant shall remove at his own expense any rubbish or trash of any character which may accumulate on its Building Site. Rubbish, trash, garbage and other waste shall be kept only in sanitary containers. All equipment for the storage or disposal of such trash shall not be disposed of on the Land by burning in open fires.

B. Each Tenant or Subtenant shall pay his Pro Rata Portion of General Common Property Expenses, which shall include the expenses for the maintenance (including landscaping maintenance), repairs, replacements and services required in connection with the General Common Properties (including General Common Properties on additional properties pursuant to Section 3 hereof). Such expenses shall include, but not be limited to, lighting, landscaping, cleaning, liability insurance premiums attributable to such areas, expenses of attendants and security, if any, and all real and personal property taxes, if any. Failure of a Tenant or Subtenant to pay its Pro Rata Portion of General Common Property Expenses shall constitute a lien against the Building Site and the Improvements enforceable as set forth in Section 7.7 hereof. Each Tenant or Subtenant shall have the sole responsibility for the expenses of maintenance (including landscape maintenance), repairs, replacements and services required in connection with the Pedestrian Easements, Parking and Roadway Easements and Landscape Buffer, if any, located upon his Building Site, which expenses shall include, but not be limited to, lighting, landscaping, cleaning, liability insurance premiums attributable to such areas, costs of attendants, if any, and all real and personal property taxes, if any.

5.15 UTILITY CONNECTIONS. All utility connections, including all electrical cable and telephone connections and installations of wires to Buildings shall be made underground from the nearest available power source. No transformer, electric, gas or other meter of any type or other apparatus shall be located on any power pole nor hung on the outside of any Building, but the same shall be placed on or below the surface of the Building Site and where placed on the surface shall be adequately screened and fenced and all such installations shall be subject to prior written approval of the Architectural Review Committee. The Architectural Review Committee shall have the right to require any Tenant to grant on any Building Site easements for utilities and stormwater drainage facilities within the building setback of any Building Site to other Tenants of Building Sites or to such utility companies or public agencies or authorities as it shall deem necessary for the proper service to and maintenance of the Land.

5.16 SITE DRAINAGE

A. Each Tenant shall be required to provide adequate stormwater drainage facilities, including on-site ponding areas (if needed) and metering of storm water runoff resulting from precipitation or storm sewers, or both, in accordance with the requirements of the City of Albuquerque and Bernalillo County and any other applicable governmental agency or authority and with the Park

Development Standards and any master drainage plan for the Land as prepared by Landlord.

B. The change in storm water runoff between the historical (undeveloped) condition and the developed condition shall be measured as the increased flow resulting from changes in coefficient of storm water runoff and the time of concentration. An engineer's report comparing the historical and developed conditions and recommending adequate methods of developed conditions and recommending adequate methods of detention and drainage shall be submitted by each Tenant to the Architectural Review Committee for approval as part of the Plans and Specifications for any Building as provided herein. If required, detention shall be accomplished by providing ponding areas for storage of storm water on rooftops, in parking areas, in landscaped areas, in graded drainage swales, and by such other methods, including Storm Drainage Easements, as may be approved by the Architectural Review Committee.

SECTION SIX
APPROVAL OF PLANS

6.1 ARCHITECTURAL REVIEW COMMITTEE. There is hereby established an Architectural Review Committee whose members shall be appointed by the Landlord. This Committee shall consist of not less than three (3) nor more than five (5) members. Members of the Architectural Review Committee shall serve at the pleasure of the Landlord. The vote of a majority of members shall constitute the action of the Architectural Review Committee. The Landlord or the Architectural Review Committee shall adopt standards and regulations ("Park Development Standards") in accordance with the purposes and intent of these Regulations and Restrictions governing the design and construction of all Improvements on the Land. The Architectural Review Committee shall have the authority to amend the Park Development Standards from time to time, as it deems appropriate; provided, however, that any such amendments must receive the approval of the Landlord and the approval of each Tenant to the extent required by the Parcel Ground Lease for that Tenant. The Park Development Standards shall have the same force and effect and shall be enforceable as these Regulations and Restrictions.

6.2. No improvements shall be constructed, erected, placed, altered, maintained or permitted on any Building Site nor shall any construction or excavation whatsoever be commenced or construction vehicles be placed on a Building Site until plans and specifications with respect thereto in manner and form satisfactory to the Architectural Review committee showing:

(i) The Site Plan, showing, among other things, the location and dimension of all intended Improvements, including (a) Building(s), (b) other structures, (c) motor vehicle parking areas and facilities including the number and size of parking spaces, (d) loading and storage facilities and areas, (e) areas to be landscaped, (f) signs, (g) light fixtures, (h) means of ingress and egress, (i) curb cuts, (j) traffic patterns, (k) drives and driveways, (l) walkways and trails, and (m) screening;

(ii) Drawings and specifications of all exterior surfaces, showing elevations and including the color, quality and type of exterior construction materials;

(iii) Grading and drainage plans, including existing and proposed grade levels, the invert elevation of all sanitary and storm sewer connections and the location of all utility connections;

(iv) A landscaping plan;

(v) The type, style, size and candle power of all outdoor lighting fixtures;

(vi) Drawings and design specifications of all proposed signs, including the colors thereof and the quality and materials to be used in the manner of illumination;

(vii) Proposed use of Building(s) and the Building Site; and

(viii) All such other information as may be reasonably required which will enable the

Architectural Review Committee to determine the location, scale, design, character, style and appearance of the Tenant's intended improvements.

All of the foregoing (hereinafter collectively called "Plans and Specifications") shall conform to the applicable provisions of these Regulations and Restrictions and the Park Development Standards. Such Plans and Specifications shall be submitted in writing over the signature of the Tenant of the Building Site or the Tenant's authorized agent. The Architectural Review Committee shall have the right to charge persons submitting such plans, other than Landlord, a reasonable fee for reviewing each application for approval of the Plans and Specification in any amount established by Landlord from time to time. Such feel shall be payable at the time of submission by a Tenant or its agent of Plans and Specifications to the Architectural Review Committee.

6.3 The Architectural Review Committee may require that the Plans and Specifications be accompanied by a Declaration of Easement with respect to Landscape Buffer, Pedestrian Easements, Signage Easements, Parking and Roadway Easements and Storm Drainage Easements to be located upon the Building Site, in forms approved by the Architectural Review Committee, which forms shall include the approval of any Mortgagee of the Building Site, and shall be submitted with the appropriate recording fee. Upon completion of the Landscape Buffer, Pedestrian Easement, Signage Easement and Storm Drainage Easement, if any, on any individual building Site, the Tenant thereof shall submit to the Architectural Review Committee a revised Declaration of Easement, certifying the exact location of such Landscape Buffer, Pedestrian Easement, Signage Easement, Parking and Roadway Easement and Storm Drainage Easement, if any, due to construction discrepancy, and said revised Declaration of Easement, if any, shall be submitted with the appropriate recording fee. The Declarations of Easement, if any, and the revised Declarations of Easement, if any, shall conform to the overall scheme and plan for the development of the Land and Building Site as set forth herein.

6.4 Landlord and the directors, officers and employees of Landlord, and the Architectural Review Committee members (hereinafter called the "Committee Members") shall not be personally liable to the Tenants, Subtenants or Occupants, for any mistake of judgment or for any other acts or omissions of any nature whatsoever as directors, officers, employees or Committee Members, except for willful misconduct. The foregoing provision shall be in addition to Section 6.8 hereof and not in lieu thereof.

6.5 Until relinquished, Landlord, in its own name and/or on behalf of the Architectural Review Committee, and all Tenants, Subtenants and Occupants, shall have the right to enforce the terms and provisions of these Regulations and Restrictions and Park Development Standards. Landlord shall have the right to transfer its duties or responsibilities pursuant to Section 11.10, below, whereupon such transferee shall have the right and the duty to enforce these Regulations and Restrictions and Park Development Standards and attempt to prevent any violations thereof.

6.6 Approval of the Plans and Specifications shall be based, among other things, on adequacy of Building Site dimensions, conformity and harmony of external design with neighboring structures, effect of locations and use of improvements on neighboring Building Sites, operations and uses; relation of topography, grade and finished ground elevation of the Building Site being improved to that of neighboring Building Sites, proper facing of main elevation with respect to nearby streets; and conformity of the Plans and Specifications to the Park Development Standards, and the purpose and intent of these Regulations and Restrictions. The Architectural Review Committee shall not arbitrarily or unreasonably withhold its approval of such Plans and Specifications.

6.7 If the Architectural Review Committee fails either to approve or to disapprove such Plans and Specifications (including resubmissions of disapproved Plans and Specifications which have been revised) within thirty (30) days after the same have been submitted to it (provided that all required information has been submitted), it shall be conclusively presumed that said Plans and Specifications have been approved, subject, however, to the restrictions contained in Section 5 hereof. The Architectural Review Committee shall notify the Tenant or Subtenant in writing upon receipt of all required Plans and Specifications and the aforesaid thirty (30) day period shall commence on the date of such notification.

6.8 If the Landlord, the Architectural Review Committee or any other Tenant or Subtenant fails to commence an action to abate or enjoin any Improvement which is constructed upon a Building Site in violation of the provisions of this Section 6 within six (6) months after the completion of all Improvements upon the Building Site, the Improvements shall be conclusively presumed to have been approved, subject, however, to the restrictions contained in Section 5 hereof.

6.9 Neither the Architectural Review Committee, nor Landlord or their respective successors or assigns shall be liable in damages to anyone submitting Plans and Specifications to them for approval, or to any Tenant, Subtenant or Occupant of land affected by these Regulations and Restrictions by reason of mistake in judgment, negligence or nonfeasance arising out of or in connection with the approval or disapproval or failure to approve any such Plans and Specifications. Every person who submits Plans and Specifications to the Architectural Review Committee for approval agrees, by submission of such Plans and Specifications, and every Tenant or Subtenant or Occupant of any said Building Sites agrees, by acquiring title hereto or an interest therein, that he will not bring any action or suit against the Architectural Review Committee, or Landlord to recover any such damages. Approval by the Architectural Review Committee or Landlord shall not be deemed to constitute compliance with the requirements of any local building codes, and it shall be the responsibility of the Tenant or Subtenant or agent submitting Plans and Specifications to the Architectural Review Committee to comply therewith. Approval in writing of all Plans and Specifications and amendments thereof must be obtained from the Architectural Review Committee prior to the issuance of any building permits.

6.10 Upon written request of any tenant or Subtenant or agent, the Architectural Review Committee may waive any of the requirements for obtaining approval of Plans and Specifications upon good cause shown. Any waiver issued by the Architectural Review Committee pursuant to this Section must be in writing and no waiver, express or implied, shall be granted unless in writing executed by a properly authorized person.

6.11 Any inconsistency between these Regulations and Restrictions and the Park Development Standards will be governed by the Regulations and Restrictions.

SECTION SEVEN
COVENANTS FOR MAINTENANCE AND ASSESSMENT

7.1 CREATION OF LIEN AND PERSONAL OBLIGATION FOR ASSESSMENTS. Each Tenant, by acceptance of a deed or Parcel Ground Lease to his Building Site, whether or not it shall be so expressed therein, or by acceptance or any other conveyance thereof (except a conveyance in connection with the establishment of a Mortgage), and every Occupant of such Building Site shall be deemed to covenant and agree to pay to Landlord (i) annual assessments or charges; (ii) special assessments for repair, replacement or maintenance of capital improvements; (iii) special assessments in connection with a Tenant's or Subtenant's failure to perform the required exterior maintenance of his Building Site and the Improvements located thereon, all as herein described with more particularity; and (iv) special assessments to provide for costs incurred by virtue of unforeseen emergencies, including, but not limited to, unusual snowfalls or heavy rains. All assessments herein provided for shall be assessed by Landlord or its assignee as provided in Section 11.10. The annual assessment shall be levied on an annual basis, and a special assessment shall be levied from time to time as and when determined by Landlord. All assessments described aforesaid together with such interest thereon and costs of collection thereof as are hereinafter provided, shall be a charge on the land and shall be a continuing lien upon the Building Site and Improvements against which each such assessment is made, subject to foreclosure in accordance with applicable law, but any such lien shall be subordinate to any valid Mortgage affecting such Building Site. Each such assessment, together with interest thereon and costs of collection thereof, shall also be the personal obligation of the Tenant, Subtenant and Occupancy of such Building Site at the time the assessment falls due, and in the event there is more than one Tenant, Subtenant or Occupant, such obligations shall be joint and several and shall commence on the date of delivery of a deed or Parcel Ground Lease from Landlord to Tenant.

7.2 PURPOSE AND USE OF ANNUAL ASSESSMENTS OR CHARGES. The annual assessments or charges levied under this Section as provided for in Section 7.1 above shall be used exclusively for the purposes of promoting the health, safety and welfare of all Tenants, Subtenants and Occupants, and in particular for the repair, operation and maintenance of the General Common Properties, including a reasonable administrative fee or charge for administering the General Common Properties, and any services or facilities devoted to such purposes. In addition, the annual assessments or charges may, at the discretion of Landlord, include a reserve for replacement of and repairs to the Improvements located on the General Common Properties.

7.3 SPECIAL ASSESSMENTS FOR CAPITAL IMPROVEMENTS AND EMERGENCIES. In addition to the annual assessments described aforesaid, Landlord may levy in any year one or more special assessments, applicable to that year only, for the purpose of defraying in whole or in part the cost of any reconstruction, unexpected repair or replacement of a capital Improvement upon the General Common Properties and/or Special Common Properties, including the necessary fixtures and personal property related thereto, or for the purpose of defraying in whole or in part the cost of any construction or reconstruction, unexpected repair or replacement, including land rehabilitation and restoration necessitated by an emergency.

7.4 CAPITAL CONTRIBUTIONS FOR IMPROVEMENTS, REPAIRS AND REPLACEMENTS. In addition to the annual or special assessments described aforesaid, Landlord may levy in any year, either as part of the annual assessment or the special assessment, an assessment to be set aside as a capital reserve for major repairs to or replacements of Improvements located on the General Common Properties. Any funds so collected shall be designated by Landlord as capital contributions by the Tenants or Subtenants thereof, as applicable, and shall be segregated and utilized solely for the purposes aforesaid.

7.5 SPECIAL ASSESSMENTS FOR EXTERIOR MAINTENANCE. In the event any Tenant, Subtenant or Occupant shall fail to maintain his Building Site and/or the Improvements situated thereon in a manner satisfactory to the Architectural Review Committee, Landlord shall have the right, through its agents and employees, to enter upon said Building Site and to repair, maintain and restore the same and the exterior of the Buildings and any other Improvements erected thereon in the manner contemplated by the above provisions. The cost of such exterior maintenance shall thereupon be deemed to be a special assessment to which such Building Site and its Tenant, Subtenant and Occupant shall be subject as aforesaid.

7.6 DATE OF COMMENCEMENT AND DETERMINATION OF ANNUAL AND SPECIAL ASSESSMENTS AND ASSESSMENT DEPOSIT. The annual assessments provided for herein shall commence on such date as shall be specified by Landlord or in any Parcel Ground Lease hereto affecting a particular parcel of real property brought within the framework of these Regulations and Restrictions or on the first day of the calendar year following the date of such Parcel Ground Lease if no other date is specified. Assessments shall be on a full calendar year basis. At least thirty (30) days in advance of the beginning of each calendar year, Landlord shall fix the amount of the annual assessment against each Building Site by estimating the charges and expenses to be incurred by Landlord for the purposes set forth in these Regulations and Restrictions. A year-end adjustment may be made by Landlord as is necessary to reflect the actual cost of such expenses. The annual assessments shall be due and payable to Landlord by each Tenant or Subtenant in monthly installments and shall be accompanied by an itemized statement of such costs and the manner in which each share was determined. Each Tenant or Subtenant shall pay the amount shown on the statement no later than the date thirty (30) days after receipt of such statement. In addition, Landlord may require an amount to be deposited with Landlord at the time of the first conveyance or Parcel Ground Lease of any Building Site from Landlord to any purchaser or Parcel Ground Lessee, as applicable, thereof, and which deposit shall not bear interest and may be retained by Landlord as working capital and as security for the payment of future annual and special assessments. The annual and special assessments shall be in such amounts as are fixed by Landlord and shall be without limitation unless otherwise specified in a Parcel Ground Lease affecting a particular parcel of real property brought within the framework of the Regulations and Restrictions.

7.7 EFFECT OF NON-PAYMENT OF ASSESSMENTS AND PERSONAL LIABILITY OF OWNER.

A. If an assessment is not paid on the date when due (being the date specified in Section 7.6 hereof), then such assessment shall be deemed delinquent and shall thereupon be deemed, together with such interest thereon and costs of collection thereof as hereinafter provided, a continuing lien upon the Building Site and all Improvements thereon and such continuing lien shall bind the Building Site and all Improvements thereon in the hands of the then Tenant or Subtenant, his heirs, devisees, personal representatives, successors and assigns. In addition to the lien upon the Building Site and all Improvements thereon, it shall be the personal obligation of each Tenant or Subtenant to pay the assessment affecting his Building Site assessed during its ownership period and such personal obligation shall continue even though the Tenant's or Subtenant's interest in such property shall be transferred.

B. If any assessment is not paid within thirty (30) days after its due date, it shall bear interest from the due date at a rate equal to five percent (5%) above the then Prime Rate, but in no event greater than the amount permitted by applicable law. Landlord may bring legal action against the Building Site and the Improvements thereon and/or the Tenant or Subtenant thereof to collect any unpaid assessment and there shall be added to the amount of such assessment all costs incurred by Landlord in foreclosing or attempting to foreclose the lien or in collecting or attempting to collect the amount owing, including any reasonable attorneys' fees. If the lien is foreclosed, it shall be foreclosed under the same procedure applicable to the foreclosure of mortgages and the redemption period following any judicial sale shall be one (1) month in lieu of nine (9) months.

C. In addition to any other remedy provided herein, the Landlord may consider nonpayment of any assessment as an event of default under any Parcel Ground Lease and may proceed to exercise all remedies under the Parcel Ground Lease.

7.8 SUBORDINATION OF THE LIEN TO MORTGAGES. As provided aforesaid, the lien of the assessments provided for herein shall be subordinate to the lien of any bona fide security device, including the lien of any Mortgage or any sale and leaseback transaction now or hereafter placed upon the Building Site subject to assessment; provided, however, such subordination shall apply only to the assessments which have become due and payable prior to a decree of foreclosure, or other proceeding in lieu of foreclosure. Such sale or transfer shall not release such Building Site from liability for any assessment thereafter becoming due, nor from the lien of any such subsequent assessments.

7.9 PROPERTY NOT SUBJECT TO ASSESSMENT. The following parts of the Land shall be exempt from assessments charges and liens created by these Regulations and Restrictions:

(a) All parts of the Land dedicated to and accepted by Bernalillo County, the City of Albuquerque and any other public or quasi-public authority; and

(b) All General Common Property whether or not located within a Building Site.

7.10 LANDLORD'S MAINTENANCE OBLIGATIONS. Subject to Landlord receiving reimbursement pursuant to the assessment provisions, until Landlord shall have assigned its rights and obligations with respect to the General Common Properties and other maintenance obligations to an assignee, association, successor or transferee, it shall maintain, repair, replace and renew or cause to be maintained, repaired, replaced or renewed the General Common Properties and other maintenance obligations in a clean, sightly, safe and first-class condition. Such maintenance to the extent not performed by a governmental or quasi-governmental authority or a Tenant or Subtenant shall include, but shall not be limited to: (1) the repair, replacement, renewal and cleaning of all lighting fixtures, signs, entrance monuments and markers, traffic control signals and signs; and (ii) the mowing, watering, fertilizing, replanting and replacing of landscaping. The maintenance of dedicated streets shall exclude repairs or reconstruction of such streets.

SECTION EIGHT
ENFORCEMENT

8.1 ABATEMENT AND SUIT. The regulations and restrictions herein contained shall run with the land and be binding upon and inure to the benefit of Landlord, the Tenant, Subtenants and the Occupants of every Building Site. These regulations and restrictions may be enforced as provided hereafter by Landlord acting for itself, and the Architectural Review Committee on behalf of Landlord or all Tenants. Each Tenant, by acquiring an interest in the Land, irrevocably appoints Landlord and the Architectural Review Committee as its attorney-in-fact for such purposes; provided, however, that if a Tenant or Subtenant notifies Landlord in writing of a claimed violation of these Regulations and Restrictions and fails to take effective action within thirty (30) days after receipt of such notification, then, and only in that event, a Tenant or Subtenant may separately, at its own cost and expense, enforce these Regulations and Restrictions as herein provided. All Tenants and Subtenants seeking to enforce these Regulations and Restrictions shall be bound by all waivers issued by the Landlord. Violation or breach of any restriction herein contained shall give to Landlord the right to enter the Building Site upon or as to which said violation or breach exists and to summarily abate and remove, at the expense of the Tenant or Subtenant thereof any Improvement or condition that may be or exist thereon contrary to the intent and meaning of the provisions hereof, and to prosecute an appropriate proceeding at law or in equity against the person or persons who have violated or are attempting to violate any of these Regulations and Restrictions to enjoin or prevent them from doing so, to cause said violation to be remedied or to recover damages for said violation.

In any legal or equitable proceeding for the enforcement or to restrain the violation of these Regulations and Restrictions or any provisions hereof, the losing party or parties shall pay the attorney's fees of the prevailing party or parties, in such amount as may be fixed by the court in such proceedings. All remedies provided herein or at law or in equity shall be cumulative and not exclusive.

8.2 INSPECTION. Landlord may from time to time at any reasonable hour or hours, enter and inspect any property subject to these Regulations and Restrictions to ascertain compliance therewith.

8.3 RESPONSIBILITY FOR AND FAILURE TO ENFORCE RESTRICTIONS. Landlord shall not be liable for enforcement of or for failure to enforce any provision, restriction or condition of these Regulations and Restrictions and the failure of Landlord or any Tenant or Subtenant to enforce any of the provisions, restrictions or conditions of these Regulations and Restrictions shall in no event be deemed a waiver of the right to do so thereafter or to enforce any other provision, restriction of condition.

8.4 DEEMED TO CONSTITUTE A NUISANCE. Every violation of these Regulations and Restrictions or any part thereof is hereby declared to be and to constitute a nuisance, and every public or private remedy allowed thereof by law or equity against a Tenant, Subtenant or Occupant shall be applicable against every such violation and may be exercised by Landlord.

8.5 LIQUIDATED DAMAGES. Notwithstanding any other provision of these Regulations and Restrictions to the contrary, upon violation of any provision of these Regulations and Restrictions or the Park Development Standards, which violation is of a kind and nature that damages resulting therefrom are not easily determinable or ascertainable, the Tenant or Subtenant who commits such violation or whose Occupants commit such violation and shall be liable for an amount equal to Five Hundred Dollars ($500.00) as liquidated damages for each day during which such violation continues to incur. All damages accruing to the benefit of the Landlord which are in the form of liquidated damages shall constitute a lien upon the Building Site and the Improvements of such Tenant or Subtenant and may be enforced as set forth in Section 7.7 hereof, subordinate to any valid Mortgages as provided therein.

8.6 CERTIFICATE OF COMPLIANCE. Upon payment of a reasonable fee as determined by Landlord from time to time, and upon written request of any Tenant or Subtenant; Occupant; prospective Subtenant or Occupant; Mortgagee; or prospective Mortgagee of any real property covered by these Regulations and Restrictions, Landlord shall issue an acknowledged certificate in recordable form setting forth the amounts of any unpaid assessments, if any, and setting forth generally whether or not to the best of

Landlord's knowledge said Tenant or Subtenant is in violation of any of the terms and conditions of these Regulations and Restrictions, and said Certificate shall be conclusive upon Landlord in favor of the persons who rely thereon in good faith other than a Tenant or Subtenant who is in violation of any such terms and conditions. Such certificate shall be furnished by Landlord within a reasonable time, but not to exceed thirty (30) days, from the receipt of a written request for such

SECTION NINE
RIGHTS IN COMMON PROPERTIES

9.1 TENANTS, EASEMENTS AND RIGHTS OF ENJOYMENT. Subject to the provisions hereinafter set forth in this Section 9, every Tenant and Subtenant shall have a right and easement of enjoyment in and to the General Common Properties and such easement shall be appurtenant to and shall pass with any leasehold interest to every Building Site which is subject to these Regulations and Restrictions.

9.2 RESERVATION OF CERTAIN RIGHTS TO LANDLORD IN THE GENERAL COMMON PROPERTIES. The rights and easements of enjoyment created hereby with respect to the General Common Properties shall be subject to the following:

(a) The right of Landlord to dedicate or transfer all or any part of the General Common Properties to any public agency, authority or utility company serving the Land, for such purposes and on such conditions as may be agreed to by Landlord consistent with the intent of these Regulations and Restrictions.

(b) The right of the Landlord to grant easements and/or rights-of-way to such utility companies or public agencies or authorities as it shall deem necessary for the proper service and maintenance of the Land and Tenants or Subtenants shall be obligated to grant such easements and/or rights-of-way upon the request of the Architectural Review Committee, as provided in Section 6, from time to time.

(f) The right of Landlord to (1) enter into lease agreements, either as lessee or lessor, with third parties, for purposes and subject to such conditions as they may deem appropriate; (2) enter into contractual or reciprocal agreements with third parties to provide, receive or exchange services; provided, however, that Landlord shall be fully reimbursed for its costs and expenses incurred in providing such services; (3) contract with governmental entities for the rental and use of equipment and/or exchange of services on a fee basis or otherwise; (4) construct emergency facilities; and (5) erect informational signs as appropriate.

10.1 DURATION AND TERMINATION. These Regulations and Restrictions, and the provisions, restrictions and conditions combined herein shall run with and bind the Land and shall remain the effect, and shall inure to the benefit of, and be enforceable by Landlord and any Tenant or Subtenant of a portion of the Land subject to the Regulations and Restrictions, their heirs, personal representatives, successors in interest and assigns for the term of the Parcel Ground Lease.

10.2 MODIFICATION AND TERMINATION DURING THE TERM. During the term of the Parcel Ground Lease these Regulations and Restrictions, or any provision hereof, may be altered, removed, modified or terminated, as to the Land, or any portion thereof by Landlord, at its sole discretion, upon written notice to all Tenants, but not Subtenants or Occupants, of the Land. No amendment to these Regulations and Restrictions shall be effective unless and until written notice stating the proposed amendment shall have been sent to every Tenant, but not Subtenants or Occupants, at least sixty (60) days in advance of any action taken. Any such termination, extension, modification or amendment shall be immediately effective upon the expiration of said sixty (60) day notification period. Any amendment will require the consent of Tenants only to the extent required by the Parcel Ground Lease applicable to such Tenant.

10.3 WAIVER. Landlord, without the consent of any third party, may waive any of the provisions of these Regulations and Restrictions and any of the provisions of the Park Development Standards. No such waiver shall be enforceable unless it is contained in writing signed by the Landlord.

SECTION ELEVEN
MISCELLANEOUS

11.1 MORTGAGES – DEEDS OF TRUST. Breach of any of the foregoing covenants, regulations and restrictions, shall not defeat or render void the lien of any mortgage or deed of trust made in good faith and for value within the Land; but said covenants, regulations and restrictions, shall be binding upon and effective against any Tenant or Subtenant whose title thereto is acquired by foreclosure trustee’s sale or otherwise.

11.2 CONFLICTS. Zoning ordinances, building codes and regulations, and any other governmental restrictions and requirements shall be observed. In the event of any conflict between these Regulations and Restrictions and any such governmental codes, regulations, restrictions and requirements, the more restrictive standards shall apply. Any approval of Landlord required in these Regulations and Restrictions, does not in any way relieve Tenants, Subtenants and Occupants from obtaining approvals required by any governmental body having jurisdiction.

11.3 EFFECT OF DEVELOPMENT PLAN AND OTHER DOCUMENTS FILED WITH GOVERNMENT AGENCIES. Any plans, studies, drawings and related documents concerning the development of the Land (“Master Plan” documents) which have been filed or will be filed in the future with the City of Albuquerque or Bernalillo County, or any other applicable governmental agency, shall have the effect, and only the effect, described in the Statutes for the State of New Mexico, and zoning codes, ordinances and the rules and regulations of said county and City of Albuquerque. The Master Plan, in part, and related documents constitute part of the public control imposed by the County and the City of Albuquerque upon Landlord, Tenants, Subtenants and Occupants of the Land and shall not create, nor shall be intended to create, any private property or contract rights in the Landlords, Tenants, Subtenants and Occupants’ property, except as such rights may be created expressly by separate contracts, leases, deeds and other documents, including these Regulations and Restrictions. The Master Plan shall confer maximum benefits upon all Tenants, Subtenants and Occupants when all of its elements are planned and developed in appropriate relationship with each other. The Master Plan describes a plan of development which Landlord believes will provide maximum benefit to the Tenants, Subtenants, Occupants and the public. During an extended development program, however, various factors may intervene which might hinder the effectiveness of the Master Plan and which might threaten the benefits to be derived by the Tenants, Subtenants, their Occupants and the public, unless the Master Plan can be modified as prescribed

under the applicable law and these Regulations and Restrictions. Accordingly, these Regulations and Restrictions are not intended to, nor does it grant nor create any private property or contract rights in the Master Plan and the Master Plan shall continue to remain subject to modifications by Landlord and the proper governmental authorities, to the extent applicable, in accordance with the procedures set forth in the statutes, rules and regulations of the City of Albuquerque and the County of Bernalillo, State of New Mexico.

11.4 BENEFITS AND BURDENS. The terms and provisions contained in these Regulations and Restrictions shall be binding upon and inure to the benefit of Landlord, all Tenants, Subtenants and Occupants, and their respective heirs, successors, personal representatives and assigns.

11.5 NOTICES. Any notice required to be sent to any Tenant or Subtenant under the provisions of these Regulations and Restrictions shall be deemed to have been properly delivered when delivered in person or when mailed by certified mail, return receipt requested, with proper postage prepaid, to the last known address of said Tenant or Subtenant in the records of Landlord at the time of such mailing, or as reflected in the records of the Clerk and Recorder of Bernalillo County, if there are no such Landlord records.

11.6 NO WAIVER. Failure of any person or entity designated herein to enforce any provision of these Regulations and Restrictions shall in no event be deemed to be a waiver of the right to do so or any subsequent violations. Moreover, the right to enforce and any other provisions of these Regulations and Restrictions shall not be waived by such failure, nor shall there be any liability therefore.

11.7 SINGULAR AND PLURAL. Words used herein, regardless of the number and gender specifically used, shall be deemed and construed any other number (singular or plural) or gender (masculine, feminine or neuter) as the context requires.

11.8 OWNER'S LIABILITY SUBSEQUENT TO SALE. Upon sale or transfer of Tenant's entire interest in its Building Site, the Tenant so selling or transferring shall not have any further liability for the obligations thereon which accrue against the Building Site sold after the date of the conveyance; provided, however, that nothing herein shall be construed so as to relieve a Tenant of any Building Site from any liabilities or obligations incurred prior to such sale or transfer pursuant to these Regulations and Restrictions. Furthermore, any such sale or transfer shall not modify or alter the terms of any Plans and Specifications previously submitted and approved by the Architectural Review Committee and any subsequent Tenant shall be required to comply with any such plan.

11.9 SEVERABILITY. Invalidation of any one or more of the provisions of these Regulations and Restrictions by judgment or court shall in no way affect any of the other provisions which shall remain in full force and effect.

11.10 ASSIGNABILITY OF LANDLORD'S RIGHTS AND DUTIES. Any and all of the rights, powers and reservations of Landlord herein contained may be assigned in Landlord's sole discretion to any person, corporation or association (including the Association as provided in Section 11.11) which will assume the duties of Landlord pertaining to the particular rights, powers and reservations assigned, and upon any such person, corporation or association's evidencing its consent in writing to accept such assignment and assume such duties. Such person, corporation or association shall, to the extent of such assignment, have the same rights and powers and be subject to the same obligations and duties as are given to and assumed by Landlord herein.

11.11 ASSOCIATION. Subject to provisions of Section 11.10 above, Landlord shall have the right to assign its right, title, interest and obligations to an Association of Tenants pursuant to the provisions of this Section (The ''Association"). The Association shall be subject to the following provisions:

A. Every Tenant shall automatically be a member (a "Member") of the Association. No person or entity who holds any interest merely as a security for performance of an obligation or who is merely a lessee or tenant under a lease for the property or who is merely an occupant shall be a Member.

B. Each Tenant shall be entitled to a pro rata vote in the Association based upon the percentage of the total land area of Tenant's Building Site (excluding the portions of the property deeded or dedicated to the City of Albuquerque) owned by such Tenant or as specified in the Declaration of Covenants, Conditions and Restrictions of the Association. When more than one person shall held an ownership interest or interest in any Building Site, all such persons shall be Members, and the vote(s) provided for herein as a result of such joint ownership shall be exercised among themselves as they determine, but in no event aggregating more than the total percentage ownership attributable to such Building Site. Upon condominiumizing of any Building Site, such Condominium Declaration shall prescribe the division of votes among the individual condominium owners.

C. Any action by the Association shall be on the basis of no less than a majority vote of the votes of Members voting upon such action.

11.12 CONDOMINIUMS AND SUBDIVIDING OF BUILDING SITES.

A. The subdivision of any Building Site into two (2) or more parcels or the creation of a system of condominium ownership of a Building Site or Building thereon shall be subject to the prior approval of Landlord and the Tenant thereof. Landlord shall have the right but not the obligation to approve such proposals and no covenant is herein made by Landlord that any resubdividing or condominiumizing will be so approved. Any such subdivision or creation of a condominium may be made subject to such conditions as may be imposed by Landlord and the Tenant thereof, including, but not limited to, provisions for the creation of Special Common Properties and the addition of General Common Properties in accordance with the provisions of these Regulations and Restrictions.

B. All subdivision, or resubdivisions, of a Building Site shall be accomplished in accordance with the applicable governmental laws, rules and regulations and any documents to be submitted to governmental agencies or recorded to accomplish such subdividing, or resubdividing, shall be subject to the Landlord's prior written approval.

C. Documents creating a system of condominium ownership on any Building Site shall be subject to the prior approval of Landlord. The documents shall provide that the condominium association shall be liable for the collection and payment to Landlord of ail assessments due to be paid under the Declaration by Owners of the Building Site and that Landlord shall have a lien against the entire condominium project for any unpaid assessments, in accordance with the provisions of these Regulations and Restrictions. Such condominium declaration also shall prescribe the voting method among the individual condominium owners that will constitute the procedure for establishing the vote of the "Tenant" where called for in these Regulations and Restrictions.

11.13 NOTICE AND ACCEPTANCE. Every person who now or hereafter owns or acquires any right, title, estate or interest in or to any portion of the Land is and shall be conclusively deemed to have consented and agreed to every covenant, regulation and restriction contained herein, provided reference to these Regulations and Restrictions is contained in the original conveyance from Landlord to the first Tenant.

SECTION 2
THE COMMITMENT

2.01 Commitments. Each Lender agrees severally, on and subject to the terms and conditions of this Agreement (including **Section 6**), to make up to two term loans (provided that PIK Loans shall be deemed not to constitute "term loans" for purposes of this **Section 2.01**) to Borrower, each on a Business Day during the Commitment Period in Dollars in an aggregate principal amount for such Lender not to exceed such Lender's Commitment; *provided*, *however*, that at no time shall any Lender be obligated to make a Loan in excess of such Lender's Proportionate Share of the amount by which the then effective Commitments exceeds the aggregate principal amount of Loans outstanding at such time. Amounts of Loans repaid may not be reborrowed.

2.02 Borrowing Procedures. Subject to the terms and conditions of this Agreement (including **Section 6**), each Borrowing (other than a Borrowing of PIK Loans) shall be made on written notice in the form of **Exhibit B** given by Borrower to the Lenders not later than 11:00 a.m. (Central time) on the Borrowing Notice Date (a "***Notice of Borrowing***").

2.03 Fees. On the first Borrowing Date, Borrower shall pay, out of the proceeds of the Loans advanced by the Lenders on such Borrowing Date, a financing fee in an amount equal to $200,000. Such financing fee shall be paid by the Borrower to the Lenders *pro rata* in accordance with such Lenders' Proportionate Shares.

2.04 Notes. If requested by any Lender, the Loans of such Lender shall be evidenced by one or more promissory notes (each a "***Note***"). Borrower shall prepare, execute and deliver to the Lenders such promissory note(s) payable to the Lenders (or, if requested by the Lenders, to the Lenders and their registered assigns) and in the form attached hereto as **Exhibit C-1**. Thereafter, the Loans and interest thereon shall at all times (including after assignment pursuant to **Section 12.05**) be represented by one or more promissory notes in such form payable to the payee named therein (or, if such promissory note is a registered note, to such payee and its registered assigns).

2.05 Use of Proceeds. Borrower shall use the proceeds of the Loans for general working capital purposes and corporate purposes and to pay fees, costs and expenses incurred in connection with the Transactions; *provided that* the Lenders shall have no responsibility as to the use of any proceeds of Loans in the amount made by PIOP. No portion of any proceeds of Loans in the amount made by PIOP (i) will be used to acquire realty or to discharge an obligation relating to the prior acquisition of realty; (ii) will be used outside of the United States (except to pay for services to be rendered outside the United States and to acquire from abroad inventory, material and equipment or property rights for use or sale in the United States, unless prohibited by Part 107.720 of the United States Code of Federal Regulations); or (iii) will be used for any purpose contrary to the public interest (including but not limited to activities which are in violation of law) or inconsistent with free competitive enterprise, in each case, within the meaning of Part 107.720 of Title 13 of the United States Code of Federal Regulations. Borrower will use the proceeds of the Loans in the amount made by PIOP for only those purposes specified in the SBA Form 1031 provided to the Lenders, and Borrower shall not violate any SBA regulations which may be applicable to it.

2.06 Defaulting Lenders.

(a) **Adjustments**. Notwithstanding anything to the contrary contained in this Agreement, if any Lender becomes a Defaulting Lender, then, until such time as that Lender is no longer a Defaulting Lender, to the extent permitted by applicable law:

(b) **Waivers and Amendments**. Such Defaulting Lender's right to approve or disapprove any amendment, waiver or consent with respect to this Agreement shall be restricted as set forth in **Section 12.04**.

(c) **Reallocation of Payments**. Any payment of principal, interest, fees or other amounts received by the Lenders for the account of such Defaulting Lender (whether voluntary or mandatory, at maturity, pursuant to **Section 11** or otherwise), shall be applied at such time or times as follows: first, as Borrower may request (so long as no Default exists), to the funding of any Loan in respect of which such Defaulting Lender has failed to fund its portion thereof as required by this Agreement; second, if so determined by the Majority Lenders and Borrower, to be held in a non-interest bearing deposit account and released in order to satisfy obligations of such Defaulting Lender to fund Loans under this Agreement; third, to the payment of any amounts owing to the Lenders as a result of any judgment of a court of competent jurisdiction obtained by any Lender against such Defaulting Lender as a result of such Defaulting Lender's breach of its obligations under this Agreement; fourth, so long as no Default exists, to the payment of any amounts owing to Borrower as a result of any judgment of a court of competent jurisdiction obtained by Borrower against such Defaulting Lender as a result of such Defaulting Lender's breach of its obligations under this Agreement; and fifth, to such Defaulting Lender or as otherwise directed by a court of competent jurisdiction; provided that if (A) such payment is a payment of the principal amount of any Loans in respect of which such Defaulting Lender has not fully funded its appropriate share and (B) such Loans were made at a time when the conditions set forth in **Section 6** were satisfied or waived, such payment shall be applied solely to pay the Loans of all non-Defaulting Lenders on a *pro rata* basis prior to being applied to the payment of any Loans of such Defaulting Lender. Any payments, prepayments or other amounts paid or payable to a Defaulting Lender that are applied (or held) to pay amounts owed by a Defaulting Lender pursuant to this **Section 2.06(c)** shall be deemed paid to and redirected by such Defaulting Lender, and each Lender irrevocably consents hereto.

(d) **Defaulting Lender Cure**. If Borrower and the Majority Lenders agree in writing in their sole discretion that a Defaulting Lender should no longer be deemed to be a Defaulting Lender, that Lender will, to the extent applicable, purchase that portion of outstanding Loans of the other Lenders or take such other actions as necessary to cause the Loans to be held on a *pro rata* basis by the Lenders in accordance with their Proportionate Share, whereupon that Lender will cease to be a Defaulting Lender; provided that no adjustments will be made retroactively with respect to fees accrued or payments made by or on behalf of Borrower while that Lender was a Defaulting Lender; and provided, further, that except to the extent otherwise expressly agreed by the affected parties, no change hereunder from Defaulting Lender to Lender will constitute a waiver or release of any claim of any party hereunder arising from that Lender's having been a Defaulting Lender.

2.07 Substitution of Lenders.

(a) **Substitution Right**. If any Lender (an "***Affected Lender***"), (i) becomes a Defaulting Lender or (ii) does not consent to any amendment, waiver or consent to any Loan Document for which the consent of the Majority Lenders is obtained but that requires the consent of other Lenders (a "***Non-Consenting Lender***"), then (x) Borrower may elect to pay in full such Affected Lender with respect to all Obligations due to such Affected Lender or (y) either Borrower or the Majority Lenders shall identify any willing Lender or Affiliate of any Lender or Eligible Transferee (in each case, a "***Substitute Lender***") to substitute for such Affected Lender; *provided that* any substitution of a Non-Consenting Lender shall occur only with the consent of Majority Lenders.

(b) **Procedure**. To substitute such Affected Lender or pay in full all Obligations owed to such Affected Lender, Borrower shall deliver a notice to such Affected Lender. The effectiveness of such payment or substitution shall be subject to the delivery by Borrower (or, as may be applicable in the case of a substitution, by the Substitute Lender) of (i) payment for the account of such Affected Lender, of, to the extent accrued through, and outstanding on, the effective date for such payment or substitution, all Obligations owing to such Affected Lender (which for the avoidance of doubt, shall not include any Prepayment Premium) and (ii) in the case of a substitution, an Assignment and Acceptance executed by the Substitute Lender, which shall thereunder, among other things, agree to be bound by the terms of the Loan Documents; provided, however, that if the Affected Lender does not execute such Assignment and Acceptance within ten (10) Business Days of delivery of the notice required hereunder, such Affected Lender shall be deemed to have executed such Assignment and Acceptance.

(c) **Effectiveness**. Upon satisfaction of the conditions set forth in **Section 2.07(a)** and **Section 2.07(b)**, the Control Agent shall record such substitution or payment in the Register, whereupon (i) in the case of any payment in full of an Affected Lender, such Affected Lender's Commitments shall be terminated and (ii) in the case of any substitution of an Affected Lender, (A) such Affected Lender shall sell and be relieved of, and the Substitute Lender shall purchase and assume, all rights and claims of such Affected Lender under the Loan Documents, except that the Affected Lender shall retain such rights under the Loan Documents that expressly provide that they survive the repayment of the Obligations and the termination of the Commitments, (B) such Affected Lender shall no longer constitute a "Lender" hereunder and such Substitute Lender shall become a "Lender" hereunder and (C) such Affected Lender shall execute and deliver an Assignment and Acceptance to evidence such substitution; *provided*, *however*, that the failure of any Affected Lender to execute any such Assignment and Acceptance shall not render such sale and purchase (or the corresponding assignment) invalid.

SECTION 3
PAYMENTS OF PRINCIPAL AND INTEREST

3.01 Repayment.

(a) **Repayment**. During the Interest-Only Period, no payments of principal of the Loans shall be due. Borrower agrees to repay to the Lenders the outstanding principal amount of the Loans, on each Payment Date occurring after the Interest-Only Period, in equal installments. The amounts of such installments shall be calculated by dividing (i) the sum of the aggregate

any default under the Borrower Lease or permit Lenders to take such other action required to enable Lenders to cure or remedy the matter in default and preserve the security interest of Lenders under the Loan Documents with respect to the Borrower Facility.

(iii) Borrower shall use commercially reasonable efforts to enforce, in a commercially reasonable manner, each covenant or obligation of the Borrower Landlord in the Borrower Lease in accordance with its terms. Subject to the terms and requirements of the Borrower Lease, within ten (10) days after receipt of written request by Lenders, Borrower shall use reasonable efforts to obtain from the Borrower Landlord under the Borrower Lease and furnish to Lenders an estoppel certificate from Borrower Landlord stating the date through which rent has been paid and whether or not, to Borrower Landlord's knowledge, there are any defaults thereunder and specifying the nature of such claimed defaults, if any, and such other matters as Lenders may reasonably request or in the form required pursuant to the terms of the Borrower Lease. Borrower shall furnish to Lenders all information that Lenders may reasonably request from time to time in the possession of Borrower (or reasonably available to Borrower) concerning the Borrower Lease and Borrower's compliance with the Borrower Lease.

(iv) Borrower, promptly upon learning that Borrower Landlord has failed to perform the material terms and provisions under the Borrower Lease and immediately upon learning of a rejection or disaffirmance or purported rejection or disaffirmance of the Borrower Lease pursuant to any state or federal bankruptcy law, shall notify Lenders thereof. Borrower shall promptly notify Lenders of any request that any party to the Borrower Lease makes for arbitration or other dispute resolution procedure pursuant to the Borrower Lease and of the institution of any such arbitration or dispute resolution. Borrower hereby authorizes Lenders to attend any such arbitration or dispute, and upon the occurrence and during the continuance of an Event of Default participate in any such arbitration or dispute resolution but such participation shall not be to the exclusion of Borrower; *provided*, *however*, *that*, in any case, Borrower shall consult with Lenders with respect to the matters related thereto. Borrower shall promptly deliver to Lenders a copy of the determination of each such arbitration or dispute resolution mechanism.

(v) If Lenders or their designee shall acquire or obtain a new Borrower Lease following a termination of the Borrower Lease, then Borrower shall have no right, title or interest whatsoever in or to such new Borrower Lease, or any proceeds or income arising from the estate arising under any such new Borrower Lease, including from any sale or other disposition thereof. Lenders or their designee shall hold such new Borrower Lease free and clear of any right or claim of Borrower.

(vi) Borrower shall promptly, after obtaining knowledge of such filing notify Lenders orally of any filing by or against Borrower Landlord under the Borrower Lease of a petition under the Bankruptcy Code or other applicable law. Borrower shall thereafter promptly give written notice of such filing to Lenders, setting forth any information available to Borrower as to the date of such filing, the court in which such petition was filed, and the relief sought in such filing. Borrower shall promptly deliver to Lenders any and all notices, summonses, pleadings, applications and other documents received by Borrower in connection with any such petition and any proceedings relating to such petition.

8.09 Licenses. Borrower shall, and shall cause each of its Subsidiaries to, obtain and maintain all licenses, authorizations, consents, filings, exemptions, registrations and other Governmental Approvals necessary in connection with the execution, delivery and performance of the Loan Documents, the consummation of the Transactions or the operation and conduct of its business and ownership of its properties, except where failure to do so could not reasonably be expected to have a Material Adverse Effect.

8.10 Action under Environmental Laws. Borrower shall, and shall cause each of its Subsidiaries to, upon becoming aware of the presence of any Hazardous Materials or the existence of any environmental liability under applicable Environmental Laws with respect to their respective businesses, operations or properties, take all actions, at their cost and expense, as shall be necessary or advisable to investigate and clean up the condition of their respective businesses, operations or properties, including all required removal, containment and remedial actions, and restore their respective businesses, operations or properties to a condition in compliance with applicable Environmental Laws.

8.11 Use of Proceeds. The proceeds of the Loans will be used only as provided in **Section 2.05**. No part of the proceeds of the Loans will be used, whether directly or indirectly, for any purpose that entails a violation of any of the Regulations of the Board of Governors of the Federal Reserve System, including Regulations T, U and X. Neither Borrower nor any of its affiliates (as that term is defined in Section 121.103 of Title 13 of the United States Code of Federal Regulation) will engage in any activities or use directly or indirectly the proceeds from the Loans for any purpose for which an SBIC is prohibited from providing funds by the SBIC Act as set forth in Section 107.720 of Title 13 of the United States Code of Federal Regulation.

8.12 Certain Obligations Respecting Subsidiaries; Further Assurances.

(a) **Subsidiary Guarantors**. Borrower will take such action, and will cause each of its Subsidiaries to take such action, from time to time as shall be necessary to ensure that all Subsidiaries that are Domestic Subsidiaries of Borrower (other than Computational Engines, Inc.), and such Foreign Subsidiaries as are required under **Section 8.12(b)**, are "Subsidiary Guarantors" hereunder. Without limiting the generality of the foregoing, in the event that Borrower or any of its Subsidiaries shall form or acquire any new Subsidiary that is a Domestic Subsidiary (other than Computational Engines, Inc.) or a Foreign Subsidiary meeting the requirements of **Section 8.12(b)**, Borrower and its Subsidiaries will promptly and in any event within 30 days of the formation or acquisition of such Subsidiary:

(i) cause such new Subsidiary to become a "Subsidiary Guarantor" hereunder, and a "Grantor" under the Security Agreement, pursuant to a Guarantee Assumption Agreement;

(ii) take such action or cause such Subsidiary to take such action (including delivering such shares of stock together with undated transfer powers executed in blank) as shall be necessary to create and perfect valid and enforceable first priority (subject to Permitted Priority Liens) Liens on substantially all of the personal property of such new Subsidiary as collateral security for the obligations of such new Subsidiary hereunder;

(iii) to the extent that the parent of such Subsidiary is not a party to the Security Agreement or has not otherwise pledged Equity Interests in its Subsidiaries in accordance with the terms of the Security Agreement and this Agreement, cause the parent of such Subsidiary to execute and deliver a pledge agreement in favor of the Lenders in respect of all outstanding issued shares of such Subsidiary; and

(iv) deliver such proof of corporate action, incumbency of officers, opinions of counsel and other documents as is consistent with those delivered by each Obligor pursuant to **Section 6.01** on the Closing Date or as the Majority Lenders shall have requested.

(b) **Foreign Subsidiaries**. In the event that, at any time, Foreign Subsidiaries of Borrower have, in the aggregate, (i) total revenues constituting 5% or more of the total revenues of Borrower and its Subsidiaries on a consolidated basis, or (ii) total assets constituting 5% or more of the total assets of Borrower and its Subsidiaries on a consolidated basis, promptly (and, in any event, within 30 days after such time) Borrower shall cause one or more of such Foreign Subsidiaries to become Subsidiary Guarantors in the manner set forth in **Section 8.12(a)**, such that, after such Subsidiaries become Subsidiary Guarantors, the non-guarantor Foreign Subsidiaries in the aggregate shall cease to have revenues or assets, as applicable, that meet the thresholds set forth in **clauses (i)** and **(ii)** above; *provided that* no Foreign Subsidiary shall be required to become a Subsidiary Guarantor if doing so would result in material adverse tax consequences for Borrower and its Subsidiaries, taken as a whole.

(c) **Further Assurances**. Borrower will, and will cause each of its Subsidiaries to, take such action from time to time as shall reasonably be requested by the Majority Lenders to effectuate the purposes and objectives of this Agreement.

Without limiting the generality of the foregoing, Borrower will, and will cause each Person that is required to be a Subsidiary Guarantor to, take such action from time to time (including executing and delivering such assignments, security agreements, control agreements and other instruments) as shall be reasonably requested by the Majority Lenders to create, in favor of the Lenders, perfected security interests and Liens in substantially all of the personal property of such Obligor (subject to Permitted Liens) as collateral security for the Obligations; *provided that* any such security interest or Lien shall be subject to the relevant requirements of the Security Documents.

8.13 Termination of Non-Permitted Liens. In the event that Borrower or any of its Subsidiaries shall become aware or be notified by the Lenders of the existence of any outstanding Lien against any Property of Borrower or any of its Subsidiaries, which Lien is not a Permitted Lien, Borrower shall use its best efforts to promptly terminate or cause the termination of such Lien.

8.14 Intellectual Property.

(a) Notwithstanding any provision in this Agreement or any other Loan Documents to the contrary, the Lenders are not assuming any liability or obligation of Borrower, the Subsidiary Guarantors or their Affiliates of whatever nature, whether presently in existence or arising or asserted hereafter. All such liabilities and obligations shall be retained by and remain

obligations and liabilities of the Obligors, the Subsidiary Guarantors and/or their Affiliates as the case may be. Without limiting the foregoing, the Lenders are not assuming and shall not be responsible for any liabilities or Claims of Borrower, the Subsidiary Guarantors or their Affiliates, whether present or future, absolute or contingent and whether or not relating to the Obligors, the Obligor Intellectual Property, and/or the Material Agreements, and Borrower shall indemnify and save harmless the Lenders from and against all such liabilities, Claims and Liens.

(b) In the event that the Obligors acquire Obligor Intellectual Property during the term of this Agreement, then the provisions of this Agreement shall automatically apply thereto and any such Obligor Intellectual Property shall automatically constitute part of the Collateral hereunder, without further action by any party, in each case from and after the date of such acquisition (except that any representations or warranties of any Obligor shall apply to any such Obligor Intellectual Property only from and after the date, if any, subsequent to such acquisition that such representations and warranties are brought down or made anew as provided herein).

8.15 Small Business Documentation. Borrower shall accurately complete, execute, and deliver to PIOP prior to the Closing Date, SBA Forms 480, 652, and 1031 (Parts A and B).

8.16 Warrants. If the Required Equity Financing occurs on or prior to March 13, 2014 but the Borrower shall not have made the first Borrowing by such date, Borrower shall promptly, and in any case not later than March 31, 2014, (i) issue to the Lenders all of the Warrants described in **Section 6.01(i)(xiv)** and (ii) pay to Lenders the financing fee set forth in **Section 2.03** as if the initial Borrowing had occurred on such date.

another Obligor or the Lenders, to its address specified on the signature pages hereto or its Guarantee Assumption Agreement, as the case may be, or at such other address as shall be designated by such party in a notice to the other parties. Except as otherwise provided in this Agreement, all such communications shall be deemed to have been duly given upon receipt of a legible copy thereof, in each case given or addressed as aforesaid. All such communications provided for herein by telecopy shall be confirmed in writing promptly after the delivery of such communication (it being understood that non-receipt of written confirmation of such communication shall not invalidate such communication). Notices, documents, certificates and other deliverables to the Lenders by any Obligor may be made solely to the Control Agent and the Control Agent shall promptly deliver such notices, documents, certificates and other deliverables to the other Lenders hereunder.

12.03 Expenses, Indemnification, Etc.

(a) **Expenses**. Borrower agrees to pay or reimburse (i) the Lenders for all of their reasonable out of pocket costs and expenses (including the reasonable out-of-pocket fees and expenses of Morrison & Foerster LLP, special counsel to the Lenders, and any sales, goods and services or other similar taxes applicable thereto, and printing, reproduction, document delivery, communication and travel costs) in connection with (x) the negotiation, preparation, execution and delivery of this Agreement and the other Loan Documents and the making of the Loans (exclusive of post-closing costs), (y) post-closing costs and (z) the negotiation or preparation of any modification, supplement or waiver of any of the terms of this Agreement or any of the other Loan Documents (whether or not consummated) and (ii) the Lenders for all of their out of pocket costs and expenses (including the fees and expenses of legal counsel) in connection with any enforcement or collection proceedings resulting from the occurrence of an Event of Default; *provided, however, that* Borrower shall not be required to pay or reimburse any amounts pursuant to **Section 12.03(a)(i)(x)** in excess of $200,000; *provided further that*, so long as the Loans are consummated and all Commitments fully drawn prior to the expiry of the Commitment Period, then such fees shall be credited from the fees paid by the Borrower pursuant to **Section 2.03**.

(b) **Indemnification**. Borrower hereby indemnifies the Lenders, their Affiliates, and their respective directors, officers, employees, attorneys, agents, advisors and controlling parties (each, an "***Indemnified Party***") from and against, and agrees to hold them harmless against, any and all Claims and Losses of any kind (including reasonable fees and disbursements of counsel), joint or several, that may be incurred by or asserted or awarded against any Indemnified Party, in each case arising out of or in connection with or relating to any investigation, litigation or proceeding or the preparation of any defense with respect thereto arising out of or in connection with or relating to this Agreement or any of the other Loan Documents or the transactions contemplated hereby or thereby or any use made or proposed to be made with the proceeds of the Loans, whether or not such investigation, litigation or proceeding is brought by Borrower, any of its shareholders or creditors, an Indemnified Party or any other Person, or an Indemnified Party is otherwise a party thereto, and whether or not any of the conditions precedent set forth in **Section 6** are satisfied or the other transactions contemplated by this Agreement are consummated, except to the extent such Claim or Loss is found in a final, non-appealable judgment by a court of competent jurisdiction to have resulted from such Indemnified Party's gross negligence or willful misconduct. Any Indemnified Party seeking indemnity hereunder

shall give Borrower prompt notice of any claim for which indemnity may be sought. Borrower may assume defense of such claim with its own counsel so long as such counsel is reasonably acceptable to the relevant Indemnified Party or Parties; provided that such Indemnified Party or Parties shall preserve all rights to settle any claims or admit any liability at its sole discretion. Upon such assumption of defense, Borrower shall have no further indemnity obligation to such Indemnified Party or Parties for the cost of defense. Each Indemnified Party shall reasonably cooperate, at Borrower's expense, with such defense. No Obligor shall assert any claim against any Indemnified Party, on any theory of liability, for consequential, indirect, special or punitive damages arising out of or otherwise relating to this Agreement or any of the other Loan Documents or any of the transactions contemplated hereby or thereby or the actual or proposed use of the proceeds of the Loans. Borrower, its Subsidiaries and Affiliates and their respective directors, officers, employees, attorneys, agents, advisors and controlling parties are each sometimes referred to in this Agreement as a "***Borrower Party***." No Lender shall assert any claim against any Borrower Party, on any theory of liability, for consequential, indirect, special or punitive damages arising out of or otherwise relating to this Agreement or any of the other Loan Documents or any of the transactions contemplated hereby or thereby or the actual or proposed use of the proceeds of the Loans.

12.04 Amendments, Etc. Except as otherwise expressly provided in this Agreement, any provision of this Agreement may be modified or supplemented only by an instrument in writing signed by Borrower and the Lenders. Any consent, approval, (including without limitation any approval of or authorization for any amendment to any of the Loan Documents), instruction or other expression of the Lenders under any of the Loan Documents may be obtained by an instrument in writing signed in one or more counterparts by Majority Lenders; provided however, that the consent of all of the Lenders shall be required to:

(i) amend, modify, discharge, terminate or waive any of the terms of this Agreement if such amendment, modification, discharge, termination or waiver would increase the amount of the Loans, reduce the fees payable hereunder, reduce interest rates or other amounts payable with respect to the Loans, extend any date fixed for payment of principal, interest or other amounts payable relating to the Loans or extend the repayment dates of the Loans;

(ii) amend the provisions of **Section 6**;

(iii) amend, modify, discharge, terminate or waive any Security Document if the effect is to release a material part of the Collateral subject thereto otherwise than pursuant to the terms hereof or thereof; or

(iv) amend this **Section 12.04**.

Notwithstanding anything to the contrary herein, a Defaulting Lender shall not have any right to approve or disapprove any amendment, waiver or consent hereunder (and any amendment, waiver or consent which by its terms requires the consent of all Lenders or each affected Lender may be effected with the consent of the applicable Lenders other than Defaulting Lenders), except that (x) the Commitment of any Defaulting Lender may not be increased or extended without the consent of such Lender and (y) any waiver, amendment or modification requiring the

consent of all Lenders or each affected Lender that by its terms affects any Defaulting Lender more adversely than other affected Lenders shall require the consent of such Defaulting Lender.

12.05 Successors and Assigns.

(a) **General**. The provisions of this Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns permitted hereby, except that Borrower may not assign or otherwise transfer any of its rights or obligations hereunder without the prior written consent of the Lenders. Any of the Lenders may assign or otherwise transfer any of their rights or obligations hereunder to an assignee in accordance with the provisions of **Section 12.05(b)**, (ii) by way of participation in accordance with the provisions of **Section 12.05(e)** or (iii) by way of pledge or assignment of a security interest subject to the restrictions of **Section 12.05(f)**. Nothing in this Agreement, expressed or implied, shall be construed to confer upon any Person (other than the parties hereto, their respective successors and assigns permitted hereby, Participants to the extent provided in **Section 12.05(d)** and, to the extent expressly contemplated hereby, the Indemnified Parties) any legal or equitable right, remedy or claim under or by reason of this Agreement.

(b) **Assignments by Lenders**. Any of the Lenders may at any time assign to one or more Eligible Transferees (or, if an Event of Default has occurred and is continuing, to any Person) all or a portion of their rights and obligations under this Agreement (including all or a portion of the Commitment and the Loans at the time owing to it); *provided*, *however, that* no such assignment shall be made to Borrower, an Affiliate of Borrower, or any employees or directors of Borrower at any time or to any party that the assigning Lender should, in the exercise of reasonable diligence, know or that Borrower has notified the assigning Lender is a competitor of Borrower or any Affiliate of any such competitor. Subject to the recording thereof by the Lenders pursuant to **Section 12.05(c)**, from and after the effective date specified in each Assignment and Acceptance, the assignee thereunder shall be a party to this Agreement and, to the extent of the interest assigned by such Assignment and Acceptance, have the rights and obligations of the Lenders under this Agreement, and correspondingly the assigning Lender shall, to the extent of the interest assigned by such Assignment and Acceptance, be released from its obligations under this Agreement (and, in the case of an Assignment and Acceptance covering all of a Lender's rights and obligations under this Agreement, such Lender shall cease to be a party hereto) but shall continue to be entitled to the benefits of **Section 5** and **Section 12.03**. Any assignment or transfer by a Lender of rights or obligations under this Agreement that does not comply with this **Section 12.05(b)** shall be treated for purposes of this Agreement as a sale by such Lender of a participation in such rights and obligations in accordance with **Section 12.05(e)**.

(c) **Amendments to Loan Documents**. Each of the Lenders and the Obligors agrees to enter into such amendments to the Loan Documents, and such additional Security Documents and other instruments and agreements, in each case in form and substance reasonably acceptable to the Lenders and the Obligors, as shall reasonably be necessary to implement and give effect to any assignment made under this **Section 12.05**.

(d) **Register**. Lenders, acting solely for this purpose as an agent of Borrower, shall maintain at one of its offices, which shall be the office of the Control Agent, a register for the

recordation of the name and address of any assignee of the Lenders and the Commitment and outstanding principal amount of the Loans owing thereto (the "***Register***"). The entries in the Register shall be conclusive, absent manifest error, and Borrower shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as the "Lender" hereunder for all purposes of this Agreement, notwithstanding notice to the contrary. The Register shall be available for inspection by Borrower, at any reasonable time and from time to time upon reasonable prior notice.

(e) **Participations**. Any of the Lenders may at any time, without the consent of, or notice to, Borrower, sell participations to any Person (other than a natural person or Borrower or any of Borrower's Affiliates or Subsidiaries) (each, a "***Participant***") in all or a portion of such Lender's rights and/or obligations under this Agreement (including all or a portion of the Commitment and/or the Loans owing to it); *provided that* (i) such Lender's obligations under this Agreement shall remain unchanged, (ii) such Lender shall remain solely responsible to the other parties hereto for the performance of such obligations and (iii) Borrower shall continue to deal solely and directly with the Lenders in connection therewith.

Any agreement or instrument pursuant to which a Lender sells such a participation shall provide that such Lender shall retain the sole right to enforce this Agreement and to approve any amendment, modification or waiver of any provision of this Agreement; *provided that* such agreement or instrument may provide that such Lender will not, without the consent of the Participant, agree to any amendment, modification or waiver that would (i) increase or extend the term of such Lender's Commitment, (ii) extend the date fixed for the payment of principal of or interest on the Loans or any portion of any fee hereunder payable to the Participant, (iii) reduce the amount of any such payment of principal, or (iv) reduce the rate at which interest is payable thereon to a level below the rate at which the Participant is entitled to receive such interest. Subject to **Section 12.05(e)**, Borrower agrees that each Participant shall be entitled to the benefits of **Section 5** to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to **Section 12.05(b)**. To the extent permitted by law, each Participant also shall be entitled to the benefits of **Section 4.04(a)** as though it were the Lender.

(f) **Limitations on Rights of Participants**. A Participant shall not be entitled to receive any greater payment under **Section 5.01** or **5.05** than a Lender would have been entitled to receive with respect to the participation sold to such Participant, unless the sale of the participation to such Participant is made with Borrower's prior written consent.

(g) **Certain Pledges**. The Lenders may at any time pledge or assign a security interest in all or any portion of its rights under this Agreement and any other Loan Document to secure obligations of the Lenders, including any pledge or assignment to secure obligations to a Federal Reserve Bank; *provided that* no such pledge or assignment shall release the Lenders from any of their obligations hereunder or substitute any such pledgee or assignee for the Lenders as a party hereto.

12.06 Survival. The obligations of Borrower under **Sections 5.01**, **5.03**, **5.05**, **12.03**, **12.05**, **12.09**, **12.10**, **12.11**, **12.12**, **12.13**, **12.14** and **Section 13** (solely to the extent guaranteeing any of the obligations under the foregoing Sections) shall survive the repayment of the Loans and the termination of the Commitment and, in the case of the Lenders' assignment of any interest in the

Commitment or the Loans hereunder, shall survive, in the case of any event or circumstance that occurred prior to the effective date of such assignment, the making of such assignment, notwithstanding that the Lenders may cease to be "Lenders" hereunder. In addition, each representation and warranty made, or deemed to be made by a notice of the Loans, herein or pursuant hereto shall survive the making of such representation and warranty.

12.07 Captions. The table of contents and captions and section headings appearing herein are included solely for convenience of reference and are not intended to affect the interpretation of any provision of this Agreement.

12.08 Counterparts. This Agreement may be executed in any number of counterparts, all of which taken together shall constitute one and the same instrument and any of the parties hereto may execute this Agreement by signing any such counterpart.

12.09 Governing Law. This Agreement and the rights and obligations of the parties hereunder shall be governed by, and construed in accordance with, the law of the State of New York, without regard to principles of conflicts of laws that would result in the application of the laws of any other jurisdiction; *provided that* Section 5-1401 of the New York General Obligations Law shall apply.

12.10 Jurisdiction, Service of Process and Venue.

(a) **Submission to Jurisdiction**. Each Obligor agrees that any suit, action or proceeding with respect to this Agreement or any other Loan Document to which it is a party or any judgment entered by any court in respect thereof may be brought initially in the federal or state courts in Houston, Texas or in the courts of its own corporate domicile and irrevocably submits to the non-exclusive jurisdiction of each such court for the purpose of any such suit, action, proceeding or judgment. This **Section 12.10(a)** is for the benefit of the Lenders only and, as a result, no Lender shall be prevented from taking proceedings in any other courts with jurisdiction. To the extent allowed by applicable Laws, the Lenders may take concurrent proceedings in any number of jurisdictions.

(b) **Alternative Process**. Nothing herein shall in any way be deemed to limit the ability of the Lenders to serve any such process or summonses in any other manner permitted by applicable law.

(c) **Waiver of Venue, Etc**. Each Obligor irrevocably waives to the fullest extent permitted by law any objection that it may now or hereafter have to the laying of the venue of any suit, action or proceeding arising out of or relating to this Agreement or any other Loan Document and hereby further irrevocably waives to the fullest extent permitted by law any claim that any such suit, action or proceeding brought in any such court has been brought in an inconvenient forum. A final judgment (in respect of which time for all appeals has elapsed) in any such suit, action or proceeding shall be conclusive and may be enforced in any court to the jurisdiction of which such Obligor is or may be subject, by suit upon judgment.

12.11 Waiver of Jury Trial. EACH OBLIGOR AND EACH LENDER HEREBY IRREVOCABLY WAIVES, TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, ANY AND ALL RIGHT TO TRIAL BY JURY IN ANY SUIT, ACTION OR

PROCEEDING ARISING OUT OF OR RELATING TO THIS AGREEMENT, THE OTHER LOAN DOCUMENTS OR THE TRANSACTIONS CONTEMPLATED HEREBY OR THEREBY.

12.12 Waiver of Immunity. To the extent that any Obligor may be or become entitled to claim for itself or its Property or revenues any immunity on the ground of sovereignty or the like from suit, court jurisdiction, attachment prior to judgment, attachment in aid of execution of a judgment or execution of a judgment, and to the extent that in any such jurisdiction there may be attributed such an immunity (whether or not claimed), such Obligor hereby irrevocably agrees not to claim and hereby irrevocably waives such immunity with respect to its obligations under this Agreement and the other Loan Documents.

12.13 Entire Agreement. This Agreement and the other Loan Documents constitute the entire agreement among the parties with respect to the subject matter hereof and thereof and supersede any and all previous agreements and understandings, oral or written, relating to the subject matter hereof. EACH OBLIGOR ACKNOWLEDGES, REPRESENTS AND WARRANTS THAT IN DECIDING TO ENTER INTO THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS OR IN TAKING OR NOT TAKING ANY ACTION HEREUNDER OR THEREUNDER, IT HAS NOT RELIED, AND WILL NOT RELY, ON ANY STATEMENT, REPRESENTATION, WARRANTY, COVENANT, AGREEMENT OR UNDERSTANDING, WHETHER WRITTEN OR ORAL, OF OR WITH THE LENDERS OTHER THAN THOSE EXPRESSLY SET FORTH IN THIS AGREEMENT AND THE OTHER LOAN DOCUMENTS.

12.14 Severability. If any provision hereof is found by a court to be invalid or unenforceable, to the fullest extent permitted by applicable law the parties agree that such invalidity or unenforceability shall not impair the validity or enforceability of any other provision hereof.

12.15 No Fiduciary Relationship. Borrower acknowledges that the Lenders have no fiduciary relationship with, or fiduciary duty to, Borrower arising out of or in connection with this Agreement or the other Loan Documents, and the relationship between the Lenders and Borrower is solely that of creditor and debtor. This Agreement and the other Loan Documents do not create a joint venture among the parties.

12.16 Confidentiality. The Lenders agree to maintain the confidentiality of the Confidential Information (as defined in the Non-Disclosure Agreement (defined below)) in accordance with the terms of that certain non-disclosure agreement dated June 5, 2013 between Borrower and Capital Royalty L.P (the "***Non-Disclosure Agreement***").

Any new Lender that becomes party to this Agreement hereby agrees to be bound by the terms of the Non-Disclosure Agreement. The parties to this Agreement shall prepare a mutually agreeable press release announcing the completion of this transaction on the Closing Date.

12.17 USA PATRIOT Act. The Lenders hereby notify Borrower that pursuant to the requirements of the USA PATRIOT Act (Title III of Pub. L. 107-56 (signed into law October 26, 2001)) (the "***Act***"), they are required to obtain, verify and record information that identifies

Borrower, which information includes the name and address of Borrower and other information that will allow such Lender to identify Borrower in accordance with the Act.

12.18 Maximum Rate of Interest. Notwithstanding anything to the contrary contained in any Loan Document, the interest paid or agreed to be paid under the Loan Documents shall not exceed the maximum rate of non-usurious interest permitted by applicable Law (in each case, the "***Maximum Rate***"). If the Lenders shall receive interest in an amount that exceeds the Maximum Rate, the excess interest shall be applied to the principal of the Loans, and not to the payment of interest, or, if the excessive interest exceeds such unpaid principal, the amount exceeding the unpaid balance shall be refunded to the applicable Obligor. In determining whether the interest contracted for, charged, or received by the Lenders exceeds the Maximum Rate, the Lenders may, to the extent permitted by applicable Law, (a) characterize any payment that is not principal as an expense, fee, or premium rather than interest, (b) exclude voluntary prepayments and the effects thereof, (c) amortize, prorate, allocate, and spread in equal or unequal parts the total amount of interest throughout the contemplated term of the Indebtedness and other obligations of any Obligor hereunder, or (d) allocate interest between portions of such Indebtedness and other obligations under the Loan Documents to the end that no such portion shall bear interest at a rate greater than that permitted by applicable Law.

12.19 Real Property Security Waivers.

(a) **Real Property Security Waivers**.

(i) Each Obligor acknowledges that all or any portion of the Obligations may now or hereafter be secured by a Lien or Liens upon real property evidenced by certain documents including, without limitation, deeds of trust and assignments of rents. Lenders may, pursuant to the terms of said real property security documents and applicable law, foreclose under all or any portion of one or more of said Liens by means of judicial or nonjudicial sale or sales. Each Obligor agrees that Lenders may exercise whatever rights and remedies they may have with respect to said real property security, all without affecting the liability of any Obligor under the Loan Documents hereunder, except to the extent Lenders realize payment by such action or proceeding. No election to proceed in one form of action or against any party, or on any obligation shall constitute a waiver of Lenders' rights to proceed in any other form of action or against any Obligor or any other Person, or diminish the liability of any Obligor, or affect the right of Lenders to proceed against any Obligor for any deficiency, except to the extent Lenders realize payment by such action, notwithstanding the effect of such action upon any Obligor's rights of subrogation, reimbursement or indemnity, if any, against Obligor or any other Person.

(ii) To the extent permitted under applicable law, each Obligor hereby waives any rights and defenses that are or may become available to such Obligor by reason of Sections 2787 to 2855, inclusive, of the California Civil Code.

(iii) To the extent permitted under applicable law, each Obligor hereby waives all rights and defenses that such Obligor may have because the Obligations are or may be secured by real property. This means, among other things:

(A) Lenders may collect from any Obligor without first foreclosing on any real or personal property collateral pledged by any other Obligor;

(B) If Lenders foreclose on any real property collateral pledged by any Obligor:

(1) The amount of the Loans may be reduced only by the price for which that collateral is sold at the foreclosure sale, even if the collateral is worth more than the sale price; and

(2) Lenders may collect from each Obligor even if Lenders, by foreclosing on the real property collateral, have destroyed any right that such Obligor may have to collect from any other Obligor.

(3) To the extent permitted under applicable law, this is an unconditional and irrevocable waiver of any rights and defenses each Obligor may have because the Obligations hereunder are or may be secured by real property. These rights and defenses include, but are not limited to, any rights or defenses based upon Section 580a, 580b, 580d or 726 of the California Code of Civil Procedure.

(iv) To the extent permitted under applicable law, each Obligor waives all rights and defenses arising out of an election of remedies by Lenders, even though that election of remedies, such as a nonjudicial foreclosure with respect to security for a guaranteed obligation, has destroyed such Obligor's rights of subrogation and reimbursement against the principal by the operation of Section 580d of the California Code of Civil Procedure or otherwise.

(b) **Waiver of Marshaling**. WITHOUT LIMITING THE FOREGOING IN ANY WAY, EACH OBLIGOR HEREBY IRREVOCABLY WAIVES AND RELEASES, TO THE EXTENT PERMITTED BY LAW, ANY AND ALL RIGHTS IT MAY HAVE AT ANY TIME (WHETHER ARISING DIRECTLY OR INDIRECTLY, BY OPERATION OF LAW, CONTRACT OR OTHERWISE) TO REQUIRE THE MARSHALING OF ANY ASSETS OF ANY OBLIGOR, WHICH RIGHT OF MARSHALING MIGHT OTHERWISE ARISE FROM ANY PAYMENTS MADE OR OBLIGATIONS PERFORMED.

SECTION 13
GUARANTEE

13.01 The Guarantee. The Subsidiary Guarantors hereby jointly and severally guarantee to the Lenders and their successors and assigns the prompt payment in full when due (whether at stated maturity, by acceleration or otherwise) of the principal of and interest on the Loans and all fees and other amounts from time to time owing to the Lenders by Borrower under this Agreement or under any other Loan Document and by any other Obligor under any of the Loan Documents, in each case strictly in accordance with the terms thereof (such obligations being herein collectively called the "***Guaranteed Obligations***"). The Subsidiary Guarantors hereby further jointly and severally agree that if Borrower shall fail to pay in full when due (whether at stated maturity, by acceleration or otherwise) any of the Guaranteed Obligations, the Subsidiary Guarantors will promptly pay the same, without any demand or notice whatsoever, and that in the case of any extension of time of payment or renewal of any of the Guaranteed Obligations,

the same will be promptly paid in full when due (whether at extended maturity, by acceleration or otherwise) in accordance with the terms of such extension or renewal.

13.02 Obligations Unconditional. The obligations of the Subsidiary Guarantors under **Section 13.01** are absolute and unconditional, joint and several, irrespective of the value, genuineness, validity, regularity or enforceability of the obligations of Borrower under this Agreement or any other agreement or instrument referred to herein, or any substitution, release or exchange of any other guarantee of or security for any of the Guaranteed Obligations, and, to the fullest extent permitted by applicable law, irrespective of any other circumstance whatsoever that might otherwise constitute a legal or equitable discharge or defense of a surety or guarantor, it being the intent of this **Section 13.02** that the obligations of the Subsidiary Guarantors hereunder shall be absolute and unconditional, joint and several, under any and all circumstances. Without limiting the generality of the foregoing, it is agreed that the occurrence of any one or more of the following shall not alter or impair the liability of the Subsidiary Guarantors hereunder, which shall remain absolute and unconditional as described above:

(a) at any time or from time to time, without notice to the Subsidiary Guarantors, the time for any performance of or compliance with any of the Guaranteed Obligations shall be extended, or such performance or compliance shall be waived;

(b) any of the acts mentioned in any of the provisions of this Agreement or any other agreement or instrument referred to herein shall be done or omitted;

(c) the maturity of any of the Guaranteed Obligations shall be accelerated, or any of the Guaranteed Obligations shall be modified, supplemented or amended in any respect, or any right under this Agreement or any other agreement or instrument referred to herein shall be waived or any other guarantee of any of the Guaranteed Obligations or any security therefor shall be released or exchanged in whole or in part or otherwise dealt with; or

(d) any lien or security interest granted to, or in favor of, the Lenders as security for any of the Guaranteed Obligations shall fail to be perfected.

The Subsidiary Guarantors hereby expressly waive diligence, presentment, demand of payment, protest and all notices whatsoever, and any requirement that the Lenders exhaust any right, power or remedy or proceed against Borrower under this Agreement or any other agreement or instrument referred to herein, or against any other Person under any other guarantee of, or security for, any of the Guaranteed Obligations.

13.03 Reinstatement. The obligations of the Subsidiary Guarantors under this **Section 13** shall be automatically reinstated if and to the extent that for any reason any payment by or on behalf of Borrower in respect of the Guaranteed Obligations is rescinded or must be otherwise restored by any holder of any of the Guaranteed Obligations, whether as a result of any proceedings in bankruptcy or reorganization or otherwise, and the Subsidiary Guarantors jointly and severally agree that they will indemnify the Lenders on demand for all reasonable costs and expenses (including fees of counsel) incurred by the Lenders in connection with such rescission or restoration, including any such costs and expenses incurred in defending against any claim

alleging that such payment constituted a preference, fraudulent transfer or similar payment under any bankruptcy, insolvency or similar law.

13.04 Subrogation. The Subsidiary Guarantors hereby jointly and severally agree that until the payment and satisfaction in full of all Guaranteed Obligations (other than Warrant Obligations) and the expiration and termination of the Commitment of the Lenders under this Agreement they shall not exercise any right or remedy arising by reason of any performance by them of their guarantee in **Section 13.01**, whether by subrogation or otherwise, against Borrower or any other guarantor of any of the Guaranteed Obligations or any security for any of the Guaranteed Obligations.

13.05 Remedies. The Subsidiary Guarantors jointly and severally agree that, as between the Subsidiary Guarantors and the Lenders, the obligations of Borrower under this Agreement and under the other Loan Documents may be declared to be forthwith due and payable as provided in **Section 11** (and shall be deemed to have become automatically due and payable in the circumstances provided in **Section 11**) for purposes of **Section 13.01** notwithstanding any stay, injunction or other prohibition preventing such declaration (or such obligations from becoming automatically due and payable) as against Borrower and that, in the event of such declaration (or such obligations being deemed to have become automatically due and payable), such obligations (whether or not due and payable by Borrower) shall forthwith become due and payable by the Subsidiary Guarantors for purposes of **Section 13.01**.

13.06 Instrument for the Payment of Money. Each Subsidiary Guarantor hereby acknowledges that the guarantee in this **Section 13** constitutes an instrument for the payment of money, and consents and agrees that the Lender, at its sole option, in the event of a dispute by such Subsidiary Guarantor in the payment of any moneys due hereunder, shall have the right to proceed by motion for summary judgment in lieu of complaint pursuant to N.Y. Civ. Prac. L&R § 3213.

13.07 Continuing Guarantee. The guarantee in this **Section 13** is a continuing guarantee, and shall apply to all Guaranteed Obligations whenever arising.

13.08 Rights of Contribution. The Subsidiary Guarantors hereby agree, as between themselves, that if any Subsidiary Guarantor shall become an Excess Funding Guarantor (as defined below) by reason of the payment by such Subsidiary Guarantor of any Guaranteed Obligations, each other Subsidiary Guarantor shall, on demand of such Excess Funding Guarantor (but subject to the next sentence), pay to such Excess Funding Guarantor an amount equal to such Subsidiary Guarantor's *Pro rata* Share (as defined below and determined, for this purpose, without reference to the properties, debts and liabilities of such Excess Funding Guarantor) of the Excess Payment (as defined below) in respect of such Guaranteed Obligations. The payment obligation of a Subsidiary Guarantor to any Excess Funding Guarantor under this **Section 13.08** shall be subordinate and subject in right of payment to the prior payment in full of the obligations of such Subsidiary Guarantor under the other provisions of this **Section 13** and such Excess Funding Guarantor shall not exercise any right or remedy with respect to such excess until payment and satisfaction in full of all of such obligations.

For purposes of this **Section 13.08**, (i) "***Excess Funding Guarantor***" means, in respect of any Guaranteed Obligations, a Subsidiary Guarantor that has paid an amount in excess of its *Pro rata* Share of such Guaranteed Obligations, (ii) "***Excess Payment***" means, in respect of any Guaranteed Obligations, the amount paid by an Excess Funding Guarantor in excess of its *Pro rata* Share of such Guaranteed Obligations and (iii) "***Pro Rata Share***" means, for any Subsidiary Guarantor, the ratio (expressed as a percentage) of (x) the amount by which the aggregate present fair saleable value of all properties of such Subsidiary Guarantor (excluding any shares of stock of any other Subsidiary Guarantor) exceeds the amount of all the debts and liabilities of such Subsidiary Guarantor (including contingent, subordinated, unmatured and unliquidated liabilities, but excluding the obligations of such Subsidiary Guarantor hereunder and any obligations of any other Subsidiary Guarantor that have been Guaranteed by such Subsidiary Guarantor) to (y) the amount by which the aggregate fair saleable value of all properties of all of the Subsidiary Guarantors exceeds the amount of all the debts and liabilities (including contingent, subordinated, unmatured and unliquidated liabilities, but excluding the obligations of Borrower and the Subsidiary Guarantors hereunder and under the other Loan Documents) of all of the Subsidiary Guarantors, determined (A) with respect to any Subsidiary Guarantor that is a party hereto on the Closing Date, as of the Closing Date, and (B) with respect to any other Subsidiary Guarantor, as of the date such Subsidiary Guarantor becomes a Subsidiary Guarantor hereunder.

13.09 General Limitation on Guarantee Obligations. In any action or proceeding involving any provincial, territorial or state corporate law, or any state or federal bankruptcy, insolvency, reorganization or other law affecting the rights of creditors generally, if the obligations of any Subsidiary Guarantor under **Section 13.01** would otherwise, taking into account the provisions of **Section 13.08**, be held or determined to be void, invalid or unenforceable, or subordinated to the claims of any other creditors, on account of the amount of its liability under **Section 13.01**, then, notwithstanding any other provision hereof to the contrary, the amount of such liability shall, without any further action by such Subsidiary Guarantor, the Lenders or any other Person, be automatically limited and reduced to the highest amount that is valid and enforceable and not subordinated to the claims of other creditors as determined in such action or proceeding.

13.10 Additional Waivers.

(a) To the extent permitted under applicable law, each Subsidiary Guarantor hereby waives any rights and defenses that are or may become available to Subsidiary Guarantor by reason of Sections 2787 to 2855, inclusive, of the California Civil Code.

(b) To the extent permitted under applicable law, each Subsidiary Guarantor hereby waives all rights and defenses that Subsidiary Guarantor may have because the Obligations are or may be secured by real property. This means, among other things:

(i) Lenders may collect from any Subsidiary Guarantor without first foreclosing on any real or personal property collateral pledged by Borrower;

(ii) If Lenders foreclose on any real property collateral pledged by Borrower:

(A) The amount of the Loan may be reduced only by the price for which that collateral is sold at the foreclosure sale, even if the collateral is worth more than the sale price; and

(B) Lenders may collect from each Subsidiary Guarantor even if Lenders, by foreclosing on the real property collateral, has destroyed any right such Subsidiary Guarantor may have to collect from Borrower.

To the extent permitted under applicable law, this is an unconditional and irrevocable waiver of any rights and defenses each Subsidiary Guarantor may have because the Obligations are or may be secured by real property. These rights and defenses include, but are not limited to, any rights or defenses based upon Section 580a, 580b, 580d or 726 of the California Code of Civil Procedure.

(c) To the extent permitted under applicable law, each Subsidiary Guarantor waives all rights and defenses arising out of an election of remedies by Lenders, even though that election of remedies, such as a nonjudicial foreclosure with respect to security for a guaranteed obligation, has destroyed such Subsidiary Guarantor's rights of subrogation and reimbursement against the principal by the operation of Section 580d of the California Code of Civil Procedure or otherwise.

(d) To the extent permitted under applicable law, each Subsidiary Guarantor hereby waives any right or defense it may have at law or equity, including California Code of Civil Procedure Section 580a, to a fair market value hearing or action to determine a deficiency judgment after a foreclosure.

The Junior Creditor agrees that, in connection with any such sale or other disposition, (i) the Senior Creditor is authorized to file any and all UCC and other applicable lien releases and/or terminations in respect of the liens held by the Junior Creditor in connection with such a sale or other disposition, and (ii) it shall execute any and all lien releases or other documents reasonably requested by the Senior Creditor in connection therewith.

9. **Agent for Perfection**.

(a) [ ] acknowledges that applicable provisions of the UCC may require, in order to properly perfect CR's security interest in the Common Collateral securing the CR Claims, that CR possess certain of such Common Collateral, and may require the execution of control agreements in favor of CR concerning such Common Collateral. In order to help ensure that CR's security interest in such Common Collateral is properly perfected (but subject to and without waiving the other provisions of this Agreement), [ ] agrees to hold both for itself and, solely for the purposes of perfection and without incurring any duties or obligations to CR as a result thereof or with respect thereto, for the benefit of CR, any such Common Collateral, and agrees that CR's lien in such Common Collateral shall be deemed perfected in accordance with applicable law.

No such action or inaction shall impair or otherwise affect such Creditor's rights hereunder. Each Creditor waives any benefits of California Civil Code Sections 2809, 2810, 2819, 2845, 2847, 2848, 2849, 2850, 2899 and 3433. Each Creditor waives the benefits, if any, of any statutory or common law rule that may permit a subordinating creditor to assert any defenses of a surety or guarantor, or that may give the subordinating creditor the right to require a senior creditor to marshal assets, and each Creditor agrees that it shall not assert any such defenses or rights.

(c) Each Creditor agrees that any other Creditor may release or refrain from enforcing its security interest in the Collateral, or permit the use or consumption of such Collateral by Borrower free of the other Creditor's security interest, without incurring any liability to any other Creditor.

13. **Disgorgement**.

(a) If, at any time after payment in full of the [ ] Claims any payments of the [ ] Claims must be disgorged by [ ] for any reason (including, without limitation, any Insolvency Proceeding), this Agreement and the relative rights and priorities set forth herein shall be reinstated as to all such disgorged payments as though such payments had not been made and CR shall immediately pay over to [ ] all money or funds received or retained by CR with respect to the CR Claims to the extent that such receipt or retention would have been prohibited hereunder.

Each Creditor shall not sell, assign, pledge, dispose of or otherwise transfer all or any portion of its Claims or any of its Credit Documents or any interest in any Common Collateral unless prior to the consummation of any such action, the

transferee thereof shall execute and deliver to the other Creditor an agreement of such transferee to be bound hereby, or an agreement substantially identical to this Agreement providing for the continued subjection of such Claims, the interests of the transferee in the Collateral and the remedies of the transferee with respect thereto as provided herein with respect to the transferring Creditor and for the continued effectiveness of all of the other rights of the other Creditor arising under this Agreement, in each case in form satisfactory to the other Creditor.

18. **Entire Agreement**. This Agreement represents the entire agreement with respect to the subject matter hereof, and supersedes all prior negotiations, agreements and commitments. Each Creditor is not relying on any representations by the other Creditor or Borrower in entering into this Agreement, and each Creditor has kept and will continue to keep itself fully apprised of the financial and other condition of Borrower. This Agreement may be amended only by written instrument signed by the Creditors.

19. **Relationship among Creditors**. The relationship among the Creditors is, and at all times shall remain solely that of Creditors. Creditors shall not under any circumstances be construed to be partners or joint venturers of one another; nor shall the Creditors under any circumstances be deemed to be in a relationship of confidence or trust or a fiduciary relationship with one another, or to owe any fiduciary duty to one another. Creditors do not undertake or assume any responsibility or duty to one another to select, review, inspect, supervise, pass judgment upon or otherwise inform each other of any matter in connection with Borrower’s property, any Collateral held by any Creditor or the operations of Borrower. Each Creditor shall rely entirely on its own judgment with respect to such matters, and any review, inspection, supervision, exercise of judgment or supply of information undertaken or assumed by any Creditor in connection with such matters is solely for the protection of such Creditor.

4.03 Preservation of Rights. The Secured Parties shall not be required to take steps necessary to preserve any rights against prior parties to any of the Collateral.

4.04 Special Provisions Relating to Certain Collateral.

(a) **Pledged Shares**.

(i) Subject to Permitted Liens, the Grantors will cause the Pledged Shares to constitute at all times (1) 100% of the total number of Shares of each Issuer (other than a Controlled Foreign Corporation) then outstanding owned by the Grantors and (2) in the case of any Issuer that is a Controlled Foreign Corporation, 65% of the total number of shares of voting stock of such Issuer and 100% of the total number of shares of all other classes of capital stock of such Issuer then issued and outstanding owned by the Grantors.

(ii) Until the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the terms of the Loan Agreement, the Grantors shall have the right to exercise all voting, consensual and other powers of ownership pertaining to the Pledged Shares for all purposes not inconsistent with the terms of this Agreement, the other Loan Documents or any other instrument or agreement referred to herein or therein, provided that the Grantors jointly and severally agree that they will not vote the Pledged Shares in any manner that is inconsistent with the terms of this Agreement, the other Loan Documents or any such other instrument or agreement; and the Control Agent or the Secured Parties shall execute and deliver to the Grantors or cause to be executed and delivered to the Grantors all such proxies, powers of attorney, dividend and other orders, and all such instruments, without recourse, as the Grantors may reasonably request for the purpose of enabling the Grantors to exercise the rights and powers that it is entitled to exercise pursuant to this **Section 4.04(a)(ii)**.

(iii) Until the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the Loan Agreement, the Grantors shall be entitled to receive and retain any dividends, distributions or proceeds on the Pledged Shares paid in cash out of earned surplus.

(iv) After the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the Loan Agreement, whether or not the Secured Parties or any of them exercises any available right to declare any Secured Obligations due and payable or seeks or pursues any other relief or remedy available to them under applicable law or under this Agreement, the other Loan Documents or any other agreement relating to such Secured Obligation, all dividends and other distributions on the Pledged Shares shall be paid directly to the Secured Parties Representative for distribution to the Secured Parties and retained by them as part of the Collateral, subject to the terms of this Agreement, and, if the Secured Parties Representative shall so request in writing, the Grantors jointly and severally agree to execute and deliver to the Secured Parties Representative appropriate additional dividend, distribution and other orders and documents to that end, provided that if such Event of Default is waived in writing by the Majority Lenders in accordance with the Loan Agreement, any such dividend or distribution theretofore paid to the Secured Parties Representative shall, upon request of the Grantors (except to the extent theretofore applied to the Secured Obligations), be returned by the Secured Parties Representative to the Grantors.

(b) **Intellectual Property**.

(i) For the purpose of enabling the Secured Parties to exercise rights and remedies under **Section 4.05** at such time as the Secured Parties shall be lawfully entitled to exercise such rights and remedies, and for no other purpose, each Grantor hereby grants to the Secured Parties Representative, to the extent assignable, an irrevocable, non-exclusive license (exercisable without payment of royalty or other compensation to such Grantor) to use and the right to assign, license or sublicense any of the Intellectual Property now owned or hereafter acquired by such Grantor, wherever the same may be located, including in such license reasonable access to all media in which any of the licensed items may be recorded or stored and to all computer programs used for the compilation or printout thereof.

(ii) Notwithstanding anything contained herein to the contrary, but subject to any provision of the Loan Documents that limits the rights of any Grantor to dispose of its property, until the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the Loan Agreement, the Grantors will be permitted to exploit, use, enjoy, protect, defend, enforce, license, sublicense, assign, sell, dispose of or take other actions with respect to the Intellectual Property in the ordinary course of business of the Grantors. In furtherance of the foregoing, until the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the terms of the Loan Agreement, the Secured Parties or the Secured Parties Representative shall from time to time, upon the request of the respective Grantor, execute and deliver any instruments, certificates or other documents, in the form so requested, that the Grantors shall have certified are appropriate in its judgment to allow it to take any action permitted above (including relinquishment of the license provided pursuant to **Section 4.04(b)(i)** as to any specific Intellectual Property). Further, upon the payment in full of all of the Secured Obligations (other than inchoate indemnity or reimbursement obligations or other obligations which, by their terms, survive termination of the Loan Agreement or Warrant Obligations) or earlier expiration of this Agreement or release of the Collateral, the Secured Parties Representative shall grant back to the Grantors the license granted pursuant to clause (i) immediately above. The exercise of rights and remedies under **Section 4.05** by the Secured Parties shall not terminate the rights of the holders of any licenses,

covenants not to sue, or sublicenses theretofore granted by the Grantors in accordance with the first sentence of this **Section 4.04(b)(ii)**.

(c) **Chattel Paper**. The Grantors will (i) deliver to the Control Agent each original of each item of Chattel Paper at any time constituting part of the Collateral, and (ii) cause each such original and each copy thereof to bear a conspicuous legend, in form and substance satisfactory to the Control Agent, indicating that such Chattel Paper is subject to the security interest granted hereby and that purchase of such Chattel Paper by a Person other than the Control Agent without the consent of the Control Agent would violate the rights of the Secured Parties.

4.05 Remedies.

(a) **Rights and Remedies Generally upon Event of Default**. Upon the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the terms of the Loan Agreement, the Secured Parties shall have all of the rights and remedies with respect to the Collateral of a secured party under the NYUCC (whether or not the Uniform Commercial Code is in effect in the jurisdiction where the rights and remedies are asserted) and such additional rights and remedies to which a secured party is entitled under the laws in effect in any jurisdiction where any rights and remedies hereunder may be asserted, including the right, to the fullest extent permitted by law, to exercise all voting, consensual and other powers of ownership pertaining to the Collateral as if the Secured Parties were the sole and absolute owner thereof (and each Grantor agrees to take all such action as may be appropriate to give effect to such right). Upon the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the terms of the Loan Agreement, the Majority Lenders shall appoint one of the Secured Parties to act as a representative of all the Secured Parties (such Person, the "***Secured Parties Representative***") to exercise, on behalf of all the Secured Parties, such rights and remedies of the Secured Parties described above; and without limiting the foregoing:

(i) the Secured Parties Representative may, in its name or in the name of any Grantor or otherwise, demand, sue for, collect or receive any money or other property at any time payable or receivable on account of or in exchange for any of the Collateral, but shall be under no obligation to do so;

(ii) the Secured Parties Representative may make any reasonable compromise or settlement deemed desirable with respect to any of the Collateral and may extend the time of payment, arrange for payment in installments, or otherwise modify the terms of, any of the Collateral;

(iii) the Secured Parties Representative may require the Grantors to notify (and each Grantor hereby authorizes the Secured Parties Representative to so notify) each account debtor in respect of any Account, Chattel Paper or General Intangible, and each obligor on any Instrument, constituting part of the Collateral that such Collateral has been assigned to the Secured Parties hereunder, and to instruct that any payments due or to become due in respect of such Collateral shall be made directly to the Secured Parties Representative or as it may direct (and if any such payments, or any other Proceeds of Collateral, are received by any Grantor they

shall be held in trust by such Grantor for the benefit of the Secured Parties and as promptly as possible remitted or delivered to the Secured Parties Representative for application as provided herein);

(iv) the Secured Parties Representative may require the Grantors to assemble the Collateral at such place or places, convenient to the Secured Parties and the Grantors, as the Secured Parties Representative may direct;

(v) the Secured Parties Representative may require the Grantors to cause the Pledged Shares to be transferred of record into the name of the Secured Parties Representative or its nominee (and the Secured Parties Representative agrees that if any of such Pledged Shares is transferred into its name or the name of its nominee, the Secured Parties Representative will thereafter promptly give to the respective Grantor copies of any notices and communications received by them with respect to such Pledged Shares); and

(vi) the Secured Parties Representative may sell, lease, assign or otherwise dispose of all or any part of the Collateral, at such place or places as the Secured Parties Representative deems best, and for cash or for credit or for future delivery (without thereby assuming any credit risk), at public or private sale, without demand of performance or notice of intention to effect any such disposition or of the time or place thereof (except such notice as is required by applicable statute and cannot be waived), and the Secured Parties Representative or anyone else may be the purchaser, lessee, assignee or recipient of any or all of the Collateral so disposed of at any public sale (or, to the extent permitted by law, at any private sale) and thereafter hold the same absolutely, free from any claim or right of whatsoever kind, including any right or equity of redemption (statutory or otherwise), of the Grantors, any such demand, notice and right or equity being hereby expressly waived and released. In the event of any sale, assignment, or other disposition of any of the Collateral consisting of Trademarks, the goodwill connected with and symbolized by the Trademarks subject to such disposition shall be included. The Secured Parties Representative may, without notice or publication, adjourn any public or private sale or cause the same to be adjourned from time to time by announcement at the time and place fixed for the sale, and such sale may be made at any time or place to which the sale may be so adjourned.

(vii) The Proceeds of each collection, sale or other disposition under this **Section 4.05**, including by virtue of the exercise of any license granted to the Secured Parties Representative in **Section 4.04(b)**, shall be applied in accordance with **Section 4.09**.

(b) **Certain Securities Act Limitations**. The Grantors recognize that, by reason of certain prohibitions contained in the Securities Act of 1933, as amended, and applicable state securities laws, the Secured Parties Representative may be compelled, with respect to any sale of all or any part of the Collateral, to limit purchasers to those who will agree, among other things, to acquire the Collateral for their own account, for investment and not with a view to the distribution or resale thereof. The Grantors acknowledge that any such private sales may be at prices and on terms less favorable to the Secured Parties Representative than those obtainable through a public sale without such restrictions, and, notwithstanding such circumstances, agree that any such private sale shall be deemed to have been made in a commercially reasonable manner and that the Secured Parties Representative shall have no

obligation to engage in public sales and no obligation to delay the sale of any Collateral for the period of time necessary to permit the issuer thereof to register it for public sale.

(c) **Notice**. The Grantors agree that to the extent the Secured Parties Representative is required by applicable law to give reasonable prior notice of any sale or other disposition of any Collateral, ten business days' notice shall be deemed to constitute reasonable prior notice.

4.06 Deficiency. If the proceeds of sale, collection or other realization of or upon the Collateral pursuant to **Section 4.05** are insufficient to cover the costs and expenses of such realization and the indefeasible payment in full in cash of the Secured Obligations (other than inchoate indemnity or reimbursement obligations or Warrant Obligations), the Grantors shall remain liable for any deficiency.

4.07 Locations; Names, Etc. No Grantor shall (i) change its location (as defined in Section 9-307 of the NYUCC), (ii) change its name from the name shown as its current legal name on **Annex 1**, or (iii) agree to or authorize any modification of the terms of any item of Collateral that would result in a change thereof from one Uniform Commercial Code category to another such category (such as from a General Intangible to Investment Property), if the effect thereof would be to result in a loss of perfection of, or diminution of priority for, the security interests created hereunder in such item of Collateral, or the loss of control (within the meaning of Section 9-104, 9-105, 9-106 or 9-107 of the NYUCC) over such item of Collateral, unless in each case 30 days' prior written notice has been provided to the Control Agent and such change is not otherwise restricted by the terms of any Loan Document.

4.08 Private Sale. The Secured Parties shall incur no liability as a result of the sale of the Collateral, or any part thereof, at any private sale pursuant to **Section 4.05** conducted in a commercially reasonable manner. Each Grantor hereby waives any claims against the Secured Parties or any of them arising by reason of the fact that the price at which the Collateral may have been sold at such a private sale was less than the price that might have been obtained at a public sale or was less than the aggregate amount of the Secured Obligations, even if the Secured Parties Representative accepts the first offer received and does not offer the Collateral to more than one offeree.

4.09 Application of Proceeds. Except as otherwise herein expressly provided and except as provided below in this **Section 4.09**, the Proceeds of any collection, sale or other realization of all or any part of the Collateral pursuant hereto, and any other cash at the time held by the Secured Parties Representative under this **Section 4**, shall be applied by the Secured Parties Representative:

First, to the payment of the costs and expenses of such collection, sale or other realization, including reasonable out of pocket costs and expenses of the Secured Parties and the fees and expenses of their agents and counsel, and all expenses incurred and advances made by the Secured Parties in connection therewith;

Next, to the indefeasible payment in full of the Secured Obligations (other than inchoate indemnity or reimbursement obligations or Warrant Obligations) in such order as the Secured Parties in their sole discretion determine; and

Finally, to the payment to the respective Grantor, or its successors or assigns, or as a court of competent jurisdiction may direct, of any surplus then remaining.

4.10 Attorney in Fact. Without limiting any rights or powers granted by this Agreement to the Secured Parties, upon the occurrence of an Event of Default that has not been waived in writing by the Majority Lenders in accordance with the Loan Agreement, the Secured Parties Representative (and any of the Secured Parties Representative's officers or employees or agents appointed by the Secured Parties Representative) is hereby appointed the attorney in fact of each Grantor for the purpose of carrying out the provisions of this **Section 4** and taking any action and executing any instruments that the Secured Parties Representative may deem necessary or advisable to accomplish the purposes hereof, which appointment as attorney in fact is irrevocable and coupled with an interest. Without limiting the generality of the foregoing, so long as the Secured Parties Representative shall be entitled under this **Section 4** to make collections in respect of the Collateral, the Secured Parties Representative shall have the right and power to receive, endorse and collect all checks made payable to the order of any Grantor representing any dividend, payment or other distribution in respect of the Collateral or any part thereof and to give full discharge for the same.

4.11 Perfection and Recordation. Each Grantor authorizes the Secured Parties to file Uniform Commercial Code financing statements describing the Collateral as "all assets" or "all personal property and fixtures" of such Grantor (provided that no such description shall be deemed to modify the description of Collateral set forth in **Section 3**).

4.12 Termination. When all Secured Obligations shall have been indefeasibly paid in full in cash (other than inchoate indemnity or reimbursment obligations or the Warrant Obligations), this Agreement automatically shall terminate, and each Secured Party shall, upon request of Grantors, cause to be assigned, transferred and delivered, against receipt but without any recourse, warranty or representation whatsoever, any remaining Collateral and money received in respect thereof, to or on the order of the respective Grantor and to be released and canceled all licenses and rights referred to in **Section 4.04(b)**, in each case, at Grantors' sole expense. Each Secured Party shall also, at the expense of such Grantor, execute and deliver to such Grantor upon such termination such Uniform Commercial Code termination statements, certificates for terminating the liens on the Motor Vehicles and such other documentation as shall be reasonably requested by the respective Grantor to effect the termination and release of the liens on the Collateral as required by this **Section 4.12**, in each case, at Grantors' sole expense.

4.13 Further Assurances. Each Grantor agrees that, from time to time upon the written request of the Majority Lenders, such Grantor will execute and deliver such further documents and do such other acts and things as the Majority Lenders may request in order fully to effect the purposes of this Agreement. The Secured Parties shall release any lien covering any asset that has been disposed of in accordance with the provisions of the Loan Documents.

Section 5. Miscellaneous.

5.01 Notices. All notices, requests, consents and demands hereunder shall be delivered in accordance with **Section 12.02** of the Loan Agreement.

5.02 No Waiver. No failure on the part of any Secured Party to exercise, and no course of dealing with respect to, and no delay in exercising, any right, power or remedy hereunder shall operate as a waiver thereof; nor shall any single or partial exercise by any Secured Party of any right, power or remedy hereunder preclude any other or further exercise thereof or the exercise of any other right, power or remedy. The remedies herein are cumulative and are not exclusive of any remedies provided by law.

5.07 Governing Law; Submission to Jurisdiction; Etc.

(a) **Governing Law**. (b) **Submission to Jurisdiction**.
